Wayside's Guarantee

Thousands of people throughout our own and other countries know the full satisfaction of buying from WAYSIDE. They know that their order will be carefully filled and shipped at planting time; they know that the price will be reasonable and in strict keeping with the high quality of our products; they know that we have both expensive and inexpensive plants, but we do not have inferior ones; regardless of price! Ours is probably the most critical clientele in the country and the surpassing excellence of our offerings is simply the outgrowth of our customers' demands.

In view of these facts WAYSIDE can easily afford to give to each individual customer a most broad and generous guarantee with all purchases made from this up-to-date, and yet conservative establishment. Our older customers neither need nor expect such a guarantee. They have been acquainted with our manner of doing business for many years. They have long known that we guarantee each order we send out to be in first class condition; we guarantee each flowering plant will bloom if you but follow the simple directions which accompany it; we guarantee each shipment to reach you safely and undamaged, or it will be promptly replaced; we guarantee the accuracy of our shipping dates for your order and your own particular garden. Your order is a matter of **personal** and **individual** concern with WAYSIDE. We repeat, for the benefit of new clients who wish to become better acquainted with us: we guarantee to replace any of our products that do not come up to our claims or your expectations, or to refund your money in full, including any and all transportation charges paid by you.

Study carefully the many attractive and lovely offerings in the following pages. Order now and make your garden the most attractive in your neighborhood by next spring. Flowers are matters of the spirit. They are absolutely essential to one's complete cultural growth in an otherwise unhappy world. Never before have the color and brightness of flowers been so appreciated as at present. They are the one certain antidote for a world grown less bright. These are the reasons our customers of taste, refinement and delicacy of feeling are ordering our flowers today as never before. WAYSIDE welcomes you as one of them. Order now.

Wayside Gardens •

MENTOR, OHIO

Why This is Your Catalog!

This catalog is made FOR you, BY you. It's not just our notion of what a catalog should be. It is created mainly around the requests and suggestions of our customers, made over a period of years.

Some of you wanted more cultural directions, and they have been constantly added.

Some wanted more illustrations, and each year more have been shown.

Some wanted more illustrations in full color. These have been added, and you have freely expressed your appreciation of them. Note the many new ones shown herein, and think of these lovely flowers as being in YOUR garden.

Others have thought it would be helpful if the plants were given more detailed descriptions. So we have done that.

Shrubs and flowering trees are shown herein—solely as a result of your demand for them.

It is our sincere belief that nowhere in the world today can you find another nursery catalog that can equal this one, whose offerings can bring both beauty and thoughts of peace into your life.

Study its pages carefully. Consult it freely and often for your garden wants. Beautiful though the colored pictures may be, they are inadequate until you have actually surrounded yourself with the REAL flowers.

Order Today

Your Garden Does Not Wait

Place your order NOW while the book is in your hands. In these days you cannot bring too much beauty into your own private world. Order today while we have your favorites in stock. Your garden does not wait for you, and there is a saying that, "Nothing is more joyous than a well kept garden." Remember, simple planting instructions accompany each order.

Easy to Order. Read Below

Many of our customers send their remittances and prefer to have us make their selections. We would enjoy having you do likewise. Tell us about your garden—of some of the things now planted therein—of your favorite flowers and colors. Enclose your check. Your letter receives the careful attention of an expert on our staff; one from whom you will receive the finest possible advice and assistance, backed by a lifetime of European-trained experience and ability.

Wayside Gardens

MENTOR, OHIO

What We Mean By *Pedigreed Root-Strength Plants*

It is simply a process of elimination—a survival of the fittest where only the strongest survive.

It might be compared with a tennis tournament: many enter the competition. All of them play but many lose and drop out of the game. Finally, only two are left to play for the championship. Only ONE of them can win. The championship becomes his or hers.

Practically this same procedure takes place in the selection of the stock offered to you by WAYSIDE. We are unceasing in our tests until we have the best parent stock that can be produced—best in habits of growth and greatest in both quality and quantity of bloom.

Only champions exist at WAYSIDE. No plants go forth from our nursery until they have won their full honors and met our laboratory test of perfection. In every sense they are pedigreed and of the highest blooded stock.

Highest Success in Transplanting

Lusty and vigorous as a healthy youngster are WAYSIDE'S full-rooted, vitality-filled plants. It is a joy to watch this miracle of creation in your garden, brought about by the touch of your own hand. One woman declared she could almost "see and hear" her plants grow!

Equal in importance is the fact that your plants are dug fresh and shipped the day they are packed. We carry no plants in storage cellars or warehouses. All are vigorous and alive with young health. THEY ARE GUARANTEED TO BLOOM THE FIRST YEAR.

Field Grown

Another reason for the excellence of WAYSIDE plants is that they are field-grown in the open for at least one year. They are tried, tested and proven in a geographical location affording a wide variety of climate. Here are sufficient degrees of hot and cold, wet and dry periods that impart great stamina and survival characteristics to our plants. This enables them to thrive and flourish in most any kind of climate, at the same time giving to them rare beauty and fragrance.

Remember, WAYSIDE experts know climate and soil conditions for all parts of the country and guarantee results for your particular garden. Place your order today, at the same time asking us about any particular garden problems you might have. Buy some flowers today. Plant them around your yard or grow them in your house. They will bring a quiet calm into your life; pleasant and elevating thoughts into your soul and mind. As Voltaire said: "Let us cultivate our garden." Send your order now.

Pedigreed Root-Strength Plants in the Making

Thrill to the Joy of New Beauty

By Planting Wayside's Proven Varieties

Our women customers tell us that no garden thrill is quite so great as the excitement of new flowers—watching these attractive strangers burst forth into gorgeous bloom at the magic of your own touch. New varieties carry with them a pleasant element of surprise, giving you that same feeling of elation you experience when you KNOW that you are going to receive good news a few weeks hence.

You can create this state of pleasant anticipation by ordering some of **WAYSIDE'S** exquisite varieties today. They are truly lovely. They are entirely new. Being new they are different. Being different they are most exciting—and **WAYSIDE** discovered years ago that one of the surest ways to get a man interested in a garden is to show him new varieties.

In ordering our new varieties do not forget that they will reflect much credit upon YOUR good taste, at the same time adding to the increased enjoyment of your family and friends. Equally important is that our varieties will add much to your own stock of floral knowledge, enabling you

to show and explain to your friends flowers of which they have probably never heard.

They Are Guaranteed

The usual guarantee applies to **WAYSIDE'S** varieties. Though new to you they are not new to us. Of several hundred new varieties offered to **WAYSIDE** each year, we carefully select but a limited number. **THESE UNDERGO A TWO-YEAR FIELD TEST.** After meeting **WAYSIDE'S** exacting standards of perfection, they are then purchased with confidence by our discriminating customers—varieties are of the elect. They are distinguished! Exclusive!

These lovely plants, both new and different, are bought in considerable volume by our customers. Our stock will move rapidly as it always does. **WAYSIDE** never urges but gently admonishes you to order today while we have many beautiful selections on hand. Or, if you prefer, simply enclose your remittance and let us choose some of the better ones for you—yours will then be the certainty of looking forward to a pleasant experience.

Here They Are — In All Their Glory!

ANTHEMIS, Rodger Perry (Page 15)

Dark golden yellow flowers of great brilliancy. A fine companion to the favorite pale yellow "Moonlight" introduced by us in 1940, and which has become a great favorite because it is neat in habit and very profuse in blooming.

ARABIS, Alpinus Coccineus (Page 16)

Its bright rose-crimson flowers form a fine contrast for those of the White Arabis. Does well in light shade, fine in the rock garden or on rock walls, of easy culture and very hardy. Use it where Aubrietias will not survive.

ASTER NOVAE-ANGLIAE, Survivor (Page 17)

The Agricultural Experiment Station at Waltham, Massachusetts, says: "Among the four hundred varieties of Asters in the testing gardens of the Waltham Field Station, the outstanding variety this year was **Survivor** because of its fine lasting qualities, and beautiful color. Other Novae-Angliae Asters of merit are **Dr. Eckener**, bright salmon tinted crimson flowers with yellow disc; **Mt. Rainier**, pure white flowers with yellow discs, a most satisfactory variety for "separating" the other colors; **Shakespeare**, a novelty from England—the flowers are bright pink and have a fine bronze tinted center; and **Harrington's Pink** continues a favorite.

ASTER ALPELLUS, Triumph (Page 18)

A new English Hybrid Aster, the result of a cross between Aster Alpinus and Aster Amellus. It grows about 8 inches high. In June and July the plants are covered with sparkling blue, daisy-like flowers which reflect a delightful shade of lilac-pink. **Aster Frikarti, Wonder of Staffa** continues to be a great favorite, as well as **Aster King George** and **Star of Wartburg**.

FALL ASTER, Gay Border Blue (Page 17)

Clear intense blue flowers with yellow eye. The individual flowers are of good size and wide open.

FALL ASTER, Hilda Ballard (Page 17)

Noted particularly for the size of its flowers which for an Aster are outstanding. The color is silvery mauve with a delightful sheen.

FALL ASTER, Beechwood Challenger (Page 17)

The nearest approach to red. It is free-flowering and of medium height. Introduced two years ago, it is becoming quite a favorite.

CAMPANULA, Six Hills Giant (Page 22)

A bold plant growing 3 feet tall. The flower stems are covered for their entire length with beautiful pale blue flowers which are star-like and saucer shaped. Valuable because it grows just as well in light shade as in full sun.

CAMPANULA PERSICIFOLIA, Misty Morn
(Page 22)

The 30-inch spire-like flower stems are covered with beautiful double lavender-blue bells. The soft silvery shadings of the flowers give them a lovely and most delightful appearance. It is a magnificent plant for the garden and superb for cutting.

DIANTHUS, Old Spice (Page 35)

A rare new Clove Pink. It is as hardy as an oak. Habit of growth is neat, cushion-like and compact. Stems are about 12 inches tall. It flowers prolifically all summer and fall, 20 or more flowers on a single plant. Color of the beautifully moulded flowers is rich salmon-pink like that of the popular greenhouse Carnation, Laddie. The spicy fragrance will delight you.

DWARF 'MUM, Little Bob (Page 27)

This charming little Chrysanthemum came to us from England two years ago as an English challenge to the American Cushion "Mums." We must be frank to admit that they have us beaten for looks and form. By all means plant a few.

DOUBLE DAISY, Esther Reed (Page 27)

A lovely fully double, pure white Shasta Daisy, somewhat tender, but worth all the care you give it. **Phyllis Elliott**, no longer a novelty, is still the best of the "frilled" Shasta Daisies.

HELENIUM, Baron Linden (Page 44)

This variety is not unlike Browngold. The general color effect, however, is darker, the coppery gold flowers showing tints of dark brown and bronze. The result is lovely and satisfactory.

HELENIUM, Peregrina (Page 44)

Is unquestionably the largest flowered of the tall growing bronze colored Heleniums. A well grown plant is perfectly beautiful in the late summer border. **Chipperrfield Orange** is the best of the late growing copper colored varieties. Do not overlook the two lovely dwarfs for August bloom.

HELIOPSIS, Scabra Incomparabilis (Page 44)

Comes from France, and is an excellent early summer hot weather plant. Fine for cutting as well as the border.

HEMEROCALLIS, Hyperion (Page 45)

The flowers are a fine citron-yellow, produced in great numbers on stout stems about 40 inches tall. Few plants surpass the vigor and beauty of a well flowered clump of this wonderful Day Lily. Buds open well in water and emit a most delightful fragrance. Still THE BEST yellow Lemon Lily!

PENTSTEMON, Firebird (Page 59)

The flowers are Foxglove-like in shape and of large size, on stems about 18 to 24 inches tall, and are a most beautiful crimson overlaid with an orange sheen. It flowers profusely all summer and fall, is a cut flower par excellence, and a brilliantly showy garden plant. **Garnet**, introduced two years ago, has become a great favorite with gardeners because it is so easily grown and such a tireless bloomer. You'll like it as well as Firebird. **Grandalli** is a low-growing gem for the rock garden.

PHLOX, Charles Curtis (Page 62)

The color is outstanding. Orange or sunset-red, or perhaps capsicum- or mandarin-red would probably come nearest to it. It is a fine strong grower about 2½ to 3 feet tall, has good clean foliage. The flower head is large and unusually clear and sparkling due to the fact that the flowers do not discolor in the sun or fade with age.

PHLOX, Atlanta (Page 62)

Is one of the new patented Wayside varieties. Makes huge flower heads of white with lavender shading and violet eye. A fine companion to the two Wayside favorites, **Augusta** and **Columbia**. For absolute white and excellent heads, nothing beats **Mary Louise**, introduced last year. It will be tops in white for many years to come.

PHLOX SUBULATA, Atrolilacina (Page 61)

We believe this is the finest of the blue Phlox Subulata. Its growth is neat and compact, exceedingly free flowering. **Maysnow**, the purest of the whites, and **Samson**, the finest rose-pink, make the choice collection with **Vivid** complete.

PHLOX, Camla (Page 61)

A real treasure from England. The flowers are pure pink without any trace of magenta. It grows about 8 inches high and when in bloom in May and June, no foliage can be seen. **Phlox Camla** is unquestionably the finest of Dwarf Phlox and a plant deserving the best place in your garden.

SEDUM SPURIUM, Dragon's Blood (Page 69)

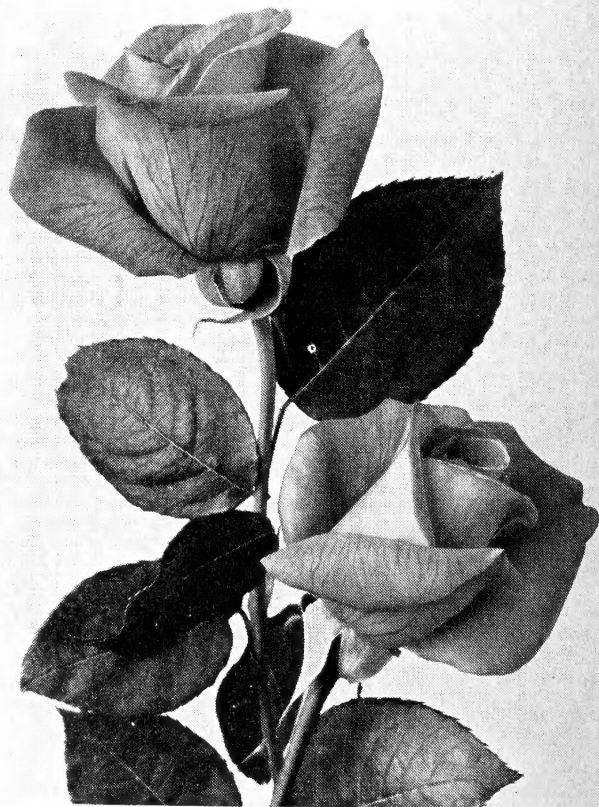

The buds and stems are bronze-red, deep bright carmine-red in flower and dark crimson when finished. The plants are completely covered with blooms during July, August and September.

STOKESIA, Blue Moon (Page 71)

Big 5- to 6-inch blue disc-like flowers on good 24-inch-long stems. **Blue Moon** is a fine border plant which requires little care, and is consequently a great favorite.

NEW TRADESCANTIAS (Page 72)

From the Department of Agriculture of Washington, D. C., a collection of beautiful dwarf growing Tradescantias was sent us. **Pauline**, Cattleya-mauve. **Iris Pritchard**, pure white flowers faintly tinted with violet. **James Stratton**, rich pure deep blue flowers in abundance. **Purple Dome**, vividly brilliant purple flowers which sparkle with life in sunlight. **James Weguelin**, free-flowering with porcelain-blue flowers from June until September. All grow about 12 inches tall, and are well behaved, easily grown garden plants.

All-America Rose, Heart's Desire

TRITOMA, Springtime (Page 72)

A fascinating new hardy Tritoma which flowers in late June and July. The upper part of the flower is rich coral-red, the lower half ivory-yellow. These sparkling and clear contrasting colors hold one's attention in a pleasing manner. It is hardy and will winter most anywhere. Then there is **Primrose Beauty**, a beautiful primrose-yellow flower, **Golden Scepter**, a deeper yellow, and last but not least, **Goldmine** with many spikes of burnished coppery gold; all of them hardy.

VIOLA ODORATA, Semperflorens (Page 77)

Sweet scented perpetual flowering. Semperflorens, or the perpetual flowering sweet-scented Viola blooms spring summer, and fall. While the flowers are not large, they are deliciously fragrant.

VIOLA, Catherine Sharp (Page 77)

The flowers are rich violet-blue with lots of character and style, grow on stiff stems long enough to permit their picking and use for cut flowers. Fine for winter flowering in cold frame. **Maggie Mott** is still the pale blue favorite.

Everblooming Roses

HYBRID TEA ROSE, Heart's Desire (Page 85)

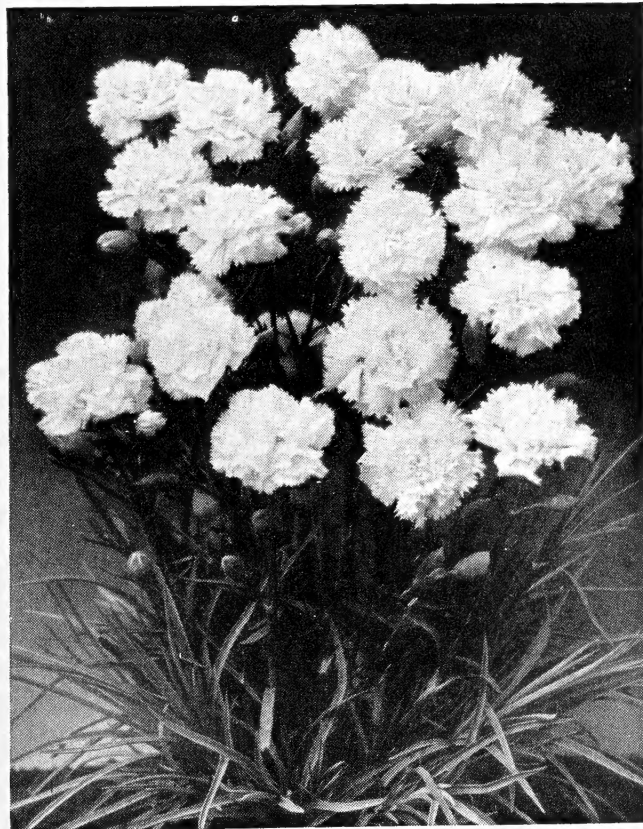

Selected by the All-America Rose Selections, Inc., as **the Finest New Rose to Be Introduced in 1942**. A magnificent red Rose with the constitution of Radiance. It's the favorite for 1942.

HYBRID TEA ROSE, Santa Anita (Page 85)

Perfectly formed long pointed buds unfold into glorious flowers of crystal clear peach-blossom pink. A magnificent variety and strong grower as well as a tireless bloomer.

HYBRID TEA ROSE, California (Page 85)

Selected by the All-America Rose Selections, Inc., as **One of the Two Finest Roses Introduced in 1941**. The color is a glorious shade of ruddy orange toned with saffron-yellow, with the exterior of the broad petals overlaid with Saturn-rose—a dual tone effect of indescribable richness and beauty.

Dianthus, Old Spice

HYBRID TEA ROSE, Sterling (Page 92)

Still holds a place of honor as one of the finest, if not the finest, pink Tea Roses.

HYBRID TEA ROSE, Apricot Queen (Page 85)

Selected by the All-America Rose Selections, Inc., as **One of the Two Finest Roses Introduced in 1941**. Orange and apricot at the base of the petals, merging to salmon rose and Phlox-pink in the fully developed bloom is descriptive as to color. The bud is long pointed.

Climbing Roses

NEW HORVATH ROSE, Meda (Page 102)

The outer petals are pale buff-shrimp-pink, increasing in intensity to a deeper and richer shading towards the center, until a beautiful tone of carmine-pink has been reached. The petals are stiff and shaped like sea shells. The buds are perfectly formed and open into Hybrid Tea-like flowers with high centers. The size of the flowers when fully open measures 3½ to 4 inches across. The substance of the flower petals is astounding, it seems impossible to crush them. They withstand adverse weather, high winds without any damage. Last, but not least, the fragrance of this variety is delightful, almost spicy and very intense.

NEW HORVATH ROSE, Thor (Page 103)

Thor might be called the climbing Crimson Glory. A superb climbing Rose, perfect bottle-green foliage, never any black spot or mildew, and in June magnificent red Roses like you get from Hybrid Teas.

NEW HORVATH ROSE, Mercurius (Page 104)

Mercurius is a large, cup-shaped, double flower, a mixture of shrimp-pink and pure pink with delicate undertones of yellow. Pillar Rose habit, very free flowering; unquestionably the outstanding kind of this color. **Hercules, Federation, Polaris, Buff King, and Doubloons** are all great favorites. **Mabelle Stearns** is being planted in greater quantities, and we now offer it in standard or Tree Rose form. You'll like it.

Flowering Shrubs

BUDDLEIA, Flaming Violet (Page 171)

The most brilliant of the Butterfly Bushes. The flowers are colored an intense imperial purple or doge-violet, magnificent under electric light, and makes a **big** show in the garden.

BUDDLEIA, Fascinating (Page 171)

A soft orchid shaded variety, the best in this color, superb for cutting, and a beautiful garden plant.

BUDDLEIA, Fortune (Page 171)

Though introduced in 1939, it still is the best of the lilac-blue Buddleias.

DAPHNE, Somerset (Page 6)

During May and early June the plants are covered with delightfully scented blush-pink, star-shaped flowers. The fragrance is not unlike that of Daphne Cneorum. The foliage is rich dark green, giving the plants the effect of Boxwood, and it remains green until the beginning of March when the new leaves push the old ones off the branches.

NEW CRIMSON WEIGELA, Bristol Ruby

(Page 7)

Makes a shapely plant with attractive rich green foliage. Color is a soft ruby-red shading to garnet-crimson, extremely pleasing in effect and without harsh tone. Attaining a height of 6 to 7 feet at maturity, it makes a perfectly formed, well rounded specimen.

OTHER NEW SHRUBS

There are the new **French Hybrid Lilacs**. Also four of the best hardy, beautifully fruited **Cotoneasters**. The white- and red-fruited **Tree Euonymus**. **Viburnum Burkwoodi** in bloom at Tulip time with delightfully sweet scented, snowball-like flowers. **Robinia Monument**, offered for the first time, is a new upright growing pink-flowered Rose-Acacia. There is a new **Mountain Ash**, a new **Weeping Birch**, in fact, most of the Trees and Shrubs offered are new, or little known.

New Hardy Daphne "Somerset"

(Plant Patent No. 315)

This deliciously fragrant and **easy to grow** Hybrid Daphne originated in England a few years ago. It has received the highest honors from The Royal Horticultural Society of Great Britain. When first shown in London, England, it was one of the highlights of the show. It has been on test at Wayside Gardens for five years, and has successfully wintered without protection all kinds of weather that occurred during those several years.

During May and early June the plants are covered with delightfully scented blush-pink, star-shaped flowers in clusters 6 to 8 inches long. The fragrance is not unlike that of Daphne Cneorum.

The foliage is rich dark green, giving the plants the appearance of Boxwood. It remains green in northern Ohio until the beginning of March when the new leaves push the old ones off the branches. In California, Daphne Somerset is evergreen.

Daphne Somerset may be used as a hedge. Spaced 18 inches apart, it will grow into a tight fine mass. It may be clipped formally and can also be pruned informally, if the wavy Boxwood effect is desired.

Left unclipped it grows about 3 feet high and 2½ feet wide. Can be kept 24 inches high and 18 inches wide without difficulty.

It is a lovely low shrub for in front of the shrub border and blends happily with hardy plants in the flower border.

Visitors to our nursery, professional as well as amateur, all have admired it. Mr. F. F. Rockwell, garden expert and writer of many horticultural books and articles, remarked when he saw it in bloom this spring: "Here is one of those rare things that happens once every 25 years or so." It is a choice plant with a great future.

FLOWERING PLANTS

	Each	Doz.
15-18 inches, with ball of earth	\$2.00	\$20.00
18-24 inches, with ball of earth	3.00	30.00
24-30 inches, with ball of earth	4.00	40.00

The above prices are for stock sold east of Rockies. For prices west of Rockies write our distributor, W. B. Clark & Co., San Jose, California. Because of greatly differing climatic conditions and methods of handling, other prices prevail on the west coast.

New Weigela, Bristol Ruby

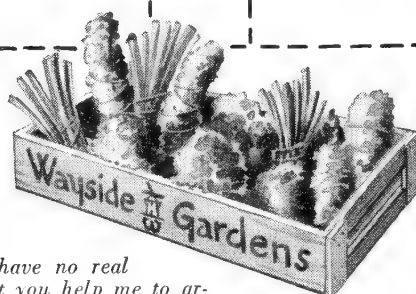

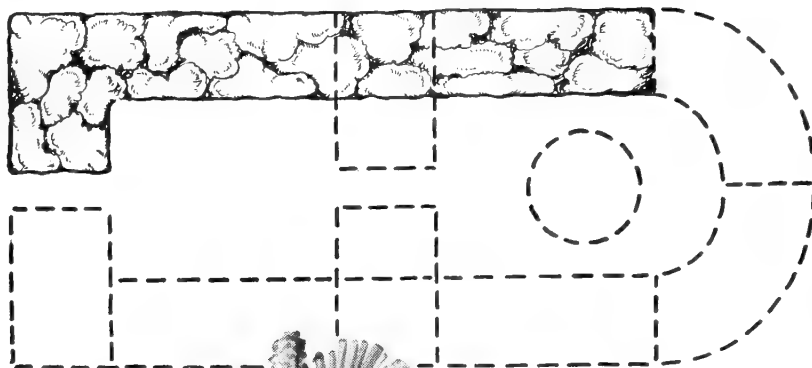

(Plant Patent No. 492)

A better "Eva Rathke" has long been needed—Bristol Ruby is just that. Hardier and more vigorous, it makes a shapely thrifty plant with attractive rich green foliage. Color is a soft ruby-red shading to garnet-crimson, extremely pleasing in effect and without harsh tone. Attaining a height of 6 to 7 feet at maturity, it makes a perfectly formed, well-rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. Plant illustrated, photographed in June, 1941, is the original; blooming in its twelfth year with never a miss or off season. We doubt if this would be possible with any other Weigela. Excellent reports from Vermont and other difficult regions fully substantiate our own estimate of its unusual hardiness. Bristol Ruby is definitely superior to Eva Rathke in every respect and visitors here at the nursery are quick to note its better qualities. Ultimate height about 5 to 6 feet.

	<i>Each</i>	<i>Three</i>	<i>Doz.</i>
2-year-old bushy plants, 2-3 feet high	\$1.25	\$3.25	\$12.50
3-year-old bushy plants, 3-4 feet high	1.75	4.50	17.50

Garden Blox A Happy Solution To Your Gardening Problems

Published Price, \$2.00, postpaid
Wayside Garden Customers, \$1.00

"I love flowers but have no real knowledge of them. Can't you help me to arrange my garden and make it more attractive and beautiful? I wish merely to know WHAT to plant, and WHERE and when to plant it."

Hundreds of such letters come to WAYSIDE. We knew that something should be done about this simple appeal. Anxious to help our customers, at the same time preserve and create more beauty in the New World, we called upon noted landscape architects and garden experts of the country.

Let the Experts Help You

At a cost of thousands of dollars to us, we bring you this expert knowledge in a simple, practical and condensed form. Easy to understand and follow, the Garden-Blox plans or maps show you how to get the maximum amount of beauty in your garden for the least possible **time, expense and trouble.**

There are 14 sheets of these fascinating maps, 18 x 24

inches in size. They come to you in bound form, enabling you to take them right out into your garden and follow their simple instructions. The plans or maps come in two sizes, 5 x 5 feet, and 10 x 5 feet, making them adaptable to different size locations. Like playing with blocks, you can make your garden any size or shape and each block is complete in itself.

Like Magic in Your Garden

Garden-Blox show you how to obtain the very finest and most efficient results. They point out your general directions and show the proper course to follow, but are flexible and adaptable enough to enable you to depart on flowery bypaths and carry out your own personal ideas. Thus you retain the stamp of your own personality on your garden; the Blox actually assist you in carrying out your own desires for your garden, and are made to fit all sections of

the country. These beautiful plans give you information you have long sought, about color arrangements, artistic and harmonious designs, where to place plants of certain size and height, showing you flowers that thrive, flourish, and grow even lovelier when planted alongside each other. Of even more importance is the fact that the Blox may reveal any mistakes you may now be making in your garden.

Garden Blox Highly Popular

Thousands of garden lovers have purchased these plans. Many are the letters of praise we have received. These artistic maps represent the cumulative knowledge—the result of a lifetime of study—of some of the noted garden-planning experts of the land.

These Garden-Blox plans are yours for a mere dollar. The published price is just double that amount. The low price of a dollar does not begin to cover the cost of them. If your order for nursery products amounts to ten dollars or more, we send the Blox to you free, if you request them.

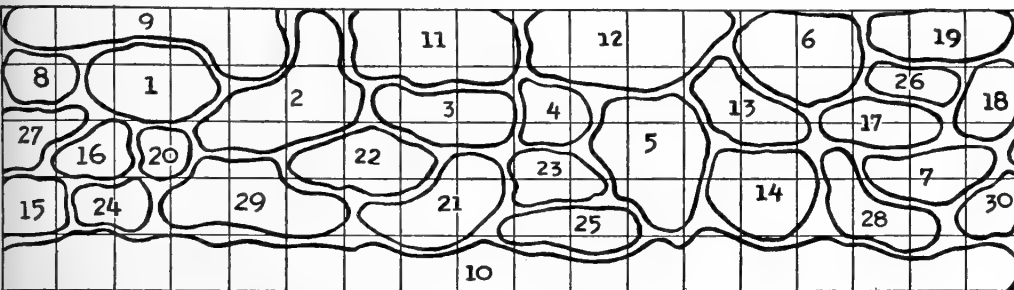

Satisfaction Guaranteed

Be assured that if you are not more than pleased your dollar will be very promptly returned. (We underestimated the demand in our last printing and it is extremely doubtful if we have enough of the Blox plans on hand to fill all of the orders we are certain to receive.) Order today.

Two Perennial Gardens for You

The two perennial borders shown in natural color on pages 9 and 10 are each 18 feet long and 5 feet wide. You can reproduce these in your own garden without trouble. We are showing below planting plans and two lists of plants used in the making of these borders. If you want to make a longer border than 18 feet, simply repeat the units and the effect will be very fine. It is what professionals do.

Planting Plan for the May-June; July-August Garden

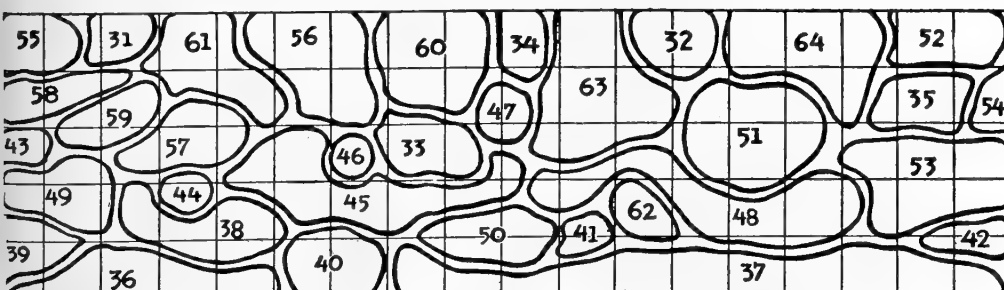

Tall clumps of Siberian Iris with Hemerocallis, German Iris, and Lupines form the background. In the foreground are early Veronicas, Coralbells, Scotch Pinks, and Dianthus Essex Witch, making a beautiful grouping for May and June. The place of these early flowers is taken in midsummer by Phlox, Shasta Daisies, Platycodon, and Tiger Lilies, which are at their best in July and August.

The catalog value of the plants needed to plant this border is \$38.46. If you would like to reproduce this border in your garden we will furnish the plants required for the special price of \$30.00 for the Early Garden.

96 Plants			Catalog value, \$38.46	

Planting Plan for the June-July; September-October Garden

During June and July this border is blue with Delphiniums between which are planted Regal and Umbellatum Lilies. The yellow foreground is created by Oenothera, also called Sundrops. In September a riot of color is produced by the Hardy Asters, Chrysanthemums, with Plumbago in the foreground. This gorgeous autumn display lasts until the end of October.

The catalog value of the plants needed to plant this border is \$47.59. As a collection we offer them for \$36.00 for the Late Garden.

All the plants required to plant both gardens for \$60.00.

A COMPLETE PLANTING PLAN WILL BE SENT WITH EACH ORDER

(* Indicates plants that
may be grown in rock
garden and border.

(** Dwarf and small-
growing plants for the
rockery only.

Hardy Herbaceous and Alpine

ACHILLEA - Milfoil or Yarrow

Showy rock and border perennials, some of which are valuable for cut flowers. Some have silvery and others elegantly cut foliage, which adds considerably to the beauty of the plants.

Culture. All will succeed in any good, ordinary soil in sunny borders. A too rich soil should be avoided. Plant in autumn or early spring, 8 to 10 inches apart. As nearly all grow freely, it is advisable to lift, divide, and replant every third year. Directly after the plants cease flowering, cut the shoots back.

Achillea Ageratifolia (See *Anthemis Aizoon*)

Eupatorium *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(syn. *filipendula*.) 3 to 4 feet. Flat heads of brilliant yellow flowers; finely cut foliage. Blooms last dried all winter.

Ptarmica, Perry's White *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Large, pure white flowers; broad, overlapping petals. Nothing better for cutting. 1 to 2 feet. June to September.

Ptarmica, Snowball *Three \$1.15, Doz. \$3.75, 100 \$18.00*
New. An improvement on "The Pearl", with fuller and more perfect flowers. Best for borders; neat plant.

Sulphur Glow *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Same habit of growth as *Tomentosa* but taller; established plants are about 18 to 24 inches high. The sulphur-yellow flowers are fully produced on stiff stems and are suitable for cutting. The value of this plant is that it will grow well in poor soil and in hot, dry locations where other flowers perish. Blooms from June to August.

Taggetea *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A splendid plant for hot dry sunny places. Does well in the most indifferent soils. The pale yellow flowers grow on 18-inch stems which are produced in great profusion from June until the end of September. Excellent cut flower as well as a first rate border plant.

***Tomentosa** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Bright yellow flowers. Excellent for rockeries; 6 to 8 inches. July to September. Plant 4 inches apart.

Aconitum Wilsoni

ACONITUM - Monkshood

Lovely late summer and autumn flowering perennials of stately growth, particularly adapted for shady or half-shady borders.

Culture. Aconitums will flourish in any good ordinary soil that is fairly moist. They are especially suitable for shady or semi-shady position, and are best grown in groups of three or more. Plant in autumn or very early spring, 6 to 8 inches apart. They display their beauty to the best advantage when they have become well established and formed large clumps. It is therefore advisable not to disturb the plants frequently.

Fischeri *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A dwarf variety with dark blue flowers. September and October. 2 to 3 feet. This is the hardiest and most useful of all the Aconites.

Napellus *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Upright, single spike reaching height of about 3 to 4 feet. The straight spike is covered during July and August with dark blue flowers.

Sparks' Variety *Three \$1.45, Doz. \$4.75, 100 \$25.00*
July- and August-flowering. Tall branched spikes, 4 to 5 feet high, covered with deep blue flowers in great abundance.

Wilsoni *Three \$1.45, Doz. \$4.75, 100 \$25.00*
The true variety which we are herewith offering is the late autumn-flowering kind, producing 6- to 7-foot spikes covered with beautiful mauve-colored flowers. It is a very rare and lovely variety.

Achillea, Snowball

AETHIONEMA - Persian Candytuft

Dwarf rock plants of most fascinating character. The foliage is glaucous blue, stems are woody at the tips of which are produced rose and rose-pink flowers. Suitable for the rock garden or for grouping on the margins of borders.

Culture. All will thrive in ordinary, light, sandy, or well-drained, gravelly soil. Wet, heavy soils are unsuitable. They are especially adapted for sunny places in the rock garden. When plants are received, cut back about one-half of branches. Plant in fall or very early spring, four to six inches apart.

***Grandiflorum** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Blue-green foliage which remains handsome all summer. Strong twiggy bushes, covered with long, slender spikes of rosy pink flowers. One of our best rock plants. 9 inches. June-July flowering.

Plants

AGAPANTHUS - Blue Lily of the Nile

Beautiful lily-like plants with graceful and ornamental foliage from the base of which spring straight stems topped with clusters of blue lily-like flowers.

Culture. Will thrive in any good ordinary garden soil in full sun or very light shade. Plant in spring. Protect in cold regions.

Umbellatus

Plants in 6-inch pots, Each \$1.50, Doz. \$15.00

Dormant roots, Each 60c, Doz. \$6.00

(Blue Lily of the Nile.) A most desirable plant for decoration of terrace or formal pools. Planted in large pots or tubs on the lawn or piazza they make a very fine picture. They must be stored inside, however, in cold sections of the country as they are not hardy.

*Umbellatus Mooreanus

Each 60c; Three \$1.70, Doz. \$6.00

Grows about 18 inches high, leaves rather short and upright; flowers are large and dark blue, as large as of Umbellatus itself. A lovely small plant for the rockery or near a small pool or stream. June, July, and August flowering. Quite hardy.

Agapanthus Umbellatus

Anchusa, Dropmore

ANCHUSA - Alkanet

Stately and handsome herbaceous perennials belonging to the Forget-me-not order. It is difficult to imagine a more beautiful plant than a well-grown specimen of a Dropmore when in flower. The leaves are hairy and silvery green and the brilliant blue flowers are borne in racemes on branching stems.

Culture. Anchusas require a deep, well-drained soil, not too damp or heavy, and a sunny position. They are best grown singly, so that they can display their natural contour to good advantage. Plant in fall or early spring, 18 inches apart, except Myosotidiflora, which should be planted in groups of three or more, about 8 inches apart.

Dropmore

Tall spikes of beautiful blue flowers in June and intermittently all summer. 4 to 5 feet.

Three \$1.15, Doz. \$3.75, 100 \$18.00

Morning Glory

Very beautiful variety, with large, pale blue flowers in June and intermittently all summer. 3 to 4 feet.

*Myosotidiflora

A distinct dwarf perennial from Russia, with clusters of charming blue flowers resembling Forget-me-nots. An effective plant for shady or sunny places, flowering in May and June. 12 inches high.

ALSTROEMERIA - Peruvian Lilies

A very beautiful genus. Their lily-like blossoms make fine cut flowers as well as garden subjects.

Culture. Easily grown in well-drained sandy soil in full sun. Plant early spring. Cover roots about 4 inches. Set 6 to 8 inches apart and protect in winter.

Aurantiaca

Three \$1.75, Doz. \$5.50, 100 \$35.00

Neat upright growing plants about 24 inches high with loose heads of brilliant orange-colored flowers. Invaluable for cutting and border display.

AJUGA - Bugle

Dwarf, creeping perennials. The leaves are a rich shiny green, and the shoots more or less creeping. Excellent plants for edging or carpeting bare spots. Suitable for sun or shade.

Culture. They will thrive in good, ordinary soil in sun or partial shade. They make excellent edging plants in shady borders or for shady spots in the rock garden where a quick growing plant is required, also excellent for carpeting ground under shade trees where grass will not grow. Plant in autumn or spring, 6 inches apart.

*Genevensis

Three \$1.25, Doz. \$4.00, 100 \$20.00

Grows 6 to 8 inches high; dense spikes of blue flowers in May and June.

*Reptans rubra

Three \$1.25, Doz. \$4.00, 100 \$20.00

Grows 3 to 4 inches high, with deep purplish blue flowers in May and June.

ALYSSUM - Madwort; Basket of Gold

Attractive early-flowering perennials, suitable for growing on the margins of sunny borders or in sunny places in the rock wall or rock garden.

Culture. The varieties offered will succeed in any good, ordinary soil which must be thoroughly drained. They are best grown in groups of three or more in the rock garden, or as edgings to beds. Plant in fall or spring, about 6 to 8 inches apart. Alyssum Saxatile is frequently used for carpeting beds planted with spring bulbs, and is very effective for that purpose.

*Saxatile compactum

Three \$1.00, Doz. \$3.50, 100 \$15.00

Big clusters of bright yellow flowers in early spring. An excellent plant for the rockery or front of borders. One of the best early yellow plants to use with Tulips; 12 inches high.

*Saxatile citrinum

Three \$1.25, Doz. \$4.00, 100 \$20.00

Same habit of growth as Saxatile Compactum but the flowers are a lovely pale yellow; much more desirable. They blend beautifully with pink or lavender Tulips and are outstanding in the spring garden or rockery.

*Serpillifolium

Three \$1.25, Doz. \$4.00, 100 \$20.00

(Alpestre.) Very dwarf. 4 to 5 inches high, with racemes of pale yellow flowers and rough gray leaves. Charming for the rock garden. Follows just after Saxatile is out of bloom.

FOOD FOR THOUGHT As Well As For Your Flowers

Plants, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers, but they are mostly only stimulants.

What your plants need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 190 and get the full facts about it.

ANEMONE (Species)

A genus which furnishes many showy species of hardy flowers for cutting. Some commence to flower very early in the year, and others early in autumn. Their requirements are simple and all are easily grown.

Culture. Because of the many species offered, most of which require different soils and care, cultural instructions are given with each kind listed. All may be planted in fall or early spring. All hardy and do not require winter protection which is advised for the Japanese varieties.

***Hepatica coerulea** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Wood Anemone.) A pretty native, spring-flowering plant, with blue flowers; prefers shade, but will do fairly well in any open situation in moist, rich loam. We offer large clumps, each consisting of 6 to 12 flowering crowns.

***Hupehensis** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Early Anemone.) The plant grows from 12 to 14 inches high and from early in August until late in the autumn produces an abundance of flowers about 1½ inches in diameter, of a pleasing mauve-rose. Similar to the Japanese Anemone. Plant 8 to 10 inches apart in ordinary good garden soil in sun or light shade.

Magellanica *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A fine creamy white flowered variety. The nodding bell-like flowers are produced freely on stems about 18 inches high. An excellent plant for the border in dry or moist places in shade or sun. Flowers from May until August.

***Pulsatilla** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
(Pasque Flower.) Grows from 9 to 12 inches high and produces violet or purple flowers during April and May. An interesting plant for the rocky or well-drained border. Plant in full sun, 6 to 8 inches apart.

***Pulsatilla rubra** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Of dwarf habit with reddish purple flowers.

***Pulsatilla alba** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Some habit as the Pulsatilla with beautiful white flowers. Very rare.

***Sylvestris** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Fine for cool, moist corner of rock garden or border. Large, white blossoms on nodding stems of about 12 inches, blooming freely in May and June. Lovely cut flower. Plant 8 to 10 inches apart.

Anchusa Myosotidiflora (See page 13)

Anemone Pulsatilla

ANEMONE JAPONICA - Japanese Windflower

Valuable plants suitable for massing or as single specimens in the border. They grow rapidly and are profuse in bloom, gaining strength and beauty each year. The blooming period extends from September till mid-November, the large, open flowers furnishing abundant cut flowers and a brilliant display in the garden. All are 2 to 3 feet high.

CULTURE. Ordinary, good garden soil which is well drained will suit all varieties. They do well in light shade or sun, should be watered freely during dry weather. In temperate parts of the United States, fall planting is practical. Best results are obtained from vigorous young plants set out in late spring. Plant in well drained locations, 8 to 12 inches apart and protect with straw during winter.

Alba *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Purest single white, with yellow center.

Alice *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Large flowers of rose-pink, lilac center; excellent new variety. The best and strongest grower of all pink sorts.

Marie Manchard *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A beautiful semi-double white, early flowering Japanese Anemone. A fine improvement over Whirlwind. Height 3 feet. Flowers are produced in abundance.

Prince Henry *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Double red flowers; dwarf, but early. Very satisfactory.

Queen Charlotte *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Abundant semi-double flowers, broad and perfectly formed; "La France" pink.

Rubra flora plena *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Double rose-colored blooms in great profusion.

September Charm *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Flower is of medium size. The color is delicate silvery pink, shaded with rose, presenting a beautiful color mass when grouped. Extremely free and attains an average height of 2 feet.

Whirlwind *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Excellent double white flowers. An old-fashioned variety but a great favorite.

[14]

Wayside Gardens New Giant Hybrid Aquilegia

ANTHEMIS - Chamomile

Free flowering perennials with elegantly cut foliage and daisy-like flowers. Suitable for edgings or grouping on the margins of borders. Flowers are especially fine for cutting.

Culture. Ordinary soil and a sunny position will suit all kinds. Plant in autumn or spring, 10 to 12 inches apart.

Aizoon *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Also called *Achillea Ageratifolia*. One of the prettiest of mountain Chamomiles. About 6 inches high. Fine silvery foliage with small daisy-like white flowers.

Moonlight *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Few plants are more satisfactory in the garden than *Antemis Moonlight*. Its pleasing pale yellow daisy-like flowers are 2½ inches in diameter and produced by the hundreds, making a gorgeous show in early summer. They are superb for cutting and the handsome flowers last for several days in water. They blend beautifully with all other flowers. The habit of growth is neat. Insects do not bother it, grows in almost any kind of soil, does not spread unduly and crowd out other plants. The foliage is ornamental. Not much more can be asked of any plant.

Rodger Perry *Three \$1.50, Doz. \$5.00, 100 \$30.00*

The dark golden yellow flowers have a brilliancy all their own and are produced in great masses. This variety is far superior to *Sancta Johannis* or any other dark yellow. Does not seed all over the garden, as does "Kelwayi" but remains a neat, compact plant. Flowers are perfect for cutting as well.

ANTHERICUM - St. Bernard's or St. Bruno's Lily

A lovely plant with narrow leaves and lily-like flowers borne in graceful sprays. Useful for flowers for cutting; also very graceful subjects for sunny borders.

Culture. They require a deep, rich, well-drained soil. Heavy and damp soils are not suitable. They will succeed in sun or partial shade, and require copious supplies of water in dry weather. Best grown in groups of six. Plant in autumn or spring, 6 to 8 inches apart. Top-dress annually in early spring with well-rotted manure.

Liliastrium major *Three \$2.00, Doz. \$6.00, 100 \$40.00*
Lovely spikes of white flowers 1½ feet high in May and June. A choice border plant.

Ramosum *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A lovely graceful plant with good foliage and many strong thin stems covered with small lily-like white blooms in panicles, from June until August. Very graceful with other flowers.

Anemone Japonica

AQUILEGIA - Columbine

Culture. Columbines succeed in ordinary soils containing plenty of humus, provided by dressings of peat and well-decayed manure. Heavy soils are not suitable for the hybrids, but good for the common species. All prefer partial shade; besides, the flowers develop better, grow larger, and last longer in perfection in partial shade than in sun. Plant in fall or spring, 8 to 10 inches apart. Best grown in groups of three or more. Excellent combined with Japanese *Anemone*.

Canadensis *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Common American Columbine.) The native bright red and yellow variety, and one of the brightest.

Chrysantha *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Beautiful golden yellow flowers; blooms for two months.

Chrysantha alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*
White form of above.

***Coerulea** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Rocky Mountain Blue Columbine.) Lovely blue flowers with long spurs.

Crimson Star *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Its flowers are very large with crimson sepals and spurs and white petals; an entirely new color in *Aquilegia*. The plant has a sturdy free-flowering habit.

Dobbie's Imperial Hybrids *Three \$1.25, Doz. \$4.00, 100 \$20.00*
These new long-spurred Columbines are unequalled for their range of colors and sturdiness. They have received a great deal of attention abroad and are considered in England the best mixture offered today.

***Flabellata nana alba** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A delightfully dwarf variety for the rock garden, perfect foliage and ivory-white flowers. The whole plant not over 8 to 10 inches high. A quaint Japanese species.

Helenae *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Dark blue, long-spurred flowers with white center. Strong grower and free flowering variety. This is a selected form of the well known *Aquilegia coerulea*.

Hensol Harebell *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A beautiful free flowering, long lived variety from England. It is a splendid grower and rich bloomer. The cool blue pendulant flowers with curved spurs are outstanding and abundantly produced, making a beautiful picture when in flower. We believe it one of the best blues.

Longissima *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Noted for its unusually long slender spurs, 4 to 5 inches long, giving the pale yellow flowers an exceptionally graceful effect. Coming from Northern Mexico it is able to withstand heat and dry weather. Does well in hot, dry places in the garden. June flowering. Height 18 inches.

Scott Elliott Long-Spurred Hybrids *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Wonderful colors with very long-spurred flowers. Our stock is from seed from this breeder, absolutely true strain.

Scott Elliott Pink Shades *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Popular mixture of long-spurred pink flowers. All undesirable colors are carefully pulled out at blooming time.

WAYSIDE GARDENS

NEW GIANT HYBRID AQUILEGIAS

A magnificent strain of Columbines, very large flowers with long spurs, robust growth and rich colors. A great step ahead in Columbines. The following colors are now available:

Giant Pink Hybrids *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A variety of lovely shades of pink.

Giant Yellow Hybrids *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Various shades and tones of yellow.

Giant Ruby and Crimson Hybrids *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Deeper shades of red in wide variety.

Giant Blue Hybrids *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Fine shades of blue.

Giant Mixed Hybrids *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A mixture of all colors and shades, many not seen before.

[15]

Antemis Aizoon

Arenaria Verna. The most satisfactory plant for growing in crevices of stone walks

Arabis Alpina Flore-Pleno

ARABIS - White Rock-Cress

Useful plants, suitable for forming edgings to beds and borders, and fine for rockery or dry wall.

Culture. Any good, ordinary soil that is not too damp will suit the Arabis. Plant 6 inches apart in autumn or spring. After the flowers have faded cut the straggling shoots back moderately to encourage a new tufted growth. Do well in either shade or full sun.

***Alpina** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Pure white flowers produced in dense masses, splendid for border and rockery work, and last quite some time when cut.

***Alpina flore-pleno** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Same as above but with double white flowers; very fine rock plant and fine for cutting. Really a lovely thing when combined with other small flowers.

***Alpina rosea** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Similar in habit to the above. The flowers are a delicate pale pink.

Alpinus coccineus *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A novelty of merit. Its bright rose-crimson flowers form a fine contrast for those of the white Arabis. Does quite well in shade, looks fine in the rock garden or on rock walls, of easy culture and as hardy as the others.

ARENARIA - Sandwort

All of dwarf-growing or creeping habit. Splendid plants for the rock garden and for planting in flagstone walks or terraces. Montana especially is a very lovely plant for large masses in the rock garden.

Culture. All require a well-drained, sandy soil, not too rich, and they prefer a sunny location in the rock garden or rock wall. Plant in fall or early spring, 4 to 6 inches apart.

***Montana** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Close tufts, profusely covered with small, silvery white flowers quite early in the season. Excellent as an edging plant in formal gardens and for rockeries in sunny places. The flowers in May resemble small, white, upturned Morning Glories.

****Verna caespitosa** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A prostrate growing plant creeping low over the ground and between cracks in stones. Excellent for planting between flagstones, on terraces or walks. Does well in sun or shade.

ARTEMISIA - Southernwood; Sage Brush

Shrubby, sagelike plants suitable for the hardy border. They have more or less hairy, finely cut leaves and yellow or white flowers, borne in panicles. Only about three are worth growing.

Culture. Ordinary soil and a dry, sunny border for Silver King and a moist one, but well drained, for Lactiflora. Plant in autumn or spring, 8 to 10 inches apart.

Lactiflora *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A tall-growing plant of fine foliage and heads of small, white flowers in August and September, which fill the garden with fragrance.

Silver King *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A striking white-leaved contrast plant. A beautiful "mist" for setting off bouquets and floral combinations. The entire color effect bright frosted silver. Three feet high. Sprays may be cut to mix with winter bouquets.

ARMERIA - Thrift or Sea-Pink

Dwarf-growing perennials with grassy leaves and a tufted habit of growth. The flowers are borne in globular heads from May until the end of July, plants are suitable for edgings to borders and beds and form lovely clumps in the rock garden.

Culture. Grow in dry, sandy soil and sunny position. Plant 6 to 8 inches apart in autumn or spring.

***Cephalotes rubra** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
8 to 10 inches; deep pink flowers freely produced from a neat cushion-like plant.

***Lauchiana** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Bright rosy red, 3 to 6 inches. May-June. Very free flowering. Evergreen foliage.

***Maritima alba** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
3 to 6 inches. May and June. Tufts of deep green foliage; white flowers; evergreen foliage.

***Wayside Gardens Tall Hybrids** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
18 to 24 inches. June to October. Large flowers of delightful white, rose and pink shades. Very useful for edging and cutting.

ASCLEPIAS - Butterfly Weed

To this genus belong many species, most of them not worth while for the flower garden. Same may be used in the wild garden, but there are more worth-while plants even for that. Tuberosa is the only one considered.

Culture. Tuberosa requires a sandy soil while all the rest do best in a moist, peaty soil. Requires sun. Plant in autumn or early spring, 6 to 8 inches apart.

Tuberosa *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Attractive plants, flowering during July and August and growing about 1½ feet high. Produces umbels of varying orange-colored flowers which are lovely to cut and last a long time.

ASPERULA - Woodruff

Pretty dwarf, white-flowered perennials. They have long, creeping stems, whorled leaves, and four-lobed flowers. Excellent plants for shady positions under shrubs, trees, or in shady place in rockery or woods.

Culture. Will thrive in ordinary soil in shady positions. Plant in autumn or spring, 6 to 8 inches apart. They soon spread into bold masses.

***Odorata** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
6 to 8 inches high. Increases rapidly and is used for carpeting shady places and in the woods. Heads of small white flowers appear just above the foliage in May. A fine, scented herb reminding one of new mown hay. A grand plant for shady places in woods or rock garden.

ASPHODELUS - Asphodel

Strong growing perennials reminding one of the Eremurus (Foxtail Lily); in fact, in Europe they are the "poor man's" Eremurus. They have narrow, roundish, rather ornamental leaves and produce their yellow flowers in long, narrow racemes. Does well in front of shrubbery, in the border, or wild garden.

Culture. Require a rich, deep, well-manured soil. Plant in autumn or spring, 8 to 10 inches apart.

Luteus *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Tall spikes of bright yellow flowers; very fragrant swordlike foliage; fine for borders; plant in groups of three or more for the best effect.

Dwarf Aster, Lavanda

ASTER - Starwort or Michaelmas Daisy

Lovely autumn-flowering perennials, the value of which for border decoration, or cut flowers, is inestimable. There are scores of lovely varieties in all shades of blue, white, pink, and crimson to select from. They range in height from about 2 to 4 feet. Both the species and varieties may be grown in the hardy borders.

Culture. Michaelmas Daisies will thrive in any soil and almost under any rough treatment. They may be grown with other perennials in the mixed border, or in a border in conjunction with Lilies and Tritomas, where they form a gay autumnal display. Plant in fall or spring, 2 feet apart, in full sun, in moist soil. Asters require a lot of moisture.

NOVI-BELGI SECTION

This group or section of Hardy Asters is known by its bushy growth and long branching sprays in great profusion. In order to obtain most effective results and best flowers permit only two or three spikes to develop to each plant. Cut out all others and you will have more blossoms, finer flowers and better shaped plants.

Amethyst *Three \$1.50, Doz. \$5.00, 100 \$30.00*
It is the nearest double, purple-blue Aster in existence. There is nothing like it. Flowers are produced by the hundred on fine upright stems about three feet high. In comparing this variety with others, Amethyst is unquestionably the best one in our collection of this shade.

Beechwood Challenger *Three \$1.50, Doz. \$5.00, 100 \$30.00*
This variety is in our opinion the closest to red we have been able to come so far in Hardy Asters. It is free-flowering, of medium height, and brilliant crimson-red color. The flowers are freely produced. Planted together with Mount Everest, the contrast is striking.

Blue Gem *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Double flowers of rich blue; the best blue in cultivation.

Climax *Three \$1.15, Doz. \$3.75, 100 \$18.00*
One of the best and showiest, with large, pyramidal spikes of large, light lavender-blue flowers; very free. 5 feet. Excellent as a cut flower.

Gay Border Blue *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Clear intense blue flowers with yellow eye. The individual flowers are of good size and wide open. This variety is not only a fine garden plant, but is most attractive for cutting as well. It makes an impressive 5-ft. plant and usually in full bloom the middle of September.

Hilda Ballard *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Noted particularly for the size of its flowers which for an Aster are outstanding. The color is silvery mauve with a delightful sheen. Flowers are quite double. Considered by all one of the finest Asters introduced by Ballard of England. The 5-ft. stalks are covered with bloom the middle of September.

Mammoth *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Vigorous upright growth with long side sprays, ideal for cutting. The flowers are THE LARGEST OF ANY ASTER, semi-double with many long, broad rays of a most lovely warm lavender shade. The many flowers cover the plant. Quite the finest Aster ever raised. Five to six feet.

Mt. Everest *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A wonderful white Aster, and by far the finest and best white. It forms very tall, well-shaped, pointed pyramids with an abundance of lateral growths, which flower right down to the ground. The flowers are large and dead white with a very small eye. Healthy foliage. 3 to 4 feet.

Queen Mary *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Graceful flowers 2½ inches in diameter arranged loosely in branching panicles of particularly pleasing blue-tinted lavender; 3½ feet high.

Red Rover *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Deep rosy red flowers with golden center; buds bright red. Compact habit, very free blooming. Should be in every border. A real novelty. Three to four feet. September to frost.

Royal Blue *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Rich deep blue. Good strong grower. Quite early. 3 feet.

Sunset *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A glorious sunset-pink. Good habit and extremely free flowering. One of the best new pink sorts. Grows about 36 inches tall.

NOVAE-ANGLIAE SECTION

These are the very hardy and permanent fall Asters. Excellent for background planting in flower borders. They do not spread unreasonably. The stems are stiff, bearing their handsome flowers in terminal clusters. Allow only 3 or 4 stems to develop on 1 plant. By so doing you will have more and better flowers. Height of plants can be regulated by "pinching" the terminal growth about 6 inches in July.

Dr. Eckener *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Bright salmon-tinted crimson flowers with yellow disc cover plant in early autumn. It blooms freely and does fine in wet ground. Very showy in the hardy border.

Harrington's Pink *Three \$1.45, Doz. \$4.75, 100 \$25.00*
The first truly pink Aster! Its blooms match exactly the deep rose-pink of Ridgway's color chart. A perfectly lovely plant in the autumn garden where it grows to 4 feet or more with bold heads of blooms creating a striking picture. It is excellent for cutting.

Mt. Rainier *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Pure white flowers with yellow discs. A most satisfactory variety for "separating" the other colors. It is an excellent plant to help create fine fall effects.

Shakespeare *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A very fine Novae-Angliae Aster imported from England. The flowers are bright pink and have a fine bronze-tinted center, free flowering and permanent. Makes a fine show in the border.

Massachusetts Horticultural Society

AWARD OF MERIT

To Aster novae-angliae Survivor
exhibited by Waltham Field Station
on October 9, 1940

Edmund J. Tamm
Secretary

HARDY ASTER, "SURVIVOR" (Novae-Angliae)

(Patent Applied For) *Three \$1.50, Doz. \$5.00, 100 \$30.00*

This beautiful pink hardy fall-blooming Aster received the Award of Merit at the "Harvest Show" of the Massachusetts Horticultural Society in 1940.

We quote in part from a letter to Massachusetts Nurseryman by the Agricultural Experiment Station at Waltham, Massachusetts:

"Among the four hundred varieties of Asters in the testing gardens of the Waltham Field Station, the outstanding variety this year was Curtis Pink (now named Survivor because of its fine lasting qualities.) This Aster was sent to the Station by an amateur who declared it superior to the popular Harrington's Pink. Unquestionably this Novae-Angliae proves to be a worthy rival of the older sort, and because of its unusually late flowering period will at least supplement it, if not replace it entirely.

"Those who have enjoyed Harrington's Pink Aster since it became available will appreciate Survivor in that it extends the season **two weeks longer, with larger flowers** of the same bright rose-pink color on plants of a more open habit."

DWARF ASTERS (Dumosus Hybrids)

The new dwarf Asters are unquestionably among the most worth while plants that have recently come to us from England. Very neat in habit with attractive foliage and in September and October are graced with hundreds of blooms of the most delicate shades of lavender, pink and lilac. Not one person who saw them growing in our nurseries but admired them and purchased some.

They rarely exceed one foot in height and during the blooming period in September the plants are completely covered with blossoms. They are exceptionally valuable for the edging or for grouping in the front of borders and are also charming for the rock garden, coming at a time when the rock garden is void of flowers. Perfectly hardy and grow most anywhere in any good garden soil.

Constance *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A really pure shell-pink, a delightful color, of very graceful habit. October. 9 inches.

Countess of Dudley *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Charming clear pink flowers with yellow eye, of bushy habit and free-flowering. Late September. 9 inches.

Lavanda *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Lavender-blue flowers, very free-flowering, commencing to bloom early. September. 6 inches.

Lilac Time *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Lovely soft lilac flowers, free-flowering, of bushy habit. September-October. 12 inches.

Niobe *Three \$1.50, Doz. \$5.00, 100 \$30.00*
The only white variety, of dwarf compact habit with pure white flowers. September. 6 inches.

Ronald *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Forming a dwarf bush covered with flowers of a pleasing bright shade of lilac-pink with rose-pink buds, very showy. Mid-September. 1 foot.

Aster Alpinus, Goliath

Aethionema Grandiflorum (See page 12)

Arenaria Montana (See page 16)

ASTER SPECIES AND HYBRIDS

A genus which furnishes many showy species of hardy perennials for border or rock garden; also attractive flowers for cutting. Some commence to flower very early in the year, and others early in autumn. Their requirements are simple and all are easily grown.

Culture. May be planted in fall or early spring in ordinary garden soil.

Alpinus albus *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Fine dwarf white Aster, bearing large, single white flowers on stems 6 to 8 inches high. May and June. Excellent for rock gardens; plant in full sun, 6 to 8 inches apart.

Alpinus, Goliath *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Indispensable for the rockery or edge of hardy borders; 6 to 10 inches high, and bears large, showy, bluish purple flowers in May and June. Plant in full sun, 6 to 8 inches apart.

Alpinus ruber *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Also good for the rock garden or as an edging plant, producing rose-purple flowers; 6 to 10 inches high. May and June. Plant in full sun, 6 to 8 inches apart.

Apellus, Triumph *Three \$1.45, Doz. \$4.75, 100 \$25.00*

This lovely new English hybrid Aster is the result of a cross between Aster Alpinus and Aster Amellus. It grows about 8 inches high. In June and July the plants are covered with sparkling blue, Daisy-like flowers which reflect a delightful shade of lilac-pink. It does exceedingly well, flowers freely, grows easily, not requiring any particular care; altogether a fine and worth-while plant for the hardy border.

Frikarti, Wonder of Staffa *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Lavender-blue flowers from 2 to 2½ inches across, produced from June 1st until the middle of November. The plant does exceedingly well in light shade and comes to perfection in full sun. We consider it the finest garden plant introduced during the past twenty years. There are no other hardy plants which bloom so persistently over so long a period—not just a bloom or two but a constant rich display of flowers is kept up the entire summer. Flowers are excellent for cutting.

Mauve Cushion *Three \$1.25, Doz. \$4.00, 100 \$20.00*

It forms a circular cushion-like plant 1½ feet across, rarely exceeding 9 inches in height; the flowers, of delicate, soft mauve, with silvery white reflections, measure over 1¼ inches in diameter, and are produced in such lavish profusion as to completely cover the plant; the blooms begin to expand early in October, but are not at their best until November.

Star of Wartburg *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A beautiful spring-flowering Aster. Dark lilac-blue flowers with orange centers rise on one-foot stems in great numbers. The flowers are usually 2½ to 3 inches in diameter, making a fine display in the border.

ASTILBE (See Spiraea).

AUBRIETIA - Purple Rock Cress

Although strictly a rock plant, yet they are also most attractive subjects for growing in masses in, or forming edges to borders. They are also much used for carpeting the surface of beds planted with spring bulbs.

Culture. Aubrietias will thrive in any fairly good, well-drained soil. On heavy or damp soils they are apt to freeze out in winter. Best grown in masses in the rock garden, or as edgings. Plant six inches apart in autumn or very early spring.

***Eyri** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Rosy lilac; good grower, and especially fine in clumps in combination with bulbs; does well in light shade.

BAPTISIA - False-Indigo

Culture. A deep, rich soil and a sunny position is desirable for these plants. They should be given ample space to grow, so as to display the natural beauty of the foliage. Plant in autumn or spring, 12 to 18 inches apart.

Australis *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Dark blue, pea-shaped flowers in June, are produced on top of spikes 2 feet high; suitable for the hardy border or wild garden. Very attractive foliage all summer.

BEGONIA (Hardy)

Evansiana *(Plants in Pots) Three \$1.25, Doz. \$4.00, 100 \$20.00*

A perfectly hardy Begonia which will live outdoors during the winter if protected with just a few leaves. Large showy pink flowers borne with the greatest profusion during September and October. Exceptionally nice plant for all-summer bloom in shady locations. 2 to 2½ feet. Growing plants from small pots.

BELLIS PERENNIS - English Daisy

The double-flowered Daisies have descended from the Wild Daisy of lawns. They are favorites for edgings and extensively used in Europe. They are most attractive plants for spring bloom, and not difficult to grow.

Culture. Succeed best in a medium, moist soil. They do not thrive in dry soils or hot positions. They can be grown as edgings to beds or borders, grouped in colonies on the margins of borders, or used for carpeting beds of bulbs. Plant in fall or spring, 4 to 6 inches apart, cover lightly during winter.

Perennis, Snowball *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Mammoth white, may also be used for cutting.

Perennis, Longfellow *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Mammoth pink, good for cut flowers also.

BOCCONIA - Tree-Celandine or Plume Poppy

Hailing from China, of handsome, stately growth, have glaucous or greyish, lobed leaves, and buff or cream-colored flowers borne in feathery plumes or panicles between June and September. Very effective and ornamental plants to grow on the lawn or in the background of borders.

Culture. A rich, loamy soil is essential for growing these plants really well. Plant in autumn or spring, 12 to 18 inches apart.

Cordata *Three \$1.15, Doz. \$3.75, 100 \$18.00*

A noble hardy perennial, beautiful in foliage and flower, and adapted for planting in the shrubby borders, and in bold groups in any position, attaining 6 to 8 feet in height. Flowers creamy white in terminal panicles.

BETONICA - Betony

An attractive border perennial, yielding a profusion of flowers, which are most valuable for cutting.

Culture. Will succeed in good, ordinary soil in a sunny border. Best grown in groups of three or more. Plant in autumn or spring, 8 to 10 inches apart.

Grandiflora

Three \$1.25, Doz. \$4.00, 100 \$20.00

Close tufty foliage with bright rose-purple flowers on long stems about 2 to 3 feet tall, produced during June, July and August. A lovely plant for a hot, dry place in the border.

BLEEDING HEART (See Dicentra).

BOLTONIA - Bolton's-starwort

They are similar in foliage and flower to the Aster, are most graceful in habit, and well suited for the mixed border or the wild garden.

Culture. Precisely the same as for Asters. The Boltonias bloom during July, August, and September, while the Asters bloom from then on.

Latisquama

Three \$1.15, Doz. \$3.75, 100 \$18.00

Pink, slightly tinted with lavender. 4 to 6 feet. Really the best of all varieties offered.

CALYSTEGIA

A member of the Convolvulus or Morning Glory family which came to us from Asia. Exceptionally useful for covering bare ground or stumps, or for rock garden decoration.

Culture. Best grown in soil not too rich. Impartial to sandy or heavy loam. Perfectly hardy and easily grown anywhere. Plant in fall or spring twelve inches apart. Divide and replant every third year.

Pubescens fl. pl.

Three \$1.45, Doz. \$4.75, 100 \$25.00

Double Pink Morning Glory. A very valuable prostrate growing plant of neat habit. All summer long it produces double funnel-shaped lilac-pink flowers about two inches across, resembling double Morning Glories. It will do splendidly in dry and sunny places such as exposed banks or as edgings to dry walks, where it is difficult for other plants to survive.

CALLIRHOE - Poppy Mallow

Prostrate plants with brilliant flowers; for the rock garden or on the margin of dry borders.

Culture. Any good, sandy soil will do but it must be dry. Plants must be planted in full sun, 8 to 10 inches apart, preferably in spring. Fall planting is satisfactory if done early and plants are protected for the winter.

*Involuta

Three \$1.25, Doz. \$4.00, 100 \$20.00

Trailing plant, with finely divided foliage and large, saucer-shaped flowers of bright rosy crimson, with white centers, which are produced all summer and fall.

Calystegia Pubescens Fl. Pl.

Hardy Begonia, Evansiana (See page 18)

Betonica Grandiflora

CARNATIONS - Hardy Border

Carnations are one of the most useful and popular flowers. Hardy Border Carnations have acquired, as a result of cross-breeding, the habit of perpetual-flowering.

Culture. Carnations will grow in ordinary good, light, well-drained soil. Should the soil be very light, add plenty of decayed cow manure. Planting should be done in early fall or spring. They should be placed 12 inches apart; protect lightly during the winter.

Crimson King

Three \$1.45, Doz. \$4.75, 100 \$25.00

Here is an outstanding hardy Carnation for the garden, flowering throughout spring, summer, and fall, not shyly but with remarkable freedom. Dazzling crimson flowers on stiff, stocky stems, long enough for cutting. It is exceptionally hardy, growing anywhere.

King of Black

Three \$1.15, Doz. \$3.75, 100 \$18.00

Similar to the other kinds in habit; its flowers are of the deepest maroon, almost black.

Rose Queen

Three \$1.15, Doz. \$3.75, 100 \$18.00

Prolific blooming. Excellent for cutting and garden planting, this rose-pink Carnation is much desired.

Scarlet and Red Shades

Three \$1.15, Doz. \$3.75, 100 \$18.00

Dozens of double and single red and scarlet flowers on long stems, lovely for cutting, are produced during June and July.

White Shades

Three \$1.15, Doz. \$3.75, 100 \$18.00

The same as above but single and double white flowers.

White Gold

Three \$1.15, Doz. \$3.75, 100 \$18.00

A fine pale yellow form. Just as free as the others here mentioned.

Mixed Shades

Three \$1.15, Doz. \$3.75, 100 \$18.00

A riot of color and flowers in great abundance in June and July, are the result from just a few plants. Cut back all flower stems when through blooming.

NEW ENGLISH COTTAGE CARNATIONS

Flower All Summer and Autumn

This is a new race of Hardy Carnations, many types and species were crossed and recombined in its development in England. The plants of the "Cottage Carnation" resemble small Yucca plants; their rugged foliage and growth is marvelous, and look a picture of health at all times. Below zero temperatures do not bother them. The hundreds of flowers grow on stout 15-inch stems. Added to this unusual freedom of bloom is a rich Carnation fragrance not equalled by the greenhouse varieties, the flowers measure 2 to 2½ inches in diameter. We offer three delightful varieties. They are grown in pots making transplanting very easy. All are exceptionally fine for cutting.

Sylvia

Each \$0.55, Three \$1.50, Doz. \$5.00

The flower petals are pale rose-pink, edged silvery white. This color deepens to a rich deep salmon towards the base. The effect is lovely and delicate; very fragrant.

Cynthia

Each \$0.55, Three \$1.50, Doz. \$5.00

Pure shrimp-pink without variations in tone. The petals are waxy and entirely smooth at the edges, a beautiful gardenia-like flower with spicy fragrance.

Lucia

Each \$0.55, Three \$1.50, Doz. \$5.00

Deep rose-pink with salmon shadings, petals are sharply edged. The flowers are delightfully fragrant. This variety is a particularly free grower and bloomer and is a favorite with us for cutting as well as for garden use.

CATANANCHE - Blue Cupidone, or Love-Plant

A native of Southern Europe, have hoary, lance-shaped leaves, and crisp, chaff-like, brilliant blue flowers, resembling those of the Everlasting. Is an attractive plant when in flower. Flowers are useful for cutting.

Culture. This perennial requires good, ordinary soil and a dry, well drained, sunny position. Plant in spring, 8 inches apart. If planted in fall, protect lightly during winter.

*Caerulea

Three \$1.25, Doz. \$4.00, 100 \$20.00

Heads of pretty deep blue flowers on long stems. Profuse and excellent cut flowers in great quantities on 18-inch stems during July, August, and September.

Campanula - Bellflower

In the eagerness these days for new things, some of the lovely old ones are all too often neglected.

All the worthy old-timey plants have been greatly improved in every way. None more so than the Campanulas, known by our grandmothers as the Cup and Saucer plant, Bellflowers and Canterbury Bells.

In their various sizes from the dwarfs up to those 3 feet high, some thriving in semi-shady places, others glorious in sunny spots, no garden can be quite complete without them. Some bloom continuously from June to October, giving a wealth of white and blue blooms. They are among the finest of the new fashion, old fashion flowers. So, be among the appreciative many who have called back to their gardens these outstandingly delightful plants.

CULTURE. *A rich, well drained, light soil will grow them to perfection. It is well to protect fall-transplanted plants with a little dry covering; remove covering early in March before new growth starts. Plant in early autumn or very early spring, 8 to 10 inches apart, in full sun.*

***Carpatica** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Carpathian Harebell.) A pretty species growing in compact tufts not exceeding 8 inches high; flowers clear blue, held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for hardy border or for the rockery it is unsurpassed.

***Carpatica alba** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A pure white form of the preceding.

***Cullinmore** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A lovely hybrid form of *Carpatica* and other dwarf-growing species. Much more prolific than *Carpatica*. Its flowers of various shades of blue are produced all summer. Very nice edging plant or for the rock garden.

****Garganica** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A gem for the rock garden. Forms a low spreading tuft which, in June, is covered with starry light blue flowers having a white eye. Exquisite hanging over a rock.

***Glomerata var. dahurica** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A *Campanula* that should be in every garden. It is about 18 inches high. In June and July has large, close heads of deep blue flowers which are strikingly effective. An old European garden favorite.

Grandis, Six Hills Giant *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A bold plant growing 2½ feet tall. The flower stems are covered for their entire length with beautiful pale blue flowers which are starlike and saucer-shaped. Particularly valuable because it grows just as well in shade as in full sun. Multiplies freely, hardy anywhere. A choice novelty only just received from England.

Isophylla alba *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A rare *Campanula*, excellent for hanging baskets or window boxes in shade, such as a west or north exposure. Its runners, which are covered with white star-like flowers, often reach a length of two feet and are constantly in bloom. Can also be grown in the rockery. It is very hardy south of Philadelphia. Easily carried over winter in cold frame, cool greenhouse, or in the house in front of a north window. Will bloom all winter. Does exceptionally well where nights are cool. A choice plant worth growing.

Isophylla, Blue *Three \$1.75, Doz. \$5.50, 100 \$35.00*
Same as above with pale blue flowers.

Lactiflora coerulea *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Pale blue flowers during July and August on stems 2 to 3 feet high; does well in light shade.

Lactiflora macrantha *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Very handsome, enormous drooping bells of fine satiny lilac and deep purplish shades on stems 3 to 4 feet high; does well in light shade or full sun.

****Muralis** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Very dwarf plant covered with purplish blue flowers in June. Fine for wall or rock garden. The most popular wall plant or rock plant of the entire *Campanula* group.

Poscharskyana *Three \$1.50, Doz. \$5.00, 100 \$30.00*
One of the most persistent blooming of the larger *Campanulas*. Plants without any special care will, when cut, give three crops of flowers in one season. May, July, and September until freezing time. A trailing plant from Siberia with far-reaching sprays of pale blue, star-like flowers about 1¼ inches across. This variety is perfectly hardy and of easy culture.

Pyramidalis *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Produces spikes from 4 to 6 feet long covered with blue, star-shaped flowers during the entire summer; excellent plant with *Delphinium* in background in the hardy border.

Pyramidalis, White *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Similar to the above, producing white flowers.

Persicifolia grandiflora alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*
One of the finest *Campanulas*, with large, handsome, white, bell-shaped flowers. A great acquisition. Height 2 feet.

Persicifolia grandiflora coerulea *Three \$1.15, Doz. \$3.75, 100 \$18.00*
An excellent companion to the white variety, the large bright blue flowers making an effective contrast. Height 2 feet.

Persicifolia, Misty Morn (Patent Applied For)

Three \$1.50, Doz. \$5.00, 100 \$30.00

The 30-inch spirelike flower stems are covered with beautiful double lavender-blue bells. The soft, hazy shadings of the flowers give them a lovely and most distinct appearance. This variety is far superior to *Blue Gardenia*, or any other double *Campanula Persicifolia* now in use. It is a magnificent plant for the garden and superb for cutting. To test it as a cut flower we sent many flowers of it to the Boston Cut Flower Market where they received a high price, as well as high praise.

Persicifolia, Telham Beauty *Three \$1.50, Doz. \$5.00, 100 \$30.00*

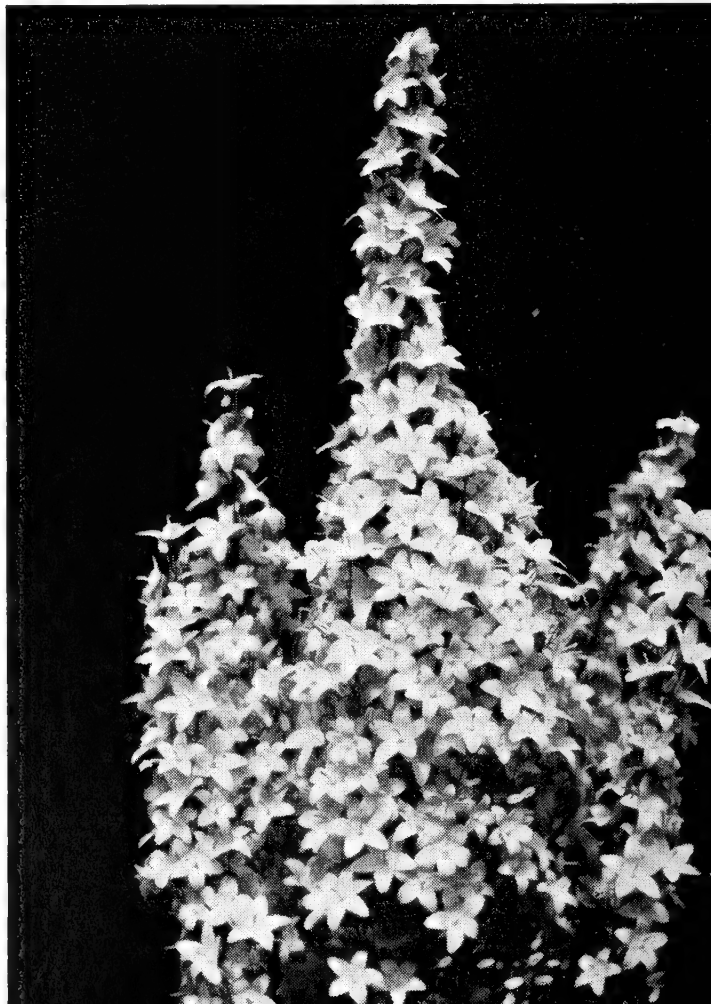

One of the best, if not the best, of the *Persicifolias*. It is a splendid bold growing plant, giving a magnificent display of large single Bluebell-like flowers on 2½-foot stems during June and July. An A-1 plant for the border. Excellent for cutting.

Persicifolia, White Pearl *Three \$1.50, Doz. \$5.00, 100 \$30.00*

The loveliest of the double white *Persicifolias*. Stems are 2½ to 3 feet tall and covered with double white bell-like flowers. They do well in light shade or full sun, lasting a long time in bloom, increase freely and are very hardy. Altogether a fine garden plant as well as a fine cut flower.

***Rotundifolia** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Blue Bells of Scotland or Harebells.) 1 foot. June to August. In the wild it is more slender and taller than in the garden; clear blue flowers. Especially suited for crevices in the rock garden or deep slopes, best planted as to show pendent habit. Does well also in light shade.

Campanula Pyramidalis

Campanula Garganica

Canterbury Bells

CAMPANULA MEDIUM - Canterbury Bells

Imposing, if not our best biennials. The plants are more or less pyramidal in growth, about two and one-half feet in height, and profusely covered with large, bell-shaped flowers. Extremely showy in mixed borders.

CULTURE. A rich, well drained, light soil will grow them to perfection. It is well to protect fall-transplanted plants with a little dry covering; remove covering early in March before new growth starts. Plant in early autumn or very early spring, 8 to 10 inches apart, in full sun.

MEDIUM (Single Canterbury Bells).

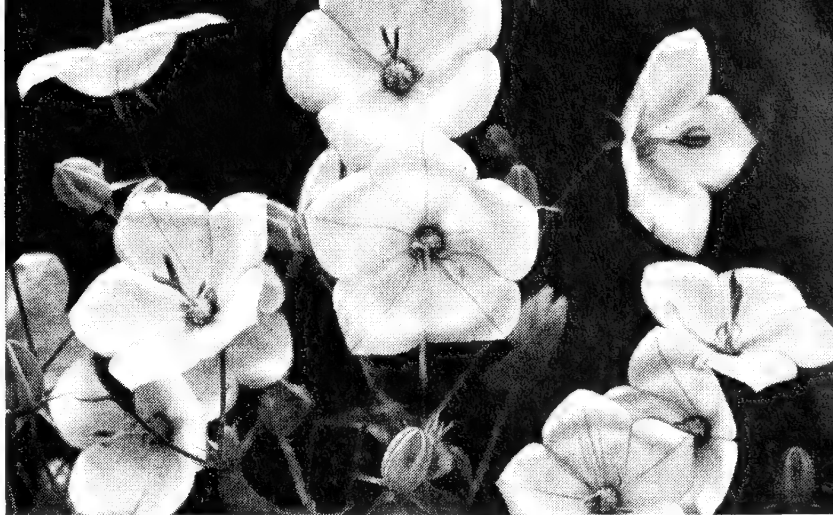

These have the same habit of growth and are just as lovely as the Calycanthema; the flowers, however, do not have the so-called "saucer," but are bell-shaped.

Medium Blue, White, Pink Three \$1.00, Doz. \$3.50, 100 \$15.00

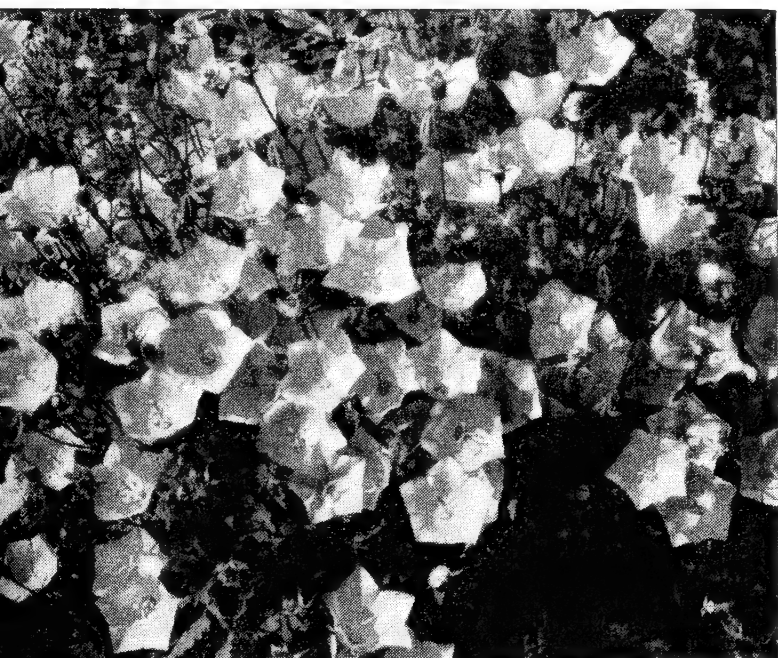

CALYCANTHEMA (Cup and Saucer).

Tall, erect growing plants completely covered with large cup and saucer-shaped flowers during late May and June.

Calycanthema Blue, White, Pink Three \$1.00, Doz. \$3.50, 100 \$15.00

Campanula, Cullinmore

Campanula Carpatica

Campanula Muralis

Campanula Persicifolia, Telham Beauty

Campanula Rotundifolia

Centaurea Montana with Iberis Sempervirens

CENTAUREA - Perennial Bachelor Button

Hardy perennials of easy culture and attractive appearance. Are showy plants in sunny borders, and useful for cut flowers. Flowers are more or less thistle-like.

Culture. All will succeed in good, ordinary soil in sunny borders. Best grown in groups of three. Plant in autumn or spring, 8 inches apart; divide and replant every third year.

Macrocephala *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Large, thistle-like, golden yellow flowers; useful for cutting and showy in borders. July and August. 3½ feet high.

Montana *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Perennial Cornflower.) Grows 2 feet high, bearing large, violet-blue flowers from July to September

Montana alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*
White form of the above.

Ruthenica *Three \$1.25, Doz. \$4.00, 100 \$20.00*
This handsome plant grows about five feet high and bears from July to September, lovely lemon-yellow flowers. Fine for the background of the hardy border.

Hardy Border Carnations (See page 21)

Chrysanthemum Leucanthemum, White Swan

CERASTIUM - Chickweed

Low-growing perennials, suitable for forming edgings to beds or borders, or for bold masses in the rock garden.

Culture. Ordinary soil and a sunny position. Plant in autumn or spring, 10 to 12 inches apart.

***Tomentosum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Snow-in-Summer.) A low-growing plant having silvery white foliage, and producing an abundance of snow-white flowers in May. Especially suitable for rock or border purposes.

CERATOSTIGMA (See Plumbago Larpentae).

CHIERANTHUS - Siberian Wallflower

Hardy plants similar to the Wallflower. They are highly esteemed for the delicious fragrance of their flowers, also for the fact of their flowering so profusely in spring and early summer.

Culture. Plant in ordinary well drained light garden soil in full sun. Soil which is heavy or wet will not do, as plants are easily winter-killed if planted in low, wet ground. Plant early autumn or early spring, 6 to 8 inches apart. Fall planted plants should be lightly protected during the winter.

***Allioni** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A beautiful garden plant. Dazzling fiery orange flowers on stems about 1 foot high. Best used as a biennial as it frequently blooms itself to death. Must be planted early in the season to enable it to become well established before flowering time.

CHRYSANthemum SPECIES

Arcticum *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(The Arctic Daisy). Forms an attractive rosette-like clump, in September multitudes of flower stems appear, terminated by pure white flowers 2 to 2½ inches in diameter. These begin to develop the last week in September, and continue in good condition throughout October, and frequently into November.

Uliginosum *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Syn. Pyrethrum). Giant Daisy. Grows 3 to 4 feet high, covered with large, white, daisy-like flowers from June to September.

CHRYSANthemum LEUCANTHEMUM

These are the cultivated forms of the very hardy small field Daisies. Noted particularly for their early as well as profuse flowering.

Hartje and Elder *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Very early flowering, medium sized Daisy. Often referred to as the "Memorial Daisy." Excellent for cutting and good subject for the border.

White Swan (Double Daisy) *Three \$1.50, Doz. \$5.00, 100 \$30.00*
This Daisy is also known as the Double White Memorial Day Daisy. The two most popular types of Shasta Daisy for garden use are the Maximum, large flowered, and Leucanthemum, the small flowered form. White Swan is a very fine small flowered double variety. Its blooms are somewhat larger than Pyrethrums; pure white and fully double, excellent for cutting and most attractive in the garden. Twenty to thirty flowers on 24- to 30-inch stems in bloom Memorial Day.

CHRYSANthemum, "ASTRID" (Northland Daisy)

Astrid is a hybrid of the extremely hardy species, C. Arcticum, and the first hybrid of this variety to be introduced. The single, daisy-like flowers are three inches or more in diameter, and are a lovely shade of shell-pink, warmed with old rose tints, with a bright yellow center. The plants have attractive light green foliage, not bothered by diseases or insects. It is the hardiest hybrid Daisy we know of, having come through the past severe winters without protection and without damage.

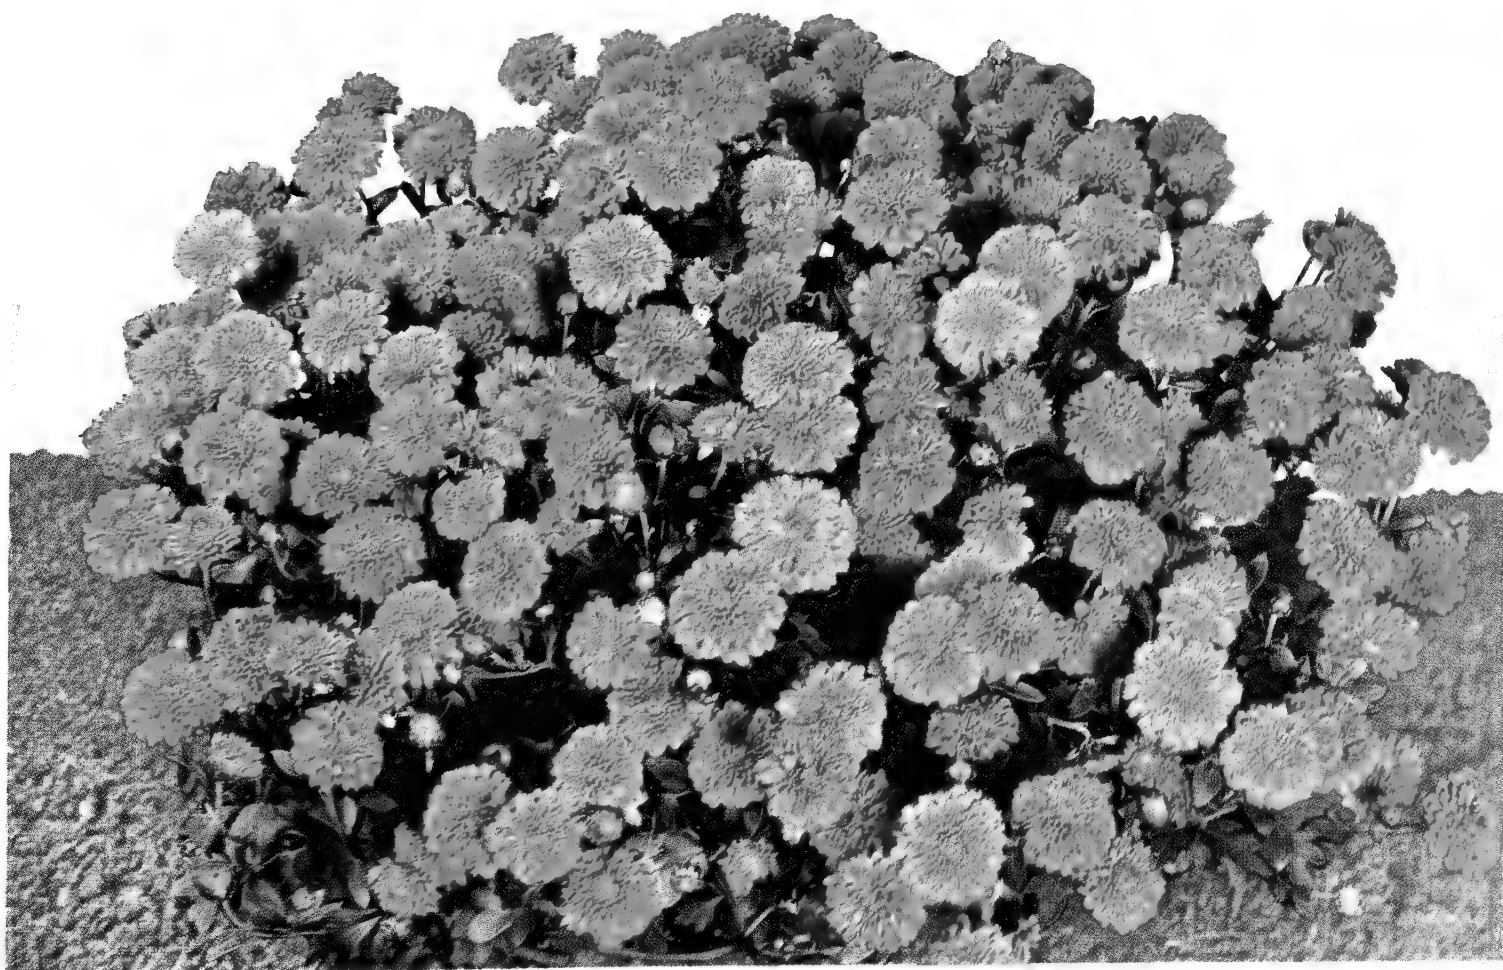

Three \$1.45, Doz. \$4.75, 100 \$25.00

Aster Frikarti, Wonder of Staffa (See page 18)

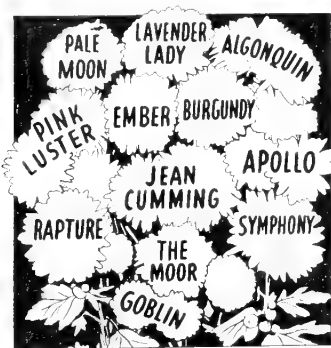

Anthemis, Moonlight (See page 15)

Chrysanthemum, Little Bob

Perfectly symmetrically shaped Cushion Chrysanthemum covered with hundreds of blooms, hiding all foliage. The loveliest of the so-called Cushion 'Mums.
Each 65c. Three \$1.75, Doz. \$6.50

Early Flowering Garden Chrysanthemums

Assembled here is, without any doubt, the handsomest collection of Garden 'Mums we have ever offered. Not only do they have sparkling clear, crisp colors, but they are "weather-resistant" as well. Conditions which would ruin other 'Mums cause them little harm. They flower from early September on and on until finally destroyed by real winter weather. The profusion of blooms will surprise you. Hundreds of lovely flowers for cutting with plenty more left over for color in the garden.

- Collection K. — 12 plants, all carefully labeled, 1 of each kind, for \$ 3.75
- Collection L. — 36 plants, all carefully labeled, 3 of each kind, for \$10.00
- Collection M. — 60 plants, all carefully labeled, 5 of each kind, for \$16.00

Pink Cushion Chrysanthemums

CHRYSANTHEMUM MAXIMUM - Shasta Daisy

Hardy perennials of easy culture, and especially noteworthy for their freedom in flowering. There are two distinct types of this genus. One is the Shasta Daisy, which bears large, white flowers on long stems, and is, therefore, invaluable for cutting, and the other is the Leucanthemum, the Daisy of our meadows.

Culture. The Shasta Daisies require a deep, rich soil. They must have a sunny position. They should be planted 1 foot apart. It is advisable to lift and divide the root stocks every alternate year, then the plants will be more compact in growth and also yield much finer flowers than if left undisturbed.

Alaska *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Handsome plant, with large, glistening white blossoms in June and July.

Mayfield Giant *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A lovely, strong growing and free-flowering Shasta Daisy of recent introduction. If old flowers are removed when faded this variety will bloom throughout the summer. True form grown from cuttings.

Phyllis Elliott *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A large daintily frilled Shasta Daisy which grows about 2 feet tall. The flowers are formed by a triple row of narrow frilled petals, flared and laciniated at the tip, and are about 3½ inches across. Excellent for the hardy border and makes a dainty cut flower.

Silver Star *Three \$1.75, Doz. \$5.50, 100 \$35.00*

Possibly the largest Shasta Daisy in existence. Small pale yellow center with several rows of wide pure white petals. Medium height about 2½ feet. Flowers grow on single stems making it exceptionally fine for cutting. One of the latest Chrysanthemum Maximum to bloom. Flowers late in July and throughout August. If faded flowers are removed, will bloom throughout September and into October.

DOUBLE SHASTA DAISY

Esther Reed *Each 65c, Three \$1.75, Doz. \$6.50*

The pure white flowers are completely double, produced freely from June to October. They are of excellent lasting quality. The stems are about 18 inches high, very stiff, holding the heavy double pure white blooms upright. Excellent for the border as well as for cutting.

Double Shasta Daisy, Esther Reed

CUSHION CHRYSANTHEMUMS

A group of low-growing 'Mums, forming mounds of blooms, reminding one of the old-fashioned Azalea. The plants grow about 10 to 12 inches high and spread 2 feet or more. They flower quite early. All during September they are literally covered with hundreds of flowers which last over a long period. With a little straw protection, the plants are quite hardy. All are descendants of the Chrysanthemum Amelia, more often called Pink Cushion 'Mum.

Pink Cushion *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Light pink flowers by the hundreds in mounds, 2 feet across.

Bronze Cushion *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A bronze form of the above with deep bronze flowers, turning to bronzy, coppery yellow.

Red Cushion *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Deep bronzy red, good compact habit.

Rose Cushion *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Rose-pink, deeper in color than Pink Cushion, but same habit.

White Cushion *Three \$1.45, Doz. \$4.75, 100 \$25.00*

At opening, show a delicate pink turning pure white as flower develops.

Yellow Cushion *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Pure golden yellow, very brilliant, hundreds of blooms. Early flowering and long lasting.

1 each of the above 6 varieties for \$2.50

NEW CUSHION CHRYSANTHEMUM

Little Bob *Each 55c, Three \$1.50, Doz. \$5.00*

A charming low-growing garden Chrysanthemum from England which will surely be grown by everyone interested in 'Mums. The plant spreads to about 24 inches in diameter and develops into a perfectly symmetrical mound. In early autumn hundreds of small mahogany-bronze double button-like flowers appear on short stiff wirelike stems. When in bloom the plant is completely covered with flowers. In appearance, far superior to the well-known Cushion 'Mums. We are sure you will like this new introduction.

CHRYSANTHEMUM ERUBESCENS

Clara Curtis *Three \$1.45, Doz. \$4.75, 100 \$25.00*

The hundreds of single salmon-pink daisy-like flowers are about 3 inches in diameter and are at their best in August and early September. They are well arranged on short much-branched stems not over 12 to 18 inches high in such numbers that the plants look like small mounds of pink. They are perfectly hardy and bloom so early that the flowers are never damaged by frost. After a short rest period in the fall the plants may be dug up in early winter, potted, and forced into bloom by February and March. They make splendid pot plants. The habit of Chrysanthemum Clara Curtis is spreading. A two-year-old plant grows about 18 to 24 inches across. Last but not least, it is perfectly hardy anywhere and not particular as to soil or location.

Chrysanthemum Erubescens, Clara Curtis

Garden Chrysanthemums

OCTOBER FLOWERING 'MUMS

Under this heading we have a number of garden Chrysanthemums which are at their best during the first two weeks of October. Later flowering varieties are of little use because they are usually damaged before coming into full bloom by either snow or frost. The colors of all these are sparkling and bright. All kinds offered are useful as cut flowers as well as for garden decoration.

Caliph *Each 30c, Doz. \$3.00*
For intensity of color, this variety cannot be equaled. The color is ox-blood-red, with a rich velvety sheen or glow so prominent that it stands out conspicuously among all other Chrysanthemums of this color.

Eugene A. Wander *Each 50c, Doz. \$5.00*
Have you longed for a big, hardy 'Mum that would flower before those early October frosts? Well, here it is—a brilliant, glistening golden yellow beauty in full bloom by September 20th and so free that the stocky plant is almost obscured by its branching clusters of perfectly formed double flowers. Hardy and easily grown, it requires no special pinching or handling to produce flowers 4½ to 5 inches across—larger, if disbudded. Fine also for pot culture.
NOTE: Occasional plants assume bronze-yellow tints, but are just as attractive.

Gleam O' Gold *Each 40c, Doz. \$4.00*
This splendid primrose-yellow, aptly named, fairly gleams in the mellow October sunshine. Height 2 feet.

Goblin *Each 40c, Doz. \$4.00*
A lovely, distinct, warm golden bronze—attains perfection for Halloween decorations. Airy, graceful habit. Height 2 feet.

Granny Scovill *Each 30c, Doz. \$3.00*
If you would ask us we would tell you that this at present is one of the loveliest of garden 'Mums. The full, well-formed, fluffy flowers are fully 4½ inches across. The color is a glowing, clear, warm coral-bronze; in full bloom early October. Height 2 feet.

Hills of Snow *Each 30c, Doz. \$3.00*
This is a white sport of R. Marion Hatton with all the fine habits and freedom of blooming of this variety. Good white 'Mums are scarce. Therefore, this one is doubly welcome.

Jean Cumming *Each 30c, Doz. \$3.00*
Large flowers of purest white, with softest yellow and bluish shading at the center of the buds. Growth erect and wiry, height medium. Exceptional keeping qualities.

Lavender Lady *Each 40c, Doz. \$4.00*
This fragrant flower brings true lavender to the garden Chrysanthemums. No trace of mauve, pink, or magenta appears under any light conditions. The silvery lavender flowers are 3 inches or more across and appear in perfect branching sprays. Unusually hardy. Height 2½ feet. In full flower October 8th.

Louisa Schling *Each 30c, Doz. \$3.00*
The flowers are of good size, fully three inches across, with three or four rows of petals, fluffy and distinct in appearance. Glowing salmon-coppery red in color, changing to a lovely soft bronze-salmon as the flower matures. It is remarkably free flowering.

Milky Way *Each 40c, Doz. \$4.00*
Another Bristol departure and the forerunner of a distinct and valuable type. Remarkable for the intensity of its milky white coloring in the open flower, contrasting with the creamy yellow buds; again for the luxuriant rich green foliage clothing the stem right down to the soil. The handsome, semi-double, informal blossoms, with broad, overlapping petals of unusual texture, carried in branching sprays of 5 to 6, are more frost-resistant than any other early white kind. Plant is very hardy and vigorous. A different and valuable addition—in full flower late September. Height 2½ to 3 feet.

Mrs. Pierre S. Du Pont III *Each 50c, Doz. \$5.00*
The quality of iridescence is so pronounced in this fine new Chrysanthemum that accurate description is difficult. The dominant shade is a soft peach tint blended with mauve undertones; the whole overcast with an indescribably luminous sheen. It is entirely distinct and altogether lovely. The large, full, perfectly formed flowers are carried on tall, branching stems, making a strong, sturdy 2½-foot plant. In full flower in early October, it will prove a grand addition to the garden and an invaluable cut flower variety.

Pale Moon *Each 40c, Doz. \$4.00*
Delightful, fluffy, sulphur-yellow blossoms completely cover the plant. Loosely double flowers, 2½ inches across of excellent keeping quality. The aroma is that of butternuts. Height 2 feet. In full flower October 5th.

Rapture *Each 30c, Doz. \$3.00*
Lovely, medium sized, double flowers combining a beautiful deep orange with a lively suffusion of bright carmine.

R. Marion Hatton *Each 30c, Doz. \$3.00*
In addition to exceptional freedom in blooming, it is one of the earliest to flower, and certainly the brightest canary-yellow available, flowering from late September on. It is remarkably resistant to frost.

Romany *Each 30c, Doz. \$3.00*
A lovely flower that truly defies accurate description. Fairly glowing in the subdued autumn sunshine. Glowing carmine-red, with fine bronze-red tones. Large, full double flowers of nice form are produced freely. A fine garden and cut-flower variety. Height 2½ feet.

Symphony *Each 30c, Doz. \$3.00*
Mauve-rose overcast soft coppery rose, with the sheen of a damask silk. The flower in maturing acquires silvery lilac and faint copper tones, very lovely but elusive and impossible to describe with accuracy. The flowers are large, 3 inches across, double, nicely formed, and carried on heavy, sturdy stems, several to a spray or cluster. Free-flowering. Height 2½ to 3 feet.

White Doty *Each 30c, Doz. \$3.00*
The tall, straight, upright flower stalks, never needing any support, carry large heads of pure white pompon flowers. Excellent for cutting or in the background of other varieties.

Garden Chrysanthemums

SEPTEMBER FLOWERING VARIETIES

In this group we find with a few exceptions all new varieties. Through careful breeding and selecting, the time of flowering of these Chrysanthemums has been advanced by fully a month over the older varieties. They are not only in advance in blooming time but also far ahead in clearness and loveliness of color and are far more attractive. Masses of bloom from early September and throughout October.

Acacia *Each 40c, Doz. \$4.00*
Myriads of small, glittering, delightfully fragrant, acacia-like blossoms cover the plant from late September on, remaining fresh and attractive for weeks because they are remarkably frost-resistant. Blossoms slightly over 1 inch across, are semi-double, sulphur-yellow and intensely brilliant. Height 2 feet.

Aladdin *Each 30c, Doz. \$3.00*
The first blooms appear late in July and early August, the color at first being an exquisite warm coppery bronze, with an overlay of orange-apricot shade which deepens in early autumn.

Algonquin *Each 30c, Doz. \$3.00*
Showy clear yellow, double flowers 2½ inches across. Dwarf, spready habit. Height 1½ feet. In full flower September 10th.

Autumn Lights *Each 40c, Doz. \$4.00*
Coppery bronze, semi-double blossoms with a gleaming orange overcast, cover the compact branchy plant. Healthy, attractive, dark green foliage. Compact, tidy growth, plus unusual hardiness, feature this useful introduction. Height 1½ feet.

Carrie *Each 30c, Doz. \$3.00*
As early as Glory of Seven Oaks and of practically the same habit, but the flowers are a clean, clear pale yellow.

Early Bronze *Each 30c, Doz. \$3.00*
(Edmund F. Black). A remarkably early flowering pompon in full glory in September. Splendid for garden or cutting. Usually free blooming.

Enchantress *Each 30c, Doz. \$3.00*
Semi-double rose of delicate, yet strong, clear coloring. Fine in garden and for cutting.

Glory of Seven Oaks *Each 30c, Doz. \$3.00*
Soft but clear yellow masses of bloom have made it a great favorite. Medium height and fine for a planting in front of taller varieties.

Ohio Gold *Each 30c, Doz. \$3.00*
Noted especially for its early blooming. Commences in early September and carries through until late fall. Fully double, golden orange-yellow flowers produced in abundance. Good habit. Fine for cutting.

Pygmy Gold *Each 30c, Doz. \$3.00*
A distinct dwarf Korean Pompon type producing quantities of miniature blossoms slightly over 1 inch across. The color is a clear golden yellow remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful early Chrysanthemum.

The Torch *Each 30c, Doz. \$3.00*
Very bright orange-scarlet with golden reverse. The semi-double flowers are very clear and brilliant.

Warrior *Each 30c, Doz. \$3.00*
Deep crimson-maroon with a beautiful golden reverse. Dignified rich coloring. One of the best dark colored new sorts.

Chrysanthemums fertilized with Wayside Gardens Plant Food will reward you richly with extra size flowers and more brilliant colors. See page 190.

New Korean Chrysanthemums

These new creations are especially fine for cold climates where the ordinary Chrysanthemum winter-kills. They are most attractive in color, very early blooming, easier to grow, and more profuse. The lovely new pastel shades, which simply defy accurate description or true color reproduction, suggest the Gerbera in their daintiness. Cut with short stems, they make the most charming table decorations, yet are capable of striking decorative uses if the entire branching sprays are used. They are compelling for color effect in the garden.

Agnes Selkirk Clark *Each 30c, Doz. \$3.00*
Delicate sparkling orange and apricot, enhanced by a soft orange ring or halo surrounding the golden yellow center—a gorgeous autumn color effect. Flowers are of excellent texture, almost 3 inches across.

Apollo *Each 30c, Doz. \$3.00*
Great sprays of nicely formed flowers clothe the plant in shades of bronze-red, old gold, and glowing salmon.

Burgundy *Each 40c, Doz. \$4.00*
Rich cerise-crimson, acquiring deeper amaranth tones in the center, describes the flowers of this lovely double, sweet-scented Chrysanthemum. The fine clusters of bloom are on heavy stems. Height 2½ feet. In full flower October 5th.

Ceres *Each 30c, Doz. \$3.00*
A lovely combination of old gold, chamois-yellow, and soft coppery bronze. The mature flower petals appear as if dusted with gold.

Daphne *Each 30c, Doz. \$3.00*
Daphne-pink, with an underlying sheen of lilac-rose, enhanced with prominent golden stamens in the center.

Diana *Each 30c, Doz. \$3.00*
Chatenay-rose-pink, mingled with lilac-rose and soft salmon, the tones of which vary with the degree of light.

Ember *Each 30c, Doz. \$3.00*
In color, a brilliant glowing bronze that stands out conspicuously in comparison with any others in this color. It is, in fact, a combination of coral and orange shades that cannot be described accurately, ever changing with the light, but always compelling.

Fortune *Each 30c, Doz. \$3.00*
Very vigorous plant of medium height and covered with unique curly petaled oxblood-red flowers 3 to 4 inches in diameter. Very striking.

Hebe *Each 30c, Doz. \$3.00*
Lovely, luminous pink which assumes soft, lavender-pink tones as the flower matures. A faint silvery halo surrounding the golden yellow center effects a lovely combination. Hebe is one of the first to flower, producing masses of delightfully fragrant blossoms in almost unbelievable quantities.

Hestia *Each 30c, Doz. \$3.00*
The nicely formed semi-double flowers are very freely produced on compact, bushy plants of medium height. The color is a very delicate rose-pink with a white halo around the small yellow disc.

Innocence *Each 30c, Doz. \$3.00*
An effective, dwarf-growing hybrid. It seldom exceeds 18 inches in height, spreads about 2 feet, and is so completely covered with flowers that the plant is obscured when in bloom. Pure white on opening, changing later to an attractive soft pink.

King Midas *Each 30c, Doz. \$3.00*
The plants are literally covered with flowers for a very long period, commencing in late September and continuing throughout October. The flowers average 4 inches in diameter, are fully double, and a charming shade of soft yellow with the faintest bronze shadings appearing occasionally. Very branchy, attaining an average height of 2½ feet.

Mars *Each 30c, Doz. \$3.00*
Deep amaranth-red, changing to wine-red, overlaid with a velvety sheen.

Mercury *Each 30c, Doz. \$3.00*
The opening flower is oxblood-red, changing to coppery bronze, and finally to an exquisite blend of old rose and salmon.

Niobe *Each 30c, Doz. \$3.00*
A vigorous, healthy plant of dwarf compact habit. Flowers over 2½ inches in diameter of a clear glistening white with yellow disc are freely produced, fully covering the plant.

Nancy Copeland *Each 30c, Doz. \$3.00*
Spectrum-red is the dominant color, according to the Ridgway Color Chart. An opalescent sheen, which varies with the autumn light, produces changeable color effects, always delightful, but impossible to describe accurately. The strong, upright plant is completely covered with branching sprays of large, single flowers, 3 to 3½ inches across, attaining perfection in late September. Height 2 to 2½ feet.

Orion *Each 30c, Doz. \$3.00*
Brilliant canary-yellow which fairly glitters in the autumn sunlight. Having that lustrous quality peculiar to the Hybrid Korean type, it immediately commands attention. Clean-cut, ray-like flowers are produced freely in erect, branching sprays, forming a plant of tidy habit.

Pink Lustre *Each 30c, Doz. \$3.00*
A fine single flower, 3 to 3½ inches across, with several rays of petals and good substance. It is a delightful shade of orchid (Laelia-pink), quite distinct among all other pink kinds. Remarkably free, it produces strong branching sprays in profusion throughout October. A sturdy-growing variety, so hardy it will prove invaluable for difficult garden conditions. In full flower in late September. Height 2½ to 3 feet.

Profusion *Each 30c, Doz. \$3.00*
An effective early-flowering Korean Hybrid. The flowers are about 3 inches across and considerably darker in tone than Ceres but described as a rich, coppery old gold. Extremely free and fragrant.

Psyche *Each 30c, Doz. \$3.00*
Wonderfully dainty 4- to 5-inch single blooms are produced with wiry stems on strong, healthy plants of medium height. Color, a clean, lively shell-pink.

Saladin *Each 30c, Doz. \$3.00*
Oriental red, shading to coral-red with coppery tones showing on the petal reverse. The 3-inch flower is substantial, having four rays of petals. It is a hardy, vigorous-growing variety, producing branching sprays of delightfully fragrant blossoms.

Sappho *Each 30c, Doz. \$3.00*
Compact dwarf plant covered with good sized pure yellow single flowers.

The Moor *Each 30c, Doz. \$3.00*
Best described as amaranth-purple or port-wine-red. It is noted for its intensity and brilliance in the garden. Flowers 3 inches across, double, produced freely and keep well when cut. In full flower in late September. Height 2 feet.

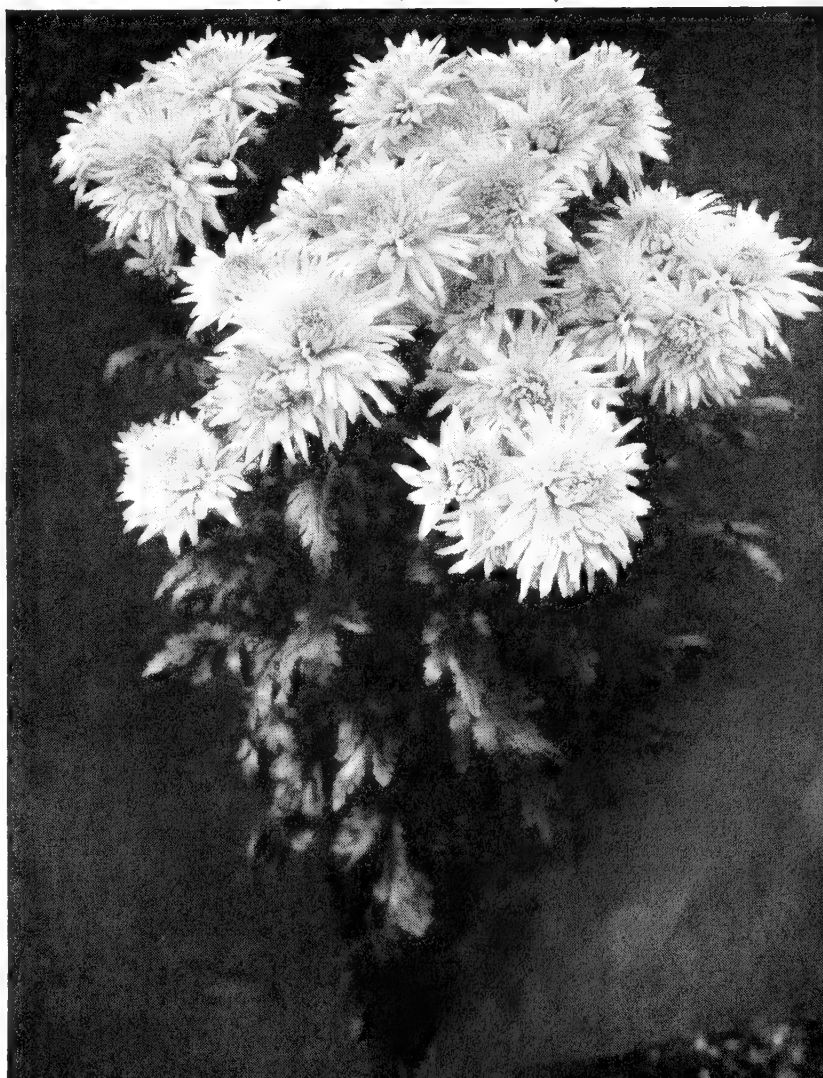

Vesta *Each 30c, Doz. \$3.00*
A plant of medium height and great vigor literally covered with flowers over 2½ inches in diameter of a deep golden orange shade, almost a duplex.

Vulcan *Each 30c, Doz. \$3.00*
Glowing carmine-red which shades to garnet-crimson and finally to an attractive bronze-crimson as the flower matures. It has a double row of ray-like petals with a conspicuous golden center and is delightfully fragrant. Habit erect and extremely free.

NEW KOREAN CHRYSANTHEMUMS

One each of 12 Korean varieties, your own or our selection, each plant carefully labeled, \$2.75

Chrysanthemum, Lavender Lady

Coronilla Cappadocica

CYCLAMEN (Hardy)

Neapolitanum

A most profuse flowering hardy Cyclamen. The small, deep rose, delicately sweet scented flowers are produced in early autumn or late summer literally by the hundreds; a rare bulbous plant for the rockery or shady place in front of the border.

Each \$0.75, Doz. \$7.50

Cimicifuga Simplex

Cypripedium Spectabile

CIMICIFUGA - Snakeroot

Handsome, herbaceous perennials. They have large, palmlike leaves, and small flowers borne in feathery racemes.

Culture. Grow in ordinary moist soil in colonies of six or more, in partially shaded borders or in open woods. Plant in autumn or spring, 8 to 12 inches apart.

Racemosa Three \$1.15, Doz. \$3.75, 100 \$18.00

Handsome shade-loving plant, bearing in July and August spikes of pure white flowers, 4 to 6 feet high; well suited for planting at the back of border, or for naturalizing at the edge of the woods.

Simplex Each \$1.00, Doz. \$10.00

This is one of the finest, if not the finest, of fall flowering plants. Its flower stems are 2½ to 3 feet high, terminated with a dense plumelike spike of white flowers which, when cut, last in perfection a long time. As a garden plant it is hard to beat but its greatest asset is that it grows superbly in shade. We know of no other plant quite as useful for that purpose. The flowers are at their best from September to middle October, and it's perfectly hardy anywhere.

COREOPSIS - Tickseed

A useful and attractive herbaceous perennial, both for border and cut flowers. They are of easy culture, and produce their golden yellow flowers in profusion throughout the summer.

Culture. All require a well-drained, medium soil. They also need a full, sunny position. Plant in autumn or early spring, 10 to 12 inches apart.

Grandiflora Three \$1.00, Doz. \$3.50, 100 \$15.00

An improved variety with large bright yellow flowers; one of the best hardy plants. Excellent for cut flowers all summer.

CORONILLA - Crown Vetch

Low-growing or creeping perennials of easy culture. Handsome foliage and yellow or purple, pea-shaped flowers are produced in clusters from June until August.

Culture. Any good garden soil will grow them to perfection. Plant in fall or spring, 12 inches apart, in full sun.

***Cappadocica** Three \$1.50, Doz. \$5.00, 100 \$30.00

(Iberica.) A first rate and brilliant rock plant. Trailing habit. Glaucous leaves and large, rich, long golden flower heads in June and July. Three inches high. Called in England "Lady Fingers." We consider it one of our best plants for low edging. A splendid novelty.

CORYDALIS - Fumitory

Attractive dwarf growing hardy perennials. They have prettily divided green or glaucous leaves. Suitable for the margins of borders and chinks of walls or in the rock garden.

Culture. Ordinary, well-drained soil and sunny borders. May also be grown in walls or rock gardens. Plant in spring or fall, 6 to 8 inches apart.

***Cheilanthesifolia** Three \$1.45, Doz. \$4.75, 100 \$25.00

Handsome variety with fernlike foliage and long spikes of yellow blossoms, 10 to 12 inches in height. Prefers rich, well-drained, stony soil.

CYPRIPEDIUM - Lady's Slipper

Hardy orchids that thrive in a moist, peaty soil in shade or partial shade. Flowers are very interesting with their odd shapes and uncommon colors and markings.

Culture. It is required for best results that they be planted in shade in peaty soil, such as one finds in woods or swamps. Should be carefully watered during dry weather. Do well along streams or small ponds in the rock garden. Plant in fall or early spring 6 to 8 inches apart. Do not disturb, once planted.

***Acaule** Three \$1.50, Doz. \$5.00, 100 \$30.00

(Lady's Slipper; Moccasin Flower.) This is often called the Red Lady's Slipper, but the flower is rose-purple in color.

***Pubescens** Three \$1.50, Doz. \$5.00, 100 \$30.00

(Large Yellow Lady's Slipper.) Very much like Parviflorum, only the flowers are larger.

***Spectabile** Three \$2.00, Doz. \$6.00, 100 \$40.00

(Showy Lady's Slipper.) The finest and most showy of all our orchids. It grows about two feet high, bearing along the stalks several rather large, roundish leaves, and on top one or two quite large, rose-purple or nearly white flowers.

Reselected Russell Lupines (See page 53)

Giant-Flowered Stokesia, Blue Moon (See page 71)

Hemerocallis,
Hyperion
(See page 45)

Potentilla, Lady Rolleston (See page 66)

Perpetual-Flowering Dianthus, Old Spice (See page 35)

Viola, Maggie Mott (See page 77)

Iberis Sempervirens (See page 47)

New English Cottage Carnations (See page 21)

Corvudalis Cheilanthifolia (See page 30)

CLEMATIS, Dwarf - Shrubby Clematis

Here we deal only with the herbaceous species, the stems of which die down in autumn, and that are of a bushy and non-climbing habit. Those offered are suitable for the mixed border, and make a very effective display when in flower.

Culture. They prefer a chalky, well-drained loam. Where this is not available, mix plenty of lime with the soil. Plant in autumn or spring. In autumn cut the stems back to the soil, and give a good mulching of well-decayed manure.

Davidiana *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A most desirable variety, with fresh, bright green foliage and tubular, bell-shaped flowers of deep lavender-blue during August and September; deliciously fragrant. 2½ feet high.

Davidiana, Azure *Each 60c, Doz. \$6.00*

Same growth as Davidiana but with azure-blue flowers, delightfully fragrant; fine border plant which does well in light shade. Grows in any soil and has no insect pests which bother it.

Davidiana, Profusion *Each 60c, Doz. \$6.00*

Another fine hybrid of this worth-while border plant. Deep blue flowers in great profusion, sweetly scented. Hardy as an oak, no insect pests, does well on any soil. Easily one of the best of summer-flowering border plants.

Integrifolia coerulea *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A good border plant, growing from 18 to 24 inches high, producing its interesting porcelain-blue flowers from June to August.

Mandchurica *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Here we have an exceptionally good plant for cutting. When established this variety will send up in July spikes about 3 feet high which are superb for cutting. The white, fragrant flowers are loosely spaced on wiry branches and mix nicely with other cut flowers. In the hardy border it grows into a large, graceful clump that blends well with other plants. It is an iron-clad plant. Nothing bothers it and it will withstand the lowest temperatures encountered in this country.

Recta *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Grows from 2 to 3 feet high, and produces fragrant, pure white flowers in very large, showy clusters during June and July.

Clematis, Climbing Varieties. (See page 162.)

DELPHINIUM BELLADONNA

The Belladonna Delphinium does not grow quite as tall as the popular English Hybrids, but they produce more spikes and are more graceful, therefore, more useful for cutting. In fact, they are our loveliest early blue flowers for that purpose. They require the same care and treatment as suggested for the English Hybrids, but may be planted a little closer together, 12 inches apart is sufficient space for them. Their lovely blue spikes are about 3 or 4 feet high and produced in June and again in September.

Belladonna. Light sky-blue.

1-year-old plants *Three \$1.00, Doz. \$3.50, 100 \$15.00*

2-year-old plants *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Bellamosa. A dark blue form of Belladonna.

1-year-old plants *Three \$1.00, Doz. \$3.50, 100 \$15.00*

2-year-old plants *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Belladonna, Cliveden Beauty *Three \$1.45, Doz. \$4.75, 100 \$25.00*

This is a fine English improvement over the common Belladonna, growing much taller, many more flowers to each spike and of a brighter color. Altogether a fine improvement.

Belladonna, Lamartine *Three \$1.25, Doz. \$4.00, 100 \$20.00*

The rich indigo-blue flowers are freely produced on branching stems. Excellently suited for cutting as well as for colorful effects in the garden.

DELPHINIUM CHINENSE - Chinese Delphinium

The Chinese Delphiniums differ materially from the Belladonna or English Hybrids. They rarely grow over three feet in height and bloom about three or four weeks later. The foliage of this variety is almost fernlike, the plants are more graceful and the flowers, which grow in panicles, are of an intense gentian-blue. A lovely thing for the border. Require same treatment as English Delphiniums. They should be planted about 10 to 12 inches apart. Their roots are much smaller than those of the English Hybrids.

Chinense *Three \$1.15, Doz. \$3.75, 100 \$18.00*

A very pretty variety, with fine, feathery foliage and intense gentian-blue flowers in open panicles.

Chinense album *Three \$1.15, Doz. \$3.75, 100 \$18.00*

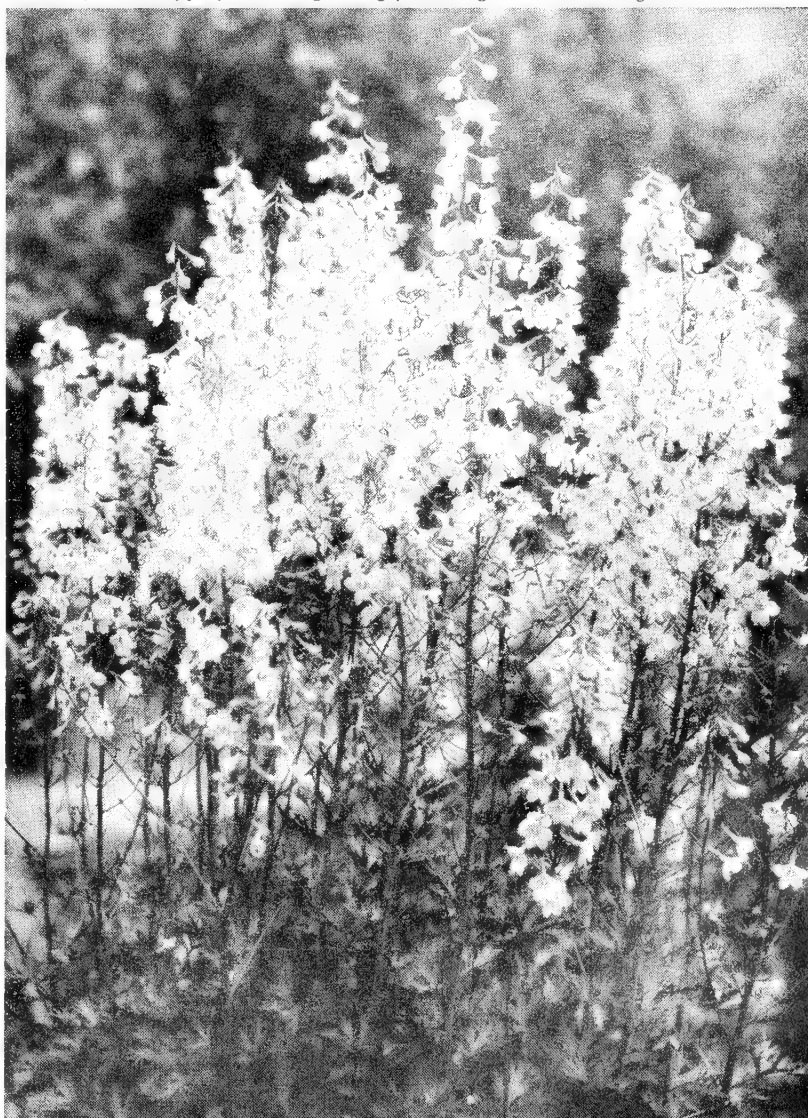

A pure white form of the above.

Clematis Mandchurica

Delphinium Belladonna

A favorite type for cutting. Long flowering season in the garden.

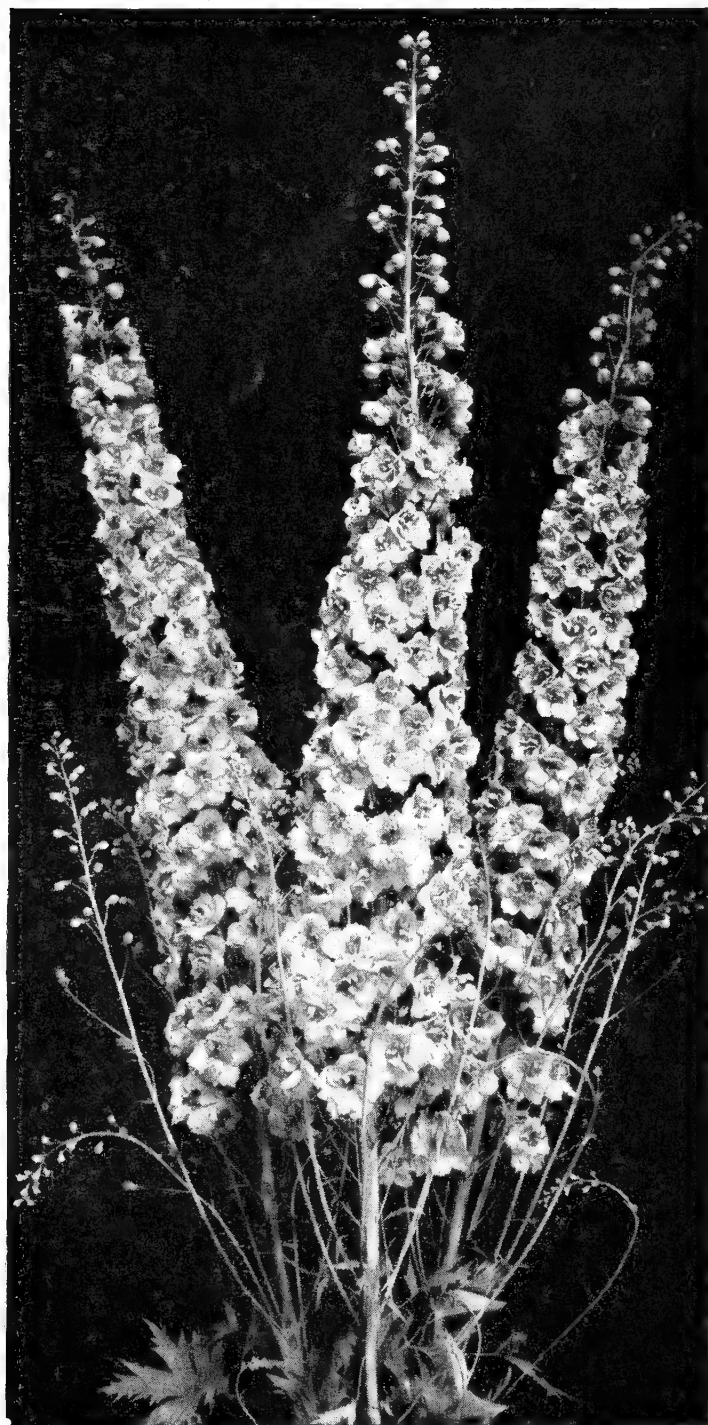

Delphinium - Larkspur

Try as you will, one can hardly say enough for these regal midsummer favorites. None quite equal them in the commanding stateliness of their profusely bloom-laden stalks. Their gamut of colors ranging from exquisitely delicate pastel blues, whites and lavenders to those of the deep solid colors in violet and indigo-blue, is but one of their charms.

The giant varieties make an admirable background for any planting. They are the English varieties that are so intriguing as over there, they peep atop garden walls and hedges.

Culture. Delphiniums require a rich, generous and well-drained soil. On soils of a light or medium nature dig in plenty of well-decayed manure. In those of a heavy nature it is desirable to fork up the subsoil and compost of two parts loam and one of equal proportions of decayed manure and sand. The plants are best grown in groups of three or six. Allow a distance of at least 18 inches to 2 feet between the plants. Planting may be done in autumn or early spring. Remove faded flowers, and on no account allow seeds to develop, then a second crop of flowers may be expected later on.

Wayside Gardens Giant Hybrid Delphiniums

ENGLISH DELPHINIUMS

Pacific Giant Hybrid Delphiniums

Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo-blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. This strain has been raised from seed saved from the finest named kinds in creation. Visitors at our nursery proclaim them the best they have ever seen. They are particularly fine for cutting.

	Three	Doz.	100
Blue and light blue shades	\$2.50	\$7.25	\$50.00
Violet and dark blue shades	2.50	7.25	50.00
Pastel shades	2.50	7.25	50.00
White and pure white shades	3.00	10.00	70.00
All shades and colors mixed	1.75	5.50	35.00

Wayside Gardens Hybrids

This is one of the most permanent and at present the most popular strains of the garden Delphinium. It is distinct because of its broad, conical spike and enormous individual flowers, 1½ to 2 inches in diameter, in all shades of blue blended with mauve and violet. Also contains some fine clear white types. For permanent groups in the garden this mixture has no equal.

Blackmore and Langdon Hybrids

This English strain is one of the finest developments in the Delphinium family. The flowers are enormous, produced on solid, erect spikes of great height and rigidity. The colors lie in delicate shades of blue, mauve, and pink. Combines landscape value with a grace and elegance for cutting unsurpassed in this family of plants.

Gold Medal Hybrids

They are made up from many strains and are a fine mixture for an inexpensive planting.

Belladonna Delphinium. (See page 33.)

DIANTHUS BARBATUS - Sweet William

This charming old favorite has been in cultivation for some three centuries. Strictly speaking, it is a biennial, but on well-drained soils it is perennial in character. There are single and double forms of it, but the former are the hardier and more easily grown of the two.

Culture. Sweet Williams will succeed in good, ordinary rich soil in masses in the mixed, sunny border. Plant in autumn or early spring, 8 to 12 inches apart.

Atrococcineus flore pleno

(Double Sweet William.) Intense deep scarlet double flowers; very brilliant in the garden and a fine cut flower.

Sutton's Fairy

Charming variety of recent introduction, with delicately tinted salmon-pink flowers.

Sutton's Giant White

Enormous trusses which might well be mistaken for perennial Phlox.

Sutton's Pink Beauty

We have succeeded in fixing the shade of this beautiful salmon-pink variety, which should be grown in every garden.

Sutton's Rich Crimson

The richest Sweet William known; although very dark, it is a bright color.

Sutton's Scarlet

A remarkable color. The flowers are of an intense scarlet.

Sutton's Mixed Shades

Include all the various tints, which give a most pleasing and harmonious effect.

DIANTHUS SPECIES

*Alpinus Allwoodi

This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of various shades of rose and pink on 4-inch stems, produced during July and August.

*Caesius grandiflorus

It is very compact in growth and makes a cushion of glaucous leaves from which in May, spring the sweet smelling, rose-colored flowers. It varies as much as from four inches to ten inches in height.

*Deltoides albus

A charming white form of the above variety.

*Deltoides "Brilliant"

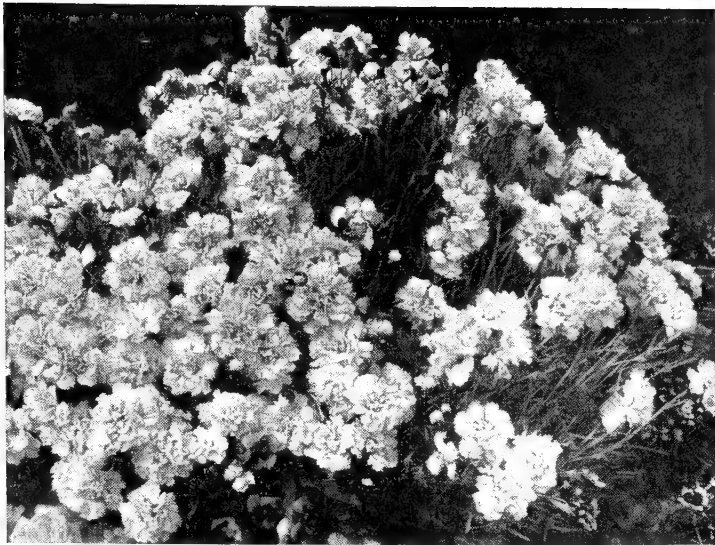

Glowing crimson-red; a most striking rock plant.

*Knappi

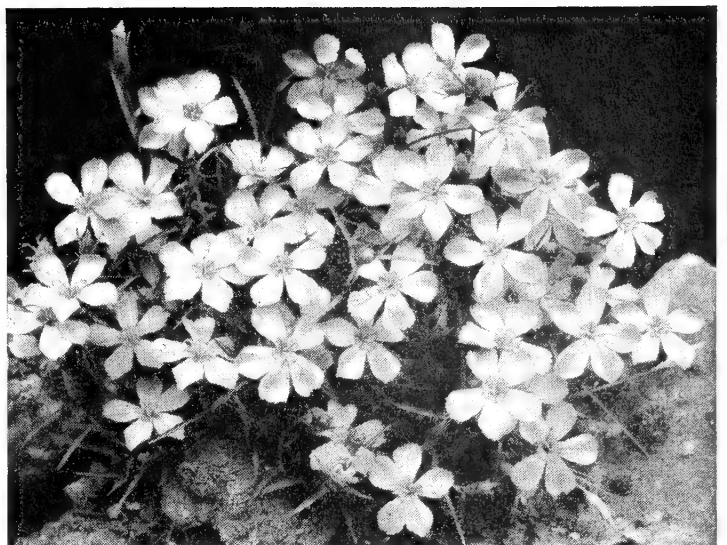

A dainty species producing slender stems which bear clusters of small, yellow blossoms. This is a unique Dianthus as it is the only species which produces yellow flowers.

*Speciosus, Loveliness

A free-flowering, lavender-pink variety; flowers are finely cut, giving a lacy effect; wonderfully sweet scented, growing anywhere.

Dianthus Plumarius, Her Majesty

Dianthus Deltoideus, "Brilliant"

DIANTHUS - Garden Pinks

A great selection of plants for the sunny border or sunny, exposed places in the rock garden or rock wall. In fact, no rock garden is complete without a liberal planting of the various Dianthus. In England where rock gardening is a well understood art, Dianthus are used by the thousands. They are perfectly hardy anywhere.

Culture. Plant in ordinary good soil, which must contain some lime and should be well drained. Planting may be done in fall or early spring, 6 to 10 inches apart, in sunny, dry places in the rock garden, rock wall or on the margin of the border. All love lime and gritty soils.

Latifolius, Beatrice *Three \$1.45, Doz. \$4.75, 100 \$25.00*

This everblooming cluster Pink is a very valuable plant for the garden, constantly in bloom from June until September. Its color is a lovely pure pink.

Latifolius, Furst Bismarck *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Similar to the Beatrice in habit and freedom of bloom, its flowers are, however, several shades darker, more like the color of the Paul Neyron rose.

Latifolius, Silver Mine *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Exactly the same habit of growth as Beatrice or Furst Bismarck but flowers are pure white, very free and constant from June until September.

Plumarius, Bristol Maid *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A very large double flower of excellent form; rose-pink with a faint lavender shading. Makes a neat plant, very free flowering.

Plumarius, Bristol Jewel *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Seldom without bloom from June until frost. Semi-double nicely formed fragrant flowers; white daintily flaked crimson, and a distinct crimson eye. Spreading habit. Cut back one-half its growth after blooming.

Plumarius, Gladys Cranfield *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Single, flowers bright rose, with velvety crimson eye, very fragrant.

Plumarius, Essex Witch *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Double. Delicate pink; finely fringed.

Plumarius, Her Majesty *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Double. Very large; purest white.

Plumarius, Highland Hybrids *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A beautiful and very varied mixture, including unnamed hybrids of all possible shades. Especially noted for their fragrance and long bloom.

Dianthus Caesius Grandiflorus

Dianthus, Old Spice

Old Spice (Patent Applied For)

Each \$0.55, Three \$1.50, Doz. \$5.00

A choice Hybrid, possessing it seems, all the good qualities you can ask for in a plant.

First—It is as hardy as an oak.

Second—Habit of growth is neat, cushion-like and compact. Stems are about 12 inches tall.

Third—It flowers prolifically over a long period, 20 or more flowers on a single plant.

Fourth—Color of the beautifully moulded flowers is rich salmon-pink like that of the popular greenhouse Carnation, Laddie.

Fifth—The calyx does not split as is the case with the old-fashioned Clove Pinks. All the flowers are perfectly formed.

Sixth—The flowers, when cut, last indefinitely.

Mr. F. F. Rockwell, horticultural writer of note, says, "I think it is a knockout. The color is remarkable. It is one of the finest new border flowers in a decade."

DIANTHUS HEDDEWIGI - Japanese Pinks

Flowers are very large and of the most brilliant colors, varying from pure white to the richest crimson, while many are beautifully laced or striped. For bedding purposes they are of immense value during the entire summer, and they also furnish elegant flowers for bouquets.

Mixed Varieties *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Their wide range of colors and markings are a constant revelation. In bloom from early spring until late fall, they easily are one of the most satisfactory Pinks for garden decoration or cutting.

Dicentra Spectabilis

DICENTRA - Bleeding Heart

Old-fashioned perennials; also known under the name of Dielytra. The species named below have fleshy, brittle stems and finely cut, fernlike foliage.

Culture. Spectabilis should be grown in a partially shady border. Eximia will do well in a similar position, or in the woodland garden, or in a shady nook of the rockery. Plant in fall or very early spring, 8 to 12 inches apart.

*Eximia

Three \$1.25, Doz. \$4.00, 100 \$20.00

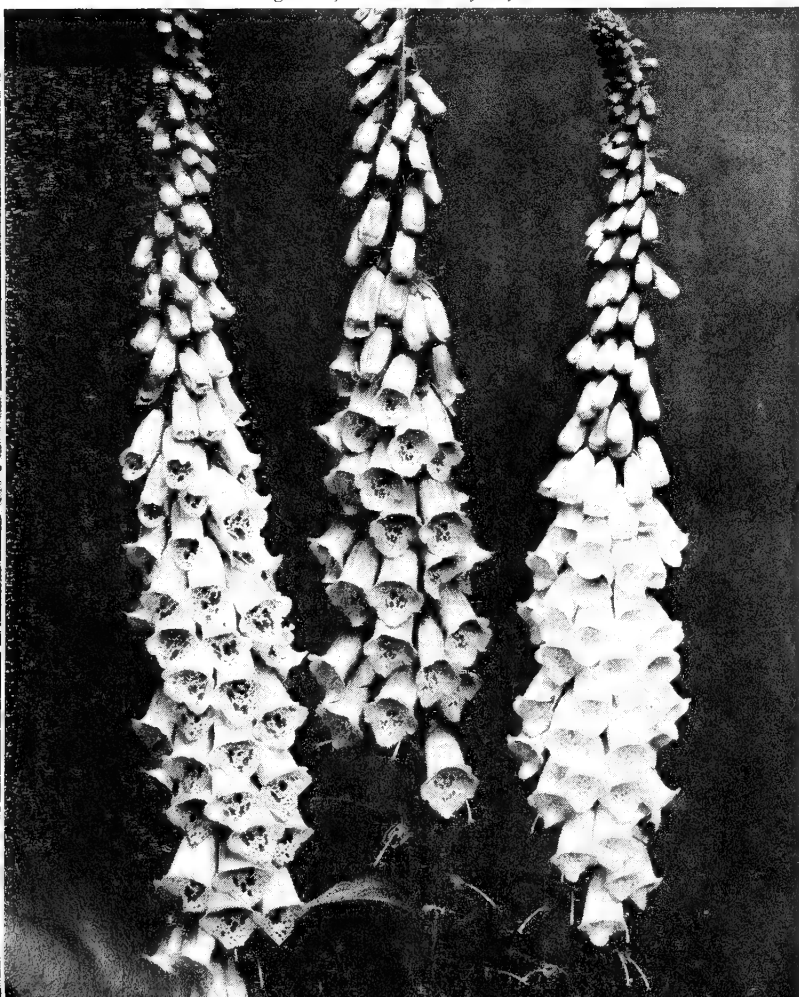

(Plumy Bleeding Heart.) A dwarf-growing sort, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. Too much cannot be said for this fine border plant as it is equally at home in full shade or sun and perfectly hardy anywhere.

Spectabilis

Three \$1.45, Doz. \$4.75, 100 \$25.00

(Bleeding Heart or Seal Flower.) An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps.

Digitalis, Giant Shirley Hybrids

Dictamnus Fraxinella Caucasicus

DICTAMNUS - Gas Plant or Fraxinella

An old-fashioned, herbaceous perennial. Once firmly established, a plant will continue to thrive in the same spot for several generations. They have ashlike leaves which emit a delightfully fragrant odor, and the quaintly formed flowers are borne in upright racemes. The inflorescence is covered with glands secreting a resinous, volatile matter, which may be ignited in the evening of hot days without any damage to the plants.

Culture. They require a deep, rich, loamy soil and a sunny, well-drained border. Not suitable for heavy, damp soils. Best grown singly, so as to display the handsome contour and beauty of the foliage. Once planted, avoid disturbing the roots. Plant in spring or fall, 10 to 12 inches apart.

Fraxinella caucasicus

Three \$1.45, Doz. \$4.75, 100 \$25.00

A very showy border perennial, forming a bush about 2½ feet, having fragrant foliage and spikes of rosy pink flowers with deeper veins during June and July. It is not advisable to transplant often, as it improves with age, being one of the most permanent features of the herbaceous border.

Alba

Three \$1.45, Doz. \$4.75, 100 \$25.00

The white-flowered variety of above.

DIGITALIS - Foxglove

The stately Foxglove is a biennial, and so, in fact, are the many beautiful strains of it with large, spotted flowers. There are, however, three perennial species of considerable beauty which are suitable for the mixed border. All are attractive plants for the shady border or the woodland garden.

Culture. Plants of the perennial species may be planted in autumn or spring, 6 to 8 inches apart, in well-drained, good garden soil. The biennial strains are best transplanted early in spring; if fall planting must be done, protect carefully for the winter. All the kinds described will succeed in ordinary soil in sun or in shade. They make a charming effect when grown in masses, and readily reproduce themselves from seed.

Ambigua or Grandiflora

Three \$1.25, Doz. \$4.00, 100 \$20.00

2- to 3-foot spikes in June and July. A hardy plant, with yellowish flowers, marked with brown. Effective in groups in wild garden. This is a good perennial species.

Giant Shirley Hybrids

Three \$1.15, Doz. \$3.75, 100 \$18.00

The flower heads are over 3 feet long, crowded with big, bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted crimson or chocolate.

Gloxiniaeflora

Three \$1.15, Doz. \$3.75, 100 \$18.00

3 to 4 feet. June and July. A popular variety, deep purple. Robust habit.

Gloxiniaeflora alba

Three \$1.15, Doz. \$3.75, 100 \$18.00

2 feet. June and July. The white-flowered Foxglove.

Gloxiniaeflora rosea

Three \$1.15, Doz. \$3.75, 100 \$18.00

3 to 4 feet. June and July; tall spikes of rose-pink flowers.

DODECATHEON - American Cowslip

A very pretty, dwarf plant with oblong leaves, and nodding Cyclamen-like flowers borne in umbels. Charming for naturalizing in colonies in woodland gardens, in cool, moist, shady borders, or in the rock garden.

Culture. They require a light, loamy soil containing leaf-mold and a little peat, a moist, cool, shady position, such as the margins of woodland borders, or shady spot in the rock garden. Best grown in colonies. Plant in early spring or fall, 4 to 5 inches apart.

*Meadia

Three \$1.15, Doz. \$3.75, 100 \$18.00

(Shooting Star.) A pretty perennial, with rose-colored or sometimes white flowers in May or June, on 8- to 10-inch stems. This is sometimes called "American Cyclamen." It thrives in rich, moist woods, in the open border or rock garden.

Doronicum caucasicum

DORONICUM - Leopardbane

Very showy yellow-flowered perennial. Their yellow, daisy-like flowers are invaluable for cutting. As they flower chiefly in spring, they are indispensable in the border at that period of the year. They have bright green, heart-shaped leaves which disappear during July and August when the plant is dormant.

Culture. Thrive well in heavy soils and succeed in sunny or partially shaded borders. Best grown in groups of six or more. Plant in autumn or early spring, 6 to 8 inches apart. Lift, divide and replant every third year; remove the flower heads directly after they fade, then a second crop of flowers will follow. Water freely in dry weather. Lovely with pale lavender Tulips.

Caucasicum *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Large, bright yellow flowers on 2-foot stems; one of the most effective early spring-flowering perennials. Effective in a hardy border in combination with Tulips. It is a splendid flower for cutting, as it carries well and stands a long time in water.

Clusi *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Grows about 12 to 15 inches tall with large yellow daisy-like flowers. Might be called a dwarf *Caucasicum*.

Mme. Mason *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A fine large flowered and compact growing variety. Particularly well suited for the early garden. Its yellow daisy-like flowers blend well with tulips and other early spring bloom.

DRACOCEPHALUM - Blue Dragonhead

Salvia-like perennials. They have palmate leaves, and bear their flowers in whorls on terminal spikes. Interesting plants for the border or rock garden.

Culture. Grow in ordinary, good soil and in a cool, partially shaded position. Best grown in masses of three or more. Plant in fall or early spring, 6 to 8 inches apart.

***Ruyschianum japonicum** *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A lovely, almost evergreen, hardy border plant, easily grown and good looking in front of the border. Resembles a small Snapdragon when in bloom. The flowers are blue, grow 2 feet and are at their best in July and August. Good for cutting.

ECHINOPS - Globe Thistle

Handsome perennials with pinnate or spiny foliage, woolly beneath, and globular, thistle-like flowers. A well-grown plant has a pleasing effect in the border.

Culture. Ordinary soil in sun or light shade in border or wild garden. Plant in autumn or spring 10 to 12 inches apart.

Ritro *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Interesting and showy thistle-like plants with globular heads of deep metallic blue flowers during July and August, which can be dried and remain attractive for a long time. 2 to 3 feet high.

EDELWEISS (See *Leontopodium*).

EPIMEDIUM - Barrenwort

Dwarf perennials with handsomely marked and leathery leaves which assume a bronzy tint in autumn. Dainty little plants for colonizing on the margins of partially shaded borders and rock gardens. Foliage is classic in design and most useful for cutting.

Culture. Grow in peat and loam in partial shade. Plant in colonies of three or more in fall or spring, 6 inches apart. Do not remove old leaves, as they help to protect the plants in winter.

***Macranthum** *Three \$2.00, Doz. \$6.00, 100 \$40.00*

A dwarf-growing plant suitable for a shady position in the rock garden, edge of border or for mass planting under trees where grass will not grow. The leathery, bronzy green foliage and panicles of small, cream-white flowers in May make it one of the most attractive small plants.

Eryngium amethystinum (See page 38)

ERIGERON - Fleabane

A very effective genus of Michaelmas Daisy-like plants usually with pink and purple flowers; are indispensable for groups and flower borders and are excellent for cutting. All are about 2 feet high except *Alpinus*.

Culture. Ordinary, fairly moist soil and a sunny position will suit all. The dwarf kinds should be grown in the rock garden. Plant in autumn or early spring, 10 to 12 inches apart. Lift, divide and replant every third year.

Speciosus *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Large, handsome blue flowers, violet tinted and yellow centers during June and July; fine for cutting.

ERODIUM - Heron's Bill

This genus belongs to the Geraniums and flowers throughout the summer. The blooms are quaint and very attractive.

Culture. They require a sandy loam and well drained position. Plant in spring only.

Chamaedryoides roseum *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A tiny alpine which flowers throughout the season. Forms neat little tufts of pretty, glossy leaves covered with delicate pink veined flowers carried on 2 inch stems. It likes sun.

Echinops Ritro

Euphorbia Corollata

Erigeron Speciosus (See page 37)

Euphorbia Polychroma

EUPATORIUM - Hemp Agrimony; Hardy Ageratum

Hardy perennials of somewhat robust habit, and suitable for large, mixed borders or the wild garden. Flowers produced in terminal corymbs.

Culture. Ordinary soil and a half-shady position. Plant in autumn or spring, 12 to 15 inches apart.

Ageratoides *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Thoroughwort.) A useful border plant of strong, free growth, 3 to 3½ feet high, with minute white flowers in dense heads; splendid for cutting in August and September.

Coelestinum *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A pretty, hardy plant, with light purple-blue flowers similar to the Ageratum; in flower from August until frost. 12 to 14 inches. Good cut flower lasting a week or more in water and of easy culture. Lovely in fall garden with yellow Chrysanthemums.

EUPHORBIA - Spurge, Milkwort

Hardy perennials with handsome foliage. The flowers are yellow or white surrounded by involucre or bracts, which impart a quaint appearance to the flower heads. In some cases the flowers are inconspicuous, the real attraction being the colored bracts and foliage. Corollata is especially suited for cutting.

Culture. Euphorbias succeed best in poor soils and sunny position in the rock gardens or raised borders. Under such conditions they will flower more freely than in a rich soil. Plant in autumn or spring, 8 to 10 inches apart.

Corollata *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Flowering Spurge.) Showy and useful plant growing about 24 inches high, and bearing from June till August umbels of pure white flowers much like the Baby's Breath, and excellent for cutting.

***Myrsinites** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A prostrate plant with beautiful bluish foliage. The yellow flowers in early spring do not matter. It is the foliage which makes this plant so valuable.

***Polychroma** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Epithymoides.) A beautiful formal plant growing one foot high, forming a hemispherical clump covered with yellow flowers in May and June. Excellent border or rock plant.

FEVERFEW (See Matricaria).

FOXGLOVE (See Digitalis).

FUCHSIA (See page 178)

ERYNGIUM - Sea-Holly

Handsome, hardy perennials with rigid, spiny leaves, and thistle-like flowers surrounded by spiny bracts. They are decidedly attractive plants for sunny borders. The flower heads, with their metallic blue or silvery bracts and stems, are beautiful subjects for cutting for indoor decoration.

Culture. They will thrive in ordinary, well-drained soil and a sunny border. May be grown singly or in groups. Plant in autumn or early spring, 10 to 12 inches apart. Particularly well adapted for sandy soils.

Amethystinum *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Syn. Oliverianum.) The true blue Thistle, with amethyst stems and bracts. 2 feet high. At its best in July and August. Beautiful for cutting.

FUNKIA - Plaintain-lily or Japanese Day-lily

Hardy, herbaceous perennials with handsome green or variegated foliage, and lily-like flowers borne on graceful spikes. The ovate, cordate, or lance-shaped leaves grow in tufted form. Excellent plants for growing in sunny or partially shady borders on the margins of water or as edgings to beds and walks.

Culture. Funkias require to be grown in a rich, well-manured soil. The variegated kinds are best grown in partial shade. The others will succeed in sunny borders, by the waterside, or as specimens in groups. Subcordata should be grown in a warm, sheltered position. Plant in fall or early spring, six inches apart.

Coerulea lanceolata *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Broad green leaves; blue flowers from July to August.

Glaucia *Each 60c, Three \$1.50, Doz. \$5.00, 100 \$30.00*
A very fine Japanese species with large blue-gray leaves. It makes a fine specimen plant in the border, may also be used in the rock garden.

***Lancifolia** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Long, narrow leaves, dull green, produced in abundance; lilac-blue flowers during July and August; excellent plant for shade and edging to shady walks.

Subcordata grandiflora *Each 60c, Three \$1.50, Doz. \$5.00, 100 \$30.00*
Very large, pure white, lily-shape, fragrant flowers in August and September. One of the best and used very extensively as a ground cover for Lily beds. The foliage provides protection to the bulbs and the flowers because of their lily-like appearance blend in well with the taller growing Lilies.

Thomas Hogg *Each 60c, Three \$1.50, Doz. \$5.00, 100 \$30.00*
A most desirable, strong growing kind. Does well in shade or sun and loves moisture. Its rich, large green leaves have a narrow, clear silver edging which greatly enhances its beauty. Lavender flowers in profusion in August and September.

Variegata *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Variegated foliage; blue flowers. Beautiful edging plant.

Funkia Subcordata Grandiflora

A Border of Hardy Ferns

Gaillardia, Giant English Hybrids

Eupatorium Coelestinum

Epimedium Macranthum (See page 37)

FERNS - Hardy Varieties

The cultivation of Hardy Ferns is remarkably simple. All they want is a little light alluvial soil, a little loam and peat or leaf mold sufficient to keep the soil light and open, plenty of moisture, position varying from partial to deep shade. The Aspleniums and many others will grow on walls, chinks or rocks, etc. Many will revel in full sunshine in any ordinary border.

Culture. A shady position is, of course, preferred, or a spot which gets practically no sun, will be an ideal place for a fernery. If the position should be a very damp one, it will be advisable to raise the surface about 6 inches to a foot. Thoroughly mix a liberal supply of good brown peat with the existing soil, to give a good start. When the plants have become over-grown, lift, divide and replant early in April or fall. For a good effect plant 8 to 10 inches apart.

Adiantum pedatum *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Hardy Maidenhair Fern.) Most attractive of our native Ferns; black stems with delicate green fronds; does well in moist spots.

***Aspidium acrostichoides** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Wood Fern.) (Polystichum.) An evergreen species with deep green, divided fronds. Should be planted in a shady position. 12 inches.

Asplenium filix-foemina *Three \$1.35, Doz. \$4.50, 100 \$22.50*
(Lady Fern.) Grows in shade or sun. Large and handsome. 3 feet.

Aspidium spinulosum *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Dryopteris spinulosa.) (Spinulosa Wood Fern.) An evergreen variety that requires rich, well drained soil. 18 to 24 inches.

Cystopteris bulbifera *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Bladder Fern.) Light green fronds, which attain a length of nearly 3 feet, make it useful for massing on moist banks or for lining walks where a low carpet effect is desired. Plant the crowns just at the surface and 8 inches apart.

Dicksonia punctilobula *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Dennstaedtia punctilobula.) (Hay-scented or Gossamer Fern.) Grows well in either sun or shade. 18 to 24 inches. Very erect with broad fronds, of soft, woolly texture.

***Onoclea sensibilis** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Sensitive Fern.) Requires wet places either in sun or shade. 12 inches.

Osmunda cinnamomea *Three \$1.35, Doz. \$4.50, 100 \$22.50*
(Cinnamon Fern.) Larger than the variety Claytoniana; often five feet high and eight inches wide. Thrives in quite wet soil, in open sun or moist, shady places; usually found in mucky soil.

Osmunda Claytoniana *Three \$1.35, Doz. \$4.50, 100 \$22.50*
Clothed with loose wool when unfolding its fronds in spring, but soon becoming perfectly smooth. This Fern, two to three feet high, is found in rather dry, shaded places, and does quite well under cultivation and in boxes. Plant about two feet apart if several are needed.

Osmunda regalis *Three \$1.35, Doz. \$4.50, 100 \$22.50*
(The Royal Fern.) Wonderful in damp, marshy places, where its rich yellowish green foliage and golden stems make very striking subjects.

***Polypodium vulgare** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Common Polypody.) One of the best evergreen species for rockwork. Grows 4 to 10 inches high, forming dense mats. Plant about 4 to 6 inches apart for quick results and cover the new bulbs slightly.

Struthiopteris germanica *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(The Ostrich Fern.) A very graceful species with finely cut pinnules, growing 2 to 3 feet high.

***Woodsia obtusa** *Three \$1.35, Doz. \$4.50, 100 \$22.50*
Large rosettes of curious hoary foliage. Fronds 1 foot in length; very free growing.

GAILLARDIA - Blanket Flower

We consider the Gaillardia one of the most desirable hardy plants in cultivation. Everyone will have noticed how grandly Gaillardias have thriven through droughts; they seem hardly to need water. The gay blossoms are obtainable in perpetual profusion from June to November, and the greater the drought and scarcity of other flowers the more the utility of the perennial Gaillardia is demonstrated.

Culture. A rich, but light soil is essential to grow Gaillardias successfully. They cannot be depended upon to survive the winter on heavy, clay soils, but do splendidly on those of a light or medium character. Require a sunny position. Plant in fall or spring, 6 to 8 inches apart.

Mr. Sherbrooke *Three \$1.50, Doz. \$5.00, 100 \$30.00*
The full, circular flowers are of a rich golden yellow, unstained by any other color. The large self-colored blooms supported by stout stems above the pale green foliage continue from early summer until late in the fall. A very good English variety.

Ruby *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Brilliant ruby-red, having no hint of yellow or brown in its make-up. Blooms all summer long as do few other perennials. Its vivid flowers make a continuous showing and furnish abundant material for cutting.

Giant English Hybrids *Three \$1.00, Doz. \$3.50, 100 \$15.00*
In lovely shades of orange, yellow and red all summer and fall, flowers measuring 4 inches or more across. The finest mixture available.

GALAX

Aphylla *Three \$1.00, Doz. \$3.50, 100 \$15.00*
This is one of the finest ground covering plants from the South. Coming from the North Carolina mountains, it is perfectly hardy. The handsome, round, evergreen leaves turn a lovely bronze in the autumn. They are used by the hundreds of thousands by florists all over the country. Does not grow over a foot high. You will like them as a pleasant change from Vinca or Japanese Spurge.

Fern, Adiantum Pedatum

Funkia Glauca

Geranium Grandiflorum

GAURA

Lindheimeri

Three \$1.45, Doz. \$4.75, 100 \$25.00

Very useful and graceful plant for cutting. Its 2-ft. stems carry many rosy white flowers gracefully spaced. It is in bloom from early summer until stopped by frost, excellent in the foreground of the perennial border or just as a clump in the cut-flower garden.

Geum, Rijnstroom

GERANIUM - Crane's-bill

Those offered are very interesting plants for growing on the margins of sunny borders or in the rock garden.

Culture. Ordinary light or medium soil and a sunny position will suit these plants admirably. They should be grown in groups on the margins of borders or in the rockery. Plant in autumn or spring, 8 to 12 inches apart. Once established do not disturb, then they will grow and flower with great freedom, and produce a pretty effect the entire summer.

***Grandiflorum** Three \$1.50, Doz. \$5.00, 100 \$30.00

A lovely deep blue variety about 20 inches high. For shady places in the rock garden or at the base of shrubs.

***Sanguineum** Three \$1.45, Doz. \$4.75, 100 \$25.00

Attractive foliage and bright crimson flowers all summer. 18 inches.

GERBERA - Transvaal Daisy

Lovely tender perennials. Their brilliant sunlike flowers are produced on leafless stems about 18 inches high all summer.

Culture. Grow in full sun, prefer a moist, peaty loam and should be protected very carefully during winter in cold regions. They may also be potted up in fall and will continue blooming indoors. In temperate sections of the country they only require a light protection. Plant in spring only, 6 inches apart.

Jamesoni Giant Hybrids Three \$1.50, Doz. \$5.00, 100 \$30.00

A lovely mixture of brilliant orange, pink and yellow shadings; in pots. Available in spring only.

GEUM - Avens

They belong among the number one hardy garden flowers. Neat in habit, non-crowding, excellent foliage effect when not in bloom. Such virtues along with their charming flowers all help to make them popular. In the foreground of the hardy border they look their best. Fire Opal, Lady Stratheden, and Rijnstroom, all recently introduced, are excellent and quite hardy, although for very cold sections of the country we would suggest Potentillas be used in their place. They, as the Geums, are noted for their fine foliage and good habit when not in bloom.

Culture. All succeed in good, ordinary soil in sunny borders. They, however, require plenty of moisture in summer. Best grown in groups. Plant in autumn or spring, 6 to 8 inches apart. If planted in fall it is well to protect them carefully for the winter.

Coccineum, Mrs. Bradshaw Three \$1.25, Doz. \$4.00, 100 \$20.00

A splendid variety, with large, double flowers of a fiery orange-red, blooming nearly all summer. Grand for cutting.

Lady Stratheden Three \$1.25, Doz. \$4.00, 100 \$20.00

A new introduction of great merit. Rich golden yellow blossoms, counterpart of Mrs. Bradshaw. Also a splendid cut flower.

Fire Opal Three \$1.45, Doz. \$4.75, 100 \$25.00

Dazzling orange-scarlet with rich orange sheen. The flowers are often three inches across on two-foot stems, abundantly produced from May to end of October. Very hardy and strong grower, excellent foliage. Should be in all gardens.

Rijnstroom Three \$1.50, Doz. \$5.00, 100 \$30.00

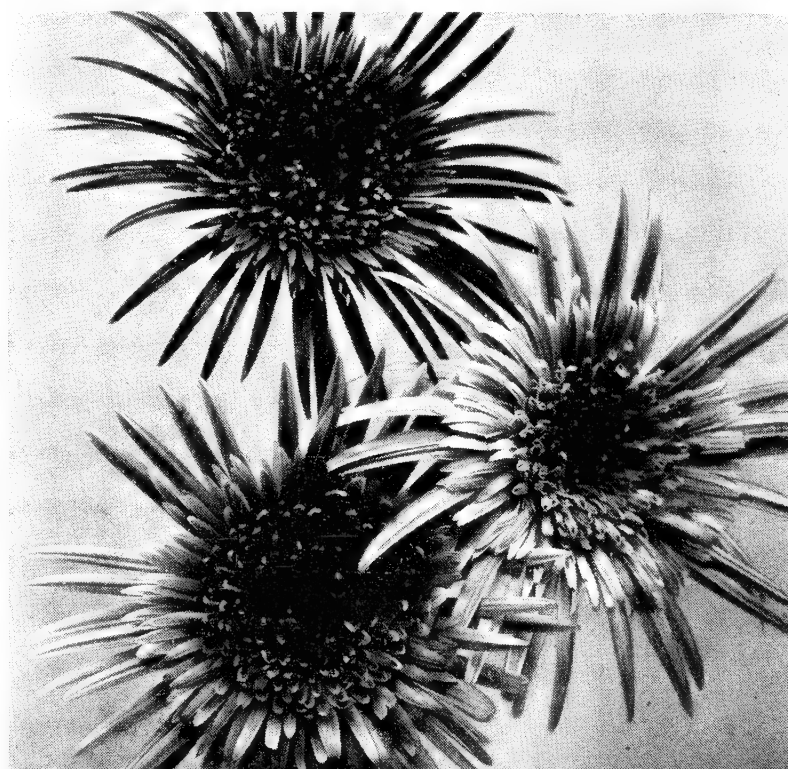

Brilliant coppery orange flowers, often 3 to 3½ inches across on 2-ft. stems from May until October. Splendid foliage. This variety is one of the best new Geums. It should be in every garden.

Dolly North Three \$1.50, Doz. \$5.00, 100 \$30.00

The rich orange flowers in great profusion make this one of the good varieties. The flowers are somewhat smaller but the effect gained by their greater number make this an outstanding garden subject. It is at its best in June and July and grows 1½ to 2 feet high.

Red Wings Three \$1.50, Doz. \$5.00, 100 \$30.00

Brilliant strawberry-red with bright yellow anthers, Red Wings is distinct. It is at its best in June and July but flowers intermittently throughout the summer. Grows 2 feet high and foliage is rich dark green at all times.

Wayside Gardens

MENTOR, OHIO

Helianthus (See page 44)
Chippersfield Orange and Peregrina (red)

Heliothis Scabra Incomparabilis (See page 44)

New Early Flowering Hybrid Tritomas
(For complete descriptions and prices of various varieties, see page 72)

Large-Flowered Pentstemon, Garnet (See page 59)

Geums, Rijnstroom and Fire Opal
(See page 40)

GYPHOPHILA - Chalk-Plant; Baby's Breath

They are remarkable for their numerous feathery panicles of small, starchy, white or pink flowers borne in profusion on threadlike stalks during early summer. The flowers are highly prized for cutting.

Culture. Gypsophilas will succeed in any well-drained and not too heavy soil. They are very partial to lime, and it is well to mix some lime with the soil before planting. A sunny position is essential. Plant all fully two feet apart; Repens 8 inches apart. Plant in autumn or early spring.

Bristol Fairy

Three \$1.50, Doz. \$5.00, 100 \$30.00

A wonderful new introduction. Bristol Fairy produces large panicles of double, white flowers, in which the individual blossom is larger, and of the purest white. It also flowers continuously throughout the summer.

Flamingo

Each 75c, Doz. \$7.50

This double-flowered form of Gypsophila was found in our nursery among a bed of the single variety four years ago. We have propagated it and carefully watched its habit during these years. The pale pink blossoms are very dainty and grow in great open foamy heads, ideal for cutting. They work in even more charmingly between cut flowers than the other Baby's Breath. The pink shade is delicate during warm weather. In the autumn it deepens considerably. A charming plant with a great future for the florist as well as the home garden.

Paniculata compacta

Three \$1.15, Doz. \$3.75, 100 \$18.00

When in bloom in August and September it forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauzelike appearance.

Paniculata flora plena

Three \$1.50, Doz. \$5.00, 100 \$30.00

A light and graceful cut flower, compatible with all others, no matter of what shape or color; masses of minute double white flowers. Plants offered are grafted, and we guarantee all plants to be double.

*Repens

Three \$1.15, Doz. \$3.75, 100 \$18.00

A beautiful trailing plant for the rockery, with clouds of small, white and pink flowers in July and August.

*Repens rosea

Three \$1.15, Doz. \$3.75, 100 \$18.00

A pale pink-flowered form of the above variety; both lovely in the rock garden or in the dry wall.

Repens Bodgeri

Three \$1.50, Doz. \$5.00, 100 \$30.00

A dwarf double-flowering Gypsophila, reaching a height of about 2 feet. It blooms at least 2 weeks earlier than any other double-flowering form, which makes it desirable for garden display or for cutting.

Repens, Rosy Veil

Three \$1.50, Doz. \$5.00, 100 \$30.00

A new dwarf pink double-flowering Gypsophila. Established plants reach a height of 2 feet and bloom in summer and fall. They start blooming 2 weeks earlier than the tall double Gypsophila and continue later in the season.

GENTIANA - Gentian

Exquisitely beautiful Alpine perennials, many species of which are admirably suited for border and rock garden. The taller and stronger growing species succeed admirably in grass in colonies in a moist partially shaded border. Gentians may, indeed, be regarded as the most beautiful of hardy perennials.

Culture. Gentians require no special care to grow them successfully. Grow in a rich, moist loam containing a fair amount of well-decayed cow manure. Best grown in masses as an edging to a partially shaded border or rock garden. It is advisable in all cases to mix leaf mold freely with the soil before planting. Top dress with well-rotted manure in spring. See that the plants are well supplied with moisture in dry weather. Gentians do not like to have roots disturbed, so do not interfere with them once they are established. Plant in fall or spring, 6 to 8 inches apart.

*Andrews

Three \$1.25, Doz. \$4.00, 100 \$20.00

One of the most fascinating native plants. The flowers, which are tightly closed, are borne at the top of a stem from 6 to 8 inches long, and are an intense deep blue. Blooms best in moist places. July and October.

Gypsophila Repens Bodgeri

GRASSES, Hardy Ornamental

Splendid Cover for Game and Wild Birds

There are several varieties of hardy grasses that are distinctly attractive plants for the flower garden. Many of them are of noble, and others of medium or low growth. All produce a striking effect when growing in isolated positions on the lawn, or add to the grace of the border by their elegant green or variegated foliage.

Culture. All will thrive in good, ordinary and well drained soil. Plant in early spring or fall, about 2 feet apart for the tall growing varieties; dwarf sorts about 12 inches apart. All should have a protective covering of dry straw placed around the base in autumn. In dry weather give plenty of water.

Erianthus ravennae

Three \$1.45, Doz. \$4.75, 100 \$25.00

(Blue Lime Grass or Pampas.) 10 to 12 feet high, frequently throwing up 30 to 50 flower spikes topped with silvery plumes.

Eulalia gracillima univittata

Three \$1.45, Doz. \$4.75, 100 \$25.00

(Japan Rush.) Graceful habit, with very narrow foliage; of a bright green color, with a silvery mid-rib. 6 to 7 feet, with fine plumes.

Eulalia japonica

Three \$1.45, Doz. \$4.75, 100 \$25.00

Long, narrow, graceful green foliage, and when in flower the attractive silvery grey plumes are 6 to 7 feet high.

Eulalia japonica variegata

Three \$1.45, Doz. \$4.75, 100 \$25.00

Very ornamental; long, narrow leaves, striped green, white and often pink or yellow.

Eulalia japonica zebrina

Three \$1.45, Doz. \$4.75, 100 \$25.00

(Zebra Grass.) The long blades of this variety are marked with broad, yellow bands across the leaf. It makes a very attractive specimen plant for the lawn, 6 to 10 feet high, with silvery plumes.

Pennisetum japonicum

Three \$1.45, Doz. \$4.75, 100 \$25.00

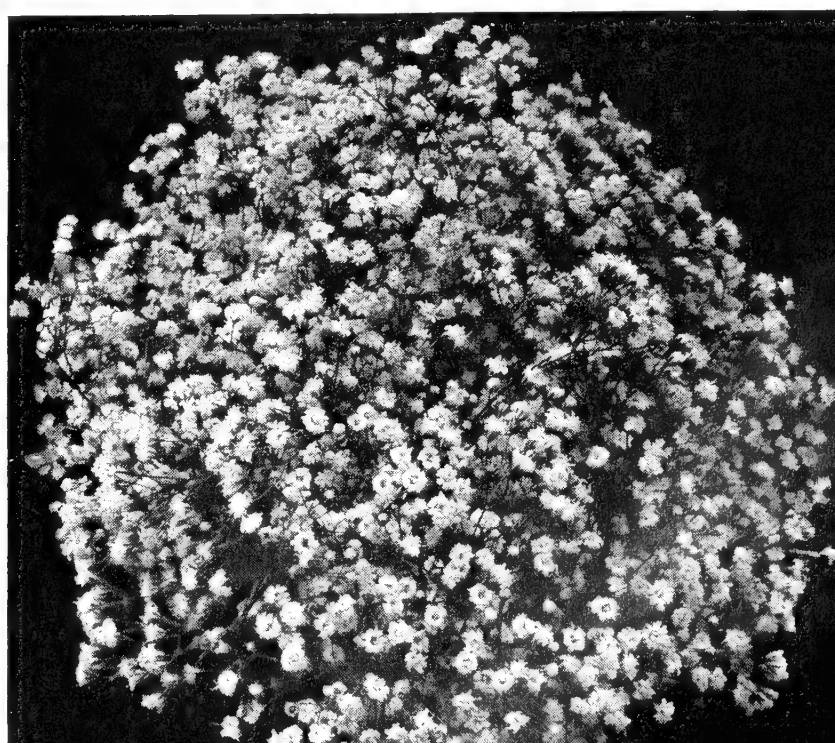

(Fountain Grass.) A beautiful Grass whose flower heads are produced in the greatest profusion. Color rich mahogany, conspicuously tipped with white.

[43]

Erianthus Ravennae (See Grasses)

Gypsophila Paniculata Flora Plena

Helianthemum autumnale Superbum

HELENIUM - Helen's Flower

A showy and useful family of plants for the summer and autumn decoration of the border, and lovely copper shaded or yellow flowers for cutting. Their period of bloom is just before the outdoor Chrysanthemums, and they give us that first rich touch of autumn tints. Particularly valuable for those sections of the country where the Chrysanthemum is not hardy. No garden is complete without them.

Culture. All will thrive in good, ordinary light soil, all require a sunny position. May be grown singly or two feet apart in masses. Plant in autumn or spring.

Baron Linden *Three \$1.50, Doz. \$5.00, 100 \$30.00*
This variety is not unlike Bigelovi. The general color effect, however, is darker, the coppery gold flowers showing tints of dark brown and bronze. The result is lovely and satisfactory. A beautiful garden plant and flowers for cutting.

Bigelovi *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Quick growing, branching plants, 3 to 4 feet high; quite showy during August with terminal clusters of deep yellow flowers; brown centered.

Chippersfield Orange *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Grows 4 feet tall with large heads of copper and gold blooms. A fine new variety blooming in August and September. This and Peregrina are the best of the tall growing varieties.

Gaillardiaefolium *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Glowing bronzy red petals with just a tip of golden yellow 3 feet.

Peregrina *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Unquestionably the finest and having the largest flowers. They are a shining dark mahogany with the edges of the petals faintly seamed golden yellow. A most impressive July and August flowering perennial. Height 3 feet. A worth while new plant for the summer border. Excellent for cutting.

Pumilum magnificum *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Large, golden yellow flowers; one of the most floriferous and useful border plants in cultivation. Early, flowering from July to October. Can be successfully used in place of Coreopsis where a more restrained plant is required. Height 12 to 18 inches.

Riverton Beauty *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Pure lemon-yellow, with large disc of purplish black. 3 to 4 feet high; early fall.

Riverton Gem *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Old gold suffused with bright terra cotta, changing to wallflower-red. 3 to 4 feet high. From August to October.

FOOD FOR THOUGHT As Well As For Your Flowers

Plants, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers. But they are mostly only stimulants.

What your plants need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce good sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 190 and get the full facts about it.

Helianthemum

HELIANTHEMUM - Sun Rose or Rock Rose

Dwarf, evergreen, shrubby perennials. Very showy plants for a sunny place in the rock garden or on dry banks. They soon spread, and form dense masses of pleasing foliage studded with brilliantly colored flowers.

Culture. All require a sandy, well drained soil. Heavy and damp soils are quite unsuitable. Plant about eight inches apart in autumn or spring. Must have full exposure to the sun and protection with dry straw in winter. Plant in permanent location, as all Helianthemums resent transplanting.

- ***Album plenum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Double white.
- ***Buttercup** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Golden yellow; single.
- ***Clara Middleton** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Single; rich orange.
- ***Fireball** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Bright scarlet; double.
- ***Rhodanthe carneum** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Large, pink flowers, silvery foliage.
- ***Sudbury Gem** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Single, crimson-bronze.
- ***Choice Mixed Varieties** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
We offer 3-inch pot plants ready to bloom, which establish without any difficulty.

HELIANTHUS - Perennial Sunflower

Very showy and attractive plants for border decoration, massing in the wild garden or flowers for cutting.

Culture. Ordinary soil and a sunny position will suffice to grow Helianthus. Lift, divide and replant every second or third year to keep the plants compact and shapely. Few plants can equal the Helianthus for providing a gay display of color in the autumn garden. Plant in fall or spring, 12 inches apart.

- Maximiliani** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
The latest of all. Golden yellow flowers in graceful sprays 6 feet long, in October. Fine for cutting.
- Mollis** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
An improved variety of tall growth and having large flowers. A decided improvement and most beautiful sort.
- Multiflorus fl. pl.** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Clear yellow; closely resembling a small Dahlia in shape and finish. 4 feet high.

HELIOPSIS - Orange Sunflower

Allied to the perennial Sunflower, belonging to the same order, and natives of America. They bear their large, orange colored flowers on long, wiry stems, and are invaluable for cutting.

Culture. Grow in ordinary rich soil in a sunny border. They make a most effective feature grown in bold masses. Plant in autumn or spring, 12 inches apart. Lift, divide and replant every third year.

- Pitcheriana** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A desirable variety. The flowers are of a beautiful deep golden yellow, about 2 inches in diameter, very thick texture and a useful cut flower; stems 3 feet high, from July to August.
- Scabra excelsa** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Chrome-yellow flowers, turning to a bright yellow as they mature. These are almost double. The plant is about 3 feet high, and from mid-July to the end of September makes an effective display.
- Scabra incomparabilis** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Admitted to be one of the finest border perennials introduced in recent years. Received Award of Merit in England, 1933. The flowers are a rich golden yellow, nearly double, and over three inches in diameter. It is of easy growth, attaining a height of about three feet, and is in flower continuously from July to autumn.

Hemerocallis

HEMEROCALLIS - Lemon Lilies

Beautiful hardy perennials belonging to the Lily order. For generations great favorites in all gardens, both here and abroad. The numerous species have long, narrow leaves and yellow or orange flowers, many of which possess a delicious fragrance. Very graceful and stately plants for the waterside, naturalizing in grass, or growing in the partially shaded border.

Culture. Any kind of soil will grow these plants successfully. They prefer partial shade, but do excellently in full sun. May be grown singly or in masses. Plant one to two feet apart in autumn or spring. Lift, divide and replant every third year to ensure the plants flowering freely.

Aurantiaca *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A strong growing and free flowering variety, producing rich orange-yellow flowers in June and July. 2 feet.

Bay State *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Brilliant and glistening deep yellow flowers on 4-foot stems. In full bloom about late June. Free-blooming and robust in growth.

Cressida *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Brilliant deep orange flowers on 3-foot, slender stem. In full bloom early July till August. Stems are slender and plant is of medium size. A showy plant for the small border.

Dr. Regel *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Handsome, rich orange-yellow flowers in early May and June. Very fragrant. Fine for cutting. 1½ feet.

Flava *Three \$1.35, Doz. \$4.50, 100 \$22.50*
Sweet-scented, clear full yellow; 2½ feet. Flower in June in great profusion.

Hyperion *Each 75c, Doz. \$7.50*

Hyperion is a cross between Hemerocallis Sir M. Foster and Hemerocallis Florham. Flowers are a fine citron-yellow produced in great numbers on stout stems about 40 inches tall. Considered by experts the finest pale yellow Hemerocallis available at present at popular price. Few plants surpass the vigor and beauty of a well-flowered clump of this wonderful Day Lily. Received Award of Merit Royal Horticultural Society of Great Britain. Its graceful, arching foliage and tall, stout flower scapes lend enchantment wherever desirable. Buds open well in water and emit a most delightful fragrance. Perfectly hardy. Grows in dry, wet, sunny, or shady places. Blooms in July and early August.

J. A. Crawford *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Rich apricot-yellow shaded light cadmium. Many flowers on 4-foot stems; at their best about late June, flowering until end of July. A lovely plant which looks well in light shade.

Kwanso *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Large, double, showy rich golden bronze flowers in July and August. The only double Lemon Lily to date.

Lemona *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Delicate and pale lemon-yellow flowers on 4½-foot stems. Blooms are at their best July 1st. One of the finest large blooms, much like a large Japanese Iris in form.

Mrs. W. H. Wyman *Three \$1.75, Doz. \$5.50, 100 \$35.00*
Lovely light pale lemon-yellow flowers on 4-foot stems. In full bloom August 1st. Very free flowering and lasts a long time. One of the latest to bloom.

The Gem *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Rich, deep orange-yellow flowers on 3½- to 4-foot stems. In full bloom June 20th. Very finely formed bloom, equal to the best Lilies; truly a gem.

Thunbergi (Lemon Lily) *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Much like Flava, but flowers in July, a month later. Spikes 2 to 3 feet tall, and pale yellow blossoms.

Helianthus Multiflorus Fl. Pl.

Helleborus Niger (See page 46)

Heuchera Sanguinea

HELLEBORUS - Christmas Rose or Lenten Rose

There are two distinct types, one, Christmas Rose, flowering in late winter, and the other, Lenten Rose, in spring. Both are valuable for garden decoration because of their flowering during the dull period of the year.

Culture. Require to be grown in a cool, moist, shady position, such as under the shade of trees or among ferns. The ideal soil is a retentive loam, freely mixed with leaf mold and well-rotted manure. As Helleborus are impatient of disturbance at the roots it is advisable to select a position for them where they will not be required to be disturbed for many years. Planting may be done in fall or spring, 12 inches apart. Each autumn add a top dressing of leaf mold and well-rotted manure, and let it lie on the surface. In summer give plenty of water.

Niger (Strong, 4-yr.-old, field-grown plants) *Each 85c, Doz. \$8.50*
Helleborus Niger is a dwarf growing hardy plant, able to withstand temperatures many degrees below zero. Its palmlike leaves are evergreen and of leathery substance. In December, January and February, depending upon locality where grown, large, single, white, bell-like flowers which last for weeks, are produced regardless of cold or snow.

Orientalis (Mixed colors) *Each 60c, Doz. \$6.00*
Orientalis is known as the "Lenten Rose." The colors of its flowers range from pale green through white from pale brown to the deepest tones of chocolate-red. Easier grown than Niger, very interesting plants for shady nooks.

Orientalis, Irene Kroneman *Each \$1.00, Doz. \$10.00*
This fine Hybrid Lenten Rose will be appreciated by those who love something different. Early spring it produces stiff, short stems with rich chocolate-brown flower clusters which look exceedingly artistic coming from between the handsome leathery evergreen leaves. Used as a boutonniere. Are often mistaken for some exotic Cypripedium.

HESPERIS - Sweet Rocket or Dame's Violet

An old and popular garden flower much beloved and grown by our grandmothers. The flowers are very fragrant.

Culture. Will grow anywhere, and freely reproduce themselves from seed. Plant in early spring or fall, 8 to 10 inches apart in full sun or light shade.

Matronalis *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Fragrant, purple flowers in showy spikes. 2 to 3 feet. June and July. Desirable for wild garden, shrubbery or mixed border.

Matronalis alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A white-flowered form of the above named sort. Also sweet scented and fine in the border.

HEUCHERA - Alum Root; Coralbells

Neat-growing and graceful flowering perennials yielding an abundance of flowers suitable for cutting; effective subjects for the margins of borders, as edgings to walks, flower beds, and excellent for the rock garden. They have heart-shaped leaves and bear their dainty blooms in graceful panicles or racemes.

Culture. Heucheras require a well-drained, fairly rich, and not too heavy soil, also a sunny position. Plant 6 inches apart in autumn or early spring. Each spring top dress with well-decayed manure. Lift, divide and replant every third year for best results.

***Brizoides** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Has more robust foliage and better habit than Heuchera sanguinea; the flowers are pale pink and produced profusely in May.

***Pluie de Feu** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A lovely coral-red variety and lovely for the rock garden.

***Rosamundi** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
We have carefully tested several varieties of Heuchera in all the pink shades during the past few years, and we find that this is the most desirable of the coral-pink sorts. It is a strong grower, not subject to any blight, and produces an abundance of fine coral-pink blossoms on tall, strong stems, which last over two months.

***Perry's White** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Pure white flowers, which go well with the red and pink varieties, flowering from June to September.

***Sanguinea** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Flowers bright crimson, on 12- to 18-inch stems in June to September; very free flowering. Nice for cutting. Excellent for rock garden.

HOLLYHOCKS - Althea Rosea

Handsome garden flowers full of sentiment and association with the past. Extensively grown not only in this country, but throughout the world; were originally derived from Althea rosea, a Chinese species. When well grown, there are no finer hardy plants in the garden than a good group of them in full flower. At one time preference was given to the double-flowered kinds, but people are beginning to realize that the single flowered sorts have a distinct beauty and charm of their own.

Culture. Hollyhocks require a rich, generous, well drained soil. If in the least degree heavy, add plenty of sand and manure to lighten it, and should it be inclined to be too light, dig in plenty of cow manure with a little heavy loam. The plants must have full sun, and they show to the best advantage when grouped together in bold masses. As the plants grow 6 to 8 feet high, they must, of course, be grown at the back of the border, and they should be fully eight inches apart. Plant in fall or spring.

Double Triumph Mixed *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A lovely new type from England, beautifully fringed flowers of many new shades not heretofore seen in Hollyhocks. The unusually lovely fringed flowers certainly make this a worth-while addition to the garden.

New Allegheny *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Immense semi-double flowers, with fringed edges.

Single, Mixed Colors *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Double *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Separate colors as follows: **Bright Rose, Maroon, Newport Pink, Red, White, Yellow and Mixed.**

Double Imperator Mixed *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Stately plants with formal begonia-like flowers. Charming combination of colors of great variety. Another valuable English novelty.

NEW NAMED HOLLYHOCKS

From England we received five stately new Hollyhocks. Not much need be said about this grand old-fashioned flower. No garden is complete without it.

Palling Belle *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A lovely double, pale pure pink. Fine form and habit.

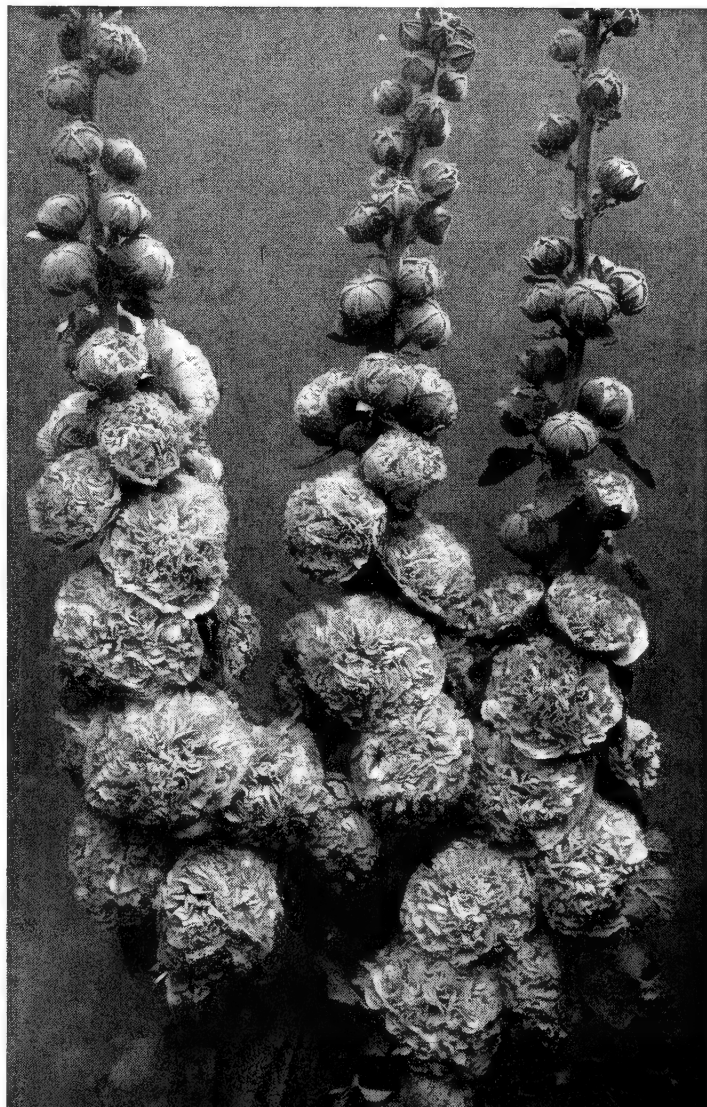

***Pink Queen** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Very handsome, salmon-pink, fully double flowers. Very robust.

Primrose Queen *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Large and handsome double flowers of the purest primrose-yellow.

Prince of Orange *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A beautiful double orange variety of great charm.

Queen of Sheba *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Beautiful buff-primrose with rosy reflection. Flowers fully double.

Double Hollyhocks

HIBISCUS - Mallow

About one hundred and fifty to two hundred species are known, some annual, others perennial or as shrubs. We are dealing here only with the Giant Mallow of recent introduction which is a tall plant about three to four feet high with immense white, pink or red, hollyhock-like flowers, freely produced during the summer.

Culture. A rich, moist, well drained soil suits them best. Best planted as single specimens in full sun in the border or in groups of three or more on the lawn. Plant in fall or spring, 24 inches apart.

New Giant-Flowering

A wonderfully improved form of our greatly admired native Marshmallow or Rosemallow. We supply 3-yr. flowering plants.

Red, Pink or White in Separate Colors

Three \$1.25, Doz. \$4.00, 100 \$20.00

Three \$1.15, Doz. \$3.75, 100 \$18.00

Mixed Colors

IBERIS - Candytuft

Although these plants are perhaps more generally grown in the rockery, they are equally appropriate subjects for the margins of herbaceous borders or as edging to garden walks. When in flower in spring and covered with a mass of snow-white blossoms, they add considerably to the attractions of the garden. They are of shrubby growth, with dark green, evergreen foliage.

Culture. Grow in good, ordinary soil. Plant in fall or spring, 6 inches apart. When plants become straggly, trim them directly after flowering.

*Little Gem (true form)

Three \$1.45, Doz. \$4.75, 100 \$25.00

Dwarf, pure white flowers in June. Its uniform, neat habit makes it one of our best compact low formal edging plants; perfectly hardy. There is nothing much better for edging small flower beds.

*Sempervirens

Three \$1.25, Doz. \$4.00, 100 \$20.00

Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage; a particularly fine plant for the border. Does well in light shade and therefore excellent as a ground cover in front of shrubs. May be used for edging to parks or walks. Little Gem, however, is more formal and upright for these purposes.

Snowflake

Three \$1.45, Doz. \$4.75, 100 \$25.00

In growth more compact than Sempervirens, the flowers are fully three times as large, covering the plant completely when in bloom. A charming plant for edging walks or flower beds, as well as in the rock garden. Being all grown from cuttings, the effect created is beautifully uniform.

INCARVILLEA - Trumpet-Flower

Fleshy rooted perennials of striking beauty. They have handsome, coarsely toothed or pinnate leaves, and showy, trumpet-shaped flowers borne in terminal racemes. Choice plants for the sunny border. Grandiflora brevipes is a lovely thing in the rock garden, not growing over 4 to 6 inches tall.

Culture. All require a deep, rich, loamy and well drained soil and a sunny position. Not suitable for heavy or damp soils. Best planted in March and grown in groups of six or more. Plant 8 inches apart.

Delavayi

Three \$1.45, Doz. \$4.75, 100 \$25.00

Rose-pink flowers produced in large trusses on stiff, 18-inch stems.

*Grandiflora brevipes

Three \$1.50, Doz. \$5.00, 100 \$30.00

This is the best sort for rock gardens, about 6 inches high with large crimson-purple flowers. A splendid rock plant, easily grown.

INULA - Fleabane

Hardy perennials, with sunflower-like blooms. Suitable for the margins of sunny borders. The flowers are useful for cutting, lasting a long time.

Culture. Of easy culture in any ordinary soil. Grown in a sunny position in colonies. Plant a foot apart, in autumn or early spring. Divide and replant every third year.

Royleana

Three \$1.45, Doz. \$4.75, 100 \$25.00

A new introduction from the Himalayan wilds. The flowers are 5 to 6 inches in diameter, rich golden yellow, resembling sunflowers except that the petals are fine and graceful. Not over 18 to 24 inches high. One of the finest of new border perennials and most unusual.

IRIS SPECIES

Some very interesting sorts are here listed and described; many of them are splendid for naturalizing and large, permanent plantings.

*Cristata

Three \$1.25, Doz. \$4.00, 100 \$20.00

(Evansia.) A dainty native creeping species, only 3 inches in height; flowers rich amethyst-blue in May; a gem for a shady spot in the rock garden or an excellent ground cover under trees where it will form a solid carpet covered with flowers which are very lovely to behold.

Orientalis, White

Three \$1.15, Doz. \$3.75, 100 \$18.00

Similar to the Sibirica but not so tall. Produces masses of lovely small white flowers; a fine plant for border or waterside; about 30 inches high.

IRIS SIBIRICA

Perry's Blue

Three \$1.25, Doz. \$4.00, 100 \$20.00

A beautiful sky-blue variety. It is one of the most popular in this class. Grows 48 inches tall and blooms freely.

Emperor

Three \$1.15, Doz. \$3.75, 100 \$18.00

Large, violet-blue flowers; handsome foliage. Fine border plant and grand subject for planting near water, where it blooms profusely; 3 feet high.

Snow Queen

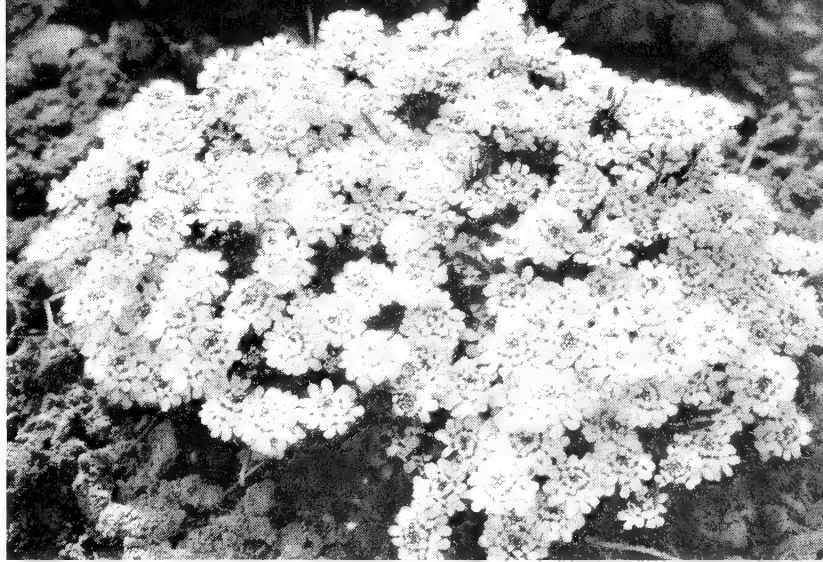

Three \$1.15, Doz. \$3.75, 100 \$18.00

An exquisite hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower border or waterside. 3 feet high.

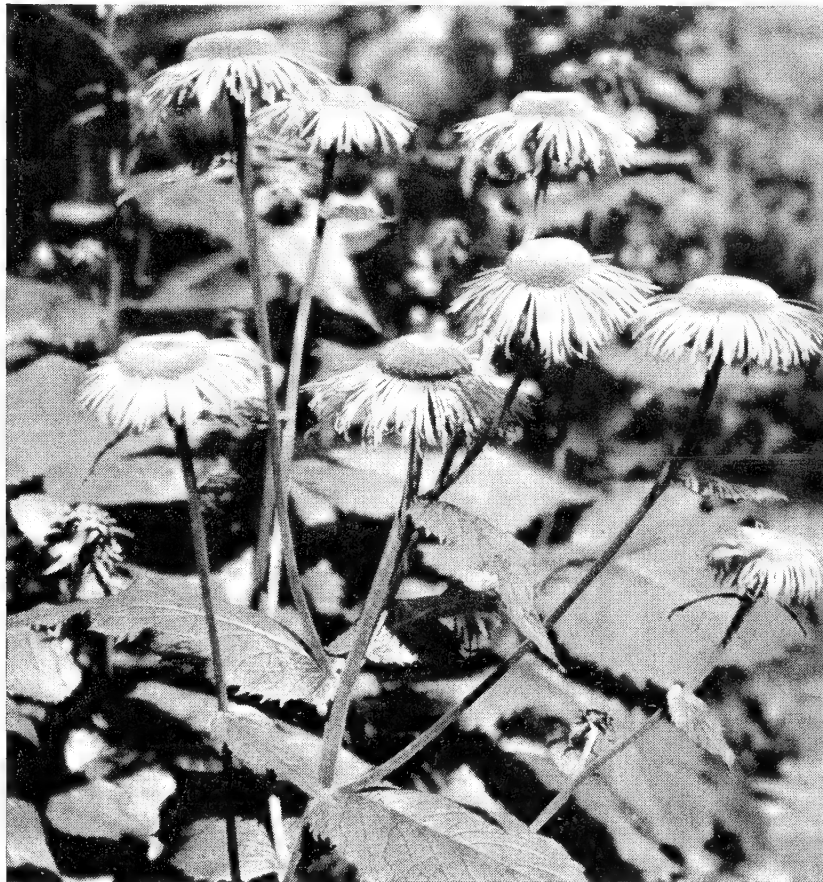

Caesar's Brother

Each 50c, Doz. \$5.00

A stately plant not too tall, 30 inches high. It is the best of the entire lot of dark blue Siberian Iris and was given Honorable Mention by the American Iris Society. The flowers are an unusually rich black pansy-violet of a beautiful depth of color. A superb plant for any flower garden.

Iberis, Snowflake

Incarvillea Delavayi

Inula Royleana

Iris Kaempferi JAPANESE IRIS

THE ancient poets called their Iris, Ground Rainbows; also Children of the Gods. A promise from them that beauty on earth would ever be. The finest of all their varieties is the Kaempferi which we offer you in a wide choice of colors. Not the least of their fine points is the graceful foliage. A thing of beauty after the blooms are past.

Planted in a mass, or as a border, they are ideal. A few edging a reflecting pool or stream, is something to remember. No matter how fine your Iris collection may be, not to have these Jap ones, is to deprive yourself of something that will make it complete.

CULTURE. Late plantings should be protected by a light covering of straw or leaves after the ground is permanently frozen to prevent roots from being heaved out of the ground by frost. Plant in spring or September and October. Avoid all lime.

Azure *Each 60c, Three \$1.50, Doz. \$4.50*
Double. Immense flower, exquisitely waved; mauve-blue, darker halo surrounding yellow blotch at base of petals.

Blue Bird *Each 50c, Three \$1.40, Doz. \$4.00*
Beautifully formed flower; rich uniform blue.

Catherine Perry *Each 50c, Three \$1.40, Doz. \$4.00*
Double. Blue, overlaid with rich purple glow; high tufts in center.

Columbia *Each 60c, Three \$1.50, Doz. \$4.50*
Double. Blue with pure white veins, yellow center; a striking variety.

Daghasta *Each 50c, Three \$1.40, Doz. \$4.00*
Large, double, rich reddish violet flowers, distinctly veined white. Stigmas short, creamy white, heavy golden midrib. An excellent combination of colors.

Dominator *Each 50c, Three \$1.40, Doz. \$4.00*
Single. Rich indigo-blue with narrow white stripes and lighter center. One of the finest and richest colors.

Eleanor Parry *Each 60c, Three \$1.50, Doz. \$4.50*
Double. Claret-purple, flaming and blue as flower ages.

Fascination *Each 60c, Three \$1.50, Doz. \$4.50*
Double. Mauve-pink, lightly veined white. Beautiful variety.

Gold Bound *Each 50c, Three \$1.40, Doz. \$4.00*
A fine double, pure white; cream glow at the gold-banded center.

Koko-No-Iro *Each 50c, Three \$1.40, Doz. \$4.00*
Six large, royal purple petals, with a yellow center, radiating into lines.

La Favorite *Each 50c, Three \$1.40, Doz. \$4.00*
Large, fine; white freely veined blue, and a rich purple center.

Mahogany *Each 60c, Three \$1.50, Doz. \$4.50*
Large, double flowers; the latest to bloom. Purple-mahogany-red.

Mount Hood *Each 50c, Three \$1.40, Doz. \$4.00*
Double. Light blue shaded darker, bright orange center.

Purple and Gold *Each 50c, Three \$1.40, Doz. \$4.00*
Double. Rich violet-purple with white petaloids, tipped violet. Conspicuous golden throat with bluish white rays.

Pyramid *Each 50c, Three \$1.40, Doz. \$4.00*
Double. Violet-purple veined white in center of each petal.

Pink Pearl *Each 60c, Three \$1.50, Doz. \$4.50*
Double. Delicate pearly pink with lilac tone. Most unusual coloring.

Queen of the Blues *Each 60c, Three \$1.50, Doz. \$4.50*
Pale Delft-blue veined white. Six petals, handsome flower.

Rosanna *Each 50c, Three \$1.40, Doz. \$4.00*
Huge double flowers; light mauve, deeply and heavily veined with purple. Stigmas short, yellow center, quite brilliant and clearly defined.

Red Riding Hood *Each 50c, Three \$1.40, Doz. \$4.00*
A fine single amaranth, veined and suffused white. A color combination hard to find.

Templeton *Each 50c, Three \$1.40, Doz. \$4.00*
Double. Reddish violet mottled and marbled with white; of exceedingly fine form.

T. S. Ware *Each 50c, Three \$1.40, Doz. \$4.00*
Double. Reddish violet flowers of large size, beautiful white center.

White Swan *Each 50c, Three \$1.40, Doz. \$4.00*
Pure white, single, very free and tall.

Mixed Colors *Three 85c, Doz. \$2.75, 100 \$15.00*
Both single and double varieties. Splendid mixture of the choicest Japanese varieties.

Twelve Japanese Iris in twelve distinct varieties, our selection. Varieties taken from above list. Each plant labeled. **\$3.00**

[48]

A Planting of Japanese Iris

Iris Cristata (See page 41)

IRIS SPURIA

(Finest Iris for cut flowers.) These are so different from all other Beardless Species and Hybrids as to deserve a separate sub-division. The flowers are quite unlike all other Irises, and are very artistic, making exquisite cut flowers for which purpose they are used extensively by florists. They are hardy anywhere. While not indispensable to their success, they prefer a moist spot and make a most imposing effect in the garden.

Lord Wolseley

Each 60c. Doz. \$6.00

A beautiful clean-cut, stiff flower, rich violet-blue with yellow spot on center of each fall. It will grow 3 feet tall, forms a good clump of nice clean foliage. A fine plant for a damp spot in the border. Excellent for cutting also.

Ochroleuca gigantea

Each 35c. Doz. \$3.50

A stately garden plant and a beautiful long lasting cut flower. In good rich moist soil it will grow 5 feet or more. The flowers have pure white standards while the falls are yellow with a quarter-inch margin of white. An A-1 plant for garden or cutting.

Shelford Giant

Each 60c. Doz. \$6.00

Under favorable conditions (rich moist soil) this variety will grow as much as 6 feet tall. It produces giant flowers of creamy white, with orange spot on the fall. A magnificent and stately plant near pool or in background of border. A-1 for cutting.

IRIS PUMILA - Miniature Flag

These beautiful little Irises do not grow over 4 inches high and bloom in April and May. They are fine for bordering flower beds or planting in the rock garden.

Atroviolacea

Wine colored; very dwarf.

Three \$1.25, Doz. \$4.00, 100 \$20.00

*Excelsa

A splendid pale lemon-yellow.

Three \$1.15, Doz. \$3.75, 100 \$18.00

*Fairy (Coerulea)

Pale blue; very dwarf.

Three \$1.25, Doz. \$4.00, 100 \$20.00

Midget

A very small deep purplish red. One of the smallest.

Three \$1.25, Doz. \$4.00, 100 \$20.00

*Sambo

Dark violet-blue.

Three \$1.15, Doz. \$3.75, 100 \$18.00

*Schneecuppe

A large, showy, pure white.

Three \$1.15, Doz. \$3.75, 100 \$18.00

Spring Skies

A charming small deep blue variety of neat habit.

Three \$1.25, Doz. \$4.00, 100 \$20.00

Autumn Flowering Iris Pumila

Flowering Two or More Times Each Season

We Furnish Substantial Clumps With Several Crowns

These autumn-flowering Irises have two or more normal flowering seasons each year. They blossom in the spring along with other early flowering varieties and again in the autumn, beginning in September and continuing until killed by heavy frosts. Some of them also flower intermittently throughout the year.

Autumn Queen

Three \$1.25, Doz. \$4.00, 100 \$20.00

This is a reliable spring and fall bloomer. A pure snow-white. It belongs in almost the same class as Jean Siret and Lieut. Chavagnac so far as size and height is concerned, but is a little larger and a little taller.

Golden Harvest

Three \$1.45, Doz. \$4.75, 100 \$25.00

A fine large deep yellow veined with red-gold on the falls. A reliable spring and fall bloomer everywhere. This variety is quite scarce.

Jean Siret

Three \$1.25, Doz. \$4.00, 100 \$20.00

This variety and Lieut. Chavagnac are the most persistent bloomers of the Iris family. They begin to flower quite early in the spring with the earliest miniatures and have a long spring-flowering season. They also have an equally long autumn-flowering season. Clear chrome-yellow.

Olive White

Three \$1.45, Doz. \$4.75, 100 \$25.00

This is a good cream-colored spring and fall bloomer.

Iris Pumila, Excelsa

Iris Ochroleuca Gigantea. (See Iris Spuria.)

The best of all perennial Iris for cutting. Lasts for a week in water

Bearded Iris

(*Iris Germanica* or *Fleur de Lis*)

It is from the California, Oregon, and French hybridizers' hands that a wealth of lovely new Bearded Iris has come the past few years. So worth-while and insistent have these improvements been that there is very little left of what was considered "tops" four years ago.

Astonishing new colors and combinations of colors have been created until we now have Iris that rival the extravagant loveliness of the wings of a butterfly. There are richer blues, purer reds, better pinks, finer and larger yellows, other shades remind one of smooth ivory or fine porce-

lain. So delicate and almost ethereal are some as to have a true kinship with Orchids. Many are delightfully fragrant.

Hundreds of varieties were selected by us from long lists of ardent hybridizers and specialists; were put through the exacting Wayside test and the best only we offer now to you.

Give away some of your old ones and make room for these lovely new kinds. You will marvel at their beauty.

(In our descriptions "S" denotes the standards or upper petals; "F" the falls or lower petals.)

Alta California

Each 25c, Doz. \$2.50

It is tallest of all the new yellow Iris, and its branching qualifies it for "A" rating either as an individual stalk or as mass bloom. Yellow Iris have long been recognized as being the "spark" that brings out the fullest beauty of any Iris garden, and Alta California serves this purpose to perfection.

Angelus

Each \$2.00, Doz. \$20.00

In color a bright light pink, with slight lavender iridescence just below the lemon beard. Throughout the center there is a delicate infusion of lemon-yellow. Large, shape of Depute Nomblot, 3 feet tall, and very late.

Anne Marie Cayeux

Each 25c, Doz. \$2.50

A new "black" Iris that is gorgeously deep in tone. S. deep fluorite violet; F. deeper fluorite violet, with black veins, and so very velvety that at some angles they are absolutely black. Blooms of good size, form, and substance, and a hardy plant. Very fragrant, and a great achievement in breeding, as it is very nearly black.

Beowulf

Each \$1.50, Doz. \$15.00

Rich velvety maroon unmarred by any haft venation. The coppery brown of the standards is repeated in a soft margining on the unusually broad falls. The rich orange beard completes the glowing ensemble. Beowulf is the nearest true maroon of any Iris.

Black Wings

Each 30c, Doz. \$3.00

A new "black" Iris that is gorgeously deep in tone. S. deep fluorite violet; F. deeper fluorite violet, with black veins, and so very velvety that at some angles they are absolutely black. Blooms of good size, form, and substance, and a hardy plant. Very fragrant, and a great achievement in breeding, as it is very nearly black.

Blue Velvet

Each 25c, Doz. \$2.50

One of the most beautiful and appropriately named, as the entire flower seems to be cut out of velvet and the color is a deep intense blue.

Buechley's Giant

Each 25c, Doz. \$2.50

A truly large flower of silky lavender-blue which because of its superior size, texture, and plant habits has displaced the older "Lord of June." One of the largest of all Irises. Should be in every collection.

California Gold

Each 50c, Doz. \$5.00

We consider this one of the finest deep yellow Iris introduced to date and think this is the consensus of opinion of others. It is simply superb, having a brilliance and purity of color and perfection of form and finish not approached by any other deep yellow Iris we have seen. The flowers are large and very freely produced.

China Rose

Each 35c, Doz. \$3.50

Colors exquisitely blended. Described as orchid-rose warmed by a bronze undertone at the bottom of the standards. A decided favorite which flowers early and continues through the season. Mid-season. 36 inches.

Christabel

Each \$1.50, Doz. \$15.00

Red—and it will not disappoint the most exacting critic. For sheer brilliance we rank it second only to the new Red Gleam of which there are only a few plants available. Glorious as a garden clump, almost a self, of large size, over 3 feet tall.

Coppersmith

Each 25c, Doz. \$2.50

A very tall and robust growing Iris. Not a new variety but worthy of a place in the garden because of its freedom of bloom, large rich copper-bronze flowers, and good foliage.

Crystal Beauty

Each 35c, Doz. \$3.50

Very early and very tall. A gorgeous, pure, clear snow-white of huge size on stalks that are shoulder high, being the tallest of all white Iris. Flowers of perfect shape and freely produced.

Dauntless

Each 25c, Doz. \$2.50

Winner of highest international honors, the Dykes Memorial Medal. The finest and purest red-toned Iris introduced to date.

Day Dream

Each 25c, Doz. \$2.50

Falls lavender-pink with large yellow beard. Yellow center veined bronze, standards pale smoky lavender-pink at tip shading to bronzy yellow at base. Fine smoky lavender-pink effect.

Depute Nomblot

Each 35c, Doz. \$3.50

Another Dykes Medal Winner. Of gigantic size and perfect form and texture, on tall, nicely branched stems. S. coppery red, flushed golden bronze; F. rich claret-crimson. The entire flower seems to be lightly dusted with fine golden powder, which sparkles in the sunlight, giving it an unusual richness.

Dore

Each 75c, Doz. \$7.50

Huge flowers of fine form, with lemon-yellow standards and ivory falls, the falls having gold veinings at the throat and orange beards. Height 40 inches. Very scarce.

El Capitan

Each 25c, Doz. \$2.50

Mammoth flower in manganese-violet color. Largest and finest of its type.

Eleanor Blue

Each 75c, Doz. \$7.50

Chicory to Campanula-blue with more lavender in the falls, which flare sharply. An Iris of unusually fine, leathery texture. A superb clear clean flower.

Eros

Each 50c, Doz. \$5.00

Very fragrant. Award of Merit, American Iris Society, 1936. A delightful new salmon or Hydrangea-pink, with as many as 12 flowers to a stem, now offered for the first time at a modest price. Entirely different from all other pinks. The large shapely flowers have a delightful silky texture.

Iris Germanica, California Gold

[50]

Iris Sibirica, Perry's Blue (See page 47)

IRIS GERMANICA—Continued

Golden Light

Each 25c, Doz. \$2.50

Early. The best of the new golden brown blends. Standards delightfully ruffled gold, edged soft lilac. Falls gold, flushed soft lilac at the center and veined brown; flaring, deep orange beard.

Golden Treasure

Each 50c, Doz. \$5.00

An exquisite new creamy yellow Iris with an elusive charm. Its loveliness seems to lie principally in its shimmering silkiness of texture and in the subtle infusion of golden light throughout the center of the flower. The beard is bright orange. Whites, creams, and yellows are always valuable for "lighting up" an Iris garden, and none more so than this brilliant new Iris. Truly a "golden treasure" to any landscape artist. An Iris that will some day be grown by the millions.

Gudrun

Each 35c, Doz. \$3.50

Winner of the Dykes Memorial Medal by the English Iris Society. A top notch white Iris among so many fine new white ones and by many judges considered the finest of all. It is a massive flower of purest snow-white, undoubtedly the largest and most massive.

Isoline

Each 20c, Doz. \$2.00

Round standards of pale pinkish buff, strongly flushed mauve; the sharply reflexed falls are Chinese violet with russet tints at the sides.

Jean Cayeux

Each 50c, Doz. \$5.00

Certainly one of the most beautiful Iris we have ever grown. It has been awarded all honors and justly so. The full-petaled flower with its slight suggestion of a frill has stately grace and opulence of form. Its novel superb coloring of light Havana-brown with a luster of golden biscuit-tan show up magnificently anywhere in the garden. It flowers freely over a long period. Height 34 inches.

King Midas

Each 15c, Doz. \$1.50

S. golden buff, suffused garnet-brown; F. very velvety rich garnet-brown, edged golden buff. A heavy beard of deepest orange and a golden haft illumine the center of the bloom. A flower of soft, beautiful colors.

Los Angeles

Each 35c, Doz. \$3.50

Great white flowers of fine shape and substance, the standards faintly edged blue with the blue style arms adding a note of clear blue in the center. Tall and widely branched. Most outstanding. Early. 40 inches.

M. A. Porter

Each 30c, Doz. \$3.00

An exceedingly rich deep violet, with velvety falls and deep orange beard. One of the best of the new giant flowered varieties.

Marquita

Each 50c, Doz. \$5.00

Given an Award of Merit by the American Iris Society in 1936. This Iris is so unusual and so beautiful that it is always wanted by everyone who sees it in bloom. It is a magnificent French introduction that has given us something entirely new in color. The huge flowers are of brilliant smooth ivory, with an eggshell finish, with ruby lines running almost evenly from base to apex of the falls. As the flower ages, the center of the falls turns red, leaving a cream-colored border.

Mary Geddes

Each 25c, Doz. \$2.50

Winner of the Dykes Memorial Medal for 1936. Highest international honors, as the best Iris of the year. Also had the distinction of being an American introduction that received an Award of Merit in England, where so many fine Irises are produced. The color is hard to describe, but it is one of the finest. An attempt at a description would be, a lovely blending of soft pink tones, overlaid Pomeranian red. This gives but a faint idea of its great beauty. There are 8 to 10 flowers to a stem and they are nicely branched.

Missouri

Each 50c, Doz. \$5.00

Very fragrant. Awarded the Dykes Memorial Medal, highest international honors for 1937, as the outstanding Iris of the year. A large flower of true deep blue coloring and perfect form, with flaring velvety falls and excellent substance. Has every good quality. Height 44 inches.

Mme. Louis Aureau

Each \$1.50, Doz. \$15.00

This heavily dotted and sanded Plicata from Cayeux is a rival of the series now so popular from the Sasses. It has a ground color of silvery white, closely netted with rosy heliotrope. A very large blossom.

Mrs. J. L. Gibson

Each \$1.00, Doz. \$10.00

Very nearly a self, with inky black, crepy standards, lustrous and silky, and glossy, slightly flaring falls of fine breadth. Your collection will not be complete without this notable new Iris.

Ozone

Each 50c, Doz. \$5.00

A peculiar and subtle shade of rosy lavender, the same in standards and falls, with a pronounced copper area throughout the center. Large and of ideal shape; a fine grower.

Pallida Dalmatica, Princess Beatrice

Each 30c, Doz. \$3.00

This is the true type of Pallida Dalmatica and still one of the most attractive and satisfactory all around varieties. Standards and falls of a clear lavender-blue shading to a pale silvery blue at the base and sweetly scented. Unusually heavy glaucous foliage.

Persia

Each 30c, Doz. \$3.00

Its refined and subdued colorings rank it as one of the most pleasing of all. Very large blooms with falls that are a blend of bluish lavender and standards of iridescent steel-blue. Brown haft and yellow beard.

Pink Opal

Each 35c, Doz. \$3.50

A fine, tall, large, uniform pink-toned Iris.

Pluie d'Or

Each 20c, Doz. \$2.00

A pure, brilliant golden yellow self. A large bloom of good shape on tall, well branched stems. The color is pleasing, a clear, intense yellow that carries well, and the plant is perfectly hardy, and very floriferous.

President Pilkington

Each 20c, Doz. \$2.00

Large, of bold form, well-branched, many buds to stalk, and medium tall. Standards vinaceous buff underlaid old gold, with falls of soft violet faintly edged silvery brown. The elegant dignity of this Iris gives it a charm that is difficult to describe. Midseason. 40 inches.

Primrose

Each 20c, Doz. \$2.00

A very handsome flower of the finest form and good substance and nicely branched. The standards are deep yellow and the falls are lighter.

Queen Caterina

Each 15c, Doz. \$1.50

A midseason variety of beautiful clear orchid-purple veined with brilliant gold; the whole being further enhanced with a bright orange beard.

Rameses

Each 25c, Doz. \$2.50

Winner of the Dykes Medal for 1932. A lovely blend of soft yellow and tourmaline-pink, the flower being suffused with a yellow glow at the center. A perfect flower in every way.

California Gold

San Diego

Each 50c, Doz. \$5.00

(Mohr-Mitchell 1929.) One of the finest medium-dark blues. A gigantic Iris of heavy substance and fine flaring form and compelling appearance. Tall and vigorous. Early midseason. 40 inches.

Shah Jehan

Each 35c, Doz. \$3.50

A multi-colored Iris with 7 distinct colors, but a flower of the greatest refinement notwithstanding its lavish colors. It is considered by many as one of the greatest achievements of Iris development. Standards, soft creamy buff, flushed soft lavender and suffused gray, fading to almost pure white as the flower ages. Falls, deep, rich ruby-red, with a 1/8-inch white border. This is but an inadequate description of this very fine Iris. An extra fine large stock of this new variety enables us to offer it at a very low price for such a fine Iris.

Shining Waters

Each 35c, Doz. \$3.50

Four to five feet. Early. Very sweet fragrance. On close inspection the surface seems to be studded with tiny jewels, giving an unusual sparkle. The color is a uniform, clear sky-blue, of a most delightful shade.

Siegfried

Each \$1.50, Doz. \$15.00

An Iris they are all talking about, and one which every grower will want to own. A flower of really huge size, pale sulphur-yellow, overlaid with a stippling and dotting of purple. A slightly buffy overtone blends the colors together.

Sierra Blue

Each 35c, Doz. \$3.50

Winner of the Dykes Memorial Medal in 1935, highest international honors, as the best of the year. An exceptionally smooth, refined flower of clear blue, with heavy substance, immense size, perfect form and towering over 4 feet high. Sierra Blue has every good quality to make it a real "champion."

Snowking

Each 60c, Doz. \$6.00

Regal in bearing, with broadly flaring, great white blossoms, lit with gold at the throat. Heavy of substance, bold and strong in growing habit. 3 feet tall. A wonderful and thoroughly hardy white from the Sasses.

Snow Maiden

Each 25c, Doz. \$2.50

A beautiful low growing pure white Intermediate introduced from Canada. It is naturally a good doer in even the severest climates. Pure white in color, on 10-inch stems, its extreme floriferousness results in a solid mass of bloom resembling a drift of new snow. As fine a border planting as can be imagined. One of the very earliest and best. Lovely with late Tulips.

Sunlight

Each 20c, Doz. \$2.00

One of our largest and finest soft yellows. Unsurpassed as an exhibition flower, and lovely with pale blues.

Venus de Milo

Each 35c, Doz. \$3.50

Pure white. Honorable Mention American Iris Society. An outstanding good white. A perfect flower in every way.

William Mohr

Each 35c, Doz. \$3.50

The foliage and leaves of William Mohr are always small, but the blooms are simply immense. The ground color is pale lilac, standards flushed darker, the whole flower beautifully veined manganese-violet. Substance and shape of the very best, a very large flower; actual measurements showing standards 3 1/4 inches by 2 3/4 inches, and falls 3 inches by 2 inches. Stems strong and rigid. Rhizomes naturally small. Early.

Winnesiekie

Each 35c, Doz. \$3.50

We like this best of all the new black Irises, the actual color being the deepest midnight-blue-violet. It is certainly one of the best of this type, if not the best. The flower is large, of lustrous silky texture, of perfect form and freely produced. You will not be disappointed with Winnesiekie.

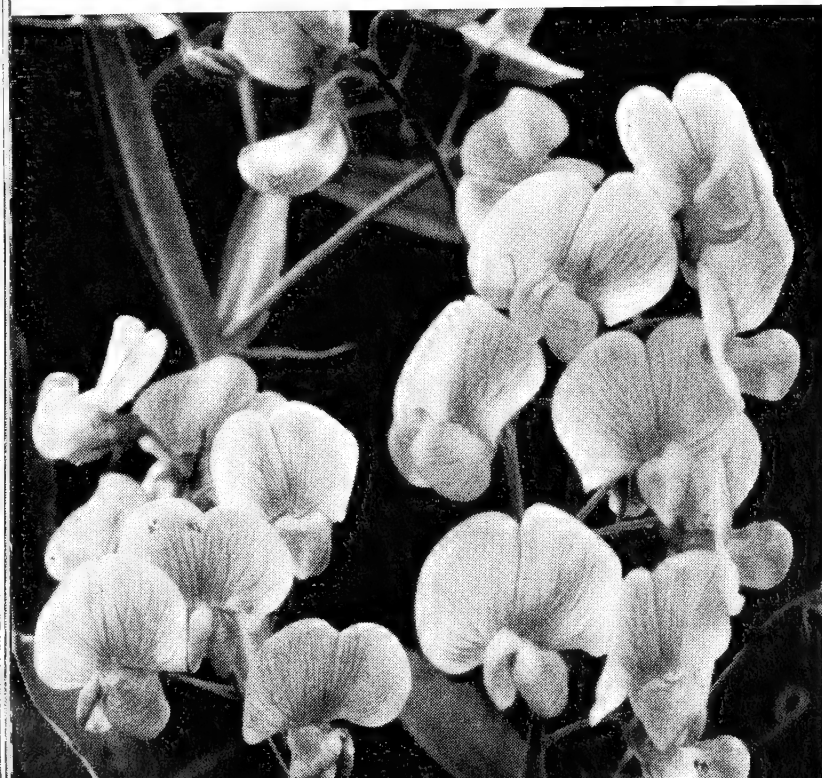

Lavandula Vera

Linum Perenne

Lathyrus Latifolius

LATHYRUS - Perennial or Everlasting Pea

Trailing plants suitable for growing on arches, pergolas, trellises, or trailing over rough banks. Stems are annual and die down in autumn.

Culture. Grow in ordinary soil. Train up arches, pergolas, trellises, or fences, or may be left rambling over rough banks, where they cannot over-run choice plants. Plant in autumn or spring, 3 feet apart.

Latifolius, Pink Beauty *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Large racemes of pleasing deep rose flowers.

Latifolius, Red *Three \$1.25, Doz. \$4.00, 100 \$20.00*
The well-known red Everlasting Pea.

Latifolius, White Pearl *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A great improvement on the older white variety, the stems giving from 12 to 15 flowers each.

LAVANDULA - Lavender

An old-fashioned, fragrant, shrubby perennial, which has been grown for centuries in almost every garden. It has hoary leaves and bears its lavender-colored flowers on erect spikes in July and August. There are several varieties of it, the two best for this country are named below. Its fragrant flowers are highly valued for drying and preserving.

Culture. Prefers a dry, medium soil and a warm position. The best time to plant is in spring; fall planting is all right if plants can be well protected. Cut back moderately in March or April.

***Nana** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Is a very fine new dwarf English introduction. Good for edging and planting between Roses.

Vera *Three \$1.25, Doz. \$4.00, 100 \$20.00*
This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers in July and August.

LEONTOPODIUM - Edelweiss

Low-growing rock plants about 4 to 5 inches high, densely covered with whitish wool with attractive flat, starlike clusters of woolly floral leaves, surrounding very small, inconspicuous yellow flowers.

Culture. Grows to perfection in an elevated position in the rock garden in light, well-drained soil in full sun. Plant in fall or spring, 4 to 6 inches apart.

****Alpinum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Pretty silvery white leaves; starlike heads clothed with a dense white, woolly substance. A splendid plant for the rock garden, 4 to 5 inches high, easily grown and always of great interest, as this is one of the most famous of rock plants from the European Alps.

LEWISIA

Dwarf plants forming lovely rosettes of leaves not unlike some of the Saxifragas. They are exceptionally fine material for the shady rock garden. There are two types, one which loses its foliage during the winter; the others are fine evergreens. All are perfectly hardy.

Culture. All Lewisias must have a loose, porous soil with a moderate amount of humus or leaf mold. It must be deep, at least a foot, and drainage must be excellent. They like a gritty soil and one of the best things to mix in is the fine screenings from crushed rock. Deciduous species are better in full sun. All evergreen varieties are best in light shade. Plant in fall or spring.

Deciduous Lewisias

****Rediviva** *Each 50c, Doz. \$5.00*
Deciduous, is a small plant with large, satiny pink flowers of great beauty. Plant in full sun.

Evergreen Lewisias

****Columbiana** *Each 50c, Doz. \$5.00*
Has a rosette of short leaves and rosy flowers with dark lines down the midrib.

****Finchi** *Each 50c, Doz. \$5.00*
The broad bright green leaves are 1½ inches wide by 3 inches or more long and make a close rosette flat on the ground. Four or five slender scapes, 8-12 inches high, each bear from 20 to 30 very handsome soft pink flowers margined with a broad white band.

****Howelli** *Each 50c, Doz. \$5.00*
With beautifully crested leaves and pink flowers.

LIATRIS - Blazing Star or Gayfeather

Showy plants, native of North America. They have grassy, linear leaves produced in a thick, tufty mass, out of which arise the stems furnished with spikes of purple flowers.

Culture. They will all thrive in ordinary garden soil, in sun or in shade, and are grown in groups of three or more. Plant 8 inches apart. Plant in autumn or early spring. May be grown by the waterside, and bees are very partial to the flowers.

Pycnostachya *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Nothing can be planted that will attract more attention on account of its unusual appearance; but it is beautiful as well as odd. It blooms in midsummer and throws up long, narrow spikes of rich purple flowers, four feet high, which last a long time.

Scariosa, September Glory *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A giant 6-foot spike solidly covered with purple flowers from top to bottom. The flowers, unlike the common variety, come into bloom all at the same time, creating a marvelous effect. A splendid improvement over the old variety. Late flowering. September.

Scariosa, White Spire *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A magnificent pure white Gayfeather. Just as tall as the September Glory from which this variety is a sport. Superb for a bold effect in the garden as well as stunning flower for cutting.

Spicata *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Spikes about three feet in height, of a good clear purple. Flowers before Pycnostachya.

LILY-OF-THE-VALLEY - Convallaria

Lily-of-the-Valley for Garden Planting

Majalis *Doz. \$1.75, 100 \$7.00*
Fortin variety. This popular and fragrant subject repays for being well treated. Grand for massing near shrubs or along shaded borders.

Clumps *Three \$2.00, Doz. \$6.00, 100 \$40.00*
Our clumps are grown from the finest type of imported Fortin stock and are far superior to the common native sort.

LINUM - Flax

Elegant, feathery leaved, free-flowering, hardy perennials suitable for dry, sunny borders or rock gardens. Not suitable for heavy, damp soils.

Culture. Sandy or ordinary, well-drained, light soil and a sunny position are essential for these plants. Grow in colonies, and plant in autumn or early spring, 8 inches apart.

***Alpinum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A rare species from the Dauphine, of prostrate growth, with showers of pale blue blossoms throughout the summer.

***Flavum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Fine variety with transparent, yellow blossoms.

***Narbonnese** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Forms a spreading clump of attractive foliage with a profusion of azure-blue flowers with white eye. Very handsome for the rockery.

***Perenne** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Very attractive, both in foliage and bloom. Flowers beautiful pale blue on slender, graceful stems.

***Perenne album** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
White form of the above.

LITHOSPERMUM - Gromwell

Low growing hardy perennials, some shrub-like and evergreen, splendid for the rock garden in sheltered location, especially suited for southern gardens.

Culture. Any rich, well-drained garden soil, fairly free from lime in sunny position in the rock garden or as an informal edging. Plant in spring only, 10 to 12 inches apart. Clip or prune immediately after flowering.

Prostratum, Heavenly Blue *Each 60c, Doz. \$6.00*

This lovely, low-growing sub-shrub or woody perennial should be in every sheltered rock garden. During July and August the spot in which it is planted will be transformed in the most gorgeous blue ever seen in the rockery. It is prostrate, giving much the same effect as a clump of Daphne.

LOBELIA - Indian Paintbrush

One of the showiest scarlet border plants we have. They are ideal plants for waterside, or for moist, partially shaded borders.

Culture. Lobelias require a moist and shady position to do well. If grown in a border prepare the soil by digging in plenty of well-decayed manure before planting. They are best grown in large colonies, and should be planted 6 inches apart. Plant in spring or fall, protect lightly in winter. They must have plenty of water in dry weather.

Cardinalis *Three \$1.25, Doz. \$4.00, 100 \$20.00*

(Cardinal Flower.) Rich, fiery cardinal flowers, often producing 4 to 6 spikes, 24 to 30 inches long.

Syphilitica *Three \$1.15, Doz. \$3.75, 100 \$18.00*

(Great Blue Lobelia.) Similar in growth to Cardinalis, but the flowers are blue, streaked with white. Plant in a moist place. Desirable for border of brook or lake.

LUPINUS - Lupine

Stately, colorful and beautiful perennials. The pea-shaped flowers are closely spaced on three- to four-foot spikes. The effect made by these colorful spires places the Lupine in the front rank of hardy border plants.

Culture. Growing Lupines well is not so much a problem of soil as it is one of atmospheric conditions. They require ample moisture, full sun and do not like the hot drying winds of summer. They do equally well in heavy or light sandy soils. Water freely when ground is dry. They look best planted in bold groups. Plant in fall or early spring, ten inches apart. Whenever possible, do planting and transplanting in fall.

Polyphyllus, Blue *Three \$1.25, Doz. \$4.00, 100 \$20.00*

(Hardy Lupine.) Clear blue spikes, 3 to 4 feet high, during June.

Polyphyllus albus *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A white variety of the above.

Polyphyllus luteus *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Shades of yellow from pale to deep giving a lovely effect.

Polyphyllus roseus *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Flowers of beautifully shaded rose.

Sutton's Art Shades *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A wonderful new strain that may be classed among the most beautiful of all hardy flowers. Colors are both rich and delicate shades of blue, mauve, pink, etc., and the flowers are borne in long spikes that for size and beauty rival giant Snapdragons. The added novelty of being sweet scented makes these one of the best garden plants we have ever distributed.

RESELECTED RUSSELL LUPINES

A few years ago the sensational Russell Lupines made their debut into American gardens. The extraordinary colors and new shades never before seen in these Lupines have been much admired by all those who are fortunately so located as to be able to grow Lupines with success. Realizing the vast differences between the American and English climates, we immediately began selecting and reselecting the Russell Lupines in order to develop a strain which would be better able to survive in our more difficult climate. Considerable progress has been made in this direction.

You will find in our reselected Russell Lupines the same gorgeous colors, self blues, pink, reds, yellows, maroon, purples, etc. Bicolors such as violet and white, blue and yellow, red and bronze, red and white, purple and cream, blue and white, yellow and orange, pink and white, etc. The standards one color, the keel another. Individual flowers above average size, upright standards of some being an inch across. The flower spike resembles a closely set, well-rounded column of sweet peas. All flowers on spike open at one time from top to bottom. Spike 3 to 5 feet tall. The sensation of the English horticultural world in 1937.

We offer fine two-year, field-grown plants that will give you a mass of blooms the same year they are planted.

Three \$1.45, Doz. \$4.75, 100 \$25.00

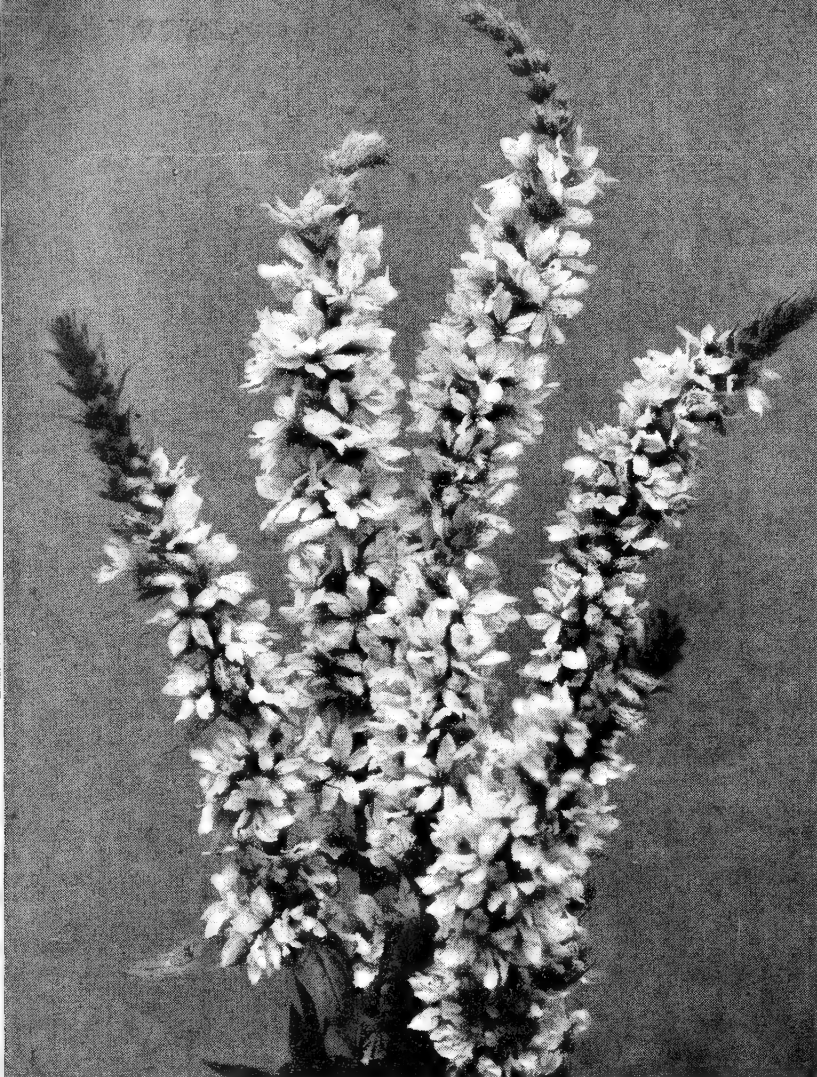

Lithospermum Prostratum, Heavenly Blue

Nierembergia Rivularis (See page 55)

Myosotis Palustris Semperflorens (See page 55)

Lythrum Superbum, The Beacon

LINARIA - Toad Flax

Most of them are more suitable for rockery than border culture. Yields dainty, snapdragon-like flowers. The one offered is a very attractive creeping, vinelike plant for the rock garden or in crevices in an old wall.

Culture. Ordinary soil and a sunny position. Best grown in a mass on the wall or a well-drained rock garden. Plant in autumn or early spring, 4 inches apart.

- ***Alpina** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Brilliant orange and purple flowers like miniature Snapdragons, produced on trailing plants with neat greyish green foliage. Invaluable for the rock and Alpine garden. Blooms in summer and autumn.

LYCHNIS - Campion or Catchfly

Easily grown and attractive perennials. They vary in stature and are suitable for growing in sunny borders or rock gardens, bearing large heads of brilliantly colored flowers, that liven up the border during summer and early autumn.

Culture. All are best grown in groups in good, ordinary soil, with the exception of Haageana, which does best in partial shade in the rockery; the rest should be grown in a sunny border. Plant the tall kinds 18 inches apart and the dwarf ones 6 inches apart in autumn or early spring. Divide and replant every third year.

- ***Alpina** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Dwarf, rose-pink. A charming little plant for the rock garden about 4 inches high.
- Chalcedonica** *Three \$1.00, Doz. \$3.50, 100 \$15.00*
Heads of vivid scarlet flowers, blooming a long time. One of the brightest plants in the hardy border. 3 feet; all summer.
- ***Haageana** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
1 foot. June to August. Very showy, producing orange-red, scarlet or crimson flowers nearly 2 inches across. Should be planted in light shade.
- ***Viscaria flore-pleno** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A fine double variety; fine for cutting.

LYTHRUM - Purple Loosestrife

Suitable showy plants for moist, shady borders and the waterside. There is only one really worth growing, and that is Superbum. The plants are of stately growth, and bear their rosy or purplish flowers in tall leafy spikes.

Culture. Grow in ordinary soil in moist, shady borders, or in groups by the waterside. Plant in autumn or early spring and divide and replant every third year.

- Superbum roseum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Very showy rosy purple spikes about 2 or 3 feet high, produced in profusion all summer. Splendid for banks of streams and ponds.

- Superbum, The Beacon** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Excellent for moist or wet locations in the border. An English introduction of merit, produce 12 or more 3-foot upright spikes of clear rosy red which last a month or more, and are also good for cutting.

LYSIMACHIA - Yellow and White Loosestrife

Although weedy in habit they are very welcome additions to the garden. They grow naturally in moist positions, and hence to cultivate them properly they must be grown in moist, shady borders, or by the waterside. The Creeping Jenny is an excellent carpeting plant to grow among hardy ferns or other low, wet places.

Culture. The Creeping Jenny should be grown as a carpeting plant on a shady, moist border. The other variety may be grown in shady, moist borders, or in bold groups in moist parts of the wild garden, or by the waterside. Plant in autumn or spring, in ordinary soil, 8 to 10 inches apart. Should be divided every third year.

- Clethroides** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Long, recurved spikes, 2 feet long, of pure white flowers, from June to September. A desirable variety.

LUNARIA - Honesty; Judas Penny

An annual noted for its handsome silvery disks which are left on the plant after the seed has been removed.

Culture. Plant in fall or very early spring in ordinary garden soil in full sun. Space plants 18 inches apart to permit proper development.

- Biennis** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Violet and white flowers are produced early in spring which should not be cut. The seed pods, which are very freely and quickly produced, are round; upon removal of the outer husks a silvery round disk is disclosed. The entire plant should be cut down and used for winter decoration. Especially handsome combined with Bittersweet.

MATRICARIA - Double Mayweed; Feverfew

Attractive, low-growing plants for the border. It has finely divided leaves and double flowers on stems about 1½ feet in height, which make an effective display throughout the entire summer.

Culture. Will grow freely in ordinary well-drained soil in a sunny border. Plant one foot apart in autumn or early spring.

- Silver Ball** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A most useful border plant and valuable summer cut flower, with large, double, white flowers. June until October. 18 to 24 inches.

- Golden Ball** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Dwarf yellow form of above.

MERTENSIA - Virginia Cowslip; Blue Bells

All are of medium growth, and well suited for shady or partially shady borders. Mostly blue- or white-flowered. The only one we really recommend is Mertensia virginica.

Culture. All will succeed in ordinary soil. A shady or partially shady position is desirable; lovely planted in open woodlands together with daffodils. Plant in autumn or very early spring, 6 to 8 inches apart.

- Virginica** *Three \$1.00, Doz. \$3.50, 100 \$15.00*
An early spring-flowering plant, growing about 1 to 1½ feet high with blue flowers fading to pink; one of the most interesting of our native spring flowers.

MITCHELLA - Partridgeberry

Lovely creeping evergreen plants, their shiny foliage and red berries are a great attraction in winter.

Culture. They prefer a soil containing plenty of humus, such as provided by rotted leaves. Plant in half-shade in the rockery or open woods, in early spring or fall, 6 to 8 inches apart.

- ***Repens** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A little trailing evergreen. It forms fine mats under trees, and when once established is sure to please.

Oenothera Missouriensis

MONARDA- Bee-balm; Bergamot

The flowers are borne in close heads or whorls on stems about 2 to 3 feet high, surrounded by colored bracts, and the leaves are more or less fragrant. Attractive plants for the semi-shady or sunny border, the wild garden, or for the city gardens.

Culture. Grow in ordinary soil in sunny borders or in light shade. All may be naturalized in the wild garden. Plant in bold groups in autumn or spring, 10 inches apart. Divide and replant every third year.

Didyma alba *Three \$1.45, Doz. \$4.75, 100 \$25.00*

The white Monarda is similar in habit of growth to Cambridge Scarlet. Excellent in light shade or full sun.

Didyma, Cambridge Scarlet *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Brilliant crimson-scarlet flowers are produced freely from June until August. A good plant for wild garden as well as border or garden in the city where other flowers don't grow well.

Didyma, Salmon Queen *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Most attractive salmon-pink flowers of fine clear color; foliage is delightfully fragrant, and can be smelled about the garden.

MYOSOTIS - Forget-me-not

Their dainty blue or pink flowers are produced freely and are always pleasing to the eye, whether massed in beds or on the margins of borders or ponds.

Culture. Most at home in damp positions, as the margins of water, but will thrive in moist, shady borders. Plant in autumn or spring about 6 inches apart.

***Palustris semperflorens** *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Large, rich blue flowers with yellow eye; a charming plant for damp places and a more profuse bloomer than the alpestris, which also is inclined to be biennial in habit.

NEPETA - Ground Ivy; Catmint

Really only 2 varieties are worthy of culture, and are suited for massing in the garden. The foliage is aromatic and silvery gray, the small flowers are lavender-blue.

Culture. Ordinary soil, well-drained, and a sunny position will suit the Nepetas. Plant in autumn or spring, 8 inches apart.

Blue Beauty *Three \$1.45, Doz. \$4.75, 100 \$25.00*

From France came this profusely spring-flowering border plant where it is also called Souvenir de Andre Chaudron. It is compact and upright in growth. Twenty to thirty flower stems to one plant. Excellent for cutting as well. It grows about two feet tall and does exceptionally well in hot dry places. Flowers are produced intermittently throughout the summer. The foliage is gray-green, contrasting well with surrounding plants. A most satisfactory plant for the border and good for cutting as well.

***Mussini** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Of dwarf, compact habit, producing masses of bloom of a beautiful shade of lavender all spring and intermittently during the summer.

NIEREMBERGIA - Trailing Cup-flower

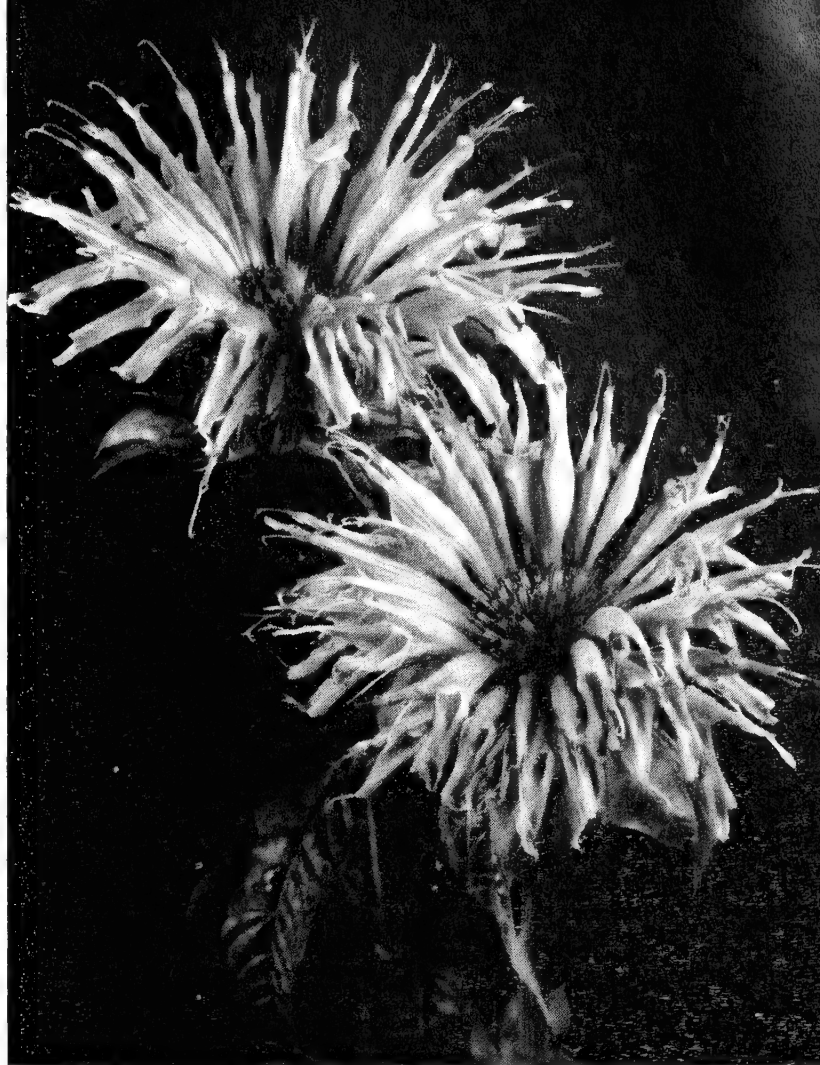

A dwarf, creeping plant with spoon-shaped leaves, and creamy white, bell-shaped flowers. An interesting plant to grow in a moist, shady border. Does very well in full sun.

Culture. Grow in sandy loam freely mixed with well-decayed manure, in a moist spot, and plant in spring only, 6 to 8 inches apart. Give plenty of water in dry weather. Protect lightly over winter.

***Rivularis** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Charming dwarf creeping Alpine plant, bearing large, creamy white, cup-shaped flowers from June till September; most desirable plants for the rockery.

Nepeta Mussini

Monarda Didyma, Cambridge Scarlet

OENOTHERA - Evening Primrose

The species named below are specially suitable for growing on the margins of sunny borders and rock gardens, and all make a continuous and brave display of color throughout the summer with little attention.

Culture. All require a well-drained, medium sandy soil, freely intermixed with well-decayed manure, and a sunny position to grow and flower freely. Show to the best advantage when grown in groups. Plant 8 inches apart in spring or fall. They are apt to perish in winter if grown in heavy, damp soils.

***Missouriensis** *Three \$1.15, Doz. \$3.75, 100 \$18.00*

A low species with prostrate, ascending branches; profuse bloomer. Solitary flowers, often 4 inches across. Good for rock garden or border; in bloom from June until August.

***Speciosa** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Pure white flowers 3 inches across, in great quantities on 18-inch stems all summer.

Youngi *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A strong, stocky, large-leaved plant with firm, shiny foliage, numerous bright lemon-yellow flowers on stems about 24 inches tall from June to August.

OPHIOGON

Grasslike plants producing graceful spikes of flowers exceptionally well suited for edgings, doing well in light shade and full sun.

Culture. They are of easy culture, doing well in ordinary garden soil that is well drained. Need no particular care except a little protection in the colder sections. Plant in spring only.

Jaburan variegatus *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A handsome and desirable low growing plant about 8 to 10 inches tall with brilliant blue flower spikes just above the foliage during July and August. Its compact growth and pendulent foliage form a splendid edging to any flower bed or along a walk. May also be grown as a pot plant for the house where it does exceedingly well.

PACHYSANDRA TERMINALIS (See page 81.)

POT PLANTS

	Doz.	100	1000
2-year-old plants in 2½-inch pots	\$2.60	\$12.00	\$90.00

A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations and the only plant which will thrive under pine trees. Some of its main uses are: Under all evergreen plantings, under all shrub plantings, for area-way copings, for loggia and enclosed porch uses, for shrub and flower bed borders, for bordering walks and drives, for steep terraces in sun or shade, for city yards it is ideal, for dense shade under any kind of trees.

Paeonias - Peonies

The numbers or RATINGS given immediately below the name are the averages tabulated from the votes of the members of the American Peony Society throughout America and Canada. Ten is highest possible score; none under seven are offered. This list contains the best only.

Albert Crousse 3-5 Eyes, Each 50c, Doz. \$5.00
(8.6.) Very fresh salmon-pink, delicate color. Large compact bomb shape; fragrant; erect; medium height. Late.

Baroness Schroeder 3-5 Eyes, Each 60c, Doz. \$6.00
(9.0.) Rose type; late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant.

Chestine Gowdy 3-5 Eyes, Each 60c, Doz. \$6.00
(8.4.) Late midseason. Crown type. The broad outer petals are silvery pink. These enclose a zone of fine, irregularly shaped petals of deep rich cream, which in turn surround a prominent cone of broad pink petals, splashed and tipped with crimson. Very fragrant.

Edulis Superba 3-5 Eyes, Each 50c, Doz. \$5.00
(7.0.) Dark pink, even color; large, loose, flat crown when fully open. Very fragrant; upright growth; early bloomer. One of the best commercial Peonies. There is much confusion over this variety being sold under twenty or more different names.

Ella Wheeler Wilcox 3-5 Eyes, Each 45c, Doz. \$4.50
Late flowering bomb type. Its immense blossoms are deliciously fragrant and of a most pleasing shade of shell-pink. Exceedingly free flowering.

Frances Willard 3-5 Eyes, Each 75c, Doz. \$7.50
(9.1.) Rose type; opens an exquisite blush-white, with an occasional carmine touch, changing to pure white. Listed among the world's twenty most beautiful Peonies.

Festiva Maxima 3-5 Eyes, Each 50c, Doz. \$5.00
(9.3.) Paper-white, crimson markings in center. Very large and full rose type; very tall, strong growth. Early.

Kelway's Queen 3-5 Eyes, Each \$1.50, Doz. \$15.00
(8.8.) Pink. The stocks of this variety have been badly mixed and many spurious sorts have been sold under the name of Kelway's Queen. Once the genuine variety is seen, there can be no mistake. It is a distinct Peony, both in flower and plant. We have the true variety and guarantee our stock of Kelway's Queen to be absolutely genuine. A large compact, rose type flower of uniform mauve, with center flecked crimson. A tall, strong grower, very profuse bloomer. Late midseason. One of Kelway's finest. Very distinct color, a great show flower.

Single Japanese Peony, Françoise

Karl Rosenfield 3-5 Eyes, Each 50c, Doz. \$5.00
(8.8.) Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free flowering. As an early red it has no equal.

Kelway's Glorious 3-5 Eyes, Each \$1.20, Doz. \$12.00
(Kelway 1909.) (9.8.) Buds slightly tinted pink, opening into large blossoms of iridescent white. Fragrant. Late midseason. This is undoubtedly one of the finest Peonies.

Le Cygne 3-5 Eyes, Each \$1.50, Doz. \$15.00
(9.9.) Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony.

Longfellow 3-5 Eyes, Each 75c, Doz. \$7.50
(9.0.) Everyone concedes Longfellow one of the most popular red Peonies because of its distinct, fadeless color and general dependability, both for cutting and garden decoration. It is as striking in the field as in the show room. It comes into bloom early midseason. The plant has excellent foliage and strong, stiff stems. The flower is a bright crimson and is always found among the winning classes.

Marie Crousse 3-5 Eyes, Each 60c, Doz. \$6.00
(8.9.) The nearest to salmon-pink in Peonies. A most lovely variety. Tall stem and beautifully formed flowers of a charming shade of salmon-pink. Blooms midseason.

Mons. Martin Cahuzac 3-5 Eyes, Each 75c, Doz. \$7.50
(8.8.) Medium size, globular, semi-rose type. Dark purple-garnet with black reflex. The darkest Peony known. Strong, vigorous grower, free bloomer; midseason.

Mons. Jules Elie 3-5 Eyes, Each 60c, Doz. \$6.00
(9.2.) A beautiful silvery pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence.

Martha Bulloch 3-5 Eyes, Each 90c, Doz. \$9.00
Mammoth cup-shaped blossoms often 9 to 12 inches across. The largest of the good Peonies. Deep rose-pink in the center, shading to silvery shell-pink in the outer petals. Stalks strong and erect.

Primevere 3-5 Eyes, Each 75c, Doz. \$7.50
(Lemoine 1907.) (8.6.) Guard petals deep creamy yellow and center petals sulphur-yellow. If not exposed to the full sun the flowers will hold a canary-yellow which is most attractive. Very fine. Midseason.

Richard Carvel 3-5 Eyes, Each 50c, Doz. \$5.00
One of the best early reds which we have. Large, bomb-shaped blooms of the same style as Felix Crousse but better in color.

Ruth Brand 3-5 Eyes, Each 50c, Doz. \$5.00
(7.9.) This variety is one of the good early pinks. The flower is very large, bomb type. The guard petals are prominent and enclose a grand ball of compact center petals. The color is uniform soft lavender-pink, splashed with a deeper lavender. This is a splendid variety to cut. It has a delicate and pleasing fragrance.

Sarah Bernhardt Each 50c, Doz. \$5.00
(9.0.) Apple-blossom-pink, very free blooming and flowers of perfect form on graceful stems. This is the ideal pink cut flower Peony.

Solange 3-5 Eyes, Each 75c, Doz. \$7.50
(9.7.) Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer.

Therese 3-5 Eyes, Each 75c, Doz. \$7.50
(9.8.) A most desirable variety of a charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. A splendid addition to the midseason sorts of which it is one of the best.

Walter Faxon 3-5 Eyes, Each 75c, Doz. \$7.50
(9.3.) Semi-rose type; midseason. A very distinct, delicate rose-colored flower. Tall, free bloomer. Those who know this variety consider it one of the best pure pinks.

PAEONIA OFFICINALIS (Early Peony)

Officinalis Albo-Plena Each \$1.00, Doz. \$10.00
Double white.

Officinalis Rosea Superba Each 85c, Doz. \$8.50
Brilliant deep rose-pink fragrant flowers; one of the earliest to bloom.

Officinalis Rubra Fl.-Pl. Each 60c, Doz. \$6.00
The old-fashioned early red, that even in our latitude blooms before Decoration Day.

Officinalis Tenuifolia Fl.-Pl. Each \$1.25, Doz. \$12.00
The fern-leaved Peony. Deep crimson flowers. Early, precedes Officinalis Rubra fl.-pl. For rock gardens and perennial borders.

SINGLE JAPANESE AND CHINESE PAEONIAS

A type not very generally known, but awakening great interest and enthusiasm. The opened flowers are of extra wide spread, with one or more layers of broad guard petals which act as a cup to the mounted center. In place of the pollen-bearing stamens, the stamens and anthers are greatly enlarged into narrow, thick, twisted petaloids of various colors, forming a dense cushion.

- Camille** *Each 60c, Doz. \$6.00*
Clear violet-red; a lovely kind. Strong grower and blooms very freely.
- Dai-jo-Kuhan** *Each 60c, Doz. \$6.00*
A wonderful Japanese Peony. The large flowers are deep rose paling at the edges with bright yellow crest.
- Emma** *Each \$1.00, Doz. \$10.00*
Lilac-dark-pink. Two rows of perfectly shaped, round petals. Very large flower.
- Eva** *Each 60c, Doz. \$6.00*
Bright, light lilac-crimson. Very lively shade. Large, round petals. Free bloomer. Short stems. Unsurpassed for landscaping.
- Francoise** *Each 60c, Doz. \$6.00*
Bright rose. Two rows of petals. Center composed of petaloids which, when the flower opens, are of a yellowish white shade, edged yellow. While the flower develops, the petaloids take on the same shade as the guard petals. An excellent variety.
- Fugi-No-Mine** *Each 60c, Doz. \$6.00*
Pure white, very large and a strong grower, giving many blooms.
- Isani Gidui** *Each \$2.50, Doz. \$25.00*
Pure white. Golden center resembles large white Poppy.
- Jeanne Lapandry** *Each \$1.50, Doz. \$15.00*
Glittering pure white. A most lovely and desirable variety, reminds one of a cluster of Water Lilies. Good strong grower.
- Kinsui** *Each \$1.50, Doz. \$15.00*
Bright flesh-pink. Large flowers. Golden stamens. A very fine variety.
- La Fraicheur** *Each \$1.50, Doz. \$15.00*
Substantial clear blush-white. Splendid for cutting and garden use. Most attractive in the hardy border. Very free flowering and long lasting.
- L'Étincelante** *Each 60c, Doz. \$6.00*
Semi-double to single in appearance with petals deep rose, inner petals pale rose, white at edges, golden crest of stamens. Large striking blooms.
- Lucienne** *Each 60c, Doz. \$6.00*
Pure white with purple reflex. Most striking garden sort; very rugged variety.
- Mikado** *Each \$1.00, Doz. \$10.00*
The Peony shown at the Chicago World's Fair in 1893 by the Japanese Government. A rich red with long, rounded petals of brilliant red surrounding a great dome of golden stamens. Exceedingly brilliant.
- Nagasaki** *Each 75c, Doz. \$7.50*
Light pink, dark foliage and robust growth. Excellent in the border.
- Nymphé** *Each 50c, Doz. \$5.00*
Bright flesh-pink. Large flowers. Golden stamens. A very fine variety.
- Oimatsu** *Each \$1.25, Doz. \$12.50*
Opens very light pink and changing to pure white. Two rows of petals of which the inner row is somewhat shorter than the outside row. The petaloids are yellowish white with little pink tips.
- Ruigegno** *Each 60c, Doz. \$6.00*
Clear red. Two rows of petals. Golden petaloids. A variety of great substance and very beautiful.
- Shi-Pen-Kue** *Each 60c, Doz. \$6.00*
Round petals, with thick golden petaloids. This is the nearest to blue in Peonies.
- Taikoon** *Each 60c, Doz. \$6.00*
Blood-red. Most striking against a dark background.

BOTANICAL PEONIES

- Corallina** *Each \$2.50*
Blooms in early May in Ohio. Light carmine-rose flowers, followed by pretty seed-pods.
- Laciniata** *Each \$1.50*
Sparkling red flower, foliage lacinated. Blooms in early May. A good landscape variety.
- Lobata** *Each \$6.00*
Rather small globe-shaped flower of unusual glowing salmon-scarlet, suffused orange. Very unique coloring and difficult to describe. Grows 15 to 18 inches high. Blooms early.

FOOD FOR THOUGHT As Well as for Your Flowers

Plants, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers. But, they are mostly only stimulants.

What your plants need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce good sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 190 and get the full facts about it.

PAEONIA MOUTAN - Chinese Tree Peonies

The Tree Peony is really one of the finest plants available for the garden. It is quite hardy, and does well under the simplest treatment. It flourishes in the most astonishing manner, bearing blossoms from 6 to 8 inches across, which increase every year in beauty and size. They are a grand addition to the garden, as they do not die down to the ground like the herbaceous sorts, but make fine bushes 3 to 4 feet in height, covered every spring with elegant flowers.

Culture. It is advisable to avoid wind-swept locations and to protect the early bloom buds in case of late spring frosts. The south or east side of a planting of evergreens, shrubs, wall or building, is a very good location for Tree Peonies. Mulching is advisable the first winter after transplanting. Apply mulch of light material after ground is frozen solid. Any good well drained garden soil is satisfactory. Never cut back woody branches.

- Archduke Ludovico** *Each \$2.00*
Enormous wide flower, double, flesh-pink, turning soft lilac.
- Athlete** *Each \$2.50*
Immense double flower of fine glazed mauve, shaded rose; vigorous and prolific grower. Blooms very freely.
- Banksi** *Each \$2.00*
Semi-double; pale lilac-rose. Very free-flowering variety. Easily grown.
- Chromatella** *Each \$12.50*
This striking novelty is a sport from the beautiful variety Souvenir de Maxime Cornu. Color, a pure sulphur-yellow without any shade of salmon or buff. The flower is full double. One of the choicest plants for the garden in existence.
- Comtesse de Tuder** *Each \$3.50*
Lively salmon, petals tipped satiny white; fine full double flower; free bloomer. Lovely sparkling variety.
- La Lorraine** *Each \$4.00*
A cross between Paeonia Lutea and a variety of Paeonia Moutan. Large, well-expanded full double flowers of good substance; the petals nearly imbricated, being of a soft sulphur-yellow with a salmon tinge when opening, becoming lighter and purer when fully expanded. (Awarded a Work of Art at the Paris Horticultural Exhibition in 1909, awarded first-class silver medal at the Ghent Quinquennial Exhibition 1913, first-class certificate from the Floral Committee of the Royal Horticultural Society, May 14, 1913.) A true jewel for the garden.
- Mme. de Vatro** *Each \$3.00*
Very large globular bloom; satiny pink, shaded lilac, vigorous grower.
- Reine Elizabeth** *Each \$2.50*
Flower perfect in shape, vivid salmon-pink. A brilliant color; considered amongst the finest of all double Tree Peonies. A-1 plant.
- Souvenir de Ducher** *Each \$3.00*
Large, globular bloom; bright reddish violet with silvery reflex.
- Souvenir de Maxime Cornu** *Each \$5.00*
A vigorous variety, raised by L. Henry at the Paris Museum from Paeonia Lutea hybridized with Paeonia Moutan, Ville de Saint-Denis. It forms a bush 3 to 4 feet high with abundant and healthy foliage, every stem carries 2 or 3 full flowers, 8 inches or more across, with crowned and wrinkled petals, of a deep yellow, heavily shaded orange.
- Surprise** *Each \$5.00*
A tall vigorous variety; flowers carried by strong stalks, very large and full; the color is a combination of straw-yellow, pale salmon and rosy purple, of a very novel character. Fragrant.

All Tree peonies offered above are furnished growing in 5-inch pots. These pot-grown plants establish quickly and usually bloom from the second year after planting. If you desire field plants, 4 years old, double the price quoted for pot plants.

Paeonia Moutan (Tree Peony), Reine Elizabeth

Papaver Orientale - Oriental Poppy

Oriental Poppies are the regal representatives of this popular genus, growing 3 to 3½ feet high, and far surpassing in splendor of bloom all the annual kinds. For a gorgeous display of rich and brilliant coloring nothing equals them during their period of flowering in May and June, and whether planted singly or in masses, their large flowers and freedom of bloom render them conspicuous in any position.

CULTURE: *Almost any kind of soil suits them, but they do best in deep, rich loam. Set the plants out in the fall or early spring before the first of May, twelve inches apart. Give them water occasionally during dry spells in the early part of the season. Mulch with dry litter to prevent crown rot in the fall; and they will increase in size and floriferousness for several years. The proper planting season for field-grown roots of Poppies is during the last of August, September and October. In spring, strong plants are supplied in pots to insure success.*

- Orientele** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Oriental Poppy.) Tremendous cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals, creating a wonderful contrast when bloom is fully open. Clumps of these throughout the border add a brilliancy that no other flower can provide.
- Beauty of Livermore** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
The finest dark crimson with black blotch; fine flowers freely produced.
- Cavalier** *Three \$2.00, Doz. \$6.00, 100 \$40.00*
One of Dr. Neeley's latest and best. Strong grower and free bloomer. Flowers are crinkly and deep scarlet-red.
- Enchantress** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A lovely soft lilac-rose, an enchanting delicate shade. Here again one of the best and possibly "tops" in this color which comes to perfection if the plant is grown in light shade. Very good grower and free flowering.
- Gold of Ophir** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A Poppy of medium height, about 24 to 28 inches, coming to perfection when 2 years old or more. The flowers are golden orange. This tone of golden orange becomes more pronounced as the plant grows older. Unique.
- Helen Elizabeth** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Considered by many as the best pink. It is a rugged grower. The straight 34-inch stems are topped by big La France pink flowers without dark spots. We also think it one of the best.
- Henry Cayeux Improved** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Much larger flowers than Henry Cayeux but otherwise similar. The big blooms are a peculiar tint of ashes of roses or an old rose shaded burgundy. If grown in light shade this flower really comes to perfection.
- Jeanne Mawson** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Tall, erect growing variety. Flowers are large and sparkling geranium-pink. Unquestionably a beauty.
- Joyce** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Charming soft red flowers in great abundance on 48-inch stems of exceptionally sturdy growth.
- Lula A. Neeley** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Good strong stems support flowers of brilliant oxblood-red, the color holding until the last. This variety is becoming most popular.
- May Sadler** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Salmon-pink with black markings. We believe it one of the finest of the pink sorts because of its large flowers and robust growth.
- Mrs. Perry** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Orange-apricot; a very fine variety.

Papaver, Snowflake

- Orange Perfection** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A new variety from Europe. A strong grower with orange-tinted flame-red flowers; very free-flowering.
- Perry's White** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
The flowers are a fine satiny white with a crimson-maroon blotch at the base of each petal.
- Purity** *Three \$2.00, Doz. \$6.00, 100 \$40.00*
Considered by many to be the finest of all pink Poppies. Color pure soft pink without any spots or markings. Very free-flowering.

Salmon Glow (Double) *Each 60c, Doz. \$6.00*
A fine double salmon-orange not to be confused with Olympia. The flowers are exceptionally large, fully 8 inches across. It is a Dutch origination and selected for the Wisley trials. It received a first-class certificate in Holland and is spoken of as a beautiful double salmon-orange. Strong upright growing Poppy. It was much admired in our nursery.

- Sass Pink (True)** *Three \$2.00, Doz. \$6.00, 100 \$40.00*
No doubt one of the finest and largest pink Poppies. The immense blooms are of fine crepey texture and lovely light delicate flesh-pink shade with gray-mauve center.
- Wunderkind (True)** *Three \$2.00, Doz. \$6.00, 100 \$40.00*
Considered the finest cerise-colored Poppy, true Begonia-rose. Strong grower with very large flowers on 33- to 35-inch stems. The plant looks sturdy and is a good grower. Flowers keep well when cut.
- Wurtembergia** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A striking flower of great size and substance. Brilliant glowing rose-red.

SENSATIONAL NEW BICOLOR POPPY

Snowflake *Each 75c, Doz. \$7.50*
(Plant patent No. 365.) "A sensational break in Poppies" is what an expert said when he saw Snowflake in bloom the first time in our nursery. The lower half of the flower is pure white; the upper half a flame-orange, creating a most unusual and brilliant effect. The orange band of the upper half of the petals varies considerably in width with each flower, helping to increase the charm of this rare variety. Happily, Snowflake is a very strong grower and blooms freely. It is not subject to any ailments or insect pests. In fact, it is one of the strongest growing varieties we have. The flowers are large and grow on stiff stems. A few clumps of Poppy Snowflake in your garden will create nothing short of a sensation. We send in the spring strong plants in 2½-inch pots. From August until end of fall planting season, we send field-grown roots. The pot plants are vigorous and most of them will bloom the first year.

[58]

Papaver Schinzianum X Orientale Hybrid No. 1

Curtis Giant Poppies

FLOWERS 10 TO 13 INCHES ACROSS
ON STEMS 3½ TO 4 FEET TALL
NOW OFFERED FOR THE FIRST TIME

Mr. E. A. Curtis of Cincinnati, Ohio, the originator of these Giants, has arranged with us for the exclusive distribution of his plants. Only a limited number are available for this season. Therefore order promptly.

Much careful breeding and selecting has resulted in the development of this wonderful strain of hardy Oriental Poppies and we predict they will replace now existing varieties of similar color. Their growth, requirements, habits, and flowering time are the same as all other hardy Poppies, only they are almost twice as large and tall.

Curtis Giant Flesh Pink *Each \$1.00*

A magnificent robust plant with numerous giant flesh-pink flowers.

Curtis Giant Salmon-Pink *Each \$1.00*

A mammoth flower of beautiful salmon-pink.

Curtis Giant Mulberry *Each \$1.00*

Just as the name states, giant blooms of a most unusual mulberry-rose.

Curtis Giant Flame *Each \$1.00*

Flame-red, 13-inch blooms make it seem like a bonfire.

Orders should be placed NOW for these garden Giants, delivery will be made in September, which all experts agree is the best time of the year to transplant Oriental Poppy roots.

Pentstemon Grandalli

PAPAVER NUDICAULE - Iceland Poppy

These lovely dwarf plants are of great value in the sunny border or rock garden. Their brilliant orange, yellow, white or pink flowers are produced all summer.

Culture. Should be planted in well-drained, sandy soil in full sun. Planting should be done very early in spring or early in fall for best results.

Art Shades Mixture

Three \$1.15, Doz. \$3.75, 100 \$18.00

These plants are of neat habit, forming a tuft of bright green, fern-like foliage, from which spring throughout the entire season a profusion of slender, leafless stems, 1 foot high, each graced with charming, cup-shaped, yellow, orange, white or pink flowers.

PAPAVER SPECIES

Schinianum

Three \$1.45, Doz. \$4.75, 100 \$25.00

Somewhat taller and with slightly larger flowers than the well-known Iceland Poppy. Very profuse in bloom all summer, and fall. Transplants quite readily. Color of bloom delicate buff-orange. A fine new Poppy.

Schinianum X Orientale Hybrid No. 1

Each 60c, Doz. \$6.00

The flowers are crinkly orange produced in great quantity on 18- to 24-inch stems. They have the appearance of a very large Iceland Poppy and bloom over a long time but are not all-summer flowering as are the Iceland Poppies. The plants go dormant in midsummer like those of the Oriental. A very interesting addition to the spring garden.

PEROVSKIA - Russian Sage

A tall plant with gray foliage not unlike the Sage. The blue flowers are arranged in slender spikes forming terminal panicles which are exceptionally fine combined with summer flowers such as Gladioli.

Culture. A well-drained, loamy soil, not too rich, suits best. Plant in fall or early spring, 12 inches apart in sunny border.

Atropicifolia

Three \$1.50, Doz. \$5.00, 100 \$30.00

During July and August and early September, the plants are covered with long whorls of silvery blue flowers which have a lovely, graceful appearance. The flower stalks are approximately thirty inches to three feet long and are splendid for cutting. The florists like this flower, particularly for cutting, because it combines beautifully with Dahlias, Gladioli, and the taller summer flowers. The foliage is silvery gray. The plant is wavy, giving a silvery smoky effect in the garden. Hardy anywhere. Does well in all kinds of soil, but should be grown in full sun for best foliage effect.

PENTSTEMON - Beard Tongue

Very popular hardy flowering plants. Most attractive for massing in beds or borders. They are not only of graceful habit, but also decidedly beautiful from a decorative point of view. The many species are interesting subjects for growing in the rock garden or border. The flowers are tubular and Foxglove-like in shape.

Culture. The Pentstemons require a rich, well-manured, loamy soil, and a well-drained, sunny place. The dwarf kinds should be grown on the margins of the border, or in the rock garden. Plant in autumn or early spring. Place the plants 10 inches apart each way.

Barbatus Torreyi

Three \$1.15, Doz. \$3.75, 100 \$18.00

Spikes two feet long of bright scarlet flowers from June till August. A very effective plant for the border.

Barbatus, Pink Beauty

Three \$1.25, Doz. \$4.00, 100 \$20.00

Color is a lovely clean shell-pink. A beautiful cut flower; one of the outstanding new and good plants; makes a delightful companion to Gypsophila.

*Digitalis

Three \$1.25, Doz. \$4.00, 100 \$20.00

White Foxglove-like spikes produced in great quantities all summer. Plant is about 20 inches high, excellently suited for the garden as well as naturalizing in the grass. It self seeds very freely.

Grandalli

Three \$1.45, Doz. \$4.50, 100 \$25.00

This lovely prostrate plant is a native of our "Northwest." It hugs the ground tightly, not over 2 or 3 inches high and the cluster of narrow dark green leaves is completely covered in May by wide open, almost stemless Snapdragon-like blue flowers. A rare novelty for any rock garden anywhere.

Grandiflora

Three \$1.50, Doz. \$5.00, 100 \$30.00

The largest flowered of our hardy Pentstemons. A beautiful plant in the border giving 3-ft. spikes of huge pale blue flowers. Excellent for cutting. The handsome silvery leaves contribute also to the value of this lovely garden flower.

Heterophyllus

Three \$1.50, Doz. \$5.00, 100 \$30.00

Lovely metallic-blue flowers from June until September, on 3-foot spikes. Excellent for the sunny border; good cut flower.

HARDY LARGE-FLOWERED PENTSTEMONS

Garnet

Three \$1.50, Doz. \$5.00, 100 \$30.00

This is the first of a new strain of hardy, large-flowering Pentstemons. Heretofore, the only large-flowering Hybrid Pentstemons available were the Gloxinoides which are not hardy in the North. Pentstemon Garnet is of spreading habit and produces a succession of bloom from June until stopped by frost. The Gloxinia-like flowers are a rich garnet color, and are gracefully placed on stems 12 to 18 inches tall. The plants have from six to a dozen spikes continually throughout its flowering season. The flowers are excellent for cutting and last a week or more in water. Color illustration on page 42.

Firebird

Three \$1.50, Doz. \$5.00, 100 \$30.00

This beauty came to us from Switzerland where it is known as Pentstemon Shonholzeri. The flowers are Foxglove-like in size, on stems about 18 to 24 inches tall, and are a most beautiful ruby-crimson. The plant is easily grown, is free from insect pests, flowers freely, creates a lovely effect in the flower garden, and is a cut flower par excellence. Color illustration on page 64.

Phlox Decussata - Hardy Phlox

Search where you will, say what you will, after all is said and done, Phlox still holds its head highest as an indispensable in every garden from coast to coast.

None other has so many desirable attributes or adapts itself so happily to all gardens. Do you know of any that give an equal in showy, colorful blooms? What other hardy plant needs as little attention or grows as prolifically and flowers so long? What one of your garden family, in its four main members, stretches its blooms over so long a period?

For first blooming in early spring comes the welcome Subulata, the delighting Moss or Mountain Pinks, giving you drifts of cheery color.

For second blooming there's the Arendsi Hybrids which come early and continue till late fall. Thrive in sunlight or shade.

For late summer and fall there is the Decussata group.

If you were to ask us what Phlox are the very best of them all, we would unhesitatingly recommend these five:

Columbia (light pink), Augusta (American-Beauty-red), Mary Louise (pure white), Atlanta (white touched with blue), and the new red for 1942, Charles Curtis.

The great many varieties generally offered are quite likely to be confusing; we have, therefore, discontinued growing any but the better and newest varieties noted for their clear colors, freedom of bloom, and ruggedness.

It's Easy to Grow Phlox

To grow Phlox really well the soil should be well drained, deeply spaded, and enriched with Wayside Gardens Plant Food. Planting may be done in fall or spring in a sunny border. Set the plants 10 inches apart. Lift and divide every three or four years or they will become crowded, resulting in poor, small flowers. Never let plants go to seed, never water overhead, always keep blooms and foliage dry, letting hose run slowly on the ground. This method of watering prevents mildew.

Africa Three \$1.15, Doz. \$3.75, 100 \$18.00
Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem and not subject to mildew.

Antonin Mercier Three \$1.15, Doz. \$3.75, 100 \$18.00
A delicate lilac-blue; free-flowering variety of medium height and fairly free from red spider. During prolonged hot weather the color fades to a very pale lilac; in light shade, however, the coloring is constant.

B. Comte Three \$1.15, Doz. \$3.75, 100 \$18.00
Tall growing variety producing large heads of rich satiny amaranth. Very brilliant. Looks well planted close to a yellow-flowered plant.

Blue Boy Three \$1.45, Doz. \$4.75, 100 \$25.00
Blue Phlox just do not exist. In semi-shade, however, certain varieties develop good blue tints. So far Blue Boy is the nearest to dark blue we have been able to come. Planted with Mary Louise a stunning contrast is made. Blue Boy is a good grower and of medium height.

Caroline Vandenburg Three \$1.45, Doz. \$4.75, 100 \$25.00
This Phlox is the most attractive of the lavender shades; it is a true lavender-blue without the magenta shades peculiar to this section. Large, individual flowers.

Cheerfulness Three \$1.45, Doz. \$4.75, 100 \$25.00
Very vigorous grower with much branched panicles of large salmon-orange flowers which show a very small crimson eye. Of importance is the fact that the color keeps well in bright sunlight, also it is a very late flowering variety prolonging the season several weeks. Height about 3 feet.

Count Zeppelin Three \$1.15, Doz. \$3.75, 100 \$18.00
(Graf Zeppelin). Pure white flowers with vermilion-red eye. A striking clean looking Phlox. There is no fading or suffusing of color. Considered the best of the so-called calico types. Very free-flowering.

Daily Sketch Three \$1.45, Doz. \$4.75, 100 \$25.00
Extra large trusses—large and individual florets. Color is light salmon-pink with crimson-rose eye. Viewed from a short distance, the effect is a magnificent rose Phlox. Daily Sketch is an outstanding variety. Although introduced several years ago, it is practically unknown. It is robust and rugged in growth and about 3½ feet high.

Ethel Pritchard Three \$1.25, Doz. \$4.00, 100 \$20.00
A delightfully French-mauve colored Phlox, which, if seen on a cloudy day, looks almost as pale blue as our native Phlox Divaricata. It is a strong grower.

Europa Three \$1.15, Doz. \$3.75, 100 \$18.00
White changing to a pale blush-white toward center with a red eye. This variety is similar to Count Zeppelin but has a light pinkish cast.

Firetail Three \$1.45, Doz. \$4.75, 100 \$25.00
Dazzling carmine-red with blood-red eye. A recent European introduction of great promise. Has proven to be a good grower and free-flowering variety.

George Stipp Three \$1.45, Doz. \$4.75, 100 \$25.00
A new variety of great merit. Deep glowing salmon with shaded lighter eye; very outstanding and one of the recent salmon Phlox introductions. Does not fade.

Jules Sandeau Three \$1.15, Doz. \$3.75, 100 \$18.00
Rather dwarf in habit, but producing very large heads of brilliant watermelon-pink blossoms. An outstanding variety because it flowers more freely and longer than most Phlox, and is practically free from red spider.

Leo Schlageter Three \$1.45, Doz. \$4.75, 100 \$25.00
Seldom has one seen a shade of red such as produced by this fine new Phlox. Its brilliant scarlet blooms seem to glow with fire. This impression is heightened by the fact that there seems to be a decided orange cast to the blooms. Of splendid habit, about 3 feet high with full rich heads of bloom; early. The best red Phlox in existence today.

Mrs. Jenkins Three \$1.15, Doz. \$3.75, 100 \$18.00
(Independence). Pure white, late flowering, grows very fast and is of medium height. A splendid sort for planting in masses.

Mrs. W. Van Beuningen Three \$1.50, Doz. \$5.00, 100 \$30.00
Medium height but robust in growth, with healthy appearing foliage. Large, rich salmon-red flowers—a bright, effective self color without eye. Very free and persistent in flowering. Compact growth.

Rheinlander Three \$1.15, Doz. \$3.75, 100 \$18.00
A splendid old-time variety of good growing quality, and excellent habit. Flower heads large; good strong stems; color beautiful salmon-pink.

Rijnstroom Three \$1.15, Doz. \$3.75, 100 \$18.00
A good strong grower producing an abundance of stems, each one topped with heavy trusses of flowers of a lively rose-pink, much like the color of the Paul Neyron rose.

Salmon Beauty Three \$1.45, Doz. \$4.75, 100 \$25.00
Rich salmon-pink with white eye. There are many Phlox of this general color, but when all is said and done, we believe Salmon Beauty is one of the first on the list in this shade.

San Antonio Three \$1.45, Doz. \$4.75, 100 \$25.00
One of the most vivid and brilliant Phlox in our entire collection. The flaming heads are carmine shaded plum-red, and planted next to any good white Phlox create an astoundingly brilliant picture. The finest of this color. Good clean grower and flowers do not discolor in the hottest sun. Grows about 36 inches high.

Von Lassburg Three \$1.15, Doz. \$3.75, 100 \$18.00
A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering. Rather tall, fine for the back of the border.

Widar Three \$1.15, Doz. \$3.75, 100 \$18.00
The violet florets have a clear white eye which create a most unusual effect. Of medium height and good habit.

PHLOX SUFFRUTICOSA - Early Phlox

Miss Lingard Three \$1.25, Doz. \$4.00, 100 \$20.00
Has beautiful, long, shiny green foliage and is absolutely free from any disease. It flowers from early June until October, with large heads of white flowers with faint pink shading in center. It is the best early White Phlox known.

Miss Verboom Three \$1.25, Doz. \$4.00, 100 \$20.00
This, in fact, is the rose-magenta form of Miss Lingard. Habit and foliage are the same; flowers just as early in June. Splendid when planted next to Poppy, Mrs. Perry and Hemerocallis Flava.

Snowdon Three \$1.45, Doz. \$4.75, 100 \$25.00
Alabaster-white aptly describes the purity of this flower. It is absolutely spotless. There is not a trace of color in the flowers. A perfect grower with fine clean shining foliage. It flowers as early as Miss Lingard and will replace this variety as soon as it becomes known.

Phlox Arendsi, Inga

Dainty Phlox Subulata, Vivid

*PHLOX SETACEA, CAMLA

Here we have a real treasure from England. The first plant of this lovely little jewel was brought to this country over ten years ago by Wayside Gardens. The flowers are pure pink without any trace of magenta. It grows about 8 inches high and when in bloom in May and June no foliage can be seen. It does not creep and spread rapidly as do other Creeping Phlox, but always remains a very neat and tidy little plant. Phlox Camla is unquestionably the finest of Creeping Phlox and a plant deserving the best place in your garden.

Three \$2.00, Doz. \$6.00, 100 \$40.00

PHLOX ARENDSI HYBRIDS

Arensi Phlox are the result of crossing our native woodland Phlox Divaricata with the garden Phlox Paniculata. Their particular value is that they do exceedingly well in shade and have a very long period of bloom, commencing in spring they carry on until autumn. They grow into nice compact clumps which produce about a dozen or more wiry flower stems 18 to 24 inches high. The colors are soft and pleasing, and look well at all times. Again we say valuable plants for that shady difficult place.

***Arensi, Emmy** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Make a neat plant with about a dozen spikes. Pale lilac flowers with small purple eye produced for a long time on erect 18- to 24-inch stems. Here again we have a lovely variety that does extra well in light shade or full sun. May, June, and July flowering, repeating quite freely again in late autumn.

***Arensi, Inga** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Slightly taller than Emmy but just as free flowering. The wiry stems are topped with panicles of soft orchid-lavender blooms. Does equally well in light shade and full sun.

***Arensi, Hilda** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
One of the loveliest of this group. The flowers are white, shaded a soft silvery lilac. Fine clusters of blooms on wiry stems make a beautiful effect over a very long period. Superb in light shade.

Phlox Subulata, Ronsdorf Beauty

PHLOX SUBULATA - Moss or Mountain Pinks

An early spring-flowering type with pretty, mosslike, evergreen foliage, which, during the flowering season, in April and May, is hidden under the masses of bloom. An excellent plant for the rockery, the border, and invaluable for carpeting the ground or covering graves.

Culture. All Phlox Subulata should be grown in full sun. In shade they will die within a year. The soil should be dry and sandy and not too rich. Dig and replant every fourth year to prevent them from getting weedy. Plant in fall or early spring, 8 inches apart.

***Alba** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Pure white flowers completely covering the neat compact plant in May; a lovely thing for the rock garden.

Atrolilacina *Three \$1.45, Doz. \$4.75, 100 \$25.00*
We believe this is the finest of the blue Phlox Subulata. Its growth is neat and compact, exceedingly free flowering. The plants are completely covered with rich pale blue flowers.

***Blue Hill** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Of compact growth with showy pale blue flowers freely produced in spring and again in fall. One of the best.

***Crimson Beauty** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
A remarkably brilliant free-flowering variety, planted in combination with the pure white Snowwhite it makes a marvelous contrast of colors. Individual flowers are large, of a most brilliant cyclamen-red with a small deep carmine center. A splendid new brilliant variety which should be in every garden.

***Fairy** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Pale blue with dark purple eye; a beautiful little rock plant. Same habit as Vivid. Slow growing, neat in habit, with compact foliage, not spreading like Lilacina.

***Leuchtstern** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Medium sized flowers of light pink shade, produced in abnormal quantities, make this one of the choicest varieties. Height 4 inches.

Phlox Subulata, Sensation

***Lilac Queen** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
The pure deep blue flowers with dark eye completely cover the plant in April and May. Height 6 inches.

Maysnow *Three \$1.45, Doz. \$4.75, 100 \$25.00*
The flowers are purest white and considered the best of the whites. Very free flowering, neat habit, not rampant, not quite as tall or as large as Snowwhite. Maysnow looks well planted together with Vivid.

***Ronsdorf Beauty** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Brilliant salmon-rose. Extremely free and perhaps the best in this color. Height 6 inches.

Samson *Three \$1.45, Doz. \$4.75, 100 \$25.00*
The best of the rose-pink Subulatas. The flowers are large and of a fine pure rose-pink tint which is deep and clear, free from magenta.

***Sensation** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Bright pink flowers with deep red center. Very free flowering, very brilliant.

***Snowwhite** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
One of the loveliest pure snow-whites of sparkling brightness, neat habit and great freedom of bloom.

****Vivid** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Bright pink with dark pink eye. We would say that this is the choicest and loveliest dwarf Phlox in existence.

VARIOUS PHLOX SPECIES

***Amoena** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
This is one of the best varieties for carpeting the ground, the rockery or the border. It grows but 4 inches high, and in the spring is a sheet of rich bright pink flowers. Likes sun.

***Divaricata canadensis** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
One of our native species, worthy of extensive planting, blooms from early in April through May, with large, fragrant, lavender flowers on stems 10 inches high. In spring this plant is sold in pots to insure best results; in fall field-grown plants are best. Likes shade.

***Nivalis sylvestris** *Three \$1.10, Doz. \$3.30, 100 \$20.00*
A true dwarf Phlox of the same habit as Phlox Subulata. Has dense moss-green foliage covered completely with large rosy red flowers the size of a half dollar, of strong growth, blooming in early spring.

Five Most Beautiful Varieties of Hardy Phlox

Charles Curtis

—the most brilliant Phlox in cultivation

The color is outstanding and difficult to describe. Sunset-red probably comes nearest to it. It is a fine strong grower about 2½ to 3 feet tall, has good clean foliage. The flower head is large and unusually clear and sparkling due to the fact that the flowers do not discolor in the sun or fade with age.

A brilliant and colorful companion for Mary Louise.

A single plant of this magnificent Phlox was discovered in our nurseries 5 years ago growing in a large bed of what is now one of the most popular red varieties. Phlox Charles Curtis in our opinion is the finest of its color and will replace, as soon as better known, all those of similar shades.

Per 3, \$1.50; per doz., \$5.00; per 100, \$30.00

Mary Louise

—as white as Carrara Marble

Pure white heads of unusually large size, reminding one of Carrara marble, the individual flowers are twice as big as other white Phlox. A perfectly beautiful variety; unquestionably the best white to date. The favorite in English gardens. It is a good grower with clean foliage and an unusually prolific bloomer. Of medium height.

Per 3, \$1.25; per doz., \$4.00; per 100, \$20.00.

Augusta

(Plant Patent No. 252)

—the finest American-Beauty-red Phlox ever introduced

A strong-growing plant of medium height, about 2½ feet when fully grown, with rich, bronzy green foliage and stem. Color is best described as a brilliant cherry-red, not quite as deep as Beacon and much more intense and sparkling. The young florets at opening show a decided amount of orange. The color remains perfect under all weather conditions. Augusta is a beautiful vivid colored variety of exceptional growth and qualities, and will eventually replace all other varieties of similar shade.

Per 3, \$1.50; per doz., \$5.00; per 100, \$30.00.

Columbia

(Plant Patent No. 118)

—the finest light pink Phlox ever introduced

The color suggests a delicate cameo-pink with faint blue shading at center.

The clearness of tone is remarkable, the brilliancy is so pronounced that immediate attention is given to this wonderful plant. As the flower ages, the blooms always retain their delicate pink shade; there never are any magenta tones visible.

Out of each leaf joint grows a lateral or secondary flower spike continuing the display of blooms long after the main flower head has disappeared. Columbia is, therefore, well called the "perpetual flowering" Phlox.

Per 3, \$1.25; per doz., \$4.00; per 100, \$20.00.

Atlanta

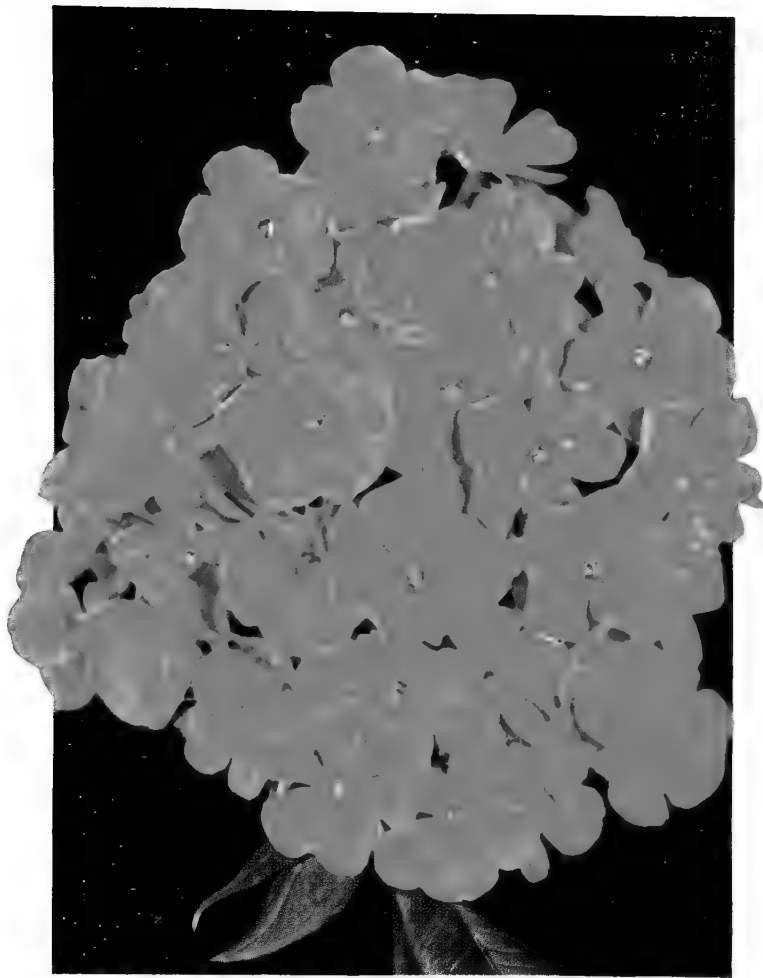

(Plant Patent No. 329)

—flowers as large as Hydrangeas

This fine new Phlox was really selected by visitors to our nursery. Everyone who saw it remarked about its extraordinary large flower heads which reminded them of the flowers of Hydrangea Paniculata. The individual florets are white, beautifully shaded pale blue. The eye is a deep blue. Flower heads are immense in size and carried on stiff 2½- to 3-foot stems. As with Columbia, there develop from the the leaf joints sec-

ondary flower heads, continuing to bloom for several weeks after the main flower head has faded. Foliage is clean, and the entire plant impresses one with its vigor. The delicate tints and shades develop best when planted in not too strong sunlight. It is difficult to describe Atlanta, but we are sure you will welcome this lovely new Phlox among your most prized flowers.

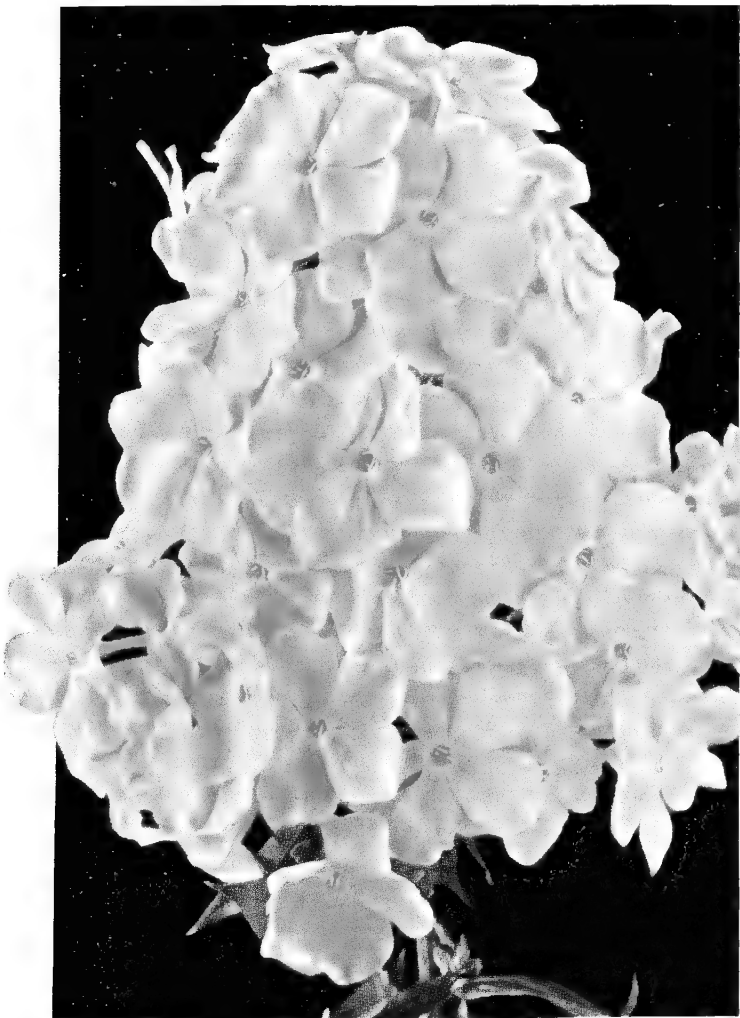

Per 3, \$1.50; per doz., \$5.00; per 100, \$30.00.

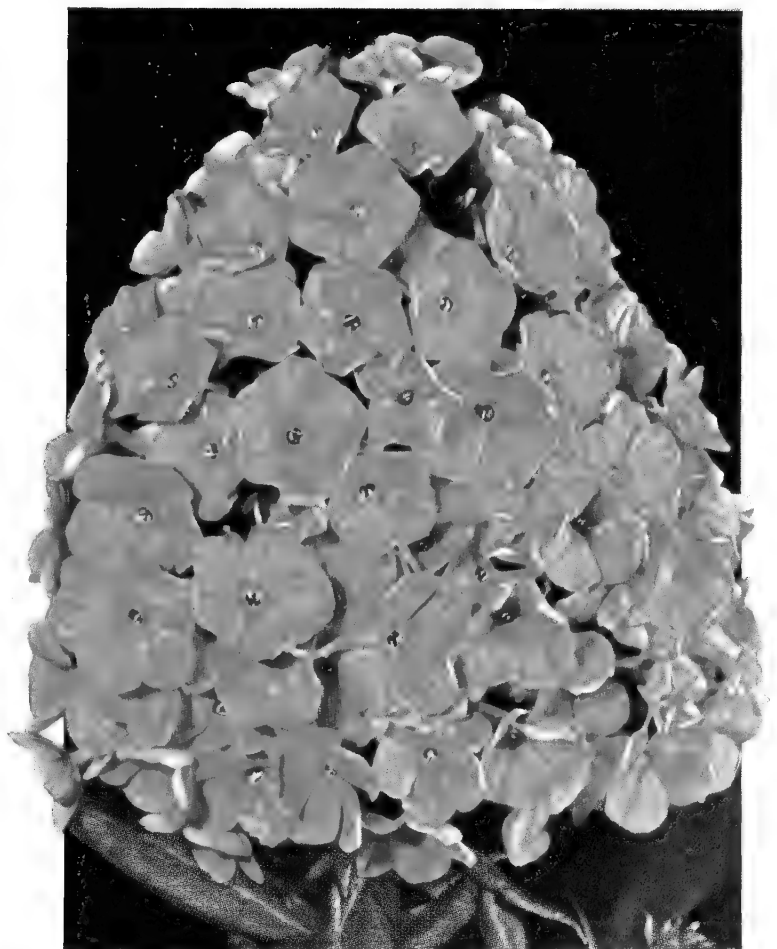

Charles Curtis

Atlanta

Columbia

Augusta

Wayside Gardens

MENTOR, OHIO

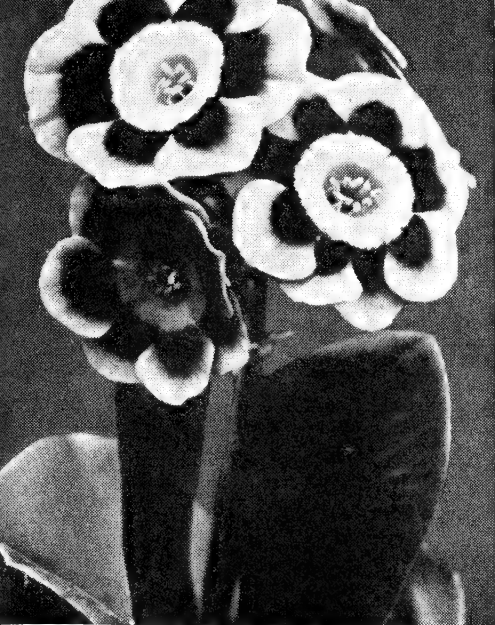

Perpetual Blooming
Large-Flowered Pentstemon, Firebird (See page 59)

Chrysanthemum Maximum, Silver Star (See page 27)

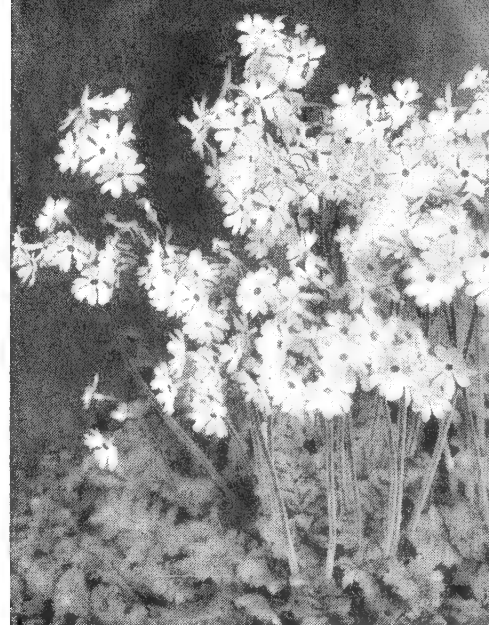

Gypsophila, Flamingo (See page 43)

Primula Auricula Alpina, Giant Hybrids

Wayside Munstead Polyanthus

Primula Cortusoides

PHYSALIS - Winter-Cherry or Chinese Lanterns

A perennial noteworthy for its large, showy calyces, which are attractive for drying for winter decoration.

Culture. They will succeed in good, ordinary soil and in sun or light shade. Best grown in a colony by themselves. Plant in autumn or spring, 12 inches apart. Gather the stems as soon as the calyces are fully colored.

Gigantea *Three \$1.00, Doz. \$3.50, 100 \$15.00*

An ornamental variety of the Winter Cherry, forming dense bushes about 2 feet high, producing freely its bright orange-scarlet, lantern-like fruits, which, when cut, will last all winter.

PHYSOSTEGIA - False Dragonhead

Handsome plants for the sunny border or the wild garden, of easy culture. The flowers are borne in terminal spikes or branching racemes from July to September.

Culture. Grow in good, ordinary soil in groups in sunny borders. Plant in autumn or spring, 12 inches apart, and divide and replant every second year, as the roots are of spreading habit.

Virginica, Vivid *Three \$1.25, Doz. \$4.00, 100 \$20.00*

This is a new dwarf variety about 20 inches high, and a great improvement over the first two mentioned. It blooms three weeks later than the others, the flowers are a deeper pink; much larger and better, lasting a long time when cut.

Summer Glow *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Towering stems often exceeding 4 feet, terminating in colorful spikes 18 inches in length; similar to the parent, "Gigantea," but of a rosy crimson color that is altogether attractive and far more effective. A splendid background or cut-flower variety. It will supersede the older kind. Height 4 feet. In full flower mid-August.

Rosy Spire *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Similar to the above but a shade deeper in color. Somewhat more compact in its inflorescence. It resembles the rosy crimson parent, "Vivid," but attains a height of 3 to 3½ feet and is decidedly colorful in mid-September.

PLATYCODON - Chinese Bellflower

Very satisfactory hardy plants for the sunny border. It has broad, blue or white, bell-shaped flowers all summer and is therefore a very fine garden plant.

Culture. Must be grown in a light, more or less sandy soil, in a well drained, sunny border. If the border is slightly elevated so much the better. Plant in early spring or fall, 8 inches apart. Disturb as little as possible.

Grandiflora *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Large, showy, deep blue flowers on 20-inch spikes are produced all summer. A splendid plant for the hardy border.

Grandiflora alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*

White-flowered form of the above.

***Mariesi** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A beautiful dwarf species, with broad, thick foliage and large, deep violet-blue flowers on 12-inch stems in great profusion throughout the entire summer. Plant in front of the border or in the rock garden.

***Mariesi alba** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

White-flowered form of the above.

PINKS, HARDY GARDEN (See Dianthus)

PLUMBAGO - Leadwort

Lovely low-growing plants with leathery, small, heart-shaped leaves of bronzy green color. The flowers are a deep peacock-blue borne in small clusters just above the foliage.

Culture. They require a sandy loam which is well drained and not too rich. Do well in the rock garden in full sun or light shade. May be used also as an edging to beds or garden paths. Plant in fall or spring, 6 to 8 inches apart; cover lightly during winter in exposed places.

***Larpentae** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

One of the most desirable border and rock plants. It is of dwarf spreading habit, growing 6 to 8 inches high, covered with brilliant blue flowers during late summer and fall.

PRIMULA

This genus contains many species of interesting hardy plants suitable for the rockery, the waterside and the border. No garden or rock garden is complete without a liberal planting of all sorts offered.

Culture. Cashmeriana, cortusoides, denticulata, sikkimensis and Moerheim Hybrids will succeed in good, loamy soil freely mixed with leaf mold. Beesiana, japonica, veris and pulverulenta require a damp, rich loam freely mixed with leaf mold and peat. All require light shade. The latter would be suitable kinds to grow in a bog garden or on the edge of ponds. Japonica and sikkimensis also do well planted along the sides of damp, shady ditches. Most gardens contain a damp, shady spot, and this would be an ideal place for growing hardy Primulas. Plant in early spring or early fall, 4 to 6 inches apart.

***Auricula alpina, Giant Hybrids** *Three \$1.45, Doz. \$4.75, 100 \$25.00*

One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. The flower stalks rise to a height of 6 to 8 inches, bearing heads of bloom of various colors; exceedingly fragrant.

***Cashmeriana** *Three \$1.50, Doz. \$5.00, 100 \$30.00*

Large, globular heads of a pleasing purplish blue shade; prefers a moist, shaded or sunny situation.

***Cortusoides** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A distinct Siberian species, with soft, wrinkled heart-shaped leaves. Flowers in early summer, deep rose; prefers light, rich, well drained soil in a sunny position, in border or rockery; 10 inches high.

***Japonica** *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A lovely Primrose, producing long spikes of bloom from crimson to rose to almost white. The flowers are in whorls. A mass of these in the bog garden or near the pool or stream is a sight to be remembered.

***Moerheim Hybrids** *Three \$1.50, Doz. \$5.00, 100 \$30.00*

A new strain of Hardy Primulas with the constitution of P. japonica, resulting from crossing of several. The lovely pastel colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half-shaded position that is fairly moist; very unusual.

Officinalis (Cowslips) *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Robust growing plants producing numerous 6-inch stems on top of which are carried clusters of small flowers. The colors range from pale yellow to copper reddish brown as well as shades of pink. The Cowslips are excellent for early blooming, edgings along shady walks, or ground covering shady places.

***Veris Hybrids** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

This strain includes various shades of lilac, purple and violet, as well as a wide range of buff, orange, salmon and rich reds of vigorous growth.

Veris grandiflora Mixed Colors *Three \$1.50, Doz. \$5.00, 100 \$30.00*

This fine European strain has even larger flowers than those found in the Munstead Hybrids. The range of colors also is wide and handsome from palest yellow to almost blue. A most unusual mixture.

***Vulgaris** *Three \$1.50, Doz. \$5.00, 100 \$30.00*

The true old English Primrose with pale yellow flowers. Do not confuse with the common veris.

POLYANTHUS - Bunch Primrose

The Polyanthus was obtained by crossing the Cowslip (*Primula veris*), and the Primrose (*Primula vulgaris*). It has the large flowers of the Primrose and the flower umbel of the Cowslip.

Culture. They like a moist, shady position, and a rich, liberally manured soil.

***Munstead, Exhibition Yellow** *Three \$1.45, Doz. \$4.75, 100 \$25.00*

A beautiful strain of large-flowered, yellow shaded, bunch Primroses; most desired by those who love the Primrose.

***Munstead, Exhibition Cream** *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Very fine, large-flowered, cream-white shaded bunches of bloom, with striking yellow eye.

***Munstead's Red Giant** *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Rich mahogany-red flowers, often gold laced, in great masses. Lovely as edging to beds or garden paths, in shade or contrast color with the yellow Primroses.

***Munstead Strain Mixed** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

In all shades of yellow, cream, dark orange, some pink and dark rose.

Saxifraga Decipiens (See page 68)

Polemonium, Blue Pearl

Plumbago Larpentae (See page 65)

Santolina Chamaecyparissus (See page 68)

POLYGONATUM - Solomon's Seal

Popular and easily grown herbaceous plants, producing arching stems furnished with narrow leaves on each side, and from the axils of which drooping flowers are produced. Excellent plants for shady borders.

Culture. They will thrive in any ordinary good soil containing plenty of humus or vegetable matter. May be grown under the shade of deciduous trees, in the shady border, or naturalized in woodland gardens. Plant in autumn or early spring, 6 inches apart.

Multiflorum major

Three \$1.45, Doz. \$4.75, 100 \$25.00

Pendent sprays of white flowers borne on long, 2-foot stems in May, followed in autumn with black or purple berries. A grand plant for a shady position, where it has plenty of room to show its pendulous sprays of bells.

POTENTILLA - Cinquefoil

Perennials for culture in sunny borders, and are most useful for cutting. They have strawberry-like leaves and showy, single or double flowers of varying rich shades of color.

Culture. They should be grown in light, ordinary or sandy soil and on the margins of sunny borders. Heavy, damp soils are not suitable. Plant in autumn or spring, 12 inches apart. They must have a full sunny position. When the plants get overcrowded, divide and replant in spring.

Lady Rolleston

Three \$1.50, Doz. \$5.00, 100 \$30.00

For those who have trouble wintering the Geums, the new hybrid Potentillas will be most welcome. Lady Rolleston is a handsome free-flowering plant. Excellent foliage and covered with orange flowers from early June until the end of September. The blooms are about 1½ to 2 inches in diameter and freely produced above the most attractive strawberry-shaped foliage, which is practically evergreen. A choice plant for border or rock garden.

PULMONARIA - Lungwort

A perennial noteworthy for hardiness of growth, freedom in flowering, and for its adaptability for growing in shady borders or rock gardens. The plants have rough foliage sometimes speckled with white, and blue or reddish flowers borne in racemes.

Culture. Grow in ordinary soil in groups in the shady, mixed border, in masses under the shade of deciduous trees, or in the rock garden. Plant 10 inches apart in autumn or early spring.

Angustifolia azurea

Three \$1.50, Doz. \$5.00, 100 \$30.00

This plant does well in light shade and moist ground. Grows not over 1 foot high and is therefore excellently suited for ground covering in shady places. In April and May large masses of sky-blue flowers are produced which make an excellent foil for nearby planted spring bulbs.

Angustifolia rubra

Three \$1.50, Doz. \$5.00, 100 \$30.00

This is the "red" form of the above. The flowers are brick red. Otherwise the habit and requirements are the same.

*Saccharata

Three \$1.75, Doz. \$5.50, 100 \$35.00

A lovely early spring flower not unlike Mertensia, with pink flowers and when through blooming the plant has beautiful silvery spotted foliage. 12 to 14 inches high.

RANUNCULUS - Buttercups

Herbaceous plants of easy culture and with attractive flowers.

Culture. All require a moist, loamy soil. Grow in partial shade or full sun, in colonies, planting a foot apart in autumn or early spring. Do not permit plants to spread beyond their allotted space.

Acris flore pleno

Three \$1.45, Doz. \$4.75, 100 \$25.00

A double yellow upright growing Buttercup-like plant. Good for border in wet places; good cut flower.

*Repens fl. pl.

Three \$1.15, Doz. \$3.75, 100 \$18.00

A pretty, double-flowering bright golden yellow Buttercup of creeping habit; flowers in May and June.

Physalis Gigantea (See page 65)

POLEMONIUM - Jacob's Ladder or Greek Valerian

Free flowering, hardy perennials. They have graceful pinnate leaves, and bear their flowers in loose heads. Showy plants for a sunny place in the border.

Culture. They require a light, well drained, ordinary soil and a sunny position. Best grown in groups of six or more. Not adapted for damp or heavy soils. Reptans does well in a shady location under trees. Plant in autumn or early spring about a foot apart. Divide and replant every third year.

Blue Pearl Three \$1.50, Doz. \$5.00, 100 \$30.00

The lovely and clear baby-blue flowers are freely produced in April and May. Does well in sun or shade. Foliage very ornamental throughout entire summer. Height 12 inches.

Richardsoni album Three \$1.45, Doz. \$4.75, 100 \$25.00

A white variety of coeruleum.

Richardsoni coeruleum Three \$1.45, Doz. \$4.75, 100 \$25.00

Erect stems of sky-blue flowers, 1 to 1½ feet, in June and July. A very fine plant in the sunny border.

***Reptans** Three \$1.25, Doz. \$4.00, 100 \$20.00

Dwarf, bushy plant of graceful growth. Showy blue flowers, 6 inches high in early spring. Should be used in the rock garden and border, in shady places; foliage very good all summer.

PYRETHRUM - Colored Marguerite or Painted Daisy

They produce showy flowers of all shades of color, except blue and yellow, freely on long stems throughout spring, which are of inestimable value for cutting. They grow in neat, compact tufts, and have elegant, finely cut foliage, which adds to the attractiveness of the plants.

Culture. Plenty of well-rotted manure should be freely mixed with the soil before planting. The position, too, must be a sunny one. The best time to plant is in spring; early fall planting is also very successful. Grow them in groups of not less than three plants, planted a foot to 15 inches apart. In dry weather give copious supplies of water. As soon as the first flowers have faded, cut the flowering stems back to their base. Every third year divide and replant in early spring.

Buckeye Three \$1.50, Doz. \$5.00, 100 \$30.00

Double red and when well established, a marvelous plant completely covered with blooms. Excellent for cutting and garden.

Miami Queen Three \$1.50, Doz. \$5.00, 100 \$30.00

Semi-double pink flowers of a lighter shade than Trojan, equally good for cutting or the hardy border.

Pink Bouquet Three \$1.50, Doz. \$5.00, 100 \$30.00

The great charm of this variety is its utter freedom of blooming. A single stem which grows about 30 inches tall will have from four to as many as eight flowers, forming a bouquet in itself. The outer petals are deep rose-pink, while the center is made up of numerous small starlike white petals. The effect created is not unlike that of Anemone Chrysanthemums. Altogether a choice plant for the garden and superb for cutting.

Robinson's Dark Crimson Three \$1.45, Doz. \$4.75, 100 \$25.00

Single large disk-like flowers of rich crimson-red. Grows well and flowers freely. A favorite with florists for cutting. Three or more clumps make a very brilliant group in the border.

Trojan Three \$1.50, Doz. \$5.00, 100 \$30.00

A very lovely, free flowering semi-double dark pink variety. Tall stems. A good cut flower and a good one in the garden.

Victory Three \$1.50, Doz. \$5.00, 100 \$30.00

The fully double pure white flowers are freely produced on tall stiff stems. Excellent for cutting, and garden use.

Red and Crimson Shades Three \$1.25, Doz. \$4.00, 100 \$20.00

Double, semi-double, and single flowers.

Salmon and Deep Pink Shades Three \$1.25, Doz. \$4.00, 100 \$20.00

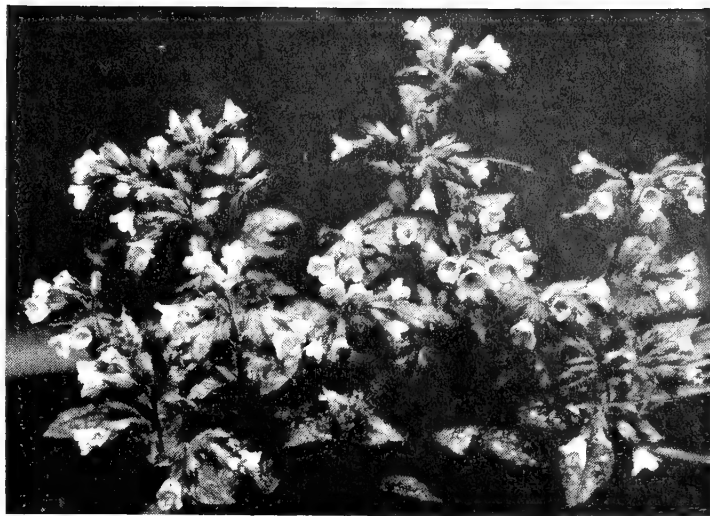

Double, semi-double, and single flowers.

White and Blush-White Shades Three \$1.25, Doz. \$4.00, 100 \$20.00

Double, semi-double, and single flowers.

Finest Mixed English Varieties Three \$1.00, Doz. \$3.50, 100 \$15.00

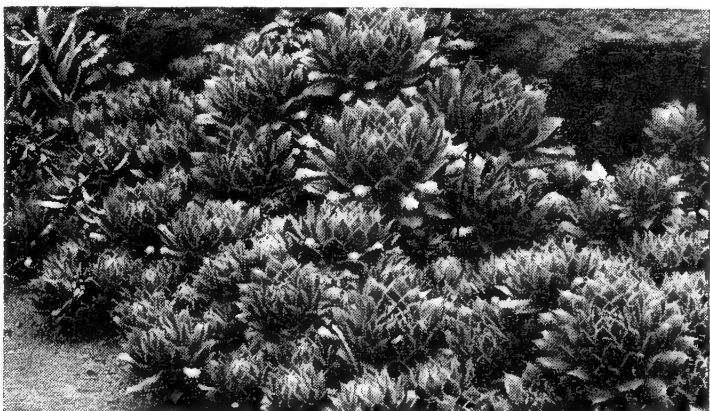

This mixture contains double- and single-flowered sorts in many shades of pink, rose and white. Strong, 2-year clumps that will give immediate results.

Pulmonaria Saccharata

Saxifraga MacNabiana (See page 68)

Sempervivum (See page 69)

Primula Cashmeriana. (See page 65)

Saponaria Ocymoides (See page 68)

RUDBECKIA - Coneflower

Hardy, free-flowering and easily grown perennials, somewhat akin to the Sunflowers in habit. Excellent and showy plants for sunny or partially shaded borders, and for yielding flowers for cutting.

Culture. Ordinary soil in sun, or shade. Can be grown singly or in groups. Plant in autumn or spring, 12 to 15 inches apart. Divide and replant every third year.

Golden Glow *Three \$1.15, Doz. \$3.75, 100 \$18.00*

A popular hardy plant, grows six feet high, producing masses of large, double, golden yellow flowers shaped like a Dahlia, in late summer.

Hirta Hybrids *Three \$1.45, Doz. \$4.75, 100 \$25.00*

Star-shaped flowers on much-branched plants about 2½ feet high. The colors vary from pure yellow to bronze, either solid or with attractive halos and centers. Excellent for cutting or for the hardy border. Free from all insect pests.

Maxima *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A rare and attractive variety, growing 5 feet high, with large, glaucous green leaves and bright yellow flowers 5 to 6 inches across, with a cone 2 inches high; flowers continuously from June to September.

Newmanni *Three \$1.15, Doz. \$3.75, 100 \$18.00*

The perennial form of the "Black-Eyed Susan." Deep orange-yellow flowers with a dark purple cone; long, wiry stems 3 feet high; blooms all summer.

Purpurea *Three \$1.15, Doz. \$3.75, 100 \$18.00*

(Giant Purple Coneflower.) Most attractive purple flowers, with a very large, brown, cone-shaped center. Blooms from July to October. 3 feet high; a splendid plant for the border.

The King *Three \$1.50, Doz. \$5.00, 100 \$30.00*

It bears its large starlike, deep crimson-red flowers nobly on stiff stems. An established clump will produce from 10 to 20 fine spikes, never failing, no matter how hot or dry it may be. From half open buds to the orange-brown seed pod, the plant is always attractive. Insect free, not bothered by weather, easily grown, almost indestructible. Height 3 feet.

SANTOLINA - Lavender Cotton; Ground Cypress

Shrubby perennials with aromatic foliage and small, yellow flowers borne in roundish heads, suitable for sunny, dry borders.

Culture. Ordinary, light soil in sunny, well drained borders. Best grown in masses. Plant in autumn or spring, 6 inches apart.

*Chamaecyparissus *Three \$1.25, Doz. \$4.00, 100 \$20.00*

(Incana). A sweet-smelling, dwarf, evergreen perennial, with delicate, silver-white foliage, useful as rock or border plants; also largely used for edgings to flower beds or walks. 1 foot.

SAPONARIA - Soapwort

Free flowering and easily grown rock plants, suitable for sunny borders or rock gardens, more or less tufted and compact in growth, and produce a profusion of blooms throughout the spring.

Culture. Ocyroides and its varieties will succeed in good, ordinary soil or sandy loam on the margins of sunny borders or in the rock garden. Plant in autumn or spring, 6 inches apart.

*Ocyroides splendens *Three \$1.15, Doz. \$3.75, 100 \$18.00*

Pretty prostrate border and rockery plant; flowers rosy pink, produced in great quantities just above the foliage in late May and early June.

*Ocyroides alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*

A pure white form of the above.

Double Pyrethrum (See page 67)

Spiraea, Peach Blossom (See page 70)

SALVIA - Meadow Sage or Clary

Showy, hardy plants of medium growth and of easy cultivation in sunny borders. The flowers are borne in spikes, racemes or panicles; and are very attractive during the summer and autumn months.

Culture. Those listed will thrive in good, ordinary soil in sunny positions, are best grown in masses in the larger borders. Plant in autumn or early spring, 10 inches apart; divide and replant every third year.

Azurea *Three \$1.15, Doz. \$3.75, 100 \$18.00*

A Rocky Mountain species. Grows 3 to 4 feet high; producing, during August and September, pretty sky-blue flowers in the greatest profusion.

Pitcheri *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Similar to Azurea, but of more branching habit; large flowers of a rich gentian-blue color, and one of the most admired plants by the many visitors to our nurseries during the early autumn. 3 to 4 feet.

Pratensis *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Lilac-blue flowers from June to September; grows about 2 feet high. Good border plant.

Vatican Variety (Pink Turkestanica)

Three \$1.25, Doz. \$4.00, 100 \$20.00

This stately and beautiful Salvia came to us from the Vatican Gardens in Rome, where it is used in great masses for "cool" effects. The plants have woolly silvery green leaves of considerable beauty. The flower stalks are 3 feet tall and covered with showy whorls of bluish-pink flowers which create a delightfully cool, yet colorful effect. In bloom all summer from mid-June until early October.

SAXIFRAGA - Rock-foil; Megasea

A large genus of rock plants, only a few of which are suitable for culture in this country. The majority require to be grown on rockeries. The sorts suitable to grow as edgings to, or in masses on, the margins of borders are what are known as the Giant-leaved Saxifragas or Megaseas, with large, leathery leaves, which are also admirably suited for shady borders in city gardens.

Culture. The mossy Saxifragas are best suited for shady borders or rock gardens, will do well in good, ordinary soil. Plant in March or early fall. The Megasea or large-leaved kinds will thrive in ordinary, good, rich soil in well drained borders, by the waterside, or in the rockery. May be grown in sun or shade. Should be watered freely in dry summer. McNabiana is best grown in stony soil in the rockery in full sun. Plant early fall or spring, 8 inches apart.

**Decipiens *Three \$1.50, Doz. \$5.00, 100 \$30.00*

(Crimson Moss). Dwarf mossy plants bearing white flowers in May and June. The green foliage turns a bronzy crimson in winter. 4 inches high. Splendid rock plant; prefers light shade.

**MacNabiana *Three \$1.75, Doz. \$5.50, 100 \$35.00*

This plant is a splendid sort for wall garden or in crevices in the rock garden. Foliage is gray-green in form of a rosette and quite stiff, from the center comes a flower spike about 12 inches long covered with small, white blossoms speckled with pink.

*Megasea cordifolia *Three \$1.50, Doz. \$5.00, 100 \$30.00*

These will thrive in ordinary soil in any position. Grow about one foot high, and are admirable for the front of the border or shrubbery, forming masses of handsome, broad deep green foliage which alone renders them useful; flowers appear very early in the spring. Fine among rocks or ledges.

SENECIO - Ragwort; Groundsel

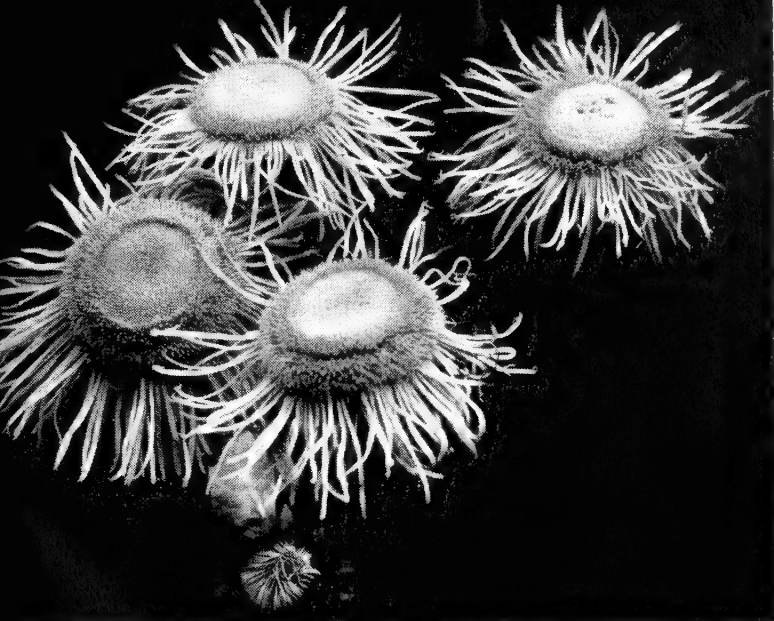

Only a few species of this genus are worthy of cultivation. They are of vigorous growth.

Culture. The one named will thrive in ordinary soil, in partial shade, in open woods or under trees. Plant in autumn or early spring, 12 inches apart.

Clivorum *Three \$1.35, Doz. \$4.50, 100 \$22.50*

Forms a neat tuft of foliage, from which spring up from July to October a succession of 3-foot stems, with clusters of orange-yellow flowers. One of the few plants that flower profusely in shade.

SHASTA DAISY (See Chrysanthemum Maximum)

Senecio Clivorum

SEDUM - Stonecrop

A genus of plants which vary in habit from dwarf, creeping plants to those of larger growth, as *Spectabile*, which grows about 2 feet high. Some are evergreen and others of deciduous growth. The dwarf kinds do well as edgings to borders or in rock gardens. Others are suitable for grouping in the border.

Culture. Ordinary soil and dry, sunny borders or dry sunny places in the rock garden will suit all. *Spectabile*, indeed, will also thrive in shade. Plant in autumn or spring, 4 to 8 inches apart.

- *Acre** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Golden Moss). Much used for covering graves; foliage green; flowers bright yellow; prostrate and slowly spreading.
- *Aizoon** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Bright yellow flowers. 1 foot. July and August.
- *Album** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Dwarf and spreading; thick, waxy round foliage, white flowers; good rock plant.
- **Dasyphyllum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Dainty and small. Perhaps one of the best of the mosslike type. Not over 2 inches high. Lovely blue-green color effect.
- *Florairanium** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
This is a choice variety. A tufted plant about 6 inches high. The dark green foliage takes on a beautiful bronzy autumn tint, disappears, leaving a cluster of reddish rosettes for winter decoration.
- *Glaucum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Excellent dwarf variety for rockeries; prostrate, and of slow growth; lovely blue-green foliage.
- *Kamtschaticum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Orange-yellow flowers, with prostrate, green foliage, golden in autumn.
- *Kamtschaticum Variegated** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
One of the best, because of its handsome golden variegated foliage which blends marvelously with the orange-yellow flowers, which are profusely produced in midsummer.
- Maximum Atropurpureum** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Of upright, open growth, about 18 inches high, foliage rich mahogany-brown, flowers in sprays of somewhat lighter color. An outstanding variety, fine for foliage color effect in the border.
- *Rupestre** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Glaucous, blue-green leaves. Stems have trailing habit with golden yellow flowers. Not over 3 inches high.
- *Sarmentosum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Excellent dwarf variety for rockeries or border edgings. The best Sedum for filling seams between rocks in wall garden; rapid grower.
- *Sieboldi** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Round, succulent, glaucous foliage; bright pink flowers in September. The loveliest of all the Sedums.
- *Spurium coccineum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A beautiful rosy crimson-flowered form; July and August. 6 inches. Very fast spreading variety; good for covering sandy banks.

Spurium, Dragon's Blood *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A new Sedum which will surely become popular. The buds and stems are bronzy red, deep bright carmine-red in flower and dark crimson when finished. The plants are completely covered with blooms during July, August and September. The general effect and contrasts created by this Sedum are outstanding. A fine novelty that should go into all rock and wall gardens.

- Spectabile** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
One of the prettiest erect-growing species, attaining a height of 18 inches, with broad, light green foliage and immense heads of handsome, showy, rose-colored flowers; indispensable as a late fall-bloomer.
- Spectabile "Brilliant"** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A richly colored form of the preceding, being a bright amaranth-red.
- *Spathulatum purpureum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Reddish leaves with gray in center of the rosette. Dark yellow flowers, contrasting beautifully with the foliage.

SCABIOSA - Scabious or Pincushion Flower

Charming perennials for border culture and for cut flowers. The *Scabiosa caucasica* are particularly valuable for the latter purpose, as its large, showy, blue or white flowers are borne on long stems. The species are of easy culture, and desirable to grow in sunny borders.

Culture. All will thrive in well drained, good, ordinary soil, which is not heavy or damp. Cold and damp is fatal to these plants. An ideal soil for them is a sandy loam. Plant in early autumn or early spring. The plants are best in groups of three or more. Plant about 8 inches apart. A full sunny position is essential.

- Caucasica (Isaac House)** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
(Blue Bonnet). Their lovely flowers are a soft and charming shade of lavender; commences to bloom in June, throwing stems 18 to 24 inches high until September.
- Caucasica alba** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
(White Bonnet). The white form of the preceding.
- Japonica** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Lavender-blue flowers from July to September. 2 feet. This is a biennial variety, but very valuable for its great quantity of blue flowers produced throughout the summer.

SEMPERVIVUM - House Leek

Most attractive, hardy, succulent plants for the rock garden and rock wall. Their rosette-like, thick leaves are fleshy and pointed. The small clumps slowly spread, filling pockets and crevices between the rocks.

Culture. All require a rich, sandy and perfectly drained soil in full sun. Planting may be done in fall or spring, 3 to 4 inches apart. It takes a few months for them to get well established. Do not disturb when once planted. All flower in June and July.

- **Arachnoideum fimbriatum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A fine cobweb rosette about one inch long at the end of which appear the young plants giving a lovely star-like effect.
- **Atroviolaceum** *Three \$2.00, Doz. \$6.00, 100 \$40.00*
The largest of the entire collection. Forms a beautiful rosette, almost 4 inches in diameter when fully grown, of deep reddish purple leaves. Should be in every rockery. 8 inches.
- **Brauni** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A very attractive rosette-like plant. Color of leaves is bronze, almost a dull red at tip of leaves. At the base a dull green. 6 inches.
- **Doellianum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Small, hairy rosettes of pale green leaves, tinted red at tips. Panicles of bright red flowers 4 to 6 inches high. Effective grown in large masses.
- **Funki** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Green tipped brownish rosettes produced rapidly in great numbers. A very fine sort to use where a brownish color is desired. 6 inches.
- **Globiferum** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Flattened rosettes, 2 to 3 inches in diameter, of gray-green leaves, lightly tipped brown. Pale yellow flowers, three-fourths to one inch in diameter, in densely hairy panicles. 1 foot high.

SEDUMS FOR PORCH DECORATION

An excellent use for *Sedum spectabile* and *Spectabile Brilliant* is to plant three clumps or more in an ornamental container, such as a low jardiniere or plant tub. They do well in shade, but are best grown in full sun, require the minimum of care and make a very attractive decoration for the terrace or sun porch. (See page 187.)

SPIRAEA - Goat's Beard; Meadow Sweet

Very handsome herbaceous perennials. The species named below have handsomely divided leaves and flowers borne in graceful, feathery plumes.

Culture. The Spiraeas require a deep, rich and moist soil. Plenty of leaf mold and well-decayed manure must be incorporated with it before planting. They will thrive in shady, moist borders, or they may be grown by the waterside. *Filipendula flore-pleno*, being small, should be grown in groups of three or six plants. Plant in autumn or early spring, 12 inches apart.

Aruncus *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Produces long, feathery panicles of white flowers, forming graceful plumes 4 feet tall in June.

Filipendula *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Dropwort). Numerous corymbs of white flowers on stems 15 inches high during June and July; pretty fernlike foliage.

***Filipendula flore-pleno** *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Double white flowers on 12-inch stems; lovely fernlike foliage. A very neat plant and excellent for edging beds or walks. Flowers are fine for cutting, lasting well in water.

Palmata elegans *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Graceful plumes of lovely light pink flowers in June, on stems 3 feet high. Fine for waterside planting.

Venusta *Three \$1.50, Doz. \$5.00, 100 \$30.00*
(Martha Washington Plume). A noble plant growing about four feet high, producing in July and August handsome, rosy carmine flowers which are delightfully fragrant. A desirable subject for the border or along a small brook.

SPIRAEA - Astilbe

Betsy Cuperus *Three \$1.50, Doz. \$5.00, 100 \$30.00*
The fine drooping flower spikes, 4 feet long, show in summer during some weeks a great number of blush-white flowers with pink center.

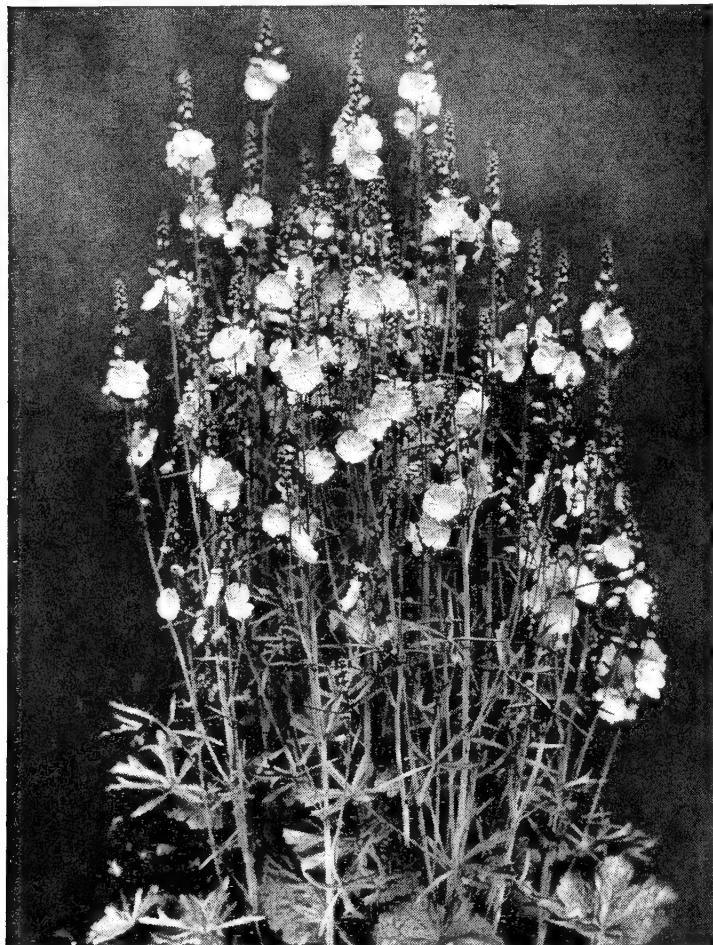

Deutschland *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A lovely pure white variety of strong growth and very free flowering. 2-foot spikes. The best white grown.

Fanal *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Striking novelty with well formed spikes two feet tall and splendid fiery crimson flowers. The deepest coloring imaginable.

Peach Blossom *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Conspicuously beautiful with dense, feathery plumes of brilliant pink.

Prof. Van Der Wielen *Three \$1.50, Doz. \$5.00, 100 \$30.00*
White spikes four feet tall, beautiful garden variety.

Salland *Three \$1.50, Doz. \$5.00, 100 \$30.00*
The flower stem itself has a length of over 4 feet. The very fine fringed flowers are bright red tinged with dark blue.

Sidalcea, Rosy Gem

SILENE - Catchfly or Campion

These perennials are of dwarf habit, and chiefly suitable for rockeries. Two species, however, *Maritima flore-pleno* and *Schafta*, may be grown as edgings to sunny borders.

Culture. Grow in good, ordinary soil on the margins of slightly raised, sunny borders or rock gardens. May be grown as a continuous edging or in masses. Plant in early spring or fall, 4 inches apart.

****Alpestris** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Dwarf rock plant, dainty, pure white flowers in May and June.

Maritima *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Compact masses of glaucous blue foliage. Very neat in appearance. 2 to 3 inches high. From June to August the plant is covered with white flowers. Especially happy in a hot dry place in the rockery or rock wall.

***Schafta** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Autumn Catchfly). A charming border or rock plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October.

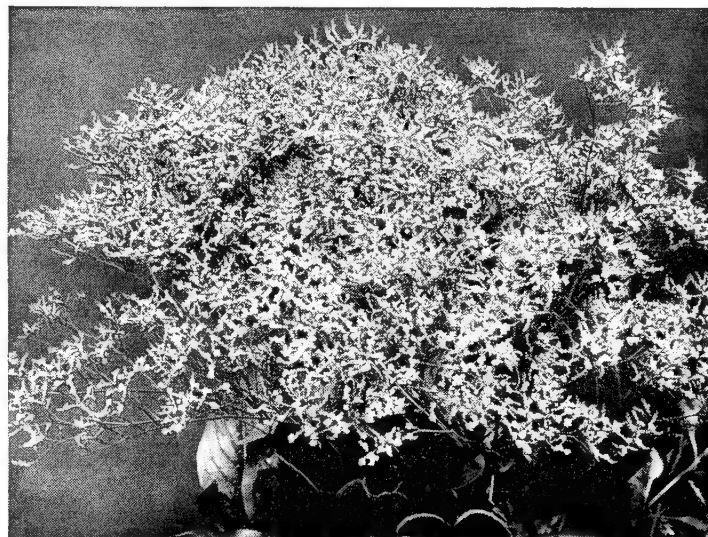

STATICE - Great Sea-Lavender

The leathery, dark green leaves spring directly from the root stock and the flower stems are more or less twiggy, bearing their small flowers in much-branched panicles. The flowers are useful for cutting for indoor decoration, also for drying for winter use.

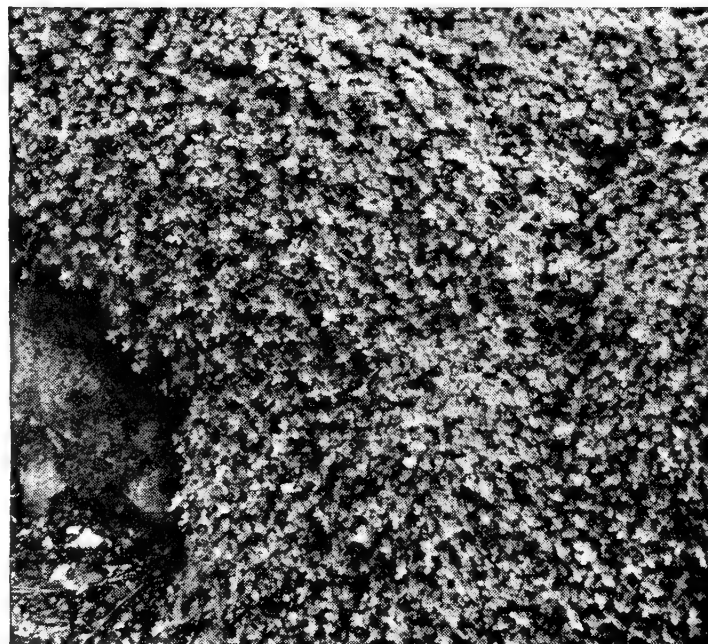

Culture. A sandy loam is essential to grow these plants well. A sunny position, too, is indispensable. Plant in autumn or spring, 6 inches apart. They show to the best advantage grown towards the front of the border.

Dumosa *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Similar in habit of growth to *Latifolia*, the dense cushion-like flower heads are of a pure silvery gray. Very charming mixed with other cut flowers.

***Latifolia** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
A valuable plant either for the border or rockery, immense heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months.

Statice Latifolia

Thymus Serpyllum (See page 72)

SIDALCEA - Greek-Mallow

Graceful, hardy perennials with small, Hollyhock-like flowers borne on slender spikes. Suitable for sunny borders.

Culture. Grow in good, ordinary soil in sunny borders. Plant in autumn or early spring, 8 inches apart.

Rosy Gem

Three \$1.25, Doz. \$4.00, 100 \$20.00

Erect growing, more or less branching plants, 2 to 3 feet in height, producing their showy bright rose colored flowers during June and July. They will succeed in any garden soil in a sunny position.

STOKESIA - Cornflower Aster; Stokes' Aster

A very handsome perennial, with China Aster-like flowers, that appear late in the season, about September. It prefers a warm, sheltered location. Should certainly be grown in all gardens since its flowers are most beautiful in form and color.

Culture. Grow in a sunny, well-drained border in sandy loam, 6 inches apart. Plant in March or early autumn.

Cyanea coerulea

Three \$1.25, Doz. \$4.00, 100 \$20.00

Beautiful light blue flowers are produced profusely in late summer and early autumn on 18-inch stems; lovely for cutting or in front of the border. Stokesias are one of our best late summer-flowering hardy plants.

Cyanea coerulea alba

Three \$1.45, Doz. \$4.75, 100 \$25.00

White-flowered form of the above.

Blue Moon

Three \$1.50, Doz. \$5.00, 100 \$30.00

The immense light blue disc-like flowers are 5 to 6 inches in diameter, growing on stiff 12- to 18-inch stems. In the foreground of the border they make a picture not easily duplicated. Stokesia, Blue Moon, is a vigorous-growing and free-flowering variety of exceptional merit and distinction. It is perfectly hardy and has no insects bothering it. It is of easy culture and flowers throughout the summer and autumn until stopped by hard frosts. A most worth-while addition to the hardy plant garden.

Trollius Europaeus, Orange Globe (See page 75)

Tradescantia, James C. Weguelin (See page 72)

SWEET WILLIAM (See Dianthus Barbatus)

TEUCRIUM - Germander

Shrublike plants of moderate growth. Chamaedrys has shrublike, shiny, dark leaves. Orientalis is airy and fit for the rock garden.

Culture. A well-drained, good garden soil is all that is required to grow them to perfection. Plant in fall or early spring, 6 inches apart in full sun, in rock garden or border. Chamaedrys may also be used as an edging to flower beds or garden plants in the small formal garden.

*Chamaedrys

Three \$1.45, Doz. \$4.75, 100 \$25.00

Glossy green foliage resembling dwarf boxwood, may be used in place of boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches.

THALICTRUM - Meadow-Rue

Hardy perennials, with elegant, finely divided, Columbine or Maiden-hair-like foliage, which is most useful for cutting for mixing with cut flowers. Are borne in feathery clusters or panicles, and they add considerably to the beauty of the plants. They are of easy cultivation in sun or shade.

Culture. They will thrive in any good, ordinary, well-drained soil. May be grown in sunny or partially shaded borders, are most effective when grown as single specimens in the front of shrubby borders, or in the wild garden. Plant in autumn or spring, 8 to 12 inches apart. Diptero-carpum should be carefully protected if planted in the fall.

Aquilegifolium

Three \$1.45, Doz. \$4.75, 100 \$25.00

Graceful foliage like that of Columbine, and rosy purple flowers from June to July on 2- to 3-foot tall spikes; lovely planted together with Poppy Wm. Perry.

Aquilegifolium album

Three \$1.45, Doz. \$4.75, 100 \$25.00

White form of the above.

Dipterocarpum

Three \$1.50, Doz. \$5.00, 100 \$30.00

Flowers a charming shade of lilac-mauve, which is brightened by a bunch of lemon-yellow stamens and anthers. The plant is of strong growth, about 4 feet high. The dainty flowers are produced in graceful sprays during August and September.

Glaucum

Three \$1.50, Doz. \$5.00, 100 \$30.00

Similar in habit to the Aquilegifolium; blue-gray leaves rather finely cut, with heads of Chinese yellow, fragrant flowers. 3 to 4 feet. July.

THERMOPSIS

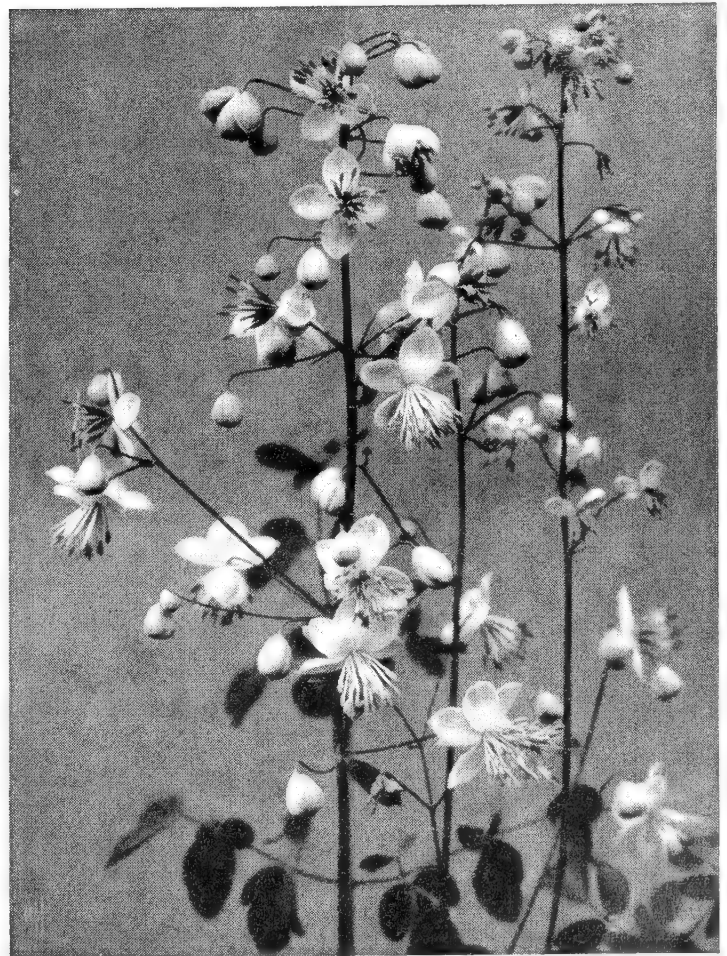

Only one species is worthy of mention here. This has three-foliolate leaves, and yellow, lupine-like flowers borne in long, terminal racemes. It is of graceful growth and specially suitable for the sunny border.

Culture. Ordinary soil in a sunny, well-drained, dry border. Plant in autumn or spring, 8 inches apart.

Caroliniana

Three \$1.45, Doz. \$4.75, 100 \$25.00

A lovely lupine-like plant with rich green foliage, growing about 2 feet high. In June and July, yellow, pealike flowers are produced in racemes, 6 to 12 inches long. The general appearance is that of a yellow lupine.

Thalictrum Dipterocarpum

New Early Flowering Tritoma, Goldmine

TRADESCANTIA - Spiderwort

A native American perennial, with narrow, purple-veined leaves, and flowers consisting of three sepal-like segments and three petal-like ones in dense umbels.

Culture. All will thrive in ordinary soil in partially shady or sunny borders. Also suitable for naturalizing in the wild garden. Good town garden plants. Plant in autumn or spring, 8 inches apart.

NEW TRADESCANTIA

Four years ago we received from the Department of Agriculture of Washington, D. C., a collection of beautiful dwarf growing Tradescantia. From the several varieties sent us we selected five best and most distinct colors, and are happy to be able to offer them this year.

They bloom from spring throughout the summer until early winter. All they ask for is a small space where they may be permitted to grow. Insects do not bother them. They are permanent, requiring no particular care, and at all times their foliage is very decorative. All grow about 12 inches high.

Iris Pritchard *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Pure white flowers faintly tinted with violet. The beauty of the flowers is much enhanced by the rich violet-blue feathery centers. This contrast of colors is very lovely.

James Stratton *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Rich pure deep blue flowers in abundance. Not as brilliant as Purple Dome, but a lovely shade of blue. Also slightly taller than the other kinds. Average height is about 16 inches.

James C. Weguelin *Three \$1.50, Doz. \$5.00, 100 \$30.00*
New beautiful variety, free-flowering with porcelain-blue flowers from June until September. A worth-while plant which does well anywhere. Foliage decorative.

Pauline *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Cattleya-mauve would describe the color of this delightful variety. Like all others its growth is neat and it is a prolific bloomer.

Purple Dome *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Vividly brilliant purple flowers which sparkle with life in sunlight. Fine grower and it flowers freely. Considered the most spectacular one of the entire collection.

A collection of 1 each of the above 5 varieties for \$2.50.

TRITOMA - Torch Lily; Flame Flower; Red Hot Poker

Also known under the name of Kniphofia. A very popular plant for garden decoration. They are of stately growth, have long, narrow, grassy leaves, and bear their drooping, tubular flowers in dense spikes on long, naked stems well above the foliage. They are ideal to grow in the border.

Culture. Any good, ordinary, well drained soil and a sunny position will suit Tritomas. Plant in spring only, 12 inches apart. Coming chiefly from South Africa, they must be protected in cold districts.

Pfitzeri *Three \$1.45, Doz. \$4.75, 100 \$25.00*

The most prolific, giving often 5 to 10 spikes per plant. Wayside Gardens special variety. In bloom from August to October, with spikes 3 to 4 feet high, and heads of bloom of a rich orange-scarlet.

NEW EARLY FLOWERING HARDY TRITOMAS

Bloom from June till frost.

Heretofore the Red Hot Poker has been known generally as a brilliant orange-red fall-flowering plant. There are species, however, which are early blooming and quite hardy. These have been successfully crossed and recrossed so that now we can offer a collection of hardy early flowering kinds. In selecting the new colors, naturally white, ivory, and pale yellow shades were given preference because they were in the first place totally lacking and secondly they are the most desirable tints for early and midsummer gardens. In order to permit wide distribution of these novel colors we have grown a large number of them and are, because of the quantity production, able to offer them at a very modest price. Every plant we send out will produce numerous flowers, but not until the second year do they come to perfection. Highlight your garden with these novel flowers, and use them freely for cutting, for which they are so perfectly suited because the flowers are loose and graceful, and not like the heavy solid spikes of the old varieties.

Golden Scepter *Each 50c, Doz. \$5.00*

This is an excellent companion for Tritoma Springtime, blooming at the same time, late June and early July. The 8 to 10 fine saffron-yellow, three-foot spikes create a fine mass of color in the summer border, and are a superb foil for tall blue delphiniums. This variety is very hardy. It has survived our coldest weather for several years without a trace of damage. It grows vigorously and when not in bloom makes a fine ornamental plant.

Goldmine *Each 50c, Doz. \$5.00*

Soft amber-tinted gold describes the color of this fine hybrid but poorly. The flower spikes are about 30 inches high, 10 or more on 1 plant. The blooming season is over a long period in late summer. Everyone who sees a clump of Goldmine in bloom enthuses over its impressive beauty. Its stateliness and fine pastel color effect makes it one of the outstanding subjects of the garden.

Primrose Beauty *Each 75c, Doz. \$7.50*

The beautiful spotless primrose-yellow spikes produced by this plant are unique for their grace as well as their delightful color. They are faultlessly shaped, and slightly arched creating a charming effect. Primrose Beauty blooms in late summer. The spikes are about 40 inches tall, lending a charm to the flower border few other plants can. We consider it far superior to Towers of Gold in color, form, hardiness, as well as freedom of bloom.

Springtime (Plant Patent No. 318) *Each 75c, Doz. \$7.50*

A fascinating new hardy Tritoma which flowers in July. The upper part of the flower is rich coral-red, the lower half ivory-yellow. These sparkling and clear contrasting colors hold one's attention in a pleasing manner. Springtime has been tested for hardiness and for five winters in all kinds of soil and has weathered these conditions without any protection. We heartily recommend this novelty. It combines beautifully in the garden with pale blue Delphinium or pure white Regale Lilies in flower at the same time. A well-established plant will produce as many as 10 to 15 flower spikes about 3 feet tall. They are very graceful and superb for cutting.

HYBRID TRITOMAS IN MIXED COLORS

See illustration on page 41.

A beautiful combination of shades and forms which is best grown in a mixture in your garden. They not only make a very lovely showing in the garden but are one of the best flowers for cutting. The colors range through all shades of yellow, cream, and ivory, as well as the warm range of red and flame tints.

Six plants for \$2.50 *Twelve plants for \$4.50*

100 plants for \$25.00

THYMUS - Thyme

Dwarf-growing, almost prostrate creeping perennials with fragrant foliage, suitable for growing on the margins of dry, sunny banks, slopes or rock gardens.

Culture. These will thrive in ordinary soil in well-drained, dry borders or on sunny slopes and rockeries. They soon spread and form neat patches of foliage, studded in summer with rosy purple or crimson flowers. Plant in autumn or spring, 6 inches apart. All flower in June and July.

***Citriodorus** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

The well known "Lemon Thyme."

***Lanuginosus** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

(Woolly-Leaved Thyme.) Woolly foliage with bright pink flowers.

***Serpillum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Growing about 10 inches high and spreading rapidly, this is one of the good varieties for naturalizing. When established it may be mowed with lawn mower. Foliage is very fragrant when walked upon.

***Serpillum album** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

(White Mountain Thyme.) Forms dense mats of dark green foliage and clouds of white flowers.

***Serpillum coccineum** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

Plants become completely covered with brilliant crimson-scarlet flowers.

***Serpillum splendens** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A rapid, dwarf-growing variety; very hardy and excellent to cover bare spots, also good for the edge of walks or in the rock garden.

TRILLIUM - American Wood-lily or Wake Robin

Spring-flowering perennials with three leaves borne in a whorl, and flowers with three petal-like segments.

Culture. The Trilliums require to be grown in peat and leaf mold in shade or partial shade. Plant in autumn or very early spring, 3 inches apart, in large colonies to produce the best effect.

Grandiflorum *Three 85c, Doz. \$3.00, 100 \$12.00*
Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early spring. 12 to 18 inches high.

TROLLIUS - Globeflower

Hardy perennials belonging to the buttercup order. The flowers are globe-shaped, yellow or orange in color and useful for cutting.

Culture. They require a deep rich soil containing plenty of humus. They also like plenty of moisture, hence, should be grown in damp, shady corners, or, better still, by the waterside, in bold masses. Plant in autumn or very early spring, 8 inches apart.

Europaeus, Lemon Queen *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Free-flowering, strong-growing plant. Flowers pale yellow, produced in abundance on stems about 2 feet high.

Europaeus, Orange Globe *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Desirable free-flowering plants, producing their giant orange-yellow buttercup-like blossoms on stems 1 to 2 feet high from May until August; succeeds admirably in the border in a half-shady position.

Europaeus superbus *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Same habit as Orange Globe with pale yellow blossoms.

Ledebouri *Three \$1.50, Doz. \$5.00, 100 \$30.00*
A magnificent variety of very deep orange color. Its great merit lies in its late flowering propensities.

Choice Mixed Colors *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Colors range from pale yellow to deep orange. A wide variety of shades and forms include also a quantity of the above named varieties.

TUNICA - Coat Flower

Slender, graceful perennials with almost hairlike stems covered all summer with small Baby's Breath-like flowers. Excellent for rock garden, rock wall or in front in sunny borders.

Culture. Ordinary well-drained garden soil not too rich suits them best. Grow in rock garden, rock wall or border in full sun. Plant in fall or spring, 4 inches apart.

***Saxifraga rosea flore-pleno** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Is a lovely double, pink variety. The rose-pink flowers are produced all spring and summer in great quantities which makes it a most valuable plant for the rock garden. We have a limited number of strong plants in pots ready to bloom.

VALERIANA - Centranthus; Garden Heliotrope

Hardy, old-fashioned perennials. Showy plants for dry, sunny borders, banks, or old walls. Flowers are borne in panicles. A great favorite in old-fashioned gardens, especially where soil abounds with lime.

Culture. Ordinary soil and sunny borders. Planted in the chinks of old walls will speedily root and make dense bushes. Plant in spring or fall, 12 inches apart.

***Coccinea** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Showy heads of old rose flowers in umbels on 12-inch stems just above the rich green foliage, are produced from June until October. A splendid plant for bold effects in the wall or rock garden; plants, if too large, may be severely cut back without damage. Total height about 2 feet.

***Coccinea alba** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
White form of the above.

Officinalis *Three \$1.25, Doz. \$4.00, 100 \$20.00*
(Hardy Garden Heliotrope.) Produces showy heads of rose-tinted white flowers during June and July, with delicious strong heliotrope odor. 3 to 4 feet high, loves a moist spot.

VERBASCUM - Mullein

Hardy biennial and perennial plants of stately growth, suitable for borders or rock gardens. The leaves are more or less woolly, and the flowers are borne in branched spikes. There are now several beautiful hybrids in cultivation which are superior to the species.

Culture. Mulleins require a light or medium, well-drained soil. Plant in autumn or early spring, about 4 to 8 inches apart. Once a colony of these plants is established they will reproduce themselves freely from seed each year.

Cotswold Gem *Three \$1.50, Doz. \$5.00, 100 \$30.00*
This Verbascum received an Award of Merit when introduced a few years ago in Europe. Here it has proven to be an outstanding and beautiful plant for the border, blooming from July until the end of September. Its numerous flower spikes rise to a height of four feet and are covered with soft amber-colored flowers with sparkling purple centers. Do splendidly in poor soil and do not seem to mind hot, dry weather, although a colorful plant, splendidly adapted for our hot, dry summers.

Cotswold Queen *Three \$1.50, Doz. \$5.00, 100 \$30.00*
Has the same habit of growth as Cotswold Gem. Its flowers are delicately shaded old rose or perhaps a buff-pink. Makes a fine specimen in the border. Does well in hot dry locations and poor soil.

Pink Domino *Three \$1.50, Doz. \$5.00, 100 \$30.00*
The upright rugged and picturesque branching flower spikes reach a height of 3 feet or more. They are in bloom from June until September and can be depended on for a fine and colorful background in the border. The color is a soft rose-pink with delicate buff undertones. A charming plant recently received from England where it, as well as Cotswold Gem and Cotswold Queen, are great garden favorites.

***Phoeniceum, Wayside Gardens Hybrids** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
An excellent strain produced from a very superior grade of English Hybrids. Colors are most interesting, ranging from white, pink, rose, purple and bronze to brown; they grow about 18 inches high.

Thalictrum Aquilegifolium (See page 71)

Tunica Saxifraga Rosea Flore-Pleno

Valeriana Coccinea

Veronica - Speedwell

In the eagerness for new things, some of the lovely old ones are all too often neglected.

We cannot imagine a garden or a well-kept rock garden without just quantities of Veronica. No matter what may be introduced in novel plants, no matter how fine the garden or border in which they are to grow, this garden would not be complete without such plants as *Veronica Longifolia Subsessilis*. From July to September it is one of the high lights. The color created by Royal Blue in June is outstanding. *Spicata Rubra* with its pinkish lavender blooms and silvery gray foliage is a lovely plant anywhere.

Then take the dwarf such as *Rupestris*. How incomplete a rockery would look without them. Above all, they are so easily grown and multiply freely. Don't overlook them, they are among the best of hardy plants.

Culture. Good, ordinary soil will suffice for all the following kinds. Grow the dwarf sorts in masses on the margins of sunny borders or rock gardens, and the others in colonies in positions according to their height. Plant in autumn or spring, 6 to 8 inches apart; cut back all faded flowers to promote new growth and additional blooms. They are classed amongst the best perennials for the American gardens.

Veronica Spicata Rubra

Veronica Amethystina, Royal Blue

Veronica Longifolia Subsessilis

***Amethystina "Royal Blue"** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Beautiful spikes of rich gentian-blue flowers. 10 to 15 inches. June and July flowering.

Spicata, Blue Spires *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Far superior to the well-known *Spicata*. Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worth-while border plant.

***Incana** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
(Candida.) 1 foot. July and August. A white, woolly plant; flowers numerous; blue. Has good appearance, both in and out of bloom. Useful in rockery or for edging paths and flower beds.

***Incana Rosea** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A fine companion to the above with rosy pink flowers. It is excellent for edging, as well as an attractive plant in the foreground of the border.

Longifolia subsessilis *Three \$1.45, Doz. \$4.75, 100 \$25.00*
2 feet. July to September. One of the handsomest blue-flowering plants. Perfectly hardy and increases in strength and beauty each year. Spikes completely studded with beautiful blue flowers; fine for cutting and one of the best plants for the hardy border.

***Rupestris** *Three \$1.25, Doz. \$4.00, 100 \$20.00*
A fine rock plant growing 3 to 4 inches high; thickly matted, deep green foliage, hidden in early June under a cloud of bright blue flowers. Does well in light shade and is also a good ground cover for shrub borders.

***Rupestris, Heavenly Blue** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
The same habit as *Rupestris* or *Rupestris alba*; prostrate; does well in full sun or light shade. Lovely in the rockery or at base of shrubbery. Completely covered with heavenly blue flowers in late May or early June.

***Rupestris nana rosea** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Has same habit and flowers at same time as *Rupestris nana*. The flowers, however, are mauve-pink.

Spicata *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Long spikes of violet-blue flowers all summer; a very fine variety for the middle of the hardy border. For best results lift and divide every three years and fertilize well with bone meal. Plant grows about 24 inches tall.

Spicata alba *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Long spikes of snowy white flowers.

Spicata rubra *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Rather misnamed because the flowers are a pinkish lavender and not red tinted as the name implies. Habit of plant is fine, erect and stately as well as very free-flowering. Excellent subject for in front of the border.

VINCA - Periwinkle or Trailing Myrtle (See page 81).

YUCCA - Adam's Needle

Stately perennials with stiff, evergreen, swordlike, sharply pointed leaves, produced in a cluster.

Culture. They require a sunny position. They will not thrive in peaty soils. Plant in early spring or fall, 3 feet apart.

***Filamentosa** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Among the hardy plants there is nothing more effective and striking for isolated positions on the lawn. It is also indispensable for the large rockery. Its broad, swordlike, evergreen foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 5 feet, render it a bold and handsome subject wherever placed.

Violas

Violas are among the most beloved flowers. Their cheerful and colorful blossoms are so easily grown, no matter where, be it in the city, suburban garden, or in the country. From Switzerland came Floraire, our favorite! Its dainty pale blue flowers may be picked before the winter's snow has melted. In hot summer weather it stands up best and flowers most freely; with fall and cool weather, it bursts forth again into masses of blooms which defy cold weather until well after Christmas.

Culture. To grow Violas well, good soil is a great advantage, although fine results may be obtained from plants planted in any soil that has been well dug, and a heavy dressing of partially rotted manure incorporated at the time of digging. Plant 8 inches apart in fall or early spring and plant firmly.

VIOLA CORNUTA - Tufted Pansies

Admiration *Three \$1.00, Doz. \$3.50, 100 \$15.00*
Deep violet flowers in great profusion all summer.

Catherine Sharp *Three \$1.50, Doz. \$5.00, 100 \$30.00*

(Patent applied for.) A splendid hardy blue Viola for the garden as well as for the cool greenhouse for winter blooming. The flowers are large and grow on long, stiff stems which place them well above the foliage. Two-year-old clumps are 18 to 24 inches in diameter, remain nicely compact, produce hundreds of flowers throughout the entire spring, summer and fall. Viola Catherine Sharp is as hardy as Viola Jersey Gem, blooms more freely, and the flowers are about twice as large and a better, lighter blue. Does well in light shade and is a charming subject for the rock garden as well. The brilliant yellow eye helps to give the lovely blue flower additional life and sparkle. At last, a reliably hardy Viola with all the fine habits of a good garden plant.

***Floraire** *Three \$1.25, Doz. \$4.00, 100 \$20.00*

A gem, producing profusely all summer through, small blossoms of pale blue. Famous in and around Geneva, Switzerland, a product of Monsieur Correvon. Perpetual flowering.

Golden Yellow *Three \$1.00, Doz. \$3.50, 100 \$15.00*
A very free-flowering sort producing its golden yellow flowers all summer.

Jersey Gem *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Possesses the dwarf habit and continuity of blooming of the true horned Viola (*V. cornuta*), and vigorous, bushy growth and roundish foliage of the finest English bedding varieties. Pure, rich violet, slightly perfumed.

Ohio Gem *Three \$1.45, Doz. \$4.75, 100 \$25.00*
This is a pure white sport or variation of Jersey Gem; discovered a few years ago in our nursery. Same habit of growth and freedom of blooms. An excellent plant.

Maggie Mott *Three \$1.50, Doz. \$5.00, 100 \$30.00*
This variety is used by the hundreds of thousands in Europe for bedding or massing along borders. The flowers are a lovely pure pale blue and beautifully proportioned. It is no wonder it is so popular. You will enjoy Maggie Mott Violas in your garden. It is a good strong grower and free bloomer and does not require undue care or attention. In bloom all spring, summer and fall.

Perfection *Three \$1.00, Doz. \$3.50, 100 \$15.00*
Light blue flowers in abundance all summer; a very lovely variety planted with the yellow sort.

Sutton's Apricot *Three \$1.25, Doz. \$4.00, 100 \$20.00*
Beautiful rich apricot shade, tinted orange toward the center.

White Perfection *Three \$1.00, Doz. \$3.50, 100 \$15.00*
Pure white blooms in great profusion all summer.

Mixed *Three \$1.00, Doz. \$3.50, 100 \$15.00*
Many shades and markings.

Viola Odorata - Sweet Violet

***Double Russian** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Perfectly hardy anywhere, producing double, sweet scented flowers in abundance. A splendid variety for that troublesome shady place.

***Odorata Semperflorens** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Sweet scented perpetual flowering. Here we have what may be termed a "tireless" sweet scented Violet. It never stops blooming. While the flowers are not large you can always pick a little nosegay from a half dozen plants. The fragrance leaves nothing to be desired even though the blossoms are small, and this perpetual flowering Violet is a good grower, and if you plant it in a favorable location will soon become a big clump. Does well in light shade. Perfectly hardy.

***Prince of Wales** *Three \$1.15, Doz. \$3.75, 100 \$18.00*
Rich, deep purple. Gloriously sweet scented. The best of the single hardy sweet scented Violets. Does excellently in shade.

***Rosina** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
Producing not only in spring but again in late autumn, quantities of dainty, deliciously fragrant, pink or old rose flowers. Extremely useful for bordering or as a ground cover in half shade or full sun.

Royal Robe *Three \$1.45, Doz. \$4.75, 100 \$25.00*
This is a glorious variety, is a lustrous shade of deepest violet-blue. The blossoms are moderately fragrant and open out flat like a Pansy or Viola. The size and length of stem are faithfully depicted in the engraving on page 73. It is quite unnecessary for us to expatiate on the transcendent beauty of this Violet. Suffice to say, a trial in your own garden will bear out all we have had to say, and more. A few plants of this Violet in the garden will serve to furnish quantities of bloom, either during early winter or early spring, and at a time when cut flowers are most highly prized.

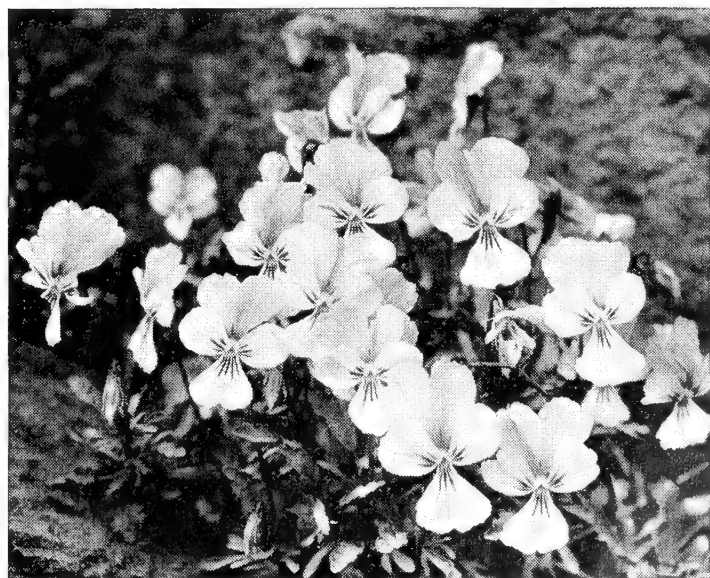

***The Czar White** *Three \$1.45, Doz. \$4.75, 100 \$25.00*
This is one of the most popular of white Violets, prolific in bloom and good large pure white flowers on long stems. Very fragrant.

Viola Odorata Semperflorens

Viola Cornuta, Sutton's Apricot

Constant-Flowering Viola, Floraire

"Knot Garden and Herb Garden" by courtesy of Brooklyn Botanic Garden, their exhibit at the N. Y. World's Fair

Old-Fashioned Kitchen Herbs

No Garden Should Be Without Tarragon "Epicure"

Angelica *Three 85c, Doz. \$3.00*
(*Angelica officinalis*.) Supposed to have angelic healing virtues and used in flavorings. Very ornamental.

Apple Mint *Three \$1.15, Doz. \$3.75*
(*Mentha rotundifolia*.) The leaves are used to flavor drinks.

Camomile *Three 85c, Doz. \$3.00*
(*Anthemis nobilis*.) A soothing tea made from the dried flowers.

Chive (French Delicate) *Three 60c, Doz. \$2.00*
(*Allium schoenoprasum*.) Finely chopped leaves give a delicious flavor to hors d'oeuvres, and salads.

Common Thyme *Three 75c, Doz. \$2.00*
(*Thymus vulgaris*.) Dried leaves season meat dishes, gravies and dressings; fresh leaves excellent in salads.

Hoarhound *Three 85c, Doz. \$3.00*
(*Marrubium vulgare*.) Dried leaves make a tea and remedial candy is made from the fresh leaves.

Hyssop *Three 85c, Doz. \$3.00*
(*Hyssopus officinalis*.) Leaves used for medicinal purposes and to season vegetables. A good edging plant.

Lemon Geranium *Three \$1.15, Doz. \$3.75*
(*Pelargonium limoneum*.) Fragrant leaves used in potpourris.

Mother-of-Thyme *Three \$1.00, Doz. \$3.00*
(*Thymus serpyllum*.) Leaves used medicinally and for seasoning meat and fish sauces and stuffings.

Parsley *Three 60c, Doz. \$2.00, Seeds per pkt. 20c*
(*Petroselinum hortense*.) Leaves commonly used to garnish meat and vegetable platters or to flavor soups.

Parsley, Hamburg Turnip *Three 60c, Doz. \$2.00*
This parsley forms a bulb root just below the surface of the ground, which is cut up in small discs three-fourths of an inch square and used in soups to which it imparts a very delicate flavor.

Peppermint *Three 90c, Doz. \$3.50*
(*Mentha piperita*.) Leaves and tender tops may be infused in cooling drinks.

Pot Marjoram *Three 85c, Doz. \$3.00*
(*Origanum vulgare*.) Flowers are picked for potpourris.

Rose Geranium *Three \$1.15, Doz. \$3.75*
(*Pelargonium graveolens*.) Leaves flavor puddings and jellies.

Rosemary *Three \$1.15, Doz. \$3.75*
(*Rosmarinus officinalis*.) Fragrant leaves scent potpourris.

Rue *Three 60c, Doz. \$2.00*
(*Ruta graveolens*.) Bits of the pungent blue-green foliage may be used to flavor salads or vegetables, with discretion.

Sage *Three 90c, Doz. \$3.00, Seeds per pkt. 20c*
(*Salvia officinalis*.) Dried leaves season meats, sausages, stuffings, and cheese.

Sorrel, Monstrous Long Standing *Three 90c, Doz. \$3.00*
Used as a vegetable. Boiled as spinach with currants and raisins added makes a delicious dessert; slightly lactic; freely used in Europe. A handful of Sorrel leaves may also be boiled with spinach to which it imparts a slightly sour taste, eliminating the use of lemon or vinegar.

***Savory, Summer Savory** *Three \$1.15, Doz. \$3.75*
(*Satureia hortensis*.) Leaves and young shoots used to flavor soups, stews and vegetables, especially string beans.

Savory, Winter *Three \$1.15, Doz. \$3.75*
(*Satureia montana*.) Leaves season meats, sausages, vegetable dishes and certain liqueurs. An excellent plant for edging borders.

Spearmint *Three 90c, Doz. \$3.50*
(*Mentha spicata*.) Fresh leaves used to flavor sauces and iced drinks, particularly juleps.

Spearmint, Variegated Lemon-Scented *Three 90c, Doz. \$3.50*
Leaves golden variegated, very decorative. Slightly lemon-scented flavoring for iced drinks.

Spearmint, Anise-Flavored *Three 90c, Doz. \$3.50*
(*Mentha spicata anisatus*.) Small green leaves with delightful anise and mint flavor for iced drinks.

Spearmint, Crisp *Three 90c, Doz. \$3.50*
(*Mentha crispa*.) A dwarf mint with small pungent leaves, excellent mixed with lemonade.

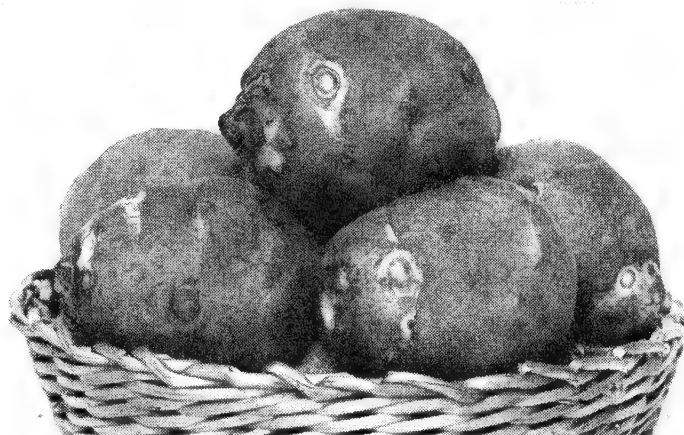

Sweet Marjoram *Three 90c, Doz. \$3.50*
(*Origanum majorana*.) Fresh leaves season sausages, vegetable dishes and salads or scent potpourris.

Sweet Woodruff *Three 75c, Doz. \$2.00*
(*Asperula odorata*.) Hay-scented leaves used to flavor wines. The plant is a good ground-cover for shady places.

Tarragon, "Epicure" *Three \$1.35, Doz. \$4.50*
This variety is particularly delicate and rich in flavor. Our plants are from a rare and much prized French strain. Used in salads and in the making of vinegar. Delicious in jello and fruit cups.

True Lavender *Three \$1.15, Doz. \$3.75*
(*Lavandula officinalis*.) Dried flowers commonly used for scenting linens and in potpourris.

Watercress *Three 60c, Doz. \$2.00*
(*Radicula nasturtium-aquaticum*.) Spicy leaves flavor sandwiches and salads. Moist spots.

Sutton's Choice White Jerusalem Artichoke. Seed Tubers Raised by Us From Imported Stock. 25 for \$1.50; \$4.00 per 100.

Water Lilies and Lotus

Their modest requirements are sun, water and rich soil; almost everybody can have built or can themselves construct an artificial pool. Any location that is available would be satisfactory, provided it is exposed to the full sun. Rather than have no water garden at all, the interested party can grow many of the varieties in tubs or half-barrels sunk in the ground.

Soil. An excellent soil for use in tubs or artificial pools is made by mixing three parts of rotted sod, compost, or good top soil with one part of cow manure or good barnyard manure. All manure used must be thoroughly decomposed, to prevent fermentation when covered with water. Ground bone or bone meal may be used if necessary, at the rate of one quart to one bushel of soil.

Size of Pool. The larger the water surface the better the results. A tub or half-barrel 2 feet in diameter will furnish a miniature pool. An artificial pool should be made as large as possible, and 2 feet deep.

Water. One foot of water over the soil is the most desirable depth in artificial pools. Some will thrive in shallower water, but few will stand a depth exceeding two feet. After the pool is once filled it is only necessary to replenish that which evaporates. Do not attempt planting until warm weather has come to stay.

HARDY VARIETIES

Gloriosa

Each \$2.50

This can well be called the most satisfactory Water Lily. It is the earliest to bloom and continues to flower until late summer, producing more blossoms than any other sort. In the spring the flower is a bright carmine which becomes darker as the season lengthens. The blooms are perfect in form and 4 to 6 inches across.

James Brydon

Each \$2.50

Here indeed we have a superb variety most difficult to describe. It is exceedingly free blooming and produces flowers, amaranth-rose in color, 4 to 5 inches in diameter. A most desirable variety.

Marliacea chromatella

Each \$1.50

Medium sized flowers usually 4 to 6 inches across. Color of the bloom is bright yellow, with stamens somewhat deeper in color. The leaves are green, mottled with brown.

Morning Glory

Each \$1.50

Soft shell-pink, very beautiful. The plant is a good, strong grower. One of the big fellows, the blossoms getting larger as the season advances. Gives an excellent show after most of the other Lilies have stopped blooming.

Odorata

Each 75c

The American Water Lily of the northeastern United States. Flowers white. Splendidly adapted to quantity planting in natural pools.

Paul Hariot

Each \$2.25

The blooms are quite large, of lasting quality, and are borne in abundance all season. The petals are clear yellow the first day, orange-pink the second day, and this deepens almost to a red on the following days. Flowers of different ages present an appearance quite unique and decidedly attractive.

Rose Arey

Each \$1.50

A wonderful variety of the Odorata type; very free flowering, and strong growing. The flowers are very large, and are sweetly scented. The color is clear cerise-pink and does not lighten toward the center of the flower.

Rose Magnolia

Each \$1.25

The blooms are borne well out of the water, which makes them desirable for cutting. They are usually 4 to 5 inches across and of a delightful shade of pink. Strong, vigorous grower.

Sunrise

Each \$2.25

The finest of the yellow flowering hardy Lilies. A glorious yellow that opens earliest of all. Long, narrow petals with curved sides and crinkled tips give the appearance of giant Chrysanthemums. Flower is clear yellow with a touch of fluorescent green, the stamens rich lemon chrome. Unusual in form, beauty and fragrance.

Tuberosa Richardsoni

Each \$2.75

Flowers white and quite double. No variety in our Water Garden is admired more than this immense snowball-like flower. Eight inches in diameter.

Tropical Waterlily

NIGHT-BLOOMING TROPICALS

Dentata

Each \$2.00

Flowers pure white, with golden yellow stamens. They are large and open out flat.

H. C. Haarstick

Each \$2.00

If you like red Lilies, we know this delightful new night-bloomer is sure to please. A conspicuous variety owing to its large well-shaped flowers and copper-colored leaves. The flowers are a brilliant red that will contrast beautifully with other Lilies.

Mrs. George C. Hitchcock

Each \$2.00

This valuable new addition to the pink flowering night-bloomers has flowers that are dark rose-pink and are very large.

DAY-BLOOMING TROPICALS

August Koch

Each \$2.00

As a variety suitable for all general purposes there is none that surpasses August Koch. The flowers are 7 to 8 inches in diameter and open for four to six days. The sepals are purplish lilac and the petals pale wisteria-violet. Foliage strong and attractive.

Dauben

Each \$1.25

The best known viviparous Lily. Produces small blue flowers in great profusion. The small leaf-plants frequently bloom while still attached to parent plant. Fine for tub or aquarium culture. A continuous bloomer.

General Pershing

Each \$2.50

One of the finest novelties of recent years. Very large, fragrant flowers of pure, warm pink, unlike any other Day-blooming Water Lily. Very free-flowering and one of the most highly prized.

Mrs. Edward Whitaker

Each \$2.50

The largest and most striking of the day-blooming tropical Lilies. Its blooms are frequently over a foot in diameter and are produced in quantity. The color is lavender-blue, which becomes paler as the bloom ages. Petals slightly rounded at the tips and quite numerous.

Mrs. Geo. H. Pring

Each \$1.75

The finest of the really large white day-bloomers. A new and novel type that produces numbers of large, fragrant, white flowers with pointed petals. Very attractive among the pinks and blues in a pond and excellent when used alone in a formal setting. It is the counterpart of the Mrs. Whitaker in pure white. Petals broader at the base and more pointed at the tip. Has been known to produce 13-inch flowers, but like the Whitaker, will also bloom in very small quarters. Will combine with any color.

Pennsylvania

Each \$2.00

Deep blue flowers a foot across and produced freely; sepals marked with purple lines and dots. The leaves are slightly speckled with brown above; beneath, the ground-color is red-purple at the edge, shading to pale green centers. Desirable in a small pool or tub.

Pink Pearl

Each \$2.50

Beautiful pearl-pink flowers of medium size and produced on stems longer than usual with the tropical Lilies. Flowers are produced in great profusion, making a continuously beautiful display in any pool.

Royal Purple

Each \$2.50

This handsome new Lily is identical in growth and habit to that excellent variety, Panama Pacific, except that the color is a glowing royal purple. This viviparous novelty will add a note of regal splendor to your pool.

NELUMBIUMS - Lotus

Album grandiflorum

Each \$3.50

(Magnolia Lotus). Pure white flower with delicate fragrance. Extra large foliage.

Speciosum

Each \$2.00

The Sacred Lotus of the Nile. It grows well under almost all conditions. Both flowers and leaves stand well above the water. The rosy pink blooms are always large and fragrant.

Lotus

DARLINGTONIA

Oregon Pitcher Plant

The Darlingtonia is carnivorous. Its food consists entirely of insect life. Flies, mosquitoes and other insects are lured into the pipe-shaped pitchers by a sweet and attractive liquid secreted in the glands of the pipes. Once in the cobra hood they are trapped and forced downward by hundreds of tiny hairs until drowned and digested in the fluid at the base of the pipe.

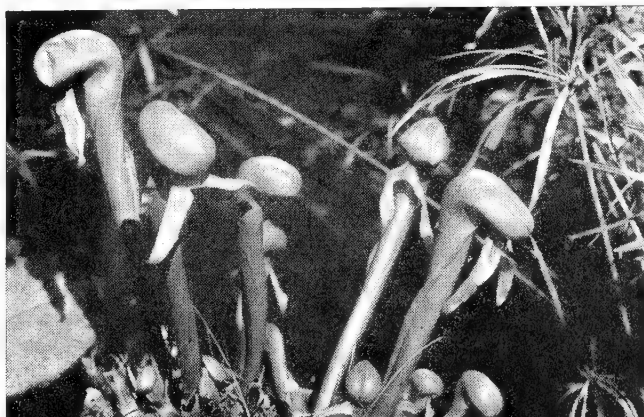

The root growth of the Darlingtonia serves as an anchor and water system for the plant. It has nothing to do with the food supply. Grow them in a shaded or semi-shaded location about 2 inches above the water level of the pool. May be potted and grown in the house, but must never be permitted to become dry. It will prove its value as a destroyer of winged insect life.

Delivery after May 1st, not before.

Good big clumps, Each \$1.25, Doz. \$12.50

Darlingtonia

[79]

Hardy Baltica Ivy Covering Bank—It is Very Hardy and Excellent on Banks

Ground Covering Plants

for shady places where grass is not satisfactory

There's no need to despair over making attractive the shady places under trees and other places where grass won't grow. Here are several plants that are ideal for just such situations.

Once established they will spread quickly, last indefinitely and require practically no care. Although primarily foliage

plants, some have blooms. The Myrtle, for instance, is sprinkled in the early spring with blue or white flowers.

Any of these ground coverings can be planted either in the spring or fall. Let us know the amount of ground you want to cover, and we'll gladly advise how many of any of the plants are needed.

Hardy Baltica and English Ivy

The famous English Ivy with its familiar evergreen, glossy foliage, requires winter protection in cold sections of the country where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds anywhere. Gracilis is perfectly hardy and we recommend its use on the north side and west side of buildings and walls or in shady places or as a ground cover under trees in dense shade. The 2½-inch pot plants offered are very economical.

ENGLISH IVY—*Hedera helix*

A lovely vine as well as a splendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in densest shade.

5-in. pot plants, 30 inches high Each 60c, Doz. \$6.00, 100 \$40.00
2½-in. pot plants Doz. \$2.75, 100 \$15.00, 1000 \$140.00

For ground covering the 2½-inch pot plants are recommended and should be spaced 8 inches apart.

BALTICA IVY—*Hedera helix gracilis*

Identical in habit with the English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north or west exposures, also an excellent ground cover.

5-in. pot plants, 30 inches high Each 60c, Doz. \$6.00, 100 \$40.00
2½-in. pot plants Doz. \$2.75, 100 \$15.00, 1000 \$140.00

For ground covering the 2½-inch pot plants are recommended and should be spaced 8 inches apart.

Pachistima Canbyi

This small holly-leaved prostrate little evergreen shrub spreads about 18 inches. Several planted together make a perfectly charming ground cover. It grows equally well in sun or shade and is hardy anywhere. Because of its ease of culture and fine habit without any care, it is rapidly becoming first choice as a cover for graves as well as in small shady places in the garden. As a ground cover plants should be spaced 6 inches apart. See page 159 for illustration.

Three \$1.75, Doz. \$5.50, 100 \$35.00

Ajuga - Bugle

Satisfactory in both sunny or shady places. Dwarf, creeping perennials. The leaves are a rich shiny green, and the shoots more or less creeping. Excellent plants for edging or carpeting bare spots. Suitable for sun or shade.

**Genevensis*

Doz. \$4.00, 100 \$20.00

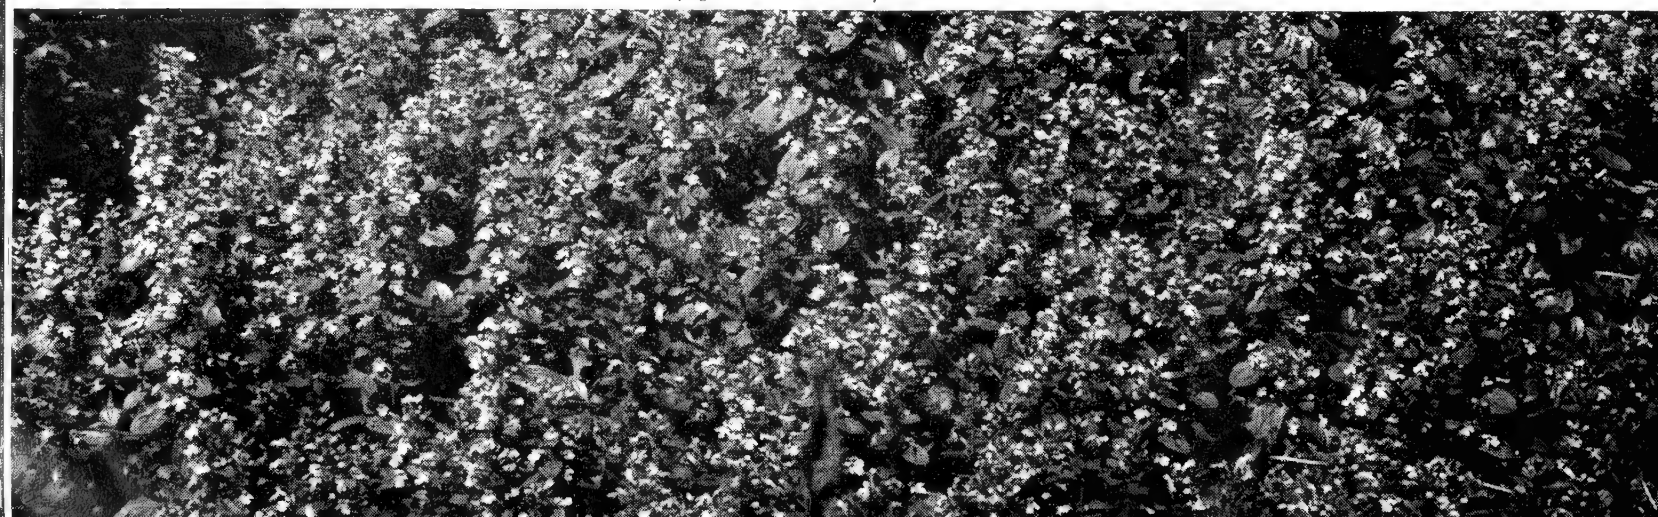

Grows 6 to 8 inches high; dense spikes of blue flowers in May and June. As a ground cover, plants should be spaced 8 inches apart.

**Reptans rubra*

Doz. \$4.00, 100 \$20.00

Grows 3 to 4 inches high, with deep purplish blue flowers in May and June. It is an excellent plant for ground covering and makes a good background for bulbs, such as snowdrops and grape hyacinths, which may be planted under its foliage. As a ground cover plants should be spaced 8 inches apart.

The Ajugas Are Suitable for Sun or Shade

Pachysandra Growing Luxuriantly in Deep Shade

Pachysandra Terminalis (Japanese Spurge)

A trailing plant 6 to 8 inches high, forming broad mats of bright glossy green foliage. A ground cover, which will grow in all shady situations and the only plant which will thrive under pine trees. Some of its main uses are: Under all evergreen plantings, under all shrub plantings, for area-way copings, for loggia and enclosed

porch uses, for shrub and flower bed borders, for bordering walks and drives, for steep terraces in sun or shade, for city yards it is ideal, for dense shade under any kind of trees. Plants should be spaced 4 inches apart.

1-year-old field-grown plants

100 \$8.00, 1000 \$65.00

2½-inch potted plants, heavy grade

100 \$12.00, 1000 \$90.00

Two Inexpensive Plants for Covering Large Banks

LONICERA HENRYI

Ground Covering Size, Doz. \$4.50, 100 \$25.00, 1000 \$225.00

This is a perfect ground covering plant because the long dark green leaves are not lost during the winter.

It is a perfect evergreen vine for covering large banks.

The flowers while fragrant are of no importance, but the blue-black berries in autumn add materially to the charm and usefulness of this plant. Does well in both sun or shade. May be planted in fall or spring, and plants should be spaced 18 inches apart.

LONICERA HALLIANA

Ground Covering Size, Doz. \$3.30, 100 \$20.00, 1000 \$150.00

Aside from being a favorite vine for both sunny and shady porches, Hall's Honeysuckle is extensively used for covering banks. Its growth is rapid and because it roots deeply is an excellent plant to prevent washing of soil. The fragrant flowers produced almost all summer long greatly add to charm. It may also be used to cover semi-shady places in woods. May be planted in spring and fall. Plants should be spaced 18 inches apart.

Vinca - Periwinkle or Trailing Myrtle

The Periwinkles are suitable to grow as edgings to shrubbery borders, carpet the ground under the shade of trees, or in shady borders with ferns, lilies and other bulbs.

CULTURE. Ordinary soil in positions named above. Plant in

autumn or early spring, 4 to 6 inches apart. Additional beauty is obtained by the interplanting of daffodils, mertensia or plumbago larpenatae. All these bulbs and plants do well planted under Vinca minor.

*Minor

A trailing evergreen plant, used extensively for carpeting the ground under shrubs or trees or on graves, where it is too shady for grass or other plants.

1-year nursery-grown plants 100 \$8.00, 1000 \$65.00

2-year nursery-grown plants 100 \$10.00, 1000 \$85.00

2½-inch potted plants, heavy 100 \$12.00, 1000 \$90.00

*Minor alba (2½-inch pots) Three \$1.40, Doz. \$4.00, 100 \$25.00

The rare white-flowered form of the preceding variety.

*Minor aurea variegata

Three \$1.10, Doz. \$3.30, 100 \$20.00

The hardy golden variegated Vinca is a very attractive plant for the rockery or any shady place where a touch of color for the winter is required.

Minor, Bowles' Variety

Three \$1.40, Doz. \$4.00, 100 \$25.00

The foliage is broad and rich glossy green, of strong texture. The flowers are not only larger but of a deeper rich blue color and are borne with a remarkable profusion. Plants are supplied in pots.

All Vinca varieties should be spaced 6 inches apart.

The Pick of the World's Roses for Your Garden

Why not plant a prize-winning, world-famous Rose in that little space by your door? No other flower fits just such a space so effectively. The Rose is universally loved. It is known to more people of all ages and nations than any other flower.

Roses have probably caused more men to become interested in gardens than have all other flowers combined. Try it on the men-folk of your household. He may have no particular interest in gardens but will frequently develop a deep enthusiasm for planting and cultivating Roses. It creates a new interest in his home and pays bountiful dividends in added domestic bliss.

Prize-Winning Wayside Gardens Roses

To make it easy for you to get the most from your Rose budget, the Wayside list is made up of but 200 of the finest types and varieties, the most popular older Roses along with the most exciting of the new ones—all of them selected for hardiness, abundant bloom and easy growing.

Among Tea and Hybrid Tea Roses, for instance, you have a remarkably wide selection from prize-winning new strains of Europe and America. There are many new Setigera Hybrids and other varieties originated by Mr. M. H. Horvath, which are internationally famous, and distributed exclusively by us. The Climbing Horvaths are today the largest-flowered in existence; and all are remarkably free from conventional Rose ailments. In the list also are the best varieties of Hybrid Perpetuals and Polyanthas, besides Hugonis, Rugosa, Floribunda, Miniature Roses and other Wayside special items which now grace thousands of the finest gardens in America.

Create Lovely New Garden Effects With Roses

Polyantha or Baby Rose varieties planted in solid beds give you a magnificent display all summer long. People in Europe have long known this for they've jeweled the continent with millions of them. You get lovely effects with Bedding and Cluster Roses by planting them in small groups in front of shrubbery in combination with perennials and annuals. Tree Roses add a striking third dimension in your Rose beds and take up practically no ground space. No dooryard or garden is complete without Climbing or Rambler Roses on a sunny wall, fence or arbor.

There are few lovelier sights than the "Golden Rose of China" (*Rosa Hugonis*) blooming with a clump of lavender or purple Tulips in front of it. Pink Rose "Sterling" which won the Hubbard Gold Medal as the finest Rose of the past five years should have a place in every Rose garden. And for your rock garden, don't miss the miniature beauty of the *Rosa Rouletti*.

Wayside Roses Are Guaranteed Strong Rooted 2-Year Field-Grown Plants, Selected Northern Ohio Grown Stock

If you've had costly and disappointing experiences with "bargain" Roses such as you can always buy at cut-price stores and from other sources of no horticultural standing, you understand readily why so many thousands of gardeners save money by purchasing most of their Roses and other hardy plants from Wayside Gardens.

For every plant is pedigreed, grown directly only from pure strain parent plants especially selected for their hardiness and their proved abundant flowering quality. They're fully acclimatized and supplied with strong, vigorous roots that assure you not only fine bloom the first year but many seasons of enjoyment.

All Rose plants will be sent to you cut back to about 6 inches, depending on variety, ready for planting. In other words, we will prune them correctly, removing all unnecessary wood, unless we are instructed to the contrary.

Ten Superb Roses of American Origin

The Choice of the Experts, for 1942, is
"HEART'S DESIRE"!

Last year's selections: Apricot Queen, California and Charlotte Armstrong, have given an excellent account of themselves this summer. Their popularity is assured.

APRICOT QUEEN

Award All-America Rose Selection 1940

Howard & Smith Origination (Patented)

A lovely combination of colors is to be noted in this glorious new Rose. Orange and apricot at the base of the petals, merging to salmony rose and phlox-pink in the fully developed bloom is descriptive.

The bud is long-pointed. The fully developed flower shows a regular, well placed petal arrangement.

A good strong grower, with handsome, leathery foliage which serves as a splendid foil to the perfectly formed buds and open bloom.

Each \$1.50, Doz. \$15.00

CALIFORNIA

Award All-America Rose Selection 1940

Howard & Smith Origination (Patented)

We regard this sensational novelty as outstanding among the numerous varieties we have contributed to the Rose world through our efforts in plant breeding.

The color is a glorious shade of ruddy orange toned with saffron-yellow, with the exterior of the broad petals overlaid with saturn-rose—a dual tone effect of indescribable richness and beauty. Buds long and pointed, flowers of enormous size, reaching a diameter of five to six inches. Growth vigorous, with healthy, glossy green foliage.

Each \$1.50, Doz. \$15.00

CHARLOTTE ARMSTRONG

Award All-America Rose Selection 1940

Armstrong Origination (Patented)

A Rose of a most unusual color, blood-red in the bud, opening to cerise in hot weather and to spectrum-red in cool weather, while the beautiful shape and extreme length of the buds, with its long clasping sepals and the extreme floriferousness and vigor of growth and large, luxurious foliage, make it a most satisfactory Rose in all respects. The bud is long and pointed; the flower is 3 or 4 inches in diameter, high-centered, never showing the center. The flowers are very lasting, the fragrance is moderate. The plant is extremely vigorous, semi-spreading to upright and is continuously in bloom, producing flowers singly and occasionally in clusters, while the foliage is leathery, semi-glossy, deep green and highly resistant to mildew. It will outbloom most other commonly grown Roses three flowers to one throughout the season.

Each \$1.50, Doz. \$15.00

CONTRAST

Howard & Smith Origination

The combination of colors to be noted in this exquisite bi-colored Rose catches the eye at once, the reverse of the petals is milk-white with basal bronze shading, the upper face a superb shade of orange-rose.

Flowers full petaled, fairly fragrant, produced in enormous quantity over the full Rose season, grand for cutting purposes. This novelty has elicited over the past two years numerous encomiums from all parts of the U. S. A., England, and even far off Australia.

Each \$1.00, Doz. \$10.00

SANTA ANITA

Howard & Smith Origination

Santa Anita is a lovely Rose. A loveliness exemplified in the blossoming orchards of spring. Perfectly formed long-pointed buds unfold into glorious flowers of crystal clear, peach-blossom-pink. The limpid color, delicate scent and exquisite form place bountiful Santa Anita at the very zenith of the outstanding pinks.

Each \$1.50, Doz. \$15.00

HEART'S DESIRE

Award All-America Rose Selection 1941

Howard & Smith Origination (Patented)

In this new gold medal variety your Heart's Desire for a red Rose bordering on perfection will be attained. Your Heart's Desire for a Rose with that haunting perfume will be fulfilled. Your Heart's Desire for the beautiful in form and texture will be gratified. One day soon after planting the rugged bushes and you are gathering the many long-stemmed buds of perfect form and color from your garden you will exclaim, "Ah! yes this beautiful Rose with its long unfurling petals, deep red heart and exquisite fragrance satisfies my longing for a perfect Rose and fulfills my every HEART'S DESIRE."

Each \$1.50, Doz. \$15.00

POINSETTIA

Howard & Smith Origination (Patented)

We have no hesitancy in stating that this Rose is the most brilliant red Rose ever produced. "Crimson Glory" is admittedly a magnificent piece of color, but the color is dull by comparison. The name of this Rose is a descriptive one, and was suggested by Dr. J. Horace McFarland of the American Rose Society. It is close to a poinsettia-scarlet.

The buds are ideal in form, long and pointed; fairly full petalage, a good grower, and fine as a cut flower. This Rose was awarded a Certificate of Merit by American Rose Society, 1938.

Each \$1.00, Doz. \$10.00

TANGO

Howard & Smith Origination

A superb bicolor Rose, exquisite in bud or expanded full open bloom. Upper surface of petals fine vermilion-scarlet, reverse or under side bronze with old gold shadings at the base.

A truly sensational color, with buds and bloom of ideal form produced in endless quantity on strong, vigorous plants. A glorious Rose for cutting purposes.

Each 85c, Doz. \$8.50

THE DOCTOR

Howard & Smith Origination

This magnificent Howard & Smith Rose is internationally recognized as one of the outstanding new Roses.

We regard this Rose as one of the best, a variety which will be greatly sought after when better known. The buds are long and pointed, expand to a simply enormous bloom in their fully developed state. The color is an exquisite silvery pink, uniform in color both in bud and open flower, with a fragrance so intense that it can be detected many yards away.

Each \$1.00, Doz. \$10.00

WILL ROGERS

Howard & Smith Origination (Patented)

The color is black velvety crimson-maroon, which holds its color till the last petal falls. Its fragrance is so intense that a few will scent a room with "Attar of Roses" fragrance. Strong and vigorous grower with dark green foliage retained throughout the season. The blooms are quite double, with a beautifully ruffled petal arrangement in the open flower. Marvelously free in blooming qualities, bearing lavish quantities of flowers from April to the advent of following winter frosts. This Rose, cut in early morning and placed in water, will keep in fine condition for five or six days, and during this period dispel its most delightful fragrance.

Each \$1.00, Doz. \$10.00

Everblooming

Here we list only the very choicest and most popular varieties of Tea Roses, with the majority of which every lover of the Rose is familiar. Duplicates as well as inferior varieties have been discontinued. All are good growers and free flowering and will provide you

Mme. Cochet-Cochet

Alice Harding *Each \$1.00, Doz. \$10.00*
(Plant Patent No. 202.) An ideal garden Rose because of its handsome plant and abundance of flowers. Color is a rich sunflower-yellow, uniform and without shading, on which the sun has but little effect. An exhilarating perfume adds to its beauty. Gold Medal, A. R. S., 1936.

Amelia Earhart *Each \$1.25, Doz. \$12.50*
(Plant Patent No. 63.) Truly a lovely garden Rose, producing a wealth of immense, extremely fragrant yellow blooms. Very full flower, graduating from a deep yellow center with outer petals of cream with blush overtone. A free bloomer and strong grower with large, rich dark green leaves. Amelia Earhart will prove the delight of garden lovers everywhere.

Ami Quinard *Each 85c, Doz. \$8.50*
Blackish crimson buds; semi-double flowers of maroon-red. Tall, vigorous grower. 15 petals.

Angels Mateu *Each \$1.25, Doz. \$12.50*
(Plant Patent No. 174.) Orange-rose. The involuntary expression of one visitor, "This is a heavenly Rose!" is true indeed, for it is a ravishingly beautiful flower. Reports coming to us from trials of this Rose are increasingly enthusiastic. Its color is exceptionally attractive; it reminds one of deep coral, or deep old rose flushed with orange. The fragrance is like ripe blackberries. Growth is erect. Foliage is dark green and leathery.

Duquesa de Penaranda

Caledonia

Autumn *Each 85c, Doz. \$8.50*
Burnt orange, streaked and marked with red. Bud of medium size, developing into a cupped, double, fragrant flower.

Better Times *Each \$1.00, Doz. \$10.00*
(Plant Patent No. 23.) Beautiful long crimson buds opening into large, double, brilliant cerise-red flowers with a delicate fragrance. Has exceptionally long stems. Blooms most profusely.

Betty Uprichard *Each 85c, Doz. \$8.50*
One of those delightfully contrastive types; the outside a blend of deep toned carmine with coppery orange; the interior being mostly a delicate salmon-pink.

Break o' Day *Each \$1.50, Doz. \$15.00*
(Patent pending.) Sub-zero Hybrid Tea. A robust plant with large, double flowers—orange-apricot, shaded with lighter flesh tints; very fragrant. It is exceptional for its strong growth, its fragrance, and for its huge clusters of flowers. A bedding Rose of high merit.

Briarcliff *Each 85c, Doz. \$8.50*
Large, pointed buds and double high-centered blooms of brilliant rose-pink; fragrant and long lasting.

Caledonia *Each 85c, Doz. \$8.50*
The most desirable white; exceptionally long-pointed bud opening to a very double, high-centered, long-lasting, very large, moderately fragrant flower. Continuous free bloomer.

Charles K. Douglas *Each 85c, Doz. \$8.50*
Of vigorous, upright growth and liberal, fragrant bloom which is of delightful form. Color a flaming scarlet flushed with velvety crimson.

Charles P. Kilham *Each 85c, Doz. \$8.50*
A brilliant, distinct and striking novelty which will appeal to and please every Rose lover. The buds are long pointed, of perfect shape, opening to high centered, perfectly formed, full double flowers of a rich and brilliant Oriental red, flushed with orange and glowing scarlet. A vigorous grower; very free flowering and sweetly tea-scented.

Christopher Stone *Each \$1.00, Doz. \$10.00*
Large semi-double vivid scarlet flowers overlaid with velvety, crimson. Has a delicious old rose scent. Of vigorous, upright growth with bright green foliage.

Claudius Pernet *Each 85c, Doz. \$8.50*
A most vigorous grower of erect branching habit, beautiful brilliant green foliage, long pointed buds of exquisite shape, carried on long, stiff stems. Very large, full flowers with elongated deep petals; a beautifully formed bloom. Color most striking sunflower-yellow.

Columbia *Each 85c, Doz. \$8.50*
This beautiful rose is of strong, vigorous habit and exceptionally free blooming. Color a most pleasing shade of rose-pink and delightfully fragrant.

Hybrid Tea Roses

with an ample supply of blooms throughout the summer. There is not one individual sort which we cannot endorse as possessing superior merit. All are two-year-old, XX No. 1 grade. The finest Northern Ohio grown stock available.

Glowing Carmine

Condesa de Sagato *Each 85c, Doz. \$8.50*
A splendid double Rose with the vivid colors of the sparkling species Austrian Copper. The buds are golden yellow, beautifully striped with brilliant capucine red. The open, spicy scented blooms are of similar color. Strong grower and a perfect beauty.

Countess Vandal *Each \$1.00, Doz. \$10.00*
(U. S. Plant Patent No. 38.) Long pointed, orange-copper buds. The flowers are large, double, high centered, and have a rich fragrance. Their color is brilliant pink lightened with salmon. The blooms are borne on long stems.

Crimson Glory *Each \$1.25, Doz. \$12.50*
(U. S. Plant Patent No. 150.) The plants branch freely, producing a well-spread yet compact bush of good symmetry. Following the large, urn-shaped buds are the well-formed flowers of an intense deep vivid crimson shaded oxblood-red and mellowed by a soft velvet nap. (Color illustration, page 89.)

Dame Edith Helen *Each 85c, Doz. \$8.50*
Shapely buds and substantial, high-centered blooms of clear pink, sweetly scented and freely produced on long, strong stems. Vigorous. Most remarkable for the number and beautiful arrangement of its petals.

Dickson's Red *Each \$1.25, Doz. \$12.50*
(Plant Patent Applied For.) A glowing scarlet-red Rose from Ireland. The ripe warmth of its color is constant, its abundant bloom unflagging all through the summer. Happily, also, it is rich in the fragrance you instinctively expect in a red Rose. If the sun has been cruel to your reds, here is a "must have" for your list—it defies the hottest sun's rays and retains its color undimmed. So rugged, so completely satisfying is this Rose that we predict it will be a garden mainstay, a Rose for the years, and as the blooms are produced singly on long, strong stems it will be your favorite red Rose for cutting.

Duchess of Wellington *Each 85c, Doz. \$8.50*
Intense saffron-yellow, stained with deep crimson, changing to a deep coppery saffron-yellow as the flowers are fairly full, with large petals, great substance, delightfully fragrant.

Duquesa de Penaranda *Each \$1.00, Doz. \$10.00*
This glorious Rose produces two distinct types of flowers. During the summer the pointed buds are a blend of apricot-orange and dark pink, opening to splendid blooms of coppery apricot. In the autumn great brownish buds open slowly to finely formed flowers of a luscious cinnamon-peach color, truly enchanting to visitors to our gardens who delight in the new art shades. It is sweetly perfumed and one of the loveliest Roses for cutting.

Grenoble

E. G. Hill *Each 85c, Doz. \$8.50*
Beautiful long bud of perfect form and full double, high-centered flower of dazzling scarlet, shading to a deeper red as it develops. Strong, vigorous free-flowering habit.

Edel *Each 85c, Doz. \$8.50*
An enormous bold, stately, well built flower of great quality and finish. Color white with faintest ivory shading towards the base, passing to a pure white. A fine grower with uniform, stout habit. (Color illustration, page 83.)

Eclipse *Each \$1.00, Doz. \$10.00*
(Plant Patent No. 172.) Golden yellow. An entirely new type, with "stream-lined" buds which often exceed 2 inches in length, ornamented with narrow, branching sepals which contrast harmoniously with the gold of the petals. You can depend on "Eclipse" for almost continuous bloom on strong, upright plants with healthy, dark green foliage. The flowers are produced on long erect stems, suitable for cutting.

Edith Nellie Perkins *Each 85c, Doz. \$8.50*
A Rose of outstanding merit, vigorous growth and free flowering. Long, pointed bud; flower of good size, long lasting and fragrant, double; outside of petals Orient-red shaded cerise-orange; inside salmon-pink. (Color illustration, page 89.)

Sterling

Charles K. Douglas

Eclipse

Federico Casas

Eternal Youth

Each \$1.25, Doz. \$12.50

(Plant Patent Applied For.) Its graceful pointed buds are a clear warm pink, retaining their color in all stages. There is a livening touch of yellow at the base of each petal which suffuses softly throughout, eliminating the less attractive tones so common in pink Roses. The foliage is disease-resistant. It has an interesting fragrance reminiscent of the sweetness of the old-fashioned Roses. Instantly appreciated by all who see it. Prolific bloomer.

Etoile de Hollande

Each 85c, Doz. \$8.50

Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Free flowering.

Faience

Each \$1.00, Doz. \$10.00

Two-tone soft peach and cadmium-yellow. Faience is the name of a famous pottery, noted for its iridescent colors. Exquisite form, from the long, tapering bud to full-petaled, opening bloom. Buds are cadmium-yellow at the base which gradually shades to shrimp-pink at the edges of the petals. As the blooms unfold, the inside of the outer petals is an artistic China-pink, which deepens toward the center of the flower to shining coppery rose. The reverse of the petals is cadmium-yellow lightly veined with pink. (Color illustration, page 83.)

Federico Casas

Each 85c, Doz. \$8.50

Coppery pink and orange. Continuity of bloom on erect, firm stems makes this an outstanding Rose. It comes from sunny Spain and is one of the choicest Roses we have received from the hands of the Rose wizard, Pedro Dot. You will find it good for both garden decoration and for cut flowers for it keeps well when cut. This hardy Rose will provide you with quantities of bloom every year for years to come.

Feu Pernet-Ducher

Each \$1.00, Doz. \$10.00

(U. S. Plant Patent No. 103.) An exceptional rose with creamy orange buds heavily marked with carmine, slowly opening into very deep yellow blooms with lighter edges which are flushed with pink. A most lovely Rose with a rich fruity fragrance. Of tall, bushy growth and exceptionally free flowering.

Gloaming

Each \$1.00, Doz. \$10.00

(Plant Patent No. 137.) A cut-flower variety which has proved a "winner" wherever grown. Its large buds, carried on long, rigid stems, are amply clothed with handsome foliage. Bloom is of unusual coloring, fawn-orange in the bud, and the large full blooms are of a peculiar pink overlaid with salmon. The plant is vigorous and branching, fairly tall-growing.

Glowing Carmine

Each 85c, Doz. \$8.50

The name appropriately describes this beautiful new Rose. It is a strong grower with well-shaped buds representing a splendid color that lasts exceptionally well. One of the outstanding Roses in our trial grounds.

Golden Dawn

Each 85c, Doz. \$8.50

The ideal yellow garden Rose. The ovoid, lemon-yellow bud, heavily splashed with crimson, develops into a well formed, sweetly scented, large, double sunflower-yellow flower that reminds of the old favorite Marechal Niel. Vigorous, free flowering.

Golden Main

Each \$1.00, Doz. \$10.00

(Plant Patent No. 254.) This Rose has great vigor and strong, dark foliage immune to diseases. A decorative Rose continuously in bloom. Its clusters of large, full, pure clean yellow blooms look like burnished brass, or dandelions in the morning dew. The most brilliant yellow among Roses. Fades but little in the hot summer sun.

Golden State

Each \$1.00, Doz. \$10.00

(Plant Patent Applied For.) Superior to most other yellow Roses in vigor, erectness of growth, and abundance of bloom. An excellent, continuous blooming garden Rose with a rich clove scent. Its long buds open to glowing hearts of yellow-orange. The flowers are borne singly, sometimes in small clusters on fine, erect stems. Each flower has from 40 to 50 petals which, when they unfold, change to a deep unfading buff veined with salmon. Awarded in 1937 the Gold Medal, Bagatelle, Paris, and chosen the official Rose for the Golden Gate International Exposition, 1939. Has disease-resistant foliage and is fine for cutting.

Grenoble

Each 85c, Doz. \$8.50

Glowing scarlet-crimson. The plant is very vigorous and the blooms come on unusually long stems, making it one of the best garden Roses for cutting. The buds are crimson but the open flower is brilliant red, almost scarlet, and a bed of Grenoble stands out like a fire. It is fully double and of large size. Easily one of the best reds.

Gruss an Teplitz

Each 85c, Doz. \$8.50

This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is of the richest scarlet, shading to a velvety crimson; very fragrant, a free, strong grower and in bloom all the time.

Hector Deane

Each \$1.50, Doz. \$15.00

(Plant Patent Applied For.) A radiant newcomer from Ireland which accommodates itself happily and vigorously to our conditions. So fragrant is this Rose that a single plant scents the whole garden with true old rose scent. The bud is crimson with a suggestion of orange in the depths, the orange diffusing as it opens, leaving at the heart only a clear circle of yellow. Bloom is informal in its opening, the petals reflexing in irregular and unusual manner. Almost rampant in its growth, this McGredy hybrid is exceedingly liberal and constantly in bloom.

Heinrich Gaede

Each \$1.00, Doz. \$10.00

Long pointed shapely bud of nasturtium-red color, large, double, high centered flowers of ideal shape, of a color unusual and unlike any Rose in commerce—a rich luminous vermilion shaded golden yellow such as is found in high-colored modern Zinnias. Rich, fruity fragrance. A free and continuous bloomer. (Color illustration, page 83.)

Heinrich Wendland

Each 85c, Doz. \$8.50

Reddish copper. Large, very double flowers of reddish copper with an orange flush over all; backs of the petals are rich orange. This brilliant attractive color blends well with the red and yellow Roses. It has a rich, syrupy fragrance. Blooms come singly on strong, upright plants with shiny, leathery foliage. (Color illustration, page 83.)

Jean Cote

Each \$1.25, Doz. \$12.50

(Plant Patent Applied For.) An opulent and fragrant Rose, large and full to the center, but of gracefully imbricated form. Clear orange-apricot, assuming toward the end an overcast of light carmine. A medium-growing plant producing steadily throughout the season. Flowers come singly and continuously on good stems. The plant is of medium height and branching; a group planting literally blankets the ground. Large glossy foliage. A novelty of high standing.

Joanna Hill

Each 85c, Doz. \$8.50

Invaluable for the garden. The buds are large, long pointed and open to large, full, semi-double, attractive, long lasting, moderately fragrant flowers of a clear yellow with orange-yellow heart. They are borne singly on long strong stems; growth vigorous, upright, a profuse bloomer.

Kaiserin Augusta Victoria

Each 85c, Doz. \$8.50

Soft pearly white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower.

Killarney Queen

Each 85c, Doz. \$8.50

Another Killarney, closer to the original in color but fuller, and stronger in growth. Very free flowering. It is practically immune to mildew, with large flowers and thick petals.

Killarney White

Each 85c, Doz. \$8.50

A duplicate of the charming pink Killarney; flowers white as snow.

Lady Alice Stanley

Each 85c, Doz. \$8.50

A gem that everyone admires; it is absolutely perfect in every way; form, color, size, freedom of bloom and fragrance are fully developed; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh-pink with deeper flushes.

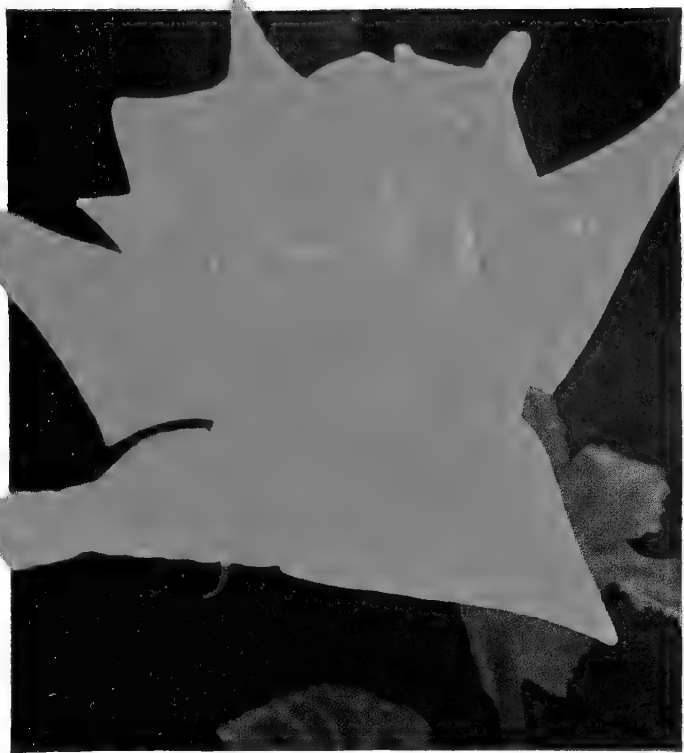

Lily Pons

Each \$1.50, Doz. \$15.00

(Propagation Rights Reserved.) Long-pointed buds open to large, very double, fragrant flowers; the center is deep yellow shading out to palest yellow and white. This Rose is vigorous, has profuse flowers which at times reach exhibition size and shape. It is a bedding Rose well worth acquiring, and, like other Brownell Roses, it will improve with age.

Crimson Glory
(See page 87)

Orange Nassau (See page 92)

Edith Nellie Perkins (See page 87)

One of the choicest of the two-toned Roses
and a fine grower.

**STERLING—The Finest Pink
Rose to Date!**
(See page 92)

Magnificent flowers of superb
form in bud as well as open.
Grows strongly and blooms very
freely in summer, as well as
autumn.

STERLING

Winner of Hubbard Medal—
being:

The best American Rose of
the past five years.

Select a Name

For this lovely New Rose and receive \$100 worth of Flowers, or \$90 in cash

"I would like to name one of your new flowers"

This is the most frequent request made by visitors when being shown through **WAYSIDE GARDENS** and their 300 acres of flowers.

Here is your chance to choose a name for a gorgeous new rose—one of the finest roses ever produced in this country. In so doing, you will be rewarded with \$100 worth of **WAY-SIDE'S** products. Here are the simple rules:

Along with your order for other things, purchase one (and not more than two) of the new "Contest" Roses. There are but 500 of them available and the price is \$2 each. The supply will probably be exhausted within 2 weeks after you read this, so send in your order today, along with the suggested name. This beautiful new rose will not be offered to the general public until months after the contest closes.

The contest closes on midnight April 30, 1942, and your order must be postmarked on or before that date. But the limited supply of roses will be exhausted long before that time, so send your order today.

The decision of the judges will be made known as soon as possible after the close of the contest, at which time participants will be promptly notified of the name of the winner and the name selected for the exquisite new rose.

The judges will be J. N. ("Ding") Darling, nationally-known artist, and two members of the staff of the publication, **BETTER HOMES AND GARDENS**. The contest is open to everyone except the judges, advertising representatives, members of **WAYSIDE GARDENS** and their families.

The award: \$100 worth of our products that you may select from our catalog, or, if you prefer, \$90 in cash.

Your purchase of not more than two of the new "Contest" Roses, along with any amount of other products, makes you eligible. You may suggest a name with your order, or send the name in later, providing the name reaches us before October 1st, 1942. But send your order in NOW. We have but 500 of the new roses, for this Spring, this supply will go very rapidly. Send in your order and the suggested name today.

*And **WAYSIDE** hopes YOU are the lucky person.*

Wayside Gardens

MENTOR, OHIO

McGredy's Ivory

Souv. de Mme. C. Chambard

Signora

Los Angeles

Each 85c, Doz. \$8.50

Very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink, toned with coral and shaded with translucent gold at the base of the petals.

Madame Butterfly

Each 85c, Doz. \$8.50

A symphony of white, bright pink, apricot and gold. Compared with Ophelia, this derivation is fuller-petaled, more prolific and of greater color appeal. The buds are a rich Indian red, yellow at base.

Margaret McGredy

Each 85c, Doz. \$8.50

Large, ovoid buds and double, cupped flowers of solid orange-vermilion. Very prolific. This extraordinary Rose has been widely discussed and tested in this country and found good. (Color illustration, page 83.)

Matador

Each \$1.00, Doz. \$10.00

(Plant Patent No. 170.) In the European shows it was hailed as a great red Rose, and our tests have confirmed the opinion. Large, full, well-formed scarlet-crimson blooms with darker silky sheen on the reverse; very fragrant. Vigorous healthy plant.

McGredy's Ivory

Each \$1.00, Doz. \$10.00

Lovely large flowers of beautiful double form and moderately fragrant. The color is soft delicate creamy white merging into yellow at the base. Vigorous, disease resistant, and a prolific bloomer.

McGredy's Pink

Each \$1.25, Doz. \$12.50

(Plant Patent Applied For.) The color is a beautiful bright Rose, and, as the flower opens, the outer petals shade to a pearly cream and pink, with a saffron-yellow base. Its blooms are large, of perfect form, and sweetly scented. They are produced on stiff stems, free and continuously from early summer to late autumn. The long stems are covered with dark green foliage and few thorns. It is a Rose of considerable merit on account of the model blooms produced in the greatest profusion.

McGredy's Scarlet

Each 85c, Doz. \$8.50

The fragrant, full double flowers are of a good size. They are brilliant scarlet, orange-yellow at base of petals, the upper portions being lightly touched with crimson, varying some in color under changing weather conditions but always beautiful.

McGredy's Sunset

Each \$1.25, Doz. \$12.50

(Plant Patent Applied For.) As glorious as a summer sunset. The petals are a clear buttercup-yellow, tipped orange on the outside, and chrome-yellow, flushed with scarlet on the inside. As the bloom expands the color is intensified and it is at its best when fully opened. Flowers are of medium size, full and shapely, and for a while the petals remain symmetrically curled like a Camellia. They are freely borne on a magnificent bush with dark green foliage. When cut, its fragrance soon diffuses throughout the room and leaves an unmistakable impression of its freshness. Very sun-resistant. Excellent in hot weather. An outstanding Rose and one much commented on. Certain to please garden lovers everywhere.

McGredy's Triumph

Each \$1.25, Doz. \$12.50

(Plant Patent No. 190.) The color-tone is even throughout, reminding one of a brilliant strawberry, blushed scarlet and orange. The flowers are very large, full, and of perfect shape. In addition to the brilliant and unusual coloring of the flowers, the extraordinary freedom, vigor, and habit of growth is something far from the every-day Rose.

Mevrouw G. A. Van Rossem

Each 85c, Doz. \$8.50

A most striking blending of dark vivid orange and apricot on a golden yellow background, frequently with touches of bronze on the reverse of the petals. The sweet-scented flowers are very large, of perfect form both in bud as well as in the fully developed flower.

Miss Rowena Thom

Each 85c, Doz. \$8.50

Enormous buds and blooms of fiery rose and mauve, shaded with old gold at the center, borne on long, strong stems. A profuse, continuous bloomer and a very vigorous plant.

Mme. Cochet-Cochet

Each 85c, Doz. \$8.50

Long-pointed buds of coppery pink, flushed orange, open to four-and-one-half-inch flowers of splendid form of the same color as the bud, except that the orange softens to gold. When open they disclose a mass of golden stamens. As the flower ages the color changes to a soft satiny pink, with an attractive tinge, but does not lose any of its loveliness and is usually clear and fresh at all times.

Mme. Henri Guillot

Each \$1.50, Doz. \$15.00

(Patent No. 337.) Deep pink. The beauty of this Rose is very exciting. It is lovely in both form and color, the large, artistic, urn-shaped buds open to Camellia-like, 20-petaled blooms about 5 inches across, watermelon to raspberry-pink in color. Gold Medal, Bagatelle.

Mme. Jean Gaujard

Each \$1.25, Doz. \$12.50

(Plant Patent Applied For.) The long-pointed bud and high-centered flowers are borne profusely on long stems. When fully opened the blooms are an orange-buff, rich in tone and character. Its half-open buds show the inside of the petals a warm orange and reverse of the petals a carmine-pink with a suffusion of gold at the base. The contrast is rich and alluring. It is disease-resistant, and a most desirable Rose for garden and cutting.

Mme. Joseph Perraud

Each 85c, Doz. \$8.50

Winner of the Bagatelle Gold Medal 1934, and awarded the honor at Lyons, France, of being "the most beautiful Rose in France for the year 1934." The long, slender and pointed nasturtium-orange buds open to sweetly fragrant flowers of a charming nasturtium-buff straying to a lovely shade of shell-pink at the petal edges—the nearest approach to a pure buff, lightened with pink at the petal margins.

Mme. Jules Bouche

Each 85c, Doz. \$8.50

While not a pure white, it is to all intents white and without question the best white everblooming bedding Rose yet introduced. The flowers are large, quite double and of splendid form. It is fragrant, a vigorous grower and very free flowering.

Mrs. Charles Bell

Each 85c, Doz. \$8.50

Lovely shell-pink buds and blooms of fine, globular form, with shadings of soft salmon; sweetly perfumed.

Mrs. Erskine Pembroke Thom

Each 85c, Doz. \$8.50

Slender yellow buds and large, well shaped blooms of bright canary-yellow, deepest in center. Blooms very freely.

Mrs. Francis King

Each 85c, Doz. \$8.50

(Plant Patent No. 153.) A hybrid of Nutkana and related to Leonard Barron, first of that breed. Very large, full Rose, first tinted cream and ivory, eventually turning to white. Something different from the usual Rose.

Mrs. Henry Morse

Each 85c, Doz. \$8.50

A bright flower of two contrasting tones of pink, with an underlying yellow glow; double, high centered; large, moderately fragrant.

Mrs. M. H. Horvath

Each \$1.00, Doz. \$10.00

Habit of growth and color of flower is very much the same as that of Joanna Hill. The flowers are somewhat fuller but better lasting. Clear yellow with orange-yellow heart. Very profuse bloomer. (Color illustration, page 83.)

Mrs. Oliver Ames

Each \$1.50, Doz. \$15.00

(Patent Applied For.) One of the most fragrant of all modern Roses with the sweetness of the old-fashioned Marechal Niel. Of strong upright growth, producing nicely formed flowers of a mellow chrome-yellow color with the tips of the petals somewhat lighter. Beautiful dark green foliage, disease-resistant, and always of good form beginning with the buds and until the petals fall.

Mrs. Pierre S. du Pont

Each 85c, Doz. \$8.50

Medium sized long-pointed bud of a reddish gold opening to a semi-double, cupped, very lasting fragrant flower of a deep golden yellow. The plant is of strong, vigorous, compact growth. A profuse and continuous bloomer. (Color illustration, page 83.)

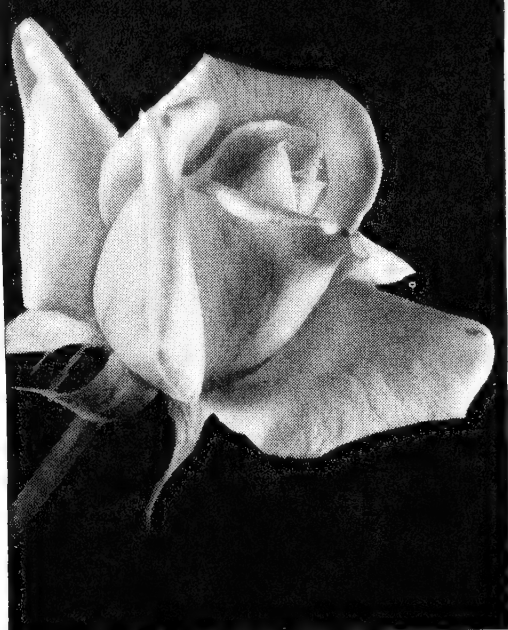

Mrs. Sam McGredy

Each 85c, Doz. \$8.50

Scarlet coppery orange heavily flushed with Lincoln-red on the outside of the petals, and these colors together give a rich and almost dazzling effect. The flowers are of large size and beautiful form. They are very freely produced and delicately perfumed. The plant has a vigorous and exceptionally free habit. (Color illustration, page 83.)

McGredy's Scarlet

Gloaming

Feu Pernet-Ducher

Ophelia

A Rose that is admired by everyone; its flowers are held erect on long stiff stems, are of perfect form, good size and of a most pleasing, delicate tint of salmon-flesh, shaded with rose; very floriferous.

Each 85c, Doz. \$8.50

Orange Nassau

(Plant Patent No. 350.) An exceptionally fine new color but not as tall a grower as we should like to see it. It is the most spectacular Rose of the decade. The color is bright orange on the inside of the petals, whereas the outside is an intense cadmium-yellow that contrasts well with the orange. Well-shaped buds opening into flowers not unlike a Cactus Dahlia in shape. An excellent variety for bordering beds. (Color illustration, page 89.)

Each \$1.50, Doz. \$15.00

Pink Dawn

A beautiful new Hybrid Tea Rose with glorious deep rose buds opening to lovely pink blooms tinted with orange at the base of the petals. Sweetly fragrant, fully double, and of vigorous, upright habit.

Each 85c, Doz. \$8.50

President Herbert Hoover

Large flowers of a very charming combination of cerise-pink, flame, scarlet, and yellow, with broad, thick petals; very fragrant. The clean, handsome foliage is an added attraction. The brilliancy of the color is somewhat dimmed by hot weather, but the cool autumn nights develop tones and tints of almost unbelievable richness.

Each 85c, Doz. \$8.50

President Plumecocq

Coppery yellow, ovoid buds open to large, cupped blooms of coppery buff with an overflow of deep salmon. An upright grower, producing quantities of long-lasting fragrant flowers with 30 petals or more, throughout the entire season. A lovely Rose for cutting, as the blooms come singly on strong, erect stems and last a long time indoors.

Each 85c, Doz. \$8.50

Radiance

An ideal bedding Rose that continues to produce its large flowers throughout the most unfavorable hot weather when frequently many other varieties fail. A brilliant carmine-pink, with salmon-pink and yellow shadings at base of the petals.

Each 85c, Doz. \$8.50

Red Radiance

A counterpart of Radiance from which it is a "sport", possessing all the good traits of that valuable variety but differing in color, which is a bright cerise-red.

Each 85c, Doz. \$8.50

Rev. F. Page-Roberts

Copper-red buds of great length, opening to golden yellow blooms stained outside with red, fully double and very large; fragrant.

Each 85c, Doz. \$8.50

Rex Anderson

(Plant Patent Applied For.) This variety can be described as white with an overcast of ivory, slightly deeper in the center. The large blooms are carried, several together, on strong stems and may be grown to enormous size by disbudding. It has a pleasant perfume. The habit of growth is exceptionally free and vigorous, and the abundant gray-green foliage sets off the flowers to perfection.

Each \$1.25, Doz. \$12.50

R. M. S. Queen Mary

(Plant Patent No. 249.) Salmon-pink. A Rose of charming color and form that blooms almost continuously and produces its long lasting flowers on strong, erect stems. The long buds open to lovely blooms of salmon-pink, suffused with orange. A sensation at 1937 spring flower shows.

Each \$1.25, Doz. \$12.50

Rome Glory

(Plant Patent No. 304.) Extraordinarily robust and hardy plant. Was selected as the official Rose to glorify the third millennium of the founding of Rome, the Eternal City. A red Dame Edith Helen but of larger size and opening well in all weathers. Heavy, ovoid, crimson bud, evolving into a large, very double bloom of superb form. The color graduates to a lighter tint toward the center. Very perfumed. Long stems for cutting. Open blooms have been likened to perfect greenhouse American Beauties. The flowers are long lasting on the plant or when cut, and are not affected by dry or wet weather.

Each \$1.25, Doz. \$12.50

Rouge Mallerin

Scarlet. Pointed buds of brilliant red open to 3 1/2-inch blooms of glowing scarlet, the deep pile on the petals making them look for all the world like pieces of rich scarlet velvet. Rich old damask perfume.

Each \$1.00, Doz. \$10.00

Soeur Therese (Sister Therese)

Long-pointed buds are chrome-yellow, heavily marked with carmine; the open flower is rich daffodil-yellow and holds its color well. Sweet-brier fragrance. The blooms come freely on splendid cutting stems. You can always recognize this Rose from its habit of forming sturdy 3-foot, upright canes which are topped by a "lighted" candelabra of 5 or more burning yellow blooms.

Each 85c, Doz. \$8.50

Souv. de Mme. C. Chambard

The buds are large, long-pointed, coral in color, and unfold to a coral-pink developing a satiny peach sheen which is about the loveliest finish we have ever seen on a Rose petal. Its fragrance is delicious. The plant is free in bloom. Its long stems and perfect form make it a splendid cut flower.

Each \$1.00, Doz. \$10.00

Sir Henry Seagrave

Large, long, well-shaped buds and very large, high-centered, sweet-scented, double flowers of a beautiful deep lemon-yellow with deeper shadings at the base of the petals.

Each 85c, Doz. \$8.50

Signora

(Plant Patent No. 201.) This Rose from the land of sunshine and Chianti wine is a real masterpiece in both plant and bloom. Long bud of a warm burnt sienna, opening to a lighter hue toward mandarin. The plant is tall-growing with every bloom on a long stem. Foliage is handsome. Indispensable to those who grow Roses mainly for cutting.

Each \$1.00, Doz. \$10.00

Sterling

(U. S. Plant Patent No. 21.) A magnificent flaming pink flower of superb form in bud as well as open. The base of the bloom is yellow, giving it a richness as well as clarity of color seldom observed. It has excellent foliage, grows strongly and blooms very freely in summer as well as in autumn. A sterling novelty. Winner of the Hubbard medal. (Color illustration, page 89.)

Each \$1.00, Doz. \$10.00

Talisman

Brilliant red and gold buds, opening to well shaped blooms of scarlet-orange and rich yellow. Constantly in bloom; the most vivid color yet produced in Roses.

Each 85c, Doz. \$8.50

The Chief

(Patent Rights Reserved.) Strong growing plants producing very long urn-shaped buds in shades varying with the weather from carmine through peach to blood-red.

Each \$1.50, Doz. \$15.00

Texas Centennial

(Patent Applied For.) A sport of President Herbert Hoover, having the same wonderful qualities. The color is blood-red, toning to cerise-red in the center. Very unusual.

Each 85c, Doz. \$8.50

Ville de Paris

Round buds of clear yellow and big, globular flowers of the same hue, untouched by any other color. This is one of the really distinct breaks in the new yellow Roses.

Each 85c, Doz. \$8.50

Warrawee

(Plant Patent No. 140.) Shell-pink. Long-pointed, salmon-pink buds open to 4-inch or larger flowers of exquisite shell-pink with a slightly darker reverse. The bloom, when fully open, looks like a glorified Mme. Butterfly. It has the delightful spicy fragrance of the old clove pinks. The plant has all the health, vigor and freedom of bloom of Radiance. The blooms come singly on erect, firm stems, with few thorns, which makes this one of the few shell-pink Roses for cutting.

Each \$1.00, Doz. \$10.00

White Briarcliff

(Plant Patent No. 108.) A supreme white Rose, with the finest form since Bride's Roses have been grown. Vigorous, bushy plant of unusual arcticness. Tremendous producer and ideal for cutting. Keeps a long while in water. It cannot be recommended too highly.

Each \$1.00, Doz. \$10.00

York and Lancaster

This historical Rose is said to have appeared in an English garden soon after the War of the Roses and the historical description said that: "It has irregularly shaped flowers which may be pale red or pure white, or part red and part white. Flowers of these different colorings may, and often do, appear on the bush at the same time." The blooms are richly fragrant with the true Damask scent.

Each \$1.00, Doz. \$10.00

Standard or Tree Roses

Tree Roses can be planted in beds with your other Roses. They occupy little or no ground space. They add greatly to the beauty of any Rose garden, and they can be used with delightful effect along driveways. Our plants are budded on selected, heavy, straight, 3½-ft.

stems, and will bloom all summer and until frost with the regular bush Hybrid Teas. Tree Roses give an added look of distinction to any garden, providing a second dimension.

Charles P. Kilham *Each \$3.50, Doz. \$35.00*
The buds are long pointed, opening to high centered, perfectly formed flowers of rich and brilliant Oriental red, flushed with orange and glowing scarlet.

Etoile de Hollande *Each \$3.50, Doz. \$35.00*
Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; very fragrant. Free flowering.

Golden Emblem *Each \$3.50, Doz. \$35.00*
Invaluable for the garden. The buds are large, long pointed and open to large, full, semi-double, attractive, long lasting, moderately fragrant flowers of a clear yellow with orange-yellow heart. They are borne singly on long strong stems; growth vigorous, upright, a profuse bloomer.

Hinrich Gaede *Each \$3.50, Doz. \$35.00*
Pointed shapely bud of nasturtium-red color, large double flowers of ideal shape of a rich luminous vermilion shaded golden yellow such as is found in high-colored modern Zinnias. Rich fragrance.

Mabelle Stearns *Each \$3.50, Doz. \$35.00*
This Horvath variety lends itself exceptionally well for growing on standards. It is somewhat weeping in habit. Constantly in bloom and harder than any of the Hybrid Tea varieties. See page 104 for further description. (Color illustration, page 106.)

Margaret McGredy *Each \$3.50, Doz. \$35.00*
Large, ovoid buds and double, cupped flowers of solid orange-vermilion. Very prolific. This extraordinary Rose has been widely discussed and tested in this country and found good.

Mme. Jules Bouche *Each \$3.50, Doz. \$35.00*
While not a pure white, it is to all intents white and without question the best white Everblooming Rose yet introduced. The flowers are large, quite double, and of splendid form. It is fragrant, a vigorous grower, and very free flowering.

Mrs. Erskine Pembroke Thom *Each \$3.50, Doz. \$35.00*
Slender yellow buds and large, well shaped blooms of bright canary-yellow, deepest in center. Blooms very freely.

President Herbert Hoover *Each \$3.50, Doz. \$35.00*
Large flowers of a very charming combination of cerise-pink, flame, scarlet, and yellow, with broad, thick petals; very fragrant.

Rose Marie *Each \$3.50, Doz. \$35.00*
Pretty, clear rose-pink, large, cupped, double, fragrant flowers of good shape. Vigorous and profuse flowering. Attractive globular buds.

Sterling (U. S. Plant Patent No. 201) *Each \$3.50, Doz. \$35.00*
A magnificent flaming pink flower of superb form in bud as well as open. The base of the bloom is yellow, giving it a richness as well as clarity of color seldom observed. It has excellent foliage, grows strongly and blooms very freely in summer as well as in autumn. A sterling novelty. (Color illustration, page 89.)

CARE OF TREE ROSES

Plant in spring and stake securely, tying them with strips of rubber or cloth to prevent chafing the stems, and then treat the crown like any Hybrid Tea.

PRUNING: Cut back the crowns of freshly planted Standards to 3 or 4 eyes. Subsequent pruning consists of cutting back the past season's growth to 3 or 4 eyes.

WINTER PROTECTION: Cut the plant away from the stake, then bend the stem slowly till the head rests on the ground. Loosening the roots with a digging fork, on the side opposite from that in which the plant is to be bent, will allow the bending to be done without too much strain. Drive a stake in at the neck and tie securely, then cover the head with soil. Protect stem by wrapping in burlap or paper.

Tree Rose Planted in a Bed of Small Flowering Cluster Roses

Mabelle Stearns Tree Rose with Bush Form Mabelle Stearns Planted at Base

HARDY HYBRID PERPETUAL ROSES

The varieties listed below are unquestionably the best that can be selected in the Hybrid Perpetual class, which, before the development of the Hybrid Teas, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts, and especially so in localities where the hardiness of the Hybrid Tea varieties has not been established.

Frau Karl Druschki *Each 75c, Doz. \$7.50*
This is the ideal hardy white Rose; pure in color, perfect in form, strong grower and remarkably free flowering; superb in every way.

George Arends or Pink Frau Karl Druschki *Each 75c, Doz. \$7.50*
This is a pink form of the popular white Frau Karl Druschki, possessing not only the exquisite form, large size, and remarkable free-flowering habits of its parent, but in addition to this, it is also highly perfumed.

Gloire de Chedane Guinoisseau *Each 75c, Doz. \$7.50*
Excellent globular blooms of a vivid vermilion-red color like blazing embers. This is the modern version of the famous old-fashioned American Beauty Rose.

Mme. Albert Barbier *Each 75c, Doz. \$7.50*
Full, cupped flower of soft fawn-yellow, paling to white, with pinkish shades in the center, blooming throughout the season. A remarkable color for a Hybrid Perpetual, a class in which yellow tints are rare. This Rose has showed up unusually well in color, shape of flower and its habit of constant blooming.

Mrs. John Laing *Each 75c, Doz. \$7.50*
Soft pink, of beautiful form; exceedingly fragrant and remarkably free flowering; always does well and stands very close to the top among Roses.

Paul Neyron *Each 75c, Doz. \$7.50*
Dark pink of enormous size; perhaps the largest of all.

Ulrich Brunner *Each 75c, Doz. \$7.50*
Brilliant scarlet-crimson; an old favorite and one of the best known Roses in cultivation; does well everywhere.

PERPETUAL-FLOWERING BEDDING ROSES

These Roses deserve to be grown far more widely as they flower profusely over an exceptionally long period of time. They are splendid for bedding on account of their compact growth, and they bloom continuously and profusely throughout the spring, summer, and way late into the fall.

Gruss an Aachen *Each 85c, Doz. \$8.50*
A very distinct Polyantha Bedding Rose with showy blooms of bright pink enhanced by a shading of pure salmon.

Pink Charm (Bright Pink Aachen) *Each \$1.00, Doz. \$10.00*
A splendid companion to the preceding variety, as it has the same habit of growth and blooms as freely. The fully double flowers are a lovely shade of deep pink. Gives a particularly fine mass effect in the garden.

Pink Gruss an Aachen *Each 85c, Doz. \$8.50*
This fits well into this splendid class, and provides a richer shade of pink than found in Gruss an Aachen.

White Aachen *Each 85c, Doz. \$8.50*
(Patent Pending.) As a sport of Gruss an Aachen this resembles its parent in every way except that the flowers are pure white when fully opened. The buds show a creamy cast.

Bedding Rose, Gruss an Aachen

Single Hybrid Tea Rose, Dainty Bess

Hybrid Perpetual Rose, Paul Neyron

SINGLE PERPETUAL-FLOWERING HYBRID TEA ROSES

Single Roses have an appeal which enthalls many by their artistic beauty. More and more gardeners include Single Roses for their simple beauty in the garden. Single Roses also lend themselves exceptionally well to cutting and when properly arranged in a suitable container they present a picture, the like of which is not easily obtained with most other flowers. We have selected the most outstanding from every angle.

Cecil *Each \$1.00, Doz. \$10.00*
A very free-flowering Single Rose and the only good yellow in existence. The blooms are a glorious Buttercup-yellow, well displayed by the fine, large, broad petals. Robust growing plants of excellent foliage. When in full bloom are completely covered with flowers.

Dainty Bess *Each 85c, Doz. \$8.50*
An exceedingly charming and daintily colored Single Rose of perfect form. The broad petals are delicate shell-pink which form a beautiful contrast to the conspicuous bunch of crimson stamens. It is always greatly admired for its charm and loveliness, and the blooms last exceptionally long. (Color illustration, page 95.)

Innocence *Each 85c, Doz. \$8.50*
Out of tapering buds come enormous pure white blooms with twelve petals arranged around the center composed of wine-red stamens tipped with golden yellow anthers.

K. of K. (Kitchener of Khartoum) *Each 85c, Doz. \$8.50*
An exceptionally free-flowering variety with brilliant scarlet buds opening to lovely blooms of a glistening scarlet color. Has several rows of petals to a flower. Very effective. Robust growing plants of excellent foliage. When in full bloom are completely covered with flowers.

Shrub Roses

TWO NEW SHRUB ROSES

Lipstick

Each \$1.00, Doz. \$10.00

A "shrub" Rose which will reach a height of 5 to 6 feet. It blooms continuously during the summer, forming large clusters of semi-double flowers. The color is a clear cerise with salmon shadings. This European variety certainly is a most interesting addition. There are so few tall growing Roses; it will be most welcome. (Color illustration, page 95.)

Skyrocket

Each 85c, Doz. \$8.50

A real everblooming Shrub Rose producing enormous flower clusters throughout the entire season. Makes a magnificent display with its large clusters composed of medium-sized brilliant red blooms. Of sturdy, upright habit which makes it most desirable planted either by itself or in combination with various kinds of shrubs. A forerunner of a distinct new race.

GOLDEN ROSE OF CHINA

Rosa Hugonis

Each 85c, Three \$2.25, Doz. \$7.50

A splendid Rose for the shrubby border with delicate yellow single flowers produced on long arching sprays early in May; after it has finished flowering it remains an attractive decorative bush for the balance of the season; perfectly hardy. (Color illustration, page 96.)

AUSTRIAN BRIER ROSES

A very hardy type which will give the best results with very little pruning, since the flowers are produced from the upper end of the old wood. This class is noted for its excellent rich tones of yellow and copper.

Austrian Copper

Each 85c, Doz. \$8.50

Bright coppery red; reverse golden yellow.

Harrison's Yellow

Each 85c, Doz. \$8.50

Fine double golden yellow flowers.

ROSA RUGOSA HYBRIDS

Rugosa Roses are particularly valuable for hardiness, healthiness, and ability to thrive under most adverse conditions of soil and climate, withstanding almost anything.

They are distinguished by erect, very spiny stems, and by their tough, curiously wrinkled or rugose foliage. Particularly valuable for hedges or shrubberies in seashore gardens and regions where the winters are very severe. Many are everblooming.

Some of the Hybrids do not have the true Rugosa foliage, but this does not mean that they are not as hardy. Nothing could be harder than the Grootendorst types, yet their foliage does not appear to have much Rugosa in it.

Those particularly good for hedges are marked with an *.

Planting Distance: Hedges—1½ to 2 feet. Shrubs—3 to 4 feet.

Pruning: Shrub types—cut out old canes and shorten new canes to 4 feet.

Heights: 4 to 5 feet, except where noted.

Agnes

Each 85c, Three \$2.25, Doz. \$7.25

Coppery yellow buds; flowers become pale amber-gold upon opening; sweetly fragrant. Freely produced. Six feet.

Blanc Double de Coubert

Each \$1.00, Doz. \$10.00

It is one of the earliest Roses to bloom, starting to open its semi-double, pure white blossoms in late May and continuing freely until late fall. The exceptionally fine fragrance alone qualifies it as a garden Rose. For hardiness, tolerance and usefulness, Blanc Double de Coubert has no equals. Maximum height 4 to 5 feet. Morton Arboretum, Lisle, Illinois Test Garden Bulletin of July, 1940.

Conrad Ferdinand Meyer

Each 85c, Three \$2.25, Doz. \$7.25

Very large flowers of light silvery pink in profusion. A pillar Rose. Eight to nine feet.

Dr. Eckener

Each 85c, Three \$2.25, Doz. \$7.25

Large, fragrant, semi-double flowers of coppery rose and golden yellow; very fragrant. Really a Hybrid Tea flower on a Rugosa plant. Remontant. Five to six feet.

Dr. E. M. Mills

Each 85c, Three \$2.25, Doz. \$7.25

Flowers small, semi-double, primrose shaded pink, profusely studded on the branches. Shrubby, 3 to 4 feet.

*F. J. Grootendorst

Each 85c, Three \$2.25, Doz. \$7.25

Small, bright red, fringed flowers. Large clusters freely produced throughout the growing season. Four feet.

Hansa

Each 85c, Three \$2.25, Doz. \$7.25

Double, violet-red flowers of large size, freely produced on a strong, typically Rugosa plant. Hardy and dependable.

Mrs. Anthony Waterer

Each 85c, Three \$2.25, Doz. \$7.25

(Waterer, 1898). Very bright, semi-double crimson flowers, fragrant and free. Remontant.

*Rugosa

Each 85c, Three \$2.25, Doz. \$7.25

Large, single flowers in shades of pink, magenta, and rosy crimson. Repeats during the season. Attractive large red berries.

Rosa Hugonis — Golden Rose of China

Shrub Rose, Skyrocket

Hybrid Rugosa Rose, Grootendorst

JAMES L. WEST
3019 Foxhall Road, N. W.
Washington, D. C.

Wayside Gardens Co.
Mentor, Ohio
Gentlemen:

Last fall I ordered from you 154 Hybrid Tea Roses—Charles K. Douglas, Condesa de Sastago, Radiance and Edith Nellie Perkins—and I am happy to report that not only did all of these plants come through the winter but they are progressing splendidly.

I have been buying rose plants from various nurseries for a number of years and I want you to know that the plants you sent me are the very finest in root stock and in vigorous growth that I have ever purchased.

Very truly yours,
JAMES L. WEST

This letter is reproduced with special permission from Mr. West.

Large-Flowered Cluster Roses

ALSO CALLED FLORIBUNDA ROSES

Floribunda Roses or Cluster Roses are a group of Roses especially produced for mass planting. They are noted for their permanence, continuity of bloom, and ease of culture. Their habit of growth is bushy, and their chief characteristic is sturdiness. The plants are winter-hardy, therefore permanent, and bloom continuously in numerous clusters. Flowers are fairly large, vary from single to full double,

and include the entire range of colors of Roses. A distinctive feature is the long-lastingness of the flowers in all weathers. They are best planted closely—about 14 inches apart—in large groups and masses, in beds, so they will blanket the ground. Groups of 3 or 5 of a variety placed in front of the shrub border create a superb color display. They are more effective and just as colorful as tender annuals.

LARGE-FLOWERING CLUSTER ROSES

(Polyantha)

Growing 18 to 24 inches high.

Under this heading are offered the best of the large-flowered Polyanthas. They are in bloom all summer and fall until stopped by frost. For bedding, that is, planting one variety in a bed, they are hard to beat, and are becoming more popular each season.

Eblouissant *Each 85c, Doz. \$8.50*
Glowing dark red flowers of medium size, shaded heavily with velvety crimson. Large, compact trusses, borne on dwarf but robust plants which bloom constantly.

Dagmar Spath *Each \$1.00, Doz. \$10.00*
(White Lafayette.) Pure white flowers produced in showy large trusses all through the summer. It is the best white Polyantha and a true sport of the well known Lafayette.

Fluffy Ruffles *Each 85c, Doz. \$8.50*
Lovely semi-double, silvery pink flowers enhanced with a rich rose color on the reverse.

Improved Lafayette *Each 85c, Doz. \$8.50*
Medium sized, deep glowing red flowers suffused with vivid crimson. Blooms very profusely. (Color illustration, page 96.)

Mrs. R. M. Finch *Each 85c, Doz. \$8.50*
Double, soft rosy pink blooms fully 2 inches in diameter. Has showy large flower clusters.

Orange Triumph *Each \$1.00, Doz. \$10.00*
Magnificent scarlet-orange blooms arranged in enormous clusters which cover the shiny green foliage throughout the whole season.

World's Fair *Each \$1.00, Doz. \$10.00*
(Plant Patent Applied For.) It will furnish a continuous display of color from late spring until frosts stop the performance. Ideal, bushy plants just about hide themselves under clusters of large velvety blooms of blackish scarlet, the fragrant petals surrounding a glowing mass of golden stamens. A very large-flowered Floribunda. A solid bed of World's Fair will give the gardener something to boast about all next winter.

Large-Flowering Cluster Rose, Mrs. R. M. Finch

LARGE-FLOWERING CLUSTER ROSES

(Polyantha)

Growing 24 to 30 inches high.

Here are offered several new Roses outstanding for their ruggedness of growth and great qualities of bloom. They are so outstanding and different we desire to keep them in a class by themselves and will add to this distinct form others which will, no doubt, come along in time to come.

Anne Poulsen *Each 85c, Doz. \$8.50*
(Plant Patent No. 182.) Large, semi-single blooms, brilliant scarlet in tone, with a vivid overcast of crimson. Blooms come in sprays and have a pleasing fragrance.

Betty Prior *Each 85c, Doz. \$8.50*
(Plant Patent Applied For.) An outstanding addition to this new class of Roses, distinctive in its appealing color, its extremely healthy foliage and growth, and its positive continuity of bloom. In early spring the single blooms resemble the flowers of a red dogwood. They are produced in clusters which are followed continuously by other clusters throughout the entire season.

Carillon *Each 85c, Doz. \$8.50*
(Plant Patent No. 136.) The Floribunda par excellence. From time immemorial the Carillon has been a symbol of public rejoicing, cheer, and happiness. This Rose was named Carillon because it is a singing Rose, a Rose which creates a feeling of joy and good cheer. It is never out of tune, and its enchanting melody pervades the garden! The full harmony of this cheery Rose is best obtained by planting in groups. These make a magic carpet of lustrous coral-flame resting on glossy green foliage. The bloom is semi-double but large and fragrant.

Donald Prior (Patent No. 377) *Each 85c, Doz. \$8.50*
An eight-petaled, rich cherry-red Floribunda Rose with flowers about four inches across. The dark green foliage is a splendid foil to the crimson flushed scarlet flowers and when the full trusses come into bloom the effect is very striking and decidedly pleasing. The Rose is never without flowers, sending out many small shoots which terminate in only one or two flowers but which also liven up the bush with their brightness against the green. These, of course, appear between the large bursts of bloom which come very frequently throughout the season. A bright red which won't clash in the garden.

Elsie Poulsen *Each 85c, Doz. \$8.50*
Flowers medium size, semi-double, lasting, bright rose-pink. Continues blooming from summer to late fall. Produced by erect growing, very thrifty plants. (Color illustration, page 96.)

Karen Poulsen *Each 85c, Doz. \$8.50*
(D. T. Poulsen, 1933.) The most brilliant bedding Rose of the Poulsens. Last year was runner-up for the Bagatelle Gold Medal. Bud medium size, globular; flower single, brilliant scarlet; continuous bloomer from June to November.

Permanent Wave *Each 85c, Doz. \$8.50*
(Plant Patent No. 107.) Single blooms of deep rose-pink are 3 inches across and come in bouquets of six or more on a stem. Each broad, firm petal is beautifully waved, thus inspiring the name "Permanent Wave".

Three Spectacular New Large-Flowering Cluster Roses

These three new Polyantha Roses are our choice for mass planting. Though the flowers are produced in the greatest abundance the individual blooms also are of fine large size and excellent for cutting.

Cheerio *Each \$1.00, Doz. \$10.00*
Superb in every respect—a Rose of outstanding merit whether used for mass planting in beds or borders or to give an individual accent here or there in the garden. You will be most pleasantly surprised by the super-abundance of the brilliant double flowers borne in massive yet gracefully arranged flower clusters. The flower petals are clear mallow-pink shading to Tyrian rose at the base with the reverse or outside a luminous rose-madder that creates an effective color balance. (Color illustration, page 96.)

Red Velvet *Each \$1.00, Doz. \$10.00*
A spectacular bedding Rose covered with great masses of urn-shaped buds opening to well rounded blooms with gracefully waved petal edges. The general color effect is that of an intensely vivid crimson lake. The velvety finish of the flowers adds to the beauty and richness of the color. The outside of the flower petals is deep carmine, creating a charming color contrast that heightens the effectiveness of the display. Vigorous and free blooming. (Color illustration, page 96.)

Sunmist *Each \$1.00, Doz. \$10.00*
Graceful, pointed buds opening into large, fluffy, well rounded flowers of a clear light sulphur-yellow shading to mellow canary-yellow toward the base of the petals. Forms imposing large flower clusters. An outstanding bedding Rose that gives a glorious effect particularly if massed in beds or borders. (Color illustration, page 96.)

Small-Flowering Cluster Roses (Polyantha Roses)

SMALL-FLOWERING CLUSTER ROSES

Growing about 12 to 18 inches high.

The Polyantha or Baby Roses are very popular for edging and for bedding purposes. The plants grow into shapely, compact bushes about 12 to 18 inches high and they are covered with a great mass of flowers from early in the season until severe frost destroys their beauty. The blooms, though small, are very effective, as they are arranged in showy trusses that accentuate their rich and beautiful coloring.

Belvedere

Deep crimson. Grows about 1½ feet. Very dark red with blackish shadings. *Each 85c, Doz. \$8.50*

Cameo

A new and distinct color. Shell-pink with salmon suffusion, over which lies a glow of gold. Flowers in large sprays constantly in bloom from June until frost. *Each 85c, Doz. \$8.50*

Chatillon Rose

Bright pink semi-double blooms with an illuminating touch of orange. The color lasts well. The trusses are of gigantic size, and the plant is both healthy and hardy. *Each 85c, Doz. \$8.50*

Susanna Bertsch

A perfectly beautiful new Polyantha Rose. Perhaps the finest to date. A color not seen heretofore in Roses, best described as a soft salmon-shrimp-pink. Very brilliant and sparkling in tone. It is quite new, this being its first year in this country. Only a limited number available. *Each 85c, Doz. \$8.50*

Gloria Mundi

The most brilliant orange-scarlet imaginable. Never fades. Showy, well formed, double flowers produced with the greatest freedom. *Each 85c, Doz. \$8.50*

Small-Flowering Cluster Rose, Golden Salmon

RANUNCULUS-FLOWERED CLUSTER ROSES

Growing 12 to 18 inches high.

This type is noted for its charming clusters of globe-shaped flowers. They resemble bunches of Ranunculus blooms or are not unlike clusters of apple blossoms, but fully double. They look very well mixed in with hardy plants in the border, in front of shrubs, or as an edging to Rose beds.

Carroll Ann

Each \$1.00, Doz. \$10.00

This is one of the best of this new form, and is greatly admired by visitors. The flowers are shaped like Ranunculus blooms, an entirely new form in Roses. The incurving petals produce perfectly charming globe-shaped flowers which grow in large clusters. The color is salmon-orange and does not discolor or fade in the hottest sun. Plants of medium height and excellent for edgings. (Color illustration, page 95.)

Margo Koster

Each \$2.00, Doz. \$20.00

Dominant color of this lovely ranunculus-shaped flower is salmon with rich shadings of orange and pink. The small globe-shaped blooms occur in large clusters and are semi-double. The plant grows not over 18 inches high and therefore is a very fine variety to be used as an edging around Hybrid Tea Rose beds.

The Miniature Rose, Oakington Ruby

MINIATURE ALPINE ROSES

Rouletti

Each 50c, Three \$1.10, Doz. \$3.30, 100 \$20.00

Miniature Rose. Probably one of the old Lawrenceana Roses popular a century or more ago. After being lost to cultivation for many years, a plant was found growing in an Alpine window-garden by M. Correvon, the Swiss rock garden authority, just a few years ago. It is rapidly attaining popularity as a rock garden "gem" and as an edging plant in front of Rose beds. The plant grows about 6 inches tall in bushy form, is healthy and hardy and blooms from early summer until frost. The tiny, rose-pink, quite double flowers are less than an inch in diameter. (Color illustration, page 95.)

Oakington Ruby

Each 50c, Three \$1.10, Doz. \$3.30, 100 \$20.00

Received an Award of Merit from the English Royal Horticultural Society in 1934, and has proved to be one of the most popular additions to Alpine plants for some years. It is a real dwarf Rose, and in ordinary soils will not attain a height of more than 12 inches. The flowers are fully double, deep crimson in the bud, opening to rich ruby-carmine often 1½ inches in diameter. It is very free-flowering, commencing in May and continuing until late autumn. It is quite hardy, and will grow in almost any soil, but prefers sun.

Tom Thumb (Patented)

Each 75c, Doz. \$7.50

A miniature Polyantha Rose, flowers the size of a quarter, bright red with paler center; an outstanding novelty that never fails to attract attention.

Pumila

Each 50c, Three \$1.10, Doz. \$3.30, 100 \$20.00

Double rose-pink flowers about twice as large as Rouletti. Noted for its freedom of bloom.

Doncaster's Variety

Each 50c, Three \$1.10, Doz. \$3.30, 100 \$20.00

Somewhat larger in growth, and flowers a deeper pink than Rouletti. This also makes a nice small plant in the rock garden and is good, like all others, for low edgings.

Cecile Brunner, Shown Life Size

SWEETHEART ROSES

Cecile Brunner (Sweetheart Rose)

Each \$1.00, Doz. \$10.00

A dainty variety with small double blooms of perfect form. They are arranged in many-flowered, graceful sprays. Soft rosy pink on a rich creamy white ground. Moderately fragrant. (Color illustration, page 95.)

Topaz (Yellow Sweetheart Rose)

Each \$1.25, Three \$3.15

(Plant Patent No. 300.) New. Exquisitely formed sulphur-yellow buds open to starry, 60-petaled blooms that do not fade white.

**Grow Extra Fine Roses with
Wayside Garden Plant Food**

Page 190 Tells How!

Paul's Scarlet Climber

Climbing Rose, Mme. Gregoire Staechelin
Rosa Damascena, York and Lancaster

Climbing Roses

Climbing Roses require no pruning in the spring beyond cutting out of very old or dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season.

We offer on this page a selection of the most modern Hardy Climbing and Rambler Roses.

American Pillar *Each 85c, Doz. \$8.50*

A single-flowering variety of great beauty. The flowers are of large size, 3 to 4 inches across, of a lovely shade of pink, with a clear white eye and clusters of yellow stamens, and are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten.

Blaze *Each \$1.00, Doz. \$10.00*

(U. S. Plant Patent No. 10.) Hardy everblooming Climbing Rose which inherits the blazing color of Paul's Scarlet Climber and the everblooming habit of Gruss an Teplitz, thus combining the most attractive features of both its parents. It is a very vigorous climbing variety which will grow to considerable height.

Chaplin's Pink Climber *Each 85c, Doz. \$8.50*

It is a cross between Paul's Scarlet and American Pillar, and like its parents is of vigorous growth, perfectly hardy, producing its large flowers, similar in size and form to Paul's Scarlet, profusely in strong trusses of from 8 to 12 flowers each, but in color a rich lively pink.

Climbing American Beauty *Each 85c, Doz. \$8.50*

A strong, healthy, vigorous grower, frequently making shoots from 10 to 12 feet long, and good sized flowers for a climbing Rose that blooms so freely. Color a pleasing American-Beauty-red; of splendid form, good substance.

Dorothy Perkins *Each 85c, Doz. \$8.50*

Soft shell-pink; flowering profusely in large clusters. Very fragrant and lasting. A grand Rose in every way.

Dr. W. Van Fleet *Each 85c, Doz. \$8.50*

A Rose which, on account of its dainty color and exquisitely shaped buds and flowers, appeals to everyone. The long, pointed buds are of a rich flesh-pink on stems 12 to 18 inches long. Splendid for cutting.

Easlea's Golden Rambler *Each \$1.00, Doz. \$10.00*

(U. S. Plant Patent No. 114.) A new outstanding Climbing Rose from England, producing its comparatively large double rich golden flowers in large trusses. An additional quality is a delicious fragrance. Gold Medal, Royal Horticultural Society, July, 1932. Awarded the Cory cup as the best new seedling climber or rambler Rose of British origin introduced in 1932.

Elegance *Each \$1.50, Doz. \$15.00*

Early. Straw-yellow. This vigorous-growing Climbing Rose produces very large, full blooms, sometimes 6 inches across, with recurved petals. The inner petals are spectrum-yellow and outer ones shade to cream-white. As the fragrant blooms develop, the inside yellow intensifies. Foliage is large, dark lustrous green in color and disease-resistant.

Flower of Fairfield *Each 85c, Doz. \$8.50*

Also called the "Everblooming Crimson Rambler". Combines the beauty of the well-known Crimson Rambler with the continuous-blooming habit, the new growth bearing large clusters of crimson blooms through the summer continuously.

Mary Wallace *Each 85c, Doz. \$8.50*

A Pillar Rose, making a fine, strong, self-supporting plant 6 to 8 feet high, with large, glossy foliage, blooming with great freedom in spring and bearing a large number of fine buds in summer and fall. Flowers very large, generally exceeding 4 inches across; well formed, semi-double, of a bright, clear rose-pink with salmon base.

Mme. Gregoire Staechelin *Each 85c, Doz. \$8.50*

The plant is of strong climbing habit, growing 12 feet or more high and has large, disease-resistant foliage. At the tips, the long pointed buds are crimson at first as the petals divide, then the firm outer petals show splashes of carmine as the flower opens with an iridescent pearl-pink inside. Very fragrant.

New Dawn *Each \$1.50, Doz. \$15.00*

(U. S. Plant Patent No. 1.) (Everblooming Dr. W. Van Fleet.) Identical in every way with its parent in size and formation of its flowers, color, etc., but blooms continuously throughout the summer and fall.

Paul's Scarlet Climber *Each 85c, Doz. \$8.50*

Flowers are semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes. It is of strong climbing habit and perfectly hardy. One of the most popular of Climbing Roses.

Silver Moon *Each 85c, Doz. \$8.50*

Beautiful semi-double flowers, 4½ inches and over in diameter, pure white in color; petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness.

TRAILING ROSES

Max Graf *Each 85c, Doz. \$8.50*

A splendid trailing, pillar, or climbing Rose with large single bright pink flowers having prettily crimped petal edges. Fine for planting on steep banks or for trailing over a stone wall.

Wichuraiana (Memorial Rose) *Each 85c, Doz. \$8.50*

Fragrant, single, pure white flowers with yellow stamens followed in the fall by bright red hips or berries. It has dense evergreen foliage.

ROSA DAMASCENA

The Damask Roses are very hardy and make robust growth, clothed with large, rough, light green leaves. Their flowers are very freely produced and are generally borne in trusses of three or more. The fame of their powerful fragrance is second only to that of the Cabbage and the Moss Roses.

York and Lancaster *Each \$1.00, Doz. \$10.00*

This historical Rose is said to have appeared in an English garden soon after the War of the Roses and the historical description said that "It has irregularly shaped flowers which may be pale red or pure white, or part red and part white. Flowers of these different colorings may, and often do, appear on the bush at the same time." The blooms are richly fragrant with the true Damask scent.

A Message from M. H. Horvath

My interest was early given to the development of better hardy climbing Roses. In 1892 I obtained the first hybrid with the Rosa Wichuraiana of Japan, thus beginning the modern strain of large-flowered hardy climbing Roses. In 1897 I exhibited 14 new varieties at the first show held by the American Rose Society in the famous Eden Musée of New York City. These were seen and admired by many rosarians, with the result that many similar hybrids were made.

The continuous inbreeding in the attempt to get larger size and brighter color into the Wichuraiana strain weakened it to the point where most of the varieties failed in winter hardiness. Naturally there resulted a demand for hardier and more sturdy Roses in varieties which would not require pampering but which, with reasonable care, would live through most winters without loss.

Responding to this need, my new Rose originations cover the full range of colors, and many of these new climbing Roses have flowers as large and fine as any existing Hybrid Tea. Further, as Dooryard or Hedge Roses there has resulted a form and shape of plant not hitherto seen. See Mabelle Stearns, page 102. These results were accomplished through painstaking and eventually successful experiments in the introduction of other species strains not previously used.

I am working still further to augment these qualities so that Roses may be wintered over successfully even in the far North.

It has been arranged to have The Wayside Gardens Company introduce and disseminate these new Roses of my origination. Several dozens of new creations are under test, but only those of decided merit will be marketed. The varieties offered this year, each one well worth while in itself, form, I believe, the beginning of a new and most valuable strain of Roses. They will be offered under the designation of "Horvath's Setigera and Xanthina Hybrids."

Respectfully yours,
M. H. HORVATH

HOLM & OLSON, Incorporated
Landscape Architects

Wayside Gardens,
Mentor, Ohio
Gentlemen:

Having tried the Rose "Mabelle Stearns" for two years it is a pleasure to inform you that this variety has made strong, healthy growth, free of black spot all season and was in bloom continuously till frost. It appears to be the coming type of Rose as the foliage is clean at all times, and flowering constantly.

Yours very truly,
HOLM & OLSON, Inc.
C. A. Mathes

Doubloons (U. S. Plant Patent No. 152)

LARGE-FLOWERED YELLOW CLIMBER
ROSA SETIGERA HYBRID by HORVATH

A vigorous climber with heavy wood and handsome, glossy foliage. When in bloom the whole plant is literally covered with clusters of large, golden blooms. Buds ovoid, deep saffron-yellow, flower large, double, cupped; rich gold, fading but little; fragrant. Gives two liberal crops six weeks apart if the first spring blooms have not been cut. We consider this the best hardy yellow climber.

Each \$1.50, Doz. \$15.00

Horvath Climbing Rose, Federation

Federation

(U. S. Plant
Patent No. 287)

CLIMBING ROSA SETIGERA HYBRID by HORVATH

Color of Flower: Lively, brilliant and sparkling rose-pink with lighter center, iridescent orange undertone. Flowers are produced in very large quantities in bracts on stems 12 to 24 inches long; individual blooms 3½ inches in diameter. Petals wavy and crested, forming charming cup-like, semi-double flowers which have from 24 to 36 petals. Excellent for cutting. Very sweetly scented. (Color illustration, page 105.)

Foliage: Rich green, quite dark. We have never seen black spot or mildew on this variety in our test garden for four years. Would say absolutely mildew proof.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

Size of Plant: Ultimate height 12 to 14 feet. Canes are very plentiful which is in part responsible for the tremendous amount of flowers produced. *Each \$1.50, Doz. \$15.00*

[102]

Meda (U. S. Plant Patent Applied For)

LARGE-FLOWERED SHRIMP-PINK CLIMBER

ROSA SETIGERA HYBRID by HORVATH

(Color illustration, page 105.)

Color of Flower: The outer petals are a beautiful pale buff-shrimp-pink, increasing in intensity to a deeper and richer shading towards the center, until a beautiful tone of carmine-pink has been reached. The petals are imbricated and artistically formed, resembling dozens of shining seashells, shaping the flower into the perfect form of a Hybrid Tea Rose. The flowers occur singly or in clusters of three on side laterals which are 10 to 12 inches long, a perfect length for cutting. The buds are perfectly formed and open into flowers with high centers. The size of the flowers when fully open measure 3½ to 4 inches across. The substance of the flower petals is astounding, it seems impossible to crush them. They withstand adverse weather, high winds without any damage, unlike anything yet produced in Roses. Last, but not least, the fragrance of this variety is delightful, almost spicy and very intense.

Foliage: The leaves are of leathery texture, colored deep bottle-green and practically immune to black spot, mildew, or other Rose maladies.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in the colder regions.

Size of Plant: Ultimate height about 10 to 12 feet. Stems are heavy and cane-like, requiring not much of any support. Climbing Rose Meda can be grown to resemble a huge Rose bush, simply by cutting back the stiff branches to three, four or five feet, or whatever size bush is desired. Try growing it flat against the wall of your house or other buildings. It will resemble closely the trained trees of the old world. *Each \$2.00, Doz. \$20.00*

Horvath Climbing Rose, Meda (See page 105)

Hercules (U. S. Plant Patent No. 296)

GIANT DEEP PINK CLIMBER ROSA SETIGERA HYBRID by HORVATH

Color of Flower: Clear, deep rose-pink of same shade as Dame Edith Helen. The flowers are huge, fully 5 to 6 inches across when fully open. Slow in opening, lasting a long time. The flowers, though large, are refined and equal the finest Hybrid Tea Rose. Flowers are produced abundantly on spur branches both on main stalk and laterals 1 to 2 feet long. They are stiff and bear their heavy load without bending. Flowers do not droop, having a very stiff neck, and have from 50 to 55 petals. The appearance of the plant is one of noble ruggedness. Without a doubt the finest pink large-flowered climber to date. (Color illustration, page 106.)

Foliage: The rich, shining, bronzy green leaves are larger than those of the Mahonia or Oregon Grape and are ornamental in themselves.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

Size of Plant: Ultimate height 14 to 15 feet.

Each \$2.00, Doz. \$20.00

Polaris (U. S. Plant Patent No. 386)

FRAGRANT WHITE CLIMBER WICHURAIANA-MULTIFLORA HYBRID by HORVATH

A very hardy climber of robust growth. Disease resistant and exceedingly free blooming. The pure white individual flowers are often 2 inches in diameter and occur in large clusters. It is especially valuable where purity as well as profusion of bloom is essential. In addition we believe it to be the most fragrant of the Climbing Roses. The foliage is light and shiny green. It sparkles in sunlight and is ornamental in itself throughout the summer, blending perfectly with the pure white flowers. During its test period we have never seen any signs of black spot or mildew. Unquestionably one of the best hardy white Climbing Roses. (Color illustration, page 106.)

Each \$2.00, Doz. \$20.00

Horvath Climbing Rose, Polaris

Horvath Climbing Rose, Hercules

Chor (U. S. Plant Patent No. 387)

GIANT SCARLET CLIMBER ROSA XANTHINA HYBRID by HORVATH

(Color illustration, page 105)

Color of Flower: Brilliant scarlet-red of the same shade as Crimson Glory. The flowers are perfectly formed, very slow in opening and when fully open, 4 to 5 inches across. The flowers, although large, are perfectly shaped and just as handsome as those of a Hybrid Tea Rose. Flowers are produced abundantly on spur branches 12 to 18 inches long, which are stiff, holding the flowers in perfect position. Flowers have from 55 to 60 petals, do not discolor when fully open. Without any question of doubt, the finest scarlet Climbing Rose yet introduced. Horvath claims this to be the finest creation to date.

Foliage: Rich bottle-green, quite abundant. No mildew or black spot in our test garden for three years.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in colder regions.

Size of Plant: Ultimate height about 8 to 10 feet. Canes are very plentiful, not overly thorny.

Each \$2.50, Doz. \$25.00

Only a limited number available for this spring. Orders filed in rotation as received. Late orders will be filled in autumn.

{103}

Mercurius

Buff King (Rights Reserved)

LARGE-FLOWERED HORVATH SETIGERA HYBRID

(Color illustration, page 105.)

Color of Flower: Amber and buff shadings, difficult to describe. Buds ovoid, deep amber colored, opening into large cup-shaped flowers which are produced on spur branches both on main stock and laterals, 12 to 15 inches long. This is the amber colored form of Doubloons.

Foliage: Glaucous green and healthy. Seldom affected by black spot or other Rose maladies.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

Size of Plant: Ultimate height 10 to 12 feet. Canes are very plentiful which is in part responsible for the tremendous amount of flowers produced.

Each \$2.00, Doz. \$20.00

Mercurius (U. S. Plant Patent No. 385)

LARGE-FLOWERED APRICOT-PINK CLIMBER BY HORVATH

(Color illustration, page 106.)

Color of Flower: Sparkling two-toned apricot and coral-pink cup-shaped flowers which open slowly and do not fade. When fully open they measure 4 to 5 inches across. The flowers and buds are as handsome as any Hybrid Tea Rose. Flowers are produced abundantly on spur branches both on main stalk and laterals 1 to 2 feet long. They are stiff, bearing their flowers without bending. Again we claim this variety to be "tops" in this particular color range. Referred to by visitors as perfectly beautiful.

Foliage: The leaves are shiny and large, abundantly produced. In the four years of testing we have seen no black spot or mildew.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in the colder regions.

Size of Plant: Ultimate height about 7 to 9 feet.

Each \$2.50, Doz. \$25.00

Buff King

Mabelle Stearns (U. S. Plant Patent No. 297)

PERPETUAL FLOWERING DOORYARD ROSE

A ROSA SETIGERA HYBRID by HORVATH

Color of Flower: Peach-blossom-pink with silvery reflexed, sharply recurving imbricated petals, center showing a lovely orange undertone. Flowers in panicles. Persistent grower and bloomer. Flowering period starting in June, lasting until frost; starts blooming about two weeks later than Hybrid Tea Roses, but is never without flowers the entire summer and fall. Flowers excellent for cutting and decorative work, are fully double, having from 50 to 60 petals, and are delightfully fragrant, lasting a week to ten days in water when cut. Exceptionally valuable as a flower for cutting.

Foliage: Bottle-green, rich and clean. Strong resistance to ordinary Rose maladies.

Hardiness: Hardy without protection in the Temperate Zone. Can be successfully grown with protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

Size of Plant: Ultimate height about 2 feet, spreading from 6 to 8 feet or more if permitted. It is a decumbent, spreading, matlike plant, making it pre-eminently fit for ground covering, low beds or as bold edging to drives.

Each \$2.00, Doz. \$20.00

(Color illustration, page 106)

Cactus and Decorative Dahlias

The American Dahlia Society has adopted a classification of all Dahlias according to the formation of the flowers, and after each name we give a key showing the class to which the variety belongs. Thus: F. D.—Formal Decorative; I. D.—Informal Decorative; C.—Cactus; S. C.—Semi-Cactus; St. C.—Straight Cactus.

Alice Green. (I. D.) *Each 25c*
Beautiful rich golden bronzy buff, one of the very largest Dahlias grown, flowers from 7 to 10 inches in diameter, and 4 to 6 inches thick, making a tremendous flower. Stems very strong and stiff, making it ideal for cutting and decorative purposes, as well as one of the largest and best for exhibition.

Ambassador. (C.) *Each 60c*
An outstanding Dahlia at many of the Dahlia exhibitions, and considered by many as being one of the best and most artistic of recent Dahlia introductions. Its color is, perhaps, best described as a soft yellow at the center, with salmon, amber, and pink shadings, gradually deepening towards the tips. The flowers are of largest size and are set just right on perfect stems. A strong grower and free bloomer.

Amelia Earhart. (S. C.) *Each 60c*
Apricot-buff, with salmon tints, shading to soft yellow at bases of petals; exceptionally large blooms on good stems.

Andreas Hofer. (C.) *Each 50c*
One of the loveliest colors in the Dahlia world, without question the finest of the pink Cactus Dahlias in existence. In color, the sweetest shade of rich bright pink, blending to sulphur-yellow at the center. Stems are long and stiff, making it ideal for cutting and decorative purposes. A splendid keeper when cut, and one that lends itself beautifully to arrangement in baskets and floral arrangements generally. Recommended very highly for all commercial purposes.

Ann Benedict. (I. D.) *Each 40c*
This variety is the most satisfactory dark red we have grown. The color is a deep rich garnet with black shadings. Certified at Storrs with high score of 86.6.

Ballego's Glory. (F. D.) *Each 60c*
Of compact growth and very vigorous. The flowers are a beautiful combination of scarlet and gold.

California Idol. (I. D.) *Each 60c*
A clear, bright self-colored yellow that ranks in size with the largest. It may be grown to measure 14 inches or more across, with a corresponding depth, and yet is an extremely refined flower in every sense. This variety has proved to be all that was anticipated when grown in the open field.

Classic. (I. D.) *Each 60c*
This Dahlia, although classed as an Informal is inclined to be Formal at times. Blooms are uniform, large and artistic on long, strong, erect stems. Flesh-pink with lighter shadings.

City of Trenton. (I. D.) *Each 30c*
A beautiful autumn tint of bronzy red shaded with salmon. The plants are strong and vigorous.

Countess of Lonsdale. (C.) *Each 40c*
This favorite from England has always been one of the most popular for cut flower and decorative purposes. Most abundant blooms.

Dahlidel Gold. (F. D.) *Each 60c*
Monstrous flowers often measuring 11 inches in diameter; a beautiful golden yellow shaded darker in the center and with light coral-red suffusion.

Dorcas Ann. (S. C.) *Each 60c*
A Dahlia you will enjoy for its sheer beauty rather than size. This Dahlia is adapted to home decorations, general florist's use, basket and arrangement classes in the show room, as it is a beautiful rose-pink shading to creamy white at center. Bush, healthy and robust; stems always erect and flowering habit ideal.

Dwight W. Morrow. (I. D.) *Each 60c*
Gigantic deep red informal decorative. A healthy grower with heavy foliage that matches the splendid, large massive flowers.

Edna Ferber. (S. C.) *Each 50c*
Glistening gold shading to rose-gold at the base of the petals. Always very much admired for its size and color.

Elite Glory. (F. D.) *Each 30c*
Very large blooms of glossy, brilliant red color.

Forest Fire. (I. D.) *Each 50c*
One of the most spectacular Dahlias introduced in years. Flowers of an unusually artistic form, lemon-yellow at base of petals, heavily tipped rich scarlet and enhanced with yellow petaloids. Bush is sturdy and strong, with leathery, insect-resistant foliage.

Fort Monmouth. (I. D.) *Each 50c*
One of the giants of the Dahlia world. In color it is a rich crimson-maroon, with a faint tint of bluish violet at tips of petals. An immense flower, frequently 13 inches in diameter, and borne on long, strong stems, well above the foliage. Excellent Dahlia for exhibition.

Francis Larocco. (F. D.) *Each 25c*
One of the finest yellow decorative Dahlias with large deep flowers on long stems.

Golden Sonne. (St. C.) *Each 60c*
This is one of the best yellow commercial Cactus Dahlias grown. Color clear golden yellow, shading to soft salmon-rose in the outside petals.

Golden Standard. (C.) *Each 40c*
A warm buff shaded amber and gold. Very pleasing in form with full centers and evenly arranged petals. Stem holds flower facing at right angles, which shows up well in the garden.

Graf Zeppelin. (F. D.) *Each 30c*
Large, pure white flowers on fine long stems reaching 3 feet or more.

Hunt's Velvet Wonder. (I. D.) *Each 60c*
Deep rosy magenta, blending to true purple. Large, broad-petaled blooms, full centers, and of great depth. Winner of American Home Achievement Medal in New York.

Dahlidel Gold (F. D.)

Countess of Lonsdale (C.)

- Ida Perkins.** (F. D.) *Each 50c*
Showy, large, fully double blooms of a magnificent pure white.
- Jane Cowl.** (I. D.) *Each 25c*
A strikingly beautiful Dahlia presenting a blend of bronze, buff, and brilliant gold.
- Jean Trimbee.** (S. C.) *Each 60c*
Massive, yet artistic, with long, revolute petals that curl and twist. The color is beautiful petunia-violet, making it popular as an exhibition Dahlia. A tall, vigorous grower with long, erect stems.
- Jersey's Beacon.** (F. D.) *Each 25c*
Of enormous size and carried on elegant long and strong stems. Chinese scarlet with a lighter reverse.
- Jersey's Beauty.** (F. D.) *Each 25c*
There are many who consider this the very finest Dahlia ever introduced. The flowers are large and well formed. They are borne on elegant, long stems carried on stately, vigorous plants. The color is a lovely pink with a shading of chamois. It should be in every garden.
- Jersey's Dainty.** (C.) *Each 60c*
A truly dainty white variety faintly tinged lavender, almost pure white late in the season. Blooms 7 inches across and 3 inches deep. A prolific bloomer, with long, straight stems and dark healthy foliage; bush 5 feet in height.
- Kathleen Norris.** (I. D.) *Each 50c*
Blooms of gigantic size and splendid proportions. A showy, true rose-pink, shading to coral-pink when fully open.
- Kemp's Violet Wonder.** (I. D.) *Each 60c*
A sport of Jersey's Beauty, and of the same splendid habit. The large blooms are light salmon-orange, shading to grenadin-orange.
- Kentucky.** (F. D.) *Each 25c*
A sport of Jersey's Beauty, and of the same splendid habit. The large blooms are light salmon-orange, shading to grenadin-orange.
- Kentucky Red.** (I. D.) *Each 60c*
One of the brightest Dahlias. Color is flaming scarlet which does not fade.
- Lord of Autumn.** (I. D.) *Each 60c*
One of the greatest clear yellow exhibition Dahlias. Flowers attain a wonderful size and depth, with long, pointed, and twisted petals. A good strong grower.
- Milton J. Cross.** (I. D.) *Each 40c*
Beautiful apricot-peach with a bright golden face. The flowers attain a size of 12 inches across by 8 inches in depth, and are held well above the foliage by long, strong stems.
- Miss Belgium.** (C.) *Each 60c*
Blooms early and continuously on long, wiry stems. Keeps well and is very useful for small baskets and arrangements as it is airy in form and popular in color which is an even shade of bright orange. Effective with other flowers.
- Miss Elsie Jane.** (S. C.) *Each 60c*
This variety is continuing to win on the exhibition table, especially in the basket and arrangement classes, as it is just about the most artistically formed Dahlia we have ever seen. In color, too, it is unique, being shrimp-pink with cream shadings at center and tipped violet-rose, a fine and useful color combination. We heartily recommend it for sheer beauty.
- Mrs. George Le Boutellier.** (I. D.) *Each 60c*
Rich velvety carmine blooms, giant in size and outstanding in every way. Healthy, vigorous grower and winner of many prizes.
- Mrs. I. de Ver Warner.** (F. D.) *Each 25c*
A superb shade of mauve-pink. Beautiful, large, well-shaped blooms carried on elegant, long, strong stems.
- Myra Howard.** (I. D.) *Each 50c*
The color is a glowing combination of yellow, cadmium and gold with tints of salmon, the entire effect being ochreous orange. Throughout the deep flower are petaloids, which give it distinction in both form and color. A wonderful plant and a thrifty grower, producing giant blooms freely on long, strong stems.

Single Dahlia

- Paul Pfitzer.** (S. D.) *Each 60c*
A novelty that has won a name for itself in arrangement classes, baskets, and for general florist's use. It is a pleasing combination of sulphur-yellow and lilac-rose. Strong, vigorous plants with dark foliage and excellent stems. A wonderful cut flower.
- Radio.** (F. D.) *Each 25c*
One of the very largest Dahlias grown, producing flowers from 7 to 10 inches in diameter, under ordinary garden conditions, without feeding or extra forcing with liquid manure. A phenomenal Dahlia of deep "American Beauty"-red, blending to yellow at the center, and with yellow at its tips. Very vigorous grower.
- Red Jug.** (S. C.) *Each 50c*
At times almost a true cactus, this striking brilliant crimson-carmine has wonderful keeping qualities. The stems are stiff and hold the flowers facing, and foliage is insect-resistant. Certificate at Storrs.
- Satan.** (S. C.) *Each 60c*
Flaming red with a slight touch of gold at the center. The fascinating color, together with the hornlike, perfectly rolled and uncurved petals, makes this a most attractive variety.
- Son of Satan.** (S. C.) *Each 60c*
This is an improvement over Satan as it is a bright scarlet and has stronger stems. Although the petals revolute sufficiently to bring it into the Incurred Cactus Class, under varied conditions it will develop into a Semi-Cactus. Blooms 11 by 5 inches.
- Sport.** (I. C.) *Each 50c*
Deep buttercup-yellow, buff shadings at center. A charming flower for cutting.
- Sultan of Hillcrest.** (F. D.) *Each 40c*
Unique form, with petals recurving to the stem. Huge blooms of lemon-yellow with reverse rosy pink, giving an unusual color effect.
- The World.** (F. D.) *Each 30c*
The blooms are unusually rich, deep rosy magenta, overlaid with scarlet and shaded with silver on the edges.
- Sunrays.** (I. D.) *Each 90c*
A Dahlia, that is quite spectacular on the show table. Color, clear buff with apricot suffusion, with a rather distinct peach-red on reverse petals. This variety has won several prizes.
- Thomas A. Edison.** (F. D.) *Each 50c*
Beautiful royal purple blooms of staghorn petal formation. This was named for the famous electrical wizard with his full approval.
- Treasure Island.** (F. D.) *Each 40c*
A striking Dahlia of beautiful large size and of exquisite petal formation. The color is bright apricot shaded with gold.
- White Wonder.** (I. D.) *Each 30c*
The greatest white Dahlia in this class. The blooms are perfect in every respect.
- Yankee King.** (F. D.) *Each 25c*
This mammoth creation possesses a very rare and unusual color, difficult to describe, yet most pleasing. A reddish mahogany shade, or it might be called a terra-cotta-bronze. Flowers 7 to 10 inches in diameter, and produced on unusually long stems, as stiff as cane.
- Mixed Dahlias** *Three 60c, Doz. \$2.00, 100 \$12.00*
This mixture is made up of all kinds and types. Labels are lost frequently of the best sorts. All are put into this mixture.

CACTUS AND DECORATIVE DAHLIAS

Our Selection

If you want a nice variety of Dahlias in good garden and cut flower sorts, leave the selection to us. We offer a special assortment of choice Decorative and Cactus Dahlias, each variety individually labeled.

1 each 5 varieties, 75c
1 each 10 varieties, \$1.25

COLLARETTE DAHLIAS

- Mitzi** *Each 50c*
Color crimson-carmine shading to primrose-yellow at center and edged white. Bushes branch and bloom freely, stems erect. Flowers keep well on bush or when cut. A robust grower.

POMPON DAHLIAS

Pompon Dahlias have been favorites with many flower lovers and Dahlia fanciers in the past and they still hold their own. And, true enough, these smallest of all Dahlias combine so many pleasant features that they justly deserve a place in every garden. They grow so freely and require so little care after planting, and still, they bring forth a wealth of bloom, rewarding the owner with an endless supply of gorgeous cut flowers all during the late summer and fall.

- A. D. Livoni** *Each 20c*
A favorite old-time, quilled bright shell-pink Ball Dahlia, very free flowering, ideal for cutting.
- Amber Queen** *Each 20c*
Attractive, well-formed, button-like blooms of amber shaded apricot. They are borne on wiry stems and well displayed above the dark green foliage.
- Belle of Springfield** *Each 25c*
Very small, round, long-stemmed blooms of a rich, red color. Of compact growth, and blooming most profusely.
- Betty Anne** *Each 30c*
Color, soft rose-pink, inclined to violet-rose. Blooms are small, uniform in size and form. Bush healthy and vigorous. Name the five best Poms to date and Betty Anne cannot be left out. A consistent prize winner and a real beauty.
- Betty Malone** *Each 60c*
One of the most outstanding of all Pompons. Among its winnings are five awards of the A. D. S. Show in New York, the best Pom in the Seeding class at Camden, and three First Awards at other shows. A clean-cut variety that produces a mass of blooms perfect for exhibiting. Color, white distinctly and evenly tipped violet-purple. Stems perfect.
- Bob White** *Each 25c*
Milk-white, having just a cast of yellow when opening. Bush is low and spreading with blooms on long stems. Ideal for bedding as well as the right form for exhibiting. Wins regularly on the show table.

Pompon Dahlia

- Bronze Beauty** *Each 25c*
The small blooms are borne profusely on elegant stiff stems. They are bright buff deepening to a rich brown shade.
- Catherine** *Each 25c*
Lovely small blooms of a pure rich yellow. Always much admired. Splendid for garden display and for cutting.
- Chita** *Each \$1.25*
A pure canary-yellow Pom. This variety is worth growing for its prolific blooming habits, fine bushes and keeping qualities. We consider this the best yellow commercial Pompon introduced to date.
- Dot** *Each 35c*
A pure white Pom on perfect stems. A strong grower and an early bloomer. Very good as a cut flower or for decorating.
- Edith Muller** *Each 25c*
The compact bushes are covered with a great number of small, round, glistening orange blooms. Very showy.
- Grain O' Gold** *Each 75c*
A very interesting and neatly formed clear yellow. A seedling of Little Edith winning for the Best Pompon Seedling at New York in 1938.
- Ila** *Each 60c*
Deep oxblood-red. Here is a new Pom which is surely a gem. Every bloom is perfect in form and on a splendid stem. We predict a brilliant future for this variety and a long era of popularity.
- Reginald** *Each 30c*
A fine exhibition Pom for the purple class. Diminutive in size and complete in form. A winner.
- Roodhough** *Each 25c*
For brilliance and beauty this charming Pompon Dahlia has few equals. The color is a rich crimson-red.
- Snowclad** *Each 25c*
Perfectly formed, small flowers of pure white. Blooms freely and abundantly. Combines well with all other colors.

NEW DWARF DAHLIAS

For Pot Culture and Landscape Planting

The wonderful new race of Dahlias primarily introduced for greenhouse blooming in pots, not only serve well in this respect, but are also unusually useful for planting in borders in the garden.

In the greenhouse or conservatory they can be forced into bloom for Easter and the months following. When they have served for this purpose they may be transplanted to the garden and will there continue to bloom until frost, after which, following a short rest, they may again be potted for indoor blooming.

The habit of the plant is compact and dwarf, producing flowers when they are a little over a foot in height after forming only a very few leaves.

- Christine**
Pure white, dainty flowers of small size are very freely produced.
- Eleanor**
A real acquisition. The 4 to 5-inch decorative flowers are produced in great profusion throughout the summer months and until checked by freezing. The plant seldom grows over 15 inches high, and the foliage is practically hidden by the brilliant orange-crimson flowers.
- Elsie**
Deep golden yellow at center passing to rich orange-carmine towards the tips of the petals. Flower of good size and excellent form. Free and vigorous. Semi-Cactus.
- Gerda**
Very double, 5- to 6-inch, lilac-rose flowers are freely produced throughout the summer and fall on vigorous, healthy plants. This variety is particularly commendable because of its superior vitality.
- Gertrude**
Clean sulphur-yellow. Good size. Very compact either as a pot plant or in the border.
- Kate**
Bright orange-scarlet. Bright showy flowers are of formal contour. A formal decorative.
- Maria (Improved Easter Greeting)**
Lilac-rose, paler toward the center. Attractive and useful both in pots to bloom at Easter. White flowers somewhat larger and of better form than Christine, but not as early.
- Rosaline**
Lilac-rose, paler toward the center. Attractive and useful both in pots and in the garden.
- Ursula**
An intense crimson informal decorative with carmine reverse. Large.

*Rooted cuttings in pots, 50c each; set of 6 for \$2.50
Roots for winter flowering, 75c each; \$7.50 per doz.*

SINGLE DAHLIAS

- Doris** *Each 30c*
Deep velvety carmine, heavily tipped pure white. A truly spectacular color combination. Bushes are semi-compact, making a nice appearance in the garden. Growing habits and stems ideal.
- Garnet Poinsettia** *Each 35c*
Rich, glowing garnet with a brilliant, glistening sheen. Large blooms of Poinsettia form are held on long, stiff stems on strong plants, producing profusely.
- James Weller** *Each 35c*
Effective because of its color combination of rich golden yellow with central zone of each petal soft rosy red. Large, well-formed blooms are held erect on long, stiff stems.
- Pequot Yellow. (S.)** *Each 35c*
A very large clear yellow, especially fine for exhibiting. Good habits of growth, and a variety which is very popular.
- Scarlet Century** *Each 30c*
Bright, glowing scarlet on erect stems. Good grower, free bloomer, with petals evenly placed.

MINIATURE DAHLIAS

These Miniature Dahlias are of various forms and types, being merely "vest-pocket" editions of the large-flowered decorative, cactus and other types. They are unexcelled for planting in the border because of their dwarf growth and free-blooming qualities. They require but little disbud-ding, if any. Their value as cut flowers assures them a place in every garden.

- Bishop of Landaff. (M. P.)** *Each 40c*
This is an unusual and very attractive flower, petals being bright scarlet with a deep garnet center. Foliage is lacy, of a reddish bronze color. Wonderful for landscape effects and home arrangements. Very popular as a cut flower.
- Blue Bird. (M. F. D.)** *Each 50c*
Bluish lavender ball-shaped blooms of formal decorative type. The flowers, 3 1/2 inches across, are borne freely on plants 3 1/2 feet tall.
- Jean. (M. S. C.)** *Each 40c*
Color apricot-buff suffused soft lilac-rose. A beautiful Dahlia, free, early bloomer, and very satisfactory. You can cut bouquets from one bush two or three times a week.
- Little Jewel. (M. F. D.)** *Each 50c*
Small rounded flowers about 2 inches across of a pure peach-blossom-pink. They are borne profusely on compact plants 3 feet high.
- Little Nemo. (M. F. D.)** *Each 50c*
A striking crimson uniformly tipped white which is uncommon in bi-colors. Very pleasing and regular in form but sometimes grows too large for the Miniature class. However, it is very beautiful and popular wherever grown.
- Orchid Lady. (M. F. D.)** *Each 50c*
Runs so close to 4 inches that it is almost too large for a Miniature. For a garden Dahlia it is always a mass of blooms and it is a real commercial, good for cutting and home decorations. Color bright violet-rose or light lilac.
- Sanhican's Sweetheart. (M. S. C.)** *Each 25c*
An artistic and useful variety. Color ochreous-buff, suffused rose-red. Low growing bushes covered with blooms.

New Dwarf Dahlia, Gertrude

Various Summer-Flowering Bulbs

ACHIMENES

Until a few years ago we thought that these charming little summer flowering bulbs could be cultivated only in greenhouses. We have recently learned, however, that they may be successfully grown outdoors which materially reduces their cost as well as increases their usefulness. They love light shade and a reasonable amount of moisture. In fact, they respond perfectly to treatment given Tuberous Begonias. They make charming beds of flowers where because of shade, flowers heretofore could not be grown successfully. In window boxes, in pots in the house, or conservatory, they are a constant joy.

Culture. Start the small tubers into growth any time from January 15 on. Use fibrous soil containing about 20% leafmold into which is mixed a teaspoonful of Wayside Gardens Plant Food for each 5" pot. Avoid chemical fertilizers. Bulbs or tubers should be placed horizontally two inches apart and covered one inch. Place pot or flat in sunny window. Water frequently. Transplant from flat to bed outdoors after danger of frost is past. Space four inches apart outdoors, or grow six roots in 5" pot for indoor use. Dig in fall after first frost and store tubers over winter in cold cellar same as Glads.

Pulcherrima Doz. 85c, 100 \$5.75
Pansy-purple flowers with yellow eye. Good for pot culture, and very fine for planting in shady places. Goes particularly well in beds planted with Tuberous Begonias. Fine for shady places in the rock garden.

Princess Louise Doz. \$2.25, 100 \$14.00
Large purple-blue flowers with white eye. This variety has a long blooming season; excellent for pot plants as well as window boxes.

Pink Beauty Doz. \$2.25, 100 \$14.00
Large flowers 2½ inches across, bright pink. Fine for pots or porch box.

Maxima Doz. \$1.65, 100 \$11.75
Large white flowers with purple eye, and faint markings of light orchid. Free flowering and fine for pot culture. Lovely in shady sun room or conservatory as well as in the garden.

Purity Doz. \$1.65, 100 \$11.75
Snow white blossoms in profusion. Not a spot to mar its snowy beauty. Excellent for all purposes.

Mexicana Doz. \$1.30, 100 \$8.75
Pansy-shaped blue flowers with white eye. This is our best blue variety, blooming profusely all summer. Makes fine pot plants.

Edmund Boissier Doz. \$2.25, 100 \$14.00
Palest orchid flowers to 1 inch across. Light orchid stripes and markings. Fine pot plant variety.

Blue Beauty Doz. 85c, 100 \$5.75
Largest of all our varieties, flat dark blue flowers to 3 inches across, grows tall; very desirable for background plantings or can be used as a potted plant, putting 6 bulbs to a pot. Excellent outdoors as well.

Mixed Varieties Doz. 80c, 100 \$5.00
This mixture includes some varieties not listed in shades of white, blue, pink, rose, crimson, and many others. Particularly well adapted for general use where a riot of color is required.

AGAPANTHUS (See page 13)

Lily-like plants with graceful, ornamental foliage from the base of which spring straight stems topped with clusters of blue lily-like flowers. **Culture.** Will thrive in any good ordinary garden soil in full sun or very light shade. Plant in spring. Protect in cold regions.

Umbellatus Plants in 6-inch pots, Each \$1.50, Doz. \$15.00
Dormant roots, Each 60c, Doz. \$6.00

(Blue Lily of the Nile.) Desirable for decoration of terrace or formal pools. Planted in large pots or tubs on lawn or piazza they make a fine picture. Must be stored inside, however, in cold sections of the country.

***Umbellatus Mooreanus** Each 60c, Three \$1.70, Doz. \$6.00
Grows about 18 inches high, leaves rather short, upright; flowers large, dark blue, as large as of Umbellatus. A lovely small plant for rockery or near a pool or stream. June, July, August flowering. Quite hardy.

AMARYLLIS, HIPPEASTRUM HYBRIDS

There is nothing that will give the amateur greater pleasure for growing in the house as well as in the garden. These giant-flowering Amaryllis produce a magnificent blossom with the least possible care and trouble. Planted in a pot in the fall they will bloom about six or eight weeks after planting. Bulbs may be kept dormant and planted a week or ten days apart so that you will have succession of bloom throughout the entire winter. In the garden they may be planted during March, April and May, depending upon locality, and they will bloom during June and July as easily as Gladioli. The bulbs throw a vigorous stem with 4 to 6 gigantic blooms, ranging in color from pure white grounds with varied markings of rose, red and crimson to the richest self colors as scarlet, crimson and bright red. We can supply from November until April, bulbs guaranteed to bloom.

Garden Hybrids Each 70c, Doz. \$7.00
These bulbs have been grown for garden use and summer flowering. The flowers are as large as those of the California Hybrids, broad, bold, open flowers of superb form and color. They will make beautiful splashes of color in the garden.

California Hybrids
This is a fine strain of large flowered California grown Amaryllis Hybrids. The bulbs when potted from January to May will flower freely indoors. They may also be grown in the garden where they do beautifully. Bulbs should be taken up like Gladioli and stored during the winter to be planted the following spring. They last indefinitely.

California Dark Red Shades Each 85c, Doz. \$8.50

California Orange-Red Shades Each 85c, Doz. \$8.50

California Rose-Red Shades Each 85c, Doz. \$8.50

California White and Pink Stripes Each 85c, Doz. \$8.50

California Salmon and White Stripes Each 85c, Doz. \$8.50

California Mixed Hybrids Each 70c, Doz. \$7.00

Mammoth Royal Dutch Hybrids
This is the finest strain available. The flowers are superbly shaped and of mammoth size. Only a very limited number of this genuine type is available and we believe we are the only source where they can be obtained.

Royal Dark Red Shades Each \$1.50

Royal Orange-Red Shades Each \$1.50

Royal Salmon Shades Each \$1.50

Royal Scarlet Shades Each \$1.50

Mixed Mammoth Royal Dutch Hybrids Each \$1.25, Doz. \$12.50

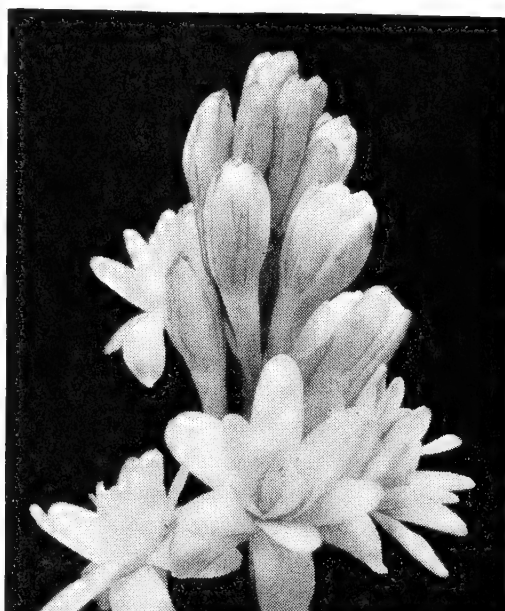

AMARYLLIS, OTHER TYPES

***Halli (Lycoris squamigera)** Each \$1.00, Doz. \$10.00
Produces in early spring attractive green foliage which grows until July when it ripens and disappears. About a month later, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing an umbel of large, lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy. Cover crown about 4 inches.

Formosissima (Hardy Jacobean Lily) Each 30c, Doz. \$3.00
Brilliant scarlet flowers of almost butterfly shape and formation, attractive in garden and good pot plants for the house. Easily grown. This is one of the few Amaryllis bulbs which may be left out in the garden over winter without protection. It multiplies rapidly and makes a brilliant splash of color in the hardy border.

Fancy-Leaved Caladium

Tuberose, The Pearl (See page 114)

Zephyranthes Carinata (See page 114)

Amaryllis, Mammoth Royal Dutch Hybrids (See page 110)

The New Types of Tuberous - Rooted Begonias

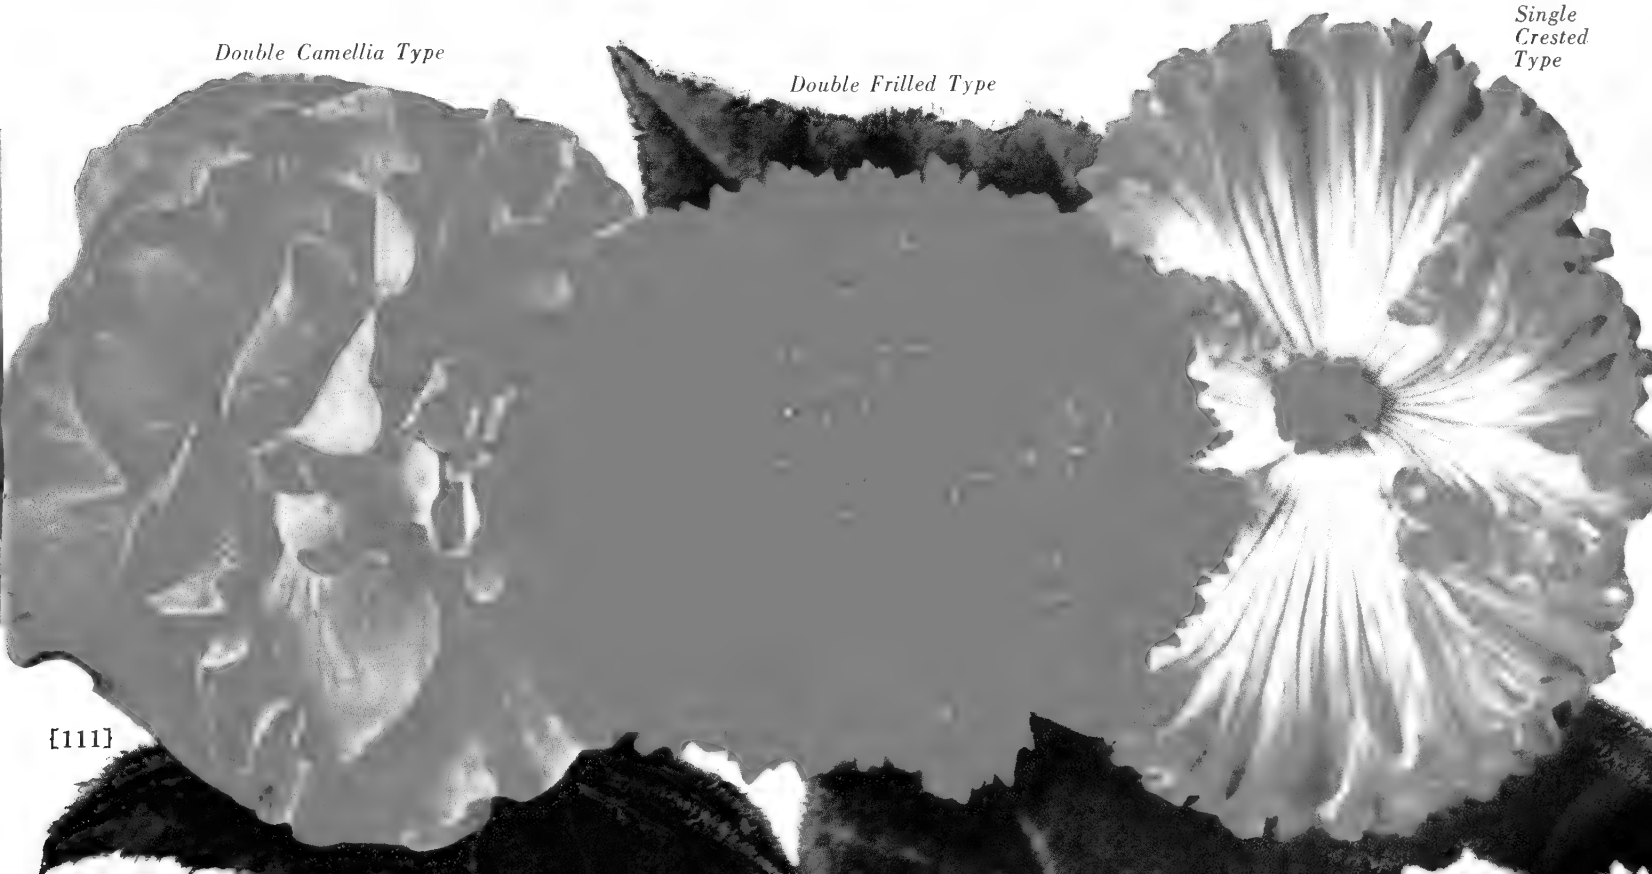

These brilliant flowers may be grown with surprising ease. Merely plant the bulbs outdoors, from mid-July on, 8 inches apart and 3 inches deep. They grow superbly well in the shade. They will flower

earlier in summer if you plant them indoors in March or April and transplant into the open when warm weather arrives. They make gorgeous pot plants for the cool greenhouses as well.

Double Camellia Type

Double Frilled Type

*Single
Crested
Type*

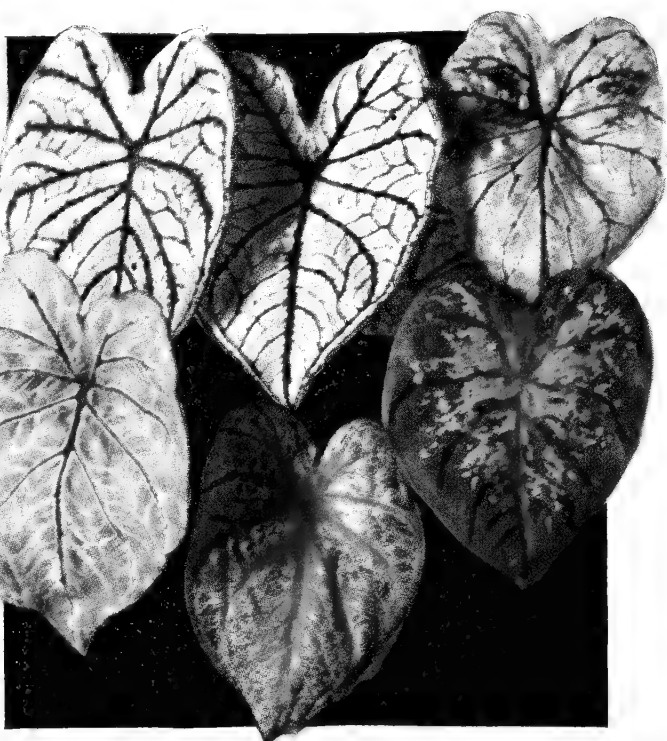

Montbretia, His Majesty (See page 116)

Anemone, DeCaen (See page 113)

Montbretia, Queen Alexandra (See page 116)

Fancy Leaved Caladiums (See page 113)

Achimenes, Blue Beauty See page 110)

ANEMONE

These popular flowers of French origin are exceedingly brilliant when in flower and excellent for cutting. They like to be planted about 6 inches deep in a cool, moist, but well-drained soil. Will establish without any trouble and remain for years. For northern states we advocate early spring planting, for the southern section of the country, fall planting is best. Cover in winter with strawy manure.

***St. Brigid** Doz. 90c, 100 \$6.00

These are the popular Anemone so frequently seen in the florists' shops in the early spring. The flowers are unusually large, with a wide range of rich and brilliant colors.

***DeCaen** Doz. 90c, 100 \$6.00
The plants are taller in growth than the St. Brigid and more single. They contain many fine shades of blue, white, and scarlet.

***His Excellency** Doz. \$1.25, 100 \$8.25

A grand variety bearing flowers measuring as much as 3 inches across, of the most vivid velvety vermilion, with glistening silvery white base and a handsome blue-black central boss. Height 1 foot.

BEGONIAS

Summer-flowering bulbs for bedding and pot plants of spectacular beauty. The enormous, single, frilled or double flowers are held well above the foliage, displaying a rich color-range from scarlet to white, through shades of yellow, orange, and pink. Highly recommended for moist soil in shady or half-shady places.

SINGLE CRESTED TUBEROUS-ROOTED

A profusion of vari-colored flowers of great beauty, 4 inches or more across. Each flower a picture.

Scarlet	Orange	Salmon	Yellow
Crimson	White	Rose	Mixed, All Colors

All colors offered are priced: Each 30c, Doz. \$3.25, 100 \$25.00

DOUBLE FRILLED TUBEROUS-ROOTED

Double flowers, beautifully frilled and fringed on the outer edges.

Scarlet	Orange	Salmon	Yellow
Crimson	White	Rose	Mixed, All Colors

All colors offered are priced: Each 30c, Doz. \$3.25, 100 \$25.00

DOUBLE CAMELLIA TUBEROUS-ROOTED

A double-flowering form. Flowers resemble the Camellia, beautiful for cutting.

Scarlet	Orange	Salmon	Yellow
Crimson	White	Rose	Mixed, All Colors

All colors offered are priced: Each 30c, Doz. \$3.25, 100 \$25.00

HANGING BEGONIA, LLOYDI

A beautiful weeping or hanging variety which does well in shady window boxes or hanging baskets. Equally charming in the rock garden. Available in four colors: Pink, White, Red and Yellow.

All colors offered are priced: Each 30c, Doz. \$3.25, 100 \$25.00

HARDY BEGONIA

Evansiana (Dormant Bulbs) Each 30c, Doz. \$3.25, 100 \$25.00

Here we have a fine bulb for growing in deep shade. During September and October they are covered with pink flowers. The foliage is a deep green with traces of bronze. Height under favorable conditions 18 to 20 inches. There are few bulbs which produce flowers or do well under the trying conditions encountered under shade trees. Begonia Evansiana can be grown there with complete success. The bulbs are perfectly hardy if given a little protection of leaves or strawy manure during the winter, and do not have to be taken up.

CALADIUM - Fancy-Leaved

Fancy-Leaved Mixed Varieties Each 30c, Doz. \$3.00

Beautiful, variegated-leaved plants adapted for pot culture in the house where they make beautiful and easily grown specimens. Bulbs planted in late May make pretty display borders or for edging taller plants and are a fine subject for window boxes.

CALLA

We call especial attention to the Yellow Calla, which is one of the grandest varieties in cultivation, and most valuable for house or conservatory decoration. In April or May dormant bulbs may be planted near the pool in a sunny spot where they will flower beautifully in August or September.

Alba maculata Each 40c, Doz. \$4.00

The abundant spear-shaped leaves are spotted silvery white all over, reaching a height of 18 inches, and are produced abundantly. The white flowers are small and trumpet-shaped with crimson blotch at the base. Excellent near pool or in a bog garden. Plant outdoors in spring.

Elliottiana (Yellow Calla) Each 40c, Doz. \$4.00

One that should be planted extensively. The deep golden yellow flowers are truly magnificent and produced in abundance. The green foliage is spotted white, which adds to its beauty; lovely house plant as well as garden subject.

Rehmanni Each 60c, Doz. \$6.00

The pink or rose Calla. A rather uncommon species, native of Natal. The flowers are small but pink and therefore most unusual. An uncommon plant for the greenhouse or outdoor culture.

CANNAS

Copper Giant. Madder-red suffused rose, giving a coppery effect. 4 feet.

Eureka. Large white flowers. Green foliage. 4 feet.

King Humbert. Orange-scarlet. Bronze foliage. 5 feet.

King Midas. Golden yellow. Green foliage. 4 feet.

Mrs. Alfred Conard. Salmon-pink. Bronze foliage. 4 feet.

The President. Enormous scarlet flowers. Green foliage. 4 feet.

Dormant roots, Each 20c, Doz. \$1.50, 100 \$10.00

COLCHICUM - Giant Autumn Crocus

Autumnale Each 40c, Doz. \$4.00

Requires no soil, no water, no care. Beautiful rosy tinted blossoms, 2 to 3 inches in diameter. Through Nature's own process, Colchicum bulbs store within themselves all the fertility, water, etc., they require to bloom. Simply place the bulb in a dish or on the table or window sill and watch its beauty unfold. The blooms keep in good condition about two weeks, and when they wilt, cut them off and others will follow, each bulb producing from 6 to 15 flowers. When the blooming has ceased in the early fall the bulbs may be planted in the open garden or lawn, where, each fall they will bloom in great profusion, or if you prefer you can remove the bulbs from the ground about July first, dry them in darkness for a few weeks, and use for indoor decoration as at first. Orders for Colchicum bulbs cannot be filled before August, but you should place your order now for August delivery.

CROCUS - Small Autumn Crocus

Zonatus Doz. \$1.05, 100 \$7.25

Flowers rose-lilac with yellow throat, freely produced. One of the most satisfactory kinds, lovely in the rock garden or under tall shrubs. Does well planted under trees between vinca, pachysandra, or other ground covers. Easily grown indoors. When bulbs have flowered in the house they should be planted in the garden where they will establish quickly.

EREMURUS - Foxtail Lilies

Shelford Hybrids in Mixed Shades

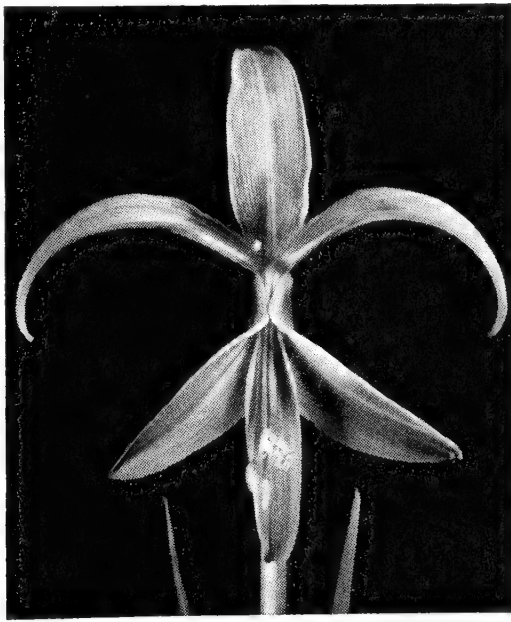

Grand, tall hardy hybrids, the inflorescence 3 feet long, studded with myriads of coppery pink, orange, pale yellow, and pink flowers, shot with delicate bronze. Rare and richly colored. They grow to an average height of 7 feet. For garden planting as well as for cutting we believe these hybrids to be the best. They make a stunning show in the garden as well as indoors. For several years we have been increasing our stock so we could offer roots at a popular price. We suggest that they be planted in groups of not less than three, better effects are created if planted in masses of six or twelve. We have made our price low to enable you to do this. All plants we send out are flowering size.

Coppery Pink and Orange Tinted Shelford Hybrids

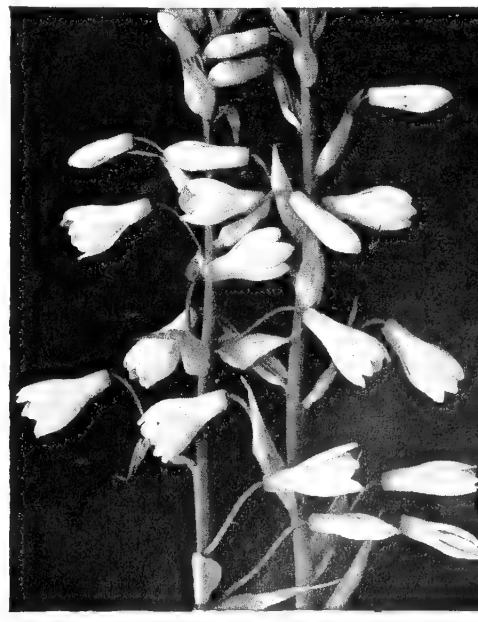

4-year-old flowering roots Each 70c, Doz. \$7.00

Ismene Calathina (See page 114)

Amaryllis Formosissima

Hyacinthus Candicans (See page 114)

Tigridia Pavonia

Gloxinia

Ranunculus, New Giant Claremont Hybrids

EUCHARIS

Amazonica

Each \$1.00, Doz. \$10.00

A rare bulb from the Amazon, produces deliciously scented pure white waxy flowers shaped not unlike the Daffodil. The foliage is handsome and evergreen, somewhat like that of the Funkia. May be grown in the garden in warm parts of the country. Does well in the cool greenhouse. Easily grown house plant. Give same care as Amaryllis.

GLORIOSA - Climbing Lily

Superba Rothschildiana

Strong tubers, Each 65c, Doz. \$6.00

A splendid low climber, easy to grow in the garden; it does well in sheltered spots out-of-doors. Grows 2 to 3 feet high, producing a dozen or more gorgeous lily-like flowers which open a bright yellow and red, but change to a deep scarlet. In bloom through the summer and autumn months. Most unusual and rare garden bulbs. Store tubers in winter like Gladioli; may be used season after season.

HYACINTHUS CANDICANS - Cape Hyacinth

Doz. \$1.20, 100 \$8.00

A white summer-flowering Hyacinth, growing 3 to 5 feet in height, gracefully surmounted with from 20 to 30 pure white bell-shaped flowers. Culture same as for Gladioli.

GLOXINIAS

These brilliantly colored flowers are easily grown by anyone. In fact, we do not know of any other house plant which responds so quickly and easily to the simplest of care and treatment. Their gorgeous velvety flowers last for months and make a stunning effect between the soft handsome leaves. The bulbs may be planted from early February until late May to provide for a succession of flowers. Place one bulb in a 5-inch pot filled with good rich sandy loam. Cover bulb about one inch, water sparingly. Place at once in warm sunny window or conservatory. Growth is quite quick. After flowering save the bulbs to be used again another season because they can be used over and over for many years.

Etoile de Feu
Bright scarlet.

Emperor Frederick
Scarlet with white band.

Mount Blanc
White.

Emperor Wilhelm
Deep violet with white band.

King of the Reds
Crimson-scarlet.

Princess Elizabeth
White with deep indigo-blue edge.

Any of the above: Each 35c, Doz. \$3.50

ISMENE CALATHINA GRANDIFLORA

One of the best of our summer-flowering bulbs. Clusters of large, fragrant, pearly white flowers, resembling the Amaryllis family.

Each 40c, Doz. \$3.50, 100 \$25.00

MONTBRETIA (See page 116)

OXALIS - Shamrock

Summer-flowering bulbs with brilliant flowers and dark foliage. Suitable for moss bedding, rockeries, hanging baskets or pots in a sunny window. Shamrock-like foliage; flowers in bunches, and of easy culture.

Deppei. Pure white. **Lasiandra.** Crimson. **Shamrock.** Pink. **Mixed Colors.**
Doz. 30c, 100 \$2.00

RANUNCULUS - Buttercup

New Giant Claremont Hybrids

Doz. \$1.00, 100 \$6.75

The largest and most magnificent strain ever offered. Giant double and semi-double, peony-like flowers, 2 inches and more across. Yellows, from straw through all shades to deep golden yellow; red, including dark crimson, scarlet, orange-red, and all other shades of red; orange-pink—in fact every desired color is included in this mixture. Not reliably hardy north of Washington, D. C., except in warm, sheltered borders. Plant the bulbs as soon as soil has become warm, placing the claws downward, 2 inches deep and 4 to 6 inches apart. Fine for cutting.

TIGRIDIA - Shellflower of Mexico

Pavonia Mixed

Doz. \$1.50, 100 \$10.00

Few flowers are more gorgeously colored or so beautiful. Plant in sunny position in a flower border in well-drained soil. Same treatment as for Gladioli. Can also be used in beds. Blooms from middle of July to September.

TUBEROSE, SWEET SCENTED

Excelsior, Dwarf Pearl

Doz. \$1.20, 100 \$8.00

Lovely, large, double flowers of thick, waxlike texture borne on graceful, long, strong stems. Wonderful in the garden, besides being highly prized as cut flowers. They have a rich, exotic fragrance. Plant the bulbs after all danger of frost has passed, and cover them 2 inches deep. For earliest bloom, plant indoors in pots during February or March and transplant to the open in June, selecting a well-drained soil and a sunny location.

Single Mexican Early Everblooming

Doz. 90c, 100 \$6.00

White, single flowers of rich scent, on tall stems. Begins to bloom in July and continues throughout the season, each bulb throwing 2 to 5 flower spikes in succession.

ZEPHYRANTHES - Zephyr Flower or Fairy Lilies

Beautiful dwarf, bulbous plant, very effective for massing in the border, flowering with great profusion during the summer. They are also suitable for pot culture and rock garden.

Candida Pure white.

Doz. 80c, 100 \$5.00

Carinata. Large, rose-colored.

Doz. \$1.00, 100 \$7.00

The Best Gladioli

Giant Nymph

Aflame Doz. 75c 100 \$4.75
(Midseason-Exhibition and Decorative.) A begonia-rose, shading to bright orange-flame near the edge. Backs of the petals are even brighter than the fronts. Very large flowers, 6 inches or more across with 6 to 8 florets open at a time. A wonderful variety for the garden and exhibition.

Aida Doz. 85c, 100 \$5.50
(Early-Decorative.) Of very deep blue with small reddish lilac blotch. Large flowers with 5 blooms open at one time, carried on a fine spike. One of the best of this color.

Albatross Doz. 75c, 100 \$4.75
(Early-Exhibition.) A fine exhibition variety, of purest white, large flowers with 6 to 8 open at one time. One of the best in this color class.

Allegro Doz. \$3.00, 100 \$22.00
(Midseason-Exhibition.) Probably the nearest to a true blue of any Gladiolus in commerce today. Color bluish lavender with deeper throat blotch. Many florets open at one time, perfectly arranged on a tall, straight spike. Very attractive and desirable.

Apricot Glow Doz. 75c, 100 \$4.75
(Early-Decorative.) Of clear warm apricot shading. Florets are fairly large, well placed, and wide open with 4 to 5 blooms open at a time. Very tall, strong grower. This variety is one of the parents of such outstanding varieties as Picardy, Bagdad, Wasaga, Debonair, and others.

Annie Laurie Doz. 75c, 100 \$4.75
(Late-Decorative.) White, flushed pink, semi-ruffled, the ruffling of a very fresh carmine-pink, slight marking of same color in throat. Total effect a dainty, delicate pink. Like its namesake, "The fairest that e'er the sun shone on."

Ave Maria Doz. 85c, 100 \$5.50
(Midseason-Exhibition.) A perfectly formed flower. The color is of a most exquisite shade of light blue. The perfect stem carries 7 to 8 blooms open at the same time.

Bagdad Doz. 75c, 100 \$4.50
(Late Midseason-Exhibition.) A fine exhibition variety. Smoky old rose, deeper to edge of petals and lighter in throat. Smooth, unflecked color. Lip petals have a faint creamy blotch, marked with penciling of begonia-rose. Five to seven immense blooms open at one time, and are carried on very strong spikes. Blooms often measure six inches or more across.

Betty Nuthall Doz. 70c, 100 \$4.25
(Midseason-Exhibition.) Warm coral-pink with pale yellow throat markings and a slight tinge of orange. The flower spikes are long and graceful, carrying from six to eight large, well expanded blooms open at one time. Fine exhibition variety.

Bill Sowden Doz. 90c, 100 \$6.00
(Midseason-Exhibition.) Fine new variety, producing immense blooms of a rich deep shade of red. Splendid for exhibition.

Blue Danube Doz. \$1.20, 100 \$8.00
(Midseason-Exhibition.) Wonderful, pure amethyst-blue novelty with splendid dark blotch, making a very pleasing harmony of colors. The six to eight large, open flowers are gracefully arranged on the stem, producing a tall, well-formed spike. A fine exhibition variety.

Canberra Doz. 80c, 100 \$5.00
(Midseason-Exhibition.) The very large flowers are of deep yellow well placed on a tall spike. Very strong, vigorous grower. A fine exhibition yellow.

Commander Koehl Doz. 75c, 100 \$4.75
(Midseason-Exhibition.) A beautiful, large, clear, light blood-red. Probably the best variety in its color. Tall and straight massive spike with many flowers open at one time. An exhibition variety par excellence.

Charles Dickens Doz. 75c, 100 \$4.75
(Early-Exhibition.) Violet-purple with very tall, gracious spikes having from 10 to 12 florets open at a time. The best Gladiolus in this color.

Gertrude Swenson Doz. \$1.75, 100 \$12.00
Mauve-lavender, with distinct white blotch on lower petals. Very many flowers open at one time. Exceptionally fine garden variety.

Giant Nymph Doz. 70c, 100 \$4.25
(Early-Exhibition.) A giant in growth with florets of light rose-pink and creamy yellow throat. A very fine exhibition variety.

Golden Dream Doz. 70c, 100 \$4.25
(Midseason-Exhibition.) A distinctive variety. Very tall spike with many flowers open at one time.

Golden Frills Doz. 70c, 100 \$4.25
(Early-Small-Flowered.) Deep, rich, daffodil-yellow with pink lines on lower petals; intensely ruffled and one of the most beautiful.

King Arthur Doz. 75c, 100 \$4.75
(Midseason-Exhibition and Decorative.) A very unusual Gladiolus both in color and shape. The massive florets are beautifully ruffled and fluted mallow-pink, penciled and flecked with mallow-purple. Attracts attention wherever shown.

King George Doz. \$1.20, 100 \$8.00
(Midseason-Exhibition.) A most attractive exhibition variety coming to us from Scotland. Very large flowers of a brilliant red with white throat, many open at one time and carried in perfect placement on a good spike.

Maid of Orleans Doz. 75c, 100 \$4.50
(Midseason-Exhibition and Decorative.) An excellent Gladiolus of pure white with a cream throat. Has a good straight spike with many perfectly placed florets open at one time. Makes a very fine cut flower.

Margaret Fulton Doz. 75c, 100 \$4.50
Clear rich soft coral and salmon-pink combination. The general effect is that of a solid color. Throat apricot-pink without any markings. Six to eight flowers are open at once. Tall, strong grower.

Marmora Doz. 75c, 100 \$4.50
(Midseason-Exhibition.) A sensational exhibition variety. Blooms are of immense size, a pleasing shade of lavender and carried on fine straight stems.

Max Reger Doz. \$1.25, 100 \$8.50
Lavender-blue, with dark throat markings and glittering white points giving the appearance of a blue Butterfly. Very graceful and attractive. Midseason.

Mildred Louise Doz. 85c, 100 \$5.75
(Early-Exhibition.) A fine exhibition variety. The prevailing color of upper petals is a pure strawberry-pink, while the lower petals blend from a strawberry-pink at the tips to pinard-yellow in the throat. Faint spectrum-red pencillings on midrib, quite deep in the throat, anthers delphinium-blue. The stem is strong and flexible. The beautiful triangular-shaped florets open wide and measure 5½ inches or more across. 18 to 22 buds on each spike with many open at a time. Florets of fine texture and well arranged.

Minuet Doz. 75c, 100 \$4.75
(Midseason-Exhibition.) The best of the self-colored lavender Gladioli, carrying sometimes seven to nine heavy-textured flowers open at once on fine, strong spikes. A leading exhibition variety.

Miss New Zealand Doz. \$1.55, 100 \$10.25
Salmon-apricot. Immense blossoms, lovely salmon-apricot suffused with rose and peach-colored blotch in throat. Midseason.

Morocco Doz. 85c, 100 \$5.50
(Midseason-Exhibition.) Large florets of a deep glistening red, almost blackish in appearance. Six to eight open at one time on a fine spike.

Mother Machree Doz. 95c, 100 \$6.50
(Midseason-Exhibition.) The color in this variety is most difficult to describe, being of a vinaceous lavender overlaid toward the edges with salmon-pink. One of the most popular of the "smoky" varieties. Very tall, vigorous grower carrying 10 to 12 florets open at one time.

Mr. W. H. Phipps Doz. 75c, 100 \$4.50
(Late-Exhibition.) Of light salmon-rose. Long spike with 15 to 20 blooms open at a time, requiring good culture for best results. This has been one of the most popular varieties.

Netherland Prince Doz. \$1.65, 100 \$11.75
(Midseason-Exhibition.) Very large, showy flowers, measuring often from 6 to 7 inches across, of bright salmon. Tall, strong grower with 6 to 8 blooms open at one time.

New Era Doz. \$1.75, 100 \$12.50
Pure pink. A prize-winning variety of great merit. As many as 10 very large, ruffled blossoms open at one time on tall, always straight stems. Midseason.

Orange Butterfly Doz. \$1.00, 100 \$6.75
(Late-Exhibition.) A fine exhibition flower of the brightest orange. Florets of good substance with ten to twelve open at one time. Very attractive.

Paradise Doz. 90c, 100 \$6.00
Apricot-orange. A gorgeous color; 8 large open blooms on tall, straight stems. A robust grower, highly recommended for exhibition and cutting. Midseason.

Pelegrina Doz. 80c, 100 \$5.00
(Early-Exhibition and Decorative.) A deep blue-violet Gladiolus that is particularly appealing for its color. The blackish blue buds showing color to the tip of the spike add much to the attractiveness of this desirable variety.

Picardy Doz. 70c, 100 \$4.25
(Early-Exhibition.) The finest Gladiolus in its color class. Of soft shrimp-pink without flecking. Blotch of light flesh-pink shading to shrimp-pink at edges. Inconspicuous feathering of begonia-rose. Seven to ten florets open at a time with blooms up to six inches or more across. Spike is strong, but at the same time very refined. An ideal "Glad." This variety has been the sensation of the Gladiolus world since its introduction. It has created more favorable comment than any other variety in many years and has won in every flower show. It is, in our opinion, the finest and most charming of all Gladioli.

Polar Ice Doz. 80c, 100 \$5.00
(Early-Exhibition.) One of the largest flowered Gladioli, florets often measuring 7 inches or more in diameter and carried on tall, straight spikes. The pure paper-white florets are well arranged with many flowers open at a time. One of the best white exhibition varieties.

Red Lory Doz. 75c, 100 \$4.75
(Late-Exhibition.) Of carmine-rose with large purplish red blotches. Large flowers with nearly the entire spike open at one time. One of the most magnificent Gladioli.

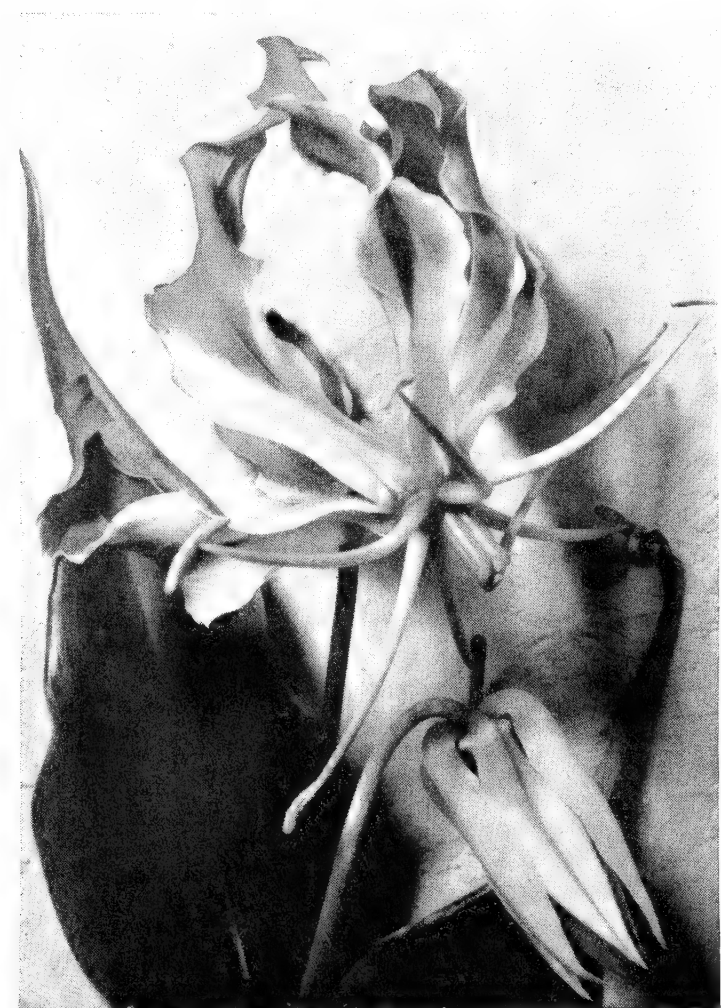

Shirley Temple Doz. \$1.00, 100 \$6.75
Cream. Immense ruffled blossoms on long strong spike. Lovely cream color with dark throat. Midseason.

Souvenir Doz. 70c, 100 \$4.25
(Early-Small-flowered.) The best of the yellow Primulinus varieties, the flowers being carried on a tall, graceful spike. Its color is a beautiful canary-yellow.

Star of Bethlehem Doz. 85c, 100 \$6.00
(Midseason-Exhibition.) The outstanding exhibition white. Color purest white with a touch of cream on lower petals. Six to eight immense florets open at one time on a very tall, slender spike. A magnificent Gladiolus that should be in every collection.

Tobersun Doz. 85c, 100 \$5.50
(Late-Exhibition.) A fine exhibition variety. Flowers are large, of clearest yellow. Seven to eight florets open at one time and carried in perfect placement on a tall spike. One of the best of the yellow Gladioli.

Valeria Doz. \$2.50, 100 \$18.00
One of the nicest salmon-reds that have recently come out. Looks like Johannes S. Bach, but is darker, without any markings. Many flowers open at one time. Truly a good variety.

Gloriosa Superba Rothschildiana

Winged Victory Doz. \$1.05, 100 \$7.25
(Midseason-Exhibition.) One of the largest flowers produced. Individual flowers often measure 8 inches in diameter. The finest, clearest pink without blotch or throat markings—absolutely self-colored. Form is unique, the flower having giant reflexed, long, pointed petals. Spike grows 5 feet tall, has 6 enormous blooms open at one time.

Wurtembergia Doz. 90c, 100 \$6.00
(Midseason-Exhibition.) Of a very lovely fiery scarlet with creamy white throat markings. The immense blooms are carried on a very tall, always straight spike. The most dazzling red we have seen in Gladioli.

Yellow Emperor Doz. 90c, 100 \$6.00
Deep yellow. Perhaps the best and deepest yellow. Very large, open blossoms; long, sturdy spikes. Vigorous grower. Midseason.

Primulinus Hybrids Mixture

Our hybrids range in color from pale sulphur-yellow-apricot to the deepest chrome-yellow and excellent shades of pink, orange and scarlet. We are pleased to offer this splendid mixture and suggest that our patrons try some. For artistic decorations these flowers are wonderful.

Doz. 50c, 100 \$3.50, 1000 \$30.00

Large-Flowered American Hybrids Mixed

We include a splendid variety of named sorts. The mixture has a popular price so as to encourage liberal planting. They are well matured and good growers; excellent for cut-flower purposes or for planting in mixed borders.

Doz. 60c, 100 \$4.00, 1000 \$35.00

Montbretias

Large-Flowered Hybrids

Montbretias are of easy culture. They flower freely and require perhaps less care than most bulbs. They do particularly well in the border in light shade or full sun. A clump of a half dozen or more bulbs will continue flowering throughout the late summer and autumn. Rich soil helps to grow tall spikes. A liberal amount of well-rotted manure or bone meal applied at planting time is very beneficial. Water freely in dry weather. Bulbs may be left in the ground over winter with reasonable protection of strawy manure or garden litter. South of Philadelphia no protection is required.

Aurora Doz. \$1.75, 100 \$12.00
Very large, flat, star-shaped flowers with broad petals of great substance, bright golden orange suffused and shading to orange-scarlet, center rich gold and maroon blotches; vigorous grower. Height 2½ feet.

Brightest and Best Doz. \$3.50, 100 \$25.00
Deep orange-scarlet, externally crimson, eye yellow; large flower, very beautiful. Stems dark, much branched, and 3½ feet high.

Comet Doz. \$3.50, 100 \$25.00
Large, star-shaped flowers of fine substance, rich deep golden orange with broad band of blood-crimson, center yellow, dark colored stems. Height 2½ feet, of sturdy, robust growth.

Fiery Cross Doz. \$4.50, 100 \$30.00
Large open flowers of good substance with broad petals, intense glowing fiery orange with large primrose center and small crimson blotches surrounding eye; dark stems and dull crimson buds; a good sturdy grower. Height 3 feet. Award of Merit, R. H. S.

Fire King Doz. \$1.00, 100 \$7.00
Large, glowing scarlet-red flowers. One of the most beautiful and a variety which compares with any of the new sorts.

George Davison Doz. \$1.50, 100 \$10.00
A splendid Montbretia. Stems 3 to 4 feet high, very branching, bearing lovely pale orange-yellow flowers.

His Majesty Doz. \$1.50, 100 \$10.00
A magnificent variety. The color is a deep velvety scarlet, shading to gold; the reverse of petals dark crimson. Large flowers often 4 inches or more across.

Lady Wilson Doz. \$3.00, 100 \$20.00
A grand variety, producing bold spikes of very large, erect flowers expanding quite flat; golden orange with lemon eye, reverse of petals orange; remarkably handsome. Height 3½ feet. A. M. London 1927.

Princess Doz. \$1.25, 100 \$8.50
A very fine variety producing large flowers with broad overlapping petals, bright orange-scarlet with golden luster and slight rose suffusion; center primrose-yellow with crimson markings at throat. Height 2½ feet.

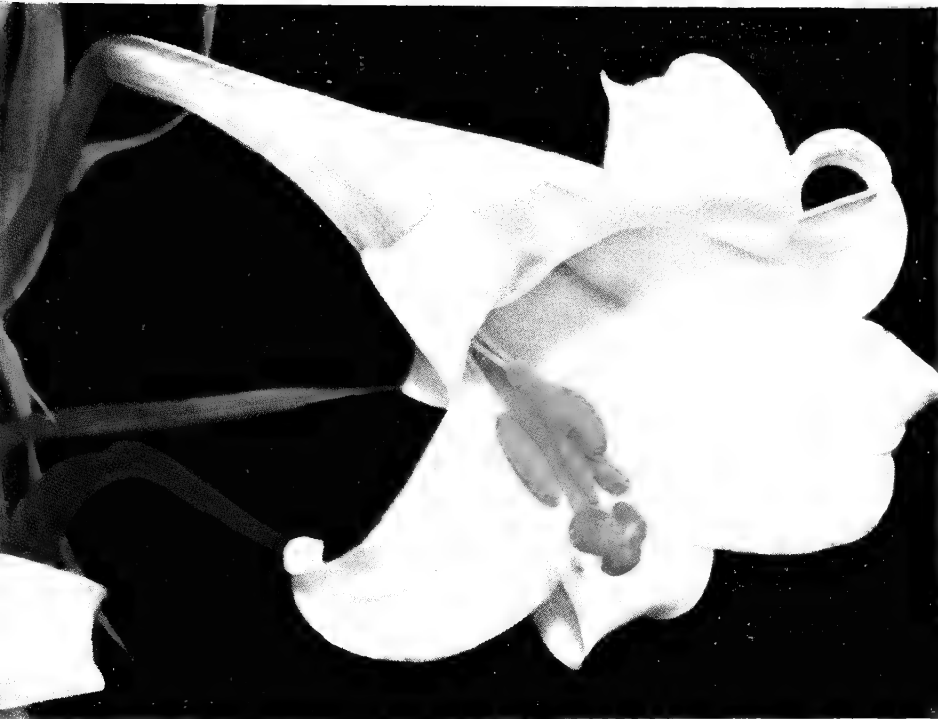

Queen Alexandra Doz. \$1.50, 100 \$10.00
Light golden orange, with crimson bars.

Rheingold Doz. \$3.00, 100 \$20.00
Produces tall, branching spikes and large, open flowers of a most beautiful golden yellow, without shading. A strong grower which attracts the eye.

Sir Matthew Wilson Doz. \$4.50, 100 \$25.00
A fine, vigorous growing variety with tall stems; flowers of a brilliant deep vermilion, flushed inside orange-scarlet; center yellow with crimson markings.

Mixed Colors and Shades Doz. \$1.75, 100 \$10.00
Montbretias lend themselves particularly well to be grown in a mixture. The colors range from shades of yellow, orange, bronze, copper to fiery red. The effect from such a mixed planting is most pleasing, and of course, they make choice cut flowers.

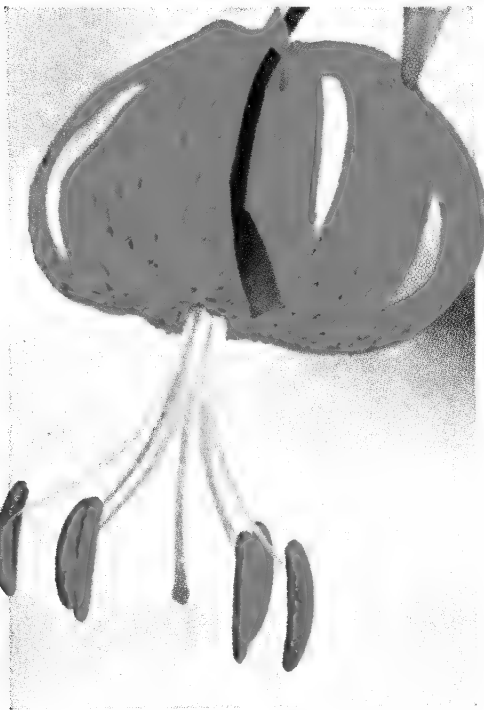

Six bulbs of one variety furnished at the dozen rate.

Lilium Philippinense (See page 121)

Lilium Henryi (See page 120)

Lilium Shuksan (See page 119)

Lilium Hansonii (See page 120)

Lilium Pardalinum Giganteum—Sunset Lily (See page 121)

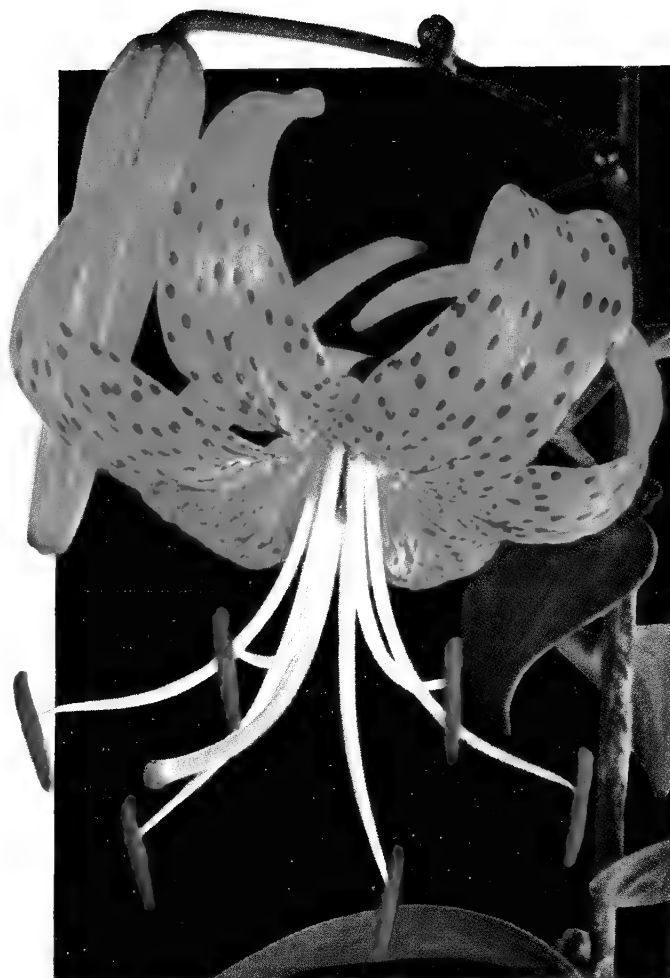

(See page 121) *Lilium Umbellatum Grandiflorum*

Lilium Theodore Havemeyer

Lilium Tigrinum (See page 121)

Lilium Regale—the Queen of Lilies (See page 119)

Lilium Testaceum (See page 119)

Don't Miss the All-Summer Glory of Lilies

Few flowers bring your garden the unusual and exotic beauty of Lilies, the romance of the far corners of the earth in which many of them were discovered. They have come from Europe, Asia, Africa and the wild crannies of America to delight you with their **different** grace and loveliness, their uncommon charm and colors that offer you the pleasure of "pointing with pride." Growing some of the stronger varieties gives you enjoyment and satisfaction like that of collecting rare jades and porcelains.

Lilies are beginning to take their rightful place in American gardens, large and small, not only for their beauty but because of their challenge to the gardener's originality and skill. As a group they are not the easiest flowers to grow; but in the past 20 years or so it has been demonstrated that they are not particularly difficult either—just enough so to stimulate gardening interest. And they pay you well in distinctive results, a steady parade of changing bloom from early June to late September.

Introducing a Superb Novelty!

Lilium *Theodore D. Havemeyer*

A magnificent new Lily which resulted from a cross between *Lilium Sulphureum* and *Lilium Tigrinum*. The plant resembles *Lilium Henryi* in growth and vigor as well as freedom from disease. It has received highest honors wherever exhibited. The Royal Horticultural Society of England gave it the coveted "Award of Merit." A special gold medal was awarded to a display of this variety in the Gardens on Parade at the New York World's Fair. The flowers are a tender shade of buff or creamy old ivory with three or four buff longitudinal lines, and marked with rosy amber on the basal half of the segment. This lovely shading is enhanced by attractive brown anthers. The plant resembles the vigorous growing *Lilium Henryi* in habit as well as ease of culture. The flowers are Auratum shaped, of fine size, broad and spreading. Begins to bloom the end of July, and blooms over a very long period.

Only a limited number of bulbs are available yet! We offer strong flowering bulbs at

\$4.00 each

\$40.00 dozen

Lilium *Havemeyer Hybrids*

These beautiful Hybrids are raised from seed taken from *Lilium Theodore Havemeyer*. They closely resemble the parent variety but vary slightly in color and form, and cannot be sold as the true Havemeyer Lily. We therefore offer them as Havemeyer Hybrids. A group of six or more of them in the border will provide many lovely flowers in delicate tints of ivory, pale yellow, and light buff. They grow freely and can be easily increased by seeding. This is the first time these magnificent Lilies are offered, and we predict they will be as important as the Regal Lilies in the very near future. We offer for this spring a limited number of flowering bulbs about 5 inches in circumference at

75c each

\$7.50 dozen

Lilium Regale

(The Regal Lily)

One of the most beautiful and one of the hardest Lilies in cultivation—"Lilium Regale" is truly a Royal Lily, worthy of a place in every garden; it is a lover of loam and sunshine. A vigorous grower with sturdy stems, 4 to 6 feet high, densely covered with fine foliage. Center of flower flushed with yellow shading to white at outer edges; externally the flowers are streaked with brown on the "ribs," shaded through the almost translucent petals with a delightful pearly tint; the contrast between the color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. The Regal Lily is very floriferous and when thoroughly established, bears as high as 18 to 20 flowers during the season. (Color illustration, page 118.)

Flowering bulbs, 6-7 inches	Each 25c, Doz. \$2.25, 100 \$15.00
Flowering bulbs, 7-8 inches	Each 30c, Doz. \$3.00, 100 \$20.00
Flowering bulbs, 8-9 inches	Each 45c, Doz. \$4.50, 100 \$30.00

Lilium Testaceum

Also known as "Excelsum" and as the "Nankeen Lily." One of the choicest garden Lilies. The warm apricot tone, almost a cafe au lait, set off by brilliant orange anthers, puts it in a color class by itself; in fact, many people consider it the most graceful and lovely of all Lilies. It is beautiful for every kind of garden use but because of its tender coloring, must be planted in a mixed border with brighter flowers. In combination with light shaded Delphiniums or with the Madonna Lily, which it resembles, it is most effective. It has the texture of *Lilium Candidum*, with reflexed petals and does well under the same conditions as *Candidum*. Four to five feet high, June-July flowering. (Color illustration, page 118.)

Top size bulbs	Each \$2.00, Doz. \$20.00
Fine first size bulbs	Each \$1.50, Doz. \$15.00

Lilium Shuksan

A new Hybrid Lily with a great future. Also a fine bill of health. Through careful cultivation a very high state of health has been maintained and we have never seen any bulbs infected with mosaic; that fatal disease some Lilies are subject to. Shuksan is a very vigorous grower, 5 to 6 feet tall and produces its flowers in open heads, 15 to 25 flowers on one plant is not unusual. The color is a soft buff-yellow broken by large quite widely spaced soft brown spots. At opening, the flowers are star-like. The petals reflex and roll back when in full bloom. Flowers last a week when cut. (Color illustration, page 117.)

Each \$1.25, Doz. \$12.50

Lilium Centifolium

(Syn. *L. Leucanthemum* var. *Chloraster*) (China). A magnificent species introduced by Reginald Farrer from stock found growing in a Chinese garden in 1914. The flowers are immense white trumpets borne on stems rising from 6 to 8 feet in height. Seed grown stocks vary somewhat in the external coloring of the flowers, some being shaded green and others brownish purple, but all are well worth growing. The name of this plant (*Centi-folium*, "hundred-leaved") is suggestive of its abundant foliage. We are pleased to offer home-grown stock of *Lilium Centifolium* and believe it to be an exceptional addition to any Lily collection. Plant 6 inches deep in light shade with perfect drainage. July-August blooming. Flowering size bulbs, October-December delivery.

Each 65c, Doz. \$6.50, 100 \$45.00

Hardy Lilies for General Garden Use

Lilies, unlike Tulip bulbs, are not all grown in one locality under one and the same conditions, but are gathered together from many foreign countries. All ripen at different times of the year; therefore, orders for Lilies cannot always be filled at one time. The requirements of Lilies vary with each variety. We have a booklet on their culture, which will be sent to you upon receipt of 25c.

Because of the lack of knowledge and the carelessness of many planters, we do not guarantee Lilies to grow. We do, however, guarantee to supply you bulbs in good condition and will replace without charge any damaged bulbs, immediately upon hearing from you.

Amabile *Each 55c, Doz. \$5.50, 100 \$38.00*

An attractive species from Korea which has proved to be easy of cultivation in this country. It bears as many as six vivid red Turk's Cap flowers spotted with black. Height 3 to 4 feet. June flowering. Stem-rooting. Plant 6 inches deep in well-drained, gritty soil with leaf mold. Enjoys partial shade.

***Carolinianum** *Each 55c, Doz. \$5.50, 100 \$38.00*

A showy Lily with slender stems, bearing reflexed, orange-red flowers, spotted maroon. Requires a well drained situation. July and August. Height 2 to 3 feet.

***Canadense** *Each 25c, Doz. \$2.25, 100 \$14.00*

Broad, funnel-shaped, drooping flowers, varying from yellow to orange; spotted inside; graceful and pretty. Fine among Azaleas, in damp peat beds, or leaf mold. Excellent for naturalizing. June-July flowering.

***Canadense flavum** *Each 30c, Doz. \$3.00, 100 \$20.00*

Broad, funnel-shaped, drooping flowers on longish stalks about 3 feet high. Almost bell-shaped with ends of the petals only very slightly turned back. Golden yellow, handsomely spotted inside. June-July flowering.

Crow's Hybrids *Each 80c, Doz. \$8.00*

We offer selected seedlings of this magnificent strain of trumpet Lilies, hybrids of *Lilium Sulphurgale* x *Lilium Princeps*. These plants bloom some two weeks later than *Lilium Regale* and, while some variance will be noted in their coloring, all are exceptionally vigorous and beautiful. The flowers generally are white with greenish golden throats and orange to dark brown anthers. The exterior of the petals is shaded brown, purple or green. Well established plants will carry up to 30 flowers. Plant in sun or partial shade 6 inches deep. Height 4 to 6 feet. Selected flowering bulbs, October-December delivery.

Concolor *Each 50c, Doz. \$4.75, 100 \$32.00*

One of the best dwarf Lilies with erect, star-shaped flowers of deep scarlet with a few dark spots towards base of petals; will frequently produce three or more stems from one bulb. Suitable for rock gardens. July. 18 inches.

Davidi *Each 55c, Doz. \$5.50, 100 \$38.00*

A fine Lily from Western China, very graceful, with a tall, slender stem, strong and erect, and bearing up to twenty or more bright cinnabar-red tiger-like flowers, copiously spotted with glossy black. It combines a very refined and elegant appearance with a splendid constitution and is one of the best summer-flowering Lilies we have. Height 5 to 7 feet. Plant in either a sunny or partially shaded position.

***Davuricum.** (See *Umbellatum*.)

***Elegans, Mixed Colors** *Each 55c, Doz. \$5.50, 100 \$38.00*

The number of forms and varieties is legion, varying in color from pale lemon-yellow to rich orange-brown, various tints of orange to almost red and from soft apricot to nearly crimson; varying also in flowering season. A planting through *Funkia* or *Heuchera* is most effective. June-July flowering.

***Elegans atrosanguineum** *Each 60c, Doz. \$5.75, 100 \$40.00*

Flowers of a rich dark coppery crimson with purple-black spots at base of petals. Attractive. 1 foot.

***Elegans, Orange Queen** *Each 45c, Doz. \$4.50, 100 \$30.00*

Very handsome, producing in July, large orange colored flowers with small, black spots; a strong, robust grower; very decorative in pots or borders. Height 15 to 18 inches.

George C. Creelman (Hybrid) *Each \$3.00, Doz. \$30.00*

The long lasting flowers, which are very large, often measuring 8 inches in length, carried in large numbers on strong, long stems, with fine foliage, resemble a *Regal Lily* of the best and truest type, with bronzy tones more pronounced and a more intense yellow in the throat. It blooms two weeks after *Regal Lily*; many flowers opening at one time. We have counted 35 perfect flowers and buds on a six-foot spike. Entirely free from ordinary diseases. Easiest of culture and one of the hardiest.

Giganteum Himalaicum *Each \$5.00, Doz. \$50.00*

The most majestic of Lilies, having stems 10 to 12 feet high when established, with large handsome, heart-shaped leaves and from July to August bearing immense long, white, trumpet-shaped, sweetly scented flowers. Groups in woodland or wild gardens produce a grand effect. Must become established before flowering freely and thrives best in an abundance of leaf soil.

***Hansonii** *Each 65c, Doz. \$6.50, 100 \$45.00*

Most desirable, not particular in its cultural requirements and extremely handsome in flower; does well in light loam. Plant among low plants to protect young shoots, this being one of the earliest Lilies to appear in the spring. Does as well in thin wood'and as it does in the border. Height 4 to 5 feet, carrying blossoms 2 inches across, regularly reflexed, the petals being of a bright orange-yellow, spotted more or less with brown; of a waxy texture. June flowering. (Color illustration, page 117.)

***Henryi** *Each 60c, Doz. \$5.75, 100 \$40.00*

A splendid garden plant, vigorous in its growth, failing very seldom. One of the best border Lilies, reaching over 8 feet and more in height when established, and bearing more than 20 flowers of a rich, deep orange-yellow. Fine foliage. Does well in both light and heavy loam. August-September flowering. (Color illustration, page 117.)

Humboldti magnificum *Each 80c, Doz. \$8.00*

Erect stem, with whorls of leaves. Numerous drooping flowers borne in loose, triangular clusters of brilliant golden yellow, spotted with purple on the reflexed petals. It produces a splendid flowering plant; 5 feet high.

Kelloggi *Each 85c, Doz. \$8.50*

A rare and beautiful Lily, growing 2 to 3 feet high, bearing closely recurved "pink" flowers like those of the "Turk's Cap" Lily. Very graceful and fragrant. It succeeds best where the roots are shaded.

Leichtlini *Each 65c, Doz. \$6.50, 100 \$45.00*

A beautiful Japanese Lily with much the same habit as *Lilium Tigrinum* or *Tiger Lily*, but the color is mostly pale yellow with dull red spots. Prefers a sandy loam. An excellent variety. July-August. 4 feet.

***Maxwill (Hybrid)** *Each 65c, Doz. \$6.50, 100 \$45.00*

A new hybrid, being a cross between *Lilium Leichtlini* var. *Maximowczii* x *Lilium Willmottiae*. In its general habit and pyramidal inflorescence this hybrid is similar to *Lilium Willmottiae*, but the blooms are lighter in color, the stamens are longer and the anthers are orange-red. The spike is tall and very strong, but gracefully slender, bearing as many as 30 or more large recurving flowers. Height 6 to 7 feet. Comes into flower in late July. A splendid Lily acclaimed by Lily specialists the world over. Free flowering and remarkably free from the ordinary Lily diseases. Of easy culture.

Monadelphum Szovitzianum *Each 75c, Doz. \$7.50*

A very beautiful form with pale straw-yellow flowers, usually spotted purplish black. Quite distinct, and probably the finest form in cultivation. Unfortunately, it has become very scarce.

Pyrenaicum Aureum *Each 80c, Doz. \$8.00*

The Yellow Turk's Cap Lily, which is of easy culture. The flowers are greenish yellow, spotted brown, with red anthers. June flowering. Height 2 to 3 feet.

Lilium Maxwill

LILIUM PARDALINUM GIGANTEUM

Sunset Lily

Each 30c, Doz. \$3.00, 100 \$20.00

Vigorous, hardy, of easiest culture, and dependable. Much more cannot be said. Under ideal conditions the stalks attain 7 feet, clothed with luxurious foliage and bearing a dozen or more beautiful flowers in July. The petals are somewhat recurving, and a brilliant sunset-red, base of flower yellow, heavily spotted with small brown dots. The "Sunset Lily" is one of the most satisfactory ever grown. (Color illustration, page 117.)

*Philadelphicum

Each 30c, Doz. \$3.00, 100 \$20.00

A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. Height 3 feet.

Philippinense (Formosanum)

Each 50c, Doz. \$4.75, 100 \$32.00

The substantial blooms are trumpet-like, in fact, they are long lovely white flowers with a beautiful pale emerald-green throat which gives the flower a distinct and delicate appearance. They commence blooming in early August, and flower until stopped by frost. Bulbs when established will produce 3 to 4 spikes each with 4 or 5 blooms. It is a most liberal flowering Lily, to all of which may be added that they are among the easiest grown. Height 4 to 6 feet. (Color illustration, page 118.)

Regale (The Regal or Royal Lily)

(See page 118.)

Sargentiae

Each \$1.50, Doz. \$15.00

The flowers are funnel-shaped, milk-white internally with yellow throat, deep reddish brown externally; delightfully fragrant, on 4-foot stem. July or early August flowering.

Shelburne Hybrid

Each 80c, Doz. \$8.00

Regale Lilies are past; Princeps is fading; and Shelburne Hybrid is in its glory. That expresses the major difference of this sort, with the others. However, some bulbs bloomed with Regale, and some are not yet open, and there is much more variation in the size and form of the bloom. In the coloring, too, is much variation ranging from nearly clear white to heavily blushed sorts. If you can afford but one sort of Lily, buy this one.

Sulphureum

Each \$1.50, Doz. \$15.00

One of the most beautiful Lilies ever introduced. Discovered by W. Boxall and flowered in England as far back as 1889. It has never been imported in quantity until recent years. Perhaps best considered half-hardy, although in many parts of the country it is growing well in the open. It is probably the longest trumpet-shaped Lily in cultivation. We have measured buds just before opening, 11 inches long. The flowers are pleasingly fragrant, pale sulphur-yellow, deepening at the throat. Outside shaded reddish brown, usually two to three on a stem.

*Superbum

Each 30c, Doz. \$2.75, 100 \$18.00

The color in this desirable Lily varies from pale yellow to deep crimson, more or less spotted on the inner surface of the petals. Valuable as a late-flowering Lily. Fine established specimens often reach a height of 10 feet and more, bearing from 20 to 30 elegantly reflexed flowers, arranged in large, conelike clusters. Does well in ordinary garden soil. July-flowering.

*Tenuifolium

Each 25c, Doz. \$2.25, 100 \$14.00

A charming little early flowering Lily with strongly recurved petals of waxy texture; deep scarlet. A gem in the rock garden as in the border. Likes a cool, damp, loamy soil and partial shade, but does well anywhere in well drained soil.

Tenuifolium, Golden Gleam

Each 55c, Doz. \$5.50, 100 \$38.00

A beautiful, robust, and floriferous hybrid of this type, bearing numerous flowers of a pure apricot-yellow. June flowering.

*Tigrinum splendens

Each 30c, Doz. \$2.75, 100 \$18.00

The finest form of Tiger Lily with the richest color. The large, shapely flowers are of a rich dark salmon-orange spotted with glossy black. This Lily is very robust in habit and of easy culture. August-September flowering. (Color illustration, page 118.)

*Tigrinum flore pleno

Each 30c, Doz. \$3.00, 100 \$20.00

The double form. The best example of a double Lily we have.

Umbellatum, Apricot

Each \$1.00, Doz. \$10.00

The flowers are of a lovely shade of delicate apricot-yellow borne in large heads. This Lily is at its best when grown in a cool, shady position.

Umbellatum, Golden Fleece

Each \$1.25, Doz. \$12.50

A striking break from the usual red and orange tones of the Umbellatum group. This fine variety has large umbellate heads of clear golden yellow flowers with a suggestion of scarlet at the tips of the petals. It is very effective as a border plant, and possesses a strong constitution.

*Umbellatum grandiflorum

Each 50c, Doz. \$4.75, 100 \$32.00

A very free-flowering Lily of easy culture. Carries large umbellate heads of light orange-red flowers. (Color illustration, page 117.)

*Umbellatum, Mahogany

Each \$1.00, Doz. \$10.00

The deepest in color yet raised. Comparatively small in stature with heads of fine broad petaled flowers, deep glowing crimson-like, deepening to a rich mahogany-crimson as the flowers pass.

*Wallacei

Each 65c, Doz. \$6.50, 100 \$45.00

A handsome Lily of a beautiful shade of the warmest apricot with rosy shading. Height 1 1/2 to 2 feet.

*Washingtonianum

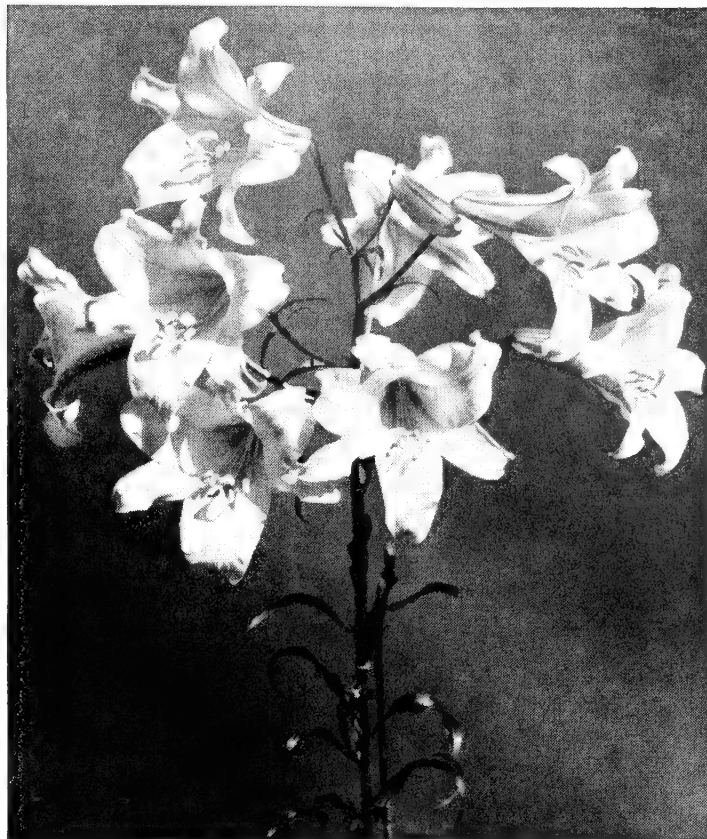

Each 75c, Doz. \$7.50

A beautiful Lily with fragrant drooping white flowers on a stem 4 to 5 feet high. The reverse of the flowers has a tinge ranging from light pink to a deep wine color. This Lily requires a thoroughly drained situation. June-July flowering.

Willmottiae

Each 75c, Doz. \$7.50

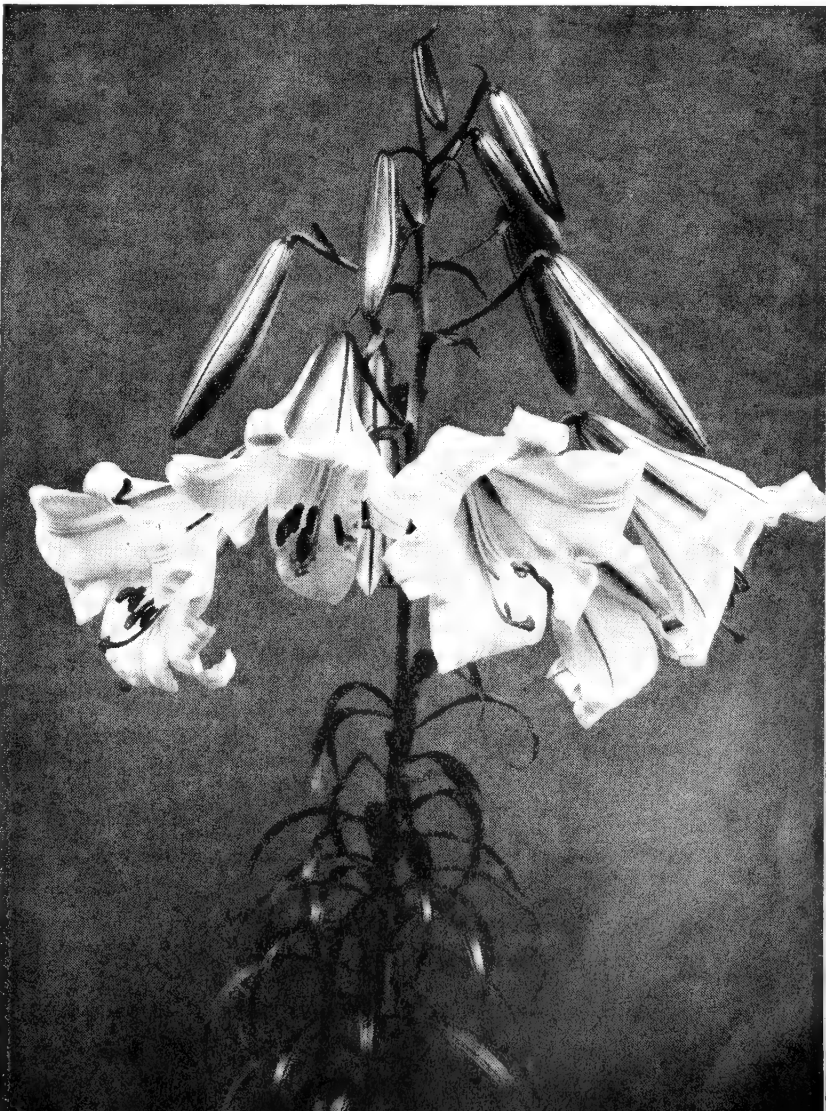

A tall, graceful Lily with slender foliage. Produces 15 to 20 flowers of a vivid orange-red, with recurved petals and numerous small brown spots. A very lovely variety, adapted for the garden but will need staking. July and August. 4 to 5 feet. Largest bulbs.

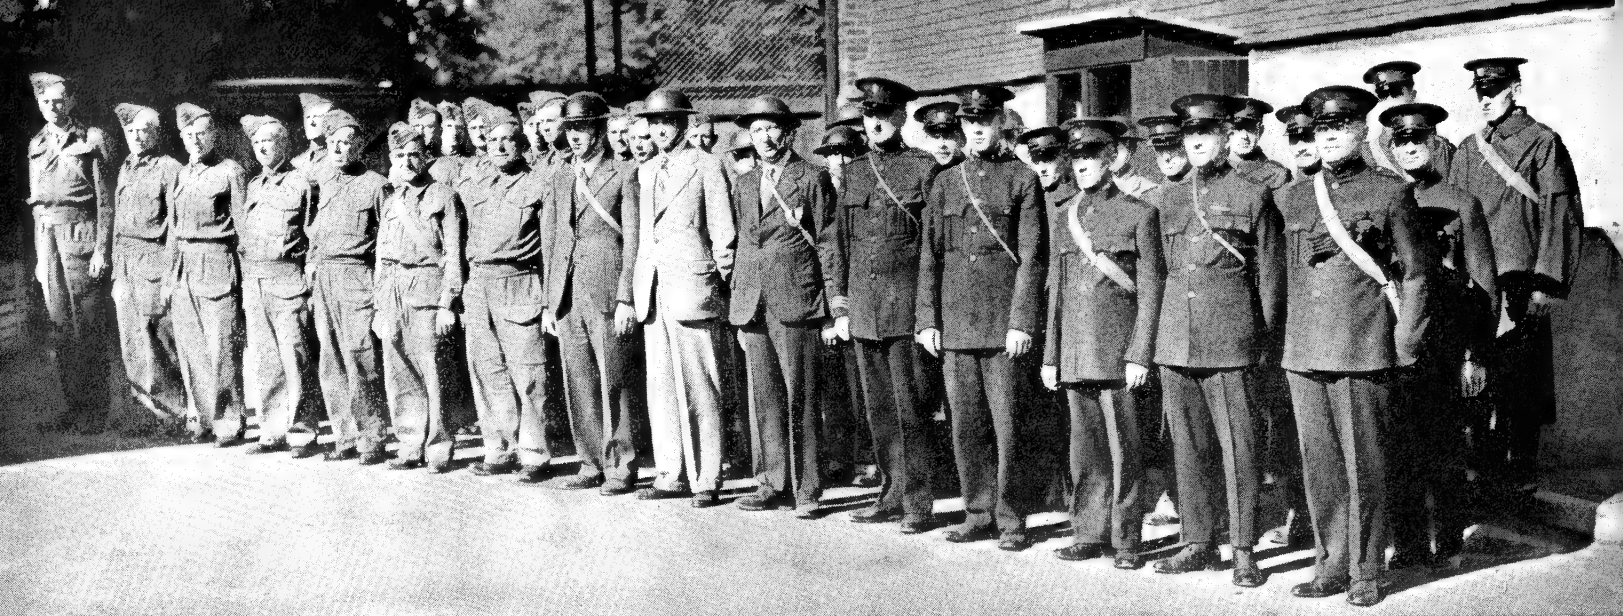

Lilium Centifolium

This gorgeous Lily has beautiful white trumpet-like flowers that are half again as large as those of the Regale Lily. Grows without trouble, is delightfully fragrant. Plant with Madonna Lilies and prolong the flowering period. We recommend it highly.

Hybrid Lily, George C. Creelman (See page 120)

SUTTON'S SEEDS IN WARTIME

TO those customers of the Wayside Gardens who wish to grow the finest Flowers we recommend a perusal of the following pages which contain an offer of the best Seeds in the world—**Sutton's.**

For many years the Wayside Gardens Company have been Agents for the sale of our Seeds in America. Possibly some of their customers may think that owing to the contingencies of war, seeds from England cannot now be obtained but, thanks to the supremacy of the Royal Navy, such is not the case. The Battle of the Atlantic may be in progress, but Sutton's Seeds are still shipped to America and will continue to be shipped. In the words of Mr. Winston Churchill, "There are solid grounds for the confidence we feel."

It may also be thought that, owing to a depleted staff, we have been unable to keep our stocks up to the high standard of previous years. Never was a thought further from the truth. The pedigree strains of Seed that have taken over a century to raise are still grown, selected, cleaned and tested with the same care as before the war.

We should like to thank those who continue to buy our Seeds year after year and to assure them and others who, this season, may be making their first purchase, that the Seeds offered through the Wayside Gardens Company are of the same high quality as supplied to our customers in the British Isles.

We believe that the accompanying photographs will interest our friends in America. The group at the top of the page consists of a few of the Home Guard, A.R.P. Wardens and Special Constables, while that at the foot shows the Company's Fire Brigade. Included in these groups are three of our Directors, Major Noël Sutton, Mr. Martin Sutton and Mr. Owen Sutton; also several Departmental Managers.

Our assurance to all Americans is that notwithstanding the Blitzkrieg, the Battle of Britain, and the Battle of the Atlantic, the prevailing atmosphere in our island home is one of coolness and trust, which may perhaps be best expressed in the words of the prophet: "In quietness and in confidence shall be your strength."

A Selection of Sutton's Seeds

PARTICULARLY FAVORED IN AMERICAN GARDENS

Ageratum, Midget Blue *Per Pkt. 35c*
Silver Medal, 1940 All-America Selections. After many years of selection, a really dwarf Ageratum has been found that will come uniformly dwarf and true to color from seed. Midget Blue is only 3 to 4 inches high, with delicate, fine foliage which is practically smothered with small, true Ageratum-blue flowers.

Alyssum, Violet Queen *Per Pkt. 35c*
A sensational new development in the ever-popular Sweet Alyssum. Unquestionably one of the leading novelties of the season, this revolutionary development presents a needed compact and dwarf free flowering Alyssum with flowers sweetly scented in a rich deep shade of violet. In trials last year the rich color of the blossom was retained throughout the entire season, and the plants were in constant bloom until hard killing frost.

Antirrhinum, Rust-Resistant, Copper Queen *Per Pkt. 35c*
A new super-giant variety which grows over 3 feet high. The color of the flower is a novel bronze, blending to old gold at the base; it is so brilliant that it will remind you of a new penny, fresh from the mint.

Antirrhinum, Rust-Resistant, Rosalie *Per Pkt. 35c*
Bronze Medal, 1940 All-America Selections. This exciting color is entirely new in Antirrhinums—a rich deep rose with an underlying tone of topaz or amber, giving it a richness which makes it stand out conspicuously among all other colors. The tube and lip are the same shade, which greatly intensifies the depth and richness of color. The plants are base-branching and produce from six to eight huge long-flowering spikes on which the florets are decidedly well arranged. We cannot recommend it too highly for both bedding and cutting.

Antirrhinum, Magic Carpet *Per Pkt. 35c*
As rock gardens still stand high in popular favor, any new, easily grown, and attractive plants suitable for the purpose will receive an eager welcome. This, we are sure, will be the case with this new Antirrhinum, which is of almost a creeping habit. It nestles amongst the stones and clothes them as with a carpet. The flowers appear in a variety of soft and pleasing colors.

Aster, Early Giant Wilt Resistant, Rose Marie *Per Pkt. 35c*
A fine rose-colored Aster, bright and rich in tone. Recommended for the home garden where a bed will look well and will furnish the home with cut blooms. Flowers are 4 to 5 inches across, have long florets with solid feathery centers, and are on long stems. Height 1½ to 2 feet.

Cosmos, Sensation Crested *Per Pkt. 35c*
Silver Medal, 1936 All-America Selections. A new double form of the early-flowering Sensation Cosmos. Two forms of double flowers are found, the regular double crested and the newer and novel fluted types, both averaging from 4½ to 5 inches across. The fluted flowers are in a variety of shapes and forms, some with 15 to 20 extra petals growing out from the center. The colors are White, Pink, and Crimson in mixture. Height 3 to 4 feet.

Cynoglossum Amabile Compactum, Firmament *Per Pkt. 35c*
All-America Bronze Medal 1939. One of the most outstanding developments in cut flower annuals. This cut-and-come-again annual Chinese Forget-me-not is a constant source of exquisite blue flowers throughout the entire summer.

Marigold, Mission Giant, Goldsmith *Per Pkt. 35c*
All-America Bronze Medal. Plants of exceptional vigor grow 2 feet high, but they may all attain 3 or even 4 feet in strong land. They develop branches close to the ground, and thus produce veritable bushes; these are covered with large, long-stemmed flowers, which are round, fully double and saffron-gold, 4 to 5 inches across, with quilled and incurved florets, reminding one of a Chrysanthemum. Starts to bloom early.

Marigold, Chrysanthemum-Flowered, Limelight *Per Pkt. 35c*
Of the Chrysanthemum-flowered type, but the effect is novel in that the color is primrose or deep cream. Strong to grow, quick to flower, the leaves are deep green and the plant grows 20 inches high.

Marigold, Yellow Supreme *Per Pkt. 35c*
All-America Gold Medal Winner. By far the most outstanding yellow Marigold for bedding and cutting. The exquisite shade provides a flower of extreme delicacy that will enhance the color scheme of any garden or of any cut flower arrangement. Yellow Supreme is an early flowering, strong growing, prolific variety, free from the offensive Marigold odor, and merits a place in any garden.

Marigold, Scarlet Glow *Per Pkt. 35c*
Honorable Mention, 1941 All-America selections. Brightest red of all Dwarf Double French Marigolds, opening brilliant scarlet; as they age, turning to rich tangerine. Fully double, 1¾ to 2 inches across, borne most profusely on dwarf plants 10 inches in height and with a spread of 18 inches. Begins to bloom in 10 weeks from seed and continues until frost. While perfect for small beds, borders and edging, the stems are long enough to be suitable for cutting.

Marigold, Miniature, Spry *Per Pkt. 35c*
All-America Silver Medal. The little bushes are only 9 inches high. Placed around a bed of Petunias, Antirrhinums, or Geraniums they make an ideal edging. All summer, and right into autumn frost, they are covered with double flowers, each having a crested center of light yellow, surrounded by flat outer florets of maroon. More and brighter flowers is the improvement in this kind.

Marigold, Miniature, Yellow Pygmy *Per Pkt. 35c*
This is a little 8-inch plant, to border a flower-bed or mark the edge of a garden path; it has double light lemon-yellow flowers. 1¼ inches across.

Petunia, Radiance *Per Pkt. 35c*
Silver Medal. A very brilliant and rich rose or cerise color with brown-veined yellowish throat. Begins blooming very early and profusely, of uniform height, branching nicely and an outstanding Petunia. Flowers 1¾ to 2 inches across. Height 1 to 1½ inches.

Petunia, Cream Star *Per Pkt. 35c*
Silver Medal, 1940 All-America Selections. Plants have the finest dwarf, bushy habit ever seen in the Nana compacta group of Petunias. When full grown, they are 1 foot high, neatly rounded, and completely covered with flowers over the sides and top. Flowers grow 2¼ inches across and are shaped like a five-pointed star; soft creamy white deepening toward the throat to a bright golden yellow. Ideally suited for low beds, borders, and edgings.

Petunia, First Lady *Per Pkt. 35c*
All-America Silver Medal. Beautiful blooms of light blush-pink (a rare hue) are 2½ inches across. We recommend this new kind for bedding for two reasons: the color is excellent, while the compact flower-covered plants have a uniformity in size and shape that will impart a touch of the skilled craftsman to your flower-bed. Height 1 foot.

Petunia, Glow *Per Pkt. 35c*
All-America Silver Medal 1940. Of all of the rosy type of bedding Petunias, Glow is most outstanding. The color, rather than fading in the hot sun, becomes intensified and affords a splendid contrast when planted in combination with white, blue, or light pink Petunias.

Petunia, Martha Washington *Per Pkt. 35c*
Well-rounded compact plants 9 inches tall covered with extra-large ruffled blooms of bright flesh pink with wine-red veins leading into a deep dark violet throat.

Petunia, General Washington *Per Pkt. 35c*
A fitting companion to the splendid and ever-popular Martha Washington, famous for its well ruffled blooms, free-flowering habit and fine, compact, ball-shaped growth. General Washington is a rich, velvety amaranth-red with a glistening black throat. Flowers 3 or more inches in diameter.

Petunia, Violet Gem *Per Pkt. 35c*
Honorable Mention, 1941 All-America Selections. Violet Gem, like its predecessors in this class, is a true miniature in every respect. The plants are neat, dwarf and compact. The blooms are just the size you would expect to find on this type of plant, free blooming almost to a fault, because throughout the season the rich violet-blue blooms are so plentiful that they all but completely hide the dark green foliage.

Petunia, Snowstorm Improved *Per Pkt. 35c*
Petunia Snowstorm Improved, since its introduction, has proven to be the most popular pure white Petunia in existence. Of dwarf compact habit, the flowers attain a size of three inches in diameter with a delicate wave in the petals. Our improved strain of Snowstorm has been especially selected for its dwarf and free flowering habit and the seed is 100% true. Petunia Snowstorm lends itself especially well for window box planting.

Petunia, Dwarf Double Blue Brocade *Per Pkt. 35c*
Highest winner of Silver Medal. A new and rich color in a giant fringed type, high percentage of fully double flowers of pleasing fragrance. A free bloomer of good average-sized blooms. Distinct new color and a variety that will prove splendid for bedding or border.

Phlox Drummondii Gigantea, Rosy Morn *Per Pkt. 35c*
Bronze Medal, 1941 All-America Selections. A fine addition to this grand type of annual Phlox. This new variety possesses the large-sized blooms, the free-flowering quality and fine habit of Art Shades and Salmon Glory. An extremely refreshing, gay and bright color; a combination of rose-pink with a white eye.

Phlox Drummondii Gigantea, Salmon Glory *Per Pkt. 35c*
Silver Medal, 1939 All-America Selections. This beautiful Annual Phlox, growing about 10 inches high, is a prolific bloomer. The florets and frusses are enormous, the individual florets measuring 1½ inches in diameter. Color is a pure salmon-pink with a distinct creamy white eye and with its clear, clean, crisp appearance, makes one of the most beautiful color combinations we have ever seen.

Scabiosa, Imperial Giant, Blue Moon *Per Pkt. 35c*
Honorable Mention, All-America Selections. This new type has flowers fully double, extremely large and deep, about the shape of an old-fashioned beehive. The color is a rich, deep lavender-blue, a shade which maintains its effectiveness indoors or out. Plants are extremely upright, 3½ to 4 feet tall.

Scabiosa, Heavenly Blue *Per Pkt. 35c*
Ideal bedding variety because the plants are compact and the flowers are on short stems. They are cone-shaped and a lovely shade of azure-blue. A very early sort, 1½ feet high.

Scabiosa, Peace *Per Pkt. 35c*
All-America Honorable Mention. A fully double, white Sweet Scabious, and an ideal annual for cutting. It may be grown or shown to excellent advantage along with a blue variety. Flowers are shaped like a beehive 1¾ inches across, and are borne on 8-inch long stems.

Zinnia, Giant Crested Mixed *Per Pkt. 35c*
The blossoms average from 4 to 5 inches in diameter, with a full rounded cushiony center surrounded by broad guard petals after the style of a Pyrethrum roseum. The colors included in the strain are charmingly bright and fresh, and contain almost all known colors and shades of color to be found in this most popular of annual plants. Magnificent shades of orange, orange-scarlet, yellow, rose, maize and crimson predominate. As a cut flower, or as an annual for garden ornamentation, they are without peer. The type may be expected to reproduce 60 to 65 per cent true to this large-flowered crested formation.

Zinnia, Lilliput, Black Ruby *Per Pkt. 35c*
Bronze Medal, 1941 All-America Selections. A new color in Lilliputs—deep blackish maroon. An extremely deep shade but by no means dull, for the velvety petal-texture gives it a very rich appearance. Double flowers 1 to 1½ inches in diameter and the same in depth. Borne on long, straight, wiry stems so highly prized for cutting. Plants form erect bushes 2 feet tall, about 1½ feet wide.

Antirrhinum, Sutton's Triumph

Sutton's English

THE WORLD'S FINEST

No comment about Sutton's Seeds is necessary to the experienced gardener. To the beginner or person who has never used Sutton's Seeds we want to say—"you have missed the best." Flowers grown from Sutton's Seeds are the finest—recognized throughout the world. No one else in the world makes it possible for you to grow such sturdy plants and lovely blooms as you can raise from Sutton's Seeds. No other flowers win as many prizes as those grown from Sutton's Seeds. This is a long-established fact.

Antirrhinums - Snapdragons

Snapdragons are popular bedding annuals; also largely used for flowering under glass in the winter. We make a specialty of them. Our strains are selected with the greatest possible care to insure their being true to color and equal to any for vigor. Snapdragons

thrive in almost any good garden soil, and may be brought into flower early in the season by sowing the seed indoors in February and March. Later sowings will produce blooms in the fall.

SUTTON'S TALL ANTIRRHINUMS

Undoubtedly the best strain of Tall Antirrhinums. Flowers very large, produced on long spikes, and invaluable for cutting. These Antirrhinums are indispensable for forming bold groups in large borders, but should not be used for ordinary bedding. Height 3 feet.

233. **Scarlet (Novelty)** *Per packet 25c*
A rich shade of orange-scarlet.

237. **Primrose (Novelty)** *Per packet 25c*
Provides an agreeable contrast with our Triumph Mauve.

409. **Golden Chamois** *Per packet 25c*
One of the most beautiful varieties, the colors being a rare and exquisite combination of the softest pink and bright golden shades, well indicated by the name "Golden Chamois."

401. **Bright Pink** *Per packet 15c*
Delightful shade of pure rose-pink; free-flowering.

403. **Buff-Pink** *Per packet 15c*
An attractive rich shade, which tones well with the yellow, apricot, and flame colors. The flowers of this variety are also prettily frilled.

399. **Coral-Red** *Per packet 15c*
Bright and charming variety with white throat.

391. **Orange King** *Per packet 25c*
A rather paler color than the intermediate variety of the same name; excellent as a center for beds.

395. **Rich Apricot** *Per packet 25c*
Similar in color to the intermediate variety of this name.

393. **Fire King** *Per packet 25c*
Orange-scarlet with white throat.

425. **Pure White** *Per packet 15c*
Striking variety, throwing up numerous long spikes of pure white flowers. Excellent for cutting.

421. **Cloth of Gold** *Per packet 15c*
Long spikes of showy yellow flowers; remains in bloom the whole of the summer.

429. **Superb Tall Mixed** *Per packet 40c*
Enormous flowers borne on long, bold spikes, quite twice the size of the old-fashioned sorts; the colors have been carefully selected, avoiding all dull and uninteresting shades.

SUTTON'S INTERMEDIATE ANTIRRHINUMS

Height about 15 inches, unless otherwise stated.

303. **Malmaison** *Per packet 25c*
Pure silvery pink flowers which are strikingly effective against the dark foliage. Height 18 inches.

299. **Rosy Queen** *Per packet 25c*
Delightful pink variety, with paler pink lips and white throat, producing a superb effect.

279. **Rich Apricot (Bonfire)** *Per packet 15c*
Pink flowers with orange and yellow lips, giving a rich apricot effect.

281. **Pale Apricot** *Per packet 15c*
Handsome flowers, shading from buff-yellow to apricot, with white throat. Height 12 inches.

283. **Buff Beauty** *Per packet 15c*
Lovely shades of soft pinkish buff flowers with white throat.

265. **Orange King (Scarlet Flame)** *Pkt. 25c*
Glowing orange-scarlet, the most vivid flame color yet achieved in Antirrhinums.

269. **Guardman** *Per packet 25c*
Brilliant scarlet variety, with yellow lips.

307. **White** *Per packet 15c*
Pure white flowers freely produced. Height 18 inches.

289. **Yellow** *Per packet 15c*
Very large flowers.

313. **Mauve Beauty (Pale Magenta)** *Per packet 25c*
Pleasing shade of rosy mauve with white throat, but should be grown apart from the pink and red varieties.

317. **Special Mixture of Delicate Shades Only** *Per packet 25c*

SUTTON'S TRIUMPH ANTIRRHINUMS

This giant-flowered strain of intermediate Antirrhinums will be found excellent for borders and general effects. The plants, which are compact and bushy, carry long spikes of large flowers well above the foliage, the central spike being particularly sturdy. A further important feature of this strain is that the upper blooms on the spikes come into flower before the lower ones have faded. Height about 18 inches.

245. **Bright Yellow** *Per packet 40c*
The richest yellow variety we know.

255. **Rich Crimson** *Per packet 40c*
A real crimson, without trace of magenta.

251. **Orange-Salmon** *Per packet 40c*
Rich orange, suffused salmon; a most attractive combination of colors.

248. **Rich Pink** *Per packet 40c*
The deepest and brightest shade of rose yet seen in Antirrhinums.

ACHIMENES, Greenhouse Perennial

111. **Sutton's Superb Mixed** *Per packet 40c*
Profuse blooming plants for pots. The flowers vary considerably in size, and are of the richest colors. Height 1 foot.

ACROCLINIUM

Popular everlasting flowers. One of the earliest annuals to bloom, flowering within 6 weeks from time of sowing. Height 1 foot.

118. **Sutton's Special Mixture Many Shades** *Per packet 25c*

AGERATUM

One of the most effective of our half-hardy annuals, for edgings and small beds, remaining in flower throughout the summer.

131. **Sutton's Imperial Dwarf Blue** *Pkt. 25c*
Habit very dwarf and compact, well adapted for ribbon borders. Height 9 inches.

134. **Little Blue Star** *Per packet 25c*
A charming miniature variety which will be found invaluable for small beds and formal edgings. The plants are literally covered with small bright bluish mauve flowers. Height 3 inches.

Arctotis, Sutton's Special Hybrids (See page 126) COPYRIGHT S&S

Aster, Sutton's Scarlet King COPYRIGHT S&S

Flower Seeds

FLOWER SEEDS

No gardens are envied as much, or are as beautiful as those planted with Sutton's Seeds.

Bold claims—yet they are not idly made. Plant Sutton's Seeds this spring and see for yourself. We know you'll never be content with any others again. The few cents more they cost are of no importance when compared with their high germination and the unfailing results you get. Send for your supply now and start right for the best flower garden you ever had.

ALONSOA

Alonsoas were at one time grown only as half-hardy plants for the border, but are now also largely used with charming effect for greenhouse decoration. Sown in August or September and grown steadily on, they make a surprisingly pretty display in April and May.

151. **Warszewicz compacta** Per packet 15c
Foliage dark green; racemes of bright scarlet flowers. Height 12 inches.

ALYSSUM

158. **Minimum** Per packet 15c
Hardy annual. Beautiful miniature Alyssum, growing close to the ground, with small white flowers. Invaluable for edgings. Largely used in the gardens at Sandringham, one of the Royal Palaces of England.

161. **Little Dorrit** Per packet 15c
Similar to preceding, but the plants are less spreading and the flower-heads stand in an erect mass 3 or 4 inches high.

163. **Sweet Alyssum** Per packet 15c, oz. 50c
Hardy annual. Free-blooming and suitable for beds and edgings; flowers white. Height 9 inches.

166. **Lilac Queen.** Per packet 15c
A dwarf compact form of Sweet Alyssum with distinct pale lilac flowers.

ANCHUSA

Anchusas provide some of the few really blue flowers of our gardens.

188. **Italica, Sutton's Royal Blue** Per packet 40c
Hardy biennial. A compact free-flowering strain of the Dropmore variety, not offered, but with flowers of a richer shade of blue; will be found of great service for midline positions in the border. Height about 2 feet.

193. **Sutton's Bedding Blue** Per packet 25c
Hardy annual. Plants of neat compact habit; the flowers are of a pure rich blue color. Excellent for beds and borders. Height 15 inches.

195. **Sutton's Annual Blue** Per packet 15c
A hardy annual species of branching habit with rich blue flowers borne on slender stems; small foliage. Height 18 inches.

GIANT COMET ASTERS

Elegant flowers resembling the finest Japanese Chrysanthemums. As border subjects these Asters make a brilliant display, and are particularly valuable as cut flowers for bold decoration in large vases. Height 18 inches.

617. **Giant Mixed** Per packet 15c

SUTTON'S SOUTHCOTE BEAUTY (SINGLE)

A popular strain of branching habit which may be described as a giant Single Ostrich Plume Aster. The flowers have long, perfectly formed petals, with comparatively small golden yellow centers. They are carried on long, stiff stems from 12 to 20 inches in length. White, pink, scarlet, mauve, and purple are now saved separately, and the mixed seed includes other beautiful colors. Sutton's Southcote Beauty is of great value as a border plant, attaining a height of 2 to 2½ feet, and is probably unrivalled by any other Aster for cutting and house decoration.

810. **White** Per packet 25c
813. **Pink** Per packet 25c
819. **Mauve** Per packet 25c
822. **Purple** Per packet 25c
825. **Special Mixture** Per packet 25c

SUTTON'S OSTRICH PLUME

Extremely graceful Aster, with large, loose, feathery heads, unsurpassed for table decoration. The branching habit makes this a conspicuous border plant. Height 18 inches.

541. **White** Per packet 25c
562. **Azure Blue** Per packet 25c
A delicate shade of pale blue.
571. **Dark Blue** Per packet 25c
550. **Rose-pink** Per packet 25c
Lovely soft color.
556. **Old Rose** Per packet 25c
574. **Special Mixture** Per packet 25c

SUTTON'S GIANT RAY ASTERS

Immense flowers with long slender petals radiating from the center. Plants of robust habit; invaluable for cutting. Stands well in a wet autumn. Height 2 feet.

577. **Giant White Ray** Per packet 25c
580. **Giant Pink Ray** Per packet 25c
583. **Giant Salmon-Rose Ray** Per packet 25c
586. **Giant Mauve Ray** Per packet 25c

Sutton's Specialties in Asters

755. **Sutton's Scarlet King** Per packet 40c
A most brilliant color and a distinct advance on all other scarlet Asters. In shape the flowers are intermediate between the Victoria and the incurved Giant French, not offered, and are freely produced on plants of erect habit. Height 18 inches.

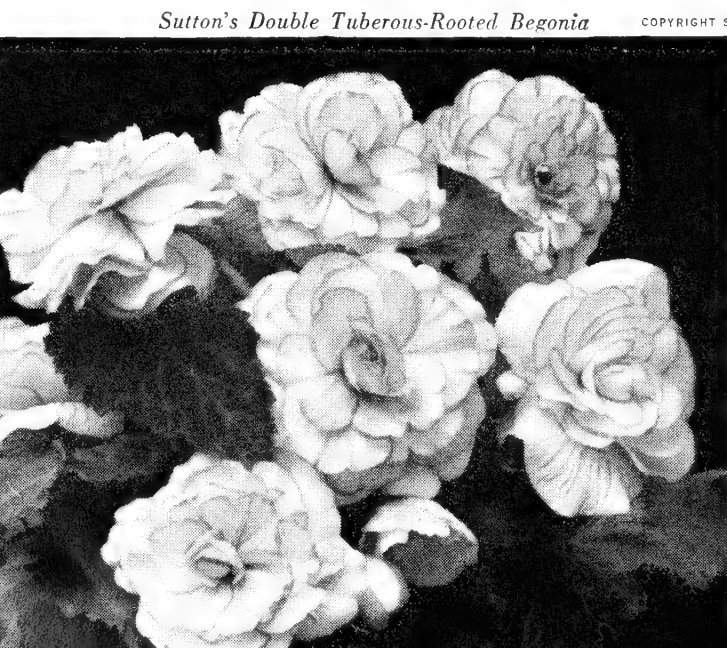

776. **Sutton's Shell-Pink** Per packet 40c
A real giant California Aster, but with still larger flowers, produced somewhat earlier. Apart from its value in the garden, our Shell-Pink is one of the most decorative varieties when cut, the pink petals being attractively curled and interlaced, and the blooms borne on extra long stems. Height 2 to 3 feet.

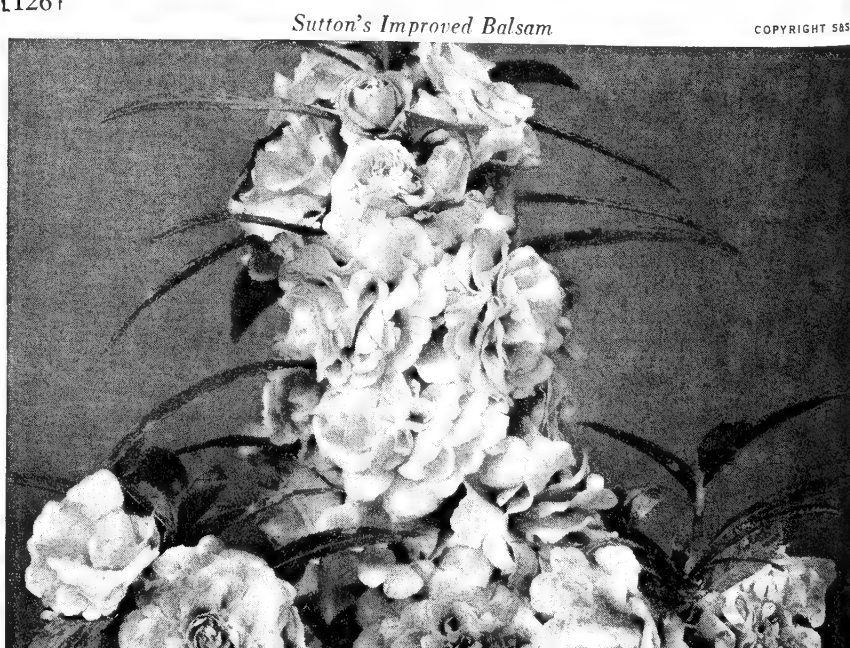

Celosia Plumosa (See page 129) COPYRIGHT S&S

Browallia Speciosa Major (See page 129) COPYRIGHT S&S

Sutton's Double Tuberous-Rooted Begonia COPYRIGHT S&S

Sutton's Improved Balsam COPYRIGHT S&S

ANAGALLIS - Pimpernel

Free-flowering, half-hardy annual, and thrives also from a sowing made in the open ground in April. Height 6 inches.

181. Large-Flowered Blue Per packet 25c

182. Large-Flowered Scarlet Per packet 15c

AQUILEGIA - Columbine

The delicate and refined beauty of the new shades in the Long-Spurred Aquilegias, coupled with their graceful form, has given a great impetus to the culture of the Columbine, and the plant has the additional advantage of thriving in semi-shaded positions. When cut, Aquilegias provide some of the most charming and refined flowers it is possible to have for table decoration. Seed may be sown under glass in March or April, the seedlings being transplanted when large enough; or a sowing may be made in the open ground in June. Hardy perennial.

461. Selected Long-Spurred Hybrids

Per packet 49c

All the best and brightest colors. Height 3 feet.

ARCTOTIS

504. Sutton's Special Hybrids Per packet 40c

Half-hardy annual. These Special Hybrids include the finest range of coloring we have ever seen in Arctotis. They have been raised from crosses made between a number of species, and embrace white, ivory, cream, yellow, orange, red, rich crimson, and also unusual wine shades, many with interesting contrasting basal markings to the ray petals. Extremely useful for bowls and vases, and if cut in the young state the flower heads last in water for a long period, making an attractive day-time table decoration. Height 9 inches.

AUBRIETIA

The lovely spring plant which makes the garden so gay in the early months of the year. Aubrietias are charming companions to Yellow Alyssum and white Arabis. Grows well from seed. Sow in May or June and plant out in autumn. Hardy perennial.

887. Sutton's Large-Flowered Hybrids

Per packet 25c

A wide range of colors including many unusual shades which cannot be fixed and offered separately.

891. Pale Mauve

Per packet 15c

893. Deep Mauve

Per packet 25c

Very showy.

895. Rich Rose

Per packet 25c

A beautiful variety, the cushion-like plants being covered with large rosy carmine flowers. Excellent for spring bedding, edging and rock-work.

BALSAM

Balsams are excellent for conservatory decoration, and they are also freely used as border plants and for bedding. Considering the fleshy nature of the stems, it is surprising how well these flowers endure dry seasons and severe storms. Half-hardy annual.

923. Sutton's Improved Camellia-Flowered

Per packet 25c

In its extraordinary size, perfect form and brilliant colors this fine strain of Balsam surpasses all others. Height 18 inches.

BEGONIA - Fibrous-Rooted

Although the Fibrous-Rooted Begonia is best known as a bedding plant it also meets a great need in the greenhouse during the late summer and early autumn months, especially to follow annuals grown under glass for spring and early summer blooming. Sow the seed in February or March, and transplant the seedlings 2 inches apart into boxes. When large enough transfer to pots those required for indoor decoration.

1028. Sutton's Loveliness Per packet 25c

One of the largest-flowered Fibrous-Rooted Begonias, and the clear rose-pink blossoms have made it a great favorite for greenhouse and for bedding.

1034. Sutton's Coral-Pink Per packet 25c

Equally showy as a pot plant or for bedding out.

964. Begonia Lloydi (Tuberous-Rooted)

Per packet 40c

This Begonia has attained a great popularity, and now occupies a position among Begonias similar to that of the Stellata classes of Cineraria and Primula. As a pot plant it is very beautiful, but a still more striking effect is produced in hanging-baskets. Mixed colors.

BEGONIA

Double Varieties, Tuberous-Rooted

From seed sown in February or March, and with generous treatment, plants may be flowered within 6 months. Prick off the seedlings into pans or small pots as fast as they become large enough, shifting on to larger pots as growth requires.

Double Begonias, besides being most useful throughout many months of the year under glass, make invaluable summer bedding plants, owing to their sturdy free-flowering habit.

961. Sutton's Double Mixed Per packet 40c

Our mixed strain includes charming intermediate shades as well as red, white, yellow, and cream, etc., which cannot be "fixed" separately.

Single Varieties, Tuberous-Rooted

Notwithstanding that Double Begonias have come prominently to the front in recent years, the single varieties retain their popularity for bedding and conservatory decoration. The flowers are very lovely both in form and coloring. The seed may be sown as advised under Double Begonias.

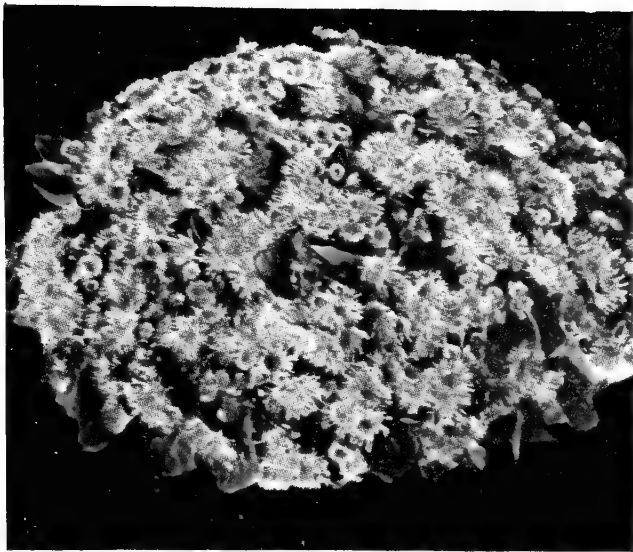

1011. Sutton's Frilled Mixed Per packet 40c

Flowers erect and delightfully frilled; chiefly delicate shades.

971. Sutton's Prize Single Mixed

Per packet 40c

Saved from the richest and most varied flowers. All shades of color are included from the deepest crimson to the lightest pink, as well as orange, yellow, and white.

Ageratum, Midget Blue (See page 123)

Petunia, First Lady (See page 123)

Petunia, Cream Star (See page 123)

Scabiosa, Peace (See page 123)

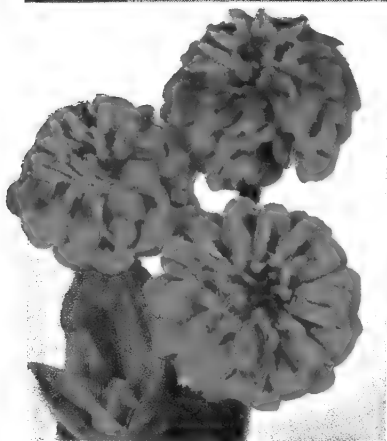

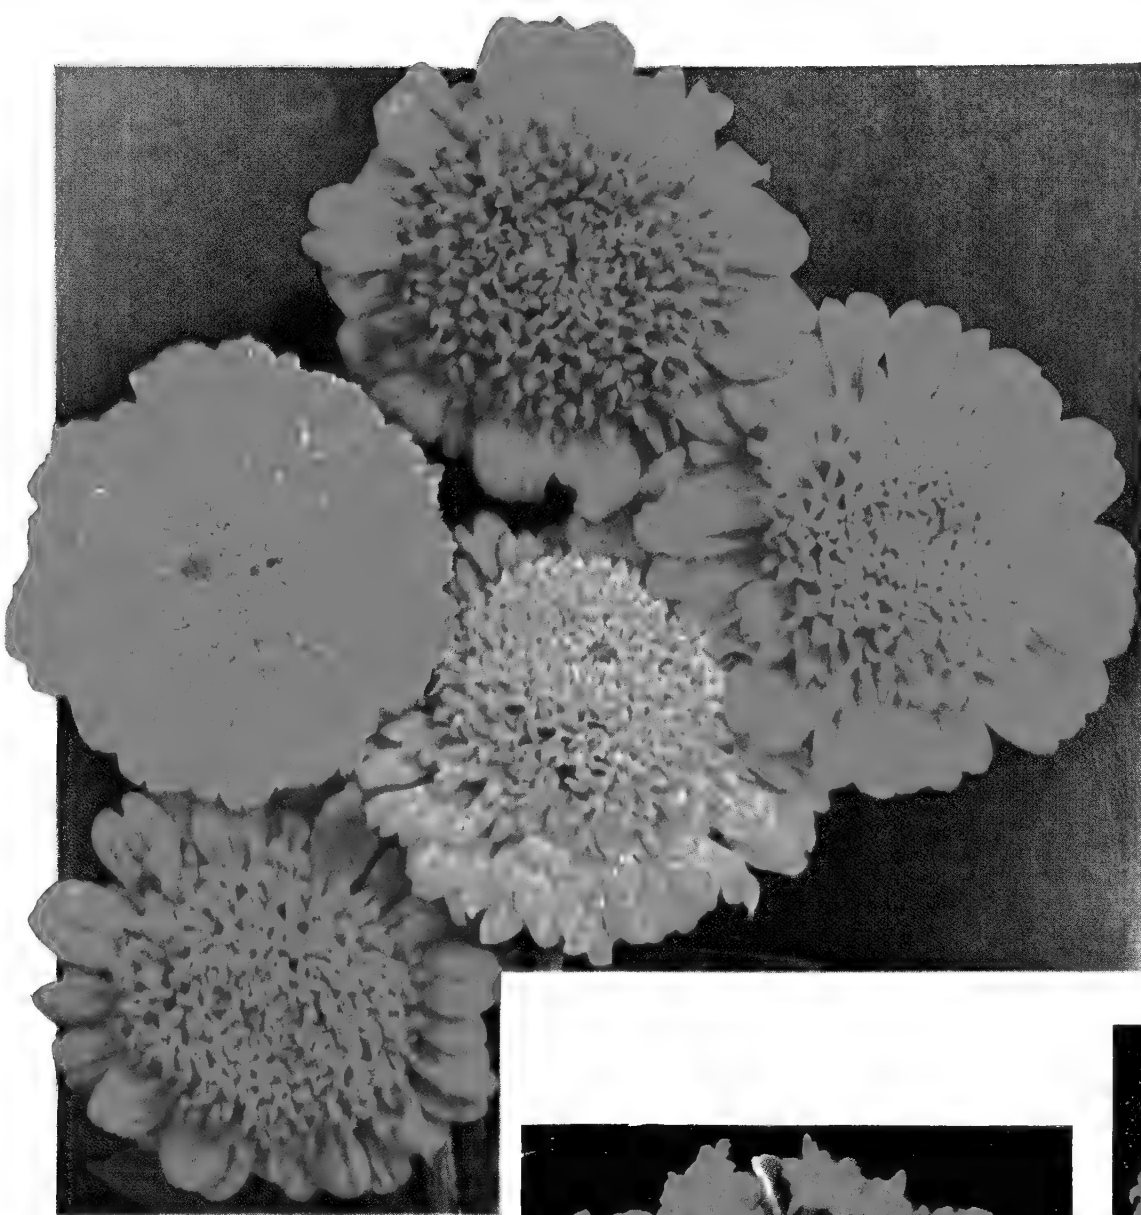

Petunia, Blue Brocade (See page 123)

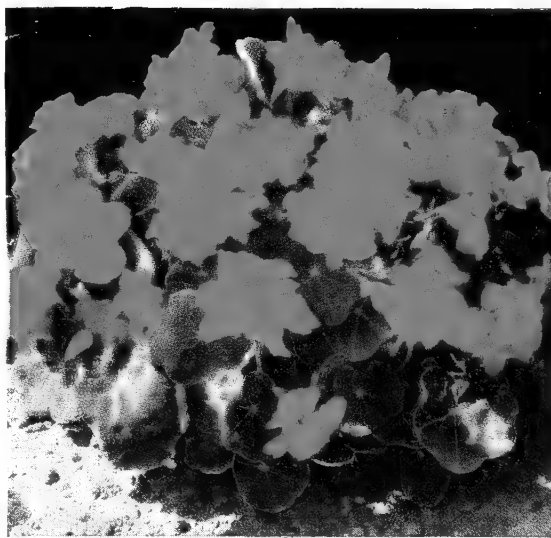

Petunia, Glow (See page 123)

Crested Zinnias

Giant Crested Zinnias are the result of many years' selection work on a strain produced by crossing the Dahlia-flowered and Scabious-flowered types. The blossoms average from 4 to 5 inches in diameter, with a full rounded cushiony center surrounded by broad guard petals. The colors included in the strain are charmingly bright and fresh, and contain almost all known colors and shades of color to be found in this most popular of annual plants. Magnificent shades of orange, orange-scarlet, yellow, rose, maize and crimson predominate. As a cut flower, or as an annual for garden ornamentation, they are without peer. The type may be expected to reproduce 60 to 65 per cent true to this large-flowered crested formation.

Zinnia, Black Ruby (See page 123)

Nasturtium, Golden Gleam (See page 136)

Marigold, Goldsmith (See page 123)

Sutton's Dwarf Hybrid Candytuft (See page 129)

BROWALLIA

1076. **Speciosa major** *Per packet 40c*
Valuable perpetual-flowering greenhouse perennial, neat in habit, and of the easiest possible culture, producing numerous large bright blue flowers, relieved by a white throat. They are exceptionally valuable in the garden, blooming all summer and retaining their neat appearance. Do well in sun or light shade. Height 2 feet.

CALCEOLARIA

Greenhouse Biennial

The seed may be sown from May to July. It should be started in pans and placed in moist heat; cover the seeds with a mere dusting of fine mould and water moderately. On the appearance of the second leaf promptly prick off the seedlings into pots.

1091. **Sutton's Perfection** *Per packet 65c*
Gold Medal. Diversity of color, immense size, and profusion of flowers are the characteristics which have established the supremacy of the Perfection strain, and to maintain its pre-eminence we continue to cross the finest flowers, and from these alone our seed is saved. Mixed colors.
1094. **Sutton's Art Shades** *Per packet 65c*
The range of unusual and beautiful soft colors included in this strain will charm all who grow it. Strong yellows and browns have been avoided, leaving only shades of apricot, rose, terra cotta, etc. The plants possess the perfect form and robust habit of our Perfection Calceolaria, from which this strain has been selected.
1105. **Dwarf Mixed (Multiflora nana)** *Per packet 65c*
This strain has become popular in recent years for indoor decoration in pots, owing to its dwarf and compact habit. The flowers, which are smaller than the large-flowered types, are produced in great profusion in a wide range of beautiful colors. Height 1 foot.

CAMPANULA

Campanulas are delightfully graceful subjects for borders and beds, and can be grown with the greatest ease in all gardens. They are also extremely useful for conservatory and house decoration, as the plants are exceedingly beautiful when in bloom.

1167. **Persicifolia grandiflora, Sutton's Special Hybrids** *Per packet 40c*
Embracing single, semi-double, and double flowers. The colors include various pleasing shades of mauve, blue, and purple, as well as pure white. Hardy perennial.
1171. **Sutton's "Basket" Campanula Pkt. 40c**
Very similar to the favorite pale blue *C. isophylla*, which, unfortunately, cannot be grown from seed. The strain we offer makes a charming plant for hanging-baskets, and is extremely lasting. Half-hardy perennial; if sown early will flower the same year.
- 3598A. **Grandiflora** *Per packet 15c*
(*Wahlenbergia*, or *Platycodon grandiflorum*.) A fine Campanula, with very large, glistening, deep blue, erect flowers. Height 2 feet. Hardy perennial.

Candytuft, Sutton's Improved White Spiral

Calendulas

Single Varieties

1143. **Sutton's Single Hybrids** *Packet 15c*
Single Calendulas are very attractive and our strain shows a beautiful range of delicate shades of cream, primrose, buff, apricot, and orange. Height 1 foot.

Double Varieties

1126. **Sutton's Orange King** *Per packet 25c*
A splendid variety of Calendula with enormous orange flowers, perfectly double and beautifully formed. This is the strain which is now so much grown for the cut-flower market.
1129. **Sutton's Lemon Queen** *Per packet 15c*
A charming variety, bearing very large double flowers of a pleasing clear lemon-yellow. An admirable companion to Sutton's Orange King.
1135. **Sutton's Art Shades** *Per packet 25c*
A mixture of attractive and uncommon shades of apricot, orange, and cream. Particularly useful for cutting.
1137. **Chrysantha** *Per packet 25c*
A distinct type of Calendula. The large double buttercup-yellow flowers with broad drooping petals somewhat resembling a *Chrysanthemum*, and the long stout stems make it an ideal variety for cutting. Height 2 to 2½ feet.
1138. **Orange Chrysantha** *Per packet 25c*
A bright orange form of the well-known *Chrysantha*.
1131. **Radio** *Per packet 25c*
A pretty variety with beautifully quilled petals; flowers of fine form and of a very rich orange color.
1133. **Radio, Golden Beam** *Per packet 15c*
This is the golden counterpart of the above variety.

Candytuft

One of the most popular annuals for furnishing beds and borders with masses of color during the summer months. The Dwarf Hybrid mixture is particularly rich in color. Seed may be sown in March, April, or May, where the plants are intended to stand, and the clumps or lines must be thinned to afford each specimen a fair chance of attaining robust proportions and of producing fine heads of bloom.

1222. **Sutton's Improved White Spiral** *Per packet 25c*
Large, pure white Hyacinth-shaped spikes. Height 1 foot.
1220. **Sutton's Improved Carmine** *Pkt. 15c*
Attractive bright carmine flowers. Height 1 foot.
1216. **Sutton's Dwarf Pink** *Per packet 15c*
A pretty shade of pale pink; flowers freely produced. Height 6 inches.
1218. **Sutton's Lilac Queen** *Per packet 15c*
A dwarf compact variety, with clear mauve or lilac flowers; makes a charming companion to our Dwarf Pink. Height 6 inches.

[129]

COPYRIGHT 585

1213. Sutton's Dwarf Hybrid Mixed

Per packet 25c

Including the best large-flowered dwarf varieties.

SUTTON'S CARNATIONS (*Dianthus Caryophyllus*)

Improved Marguerite

A very carefully selected strain which gives an abundance of beautiful fringed double flowers within 6 months from time of sowing. The plants are unusually robust and make a brilliant display in beds and borders. For table decoration the flowers are especially useful on account of their sweet scent. Over 90 per cent come fully double. Height 18 inches.

1339. Mixed Colors *Per packet 25c*

1341. Perpetual Early-Flowering

Per packet 40c

A valuable race flowering within 6 months of sowing, produced in a great variety of colors. The plants when potted after flowering in the open ground bloom freely throughout the winter. Mixed colors.

1343. Vanguard *Per packet 40c*

Produces exquisitely scented flowers within 6 months from the date of sowing. A succession of these popular flowers can be maintained after the perennial varieties have gone out of bloom. Mixed colors, including Fancy, Self, and Yellow Grounds.

Perennial Varieties

1313. Prize Border Mixed *Per packet 65c*

Including Bizarre, Fancy, Self, and other flowers. The flower stems rise in a great sheaf, literally hundreds on a plant, and the colors are charmingly bright and fresh. Height 2 feet.

1317. American Tree (Perpetual)

Per packet 65c

Saved from the newest and finest named flowers and especially valued for winter blooming. These Perpetuals are also used with striking effect in beds and borders. Sown in February or March and planted out, the flowers appear in August and September, and in the second season great sheaves of bloom are produced.

CELOSIA PLUMOSA, Half-Hardy Annual

Sutton's Giant

Affords a superb display when grown in pots in the greenhouse, and the plants are equally beautiful in beds during the summer months. We offer three colors, identical in habit.

1355. Yellow 1357. Scarlet 1359. Crimson
Each, per packet 25c

Calendulas, Orange King and Radio

COPYRIGHT 585

CANTERBURY BELLS

With the introduction of the annual class of Canterbury Bells it is now possible to have plants of this favorite flower in bloom for a much longer period than formerly. The hardy biennial varieties make a wonderful display in mixed borders in the early summer months and may be sown from April to July, the seedlings being transplanted when large enough. Seedlings may also be potted in October and, provided they are not forced in any way, these will decorate the conservatory and greenhouse in spring. The annual varieties should be sown in March or April for flowering in the open during the late summer and autumn.

Annual Canterbury Bells

A fine strain of single Canterbury Bells which, from a March or April sowing, will bloom in the late summer and autumn of the same year. It is also very useful for growing in pots in the conservatory. Height 2 to 2½ feet.

1301. **Pink** *Per packet 25c*
A soft clear pink shade.
1303. **Deep Rose** *Per packet 25c*
1305. **Light Blue** *Per packet 25c*
1307. **Dark Blue** *Per packet 25c*
1311. **Mixed Colors** *Per packet 25c*

Hardy Biennial

1255. Sutton's Improved Mixed

Per packet 25c

A combination of the finest and most delicate colors in cultivation, including single, double, and Cup-and-Saucer varieties.

ANNUAL SUMMER CHRYSANTHEMUMS

Annual Chrysanthemums, including many new and improved varieties, are as valuable for summer gardening as the perennial flowers have long proved to be for the conservatory in autumn. Grown in pots, the Star class makes a grand greenhouse display in early spring, and out-of-doors gives flowers throughout the summer. Sow in the open ground during March, April, or May, and thin out the plants early. Seed may also be sown in September for an early display in the following summer.

1425. Sutton's Special Mixture

Per packet 25c

Double and single; all the most beautiful varieties.

Sutton's Star Varieties

Height 18 inches

1428. Morning Star *Per packet 25c*

A fine Marguerite with immense flowers of an attractive soft yellow or primrose. The flowers last a remarkably long time when cut.

1432. Evening Star *Per packet 15c*

A deep golden yellow sport from Morning Star, to which it is similar in all respects except color.

1433. Southern Star (Eldorado)

Per packet 25c

This differs from Evening Star in having a rich chestnut-brown center, and will be preferred by many.

Annual Summer Chrysanthemums

Sutton's Cinerarias

The Large-Flowered varieties come perfectly true from seed, and most pleasing effects can be obtained by the harmonious blending of colors. The Royal Blue intermixed with the White variety is very telling, making a very delicate color combination. The mixed hybrids produce a gorgeous show.

Sutton's Large-Flowered Single

1471. Hybrids Mixed *Per packet 65c*

Including a wide range of beautiful colors, many of the flowers having clear white zones. The blooms are of immense size, borne on plants of compact robust habit.

1475. Royal Blue *Per packet 65c*

Flowers extremely rich in color; a charming contrast to the white variety.

1479. White *Per packet 65c*

Lovely single pure white Cineraria, with fine broad petals.

1487. Scarlet *Per packet 65c*

The flowers open vivid scarlet and make a striking contrast with the pure white and more delicately tinted kinds.

Intermediate or Hybrid Varieties

The intermediate class of Cinerarias is especially useful for massing as well as for providing pot plants in the house. The flowers retain the starlike form of the Stellata strain, while the plants have the more robust habit of the large-flowered varieties.

1507. Sutton's Special Hybrids

Per packet 40c

From our numerous crosses we have developed this most interesting strain. The plants attain a height of about 2 feet, and the flowers show many lovely pale "art shades" as well as the richest colored selfs.

1509. Sutton's Blue Shades *Per packet 65c*

We consider this to be the best strain of Cineraria in its class. As the name implies, the shade of blue varies, but the medium sized flowers are much appreciated as pot plants for either greenhouse or hall decoration; the habit of the plant is intermediate between our Superb and Star types, not offered. Height 2 to 3 feet.

Stellata Varieties

As a graceful pot plant for house decoration, or for furnishing vases with lasting cut flowers of elegant lightness, we know of no subject to surpass Cineraria stellata. The range of delicate shades has called forth endless admiration.

1539. Feltham Beauty Mixed

Per packet 25c

The flowers retain the true star shape and mostly have white centers, which greatly add to their beauty. Very effective for greenhouse and table decoration, and the mixture we offer contains distinctive and attractive shades.

Dimorphotheca Aurantiaca Hybrids (pg. 132)

CLARKIA, Hardy Annual

The enormous improvement in the Elegans class, which now includes a wide range of really beautiful colors, has brought Clarkias much into favor. They are not only very largely used in the border, but magnificent specimens 4 feet or more in height are grown in pots for conservatory decoration. For a display in the open ground, sow from March to May, or in September for blooming early in the following summer. August or early September is the best time to sow for spring flowering under glass.

Sutton's International Prize (Elegans) Double Varieties

1551. Sutton's Salmon-Scarlet *Per pkt. 25c*

The brightest colored of all the Clarkias. Flowers brilliant salmon-scarlet, fully double, and produced in long sprays. An indispensable variety for the garden and conservatory decoration in pots.

1563. Sutton's Firefly *Per packet 25c*

Vivid rose-crimson flowers, exceptionally double, and invaluable alike for cutting and border decoration.

1553. Sutton's Salmon *Per packet 25c*

Long graceful sprays of double salmon flowers.

1555. Sutton's Rose-pink *Per packet 25c*

A free-flowering double Clarkia of a pure glowing rose color.

1557. Sutton's Delicate Pink *Per packet 15c*

Similar in habit to the preceding and equally valuable for the garden and cutting.

1559. Sutton's Snowball *Per packet 15c*

Beautiful pure white fully double flowers produced in tall spikes.

1567. Purple Prince *Per packet 15c*

Rich ruby-purple double flowers; makes an attractive bed when grown alone, but should not be mixed with the red varieties.

1570. Sutton's Brilliant Mixture *Pkt. 25c*

A selection of the finest double Elegans varieties, all dull colors being excluded.

COPYRIGHT S&S

COREOPSIS (Calliopsis)

Coreopsis is one of the best of our annuals. The flowers are especially valuable for town gardens, where they flourish even under adverse conditions.

1651. Sutton's Special Mixture Pkt. 25c

A selection of the brightest and richest colored large-flowered varieties.

1657. Dwarf Mixed Per packet 15c

Choice and very showy strain, having flowers quite as large as those of the *Tinctoria* race, but borne on compact plants 12 inches in height. Blooms profusely during summer and autumn. Excellent for dwarf borders and edgings.

CORNFLOWER - *Centaurea*

Cornflowers are the hardest of annuals and will grow anywhere. The Pink is a charming color, and our Special Mixture contains an extraordinary variety of beautiful shades.

1688. Double Pink Per packet 15c

A great improvement on the original pink variety, and the flowers are more lasting when cut.

1687. Double Blue Per packet 15c

Flowers of intense color; true "Bachelor's Button" shape.

1685. Sutton's Special Mixture Pkt. 25c

A fine selection of brilliant colors and extra full flowers.

1693. Double Dwarf Blue (Jubilee Gem) Per packet 25c

A dwarf compact variety growing about 12 inches high and bearing an abundance of deep blue double flowers.

Coreopsis (Calliopsis), Sutton's Special Mixture

COPYRIGHT S&S

Cosmos - *Cosmea*

Cosmeas are among the finest annuals for table decoration, and for their long period of flowering they are invaluable in the mixed border. Disappointment is often caused by sowing a late-flowering strain. Our early-flowering varieties begin to bloom as soon as planted out, and continue in flower until cut down by autumn frosts. The best results are obtained by sowing in pots during February and transplanting immediately when the first flowers appear in May or June.

Sutton's Early-Flowering, Single Height 3 feet.

1708. White Per packet 15c

1709. Rose Per packet 15c

1710. Crimson Per packet 15c

Beautiful wine-red.

1711. Mixed Per packet 25c

1713. Sutton's Pink Beauty Per packet 25c

An early-flowering dwarf single variety producing an abundance of attractive rose-pink flowers. Height 2 feet.

Sutton's Early-Flowering, Double

This early-flowering class blooms within 10 weeks from a spring sowing, and even earlier if the plants are allowed to become slightly "pot-bound" before putting out in beds and borders. The "doubling" is not quite fixed and a percentage of single flowers is produced, which, however, are very lovely.

1716. Double White Per packet 25c

1717. Double Rose Per packet 25c

1718. Double Crimson Per packet 25c

A rich claret color.

1721. Double Mixed Per packet 40c

COSMOS, Orange Flare

Per packet 40c

A new, golden orange Cosmos blooming very early. Flowers may be had 90 days after sowing of the seed. The flowers are 3 inches across and borne in great profusion. A 1935 novelty of great worth.

COLEUS

1604. Sutton's Prize Per packet 65c

Seed carefully saved from one of the finest collections of named and hybridized varieties. Mixed colors.

CYNOGLOSSUM - Hound's Tongue

1787. Sutton's Annual Blue Per packet 15c

A beautiful turquoise-blue variety, which flowers freely all the summer from an outdoor sowing in March or April. Height 18 inches.

1785. Sutton's Blue Gem Per packet 25c

An early-flowering hardy biennial producing large sprays of brilliant blue Forget-me-not-like flowers. Will be much appreciated in dwarf borders for the rare color it gives in the early summer months. Height 18 inches.

COTULA BARBATA

1727. Per packet 25c

An interesting little annual from South Africa. The plants are dwarf and compact and bear an abundance of small yellow, button-like flowers. A very suitable subject for edgings and for rockwork. Height 3 inches. Half-hardy annual.

CYCLAMENS, SUTTON'S TRIUMPH

The introduction, several years ago, of the first large-flowered Cyclamen—the forerunner of the varieties now in general cultivation—created quite a sensation in the horticultural world. As a result of continued and patient experiment, extending over many years, we have now evolved a race of Cyclamens which marks an even more pronounced advance than did the large-flowered varieties in their day. In every respect Sutton's Triumph Cyclamens are superior to the sorts now usually grown.

1741. Triumph White Per packet 65c

White Cyclamens have always been popular, and this new strain is superior in every way to the older forms of white.

1745. Triumph Salmon-Pink Per packet 65c

A dainty, yet bright and decorative shade of salmon-pink. Pleasing at all times, but invaluable during the dull winter months.

1747. Triumph Salmon-Scarlet Per packet 65c

Of vivid coloring, its only counterpart being the shade seen in the Grenadine Carnation. Plants in full flower produce a wonderful spectacle.

1768. Giant Mixed Per packet 25c

For those of our customers who may prefer to grow the old large-flowered varieties we are retaining this mixture, which includes the usual wide range of attractive colors so long associated with our strain.

1775. Unique Per packet 40c

A beautiful fringed giant crimson and white Cyclamen, which shows color in the fringed portions of the petals as well as at the base.

1765. Triumph Special Hybrids Per packet 65c

Practically every shade commonly known in Cyclamens is included in this special mixture, as well as others not usually associated with this flower. The wonderful vigor and health of the plants make their cultivation quite easy. We confidently recommend these hybrids to all who are fond of new and rare colors.

DAISY - *Bellis Perennis*; Hardy Perennial

Double Daisies rank among the most valuable plants for spring gardening, and beds composed entirely of these flowers give a very pretty effect. Seed should be sown in June to give strong plants for putting out in October, from which an abundance of flowers will be produced in the spring, lasting well into the summer.

1842. Sutton's Quilled Salmon-Pink Per packet 25c

A favorite color in this class.

1841. Sutton's Quilled Bright Red Per packet 25c

The quilled double flowers, which are of a most pleasing color, are distinct in character.

DAHLIA, Half-Hardy Perennial

One of the greatest marvels to the numerous visitors to Sutton's trial grounds during past summers has been the display of Dahlias, flowering from seed within six months from date of sowing. Many of the blooms were of extraordinary size and coloring, and equal to named varieties.

1797. Sutton's Mammoth Decorative Mixed

Per packet 65c

A fine strain of Double Dahlia, producing truly gigantic blooms measuring from 8 to 10 inches in diameter. The flowers are well displayed on plants 5 feet in height, and may be cut with foliage for bold decoration in large bowls. Mixed colors.

1805. Sutton's Dwarf Border Mixed

Per packet 40c

An excellent strain for border work, especially where the taller varieties are not suitable. The plants reach a height of about 2½ feet and do not require staking. The small double and semi-double flowers, in a wide range of colors, appear well above the foliage, and are excellent for vases when cut.

Coltness Hybrids

The perfect form of the well-known Coltness Gem is reproduced in this hybrid strain; the plants are of ideal habit and very free flowering. Height about 2 feet.

DELPHINIUMS, Hardy Perennial

Delphiniums furnish our gardens with flowers of great beauty in form and color. The charming shades of blue contained in the improved Hybridum Mixture are especially attractive and provide a striking effect in the border during the early months of summer. They can be grown quite easily from seed, from which it is now possible to produce the best colors and shades, many flowers being equal to the finest named sorts.

1869. Hybridum, Sutton's Improved Mixed Shades

Per packet 40c

Very beautiful strain with large, handsome flower spikes, in a variety of pleasing shades. Height 3 to 5 feet.

1885. Dwarf Porcelain-Blue

Per packet 25c

The flowers are of the purest pale porcelain-blue. Can be flowered as an annual if sown early.

1887. Blue Butterfly

Per packet 25c

A brilliant blue variety of compact habit which can be flowered as an annual if sown early. Valuable for small beds and as an edging to taller plants. Height 15 inches.

DIANTHUS HEDDEWIGI (Japanese Pink)

Flowers very large and of the most brilliant colors, varying from pure white to the richest crimson, while many are beautifully laced or striped. For bedding purposes they are of immense value during the entire summer, and they also furnish elegant flowers for bouquets. Half-hardy biennial. Height, except The Mikado, 6 to 9 inches.

1905. Sutton's Fringed, The Mikado

Per packet 25c

Large single and semi-double flowers, with petals finely cut into a lacelike fringe. The wonderful lacing and coloring cannot fail to win admiration. Height 18 inches. Mixed colors.

1911. Pure White

Per packet 15c

Large pure white flowers in great profusion.

1913. Salmon Queen

Per packet 25c

One of the most attractive varieties of Dianthus. Flowers large, elegantly lacinated, and of a lovely salmon-pink shade.

1915. Scarlet Queen

Per packet 25c

Vivid scarlet flowers, giving a most striking effect when massed.

DIMORPHOTHECA -

Star of the Veldt; Hardy Annual

The Dimorphotheca is one of the quickest of our annuals to bloom, and may often be had in perfection within 6 weeks from an open-ground sowing made in April. Rich orange color of the type has become extraordinarily popular wherever grown, as also have the apricot and lemon colored varieties. In addition to its great value for bedding, the Dimorphotheca can be usefully employed on rockeries, and it also makes a pretty showing in the conservatory or greenhouse.

1883. Sutton's Apricot

Per packet 25c

A charming variety with soft apricot colored flowers; well worth growing separately as a bedding plant.

1885. Sutton's Lemon Queen

Per packet 25c

Brilliant lemon colored flowers, well set off by the blue-black central zone.

1889. Aurantiaca (Orange Daisy)

Per packet 15c

Gorgeous orange flowers produced in the greatest profusion on plants with neat foliage. Flowers within six weeks from time of sowing. One of the most brilliant and lasting summer bedding plants, continuing to bloom until cut down by frost.

1911. Aurantiaca, Sutton's Special Mixture

Per packet 25c

Various colored hybrids, including a wide range of shades of primrose, apricot, buff, and salmon, as well as delicately tinted white flowers.

1912. White (Calendula pluvialis ringens)

Per packet 15c

A most attractive variety. Height about 10 inches. The pure white flower, with blue zone, is very effective; extremely free blooming. The plant should be given a sunny position.

DIDISCUS COERULEUS - Blue Lace Flower

1960. *Per packet 25c*

This annual is very largely grown in America as the "Blue Lace Flower," and is charming as a pot plant or for cutting. It is quite hardy, and the beauty of its form and coloring is best appreciated when grown in full sun. *Trachymene coerulea* is another name for this plant. Height 18 inches.

ECHIUUM

This hardy annual makes charming subjects when grown as pot plants in the conservatory, as well as being extremely useful in the open border.

2017. Sutton's Blue Bedder

Per packet 25c

A compact form growing 12 to 15 inches high, with deep blue flowers. The plants remain in bloom many weeks. We consider this variety to be most useful for bedding purposes.

ESCHSCHOLTZIA -

California Poppy

Perennials, usually grown as hardy annuals.

For several years past we have paid great attention to this flower, and now offer a number of extremely beautiful varieties which show quite a distinct range of most brilliant coloring. Only those who have used Eschscholtzias for summer bedding have any idea of the gorgeous effect produced by these plants. They are 1 foot in height unless stated otherwise.

2063. Sutton's Red Chief

Per packet 25c

A distinct shade, the flowers being a rich red-mahogany throughout; early flowering. Plants of compact habit and particularly useful for bedding purposes.

2059. Sutton's Orange Prince

Per packet 25c

Large bright orange blooms. Height 1½ to 2 feet.

2071. Sutton's Buff-Pink

Per packet 15c

Distinct shade of Eschscholtzias. Beautiful large frilled flowers of deep creamy pink which will be much appreciated.

2061. Sutton's Flame

Per packet 15c

Gorgeous coloring of coppery orange-scarlet, and one of the most vivid of the section. Our selection is a great improvement on the original stock.

2055. Sutton's Special Mixture

Per packet 25c

Including many new shades, which create a most brilliant display.

2057. Sutton's Fireglow

Per packet 40c

This outstanding variety represents the brightest orange Eschscholtzia we have yet seen. The glowing color is carried right through the petals, giving a very rich effect in a mass. Flowers of large size, borne in great profusion well above the foliage. One of the earliest Eschscholtzias to bloom, and continues throughout the summer.

2065. Sutton's Aurora

Per packet 25c

A great advance in Eschscholtzias. Flowers delicate peach-pink and cream in color, silky in texture and of good size. Plant upright in habit and very free blooming.

Sutton's Annual Lupines (See page 135)

COPYRIGHT 585

COPYRIGHT 585

Dianthus Heddwigi

DIGITALIS - Foxglove; Hardy Biennial

By carefully choosing the positions, the majestic grace of the wild Foxglove can be well reproduced in our gardens, and moreover the plants will thrive in semi-shaded and damp positions which are otherwise most difficult to fill.

1965. Sutton's Giant Primrose *Pkt. 25c*

The most beautiful Foxglove, with large flowers of rich cream or buff color. Very effective when planted against a dark shrubby background, and also a fine plant for the herbaceous border.

1967. Sutton's Apricot *Per packet 15c*

A hybrid variety with long spikes of charming pale apricot flowers.

EXACUM AFFINE

2127. *Per packet 40c*

Beautiful greenhouse pot plant, producing sweetly scented bright mauve flowers. Biennial, flowering within six months from sowing. Height 9 inches.

GAILLARDIA

The gorgeous colors produced by Gaillardias make these flowers particularly valuable for garden decoration. They show conspicuously in borders, where the plants will remain in bloom for a long period and the flowers afford charming tints for color schemes. As cut flowers Gaillardias are extremely popular for the bold decoration of bowls and vases, for which purpose they should be widely grown.

2150. Sutton's Yellow Queen *Pkt. 25c*

An attractive self-colored variety which comes quite true from seed. The rich golden yellow flowers are borne in great profusion. Valuable for cutting.

2156. Sutton's Large-Flowered Mixed *Per packet 25c*

An exceedingly showy and effective strain of Gaillardia, producing throughout the summer and autumn months large handsome flowers of various colors, including clear golden yellow selfs, brilliant crimson-edged blossoms and others banded with gold. Height 2 to 3 feet.

2152. Sutton's Large-Flowered Primrose Beauty *Per packet 25c*

Very large flowers of clear primrose marked with a broad wine-red band around center. Excellent for cutting, and very lasting.

2154. Sutton's Large-Flowered Crimson Glow *Per packet 25c*

Flowers rich crimson, showing very little yellow. Invaluable for herbaceous borders and for vase decoration.

2158. Sutton's Special Mixture *Pkt. 25c*

Of the finest Double and Single varieties.

GAMOLEPIS

2173. Tagetes *Per packet 15c*

Hardy annual. A pretty lemon-yellow annual edging plant with Daisy-like flowers produced in great abundance. Height 6 inches.

GAURA

2175. Lindheimeri *Per packet 25c*

Succeeds well as an annual. Extremely useful perennial which produces long, graceful sprays of white flowers. Plants from a March sowing commence flowering in July and continue till late autumn; useful for cutting. Height 2 feet.

GESNERIA - Naegelia

2201. Sutton's New Hybrids *Per packet 65c*

A delightful race of Hybrid Gesnerias for the decoration of stove greenhouses and conservatories during the summer and autumn months. The flowering spikes carry numerous bright pendulous blooms including pure white, yellow, salmon-pink, orange, rose-carmine, and rich crimson. Perennial. Height 18 inches.

GILIA

2218. Coronopifolia, Sutton's Hybrids *Per packet 25c*

A magnificent strain of this half-hardy biennial giving long spikes of the most brilliant flowers interspersed with fine Larkspur-like foliage. The colors include vermilion, salmon, apricot, rich pinks, and pure yellow. Succeeds best as a half-hardy annual. Height 3 to 4 ft.

GLOXINIA

2245. Sutton's Triumph Special Hybrids *Per packet 65c*

Perfectly moulded gigantic bells of unequalled brilliance. Although selfs and bicolors predominate, there are others of unusual intermediate shades previously unknown in Gloxinias.

GYPSOPHILA

The following varieties are hardy annuals.

2407. Elegans, Sutton's Crimson *Pkt. 15c*

A rich colored variety for bouquets and garden decoration. Height 18 inches.

2402. Elegans, White, Large-Flowered *Per packet 15c*

Flowers twice as large as the type and more valuable for beds and borders.

2405. Elegans, Delicate Pink *Per packet 15c*

Charming pink Gypsophila well worth growing in addition to the white variety.

GODETIA, Hardy Annual

Godetias are of great value as summer-flowering annuals in the garden, and they also make an effective display in the greenhouse in spring. The plants are quite hardy and extremely easy to grow, and they remain in full beauty for a considerable period. When cut, the long, graceful sprays of the taller varieties make a handsome decoration for vases, and this section is also largely employed as a background to borders of the dwarfier-growing kinds. March and April are the best months for sowing seed in the open for a summer display; for a spring show under glass sow in pans during October.

Tall Varieties With Flowers in Long, Loose Sprays

Height about 2½ feet.

2278. Sutton's Double Cherry-Red *Pkt. 25c*

A beautiful rich color. This variety has become extremely popular.

2280. Sutton's Double Shell-Pink *Pkt. 25c*

An attractive variety with dainty shell-pink, double flowers, loosely arranged in long, graceful sprays.

2281. Sutton's Double Cherry and Crimson Shades (New) *Per packet 25c*

The combination of colors in this new strain, as described by its name, gives the most pleasing effect. Flowers well doubled and plants similar in habit to other varieties in this section.

2282. Sutton's Double Rose *Per packet 15c*

Of distinct and graceful habit, producing long sprays of beautiful large, double flowers of a delicate rose-pink shade, with brilliant carmine centers. Invaluable for cutting. Excellent for borders.

2292. Sutton's Double Mauve *Per packet 25c*

A pretty variety with clear pinkish mauve flowers, of the same habit as the preceding.

2296. Sutton's Double Mixed *Per packet 25c*

A well balanced mixture consisting only of the tall, double varieties.

Dwarfer Varieties With Flowers In Clusters

2317. Sybil Sherwood *Per packet 25c*

The color is a most glorious shade of salmon-pink blended with orange, which is softened by a delicate white border. Height 1 foot.

2337. Double Azalea-Flowered, Cerise-Pink *Per packet 15c*

2339. Double Azalea-Flowered, Bright Crimson *Per packet 15c*

2340. Double Azalea-Flowered, Mixed *Per packet 25c*

ORNAMENTAL CURIOUS GOURDS

Rapid growing and suitable for growing around arbors, trellises, fencing, etc. Fruits are strangely shaped and quaintly marked and colored. The foliage is often curious. Grown for ornament.

6708. Gourds *Per packet 25c*

Sutton's Compact Lobelias

COPYRIGHT 585

HELICHRYSUM, Hardy Annual

Helichrysums are well known everlasting flowers and produce several beautiful colors. They are an ornament to the garden when growing and are everywhere prized for the winter decoration of vases and for durable bouquets. May be sown in the open ground during April.

2455. Sutton's Large-Flowered Mixed

Per packet 15c

Brilliant colors only. Height 3 feet.

HELIOPHILA

2461. *Per packet 25c*

A charming South African annual, with pretty blue, white-eyed flowers which are freely produced in long racemes. The plant may be flowered in the open under half-hardy treatment, and when grown in masses is very attractive. It is, however, seen to the best advantage in the cool greenhouse, where its graceful sprays will overtop a groundwork of the orange Ursinia or apricot Dimorphotheca with great effect. Height 18 inches.

African and French Marigolds

COPYRIGHT 585

HELIOTROPE

2464. Sutton's Sweet-Scented Bedding

Per packet 40c

A valuable strain coming true from seed. Flowers dark lilac, delightfully scented. Plants dwarf and compact. Height about 18 inches.

HEUCHERA

Charming hardy perennial for rockeries and borders; foliage dwarf and compact, above which rise numerous graceful panicles of flowers which are excellent for cutting. Easily grown from seed.

2482. Sanguinea, Sutton's Hybrids

Per packet 25c

Including a large proportion of pretty shades of pink, as well as creamy white, rose, and crimson. Height 18 inches.

HOLLYHOCK (Annual Strain)

2521. Sutton's Annual Mixed *Per packet 15c*

A strain which flowers freely from July onwards, from a sowing made in the open ground in April where intended to bloom, and such plants are singularly free from disease. Our mixture includes semi-double and single flowers, in a wide range of bright shades. Height 4 to 5 feet.

HONESTY

Early-flowering hardy biennial, which will grow under trees. Chiefly prized for its shining silvery seed-pods, which make a useful winter decoration when arranged with the glowing orange fruits of the Winter Cherry. Height about 2 feet.

2523. Purple

Per packet 15c

Bright purple flowers.

IMPATIENS, Tender Perennial

These brilliantly colored subjects are not so largely grown as they deserve to be. They are ideal plants for greenhouse and conservatory decoration, of the simplest cultivation.

2538. Holsti, Orange-Scarlet *Per packet 40c*

A species from East Africa. The flowers are freely produced and make a fine effect in the conservatory. This variety also succeeds well for bedding. Height 18 inches.

IPOMOEA - Japanese

Morning Glory

Many beautiful varieties of climbing Convolvulus are more generally known as Morning Glories. In this country because of our sunny and warm weather, they flower freely out-of-doors; they should be treated as hardy annuals. They are admirably adapted for verandas, trellis work, etc., and all delight in a sunny position.

2548A. Rubro-coerulea (Heavenly Blue), Sutton's Early Flowering *Packet 40c*

1628. Major, White

Per packet 15c

1625. Major, Rose

Per packet 15c

1630. Major, Mixed

Per packet 15c

JACOBAEA, Double

A really beautiful free flowering hardy annual, producing dense heads of double flowers, which are largely grown for bouquets. Height 18 inches.

2562. Mixed

Per packet 15c

KAULFUSSIA AMELLOIDES

An excellent hardy annual for edging and rockwork. Height 6 inches.

2573. Blue

Per packet 15c

KOCHIA TRICHOPHYLLA -

Summer Cypress or Belvidere

2579. Trichophylla

Per packet 15c

A rapid-growing annual of graceful habit, with finely cut, tender green foliage which changes to a rich russet-crimson in autumn. Admirable for borders and for the centers of beds, and makes an elegant foliage plant for pots in conservatory. Height 2 to 3 feet.

LARKSPUR

These annual Delphiniums are quite hardy, and the fine spikes of bloom are exceedingly graceful and attractive. It is usual to put in the seed where the plants are intended to stand, and March and April are the best months for spring sowing. Thin out the seedlings promptly, and give each plant ample room for development, especially when grown on good ground. Larkspurs may also be sown in September for producing an earlier display in the following year than is possible from spring-sown seed.

2633. Early-Flowering, Tall Rocket Mixed

Per packet 25c

An early-flowering strain of tall Larkspur, growing about 3 feet high and producing an abundance of spikes of double flowers. The plants come into bloom at least three weeks in advance of the Stock-Flowered class.

Sutton's Stock-Flowered

A tall growing, branched, double-flowered strain, invaluable for large beds and for cutting. Height 3 feet.

2591. Rosy Scarlet

Per packet 25c

A superb color in Larkspur; as a dinner table decoration it is unsurpassed.

2599. Old Rose

Per packet 25c

A particularly striking shade.

2593. Shell-Pink

Per packet 25c

A beautiful pale pink which associates nicely with the richer Rosy Scarlet.

2595. Salmon-Pink

Per packet 25c

A very pleasing shade.

2597. Rose-Pink

Per packet 25c

Attractive bright rose flowers; quite a distinct shade.

2603. Blue

Per packet 25c

Rich violet-blue.

2601. White

Per packet 25c

A popular variety.

2605. Pale Mauve

Per packet 25c

Delicate lavender-mauve.

2607. Deep Mauve

Per packet 25c

2611. Special Mixture

Per packet 25c

All the brightest colors.

LAVATERA - Mallow

HARDY ANNUAL

The Lavateras, or Mallows as they are more popularly known in gardens, are extremely showy subjects for tall borders and large beds. Lavatera, Sutton's Loveliness, is undoubtedly the finest form of all the Pink Mallows; the imposing flowers are exceedingly rich in color and may be cut on stems of 2 feet or more in length.

2646. Sutton's Loveliness

Per packet 25c

Rich rose-pink. Very effective either as a garden plant or for indoor decoration, the bronzy foliage and stems making a fine foil to the glowing rose-pink flowers.

2650. Alba Splendens

Per packet 15c

Flowers large, glossy, pearly white; valuable for borders and to supply cut material for vases or other decorative purposes. Height 3 feet.

Sutton's Large-Flowered Pale Blue Pansy (See page 149)

COPYRIGHT 585

LEPTOSIPHON

2661. **Hybridus, Mixed** *Per packet 15c*
Plants thickly studded with charming bright flowers of various colors. Height 3 inches. Hardy annual.

LEPTOSYNE

2671. **Stillmani** *Per packet 25c*
One of the quickest annuals, blooming within five weeks from date of sowing in open ground, and the golden yellow single flowers continue in perfection for a long period. Excellent for cutting. Height 18 inches.

LOBELIA

Compact Lobelias

Very dwarf and compact varieties, growing about 4 to 6 inches high, each plant forming a dense ball of flowers. These Lobelias are reproduced from seed with much greater exactness than is the case with any other strain. Though usually grown for edgings, they are very effective in small beds.

2731. **Sutton's Large-Flowered Cambridge Blue** *Per packet 25c*
A charming Lobelia which comes quite true from seed, and is no doubt one of the most popular edging plants now grown. It also makes a delightful ornament for the conservatory when grown in hanging baskets.
2737. **Sutton's Dwarf Royal Purple** *Pkt. 25c*
A distinct and beautiful dwarf, compact Lobelia. The rich purple-blue flowers have a conspicuous white eye.
2735. **Sutton's Bright Blue** *Per packet 25c*
Quite the brightest blue variety; plants of compact habit.
2733. **Sutton's Dark Blue** *Per packet 25c*
The finest dwarf dark blue Lobelia for bedding. Plants very compact, profusely covered with rich blue flowers.

Spreading Lobelias

Profuse blooming, free in habit, and deservedly prized for large beds and borders where great precision is not of paramount importance; suitable also for hanging baskets, rustic work, vases, etc.

2761. **Sutton's "Basket" Lobelia** *Pkt. 25c*
An extremely rich purplish blue trailing variety with pure white eye. Particularly adapted for hanging baskets.
2765. **Light Blue and White (Paxtoniana)** *Per packet 15c*

LUPINUS

Hardy Annual Lupines

The annual Lupines are among the most useful of our garden flowers, either for mixed borders or for house decoration. They are very free flowering, and make a fine show for a small outlay. They include a number of charming colors, many of the flowers being delightfully scented.

2847. **Hartwegi** *Per packet 15c*
A lovely blue and white Lupine; valuable for bouquets. Height 2 feet.
2848. **Hartwegi, White** *Per packet 15c*
Pure white flowers; in other respects similar to preceding.
2849. **Hartwegi, Azure Blue** *Per packet 15c*
One of the prettiest of the section; flowers of a delicate, mistlike blue. Height 2 feet.
2855. **Sutton's Tall Pink** *Per packet 15c*
This is the best pink annual Lupine we know, and it gives an abundance of long, pale pink spikes which are extremely useful for cutting, especially to go with the Azure Blue Hartwegi variety. Height 2½ feet.
2875. **Mixed Annual Lupines** *Per packet 15c*
Including the best varieties. Height 2 to 2½ feet.

LINARIA

The annual Linaria is quite hardy and produces varied and beautiful flowers resembling miniature Antirrhinums; very suitable for bouquets and table decoration. Clumps of Linaria form an interesting feature of the annual border.

2697. **Sutton's Special Mixture** *Pkt. 15c*
All the finest varieties. Height 9 to 12 inches.
2699. **Sutton's Large-Flowered Delicate Shades Mixed** *Per packet 25c*
A dwarf strain of compact habit, with large flowers produced in many distinct and unusual colors. Height 8 inches.

LINUM

2720. **Grandiflorum rubrum (Scarlet Flax)** *Per packet 15c*
Hardy annual. An elegant, free-flowering annual, valuable for bedding; brilliant scarlet flowers. Height 12 inches.

Marigolds

In autumn when many bedding and other plants are past their prime, Marigolds afford a wealth of color that is simply invaluable. The African varieties produce large self-colored blossoms, and a border of these flowers arranged against a dark hedge makes a most effective feature in the garden.

2938. **Sutton's Orange Flame (Novelty)** *Per packet 25c*
The brightest Single French Marigold we have ever seen. The flowers are large and show a yellow base heavily suffused orange-scarlet; very free flowering. Height 15 inches.

Double African

2911. **Sutton's Giant Orange** *Per packet 25c*
Enormous flowers of perfect shape, freely produced. Very rich color. Fine for garden decoration in autumn. Height 2½ feet.
2916. **Lemon** *Per packet 15c*
A very pure color. Height 2½ feet.
2923. **Guinea Gold** *Per packet 25c*
A distinct semi-double type with long, loose petals. Height 2½ feet.
2918. **Dwarf Orange** *Per packet 15c*
Especially valuable for bedding. Very floriferous and blooms about two weeks earlier than the tall variety. Height 18 inches.
2919. **Dwarf Lemon** *Per packet 15c*
As early flowering as the preceding. Height 18 inches.

Single African Marigold

2925. **Sutton's Orange Beauty (Single)** *Per packet 25c*
The petals are charmingly frilled and evenly arranged, giving the flowers a handsome appearance. To prevent the growth from becoming too coarse, this variety should be grown on rather poor soil. Height 2 feet.

Double French

2931. **Sutton's Orange Crown** *Pkt. 25c*
A very distinct variety with flowers of unusual brightness, consisting of crimson petals surrounding an orange crown. Height 1 foot.

Single Dwarf French

2939. **Sutton's Diadem** *Per packet 25c*
Elegant single variety of the same dwarf, sturdy, and free-flowering habit as Legion of Honor, but with bright chestnut-red flowers, margined with yellow.
2941. **Legion of Honor** *Per packet 15c*
Flowers bright clear yellow, blotched with brown. Admirably adapted for beds and ribbon borders. Height 9 inches.
2943. **Fire Cross** *Per packet 25c*
A rich orange counterpart of Legion of Honor, with bright crimson center; very attractive variety.

MESEMBRYANTHEMUM

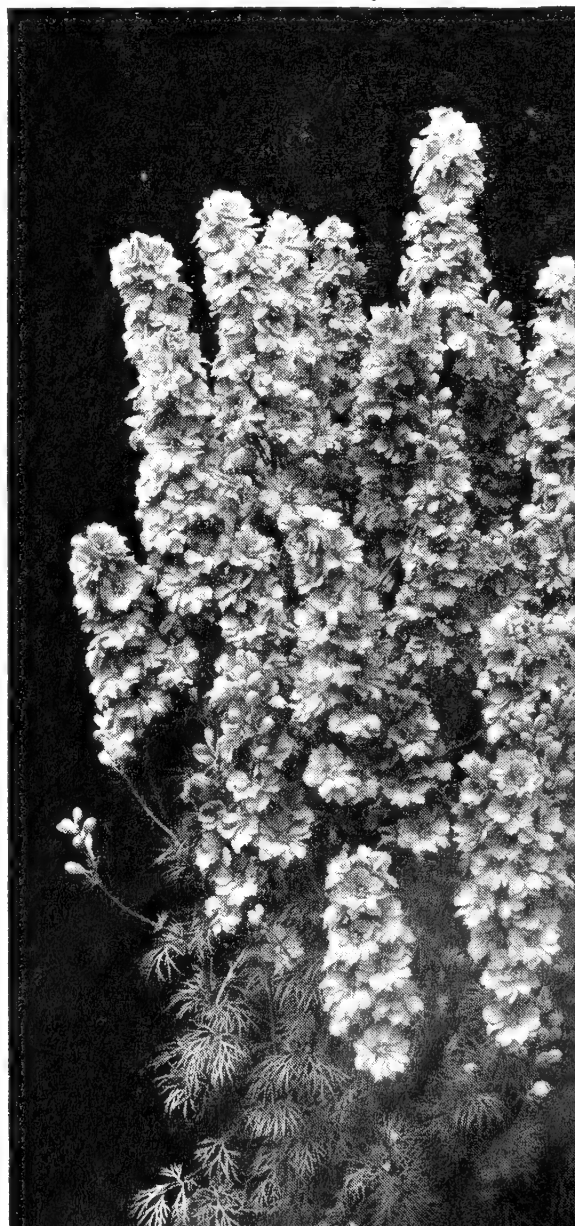

2997. **Criniflorum (Livingstone Daisy)** *Per packet 25c*
Succeeds best under half-hardy treatment. An annual of dwarf, spreading habit. The plants are literally covered with flowers, which are produced in the most delightful tints, including primrose, apricot, and crimson selfs, as well as white edged with rose, pink, and buff.

MICHAELMAS DAISY (Perennial Aster)

Seed of Michaelmas Daisy sown under glass in February produces strong plants which flower in the autumn of the same year. Hardy perennial.

3004. **Sutton's Dwarf Large-Flowered Mixed Colors** *Per packet 40c*
These Michaelmas Daisies are of the Amellus type and produce free-flowering plants 18 to 24 inches in height. The colors range from pale mauve to purple, and also include shades of pink and rose. Very useful for cutting.

Sutton's Stock-Flowered Larkspur COPYRIGHT 585

Myosotis, Royal Blue

Sutton's Nasturtiums

Few other flowers can rival the Nasturtium for brilliant coloring, and when grown in large masses in the garden or in ribbon borders by the sides of paths and drives, the effect is most striking. These flowers have also become very popular for decorating the dinner table and small vases in the drawing room, for which purpose the more delicate shades found in the newer varieties are especially suitable. All the varieties should be grown on poor soil. The flowers then appear above the foliage, but on rich land, or on ground heavily manured, the flowers, however abundant, are masked by the taller growing foliage. In a dry season watering in July and August will prolong the display for weeks.

Lavatera, Sutton's Loveliness (See page 134) COPYRIGHT 58

MYOSOTIS - Forget-me-not

Of all the spring flowers none is more appreciated than Myosotis, especially when grown in abundance and planted in large masses. All the colors are beautiful, particularly the brilliant Royal Blue, which will afford a surprising pleasure to those who have not previously grown this strain.

3061. Sutton's Royal Blue *Per packet 25c*
The most popular of all the different types of Forget-me-not for spring gardening. Early and free-blooming; flowers of the deepest blue produced in long sprays which are excellent for cutting. This variety is also largely grown in pots for the market. From a May-June sowing it may be had in bloom during the early months of the year as well as our Pot Myosotis. Height 12 inches.

3062. Sutton's Royal Blue, Dwarf Strain *Per packet 25c*
A dwarf, compact form of this favorite variety, and will be found very useful for formal edgings and for carpeting beds where the stronger-growing sort is not required. The most valuable to form a groundwork for spring bulbs. Height 6 inches.

3065. Sutton's Pot Myosotis *Per packet 25c*
Forget-me-nots are delightful subjects for flowering indoors during winter, and as they are everywhere welcome, the practice of growing plants in pots is rapidly increasing. Sown in June and potted on, the strain we offer produces fine free growing specimen plants, and a batch should always be reserved for cutting. For table decoration in winter, Forget-me-nots are very telling. Height 15 inches.

DOUBLE GLEAM NASTURTIIUMS

These Nasturtiums are extremely decorative, whether grown in the garden, in pots, or in hanging baskets for the conservatory. The flowers, which are delightfully scented, stand well above the foliage, and the plants when in full bloom are a blaze of color. In habit, the Double Semi-Tall Varieties are intermediate between the Tom Thumb and tall classes, and as each plant throws out a number of short runners, they should be spaced about 18 inches apart in beds to allow for development. The Double Dwarf Varieties form neat, compact plants and are literally covered with bloom. The cut blooms are very desirable for house decoration.

Semi-Tall Varieties

3095. Double Gleam Hybrids *Per packet 25c*
The colors range from the palest primrose through yellow, salmon, cerise, and scarlet to deep crimson and maroon, giving a most brilliant effect.

3105. Double Scarlet Gleam *Per packet 25c*
Fiery scarlet variety.

3103. Double Sunset Gleam *Per packet 25c*
Of the same rich shade of orange-pink as our well known Tom Thumb Sunset variety.

3099. Double Golden Gleam *Per packet 15c*
Large, rich yellow flowers, well doubled.

3101. Double Orange Gleam *Per packet 25c*
The flowers are of a deep glowing golden orange color.

DOUBLE DWARF GLEAM NASTURTIIUMS

A new strain of really double dwarf Nasturtiums which has become extremely popular. The flowers are of the same attractive form as the Gleam Nasturtiums and literally cover the neat, compact plants.

3109. Double Dwarf Gleam Mixed *Per packet 25c*

Contains the same wide range of attractive colors to be found in the Gleam Hybrids.

3111. Double Dwarf Golden Ball Gleam *Per packet 25c*
Similar in color to the well known Golden Gleam.

3113. Double Dwarf Fireball Gleam *Per packet 25c*
A vivid scarlet companion to our Double Dwarf Golden Ball.

TOM THUMB NASTURTIIUMS (Single)

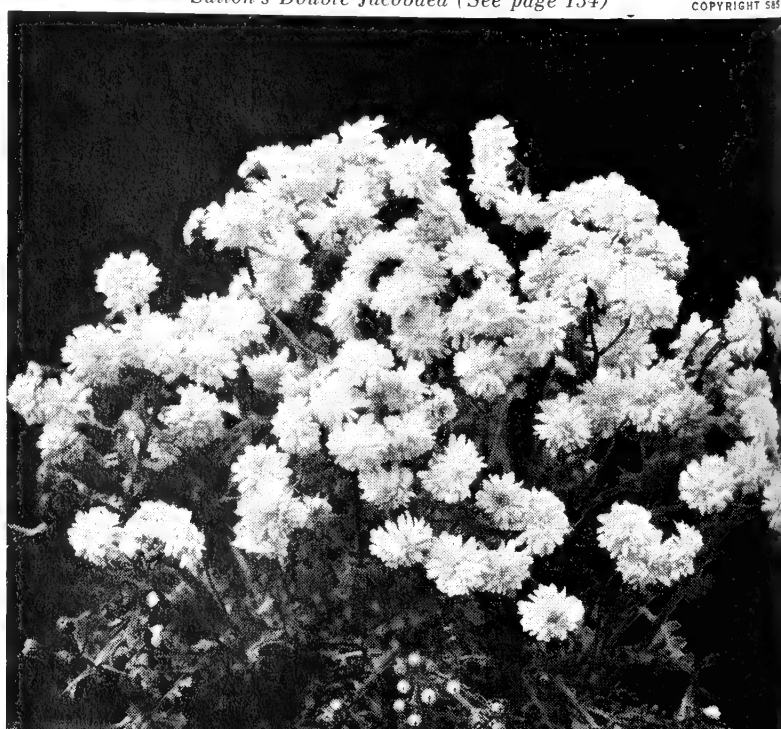

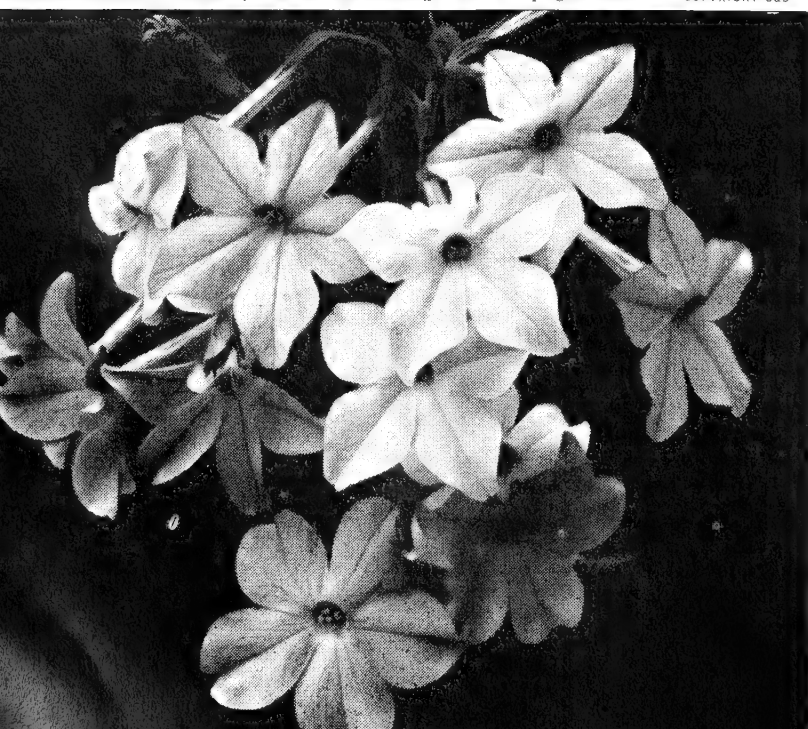

3119. Sutton's Sunset *Per packet 15c*
A beautiful variety of a distinct rich shade of orange-pink. Habit unusually compact and the flowers are produced well above the foliage.

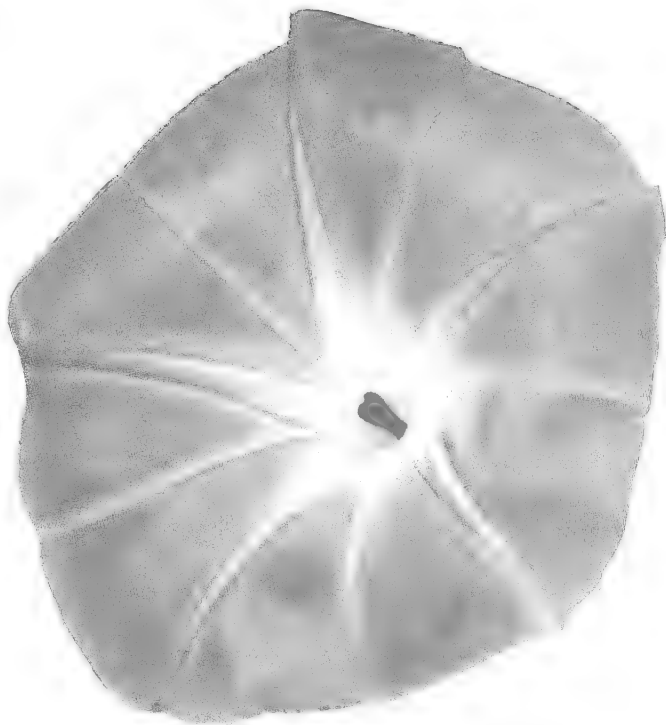

3124. Sutton's Improved Ruby King *Per packet 15c*
Charming rosy carmine flowers, dark foliage.

3125. Sutton's Salmon-Pink *Per packet 15c*
Brilliant salmon-pink.

3139. Yellow (Golden King) *Per packet 15c*

3142. Mixed Tom Thumb *Per packet 15c*

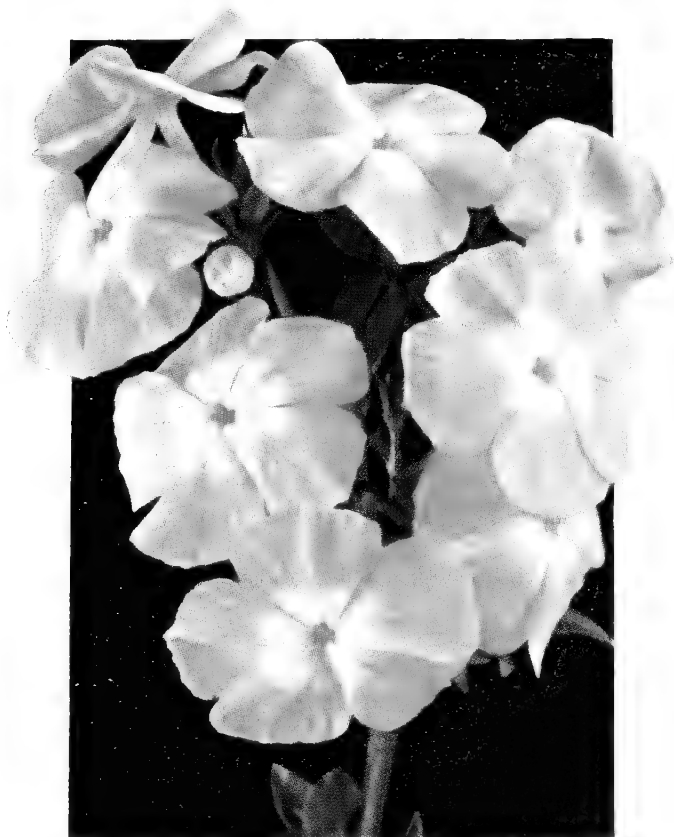

Sutton's Ipomoea (See page 134)
Heavenly Blue Early Flowering Morning Glory

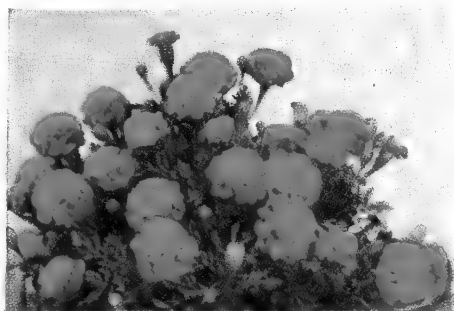

Sutton's Ornamental Gourds (See page 133)

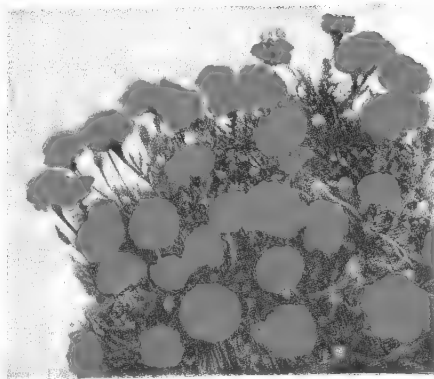

Phlox Drummondii, Salmon Glow (See page 123)

Marigold, Yellow Supreme (See page 123)

Marigold, Spray (See page 123)

Marigold, Scarlet Glow (See page 123)

Cynoglossum, Firmament (See page 123)

Daphne Cneorum - Garland Flower

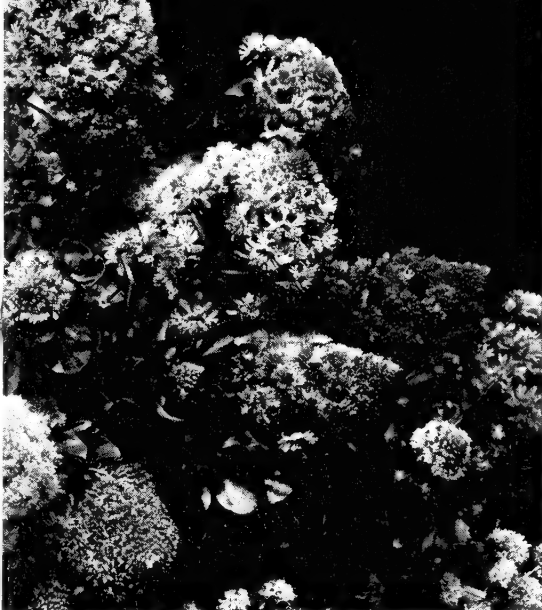

A lovely sweet scented shrub which blooms in fall and spring. See page 177.

Tree Wisteria

Nothing can be more lovely than the Tree Wisteria when in bloom. This specimen may be seen in front of our office. Offsprings from this tree are offered on page 166.

[138]

Sutton's Mignonette

COPYRIGHT 585

MIGNONETTE, Hardy Annual

Constant selection has resulted in the production of giant heads of Mignonette. The sweet perfume of the flowers is greatly appreciated in the house; on a hall table Mignonette makes a handsome ornament.

3011. Sutton's Giant *Per packet 25c*

One of the finest and most sweetly scented Mignonettes; highly recommended. Height 18 inches.

3016. Sutton's Pot Mignonette *Pkt. 25c*

Very dwarf, robust habit, with large spikes, especially suitable for pot culture. Height 1 foot.

3024. Sweet-Scented *Per packet 25c*

Very free flowering and should be grown in every garden. Height 18 inches.

MIMULUS (Monkey Flower)

Mimulus are magnificent dwarf, hardy perennials which flower profusely and have a brilliant effect in beds and borders. The plants thrive in moist situations.

3041. Sutton's Giant *Per packet 40c*

Enormous flowers of various colors. Height 9 inches.

NIEREMBERGIA COERULEA (Hippomanica)

3258. *Per packet 40c*

An interesting subject for the conservatory. The flowers, which are borne in great profusion, are a delicate lavender with an attractive clear yellow eye, and are well set off against the light green foliage, giving a very dainty effect. Although a perennial, the plant is best treated as a half-hardy annual. Height 6 inches.

Nigella, Miss Jekyll

Sutton's Nemesias

For spring bedding Nemesias should be sown the first fortnight in February, grown under cool treatment, and transplanted early in May; for summer bedding the end of March or early in April is the best time to sow. Seed should be sown in July or August for winter greenhouse flowering, and from mid-September to mid-October for a spring display under glass. When flowered in the open garden, and for summer bedding especially, it is most important that the plants should get a good root-hold of the ground before they come into bloom.

Sutton's Large-Flowered

3182. Pale Yellow *Per packet 25c*

3186. Rich Orange *Per packet 25c*

3188. Bronze-Pink Shades *Per packet 25c*

3192. Scarlet *Per packet 25c*

3197. Delicate Shades, Mixed *Per packet 25c*

3198. Special Mixture *Per packet 25c*

Including white, pale yellow, pink, crimson, blue, and an almost endless diversity of intermediate shades.

Sutton's Hybrid Nemesia

This popular dwarf, compact strain is very beautiful for edging or pot culture. Four varieties have been selected and fixed; we feel sure our customers will be pleased with them, especially the Aurora and Blue Gem.

3205. Aurora *Per packet 25c*

A very bright and attractive crimson and white bicolor variety, selected and fixed from our hybrid strain. The upper half of the flower is of the most brilliant red, the lower half being pure white.

3207. Twilight *Per packet 25c*

Charming blue and white bicolor variety, the blue counterpart of Aurora; makes a very effective bed.

3209. Blue Gem *Per packet 25c*

Pretty forget-me-not-blue.

3211. Fire King *Per packet 25c*

Brilliant scarlet flowers; the plants are particularly neat in habit; very attractive.

3215. Mixed Colors *Per packet 25c*

Makes a striking bed.

NIGELLA - Love-in-a-Mist

This charming hardy annual is very profuse blooming and the plants continue to flower until the close of the summer.

3261. Miss Jekyll *Per packet 25c*

Lovely Nigella, giving an abundance of long-stemmed flowers which are of a clear Cornflower-blue, prettily set in slender elegant foliage. One of the most attractive annuals. The plants are extremely hardy, and an autumn sowing produces the best specimens for flowering in the following summer. Height 18 inches.

[139]

COPYRIGHT 585

Double Gleam Nasturtiums (See page 136)

NICOTIANA - Flowering Tobacco; Half-Hardy Annual

Nicotianas afford some very welcome sweet-scented plants for the greenhouse and conservatory, and as the flowers of *N. affinis* and its hybrids open best in subdued light they are particularly valuable as pot plants for indoor decoration as well as for covered doorways. Seed may be sown from January to June, and a continuance of bloom may be secured for nearly nine months of the year.

3245. Affinis, Crimson Bedder *Per packet 25c*

A dwarf strain, about 15 inches high; admirably suited for bedding purposes, and also for pots in the greenhouse. The flowers are of a rich deep crimson, freely produced, and make a striking effect.

3241. Affinis, Sutton's Hybrids, Mixed *Per packet 40c*

Brilliant colors including a large proportion of pink and rich red shades in addition to pure white.

3249. Sutton's Miniature White *Per packet 40c*

Decorative small-flowered Nicotiana is largely grown as a pot plant. The delightfully scented, long-stemmed flowers remain open all day and are extremely useful for cutting. Height 18 inches.

3255. Sylvestris *Per packet 25c*

A noble looking plant of pyramidal habit, with long, tubular, pure white flowers borne in dense panicles, and possessing the merit of remaining fully expanded throughout the day as well as in the evening. Height 6 feet.

SUTTON'S PANSIES

Pansies and Violas from seed cannot be grown too freely in any garden. The beautiful and rich colors produced by these flowers are especially welcome after the yellow of the Daffodils has passed. Messrs. Sutton pay the greatest attention to Pansies and Violas, and the displays seen at their Reading and Slough grounds in May invariably call forth comment from passers in passing trains and bring many letters of inquiry. Pansies are best treated as biennials, sowing in July for flowering in the following year.

3316. Fire Beacon *Per packet 65c*

A striking variety of unique coloring which can best be described as bright Wallflower-red with a touch of orange, and a bed of this Pansy in full flower in May and June produces a wonderful color effect. Fire Beacon possesses the same vigorous free-flowering habit as our well known Ullswater and Crimson Queen Pansies, and has become one of the most popular varieties for beds and borders or for cutting.

3313. Sutton's Perfection *Per packet 40c*

It is impossible to convey an adequate idea of the delightful variations in color and markings of this well known and popular strain. Our seed is saved only from the largest and best shaped flowers of the very richest colors, and we still consider this one of the finest Pansies in cultivation. Mixed colors.

3311. Sutton's Giant Fancy *Per packet 40c*

A strong growing strain with enormous flowers of brilliant and very varied colors.

3318. Sutton's Ullswater *Per packet 40c*

A fine race which has created the widest interest, and we are gratified to learn of the pleasure this Pansy has given to many customers who have grown it. The coloring is unusual and attractive—a solid blue flower with a blue-black center; size, form and substance are equal to our well-known Perfection Pansy.

3337. Large-Flowered Pale Blue *Per packet 25c*

Flowers of a delicate mauve-blue shade with light marked centers, freely produced.

3332. Large-Flowered Yellow *Per packet 25c*

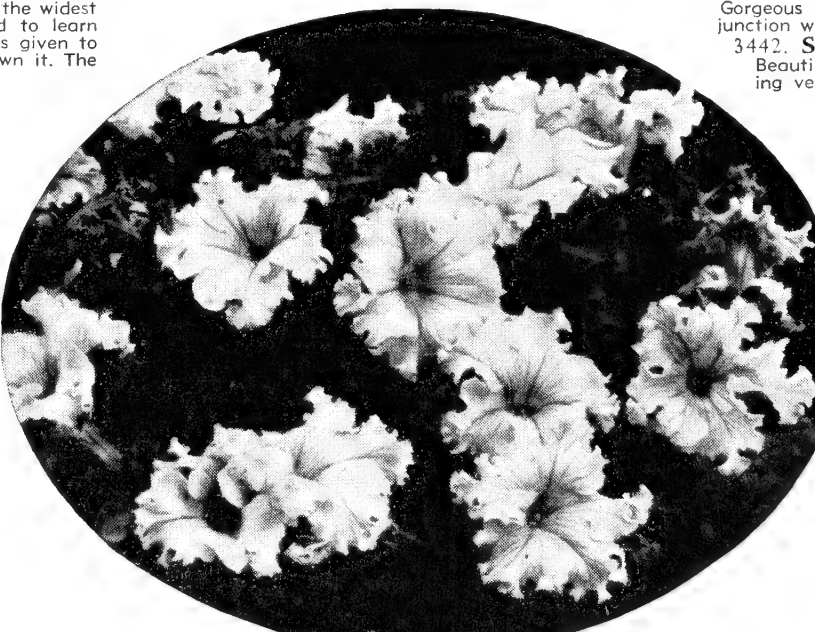

Rich yellow flowers, with small dark centers; excellent in form.

3320. Sutton's Crimson Queen *Per packet 40c*

The red counterpart of Sutton's Ullswater. The brilliant flowers are of the largest size, of perfect form, and are marked with a conspicuous dark blotch towards the center.

3335. Large-Flowered Bronze *Per packet 25c*

A favorite and attractive coloring of bronze shades, all toning well together.

Sutton's Large-Flowered Single Petunias

Sutton's Petunias

Sutton's Single Bedding Petunias

3461. Blue Bedder *Per packet 25c*

A very free flowering, single Petunia, the rich colored flowers make a most effective bed. Withstands bad weather admirably. 18 inches.

3465. Crimson Bedder (Claret) *Pkt. 25c*

Brilliant single flowers of medium size, but these are produced in the utmost profusion. Edged with Dwarf White Pearl Petunia, it makes a lasting and extremely pleasing bed.

3467. Striped Bedder *Per packet 25c*

Excellent for massing in beds and borders.

Compact Single Petunias

Height 6 to 9 inches.

3471. Dwarf White Pearl *Per packet 25c*

Charming satin-white flowers.

3473. Dwarf Mauve (Silver-Lilac) *Pkt. 25c*

A pretty clear pale mauve, the young flowers shading to violet-purple; makes a most distinct and pleasing effect in beds.

3475. Dwarf Violet *Per packet 25c*

A rich violet color; makes a very pretty bed with the Dwarf Mauve.

3477. Dwarf Brilliant Rose *Per packet 25c*

Large, well formed flowers of beautiful rose.

3479. Dwarf Rosy Morn *Per packet 25c*

Lovely satiny rose flowers with white throat.

Sutton's Double Petunias

Height 12 to 18 inches.

3425. Double Pink, Fringed *Per packet 65c*

Elegant large fringed flowers of a charming rose-pink. Unusually true to color from seed, and remarkably free flowering.

3427. Double White, Fringed *Per packet 65c*

Magnificent pure white fringed flowers. Invaluable for greenhouse culture or bedding.

3428. Double Pink and White, Fringed *Per packet 65c*

Beautiful large fully double flowers irregularly marked delicate pink, and exquisitely fringed.

3431. Superb Double Mixed, Fringed *Per packet 65c*

One of the finest strains of Petunia in existence. The double flowers are very large, full, and symmetrically formed, having the edges of the petals elegantly fringed.

Large-Flowered Single Petunias

Height 12 to 18 inches.

3433. Superb White *Per packet 40c*

Masses of lovely pure white fringed flowers.

3436. Superb Rich Rose *Per packet 40c*

A charming color for beds. Plants in pots add greatly to the attractions of a greenhouse or conservatory; flowers finely fringed.

3440. Superb Crimson *Per packet 40c*

Gorgeous color, valuable for bedding in conjunction with the white.

3442. Superb Pale Blue *Per packet 40c*

Beautiful fringed flowers, azure-blue showing veinings of a deeper blue.

3446. Superb Striped and Blotched *Per packet 40c*

Bold violet and white markings.

3451. Leviathan Mixed *Per packet 40c*

The largest of all Petunias; gigantic flowers, with beautifully veined throats. Robust.

Sutton's Balcony Petunia

3455. Blue *Per packet 25c*

3457. Pink *Per packet 25c*

A useful strain of Petunias for the decoration of terraces, window boxes, pier vases and rock-work. Flowers of good size, produced very freely on long, slender branches.

PHACELIA

3492. Sutton's Blue Beauty *Per packet 25c*

A very attractive variety, having deep rich blue flowers with a contrasting speckled silvery center and primrose anthers. The color is intensified by the fresh green foliage. The plants remain in bloom over a long period. Height 1 foot.

Sutton's Annual Poppy

Sutton's Large-Flowered Pentstemon

COPYRIGHT S&S

COPYRIGHT S&S

Phlox Drummondii

Sutton's Beauty Phloxes

A fine strain of large-flowered, dwarf, compact Phloxes which are invaluable for massing in beds and for edgings, and they also make admirable pot plants for the greenhouse and conservatory. For greenhouse work, seed should be sown in September or October, the seedlings being grown steadily on in cold frames, and finally potted in 4-inch pots for blooming in the spring. For summer bedding seed may be sown in February or March.

3545. Sutton's Pink Beauty *Per packet 40c*
Produces a charming range of salmon-pink shades.

3549. Sutton's Scarlet Beauty *Per packet 40c*
A worthy companion to our well known Pink Beauty, the color being a vivid scarlet.

3555. Sutton's Mauve Beauty *Per packet 40c*
The flowers exhibit various shades of pale mauve. Very attractive in beds.

3557. Sutton's Violet Beauty *Per packet 40c*
Extremely effective either as a bedding or pot plant.

3547. Sutton's Salmon Beauty *Per packet 40c*
A wonderful rich color, and very striking as a bed.

3553. Sutton's Blue Beauty *Per packet 40c*
After years of selection we have succeeded in fixing this new "Beauty" variety, which may best be described as a good mauve-blue shade.

Sutton's Large-Flowered

Large beds of annual Phlox make an amazing show of wonderful colors. For bedding, Phlox makes a pleasing change from Antirrhinums. Strong, healthy plants in the early stages will ensure continuous blooming for a long period. Height 1 foot.

- 3505. Pure White
- 3511. Delicate Pink
- 3509. Yellow
- 3519. Salmon-Rose
- 3521. Vivid Scarlet
- 3531. Blue
- White eye.
- 3535. Mixed

The above, each, per pkt. 25c

3560. Sutton's Purity *Per packet 25c*

This beautiful pure white perpetual-flowering Phlox is one of the most charming pot plants for the conservatory or greenhouse. The flowers are sweetly scented and easily produced at almost any season of the year. Equally valuable for bedding. Height 9 to 12 inches.

PENTSTEMON

Sutton's Large-Flowered

Grown as annuals in the North but are perennials in the South.

A much improved strain of this favorite flower. The large Gloxinia-shaped blooms vary from pure white, pink, and rose, to richest crimson.

3381. Pink Shades *Per packet 40c*
A most charming combination of delicate tints only, including rose, pink, and carmine, on white grounds.

3383. Scarlet *Per packet 40c*
Brilliant flowers, free from magenta tint. Makes a very striking bed edged with the pink or white varieties.

3385. Pure White *Per packet 25c*
Large, pure white flowers freely produced. Excellent both for bedding and cutting.

PENTSTEMON GLABER

This Pentstemon is well suited for bedding or for the herbaceous border, but it should be given a well drained soil and an open, sunny position. The plant is compact in habit, and the flowers, which are produced in large trusses, are much sought after by bees. Height 12 to 15 inches.

3413. Glaber, Sutton's Hybrids *Per packet 25c*
Ranging in color from pale lavender-blue through mauve and purple to rose-pink shades.

Sutton's Single Bedding Compact Petunias

ANNUAL POPPIES

A great wealth of color can be obtained throughout the summer by liberal sowings of the Annual Poppies. During March, April, and May sow in lines or groups, **and thin to about a foot apart**. The seeds should be sown where the plants are intended to flower, because it is difficult to transplant with any measure of success.

3623. Shirley, Sutton's Delicate Shades *Per packet 25c*

Including only pale shades of salmon, apricot, peach, etc., the strong colors and rose-pinks having been eliminated.

3633. Shirley, Fine Mixed *Per packet 15c*

3635. Shirley, Sutton's Double, Art Shades *Per packet 25c*

All new and unusual shades.

3639. Ryburgh Hybrids *Per packet 25c*

A fine strain resembling the Double Shirley Poppy. The flowers have beautifully waved petals and are very bright in color. Height 2 feet.

3678. Mexican Poppy (Hunnemannia) *Per packet 25c*

Clear yellow flowers with golden anthers, resembling in size and shape the Iceland Poppy. Half-hardy perennial, best grown as an annual in this country. Height 18 inches.

3670. Double Peony-Flowered Mixed *Per packet 15c*

Imposing double globular flowers, well adapted for shrubberies and large borders. We offer a combination of several bright colors. Height 3 feet.

PERENNIAL POPPIES

3701. Orientale, Sutton's Double Scarlet *Packet 25c*
The earliest-flowering of the Oriental Poppies. A very striking plant for the herbaceous border. Height about 2 feet.

3703. Orientale, Sutton's Cherry Pink *Packet 40c*
A rare and pretty shade of brilliant cerise-rose, which we have fixed from seed. The flowers are of silklike texture and largest size.

ICELAND POPPY (Papaver Nudicaule)

Beautiful perennial Poppies, which if sown in March will flower the same year. Height about 1 foot, except where otherwise stated.

Sutton's Large-Flowered

A truly giant strain, giving flowers twice the size of the original variety. Height 2 feet.

3683. Special Mixture *Per packet 25c*
Including pinks, bright orange, yellow and white, as well as cream, straw and maize-colored tints, and many unusual combinations of all these shades.

A Conservatory Group of Sutton's Primula Malacoides

COPYRIGHT 585

Sutton's Primroses, Primulas and Polyanthus

SUTTON'S PRIMULA SINENSIS

Giant Single Varieties

All Primula lovers will desire to have some plants of the Giant sinensis varieties, with their massive flowers and handsome foliage. When well grown, the plants prove very attractive even before the blooms appear.

3773. Giant Royal White *Per packet 65c*
A wonderfully fine white Primula, conspicuous for size, substance, and purity of flowers.

3777. Giant Pink *Per packet 65c*
One of the finest Primulas in the Giant section, petals extremely large and of great substance. The delicate carmine-pink color is particularly valuable for room decoration.

3779. Giant Salmon-pink (Terra Cotta) *Per packet 65c*
Flowers symmetrically formed, with petals of great substance.

3781. Improved Giant Crimson *Pkt. 65c*
The immense flowers are a dark crimson.

PRIMULA SINENSIS (Single)

3761. Sutton's Reading Blue *Per packet 40c*
One of the best blue Primulas; fine upright trusses of flowers.

3749. Dazzler *Per packet 40c*
The most brilliant Primula of recent introduction; flowers vivid orange-red, set off most attractively by the mid-green foliage.

PRIMULA OBCONICA

Our greatly improved forms of Primula obconica make a very pleasing contrast to the Sinensis varieties; they are quite as easily grown and have the advantage of a longer flowering period. From a sowing in the early months of the year fine plants may be had in full bloom in the early autumn which will continue to flower throughout the winter.

3833. Sutton's Salmon Queen *Per packet 40c*
A very pretty variety, for which we gained an Award of Merit at the R. H. S. Chelsea Show. The flowers are quite distinct in color, being of that delicate shade of salmon-pink often called shell-pink. The plant is extremely free flowering.

3841. Sutton's Giant Delicate Pink *Pkt. 40c*
A beautiful variety of Primula obconica, and a color that goes well with the pale blue and darker shades. Flowers of great size.

3839. Sutton's Giant Pink *Per packet 40c*
Charming rose-pink flowers as large as those of Primula sinensis.

3845. Sutton's Blue *Per packet 40c*
A distinct advance in color; the large clear flowers tone well with those of the pink varieties.

3847. Sutton's Giant White *Per packet 40c*
The immense pure white flowers enhance the beauty of the pink and pale blue.

3851. Sutton's Giant Mixed *Per packet 65c*
Including all the preceding varieties and other beautiful intermediate shades.

PRIMULA STELLATA (Sutton's Star Primula)

Primula Stellata has been a favorite form of P. Sinensis for forty years, and is still increasing in popularity each succeeding season. The graceful loose habit has made this class of Primula highly prized in the house and the conservatory, as well as for table decoration.

3793. Sutton's Beacon Star *Per packet 40c*
(New.) The flowers are produced in large whorls, and are of a dazzling orange-scarlet color suffused with bright salmon. The plants are extremely vigorous, and may be had in flower at Christmas if sowings are made during March and April. We consider this to be the finest decorative Star Primula ever introduced. Award of Merit, Royal Horticultural Society, 1939.

PRIMULA MALACOIDES

3852. Sutton's Mauve Queen *Per packet 65c*
(New.) This is one of the largest-flowering varieties we have introduced, and when well grown the plants reach a height of 2½ feet. The stoutly petalled rich mauve flowers are widely overlapping and are firmly attached to the plant, making it unequalled among Primulas for cutting for house and table decoration. Under artificial light the flowers develop a remarkable warmth of color, and show no trace of magenta even when passing out of bloom. (Awarded the Covent Garden Market Certificate of the British Flower Marketing Association, March 2nd, 1938.)

3853. Sutton's Freedom *Per packet 65c*
(New.) One of the most free-flowering varieties we have ever seen, the plants developing a miniature forest of stems thickly covered by a canopy of blooms, which on opening are of a delicate rose shade. The color, however, quickly deepens to crimson and finally to purple, but full sunshine is necessary to develop the very uncommon coloring of this variety. The petals have a velvety Petunia-like softness hitherto unseen in Primula malacoides.

3854. Sutton's Pink Sensation *Per pkt. 65c*
(New.) This novelty was first exhibited at the Royal Horticultural Society's Hall on February 22nd and 23rd, 1938, when it created a sensation on account of its clear bright pink flowers, measuring an inch in diameter. The wide fully fashioned petals retain their brilliance long after those of other varieties have lost their color. To insure the full development of the unique brilliant coloring of this variety it must be grown in full sunshine, although neither fog nor unfavorable atmospheric conditions will cause the flowers to fade. (Awarded the Covent Garden Market Certificate of the British Flower Marketing Association, March 2nd, 1938.)

3856. Sutton's Queen of White *Pkt. 65c*
(New.) The plants are covered with densely petalled pure white flowers about an inch in diameter, and are of such vigorous constitution that it is not uncommon for them to commence blooming in January and continue until May. The attractive green foliage blends admirably with the glistening white flowers.

Hardy Primulas

Hardy Primulas are delightful subjects for rock and alpine gardens, and many of the varieties are veritable gems in coloring. The family is now so large and so variable in time of blooming that it is possible to have different species in flower during almost every month of the year.

3882. Beesiana, Sutton's Hybrids *Per packet 25c*

This strain includes shades of lilac, purple and violet, as well as a wide range of buff, orange, salmon, and rich reds approaching scarlet in intensity. Quite hardy and of vigorous growth.

3885. Bulleyana, Sutton's Hybrids *Per packet 25c*
Including a range of very pretty cream-apricot, pink, and deeper red shades.

PRIMROSE

Hardy Perennial

3737. Sutton's Perfection Mixed *Per packet 25c*
A splendid strain of Primrose saved from the finest flowers of the brightest shades only.

3739. Sutton's Blue-Flowered *Per packet 65c*
A valuable and attractive Primrose. After the second year the flowers become purplish, and therefore seedlings should be raised every alternate year to ensure the rich pure blue color. Seed very scarce.

POLYANTHUS - Primula veris elatio hybrida

Hardy Perennial

A far finer display of Polyanthus can be obtained from seed than from plants propagated by division. Seedling plants from a February or March sowing bloom freely in the early months of the following year; prick off the seedlings when large enough to handle and transfer to flowering positions in autumn.

3601. Sutton's Superb Mixed *Per packet 40c*
The finest mixed strain of Polyanthus in existence. Our seed is saved only from the largest flowers of handsome form, and we take special pains to ensure as wide a range of color as possible, including brilliant shades of red, orange, and bronze, as well as the richest maroons and yellows, and pure white.

3605. Sutton's Blue-Flowered *Per packet 65c*
Very rich coloring. The shade is not fixed, but all the flowers are beautiful, especially when cut and placed in small vases. Seed very scarce.

3607. Sutton's Brilliance *Per packet 40c*
An exceptionally showy strain, including a large proportion of vivid red and orange shades, which are most telling. The colors are so bright and unusual that the effect in a bed is quite unlike that generally associated with Polyanthus.

PORTULACA

Half-Hardy Annual

Sow seed in shallow drills on a warm border at the end of April and during May; keep the surface moist. If too thick, the plants may be thinned, and very soon one of the loveliest of floral carpets will appear.

Sutton's Improved Double

Saved from the finest flowers only, and will produce a large percentage of doubles.

3718. **Mixed, Double-Flowered** *Per pkt. 25c*

3725. **Mixed, Single-Flowered** *Per pkt. 15c*

RHODANTHE

These everlasting half-hardy annuals are prized for winter decorations and for pot culture. Height 9 to 12 inches.

3940. **Rose** *Per packet 15c*
A splendid variety with very large brilliant flowers.

RUDBECKIA

3954. **Autumn Glow** *Per packet 25c*
Hardy annual. A most attractive variety; large golden yellow ray florets, contrasting well with the rich dark maroon disc. Height 18 inches.

3951. **Sutton's Hybrids** *Per packet 40c*
A selected strain of hybrid Rudbeckia producing vigorous plants growing 3 to 4 feet in height and carrying numerous flowers on long stems during late summer and autumn. The flowers measure from 4 to 5 inches in diameter and vary in color from clear lemon-yellow to orange and bronze, some approaching rich crimson. The majority of the flowers are beautifully marked with contrasting zones. A hardy perennial, but can be flowered as a half-hardy annual.

SCABIOUS - Sweet Scabious

Although the Sweet Scabious succeeds as a biennial, we recommend it to be grown as an annual. Sown in pans in March and transplanted in May, the plants flower early and freely the first year. It may also be sown at the beginning of April in the open ground where intended to flower. Scabious is undoubtedly one of our most beautiful "annuals," and is a very attractive subject for the greenhouse as well as for the open ground. The colors embrace a range of both rich and delicate shades. The large blooms, carried on long stems, are invaluable for vase and table decoration. Height, **unless otherwise stated**, 3 feet.

Sutton's Double Large-Flowered

4056. **Coral Gem** *Per packet 25c*
Flowers of a soft but rich pink color; very attractive.

4066. **Snowball** *Per packet 25c*
Large heads of lovely pure white flowers.

4058. **Pink** *Per packet 25c*
A fine deep color; a favorite variety.

4060. **Cherry-Red** *Per packet 25c*
Beautiful rich glowing color which will be much appreciated for vases as well as for the garden.

4064. **Black Prince** *Per packet 25c*
Enormous heads of deep purplish black flowers, affording a striking contrast to Snowball.

4062. **Mauve (Azure Fairy)** *Per packet 25c*
Pretty pale shade.

4070. **Superb Mixed** *Per packet 15c*
Including a wide range of distinct colors.

SALPIGLOSSIS Half-Hardy Annual

Salpiglossis are highly ornamental annuals, with large, veined, funnel-shaped flowers; much prized for cutting; very showy in beds or borders. A bed of these beautiful plants is one of the most striking features of the garden during July and August. Salpiglossis also make splendid pot plants for groups in the greenhouse.

If an early display is wanted, a start should be made at the end of February or beginning of March, by sowing on a moderate hotbed. In May the plants will be ready for flowering quarters. Or sow in April in the open ground where the plants are to remain. For flowering under glass, seed should be sown in August or September, and under cool-house treatment the plants will bloom profusely in the following spring.

Sutton's Large-Flowered

3963. **Chelsea Hybrids** *Per packet 40c*

A wonderful strain, including all the brightest-colored and largest-flowered varieties, as shown in Sutton's Gold Medal exhibits at the Royal Horticultural Society's Show at Chelsea, England.

3979. **Light Blue and Gold** *Per packet 25c*

3965. **White with Golden Throat**

Per packet 25c

A very desirable separate sort to grow.

3981. **Dark Blue and Gold** *Per packet 25c*

Large deep blue flowers, richly pencilled with gold.

3969. **Chamois-Rose** *Per packet 25c*

A delightful shade.

3971. **Brown and Gold** *Per packet 25c*

Very attractive coloring.

3967. **Golden Yellow** *Per packet 25c*

Very effective variety.

3973. **Crimson, Gold-Veined** *Per packet 25c*

Exceedingly bright.

3977. **Velvet Red** *Per packet 25c*

A rich color.

3975. **Rich Crimson** *Per packet 25c*

Beautifully shaded.

3988. **Mixed** *Per packet 25c*

Including large-flowered sorts only.

Sutton's Improved Portulaca

SALVIA

4000. **Sutton's Fireball** *Per packet 40c*

A compact, large-flowered Salvia splendens, which commences blooming in July from an early sowing in heat. The plants are literally covered with long spikes of brilliant scarlet flowers. Produces a very striking effect in beds. Height 15 inches.

4012. **Sutton's Giant Lavender** *Per pkt. 40c*

An attractive hardy perennial Salvia for the herbaceous border. The plants carry long racemes of lavender-colored flowers each with a white lip. Height 5 to 6 feet.

4010. **Patens, Cambridge Blue** *Per pkt. 65c*

Attractive pale blue form of the well-known S. patens; compact habit. (Seed scarce.) Not hardy in the north but can be grown as a hardy plant south of Washington.

Foliage Varieties

The following varieties are hardy annuals and are distinct from other species. The flowers are insignificant, but the plants develop colored bracts which are very attractive in beds and borders.

4022. **Blue Beard** *Per packet 15c*

Elegant plant with showy spikes of bright purple bracts. Height 18 inches.

4024. **Pink Gem** *Per packet 15c*

Similar in habit to the preceding, and the long sprays of soft pink bracts are very attractive.

SCHIZANTHUS Half-Hardy Annual

Towards the end of April or in May seed may be sown out-of-doors. To ensure very fine specimens for blooming in spring, seed should be sown under glass late in August or early in September. A high temperature is not required for Schizanthus, even in the winter months.

Hybrid Types

4088. **Sutton's Giant Hybrids** *Per packet 40c*

Immense flowers, very varied in color, and produced on plants of excellent habit. By sowing early and potting on as growth develops, very large specimens can be grown under cool-house treatment.

4089. **Sutton's Large-Flowered Hybrids, Mixed Colors** *Per packet 40c*

Including shades of yellow, apricot, pink, salmon, carmine, crimson, mauve, and purple, in various markings and combinations.

4083. **Sutton's Pansy-Flowered (Danbury Park Strain)** *Per packet 65c*

One of the most attractive subjects that can be grown in the greenhouse. Our strain includes many rich self-colors in diverse shades of pink, crimson, mauve and purple, as well as white, and a group of these plants makes a mass of wonderful coloring. The large smooth-edged Pansy-flowered blooms are remarkably substantial. Award of Merit, R. H. S., 1936.

Wisetonensis Type

4102. **Sutton's Brilliance** *Per packet 40c*

A striking variety with gorgeously rich carmine-rose flowers. The plant is of excellent habit, and immediately arrests attention, even when grown with other highly colored strains.

SILENE

4148. Sutton's Double Salmon-Pink

Per packet 15c

Hardy annual. A most beautiful rich shade of salmon-pink. Flowers fully double and borne in great profusion on compact plants 1 foot high. Makes a brilliant show in early summer.

4172. Orientalis

Per packet 25c

Hardy biennial. Tall, robust-growing variety of neat habit; plants freely branched from the base, each branch carrying a large globular head of bright rose flowers, which are clove-scented. Useful for cutting and showy in herbaceous borders. Height 2½ feet.

TEN-WEEK STOCKS,

Summer-Flowering

It is usual to sow annual Stocks under glass from the middle to the end of March. Sow thinly that the plants may become stout, and from the first give air freely when practicable. Prick off the seedlings into pans or boxes and give them the protection of a cold frame. Annual Stocks can also be successfully grown from sowings made in the open about the end of April.

Sutton's Giant Perfection

A wonderfully fine type of the largest-flowered Ten-Week Stocks, of strong growth, branching habit, very large and fully double flowers, the plants growing to a height of 15 to 18 inches. A remarkable percentage of plants of this strain yields double flowers.

4220. White

4222. Yellow

4238. Pale Mauve

4240. Blue

4245. Mixed

The above, All per packet 25c

4309. Princess Alice

Per packet 25c

A splendid branching Ten-Week Stock; immense spikes of beautiful white flowers of the greatest service for cutting. Height 18 inches.

WINTER-FLOWERING STOCKS, Half-Hardy Annuals

If suitable varieties are chosen, a beautiful show of Stocks may be insured indoors during the winter months with very little trouble, and they are well worth growing, were it for their delightful scent alone. Sow thinly, in pans or shallow boxes, from June to August.

4364. Sutton's Christmas Pink

Per packet 40c

If sown in July or August, this beautiful Stock will give fine specimens for indoor decoration at Christmas and during the winter months. The freely branching plants attain a height of 18 inches, and carry numerous long spikes of pale pink, double flowers.

STATICE - Sea Lavender

The Sea Lavenders have become extremely popular, especially for cutting for house decoration. The cloudlike masses of flowers of the branching varieties make borders gay for a long time, while their delicate coloring and light graceful habit are a great help to other everlasting flowers.

4210. Suworowi

Per packet 25c

An annual Statice, much in demand in London, where it is a prominent feature of the florists' shops. Greatly appreciated as a pot plant for the greenhouse, as it lasts in perfection for a long time. It also makes a charming decoration for the dinner table. Flowers bright rose color. Height 18 inches.

4206. Sinuata, Special Mixture

Per packet 25c

The large-flowered Sea Lavender, which is also extensively grown for the cut-flower market. Succeeds admirably under treatment as a half-hardy annual. Makes a graceful pot plant for the conservatory, and the dried flowers are most effective for winter decoration. Height 18 inches.

SUNFLOWER - Helianthus

Hardy Annual

Sowings may be made in the open in April or May where the plants are to flower, or seed may be sown very early in the season, and the plants brought forward in the manner usual with half-hardy annuals.

Large-Flowered Varieties

4430. Sutton's Giant Yellow

Per packet 25c

Tall Sunflower with immense heads. If a single-stemmed plant with one large terminal flower is preferred, it can be ensured by pinching out the side shoots if they appear. Height 8 to 10 feet.

4432. Sutton's Primrose Perfection

Per packet 25c

Numerous large bright primrose flowers with bold black centers. Height 6 feet.

4434. Sutton's Red

Per packet 25c

Dark centered brilliant flowers, banded with bright chestnut-red, mostly merging to yellow at the tips of the petals. Height 6 feet.

4440. Sutton's New Hybrids

Per packet 25c

Ranging from creamy white and primrose to orange-yellow, variably suffused and zoned with bronzy red and rose, and including ruby and maroon selfs, these hybrids cannot fail to charm all who grow them. Height 3 to 6 feet.

Small-Flowered Variety

4462. Primrose Stella

Per packet 25c

A beautiful pale primrose variety. The dark center and delicately tinted petals make a delightful contrast. Valuable for cutting. Height 4 feet.

STREPTOCARPUS

Tender Perennial

As a result of many years' intensive breeding we have evolved a new strain of Streptocarpus, which will be found as great an advance on the old types as the notable improvement we have already achieved in our Triumph strains of Cyclamen and Gloxinia. The plants of Sutton's Triumph Streptocarpus are extremely floriferous and the blooms, which are borne on tall erect stems, are much larger than those produced by the older varieties. A further merit is the compact symmetrical habit of the foliage, which greatly enhances the decorative value of the plants.

Although a little warmth is appreciated for germination of the seeds and during the seedling stage, this strain will thrive in a lower temperature than customary for Streptocarpus, and plants from January or February sowings will bloom freely from July to November and, with liberal treatment, during the winter months. If grown in well-drained shallow pans, the plants quickly form a dense network of roots which need regular doses of a suitable manure, such as our Simplex Fertilizer.

4420. Sutton's Triumph Hybrids

Per packet 40c

Flowers of great size. The color range includes the well-known shades of red, rose, salmon, purple, blue, and white, as well as many beautiful intermediate colors, all with boldly, yet delicately, striped and laced throats.

SWAN RIVER DAISY,

Brachycome Iberidifolia

Brilliant free-flowering hardy annual, blooming throughout the summer months and suitable for beds or borders; the dainty flowers resemble small Cinerarias. Makes a very pretty pot plant for the greenhouse and the flowers are extremely lasting. Height 9 inches.

4475. Sutton's Azure Fairy

Per packet 25c

One of the prettiest variations of this favorite hardy annual. The azure-blue flowers show a white zone around the central dark disc and are most attractive.

4477. Sutton's Large-Flowered Pale Blue

Per packet 25c

Distinct dainty flowers with primrose centers; charming for pots as well as for outdoor effects.

4479. Sutton's Large-Flowered Dark Blue

Per packet 15c

The rich-colored flowers go well with the paler blue varieties.

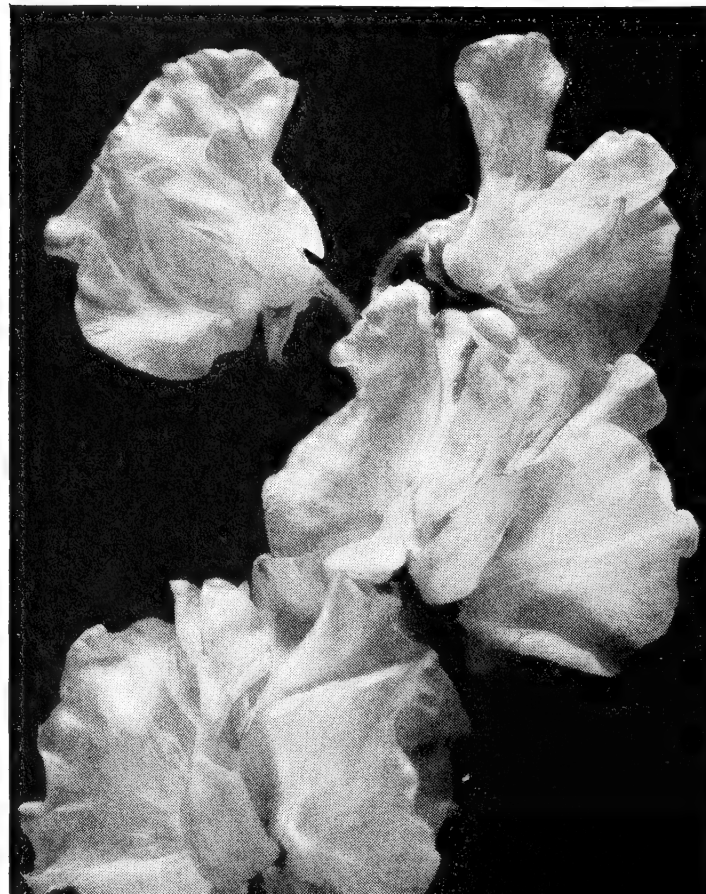

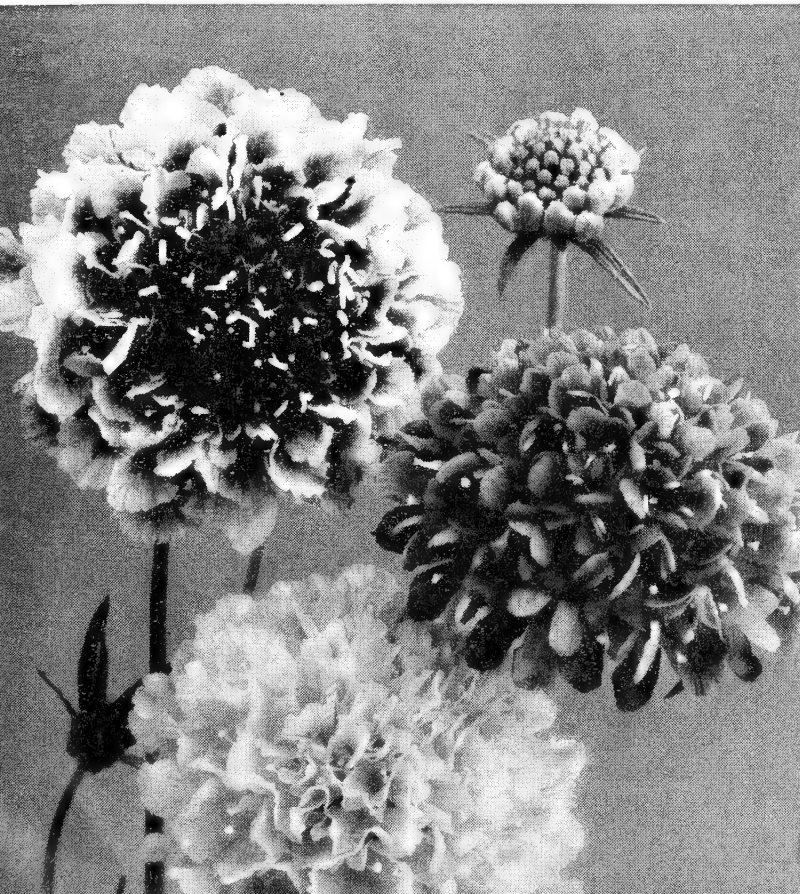

4485. Sutton's Special Mixture

Per packet 25c

Including many beautiful varieties not found in the usual mixed strains.

Sutton's Sweet Peas

Sutton's Double Large-Flowered Scabious (See page 143) COPYRIGHT 585 [144]

SWEET PEAS

Choicest Named Varieties

WHITE

9115. **Sutton's Sextet Queen** *Per packet 40c*
Pure white flowers of great substance. Gives normally five-flowered stems when grown under ordinary conditions, and six-flowered stems with quite a fair number of sevens, when grown on the "cordon" system for show purposes.

CREAM

9165. **What Joy** *Per packet 25c*
Flowers cream, heavily frilled, and well placed on long substantial stems.

FLUSHED, CREAM GROUND

9210. **Sutton's Shell-Pink** *Per packet 25c*
Immense flowers of great substance, daintily flushed with an exquisite shade of deep shell-pink over a cream ground.

PINK SHADES

9255. **Sutton's Nobility** *Per packet 40c*
A giant among Sweet Peas. The color is clear pale salmon-pink on a deep cream ground, closely approaching buff, and many five-flowered stems are produced.

CERISE AND SCARLET SHADES

9500. **Sutton's Golden Radiance** *Per packet 40c*
Flowers clear salmon-cerise, suffused with golden lights. The constitution of the plant is very vigorous.

9535. **Flamingo** *Per packet 25c*
Brilliant orange-scarlet flowers, shaded cerise; of large size, and carried on long stems.

BLUE SHADES

9750. **Sutton's Ebony** *Per packet 40c*
Quite a distinct shade, almost a blue-black, and the blooms have a lustrous sheen which imparts a brilliance seldom seen in dark Sweet Peas. The flowers, which are perfectly placed, are frequently produced five on a stem. An exceptionally strong grower.

9775. **Blue Flame** *Per packet 25c*
Large true deep blue variety, the standard showing a little deeper color than the wings.

9788. **Pierrot** *Per packet 25c*
Pure white, with heavy deep blue picotee edges and markings to both standards and wings.

PURPLE

9900. **Sutton's Purple Monarch** *Per packet 25c*
A deep shade of purple, but free from the dead coloring often associated with purple Sweet Peas.

9905. **Bacchus** *Per packet 25c*
Immense wine-colored flowers; distinct.

Sutton's Giant Perfection Ten-Weeks Stocks

SUTTON'S SWEET PEAS IN COLOR MIXTURES

One of the most delightful methods of growing Sweet Peas is to arrange a number of varieties in harmonious blendings or contrasts. The range of colors is so extensive and diverse that an almost endless choice is made possible, and as a basis for those who may be planning such color schemes we offer the following effective combination of the finest frilled varieties:

9080. **Pink, Yellow, and Salmon Shades**
9084. **Pale Blue and Cream Shades**
9086. **Salmon-Pink and Pale Blue Shades**
9088. **Rose-Pink and Bright Blue Shades**
9090. **Cream and Maroon Shades**
9092. **Salmon-Pink and Crimson Shades**
9096. **White, Pink, and Red Shades**
9100. **Imperial Red, White, and Blue**

The above: All, per packet 25c

9041. **All Colors Mixed** *Per packet 25c*
Per large packet 65c

SWEET SULTAN

A very attractive hardy annual. The flowers are well adapted for cutting and retain their freshness in water for a long period. Sow in the open ground in March, April, or May, or in September for early flowering.

Sutton's Giant

Magnificent strain with flowers exquisitely fringed, delightfully scented, and at least twice the size of older varieties. The plants are also earlier flowering. Height 18 inches.

4495. **Giant White** *Per packet 15c*
Superb pure white flowers.
4503. **Giant Splendens** *Per packet 15c*
Rich wine-red; unusual color in Sweet Sultans and most attractive.
4497. **Giant Delicate Mauve** *Per packet 15c*
Pale mauve outer petals with white center. Very dainty.
4501. **Giant Rosy Mauve** *Per packet 15c*
The pinkest variety of Giant Sweet Sultan we know, and a very pretty shade.
4507. **Giant Mixed** *Per packet 25c*
Including white and various shades of mauve, blue, purple, etc.

SWEET WILLIAM,

Dianthus Barbatu

French, Oeillet de poete. Hardy biennial. Height about 18 inches. Sweet Williams are as important for the garden in the early summer as are Antirrhinums and Asters in the later months. The Pink Beauty, Scarlet, and Giant White varieties are especially attractive, and make possible at a somewhat difficult period of the year brilliant bedding effects on a large scale, equal to those obtained with Antirrhinums or Wallflowers. Seed of the biennial varieties should be sown in May, June, or July, and the plants transferred to blooming quarters in the autumn.

4518. **Sutton's Superb Mixed** *Per packet 25c*
Magnificent strain of large-flowered Sweet William, containing many attractive shades of salmon, deep pink, cerise, and other charming colors.

4520. **Sutton's Pink Beauty** *Per packet 25c*
A beautiful salmon-pink variety, which should be grown in every garden.

4524. **Sutton's Scarlet** *Per packet 25c*
A still more remarkable color than our Pink Beauty, from which this variety has been selected. The flowers are of an intense scarlet, similar to that of Grenadin Carnation. A bed of this Sweet William in the distance is very striking.

4527. **Sutton's Giant White** *Per packet 15c*
Enormous trusses which might well be mistaken for perennial Phlox. The individual smooth-edged flowers exceed the size of a flirin.

4529. **Sutton's Giant Auricula-Eyed, Bright Shades** *Per packet 15c*
A rich mixture; every flower has a clearly defined eye.

TAGETES

4561. **Signata pumila, Sutton's Golden Gem** *Per packet 25c*
Hardy annual. A much-improved dwarf compact variety; flowers very freely produced and thrown well above the foliage. Height 9 inches.

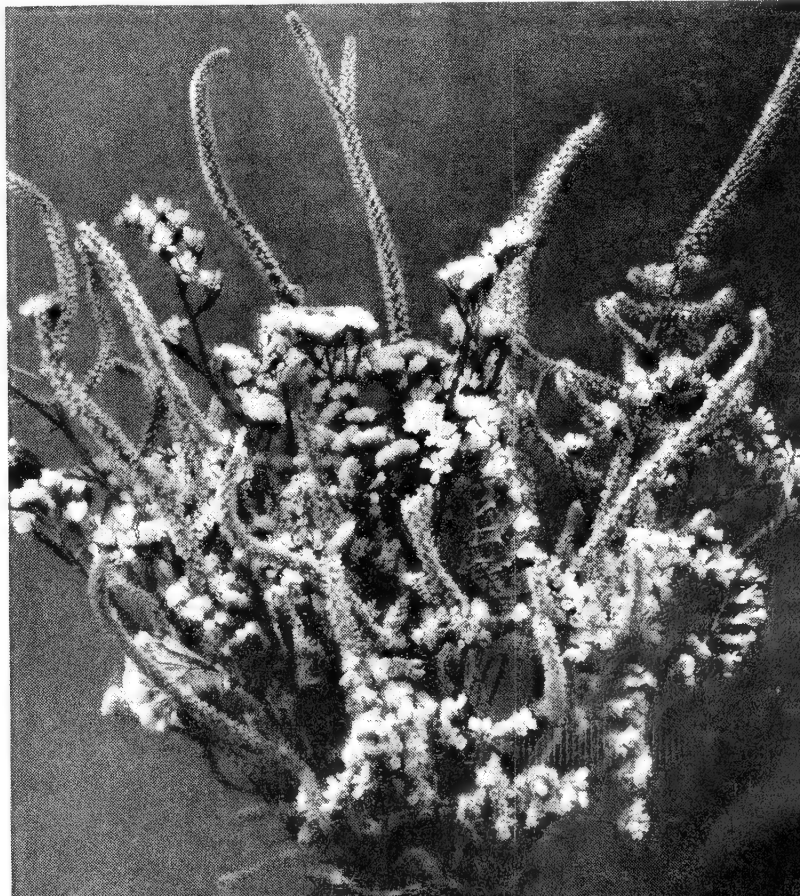

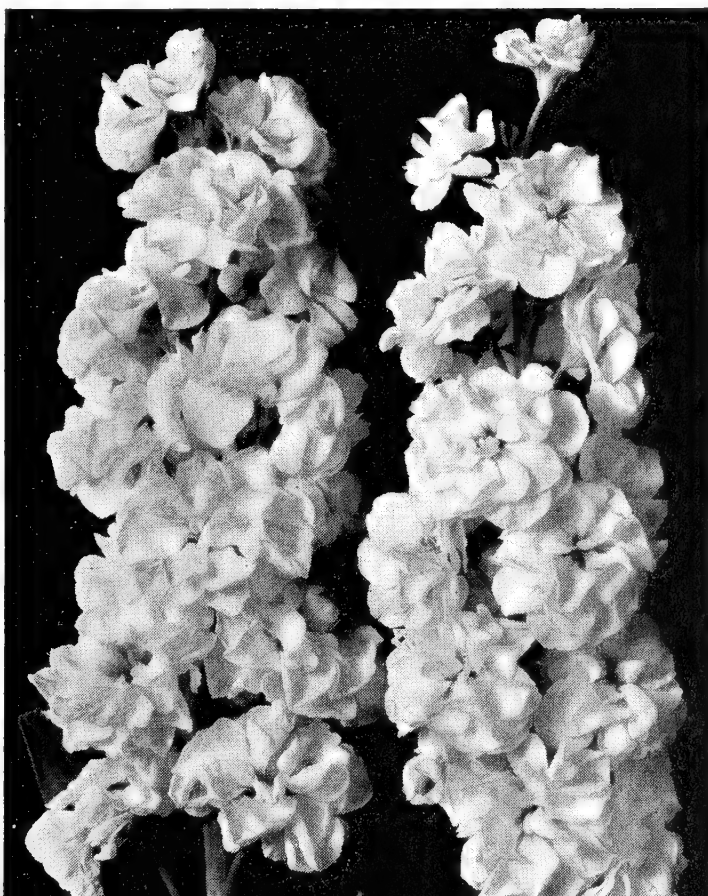

TITHONIA SPECIOSA

4588. *Per packet 25c*
Tall-growing half-hardy annual plant with rich orange-red flowers of a very telling color. The seed should be sown under glass in February or March, and the plants either flowered in the greenhouse or put into a sunny position in the border during May. Height 6 feet.

Bowl of Statice Suworowi and Sinuata Mixture

COPYRIGHT 585

[145]

TRACHELIUM

A free-growing greenhouse annual or biennial, having large cloudlike heads of tiny flowers somewhat resembling Gypsophila. Height about 18 inches. If large plants are required, a sowing should be made at the end of June, and the seedlings grown steadily on, repotted as needed up to the 10- or 12-inch size. In this way fine specimens 5 feet in height may be obtained. Does well outdoors in sheltered positions.

4595. **Mixed** *Per packet 25c*
Mauve and white.

VENIDIUM

Sow the seeds in April or early May, and avoid excessive moisture. Germination is difficult if sowings are made too early, but may often be facilitated by exposing the seed pans or boxes to direct sunshine.

4622. **Sutton's Hybrid Art Shades** *Per packet 40c*
Half-hardy annual. An entirely new race of Venidium. The most attractive feature is the remarkable range of coloring, varying from pure white to orange shades, through ivory, cream, lemon, yellow, and straw tinged with buff, mostly set off by glistening black centers and maroon markings at the base of the ray-petals. Height 2 to 3 feet.

VISCARIA

Besides being one of the most beautiful of our hardy annuals, Viscaria is also one of the easiest to grow. It is extremely free flowering, and makes most brilliant clumps in the annual border. For blooming outdoors seed may be sown in the open during March, April, or May, or in September for early flowering. Height, except Sutton's Rosy Queen, 1 foot.

4795. **Sutton's Rosy Queen** *Per packet 25c*
Brilliant carmine-rose flowers profusely borne on compact plants. Makes a most effective bed. Height 10 inches.

4797. **Sutton's Pink Beauty** *Per packet 15c*
A splendid variety with large pure rose-pink flowers.

4799. **Sutton's Pale Blue** *Per packet 25c*
The large pale china-blue flowers are a most useful addition to the existing colors in this popular annual.

4805. **Fire King** *Per packet 15c*
Gorgeous scarlet flowers freely produced on plants of neat habit.

4809. **Pure White** *Per packet 15c*
Lovely white, glistening flowers.

4803. **Delphinium-Blue** *Per packet 15c*
A clear shade of pure bright blue.

4812. **Sutton's Brilliant Mixture** *Per packet 15c*

Sutton's Giant Verbenas

TORENIA

4591. **Fournieri grandiflora** *Per packet 25c*
Profuse-blooming greenhouse annual; large violet-blue and pale mauve flowers. Sow in a warm temperature in March or April. Prick off while small, and subsequently pot the seedlings singly. Height 1 foot.

Verbenas are extremely popular subjects for summer bedding, and when cut the flowers make an attractive decoration in vases. Seedling Verbenas are models of health and vigor, and if raised from January to the beginning of March will bloom abundantly during the summer and autumn of the same year. Sow in boxes, prick off into pots singly, and gradually harden for planting out. In March and April sowings may be made in a frame. Verbenas are also sown on prepared beds, and transplanted as they become ready.

Sutton's Giant Verbena

4650. **Sutton's Giant White** *Per packet 40c*
Dense heads of finely shaped large white flowers.

TYDAEA

4602. **Sutton's Dwarf Large-Flowered** *Per packet 65c*
A most valuable greenhouse plant for autumn and winter decoration. When sown in January or February, blooming will commence in the following August or September and the display will continue for a long time. The cultivation is the same as for Achimenes or Gloxinias. Height 1 foot.

Verbena

Half-Hardy Perennial

4652. **Sutton's Giant Pink** *Per packet 40c*
A great favorite; bright pink flowers which may be relied upon to come uniformly true.
4658. **Sutton's Giant Firefly** *Per packet 40c*
Large and extremely brilliant self scarlet flowers. Very striking in a large bed.
4662. **Sutton's Giant Royal Blue, White Eye** *Per packet 40c*
A rich blue Verbena with a striking white eye.
4664. **Sutton's Giant Mixed** *Per packet 40c*
Many beautiful colors; large flowers in fine trusses.

Sutton's Superb Bedding

A useful free-flowering strain for general bedding purposes where size of bloom is not the first consideration.

4673. **Mixed** *Per packet 25c*

Sutton's Viola—Tufted Pansy

Bedding Varieties

Violas are indispensable for spring gardening, and if the dead blooms are regularly removed the plants will continue to flower profusely until late autumn. This valuable perennial plant is perfectly hardy, and may be grown in the same manner as Pansy. Height 6 inches.

4717. **Sutton's Giant Yellow** *Per packet 25c*
Pure deep golden yellow flowers of immense size and substance.

4718. **Sutton's Large-Flowered Pale Apricot (Novelty)** *Per packet 40c*
Considerably larger than Sutton's Apricot variety and of an attractive pale shade.

4723. **Sutton's Primrose** *Per packet 25c*
The pale primrose flowers vary slightly in shade, but the effect is very pleasing.

4731. **Arkwright Ruby** *Per packet 25c*
A most attractive variety, with bright ruby-crimson flowers shaded terra cotta; sweetly scented and comes quite true from seed.

4735. **Perfection** *Per packet 15c*
Bluish mauve shades; rather small-flowered but very free blooming.

4746. **Self Colors Mixed** *Per packet 25c*
A mixture of all the best self-colored sorts which can be grown from seed.

Small-Flowered Varieties For Rockeries, Etc.

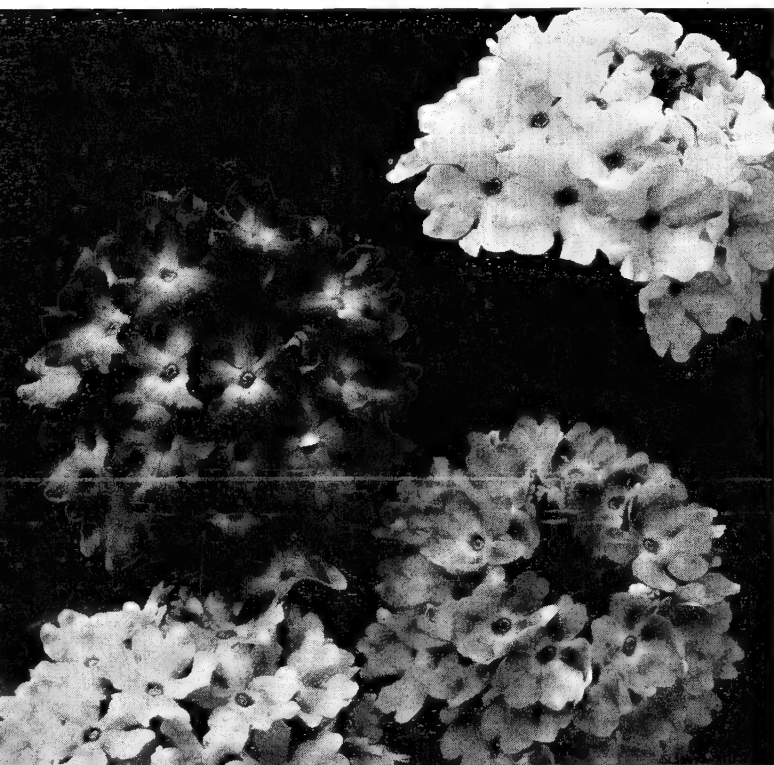

By reason of their perpetual-flowering character, and for the charm of their dainty starry flowers produced in the greatest abundance, this class of Viola is becoming more and more favored each year for the Alpine and rock garden, as well as for edging purposes.

4752. **V. cornuta, Sutton's Pink Pearl** *Per packet 25c*
Surprisingly rich colored rose-pink flowers, freely produced on closely tufted plants with miniature foliage. A gem for the rockery.

4754. **V. cornuta, Sutton's Miniature Blue** *Per packet 25c*
A hybrid Viola forming tufted plants 4 to 6 inches high, covered with small, round flowers of good substance, rich violet-blue in color. Useful for carpeting, growing in the rock garden, and for edgings. Stands the sun well and remains in flower the whole summer.

4769. **Bowles' Black** *Per packet 25c*
Tiny flat circular flowers hardly larger than a Violet, of glossy black color relieved by a gold point in center. Very interesting plant for the rock garden, and spreads freely if permitted.

Sutton's Giant Sweet Sultans (See page 145)

Torenia Fournieri Grandiflora

COPYRIGHT 585

Sutton's Superb Zinnias

Valuable bedding and border annuals, remaining in bloom for a long period. Formerly Zinnias were considered by some too stiff and formal for general garden purposes, but this cannot be said of our Giant Double strain, the massive heads of which are fairly loosely arranged. These immense double blooms make a gorgeous show when massed in a large bed, and the pink-flowered Queen of Roses and the Art Shades will be found especially effective. Even the single flowers, some of which are generally produced among doubles, are of great beauty. The most perfectly shaped blooms are, however, found in Sutton's Double strain, though these are not so large as the flowers of our Giant Double varieties.

Sutton's Giant Double Zinnia (Largest Obtainable)

Immense double flowers of gorgeous coloring, the petals being more loosely arranged than in our Double strain. Height 2½ feet.

- 4920. White Per packet 25c
- 4922. Canary-Yellow Per packet 25c
- 4924. Yellow Per packet 25c
- 4926. Orange Per packet 25c
- 4928. Delicate Pink Per packet 25c
- 4930. Rich Salmon-Rose Per packet 25c
- 4932. Scarlet Per packet 25c
- 4934. Mixed Per packet 25c

- 4938. Orange King Per packet 25c
A very bright colored and desirable variety selected from our Giant strain. The flowers are of perfect shape, and the color a very telling one for separate beds.

- 4936. Queen of Roses Per packet 25c
Although the shade varies, this is a charming color in Zinnias—a soft salmon-rose.

- 4940. Art Shades Per packet 40c
A very pretty mixture of unusual shades, including cream, buff, apricot, pink, salmon, and old rose. The flowers are of immense size, and will be found extremely useful for furnishing large vases, as well as for brightening autumn borders.

- 4978. Sutton's Quilled Per packet 25c
Very large, fully double flowers, with evenly quilled petals of bronze, cerise, yellow and white. Many of the petals are reflexed, showing a different color on the inside, giving a charming effect. Height 2 feet.

4974. Sutton's Dwarf Hybrids

Per packet 25c

Beautiful strain with double, semi-double, and single flowers showing some very unusual shades of cream, pink, and rose, as well as orange-scarlet, white, bi-colored, and tri-colored flowers. Makes an attractive bed. Height 15 inches.

4980. Sutton's Miniature Pompon Mixed

Per packet 25c

A very pretty, compact variety, with charming double flowers of various colors. Height 9 inches.

4986. Zinnia Haageana *Per packet 15c*

Single orange flowers. Height 18 inches.

Double Dwarf

A valuable class, only about 15 inches high; very free blooming; flowers as large as the ordinary double Zinnia.

- 4968. Mixed Per packet 15c

URSINIA

4604. Sutton's Special Hybrids *Pkt. 25c*

A distinct strain of compact free-flowering plants growing about 9 inches in height. Especially bright for bedding.

4605. Anethoides *Per packet 25c*

A brilliant orange colored, daisy-like annual from the Cape. The dwarf plants are well furnished with finely cut foliage, above which rise the orange flowers measuring over 2 inches in diameter, each with a deep purple zone around the center. The flowers are borne on long, wiry stems, and make an excellent decoration in small vases. When grown in the garden it should be given a sunny location, and strong plants raised in pots from seed in a cool greenhouse during the latter part of March or early in April for transfer to the open at the end of May will produce a very effective display. For flowering under glass, January is the best time for sowing. Height 1 foot.

Sutton's English Wallflower

Early Flowering

Our strain of Early Flowering Wallflowers is quite distinct from the Annual Wallflower, being thoroughly hardy. From a sowing made at the usual time the plants commence flowering in autumn and continue throughout the winter, bursting into full bloom with the advent of spring weather. These Early Flowering varieties may be cleared from the ground in May, leaving the beds free for their summer occupants.

4895. Sutton's Early- Flowering Mixed *Per packet 25c*

Single Varieties

Height, unless otherwise stated, 18 inches.

4825. Sutton's Giant Fire King *Pkt. 40c*

Undoubtedly the most brilliant Wallflower we have introduced. The flowers resemble in color our well known Fire King, but as they are much larger in size the scarlet effect of a bed in the distance is intensified. Height 15 inches.

4833. Sutton's Giant Pink *Per packet 40c*

A great improvement on Rosy Gem, the flowers being larger and of better shape. The color is not quite uniform, but gives a delightfully shaded wine-pink effect in a bed. Height 15 inches.

4837. Sutton's Giant Yellow *Per packet 40c*

A splendid match for our Giant Blood Red. Enormous spikes of rich yellow flowers with brownish buds.

4850. Sutton's Superb Mixed *Per packet 40c*

This strain is unsurpassed for variety of color, size of the spikes of bloom, and robust free flowering habit.

Annuals Grown from Sutton's Seeds

All annuals are grown from Sutton's Seeds. Since most of these plants are familiar to everybody, descriptions have been reduced to the minimum. Most of these plants are pot-grown and they will be ready any time after May 1st. Shipped only east of the Mississippi.

NEW AGERATUMS		
<i>Cardinal Mundelein.</i> 2½ in. pot plants. Beautiful clusters of blue-purple; an intermediate shade	\$1.50	\$10.00
<i>Purple Beauty.</i> 2½-inch pot plants. Richest royal purple extravagant, large bloom; plants compactly mounded ..	1.50	10.00
<i>Riverside.</i> 2½ in. pot plants. Dwarf, compact grower, free-blooming. Large, full flowers, deep purplish blue	1.50	10.00
BEDDING BEGONIA		
<i>Westport Beauty.</i> New double Pink Begonia. Luscious little watermelon-pink flowers, densely double, in clusters, like the dainty polyantha roses. Compact pot plants with light green rounded leaves. 2½ in. pot plants	2.50	18.00
<i>Carmen.</i> Soft pink, with primrose eye set in carmine; against a rich foil of dark bronze leaves	2.25	12.00
<i>Dresden.</i> Extra free bloom; vivid carmine-red, the golden tuft at center boldly conspicuous	2.25	12.00
<i>Elegant.</i> Very large flowers; rosy blush framing a waxen white face, the eye white gold	2.25	12.00
<i>Snow.</i> Flowers of medium size—the only pure white. The tuft is bright gold, the stem rosy pink	2.25	12.00
<i>Tausendschon.</i> Dwarf, branching, everblooming; the abundant bloom a clear rose-pink	2.25	12.00
DUSTY MILLER (Senecio Leucostachys). Erect, tall-growing, heavily branching; a close network of skeleton leaves, silver-white at all times. Best of its kind	1.50	10.00
PARIS DAISY or "Marguerite". A delight in the garden and in summer boxes, or winter pots.		
<i>Boston Yellow.</i> Single flowers, very free; deep canary	3.00	18.00
<i>Mother's Favorite.</i> Semi-double; white, anemone center ..	3.00	18.00
<i>Mother's Pearl.</i> Fully double; pure white	3.00	18.00
BELOPERONE (Shrimp Plant)		
<i>Longispicua Purpurea.</i> This beautiful Beloperone is a decided improvement on Guttata. The plants are much dwarfer and make a well-rounded bush, free from any straggling shoots. Furthermore, they produce many more flowers per plant. It is an interesting house plant as well as a showy subject for garden display during the summer. The two-lipped white flowers emerge from overlapping golden brown bracts	3.00	18.00

	Doz.	100
CHOICE NEW COLEUS		
<i>Big Tim.</i> Medium sized, refined leaves, with dappled green scallops, and prominent base of golden russet which merges into a dust, and final solid overlay, of wine-red and maroon	\$1.50	\$10.00
<i>Carolina.</i> Bronzed brown-maroon, the central veining a flare of crimson with violet lines	1.50	10.00
<i>Goblin's Torch.</i> A jagged flame in vivid translucent magenta-red imposed on black-maroon; within a stippled bronze-green border	1.50	10.00
<i>Marion.</i> Large leaves finely fringed and fluted; their varying stages showing everything from bright green peppered red and maroon with cream-white veins to a dominant maroon with carmine feathering and up-curved greenish fringe	1.50	10.00
<i>President Harding.</i> Fresh green changing to bronze, the center a flaming jagged halberd in garnet	1.50	10.00
<i>Trailing Queen.</i> Showy in box and basket for trailing over edge. Small scalloped leaves dark green checked in maroon, the wedge-shaped center gay with magenta and cream	1.50	10.00
LANTANAS. Profuse, continuous blooming bedding plants, 12 to 18 inches. The flowers average 2 inches in diameter, made up of perfect, densely set florets usually showing at least two colors.		
<i>Alba Perfecta.</i> Creamy white; a charming companion	2.25	12.00
<i>Countess de Biencourt.</i> Brilliant rose-pink, cream center ..	2.25	12.00
<i>Craig.</i> Cardinal-red velvet, its center studded with gold ..	2.25	12.00
<i>Weeping Lantana.</i> A fine plant for small summer hanging baskets. Delicate rose-lilac in compact umbels, borne freely, in long, drooping sprays	2.25	12.00
LEMON VERBENA (Aloysia Citriodora). Its richly fragrant foliage is indispensable for cutting. Strong plants	2.50	15.00
NIEREMBERGIA Hippomanica (Blue Cups). A very showy dwarf annual, forming well branched, compact bushes studded with lovely cup-shaped, bright lavender-blue blooms borne in a continuous profusion from June until late in the season. The plants are simply covered with flowers	2.50	15.00

Beloperone (Shrimp Plant)

Nierembergia Hippomanica

Enjoy the Beauty and Satisfaction of a Trouble-Free Lawn

Our Grass Seed Mixtures are especially blended for trouble-free and permanent results. They eliminate the costly nuisance of constant patching and renovating.

Wayside Gardens Permanent Lawn Seed Mixtures

OPEN PLACE LAWN MIXTURE

A general purpose lawn mixture of exceptionally high quality, rating among the three finest grass seed mixtures offered in America. Permanent grasses predominate over temporary grasses in the ratio of four to one, which is considered by experts to be ideal. This mixture will produce a beautiful weedless lawn.

Postpaid: 1 lb., 65c; 5 lbs., \$2.95; 10 lbs., \$5.75.
Express paid: 25 lbs., \$13.75; 100 lbs., \$49.50.

BENT FORMULA

A combination of the finest grasses, using as a basis for this mixture imported and domestic Bent grasses which are largely used in the best putting greens of today.

A lawn made with our Bent Formula mixture and properly cared for will make a green on which all kinds of lawn games may be played.

Postpaid: 1 lb., 95c; 5 lbs., \$4.50; 10 lbs., \$8.50.
Express paid: 25 lbs., \$20.00; 100 lbs., \$70.00.

SHADY PLACE LAWN MIXTURE

Shaded lawns are a problem. Mixtures for such locations should consist of varieties which will grow vigorously with little sunlight and in soils deficient in plant food and moisture. The Wayside Gardens' Shade Mixture is just such a combination of domestic and imported grasses. No better mixture can be bought at any price.

Postpaid: 1 lb., 75c; 5 lbs., \$3.50; 10 lbs., \$6.75.
Express paid: 25 lbs., \$16.25; 100 lbs., \$60.00.

ATHLETIC FIELD MIXTURE

This mixture contains varieties that will produce a sturdy, wear-resisting turf. The same formula has been used with outstanding success on many of the best athletic fields in the country. It contains no noxious weeds and is practically free from chaff and inert matter content.

Express prepaid: 25 lbs., \$12.50; 100 lbs., \$45.00.

Here is a Good Schedule to Follow When Making a Lawn

Size of Area	Square Feet	Quantity
10 x 20	200	1 lb.
20 x 50	1000	5 lbs.
20 x 100	2000	10 lbs.
40 x 100	4000	20 lbs.

HOW AND WHEN TO FERTILIZE A LAWN

Experts recommend non-burning, organic plant food for lawns. Turn to page 190 and learn why!

Hardy Plant and Alpine Plant Seeds

Several years of experience and observation have proven to us beyond a doubt that seeds of Hardy Plants and Rock Plants produced under American climatic conditions germinate better and are superior in every way over imported seeds. This fact has been so forcefully brought home to us that wherever possible we harvest our own seeds at Wayside Gardens for the propagation of our stocks. The great variety of plants grown by us (we can say without boasting that our collection of plants is the greatest ever brought together in one nursery in America) makes it possible for us to offer also a most complete collection of American grown Hardy Plant and Rock Plant Seeds.

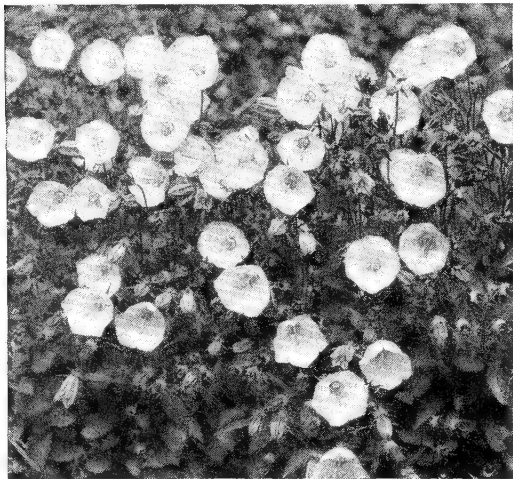

Many more varieties could be added to the list presented here, but we have omitted them because they are too difficult to handle for the amateur.

The selection offered should give no great trouble to anyone who will be careful, but we cannot and do not give any guarantee as to results, knowing only too well that it requires more time, patience and care to raise hardy plants and rock plants from seeds than a great many people are willing to give it. If, however, it is proven that failure is due to the seeds, we will replace them with others, without charge.

(Packets contain liberal quantities of seed.)

Plants preceded by one star are rock plants but large enough to be grown on the margin of the hardy border, as well as in the rock garden.

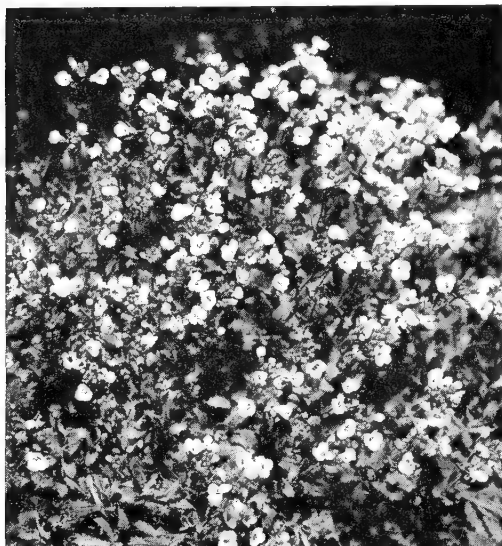

Plants preceded by two stars should be grown in the rock garden only.

Campanula Carpatica (For plants, see page 22)

Aquilegia Flabellata Nana Alba (Plants, page 15)

Arabis Alpina (For plants, see page 16)

ACHILLEA - Milfoil or Yarrow

Eupatorium *Per packet 30c*
Flat heads of brilliant yellow flowers; finely cut foliage. Blooms last dried all winter.

ACONITUM - Monkshood

Napellus *Per packet 25c*
The upright, single spike, reaching a height of about 3 to 4 feet, is covered during July and August with dark blue flowers.

ADENOPHORA - Gland Bellflower

Potanini *Per packet 30c*
A plant resembling Campanula, but more shrubby in habit. Flower spikes are from 2 to 3 feet long, the bell-like flowers 1 1/4 inches across and light blue, during July and August.

AETHIONEMA - Persian Candytuft

Grandiflorum *Per packet 60c*
Blue-green foliage which remains handsome all summer. During June the plant is covered with long spires of clear rose-colored flowers.

Persicum *Per packet 50c*
Strong twiggy bushes, covered with long, slender spikes of rosy pink flowers. One of our best rock plants. 9 inches. June-July flowering.

AGROSTEMMA - Rose Campion

Coronaria (Mullein Pink) *Per packet 15c*
Bright rosy crimson. 2 1/2 to 3 feet high.

ALYSSUM - Madwort; Basket of Gold

Argentum *Per packet 25c*
Leaves silvery beneath, flowers yellow in clustered heads, all summer. About 15 inches.

Citrinum *Per packet 35c*
Similar to Saxatile, but flowers are pale citron-yellow. 1 foot.

***Saxatile compactum** *Per packet 25c*
Bright yellow flowers in early spring.

***Serpillifolium (Alpestre)** *Per packet 30c*
Racemes of pale yellow flowers. Flowers just after Saxatile is out of bloom.

****Spinulosum roseum** *Per packet 30c*
A rare plant with handsome silvery gray foliage; a neat, small-leaved species remaining longer in beauty than any of the others.

ALLIUM

***Thibetica** *Per packet 30c*
Flowers on short stems in clusters are a lilac-mauve. Blooms during June and July.

AMSONIA

Tabernaemontana *Per packet 30c*
Numerous flowers of light blue in panicles, on 2- to 3-ft. stems; fine for the hardy border or planted among shrubbery.

ANCHUSA - Alkanet

Dropmore *Per packet 25c*
Tall spikes of beautiful blue flowers in June and intermittently all summer. 4 to 5 feet.

ANEMONE

Magellanica *Per packet 40c*
A fine creamy white flowered variety. The nodding bell-like flowers are produced freely on stems about 18 inches high. An excellent plant for the border in dry or moist places in shade or sun. Flowers from May until August.

***Pulsatilla (Pasque Flower)** *Per packet 25c*
Violet or purple flowers during April and May.

***Pulsatilla alba** *Per packet 30c*
With beautiful white flowers. Very rare.

***Pulsatilla rubra** *Per packet 30c*
Reddish purple flowers.

***Sylvestris** *Per packet 30c*
Large, white blossoms on nodding stems of about 12 inches, blooming freely in May and June.

ANTHEMIS - Chamomile

Aizoon *Per packet 35c*
Also called Achillea Ageratifolia. One of the prettiest of Mountain Chamomiles. About 6 inches high. Fine silvery foliage with small yellow flowers.

Tinctoria *Per packet 20c*
Finely cut foliage, and large golden yellow flowers produced all summer.

ANTHERICUM

Ramosum *Per packet 40c*
Graceful plant with small lily-like white flowers on wiry stems.

AQUILEGIA - Columbine

Canadensis (Common American Columbine) *Per packet 25c*
The native bright red and yellow variety, and one of the brightest.

Chrysantha *Per packet 25c*
Beautiful golden yellow flowers; blooms for 2 months.

Chrysantha alba *Per packet 25c*
White form of above.

***Coerulea (Rocky Mountain Blue Columbine)** *Per packet 25c*
Lovely blue flowers with long spurs.

Crimson Star *Per packet 50c*
Its flowers are very large with crimson sepals and spurs, and white petals, an entirely new color in Aquilegias. The plant has a sturdy free-flowering habit.

***Flabellata nana alba** *Per packet 35c*
Perfect foliage and ivory-white flowers. The whole plant not over 8 to 10 inches high. A quaint Japanese species.

Dobbie's Imperial Hybrids *Per packet 50c*
Lovely long spurs.

Hensol Harebell *Per packet 35c*
A vivid blue species of medium height, free flowering. Most attractive in the border, may also be used in the rockery.

Scott Elliott Long-Spurred Hybrids *Per packet 30c*
Wonderful colors with very long-spurred flowers.

Skinneri *Per packet 25c*
Excellent in shady places where its greenish yellow and scarlet flowers show off to great advantage.

Wayside Gardens Pink Hybrids *Per packet 30c*
A beautiful strain of clear pink colors, with long spurs.

Wayside Gardens New Giant Hybrids *Per packet 50c*
Robust grower, full range of colors, all long spurred flowers.

ARABIS - White Rock Cress

***Alpina** *Per packet 25c*
Pure white flowers produced in dense masses, splendid for border and rockery work.

ARENARIA - Sandwort

***Grandiflora** *Per packet 35c*
Covers itself with pure, snow-white, starlike flowers. May flowering.

***Montana** *Per packet 30c*
Silvery white flowers quite early in the season. The flowers in May resemble small, white, upturned Morning Glories.

****Verna** *Per packet 35c*
A prostrate growing plant creeping low over the ground and between cracks in stones. Excellent for the rock garden and between flagstones.

ARMERIA - Thrift or Sea Pink

Wayside Gardens Mixed *Per packet 30c*
Pink and rose shades. 18 to 24 inches. June to October. Large flowers of delightful white, rose, and pink shades. Very useful for edging and cutting.

ASCLEPIAS - Butterfly Weed

Tuberosa Per packet 30c
Produces umbels of bright orange-colored flowers which are lovely to cut and last a long time.

ASPHODELUS - Asphodel

Luteus Per packet 35c
Tall spikes of bright yellow flowers; very fragrant; fine for borders.

ASTER SPECIES

***Alpinus albus** Per packet 25c
Fine dwarf Aster, bearing single white flowers on stems 6 to 8 inches high.

***Alpinus, Goliath** Per packet 35c
Indispensable for the rockery or edge of hardy borders; 6 to 10 inches high, and bears large, showy, bluish purple flowers in May and June.

***Alpinus rubra** Per packet 35c
Producing rose-purple flowers; 6 to 10 inches high. May and June.

***Diplostiphoides** Per packet 50c
A very fine dwarf Aster producing early in the season, pale blue flowers, 2 to 3 inches across.

AUBRIETIA - Purple Rock-Cress

***Eyri** Per packet 25c
Rosy lilac; best of all.

BAPTISIA - False Indigo

Australis Per packet 25c
Dark blue, pea-shaped flowers in June, are produced on top of spikes 2 feet high.

BELLIS PERENNIS - English Daisy

Perennis, Snowball Per packet 25c
Mammoth white.

Perennis, Longfellow Per packet 25c
Mammoth pink.

BOCCONIA - Tree-Celandine or

Plume Poppy

Cordata Per packet 25c
A noble hardy perennial, beautiful in foliage and flower, and adapted for planting in the shrubbery borders, and in bold groups.

BOLTONIA - Bolton's Starwort

Latisquama Per packet 25c
Pink, slightly tinged with lavender. 4 to 6 feet. Really the best of all varieties offered.

BUPHTHALMUM - Ox-Eye

Salicifolium Per packet 35c
Bears large, rich, golden yellow flowers through the summer. 2 feet high.

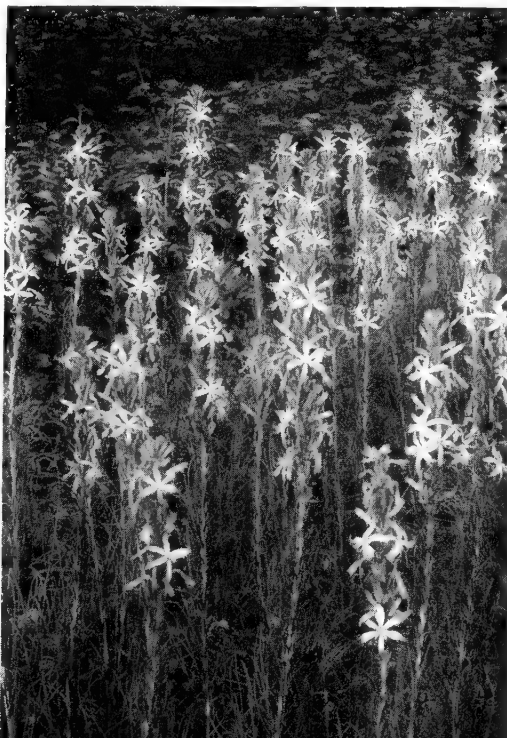

CALLIRHOE - Poppy Mallow

***Involucrata** Per packet 30c
Saucer-shaped flowers of bright rosy crimson, with white centers.

CALAMINTHA - Calamint

***Alpina** Per packet 25c
A very graceful little rock plant, growing 6 inches high, with rich purple flowers.

Asphodelus Luteus (For plants see page 16)

CAMPANULA MEDIUM - Canterbury Bells

CALYCANTHEMA (Cup-and-Saucer)

Tall, erect growing plants completely covered with large cup-and-saucer-shaped flowers during late May and June. One of the loveliest of biennials and a perfect plant for the old-fashioned hardy garden. Flowers last a week or more when cut.

Calycanthema Blue Per packet 20c
Covered with blue flowers.

Calycanthema Pink Per packet 20c
Pink flowers.

Calycanthema White Per packet 20c
White flowers.

Calycanthema Mixed Per packet 20c
All colors mixed.

MEDIUM (Single Canterbury Bells)

These have the same habit of growth and are just as lovely as the Calycanthea; the flowers, however, do not have the so-called "saucer," but are bell-shaped.

Medium Blue Per packet 20c
With blue bells.

Medium Pink Per packet 20c
Lovely pink bells.

Medium White Per packet 20c
Pure white bells.

Medium Mixed Per packet 20c
All colors mixed.

CAMPANULA - Bellflower

Barbata Per packet 30c
Silvery blue bells on stems about 6 to 9 inches high.

***Carpatica (Carpathian Harebell)** Per packet 20c
Flowers clear blue, held erect on wiry stems. It begins blooming in June, continuing until October. As an edging for hardy border or for the rockery it is unsurpassed.

***Carpatica alba** Per packet 20c
A pure white form of the preceding.

Cullinmore Per packet 40c
A lovely hybrid form of Carpathica and other dwarf-growing species. Much more prolific than Carpathica. Its flowers of various shades of blue are produced all summer. Very nice edging plant or for the rock garden.

***Elegans** Per packet 30c
Fine Campanula for borders and rockeries. Height 18 inches. Blooms all summer.

***Glomerata var. dahurica** Per packet 40c
Close heads of deep blue flowers which are strikingly effective. An old European garden favorite.

Lactiflora coerulea Per packet 40c
Pale blue flowers during July and August on stems 2 to 3 feet high; does well in light shade.

Latifolia macrantha Per packet 35c
Drooping bells of fine satiny lilac and deep purplish shades on stems 3 to 4 feet high.

Persicifolia grandiflora alba Per packet 25c
One of the finest Campanulas, with large, handsome, white, bell-shaped flowers.

Persicifolia grandiflora coerulea Per packet 25c
An excellent companion to the white variety, large bright blue flowers.

Persicifolia, Telham Beauty Per packet 40c
Excellent large bright blue flowers. Height 2 feet.

Poscharskyana Per packet 30c
Trailing habit, starlike pale blue flowers.

Pyramidalis Per packet 20c
Produces spikes 4 to 6 feet long, covered with blue, star-shaped flowers during the entire summer.

Pyramidalis, White Per packet 20c
Producing white flowers.

***Rotundifolia (Blue Bells of Scotland or Harebell)** Per packet 25c
Clear blue flowers. Especially suited for crevices in the rock garden or deep slopes. Does well in light shade.

***Sarmatica** Per packet 30c
With 8 to 10 stems not over 16 inches high. Covered with pale blue, bell-like flowers. Foliage silvery gray.

Trachelium Per packet 35c
Sturdy, hairy plant, with light purple, somewhat drooping flowers.

CARNATIONS, HARDY BORDER

Scarlet and Red Shades Per packet 25c
Single red and scarlet flowers on long stems, lovely for cutting.

White Shades Per packet 25c
The same as above but with single and double white flowers.

Pink Shades Per packet 25c
Lovely pink flowers.

Yellow Shades Per packet 30c
Pale yellow blooms.

Mixed Shades Per packet 20c
A riot of color and flowers in great abundance in June and July, are the result from just a few plants. Cut back all flower stems when through blooming.

CASSIA - Indian Senna

Marilandica Per packet 30c
Handsome pinnate foliage and numerous racemes of showy yellow flowers.

CATANANCHE - Blue Cupidone

***Caerulea** Per packet 30c
Heads of deep blue flowers on long stems.

CENTAUREA - Knapweed

Macrocephala Per packet 25c
Large, thistle-like, golden yellow flowers; useful for cutting and showy in borders.

Montana (Perennial Cornflower) Per packet 25c
Grows 2 feet high, bearing large, violet-blue flowers from July to September.

Montana alba Per packet 25c
White form of the above.

Ruthenica Per packet 35c
This handsome plant grows about 5 feet high and bears from July to September, lovely lemon-yellow flowers. Fine for the background of the hardy border.

CEPHALARIA - Giant Scabious

Tatarica Per packet 25c
Flat heads of creamy white flowers during July and August.

CERASTIUM - Chickweed

***Tomentosum** Per packet 25c
Silvery white foliage and an abundance of snow-white flowers in May.

CHEIRANTHUS - Wallflower

***Allioni** Per packet 20c
Dazzling fiery orange flowers.

Golden Bedder Per packet 25c
Similar to above. Flowers of pale golden yellow.

CHRYSANTHEMUM MAXIMUM

Shasta Daisy Per packet 20c
Alaska Handsome plant, with large, glistening white blossoms in June and July.

Mayfield Giant Per packet 35c
A lovely, strong growing and free-flowering Shasta Daisy of recent introduction. If old flowers are removed when faded this variety will bloom throughout the summer.

Mrs. C. Lothian Bell Per packet 35c
Very large, perfectly formed flowers. Continuous bloomer.

CLEMATIS, CLIMBING - Virgin's

Bower

- Paniculata** *Per packet 35c*
Cheerful green foliage and pure white, deliciously fragrant flowers, in great profusion.

CLEMATIS, DWARF - Shrubby

Clematis

- Davidiana** *Per packet 40c*
A most desirable variety, bright green foliage and tubular, bell-shaped flowers of deep lavender-blue during August and September; deliciously fragrant.

- Integrifolia coerulea** *Per packet 40c*
A good border plant, producing its interesting porcelain-blue flowers from June to August.

- Recta** *Per packet 40c*
Grows from 2 to 3 feet high, and produces fragrant, pure white flowers in very large, showy clusters.

COREOPSIS - Tickseed

- Grandiflora** *Per packet 15c*
Large bright yellow flowers; one of the best hardy plants. Excellent for cut flowers all summer.

CORONILLA - Crown Vetch

- *Varia** *Per packet 30c*
A strong creeper; good for covering rough banks; showy heads of pink and white, pea-shaped flowers on 1- to 2-ft. stems. From June to August.

CORYDALIS - Fumitory

- *Cheilanthisfolia** *Per packet 40c*
Fernlike foliage and long spikes of yellow blossoms.

DELPHINIUM - Larkspur

Wayside Gardens Giant Hybrids

Per packet 40c
Here offered are the newest, the best and the finest to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo and royal purple with many intermediary pastel tones of mauve, pink, and lavender blendings. Among these new hybrids are flowers of huge size in both single and double forms. Visitors at our nursery proclaim them the best they have ever seen. Those who wish to perfect their already much prized borders cannot afford to overlook these wonderful hybrids.

- Giant Violet-Blue Shades** *Per packet 50c*
Violet-blue shades with large white bee. Individual florets $2\frac{1}{2}$ inches or more in diameter. Thin woody stems with small foliage. Long graceful spikes. Excellent for cut flowers, show and garden purposes. Mildew resistant.

- Giant Lavender-Pink Shades** *Per packet 50c*
Lavender-pink shades with white bee. Individual florets $2\frac{1}{2}$ to 3 inches in diameter; large spikes, branching habit. Excellent for cut flower, show and garden purposes. Mildew resistant.

- Giant Clear Light Blue Shades** *Per packet 50c*
Clear light blue shades with white bee. Individual florets 2 to $2\frac{1}{2}$ inches in diameter. Thin woody stems with very strong branching habit. Ideal for cut flowers, show and garden use. Mildew resistant.

- Giant Pure White Shades** *Per packet 50c*
Individual florets 2 to $2\frac{1}{2}$ inches in diameter. Well placed on large well-balanced spikes. Clear glistening white with heavy texture. Flowers are semi- to full double. Excellent for show purposes, cutting and garden use. While excellent growers, White Delphiniums are not as strong and rugged as the various shades of blue.

- Cliveden Beauty** *Per packet 25c*
Improved Belladonna, lovely pale blue spikes.

- Fanny Stormonth** *Per packet 25c*
Pale blue spikes 4 feet long, long flowering.

- Lamartine** *Per packet 25c*
Rich indigo-blue flowers.

- Iceberg** *Per packet 35c*
The seed of these will produce 99 per cent white flowers. Spikes 3 to 4 feet in length.

- Blackmore and Langdon Hybrids** *Per packet 35c*
The flowers are enormous, produced on solid, erect spikes of great height and rigidity. The colors lie in delicate shades of blue, mauve and pink.

- Gold Medal Hybrids** *Per packet 25c*
They are made up from the following strains: Blackmore & Langdon's, Watkins', Samuell's, Kelway's and Vanderbilt's. All are careful growers and well-known specialists.

DELPHINIUM BELLADONNA

- Belladonna** *Per packet 25c*

Light sky-blue.

- Bellamosa** *Per packet 25c*

A dark blue form of Belladonna, like the latter and of strong growth.

DELPHINIUM, CHINESE

- Chinense** *Per packet 25c*

A very pretty variety, with fine, feathery foliage and gentian-blue flowers in open panicles.

- Chinense album** *Per packet 25c*

A pure white form of the above.

DIANTHUS BARBATUS - Sweet

William

- Atrococcineus flore-pleno (Double Sweet William)** *Per packet 25c*

Intense deep scarlet double flowers; very brilliant in the garden and a fine cut flower.

- Sutton's Fairy** *Per packet 25c*

Charming variety of recent introduction, with delicately tinted salmon-pink flowers.

- Sutton's Giant White** *Per packet 20c*

Enormous trusses which might well be mistaken for perennial Phlox.

- Sutton's Pink Beauty** *Per packet 20c*

We have succeeded in fixing the shade of this beautiful salmon-pink variety, which should be grown in every garden.

- Sutton's Rich Crimson** *Per packet 25c*

The richest Sweet William known; although very dark, it is a bright color.

- Sutton's Scarlet** *Per packet 25c*

A remarkable color. The flowers are intense scarlet.

- Sutton's Mixed Shades** *Per packet 20c*

Include all the various tints, which give a most pleasing and harmonious effect.

DIANTHUS PLUMARIUS - Old-

Fashioned Clove Pinks

- *Semperflorens flore pleno** *Per packet 25c*
Double and single. Blooms throughout the summer.

- Highland Hybrids Mixed** *Per packet 30c*

The colors range from crimson to salmon-pink and white. A splendid improvement over the common garden pink.

DIANTHUS SPECIES

- Alpinus Allwoodi** *Per packet 40c*

This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of various shades of rose and pink on 4-inch stems.

- *Caesius grandiflorus (Cheddar Pink)** *Per packet 35c*

Makes a cushion of glaucous leaves from which in May, spring the sweet smelling rose-colored flowers.

- *Deltoides (Maiden Pink)** *Per packet 25c*

A beautiful little prostrate plant with narrow leaves, and bearing a profusion of small, crimson flowers during June and July.

- *Deltoides albus** *Per packet 25c*

A white form of the above.

- *Deltoides "Brilliant"** *Per packet 25c*

Glowing crimson-red.

- Deltoides Erecta** *Per packet 25c*

Upright growing, non-creeping form.

- *Knappi** *Per packet 40c*

This is a unique Dianthus as it is the only species which produces yellow flowers.

- *Speciosus** *Per packet 35c*

Flowers are finely cut, giving a lacy effect; wonderfully sweet scented.

Hesperis Matronalis (For plants see page 47)

DIANTHUS HEDDEWIGI

- Mixed Varieties** *Per packet 15c*

DICENTRA - Bleeding Heart

- *Eximia** *Per packet 30c*
Finely cut foliage and showy racemes of pretty pink flowers throughout the season.

DICTAMNUS - Gas Plant

- Fraxinella rubra caucasicus** *Per packet 25c*
Is the better variety, with rose-pink flower spike.

DIGITALIS - Foxglove

- Ambigua or grandiflora** *Per packet 20c*
With yellowish flowers, marked with brown. Effective in groups in wild garden.

- Giant Shirley Hybrids** *Per packet 25c*

The flower heads are over 3 feet long, crowded with big, bell-shaped blossoms. Colors range from white and shell-pink to deepest rose, many attractively dotted crimson or chocolate.

- Gloxiniaeflora** *Per packet 15c*

A popular variety, deep purple.

- Gloxiniaeflora alba** *Per packet 15c*

White-flowered.

- Gloxiniaeflora rosea** *Per packet 15c*

Rose-pink flowers.

- Laevigata** *Per packet 25c*

A dignified and handsome perennial Foxglove. Bronzy yellow flowers with whitish lip.

DRACOCEPHALUM - Dragonhead

- *Ruyschianum japonicum** *Per packet 30c*

Flowers blue; central lobe of corolla with a blue border and white spots, might be called a blue Physostegia. 2 feet. July and August. A good plant.

ECHINOPS - Globe Thistle

- Ritro** *Per packet 20c*

Globular heads of deep metallic blue flowers during July and August, which can be dried and remain attractive for a long time.

EDRAIANTHUS - Wahlenbergia

- *Dalmaticus** *Per packet 30c*
About 3 to 4 inches high, producing blue flowers not unlike the Platycodon.

Delphinium, Wayside Gardens Giant Hybrids

ERIGERON - Fleabane

Speciosus *Per packet 35c*
Large, handsome blue flowers, violet tinted and yellow centers during June and July; fine for cutting.

ERYNGIUM - Sea-Holly

Amethystinum (syn. Oliverianum) *Per packet 35c*
The true blue Thistle, with amethyst stems and bracts; 2 feet high.

EUPHORBIA - Spurge; Milkwort

***Myrsinites** *Per packet 35c*
A pretty prostrate species, bluish foliage, with crowded heads of yellow flowers.

***Polychroma (Epithymoides)** *Per packet 40c*
A beautiful formal plant growing 1 foot high, forming a hemispherical clump covered with yellow flowers in May and June.

GAILLARDIA - Blanket Flower

Giant Portola Hybrids *Per packet 30c*
Larger than the English Strain Giant Hybrids with greater variation of colors.

Improved English Strain Giant Hybrids *Per packet 15c*
In lovely shades of orange and red, all summer and fall.

GALEGA - Goat's Rue

Officinalis nana rosea flore-pleno *Per packet 30c*
Very fine double pink variety; rather rare.

GEUM - Avena

Coccineum, Mrs. Bradshaw *Per packet 25c*
Large, double flowers of a fiery orange-red, blooming nearly all summer.

Fire Opal *Per packet 30c*
Dazzling orange-scarlet flowers.

Lady Stratheden *Per packet 35c*
A new introduction of great merit. Rich golden yellow blossoms, counterpart of Mrs. Bradshaw.

Digitalis, Giant Shirley Hybrids

GLOBULARIA - Globe Daisy

***Trichosanthea** *Per packet 30c*
A dwarf, tufted little plant with beautiful lavender flower heads.

GYPSOPHILA - Baby's Breath

Pacifica *Per packet 30c*
Similar in habit and growth to *Paniculata* or the common *Baby's Breath*. The flowers are clear pink and profuse. An excellent variety for cutting and garden use.

Paniculata compacta *Per packet 15c*
Forms a symmetrical mass 2 to 3 feet in height and as much through, of minute white flowers having a beautiful gauze-like appearance.

Repens *Per packet 25c*
A beautiful trailing plant for the rockery, with clouds of small, white flowers in July and August.

***Repens rosea** *Per packet 30c*
A pale pink-flowered form of the above variety; lovely in the rock garden and dry wall.

HELIANTHEMUM - Sun Rose

***Choice Mixed Varieties** *Per packet 30c*

HELENIUM - Sneezewort

Autumnale rubrum *Per packet 25c*
A splendid variety; deep bronze-red, changing to terra cotta, 5 to 6 feet. September.

Autumnale superbum *Per packet 30c*
Broad heads of deep golden yellow flowers in late summer. Grows 5 to 6 feet high.

Mixed Shades *Per packet 20c*
Tones of yellow, brown, and orange.

HELIOPSIS - Orange Sunflower

Pitcheriana *Per packet 20c*
The flowers are of a beautiful deep golden yellow, about 2 inches in diameter, of very thick texture and a useful cut flower.

HESPERIS - Sweet Rocket

Matronalis *Per packet 20c*
Fragrant, purple flowers in June and July. Desirable for wild garden, shrubbery or mixed border.

Matronalis alba *Per packet 20c*
A white-flowered form of the above named sort. Also sweet scented.

HEUCHERA - Alum Root; Coralbells

***Perry's White** *Per packet 35c*
Pure white flowers which go well with the red and pink varieties, flowering from June to September.

***Sanguinea** *Per packet 25c*
Flowers bright crimson, on 12- to 18-inch stems in June and September; very free flowering.

***Wayside Gardens Hybrids** *Per packet 25c*
Especially noted for their luxuriant foliage and robust growth. Therefore used principally as an edging to beds or walks. The rich green foliage is tinted with bronze or reddish brown veins and is attractive throughout the entire season.

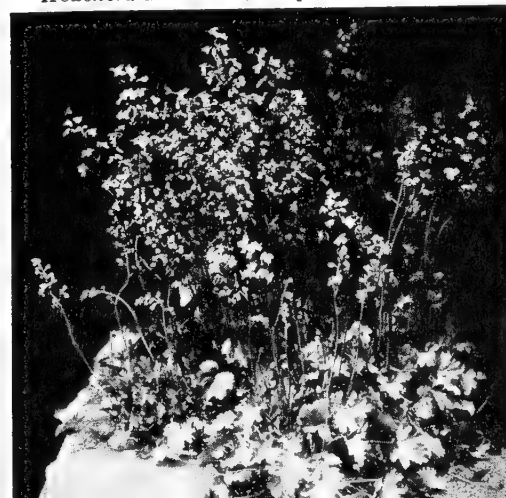

HOLLYHOCKS - Althea Rosea

Double. Separate colors as follows: **Bright Rose, Maroon, Newport Pink, Red, White, Yellow, Prince of Orange, and Mixed** *Price, all colors, per packet 25c*

New Allegheny *Per packet 25c*
Immense semi-double flowers, with fringed edges.

Single *Per packet 20c*

Heuchera Brizoides (For plants see page 47)

HIBISCUS - Mallow

Hibiscus, Mixed Colors *Per packet 25c*

HYPERICUM - St. John's Wort

Ascyron *Per packet 30c*
Clusters of yellow blooms in July, on stems 2 feet tall.

Reptans *Per packet 40c*
Distinct, prostrate, trailing species from the Himalayas. Very large, soft yellow flowers, tinged reddish in July and August. Good rock plant. Shrubby variety for low borders and rock gardens.

IBERIS - Candytuft

***Sempervirens** *Per packet 30c*
Covered with a sheet of white flowers in spring, completely covering its rich dark green foliage.

INCARVILLEA - Trumpet Flower

Delavayi *Per packet 30c*
Rose-pink flowers produced in large trusses on stiff, 18-inch stems.

***Grandiflora brevipes** *Per packet 35c*
This is the best sort for rock gardens, about 8 inches high and large crimson-purple flowers.

INULA - Fleabane

Hirta *Per packet 30c*
Stems 12 to 15 inches high with brilliant flowers in July and August.

Royleana *Per packet 30c*
The flowers are 5 to 6 inches in diameter, rich golden yellow, resembling sunflowers except that the petals are fine and graceful.

IRIS KAEMPFERI - Japanese Iris

Mixed Colors *Per packet 30c*
Both single and double. Choice varieties. Will flower second year after sowing.

JASIONE - Sheep's Scabious

Perennis *Per packet 30c*
Like a very dainty lavender-blue *Scabiosa*, about 6 inches high, flowering in June and July.

LATHYRUS - Everlasting Pea

Latifolius, Pink Beauty *Per packet 25c*
Large racemes of pleasing rose-pink flowers.

Latifolius, Red *Per packet 25c*
The red Everlasting Pea.

Latifolius, White Pearl *Per packet 25c*
White variety, the stems giving from 12 to 15 flowers each.

LAVANDULA - Lavender

Vera *Per packet 25c*
This is the true Sweet Lavender; grows about 18 inches high; delightfully fragrant blue flowers.

LEONTOPODIUM - Edelweiss

****Alpinum** *Per packet 30c*
A well-known Alpine with pretty silvery white leaves; starlike heads clothed with a dense white, woolly substance. This is one of the most famous of rock garden plants of the European Alps.

LIATRIS - Blazing Star

Pycnostachya *Per packet 30c*
Blooming in midsummer, and throws up long, narrow spikes of rich purple flowers, 4 feet high, which last a long time.

Spicata *Per packet 30c*
Spikes about 3 feet high, of good clear purple. Flowers before *Pycnostachya*, and is the next most desirable.

LINARIA - Toad Flax

Alpina *Per packet 30c*
Brilliant orange and purple flowers like miniature Snapdragons, abundantly produced on trailing plants with neat grayish green foliage.

Linum Perenne (For plants, see page 53)

Lupinus Polyphyllus (For plants, see page 53)

LILIUM - Lily

Philippinense formosanum *Per packet 35c*
Has large umbels of beautiful, long, trumpet-shaped, fragrant white blooms, shaded pink on the outside. Blooms in 6 to 8 months. 3 feet.

Regale (Regal Lily) *Per packet 25c*
One of the most beautiful of all garden Lilies. The ivory-white flowers are shaded pink on the outside and have a yellow throat.

Tenuifolium (Coral Lily) *Per packet 35c*
Very easy to grow from seed, blooming the second year. Bears a profusion of medium-sized, dazzling coral-red flowers in May.

LINUM - Flax

Alpinum *Per packet 35c*
A rare species from the Dauphine, of prostrate growth with showers of pale blue blossoms throughout the summer.

***Flavum** *Per packet 30c*
Fine variety with transparent, yellow blossoms.

***Narbonnense** *Per packet 35c*
Forms a spreading clump of attractive foliage with azure-blue flowers with white eye.

***Perenne** *Per packet 25c*
Very attractive, both in foliage and bloom. Flowers pale blue on slender, graceful stems.

***Perenne album** *Per packet 25c*
White form of the above.

LOBELIA - Indian Paintbrush

Cardinalis (Cardinal Flower) *Per packet 25c*
Rich, fiery cardinal flowers, producing 4 to 6 spikes, 24 to 30 inches long.

Syphilitica *Per packet 25c*
Blue flowers on 12-inch stems. Excellent for moist location.

LUPINUS - Lupine

Wayside Gardens Sweet-Scented Hybrids *Per packet 25c*

Colors are both rich and delicate shades of blue, mauve, etc., and the flowers are borne on long spikes that for size and beauty rival giant Snapdragons. The added novelty of being scented makes them one of the best garden plants.

Polyphyllus (Hardy Lupine) *Per packet 20c*

Clear blue spikes.
Polyphyllus albus *Per packet 20c*

A white variety of the preceding.

Polyphyllus roseus *Per packet 20c*

Flowers of beautifully shaded rose.

Polyphyllus, Moerheimi *Per packet 25c*

Pink.

Russell Lupins R. H. S. Gold Medal, June, 1937.

The most sensational introduction for many years. The finest strain of perennial Lupins in the world. Long, symmetrical, closely furnished spikes in an indescribably rich variety of brilliant colors—self and bicolors—red, oranges, pure deep yellows, and many others new to Lupins. Average height 2½ to 3½ feet. The seed we are offering has been grown from plants raised from originator's seed after first removing undesirable and unsatisfactory types unsuited for our climate. It is now a beautiful mixture. Only fresh seed harvested in 1941 is offered.

*Pkts. in 3 sizes: 25 seeds 25c,
50 seeds 40c, 250 seeds, \$1.50*

LUNARIA - Honesty; Judas Penny

Biennis *Per packet 20c*
Violet and white flowers are produced early in spring which should not be cut. The seed pods which are very freely and quickly produced are round, upon removal of the outer husks a silvery round disc is disclosed. The entire plant should be cut down and used for winter decoration. Especially handsome combined with Bittersweet.

LYCHNIS - Campion or Catchfly

***Alpina** *Per packet 35c*
Dwarf, rose-pink. About 4 inches high.

Chalcedonica *Per packet 30c*
Heads of vivid scarlet flowers, blooming a long time. 3 feet; all summer.

***Haageana** *Per packet 25c*
Orange-red, scarlet or crimson flowers nearly 2 inches across.

Viscaria splendens alba *Per packet 25c*
White flowers in June and July. 8 to 10 inches high.

Viscaria splendens *Per packet 25c*
Pink form of the above.

LYTHRUM - Purple Loosestrife

Superbum roseum *Per packet 20c*
Very showy rosy purple spikes about 2 to 3 feet high, produced in profusion all summer.

MATRICARIA - Double Feverfew

Silver Ball *Per packet 20c*
A most useful border plant and valuable summer cut flower, with large, double, white flowers.

Golden Ball *Per packet 25c*
Dwarf yellow form of above.

MIMULUS - Musk or Monkey-Flower

***Luteus** *Per packet 30c*
During the entire summer large Snapdragon-like yellow flowers.

MYOSOTIS - Forget-me-not

***Palustris semperflorens** *Per packet 25c*
Large, rich blue flowers with yellow eye.

OENOTHERA - Evening Primrose

***Fraseri** *Per packet 25c*
Pale yellow flowers on 12-inch stems from June until October.

***Missouriensis** *Per packet 25c*
A low growing, profuse bloomer. The large golden, solitary flowers often are 4 inches across.

***Speciosa** *Per packet 25c*
Pure white flowers 3 inches across, in great quantities on 18-inch stems all summer.

Youngi *Per packet 25c*
Shiny foliage, numerous bright lemon-yellow flowers on stems about 24 inches tall from June to August.

PAPAVER ORIENTALE

Oriente (Oriental Poppy) *Per packet 20c*
Blooms of brightest crimson-scarlet with large, purplish black blotches at base of the petals, creating a wonderful contrast when bloom is fully open.

Oriente, Beauty of Livermore *Per packet 25c*
The finest dark crimson with black blotch; fine flowers freely produced.

Oriente, Mrs. Perry *Per packet 25c*
Orange-apricot, and a very fine variety, the best of all the "Pink Poppies."

PAPAVER NUDICAULE - Iceland Poppy

***Baker's Sunbeam Mixture** *Per packet 25c*
Throughout the entire season, a profusion of slender, leafless stems, 1 foot high, each graced with charming cup-shaped, yellow, orange, white, or pink flowers.

PARDANTHUS - Belamcanda; Blackberry Lily

Chinensis *Per packet 35c*
Flowers orange colored, spotted black, on 24-inch stems. A lovely old-fashioned flower for the hardy border.

PENTSTEMON - Beard Tongue

Heterophyllus *Per packet 30c*
Spikes 3 feet long covered with metallic blue flowers.

Pubescens (Hirsutus) *Per packet 25c*
Violet flowers shading to a flesh-pink; excellent for hot dry places in the border; is also a very fine wall or rock plant.

Unilateralis *Per packet 30c*
Producing 6 to 10 erect spikes, 24 to 30 inches long, covered from top to bottom with opalescent-blue flowers. A beautiful border plant and splendid cut flower, lasting several days in water.

PHYTEUMA

Scheuchzeri *Per packet 30c*
Dark blue campanula-like flowers.

PLATYCODON - Chinese Bellflower

Grandiflorum *Per packet 20c*
Large, showy, deep blue flowers in 20-inch spikes are produced all summer. Splendid for the hardy border.

Grandiflorum album *Per packet 20c*
White-flowered form of the above.

***Mariesi** *Per packet 25c*
Dwarf species, with large, deep violet-blue flowers on 12-inch stems in great profusion throughout the entire summer.

***Mariesi album** *Per packet 25c*
White-flowered form of the above.

POLEMONIUM - Jacob's Ladder

Richardsoni album *Per packet 25c*
A white variety of coeruleum.

Richardsoni coeruleum *Per packet 25c*
Erect stems of sky-blue flowers, 1 to 1½ feet, in June and July.

POTENTILLA - Cinquefoil

***Mixed Colors of Double Varieties** *Per packet 35c*
Various shades of orange and coppery red; they are especially suited for in front of sunny borders or for bold masses in the rock wall or rock garden.

Pyrethrum, Mixed English Varieties (For plants, see page 67)

Viola, Floaire (For plants, see page 77)

POLYANTHUS - Bunch Primrose

***Munstead, Exhibition Yellow** *Per packet 35c*
A beautiful strain of large-flowered, yellow shaded, bunch Primrose; most desired by those who love the Primrose.

***Munstead, Exhibition Cream** *Per packet 35c*
Very fine, large-flowered, cream-white shaded bunches of bloom, striking yellow eye.

***Munstead Strain Mixed** *Per packet 30c*
In all shades of yellow, cream, dark orange, some pink, and dark rose.

***Veris Hybrids** *Per packet 25c*
Various shades of violet, as well as a wide range of yellow, buff, orange, salmon, and rich reds.

PRIMULA - Primrose

***Auricula Alpina, Giant Hybrids** *Per packet 25c*
One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves. The flower stalks rise to a height of 6 or 8 inches, bearing heads of fragrant bloom of various colors.

***Cashmeriana** *Per packet 35c*
Large globular heads of a pleasing purplish blue shade, prefers a moist, shaded or sunny situation.

***Cortusoides** *Per packet 30c*
Flowers in early summer, deep rose; prefers light, rich, well-drained soil.

***Moerheim Hybrids** *Per packet 40c*
The lovely pastel colors range from cream to many shades of yellow, orange, purple, lilac, pink, and crimson.

***Vulgaris** *Per packet 25c*
The true old English Primrose with pale yellow flowers.

PYRETHRUM - Painted Daisy

Red, Pink, White Shades
Finest Mixed English Varieties *Packet 25c*
This mixture contains double- and single-flowering sorts in many shades of pink, rose, and white.

RUDBECKIA - Coneflower

Purpurea *Per packet 25c*
Purple flowers, with a very large, brown cone-shaped center. Blooms from July to October.

SALVIA - Meadow Sage or Clary

Azurea *Per packet 25c*
Grows 3 to 4 feet high, producing, during September, pretty sky-blue flowers in profusion.

Pratensis *Per packet 25c*
Lilac-blue flowers from June to September; grows about 2 feet high. Good border plant.

Turkestanica *Per packet 30c*
Sweet-scented, silvery foliage and showy whorls of white flowers surrounded by pale pink, all summer.

SAPONARIA - Soapwort

***Ocymoides Splendens** *Per packet 25c*
Pretty, prostrate plant; flowers rosy pink, produced in great quantities just above the foliage in late May and early June.

Ocymoides alba *Per packet 25c*
A pure white form of the above.

SAXIFRAGA - Rock-foil; Megasea

***Megasea Hybrids** *Per packet 30c*
Handsome plants in fine mixture of all shades of rose or pink. Excellent foliage. Good for the rock garden or border. Does well in shade or sun.

SIDALCEA - Greek-Mallow

Rosy Gem *Per packet 25c*
Erect growing, 2 to 3 feet in height, producing their showy bright rose-colored flowers during June and July.

SCABIOSA - Pin-cushion Flower

Caucasica (Blue Bonnet) *Per packet 25c*
Their lovely flowers are a soft and charming shade of lavender. Blooms all summer.

Caucasica alba *Per packet 30c*
White flowered variety of the above.

Japonica *Per packet 20c*
Lavender-blue flowers from July to September. 2 feet.

Pennsylvanica *Per packet 25c*
Golden yellow flowers on 5-foot stems.

SILENE - Catchfly or Campion

***Alpestris** *Per packet 30c*
Dwarf rock plant, dainty pure white flowers in May and June.

Maritima *Per packet 35c*
Compact masses of glaucous blue foliage, very neat in appearance, 2 to 3 inches high. From June to August the entire plant is covered with white flowers. Especially happy in a hot, dry place in the rockery or in the rock wall.

***Saxifraga** *Per packet 30c*
A choice Alpine of mossy growth. Flowers white, in great profusion all summer.

Schafta (Autumn Catchfly) *Per packet 25c*
A charming plant, growing from 4 to 6 inches high, with masses of bright pink flowers from July to October.

STATICE - Great Sea-Lavender

***Latifolia** *Per packet 25c*
Immense heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months.

STOKESIA - Cornflower Aster

Cyanea coerulea *Per packet 25c*
Beautiful light blue flowers in late summer and early autumn.

Cyanea coerulea alba *Per packet 30c*
White-flowered form of the above.

SWEET WILLIAM. See *Dianthus Barbatus*, page 152.

TEUCRIUM - Germander

Orientalis *Per packet 30c*
Dwarf, graceful plants, producing an abundance of blue flowers in August.

THALICTRUM - Meadow-Rue

***Adiantifolium** *Per packet 25c*
A beautiful variety with foliage like the Maidenhair Fern and miniature white flowers in June.

Aquilegifolium *Per packet 25c*
Graceful foliage like that of Columbine, and rosy purple flowers from June to July.

Aquilegifolium album *Per packet 25c*
White form of the above.

Dipterocarpum *Per packet 25c*
Flowers a charming shade of lilac-mauve, which is brightened by a bunch of lemon-yellow stamens.

Glaucum *Per packet 30c*
Blue-gray leaves rather finely cut, with heads of Chinese yellow, fragrant flowers.

THERMOPSIS

Caroliniana *Per packet 40c*
Yellow Lupine-like flowers. A rugged plant for the border.

TRITOMA - Red Hot Poker

Perry's Hardy Hybrids *Per packet 25c*
Various colors, ranging from pale yellow to deep orange and are very showy.

TROLLIUS - Globeflower

Ledebouri (True) *Per packet 40c*
A magnificent variety of very deep orange color. Its great merit lies in its late flowering propensities. After other varieties have faded, it is at its best.

Mixed Choice Varieties *Per packet 25c*
Colors range from pale yellow to deep orange; on strong stems 2 feet high.

TUNICA - Coat Flower

***Saxifraga** *Per packet 25c*
A pretty tufted plant with light pink flowers, produced all summer, about 6 inches high; for the rockery or border.

VALERIANA - Centranthus; Garden Heliotrope

***Coccinea** *Per packet 15c*
Showy heads of old rose flowers in umbels on 12-inch stems.

***Coccinea alba** *Per packet 20c*
White form of the above.

Officinalis (Hardy Garden Heliotrope) *Per packet 25c*
Produces showy heads of rose-tinted white flowers during June and July, with delicious, strong heliotrope odor. 3 to 4 feet high.

VERBASCUM - Mullein

Olympicum *Per packet 25c*
The foliage is silvery white, with leaves often 3 feet long. Flowers yellow, produced in quantity in midsummer.

***Phoeniceum, Wayside Gardens Hybrids** *Per packet 30c*
Colors are most interesting, ranging from white, pink, rose, purple, and bronze to brown; grow 18 inches high.

VERONICA - Speedwell

***Incana (Candida)** *Per packet 25c*
1 foot. July and August. A white, woolly plant; flowers numerous; blue. Has good appearance, both in and out of bloom.

Spicata *Per packet 25c*
Long spikes of violet-blue flowers all summer; a very fine variety for the middle of the hardy border.

VIOLA CORNUTA - Tufted Pansies

***Admiration** *Per packet 25c*
Deep violet flowers in great profusion.

***Floaire** *Per packet 35c*
A gem, producing profusely all summer through, small blossoms of pale blue. Famous in and around Geneva, Switzerland. A product of Monsieur Correvon. Fine for rockery.

Golden Yellow *Per packet 25c*
A very free-flowering sort, producing its golden yellow flowers all summer.

***Gracilis** *Per packet 25c*
A tufted species producing a mass of rich purple, small, starry flowers, in bloom all summer.

Perfection *Per packet 25c*
Light blue flowers in abundance all summer; a very lovely variety planted with the yellow sort.

Sutton's Apricot *Per packet 25c*
Beautiful rich apricot shade, tinged orange toward the center.

White Perfection *Per packet 25c*
Pure white blooms in great profusion.

YUCCA - Adam's Needle

***Filamentosa** *Per packet 25c*
Its broad, swordlike, evergreen foliage and immense branching spikes of drooping, creamy white flowers, rising to a height of 6 feet, render it a bold and a handsome subject wherever placed.

A New Barberry

Berberis Mentorensis Makes a Better Hedge

The Morton Arboretum at Lisle, Illinois, near Chicago, testing garden for shrubs and especially hedges, writes:

The Mentor Barberry (Berberis Mentorensis) has been much discussed of late, and after several years' trial, we are thoroughly convinced of its hedge possibilities. A hybrid of B. Julianae and B. Thunbergi parentage, it is fortunate in possessing the former's erect habit and semi-evergreen, leathery dark green foliage combined with the latter's hardness and vigor.

Morton Arboretum, Lisle, Ill.

Berberis Mentorensis (Plant Patent No. 99) is the result of a cross between Barberry Thunbergi and Barberry Julianae. It has very rugged, strong, upright growing branches and quite formidable thorns. Its foliage is heavy and thick and of perfect color—a green as dark as the Japanese Yew.

In Northern Ohio the leaves remain green until after the holidays, are dropped during the late winter, and new foliage appears early in April. Plants growing south of here retain their foliage much longer. In southern parts of the country, Berberis Mentorensis is evergreen.

Its most valuable attribute is its ability to withstand heat and drought. Few other shrubs or hedge plants are able to go without water and withstand intense heat as Barberry Mentorensis and look as well. During the hottest weather there is never any sign of wilting or burning, much to the amazement of everyone.

Upright growth; easy upkeep (requires really no pruning), and its tenacious foliage, more than compensate for the lack of berries. We heartily recommend Berberis Mentorensis to you and claim it to be the best moderately priced and perfectly hardy hedge plant to date.

Mentorensis does not rust or discolor in hot, dry weather.

First—It is evergreen practically the year around. Think what that means.

Second—Its sturdy, erect growth carries a thick dark green foliage right down to the ground. Is never bare-legged.

Third—When used for a hedge, its thorny, strong growth forms a formidable barrier to man or beast.

Fourth—Needs no pruning. It is of erect growth which becomes dense when the plant is three or four years old. No upkeep! No pruning!

Fifth—Combined in a foundation planting with evergreens, it provides a beautiful and artistic contrast at very small expense and without elaborate preparation of soil.

Sixth—Is not "choosy" about where it grows. No matter if you can't make other broad-leaf evergreens, such as Azaleas and Rhododendrons, thrive in your soil, this new Barberry will. It is equally at home whether it is acid or alkaline soil.

*Two-year-old Common Barberry Thunbergi
Very undesirable because of its poor habit of growth*

**PLANT IN SINGLE ROW
12 to 15 Inches Apart**

Bushy, young stock, 12 to 15 inches tall:
\$1.40 per 3, \$4.00 per 12, \$25.00 per 100

Bushy plants, 15 to 18 inches tall:
\$1.50 per 3, \$4.50 per 12, \$30.00 per 100

A-No. 1 plants, 18 to 24 inches tall:
\$2.00 per 3, \$6.00 per 12, \$40.00 per 100

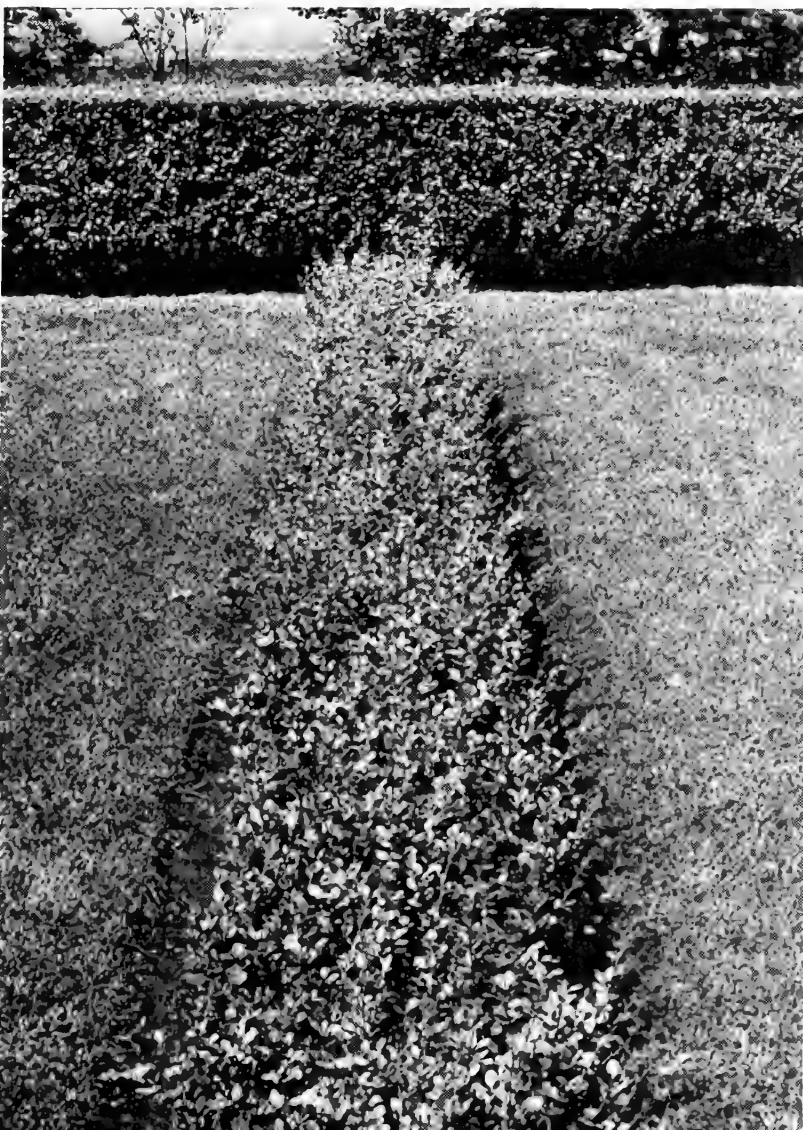

Bushy plants, 24 to 30 inches tall:
\$2.60 per 3, \$7.25 per 12, \$50.00 per 100

Untrimmed Hedge of Berberis Mentorensis Showing Perfect Natural Hedge-Form

Trimmed Hedge of Berberis Mentorensis at the Morton Arboretum

[157]

Berberis Mentorensis in Early Winter. Note Fine Foliage

Hedges

BERBERIS

Thunbergi (Common Barberry)

Too well known to require any comment. In fall its colored foliage and red berries cheer the boundaries of millions of gardens and homes.

15 to 18 inches Doz. \$3.50, 100 \$25.00, 1000, \$225.00
18 to 24 inches Doz. \$4.75, 100 \$35.00, 1000 \$325.00

Red-Leaved Barberry (Berberis Thunbergi Atropurpurea)

Beautiful new red-leaved sport of the Japanese Barberry, prized for its bright foliage the entire season. Rich, lustrous bronze-red, like the richest red-leaved maples—becoming more brilliant and gorgeous in summer, changing to vivid orange-scarlet in autumn. A leaf coloring unequaled by any shrub, is followed by brilliant scarlet berries all winter. To develop its high coloring at all seasons plant in full exposure to the sun. Adds distinction to any planting. Makes a perfect color companion, immune to rust and disease.

18 to 24 inches Doz. \$5.00, 100 \$35.00
2 to 3 feet Doz. \$7.50, 100 \$55.00

TRUEHEDGE COLUMNBERRY

Berberis Thunbergi Pluriflora Erecta

(U. S. Plant Patent No. 110.) A new Barberry of dense, upright growth with extra heavy foliage giving a dainty, upright hedge of a rich green color that changes to brilliant autumn tints. Perfectly hardy, bearing an abundance of berries. Immune to rust. Columnberry should be used as an edging to flower beds or for small low hedges. It is recommended in place of Boxwood where this is not hardy.

Size, 9 to 12 inches Per 5 \$1.25, Per 25 \$5.00, Per 100 \$18.00
Size, 12 to 15 inches Per 5 \$1.45, Per 25 \$6.00, Per 100 \$22.00
Size, 15 to 18 inches Per 5 \$1.75, Per 25 \$7.50, Per 100 \$28.00

COTONEASTER

Multiflora (Reflexa) Bare root, hedging size, Doz. \$7.50, 100 \$55.00

Here follows a report published by the nationally famous Morton Arboretum of Lisle, Illinois: "More spectacular are the red-fruited forms, which comprise a majority of the species in cultivation. Of these, Cotoneaster Multiflora is a perennial favorite here. Our largest specimen has long since exceeded its designated ultimate height, and grown into a shapely bush 10 feet tall. The whip-like branches are arching and spreading, and in late May erupt along the entire length into clusters of white Hawthorn-like flowers. An effect equally pleasing prevails in autumn when good sized crimson fruits of dazzling brilliance fringe the branches. They remain effective well into October or November. Between the flowering and fruiting seasons, interest is furnished by the broad, clean appearing foliage of soft blue-green."

For hedges this variety is particularly well adapted and we offer for that purpose nice plants about 3 feet tall for a special price.

LIGUSTRUM (Privet)

Amurense (Amur Privet) 3 to 4 feet, Doz. \$3.50, 100 \$22.50

A tall growing, upright shrub with dark green, lustrous leaves. Perfectly hardy. This plant has been used for hedges to a tremendous extent in the past few years and has given general satisfaction. It also forms an excellent quick-growing screen. Ultimate height, unpruned, 12 feet.

Ibodium (Ibodium Privet) 2 to 3 feet, Doz. \$2.50, 100 \$18.00

This very hardy Privet is a hybrid between Ibota and California Privet, having the rich, glossy green leaves of the latter and the bushiness and hardness of the former. It is becoming more popular for hedge planting each year, and makes an excellent specimen, almost evergreen shrub in some locations. Ultimate height, unpruned, 8 feet.

BUXUS (Boxwood)

There is no doubt that "Box" is one of the finest and most useful of the broadleaf evergreens. It lends itself to all kinds of uses in the garden or as specimens in tubs on the porch or terrace.

It has three particularly fine and unusual attributes which are not commonly found in other shrubs:

One: It does well on poor soils.

Two: It grows luxuriantly in sun or shade.

Three: It grows fine under the drip of tall trees.

Further, no matter how old or how big it gets, you can successfully transplant it, move it, or sell it. Many a small fortune goes to gardeners in the South whose ancestors planted small Box trees twenty-five or more years ago.

If you live in a locality where "Boxwood" grows reasonably well, by all means plant it for a hedge and edging or for formal use as well as unclipped specimens.

BOXWOOD EDGING

Buxus suffruticosa

This is the true dwarf "Box" and the best kind to use for edgings around flower or rose beds. It can be clipped and kept so it will not exceed 12 inches in height.

4 to 6 inches high Doz. \$2.15, 100 \$16.00, 1000 \$150.00
6 to 8 inches high Doz. \$3.50, 100 \$26.00, 1000 \$250.00
8 to 10 inches high Three \$1.75, Doz. \$5.00, 100 \$35.00

BOXWOOD HEDGE, SMALL-LEAF

Buxus sempervirens

The Sempervirens Box is found throughout the South where it has developed into quite large specimens. Old plants form beautiful irregular masses. Can also be clipped in formal hedge or shapes.

9 to 12 inches high Each \$1.15, Three \$3.25, Doz. \$10.00
12 to 15 inches high Each \$1.75, Three \$4.75, Doz. \$15.00

BOXWOOD HEDGE, LARGE-LEAF

Buxus Hansworthensis

Doz. \$6.00, 100 \$40.00

By far one of the finest of Box. This variety is not in common use, and is found only in the gardens of experts, and those "in the know." It is quite fast growing, exceedingly hardy, much better able to withstand winter conditions, does not "burn," grows into a compact, upright form, and has large dark green leaves. It lends itself to development into individual specimens, and is particularly nice in low hedges of from 2 to 6 feet. May be clipped into any shape or form desired. Grown natural without pruning it develops into a semi-loose pyramidal shrub 8 feet or more high. We offer for the present only young plants about 12 inches high.

VIBURNUM OPULUS NANA

The Hedge Viburnum

Each \$1.00, Three \$2.60, Doz. \$7.25, 100 \$50.00

A dwarf, stubby plant never over two feet high, particularly well adapted for edgings and hedges in wet or heavy clay ground where it is difficult for other plants to thrive. Does well in light shade. It is extremely hardy. Can be clipped or left natural as desired. In either case it grows into a fine compact and low hedge which requires no care.

UNUSUAL AND HANDSOME HEDGES

Are Made From the Following Plants:

Euonymus radicans. (See page 164)

Makes a fine formal evergreen hedge 18 inches high and 8 inches wide.

Cydonia aurea. (See page 174)

Perfect for a low informal hedge 2 feet wide and 3 feet high.

Rosa Rugosa. (See page 97)

Excellent all-summer-flowering hedge. Does well in windy places. 3 feet wide and 4 feet high.

Truehedge Columnberry

Hedge of Cotoneaster Multiflora (Reflexa)

New, Unusual Plants for Edging and Low Hedges

BUXUS HANSWORTHENSIS

This fine variety of Box is not in common use, and found only in the gardens of experts, and those "in the know." It is quite fast growing, exceedingly hardy, much better able to withstand winter conditions, does not "burn," grows into a compact upright form, and has large dark green leaves. It lends itself to development into individual specimens, and is particularly nice in low hedges of from 2 to 4 feet. May be clipped into any shape or form desired. We offer for the present only young plants about 12 inches tall at

Doz. \$6.00, 100 \$40.00

PACHISTIMA CANBYI

A choice dwarf compact evergreen shrub of inestimable value. Superb as an evergreen edging to flower beds or borders for walks. Perfect in front of evergreen plantings. Spreads to about 18 inches in diameter and never grows over 8 inches in height. May be trimmed or left natural. Withstands 20 below zero and foliage does not burn or discolor during winter. Does well in sun and light shade. Charming as a ground cover in small places where the usual kinds would be out of scale.

Three \$1.75, Doz. \$5.50,
100 \$35.00, 1000 \$325.00

TEUCRIUM CHAMAEDRY'S

Shrublike plant of moderate growth. Has shrublike, shiny, dark leaves. Glossy green foliage resembling dwarf boxwood, may be used in place of boxwood where the latter is not hardy; can be clipped to suit any height up to 12 inches. Plant in fall or early spring, 6 inches apart, in full sun. Excellent edging to flower beds.

Three \$1.45, Doz. \$4.75,
100 \$25.00, 1000 \$209.00

SALIX PURPUREA NANA

Dwarf Blue-leaf Arctic Willow. Discovered north of the Arctic Circle. A charming low-growing Willow excellently suited for edgings. Grows anywhere in wet or heavy soils where other plants perish. It is able to withstand the lowest temperatures encountered in this country, is of easy culture. Just the plant for low edgings, around beds or along walks in difficult soils or localities. The foliage is a lovely gray-blue-green. Can be clipped for formal effects or left natural as desired. Should be planted about 8 inches apart. May also be grown as single specimens in the rock garden.

Each 55c, Doz. \$4.00,
100 \$25.00, 1000 \$200.00

Hardy Vines and Climbers

Much of the charm of English homes and gardens is due to the liberal use of vines. Unsightly buildings, raw corners, crude fences, old posts and stumps, unsightly rock piles, are all easily transformed into points of beauty and interest when covered with a vine of some sort. The smallest garden affords ample opportunity for their use. No matter how small and humble a home or cottage may be, it is made bigger and more beautiful because the owner planted a few vines to grow up or over it. Many a large building, or a forbidding, cold, big house, or an ugly bridge, or an embankment is made beautiful when it is used as a support or a place on which to grow vines. Look around in your garden, take a good look at your porch, bare walls, or back door and see if they would not look much better with a suitable vine growing on them. Vines soften lines and create beauty. The expense is small and the returns are big.

ACTINIDIA

Arguta (Silver Vine) Each \$1.25, Three \$3.50, Doz. \$12.50

A very desirable hardy Japanese climber of strong vigorous growth. Dark green, shining foliage and greenish white flowers with purple centers which are followed by clusters of edible fruit of figlike flavor. An excellent plant for covering arbors, trellises, etc., where a rapid and dense growth is desired. Strong plants.

AKEBIA

Quinata Each \$0.60, Three \$1.70, Doz. \$6.00

One of the most graceful of our hardy climbers, producing in early spring numberless bunches of violet-brown flowers which have a pleasant cinnamon odor.

AMPELOPSIS - Ivy

Lowi (Miniature Boston Ivy) Each \$0.85, Three \$2.25, Doz. \$7.75

The small-leaved Boston Ivy is a charming self-clinging and quickly climbing vine. The leaves are small, palmlike and deeply lobed, turning into beautiful autumn tints before falling. This variety is especially well adapted to cover house walls as well as stone gate posts or low walls. The close fitting short-stemmed leaves do not allow birds to nest. Its effect is tracery-like and does not completely cover the brick or stonework. It is quickly replacing the common Boston Ivy or Veitchi variety, because it is so much more charming.

Veitchi

(Boston Ivy.) The most popular climbing plant for covering brick walls, stone or wooden walls, trees, etc. When it becomes established it is of very rapid growth, and clings to the smoothest surface with the tenacity of Ivy.

Strong, 3-year-old plants Each \$0.60, Three \$1.50, Doz. \$5.00

Nice plants from 5-inch pots Each \$0.65, Three \$1.75, Doz. \$5.50

Veitchi purpurea Each \$1.00, Three \$2.75, Doz. \$9.25

A new vigorous grower, with richer and more intensely colored foliage in fall; a rare, beautiful vine. The young spring growth is also much more colorful. Only a limited number available.

BIGNONIA - Trumpet Vine

For covering unsightly places, stumps, rock work, old fences or wherever a showy naturalistic flowering vine is desired, the Bignonia will be found very useful. The flowers are large, attractive and borne profusely when the plant attains a fair size.

Grandiflora Each \$1.50, Three \$4.25, Doz. \$13.00

Wide open and flaring trumpet-shaped flowers 3 to 4 inches across in clusters of a dozen or more cover this vine throughout the summer months. The color is flesh to orange inside, orange-yellow outside, bright orange-red veins in the yellow throat of the trumpet. A superb and very hardy vine of great beauty.

Grandiflora, Mme. Gallen Each \$1.75, Three \$4.95, Doz. \$17.50

This is the reddish orange flowered form. The blooms are 2½ to 3 inches across and several shades darker than those of Grandiflora. It is easy to grow, perfectly hardy, does well anywhere and flowers throughout the entire summer. Its tawny reddish orange flowers never fail to be admired.

Radicans Each \$0.50, Three \$1.40, Doz. \$4.50

Dark orange flowers all summer and fall; free blooming, very hardy vine.

CELASTRUS - Bittersweet or Wax Work

One of our native climbing plants, of rapid growth, succeeding in almost any situation, sun or shade.

Loeseneri (Chinese Bittersweet)

Each \$1.50, Two \$2.75, Doz. \$15.00

Most prolific fruiting variety known. This new importation is a rare species from Central and Western China. The clean leaves are glaucous green and somewhat larger than those of the common Bittersweet. It is the most prolific fruiting kind we know. In autumn, yellow and orange-scarlet berries cover the vine all over instead of in occasional small clusters as in the common Bittersweet. It's a sure fruiter, but we recommend you plant two plants in one hole and take advantage of the resulting cross pollination, which gives still more fruit.

Scandens (American Bittersweet)

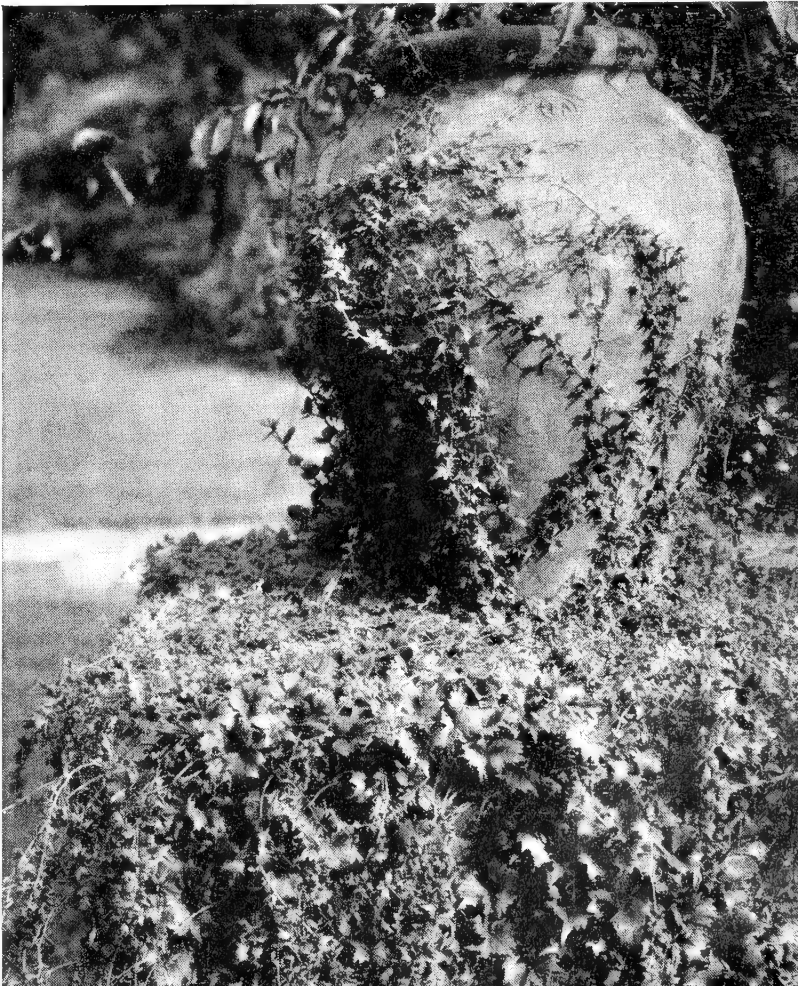

Each \$1.00, Two \$1.75, Doz. \$10.00

Attractive light green foliage and yellow flowers in June, followed in autumn with bright orange fruits, which usually remain on the plant all winter.

Clematis, Mrs. Robert Bryden (See page 163)

Graceful Ampelopsis Lowi

Hardy Baltica Ivy—
Hedera Helix Gracilis

CLEMATIS - Large Flowering English Hybrids

Only in recent years have American gardeners been able to enjoy the rare beauty of the many *Clematis* hybrids. These European garden treasures are notable for their spectacular flowers. Outstanding in color and in form, they lend dignity and charm to any garden. Grown on trellises, arbors, pergolas, old tree stumps, and walls, these climbing plants often flaunt their beauty in high places where they may be enjoyed from many parts of the garden.

Both the large- and the small-flowered varieties are well worth growing. While the large-flowered forms provide great richness of color, the small-flowered kinds impress us with their curiously formed flowers.

From a decorative standpoint these *Clematis* hybrids are most useful. They last well when cut and lend themselves to many unique arrangements.

Culture. They need a rich, deep, well drained soil; in fact, drainage should be perfect and the soil should be prepared at least 2 feet deep, using plenty of sharp sand and well-rotted manure. The roots must be sent straight down, the whole plant must be deeply set, the crown should be not less than 3 inches beneath the surface of the soil. Provide support and protect the runners produced the first year from frost with straw or small piece of burlap. No protection required after first winter.

Ascotiensis Each \$1.25, Three \$3.50, Doz. \$11.50
Pure blue. One of the finest large flowered forms.

Contesse de Bouchard Each \$1.25, Three \$3.50, Doz. \$11.50
Rosy lilac flowers with lighter midrib. Lovely, delicate variety.

Crimson King Each \$1.25, Three \$3.50, Doz. \$11.50
Large crimson-red flowers with white center; very striking.

Duchess of Edinburgh Each \$1.00, Three \$2.75, Doz. \$9.25
Magnificent double white.

Henryi Each \$1.00, Three \$2.75, Doz. \$9.25
Lovely, large creamy white flowers in great quantities all summer.

Jackmani Each \$1.00, Three \$2.75, Doz. \$9.25
The popular purple variety with large, purple-blue flowers; one of the loveliest vines we have.

Lawsoniana Each \$1.25, Three \$3.50, Doz. \$11.50
Lovely, large, light blue star-shaped blossoms in profusion.

Mme. Villard Each \$1.00, Three \$2.75, Doz. \$9.25
Warm lilac-rose blossoms in great quantities. A constant bloomer.

Ramona Each \$1.00, Three \$2.75, Doz. \$9.25
Single, pale blue flowers completely cover this plant; it is a very lovely vine not used nearly enough.

Ville de Lyon Each \$1.25, Three \$3.50, Doz. \$11.50
Dark plum colored, velvety flowers. A stunning variety.

CLEMATIS - Virgin's Bower

Besides the large-flowered *Clematis* there are several varieties producing smaller blooms or in large panicles. All are very desirable and most useful. *Flammula* and *Montana* are of strong growth, but their flowers are not fragrant like those of the *Paniculata* which really is one of the loveliest sweet scented vines we have.

Culture. All require a rich, light, well drained soil and should be grown in full sun. A support should be provided for them to climb on, it is well to tie the vines in their early growth; trim and remove dead vines early in spring. Plant in fall or early spring.

Coccinea texensis Each \$0.50, Three \$1.25, Doz. \$4.25
Grows 10 to 12 feet. A very handsome, hardy climber, bearing small, thick, bell-shaped flowers, of bright coral-red, in wonderful profusion, from June till frost.

Crispa Each \$0.50, Three \$1.25, Doz. \$4.25
The flowers are same pear-shape as *Coccinea*, but deep purplish blue with small white edge. Profuse; blooming all summer.

Montana rubens Each \$1.00, Three \$2.75, Doz. \$9.25
(Anemone *Clematis*.) A strong, vigorous, extremely hardy variety, thriving under most adverse conditions. Its clustered pink flowers expand in April and May; the best of our spring climbers.

Orientalis (Tangutica or Graveolens) Each \$1.00, 3 \$2.75, Doz. \$9.25
The Golden *Clematis*. This vine is covered in midsummer with quantities of rich yellow flowers. In autumn it very frequently flowers again. It is a vigorous, hardy, strong growing and free flowering vine which does not get too tall. Its maximum height is about 12 feet.

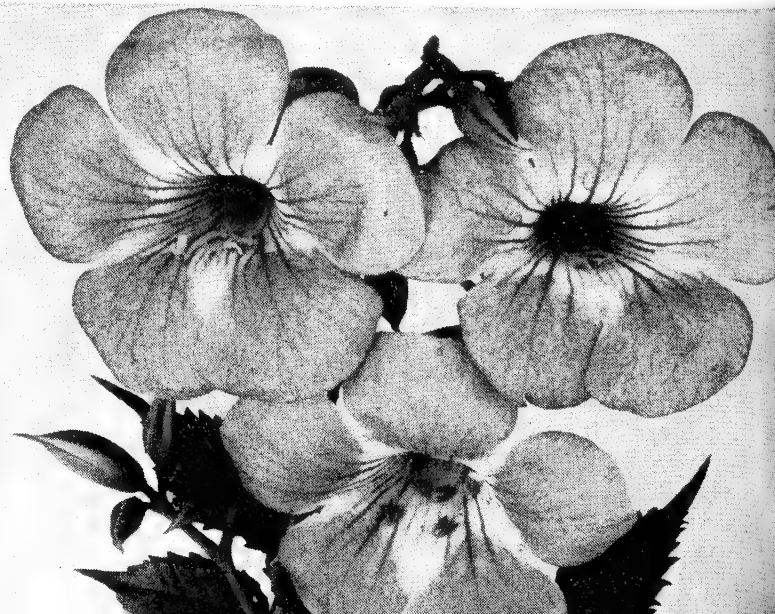

Paniculata Each \$0.50, Three \$1.25, Doz. \$4.25
This hardy climber is one of the choicest and most satisfactory climbing, flowering plants. Of strong, rapid growth, with small, dense, cheerful green foliage and pure white, deliciously fragrant flowers, in greatest profusion in August and September, 2-year plants.

Clematis Paniculata

Clematis Montana Superba

Polygonum—Silver Lace Vine
(See page 164)

Clematis Hybrida

MRS. ROBERT BRYDEN

By crossing the lovely sweet scented, deep blue, bushy or dwarf Clematis Davidiana with a very strong and robust growing native American variety, we obtained a beautiful climber, which grows about 8 to 10 feet high. The top of this vine is covered with billowy masses of pale watery blue flowers at their best in August and September. It is perfect for covering fences, trellises and pergolas. Being absolutely hardy, it can be used anywhere. Is entirely free from insect pests, is always neat because the past season's growth should be partly removed each fall, leaving about 3 feet, not more. Easy to grow. Ordinary garden soil will do.

Each \$1.50, Three \$4.00, Doz. \$15.00

Hardy Baltica and English Ivy

The famous English Ivy with its familiar evergreen, glossy foliage, requires winter protection in cold sections of the country where it is exposed to chilly winds on open walls. It can, however, be planted with perfect safety as a ground cover or as an edging to flower beds anywhere. Gracilis is perfectly hardy and we recommend its use on the north side and west side of buildings and walls or in shady places or as a ground cover under trees in dense shade. The 2½-inch pot plants offered are very economical.

ENGLISH IVY—Hedera helix

A lovely vine as well as a splendid ground cover. Its beautiful shiny leaves make a wonderful ground cover in densest shade.

5-inch pot plants, 30 in. high Each \$0.60, Doz. \$6.00, 100 \$40.00

2½-in. pot plants Doz. \$2.75, 100 \$15.00, 1000 \$140.00

BALTICA IVY—Hedera helix gracilis

Identical in habit with the English Ivy, but with foliage not as large and more cut; a most graceful vine; perfectly hardy and a splendid evergreen vine on walls with north or west exposures, also an excellent ground cover.

5-in. pot plants, 30 in. high Each \$0.60, Doz. \$6.00, 100 \$40.00

2½-in. pot plants Doz. \$2.75, 100 \$15.00, 1000 \$140.00

THREE FINE NEW IVIES

Particularly suited to indoor as well as outdoor culture.

Hahn's Self-Branching Ivy

This small-leaved English Ivy has become an "A-1 Best Seller." Many repeat orders during the past year suggest that "Hahn's Branching" and "Merion Beauty Ivy" have become great favorites for room decoration.

3-inch pot plants Each \$0.50, Doz. \$5.00

New Merion Beauty Ivy

A most desirable addition to the Ivy family. Has small leaves and is branched in every joint, making a fine, compact plant. Excellent for indoor use in a shady window.

3-inch pot plants Each \$0.50, Doz. \$5.00

Rock Ivy (Hedera conglomerata)

Short, thick branches or runners, stubby in appearance, which are closely set with small, heart-shaped leaves. A very attractive variety. It is much desired as a small pot plant for the house as well as most attractive in shady places in the rockery.

Shapely plants in 2½-inch pots Each \$0.30, Doz. \$3.00

Ampelopsis Veitchii—Boston Ivy
(See page 161)

Hardy Jasmine (See page 164)

[163]

Large-Flowered Clematis, Ramona

LONICERA - Honeysuckle

Their climbing qualities are all that can be desired, but the fragrance of their flowers makes their strongest bid for favor. They are perhaps to the old-fashioned garden as a vine what the Hollyhocks are as a plant. They simply should be there somewhere.

Goldflame Each \$1.00, Three \$2.75, Doz. \$10.00
Immense, showy clusters of trumpet-shaped buds and fragrant blooms. The outside of the petals is brilliant flame-pink, the inside a creamy golden yellow. Dark glossy foliage adds to its charm. The plants can be sheared to form a hedge or allowed to grow naturally as a vine or shrub. Bloom freely from early spring until heavy frost.

Halliana Each \$0.50, Three \$1.25, Doz. \$4.25
An intermingling of white and yellow. Fragrant; most satisfactory.

Henryi Each \$0.75, Three \$2.00, Doz. \$6.50
The Evergreen Honeysuckle. There are practically no vines which retain their foliage during the winter in the colder parts of the country. Therefore, the Henryi Honeysuckle is a very valuable variety. Its long clean dark green leaves remain on the vine all winter. The flowers, while fragrant, are of no importance, but the blue-black berries produced in autumn add materially to the charm of this plant. Does well in shade and is also an excellent windbreak. Hardy as an oak.

Sempervirens Magnifica Each \$1.00, Three \$2.75, Doz. \$10.00
A magnificent new Honeysuckle with coral-colored blooms of large size and beautiful blue-gray-green foliage. The brilliant and cheerful flowers freely produced; a worthwhile novelty which is particularly well adapted where a not too large space must be covered, because it does not grow as big as any of the other kinds offered. This variety is the most brilliantly colored of all the Honeysuckles. Hardy anywhere and blooms from spring till frost.

Evergreen Bittersweet—Euonymus Radicans

Euonymus (Evergreen Bittersweet)

The Most Versatile, Hardy, Easily Grown Evergreen Vine and Shrub.
The Plant of 1000 Uses.

The Euonymus are particularly desirable for their dense, evergreen foliage and extreme hardiness, some varieties on account of this taking the place of the English Ivy for wall covering, others that of the Boxwood as an edging plant, while Acuta is a splendid ground cover, and one of the best creepers for rockeries is Kewensis. All do well in sun or shade.

Radicans, Wayside Gardens Compact Form

An excellent evergreen, fine in either shade or sun. Its habit is a bushy growth. Foliage a dark shiny green and rather small. This vine may also be trimmed into a small evergreen hedge for formal beds or walk.

	Each	Three	Doz.
12 to 15 inch, bushy plants	\$0.60	\$1.60	\$5.00
15 to 18 inch, bushy plants	.75	2.00	6.50

Radicans variegata, Wayside Gardens Compact Form

A beautiful small-leaved green and white variegated form of the same habit as the type.

	Each	Three	Doz.
12 to 15 inch, bushy plants	\$0.60	\$1.60	\$5.00
15 to 18 inch, bushy plants	.75	2.00	6.50

Radicans vegetus

(Evergreen Bittersweet.) A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequaled. Beautiful on big old trees or shady walks. Will grow 25 to 30 feet high.

	Each	Three	Doz.
15 to 18 in., well-branched plants	\$1.00	\$2.85	\$10.00
18 to 24 in., well-branched plants	1.25	3.50	12.50

*Kewensis Each \$0.50, Doz. \$4.00, 100 \$25.00

(Miniature Evergreen Bittersweet.) A variety with very small, dark green foliage. Everyone who has seen this appreciates its value as a rock plant. It grows close to the ground, and is a most valuable plant for a shady place in the garden where a delicate evergreen is needed. Fine ground cover under small trees.

HARDY JASMINE - Jasminum

Nudiflorum Each \$1.25, Three \$3.50, Doz. \$12.50

A favorite climber for a sheltered position. Has beautiful fragrant yellow flowers in early spring. Hardy south of Philadelphia, needing protection farther north. Plant in spring only. Does well in ordinary good garden soil.

PASSIFLORA - Passion Flower

Pfordti Each \$0.50, Three \$1.40, Doz. \$5.00

This curiously beautiful flower was discovered by the Spanish Conquistadors in South America who, because of its strange formation, made it a religious symbol. The flower is creamy white and has a fringed crown or halo of clear blue and purple rays around the mysterious center. It is not quite hardy in the North, but with a little protection at the roots is successfully carried through the winter. A rare and fine vine for a sunny, warm place. We send pot plants about May 1st that will bloom this summer.

POLYGONUM - Silver Lace Vine

One of the fastest growing vines offered; foliage perfectly clean, never bothered by insects or other pests. In fall a sea of foam-like white flowers.

Auberti Each \$0.75, Three \$2.15, Doz. \$7.50

A splendid hardy climber of strong, vigorous growth, attaining a height of 25 or more feet, producing in summer and fall great foamy sprays of white flowers, and a well-balanced plant during its long period of flowering is a mass of bloom.

PUERARIA - Kudzu Vine

The most rapid growing vine in cultivation, often attaining a growth of 40 feet in a single season. Especially desirable for immediate effect for dense shade, as its leaves are large.

Thunbergi Each \$0.40, Three \$1.00, Doz. \$3.50

(Jack-and-the-Beanstalk.) Small, pea-shaped, rosy purple flowers, heart-shaped leaves. Will grow anywhere.

SCHIZOPHRAGMA HYDRANGEOIDES

(Climbing Hydrangea)

Fine plants in pots, Each \$1.50, Three \$4.25, Doz. \$14.00

One of the finest and most artistic vines in existence and extremely rare. Foliage large and bold, it clings to walls or other support. Flowers in large, flat clusters, studded with large, flaky, sterile blooms which are very showy and fragrant.

VITIS

Pagnucci Each \$1.00, Three \$2.75, Doz. \$10.00

A slender climber from Central China with leaves turning to blood-red in autumn. A truly beautiful vine for its brilliant autumn coloring.

Heterophylla Each \$0.75, Three \$2.00, Doz. \$7.00

A beautiful climber with dark green, clean, insect-free foliage. Bears small berries of a spectacularly brilliant metallic peacock-blue color in late summer and fall. A splendid vine, growing quickly, doing well in sun or light shade; for trailing over rocks as well as on a trellis.

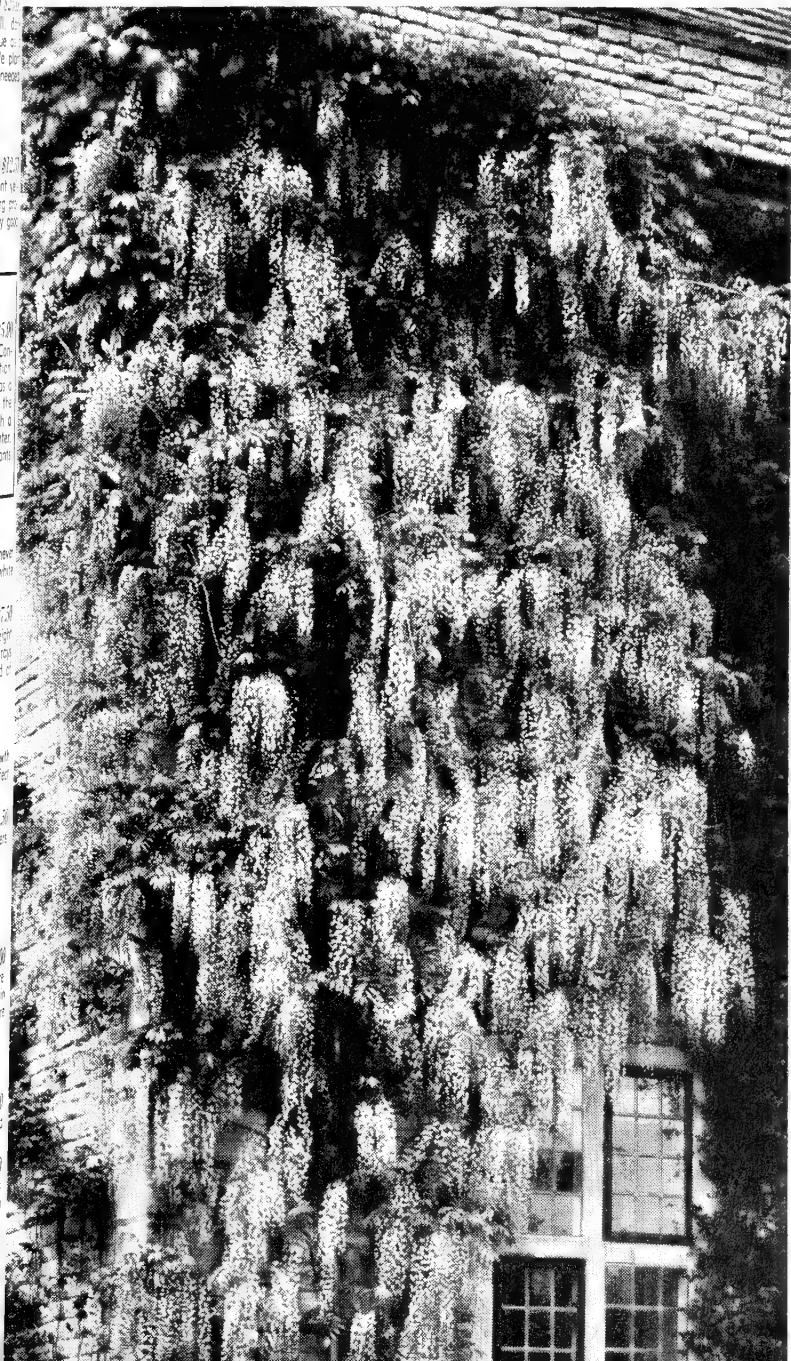

Wisterias

THE QUEEN OF VINES

There is a much wider range of varieties than is generally thought. Descriptions below are condensed because the species to which each variety belongs covers the major points. The two important species are: *Wisteria Sinensis*, the Chinese Wisteria, characterized by large fragrant flowers in compact clusters of medium length. They come into bloom very young and all the flowers in each cluster open at about the same time before any leaves appear. *Wisteria Floribunda*, which is better known as *Wisteria Multijuga* or Japanese Wisteria, has long slender racemes of smaller flowers. Those at top are fully open while the lower ones are only small unopened buds. This of course lengthens the blooming period until the leaves are pretty well out. All our stock is grafted and grown in a special manner to induce early bloom rather than a lot of useless wood. Seedlings or plants improperly propagated may go eight or ten years without ever producing a flower. We maintain that if wood is the main thing wanted, it is more economical to patronize a lumber yard than a nursery.

For largest flowers, fertilize Wisterias in autumn after leaves have fallen; never during spring or summer as this induces too much growth and no flowers. It is essential to expose Wisterias to full sun if you want an abundance of blooms.

Wisteria Floribunda Longissima

Schizophragma Hydrangeoides -- Climbing Hydrangea

All our Wisterias have flowered in the nursery before they are sold.

Floribunda, "Issai" *Each \$4.00*

A very fine thing, entirely distinct and having many excellent qualities. Flowers a clear purple, much deeper color than common Japanese and are borne very profusely. It is also decidedly precocious, coming into bloom very young. The short, silky seed pods hang on all winter if not cut off, and are quite ornamental.

Floribunda, "Kyushaku" *Each \$3.00*

The Japanese name means "nine feet." Of course that is an exaggeration but the lavender flower clusters are supposed to attain three to four feet on old vines.

Floribunda alba *Each \$3.00*

White Japanese Wisteria. Last of all to flower and very profuse bloomer. Snow white.

Floribunda rosea *Each \$3.00*

Pink Wisteria. This is the finest Pink Wisteria we have ever seen. Clusters about 15 to 18 inches long. Slow to commence flowering but once started it blooms profusely. All plants have already bloomed in the nursery.

Floribunda violacea plena *Each \$3.00*

Double Violet Wisteria. The only double Wisteria known in this country and has the darkest colored flowers of all. They are exactly like dark colored purple Violets borne in clusters about 15 to 18 inches long. Very free bloomer.

Floribunda longissima *Each \$3.00*

Extra long clustered Wisteria. Lavender-blue. We have actually measured clusters well over four feet long and there is dependable record of old vines producing occasional clusters fully six feet long! If the longest possible clusters are wanted, fertilize heavily in autumn after the leaves have fallen, but not in spring or during the growing season.

Floribunda longissima alba *Each \$4.00*

A perfectly beautiful pure white form of the above variety.

Geisha *Each \$3.00*

A very dainty variety. The cluster as well as the individual flowers are smaller than usual. The effect is delightful and charming. Color a clear light lavender; very free flowering.

Royal Purple *Each \$4.00*

Brilliantly colored, good sized clusters of royal purple; flowers are freely produced, making this one of the fine and outstanding varieties.

Sinensis (Chinese Wisteria) *Each \$2.00*

This is the old favorite called Chinese Purple, but really lavender shaded blue.

Sinensis alba (White Chinese Wisteria) *Each \$2.00*

Has white fragrant flowers.

TREE WISTERIA (See page 166)

Tree
Wisteria

Tree Wisteria

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers are produced by the hundreds and completely cover the tree during May, transforming it into a thing of sheer beauty. In formal gardens Tree Wisterias are indispensable. On the lawn they develop into beautiful specimens and

live for generations, increasing in beauty and dignity each successive season. The plants we offer are grown on stems about 4 ft. high and the crowns are about 2½ to 3 ft. in diameter. Every plant has bloomed before it leaves our nursery.

Blue Tree Wisteria

The most popular color. These were grown from grafts taken of the variety illustrated in color.

Each \$5.50

White Tree Wisteria

The white-flowered form of the above. Delicate silvery white blooms.

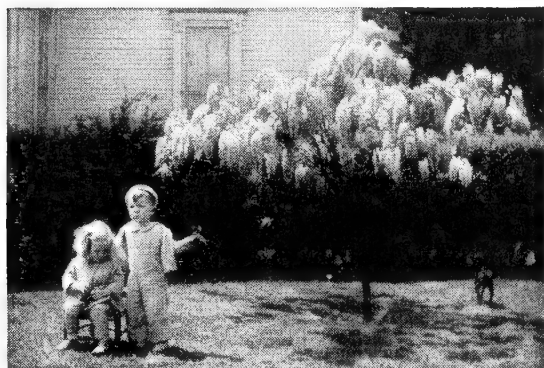

Each \$6.50

NEW TREE WISTERIAS

The new varieties are perfectly beautiful. The flower clusters are longer and the various kinds offer a variety of color and form. For color descriptions see under heading "Wisterias."

Floribunda alba	Each \$6.50
Floribunda longissima	Each \$6.50
Floribunda longissima alba	Each \$7.50
Floribunda rosea	Each \$6.50
Floribunda, Issai	Each \$7.50
Royal Purple	Each \$7.50

See color page 138. The Tree Wisteria in bloom is growing in front of our office.

Tree Wisteria growing in the garden of Mrs. H. Aukerman, Redkey, Indiana, and furnished by Wayside Gardens two years ago. It will outlive the youngsters by several hundred years.

TREE FORM

Euonymus Vegetus

Evergreen Tree Bittersweet

The climbing Euonymus in this case has been grafted on a non-climbing variety. The result is a most attractive, small standard, with evergreen foliage, which in the winter and late fall is covered with orange-red berries. There are numerous shady places or corners in the garden such as along paths or walks or flower beds where one of these would look attractive. Does well in all soils and is perfectly hardy. Height about 30 inches.

Each \$6.00, Doz. \$60.00

Standard Euonymus Vegetus

TREE FORM

Viburnum Carlesi

Fragrant Tree Snowball

These Standard Snowballs are about 3 feet high, look perfect in the center of a circular bed or at the corners of square bed, also along a garden path. Do well in full sun or light shade. Require no special care or attention, are very hardy. Just the thing for a formal garden. The plants we send are covered with buds and will flower first year. Sent with ball of earth; sure to grow.

Each \$5.50, Doz. \$55.00

Standard Viburnum Carlesi

Giant Blueberries

Cultivated Large-Fruited Hybrids

The supreme achievement of skilled horticulturists who have worked for years to improve our most luscious native fruit. The question invariably asked by those whose interest has been aroused is: "Are these new Blueberries hard to grow?" The answer instantly and truthfully given is "No, they are not in the least hard to grow." In bloom they are attractive, and in fall the green foliage turns into beautiful shades of red and crimson. Blueberries are acid-soil plants. This acid condition is easily brought about by simple preparation of the soil—with woods soil, oak leaves, peat or aluminum sulphate. The new, named varieties of cultivated Blueberries are not self-fertile. A bush grown by itself will not bear fruit, but where six or more plants are grown in close proximity, perfect fertilization of the blossoms takes place, and abundant crops of huge, luscious berries result. Consequently our Blueberries are sold in units of six plants (mixed varieties) or in blocks of 24 plants or more (mixed varieties). **Orders for single plants will positively not be accepted for reasons noted above.**

2-year size, \$7.50 per unit of 6 plants, 24 plants or over, \$1.10 per plant.

Magnolia Figs

A TROPICAL FRUIT

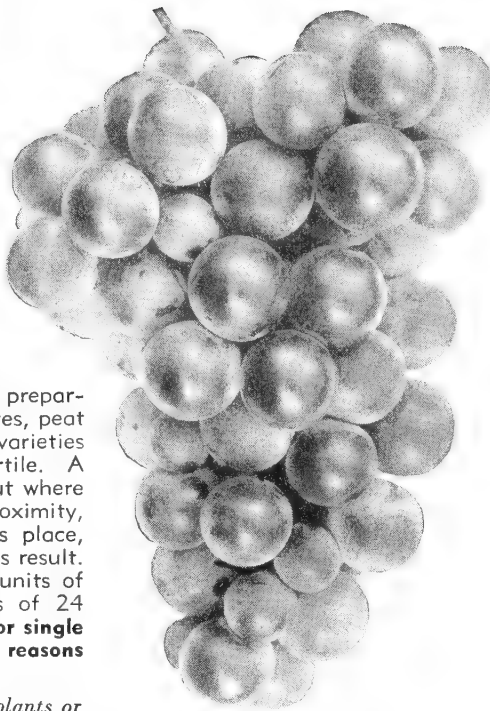

Grow Them in Tubs for Terrace Decoration

The Magnolia Fig is particularly adapted to pot culture. As a pot or tub plant, it is very ornamental either indoors or outdoors, and is an abundant bearer of fruit. It will winter safely in a cool cellar, or it can be allowed to harden off with a few fall frosts and then be brought indoors for growing during the winter. If the top is frozen it can be cut to the ground, and when it begins growing, it will produce fruit on the new wood. It is for pot or tub culture that we particularly recommend this Fig. When grown in the open ground, it will develop a crop of fruit as far north as Maryland. Plants bear the first year. The fruit is very sweet and delicious; of good size; with flesh that is firm and meaty, and of very fine quality.

Each \$0.75, Three \$2.00, Doz. \$6.50

New Large-Fruited Hybrid Blueberries

New Hardy Seedless Grape

Seedless Grapes

New Hardy Seedless Concord Grape

After years of experimentation and cross-breeding, a perfectly hardy, seedless Grape has been developed. The first of a new race of Grapes that should eventually replace the common large-seeded varieties for table use. It is of the Concord type, but slightly smaller, blue-black in color, and possesses the same fine flavor found in the Concord Grape.

Field-grown vines Each \$0.85, Doz. \$8.50

Espalier Fruit Trees

Fully Trained, Dwarf, Bearing Age

The Atmosphere That Makes Your Garden Thrilling

Espalier fruit trees are ideal ornamental plants, combining beauty, antiquity, and utility in a most delightful way. Aside from the charm, the best part of Espaliers is that, like vines, they take up practically no room, thus leaving the precious ground space available for flowers and vegetables. Espaliers are found more practical than most other plants, because they can be grown in so many forms and varieties. They are treasured on large estates, and well suited for the small landholder also.

Trees are grafted on the finest quality understock, with a proper root system to insure the trees remaining dwarf in habit and retaining their symmetrical shape. The average Espalier we offer has been in training for a period of six years—it is the result of faithful care and perfect knowledge of the art of pruning and grafting. Ordinary orchard stock does not prove successful, as it stubbornly resists any change in its rooted habits, and although cut back, the tree starts shooting upward and outward in all directions. The result is not an Espalier.

By including one of these exquisite fruit trees in your landscaping, you will add that "different" touch to your grounds which every garden lover strives for. And, unlike other plants, they prove a wonderful investment in yielding crops of extra large, delicious, and superior quality fruit.

The kinds of fruits which are available for the different Espalier forms are listed herewith.

APPLES—Duchess of Oldenburg, Delicious, Fameuse, McIntosh, Baldwin, R. I. Greening, Cortland and Wealthy.

PEARS—Bartlett, Flemish Beauty, Clapp's Favorite, Duchess d'Angouleme, Beurre d'Anjou, Seckel.

PLUMS—Reine Claude, Abundance.

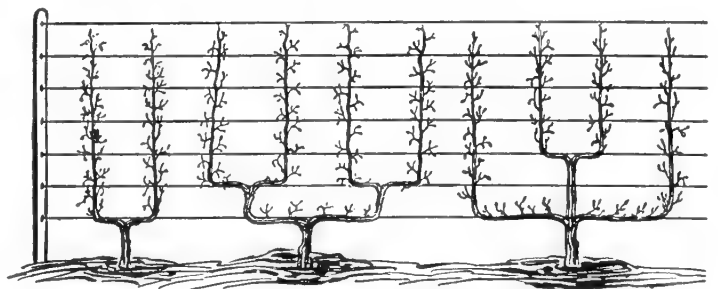

PEACHES—Elberta, Hiley, Yellow St. John, Rochester, Crawford, Champion.

NECTARINES—Boston, Red Roman, Lord Napier, Newton.

APRICOTS—Early Golden, Moore Head.

Be sure to indicate type, variety and height of each tree ordered.

Shipments are made express or freight collect.

Selected Flowering Shrubs

BY SELECTED, we mean this: In the average small garden you are apt to find a number of old-time, out-of-size things, mingled rather indiscriminately with the choicer new ones.

Have the courage to uproot and discard all such out-of-bounds, old fellows. Replace them with the more desirable new things. Ones that are so much more pleasing in habit of growth and more rewarding in both beauty and quantity of blooms. Things we have selected because of their right height for certain uses. Ones happy in shady places. Others that are best for either fore or background plantings.

Among them are the remarkable new Cotoneasters brought from China by Wilson, which he called "The Queen of Shrubdom." Interesting in a unique individuality of growth, flowers and colorful fruit.

Another one that's particularly worthy, is the Flowering Crab. Far superior in so many ways to the Japanese Cherry trees, which can't approach them in color and beauty of bloom and hardiness.

If you, therefore, seek the newest and finest in flowering shrubs and trees, Wayside has selected them for you.

ACER - Japanese Red-Leaved Maple

Palmatum atropurpureum Each \$3.50, Three \$9.00, Doz. \$35.00
Magnificent purple-red foliage, gracefully lacinated; one of the best of small-leaved shrubs. It is attractive at all seasons and makes a handsome specimen on the lawn or a colorful group in the foreground of the shrub border.

Althea Rubis

Japanese Maple

ALTHEA; HIBISCUS - Rose of Sharon

Erect growing shrubs of stately and formal shape, particularly well suited for screens or specimens in the shrub border. They bloom from July to frost and give color when most other shrubs have finished blooming. We offer three beautiful varieties of recent introduction, practically unknown, and in our estimation the three best. Their ultimate height is about 10 feet.

Celestial Blue Each \$1.00, Three \$2.85, Doz. \$10.00

A magnificent distinct and truly blue Althea. The gorgeous single disk-like blue flowers are produced in large amounts. Planted with our white variety, Snowdrift, it makes a most handsome color effect in the summer border. Plants we send out will bloom this year.

Snowdrift Each \$0.75, Three \$2.15, Doz. \$7.50

Giant single disk-like, pure white flowers fully 4 inches across. The flowers open flat and are produced in great numbers from early July until frost. The plants we send out will bloom the first year.

Rubis Each \$0.75, Three \$2.15, Doz. \$7.50

Very large wide-open, deep rose-pink flowers with deeper center. The best and most brilliant of the pink shaded Althea. Infinitely better than the ordinary double varieties in common use.

Calluna Vulgaris (See page 172)

ARONIA ARBUTIFOLIA

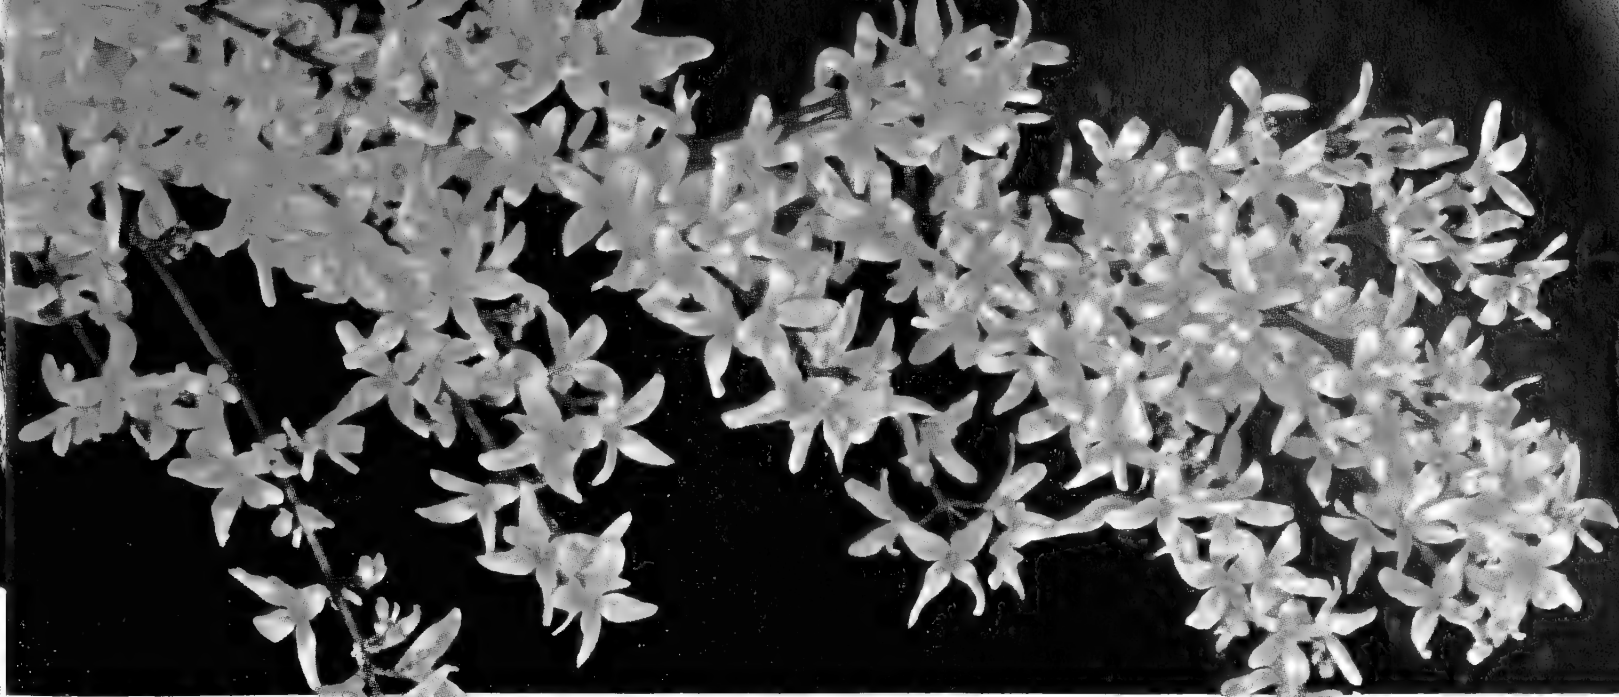

Brilliantissima Each \$0.75, Three \$2.15, Doz. \$7.50

Brilliant "Red Chokecherry" is a bushy shrub occasionally exceeding 6 feet in height. Flowers white or flushed pink, produced in corymbs during May, followed in autumn by clusters of scarlet berries which persist into the winter. Foliage assumes brilliant crimson colorings in autumn.

BETULA

Pendula Youngi Each \$5.00

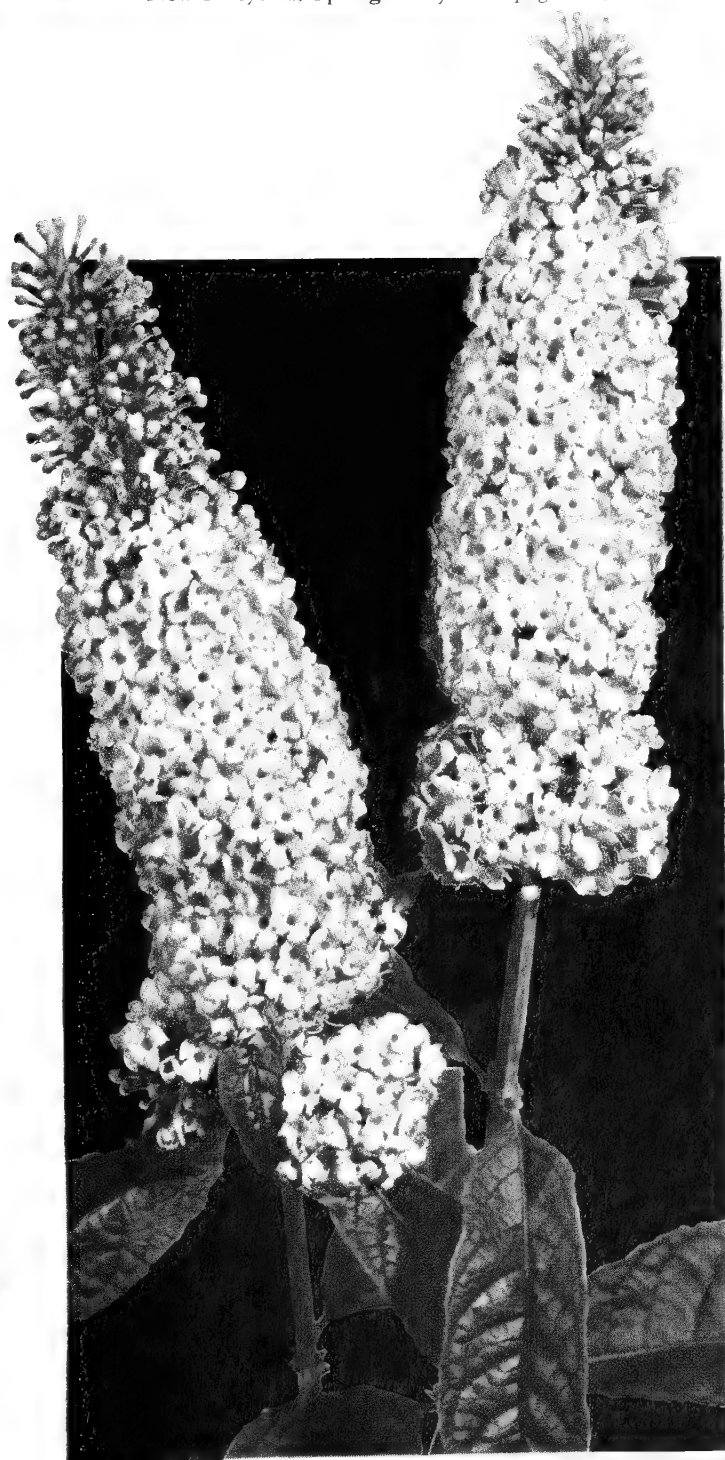

The silvery white bark covered stem grows upright, but branches droop. The effect created is that of a living fountain, broad at the base, pointed at the top. In winter as well, this magnificent, small, symmetrical, weeping tree creates a superb effect. This rare, new and improved Weeping Birch we predict will be planted by everyone who sees it. Do not confuse the Young's Weeping Birch with what is now generally in use. The commonly known Weeping Birch has only secondary weeping branches, or rather it is the tips only of the branches that weep or hang downward, while in the new Young's Weeping Birch the entire branch or limb grows downward. The effect is superb. Ultimate height 25 to 30 feet. Excellent in small as well as large gardens. All Birches are difficult to transplant. Therefore, we offer this lovely tree only in a medium size which, with careful handling and watering after planting, will surely succeed. However, they are sold at the purchaser's risk.

Azaleas

JUST as the Rhododendron is the king of the Evergreen Shrubs, so are its cousins, the Azaleas, the aristocrats of the Deciduous Shrubs. In color, the Azaleas give an assortment of hues in much wider range than in the Rhododendrons—and flowering periods from mid-April to early July. While classed as acid soil plants they thrive in soils of considerable range, particularly the Asiatic sorts, which even prefer some lime in the soil. The opportunities for using deciduous Azaleas are almost unlimited. Their graceful habit appears to good advantage in informal plantings either in wooded areas or in shrub borders, while many are most decorative used in the foundation planting where evergreens create a dark background for their vivid colors. They succeed equally well in sun or shade, preferring a moderately moist soil or a mulch of leaf mold.

CULTURE. *Plant in full sun, in the South in light shade, in soil freely mixed with leaf mold and peat in about equal proportions. A yearly top dressing of well-rotted stable manure or one pound of Wayside Gardens Plant Food scattered around each plant in the fall will help to produce abundant blooms. Remove faded flowers at once, do not let plants go to seed; never cultivate. Water freely in dry weather. All the varieties offered here are quite tolerant of lime and do well on alkaline soils.*

*Kaempferi Hybrids

18-24 in. high, Each \$3.00, Three \$8.50, Doz. \$30.00

(Torch Azalea.) One of the most popular, hardiest and most satisfactory of all; a vigorous grower, never failing to produce its orange-red flowers in May; excellent as a point of emphasis in the mixed shrubbery border.

Mollis Hybrids

15-18 in. high, Each \$2.00, Three \$5.50, Doz. \$20.00

18-24 in. high, Each \$3.00, Three \$8.50, Doz. \$30.00

Without exception one of the most satisfactory of all. The color range is through innumerable shades of orange, flame, yellow, and salmon-orange of the most brilliant hues. Like all other Azaleas, it is quite tolerant of lime, and does well most anywhere. It is very hardy, ten degrees below zero does not affect the flower buds. A group of these in bloom in the foreground of the shrub border is a delightful sight. Average height of old plants about 3 to 5 feet.

Azalea Pontica—Hardy Ghent Azaleas

Louisa Hunnewell 15-18 in., Each \$3.00, Three \$8.50, Doz. \$30.00

Derived from a cross between Azalea Mollis and Azalea Japonica, this new variety is hardier than either parent and is more beautiful and floriferous. The huge clusters of buff-yellow flowers shading to salmon completely cover the plants while they are in bloom. One of the showiest.

Mucronulata { 15-18 in. high, Each \$2.00, Three \$5.50, Doz. \$20.00
18-24 in. high, Each \$3.00, Three \$8.50, Doz. \$30.00

One of the very first Azaleas to flower, opening rosy lavender flowers the same time as Forsythia, thus lengthening by several weeks the blooming period of the Azaleas. It will succeed in dry locations and it likes some lime. Can be grown quite successfully in slightly alkaline soils. Planted in front of a Forsythia, it makes a handsome combination.

Pontica Hybrids { 15-18 in. high, Each \$2.00, Three \$5.50, Doz. \$20.00
18-24 in. high, Each \$3.00, Three \$8.50, Doz. \$30.00

These are also called the Hardy Ghent Azaleas; they have always been popular. The orange, pink, copper, salmon and yellow shades of their blooms you must see to appreciate their wonderful beauty. The lustrous leaves when young are covered with silky hair, and in autumn turn to dull red and brown.

Schlippenbachi 15-18 in. high, Each \$2.00, Three \$5.50, Doz. \$20.00

(Royal Azalea.) A vigorous plant 3 to 5 feet high, with very large, showy flowers of pale rose-pink, the upper petals lightly spotted with brown.

New Buddleias

Butterfly shrubs bloom abundantly the same year you plant them. Are easy to grow and require no care.

Blue Buddleia, Fortune (Plant Patent No. 206)

Each 75c, Three \$2.00, Doz. \$7.50

In Buddleia Fortune we believe we come very close to perfection. The bush or shrub is of very neat habit, about 4 feet high and 4 feet across. The foliage of Buddleia Fortune is a deep, leathery dark green. The color is pure lilac with a brilliant orange eye in each tiny flower, thousands of which make up the sprays which are from 12 to 18 inches long. The flowers are produced in super-abundance throughout the entire summer and autumn until stopped by frost. The flower sprays, instead of being flat on one side as in the old varieties, are fully round and in bloom from base to tip practically at the same time. To see one of these plants in bloom is a sight worth while. The flowers may be cut with stem 2 to 3 feet long and last in water for several days. Buddleia Fortune is a grand cut flower as well as a showy plant for the flower garden.

Buddleia, Charming

Each 75c, Three \$2.00, Doz. \$6.50

A fine shrub bearing throughout the late summer and autumn lovely lavender-pink blooms. For September and October flowers we suggest pinching off the first flower spikes which develop in July to aid in the development of side branches which will bring a greater abundance of flowers during the autumn months.

Buddleia, Dubonnet

Each 75c, Three \$2.00, Doz. \$6.50

A glorious color—a counterpart of the popular French wine Dubonnet and a shade now very popular in dress fabrics. Glows a true red in sunshine and under artificial light. Firm, cylindrical spikes closely set with lovely blooms. Of erect growth, strong stemmed, with large leathery foliage, and a good late summer cut flower.

Flaming Violet (Patent Applied For)

Each \$2.00, Three \$5.00, Doz. \$20.00

This is without doubt the finest and most brilliant of the Buddleias. In sunlight in the garden, the immense spikes are truly a flaming violet, dove-purple, or imperial purple, intensely brilliant and sparkling with a fiery glow rarely seen in flowers. Under artificial light as a cut flower it is supreme, far surpassing in beauty anything yet produced. The flower trusses are unusually large, completely rounded, measuring 12 to 18 inches long. The individual flowers are spaced closely and open practically all at the same time. They last a long time in bloom on the shrubs as well as when cut and placed in water. The plant is vigorous, strong and upright in growth. Flaming Violet Buddleia flowers throughout the summer and autumn. It is a spectacular plant of great beauty. There are not many available of this 1942 novelty for this year. Therefore, order promptly. We send vigorous young plants in pots which will flower profusely for you this summer.

Fascinating

Each \$1.00, Three \$2.75, Doz. \$10.00

A beautiful new Buddleia bearing immense blooms of soft cattleya pink or orchid. This handsome strong-growing shrub flowers profusely throughout the summer and autumn, and its huge round trusses of flowers, 14 to 18 inches long, make it a conspicuous subject. The more the flowers are cut, the more new ones grow. Like other Buddleias this new variety attracts a great many butterflies, adding to its charm in the garden. Not many plants of this 1942 novelty are available for this year and it cannot be purchased elsewhere. We, therefore, urge you to send your order promptly. We offer fine young plants in pots which will flower profusely for you this summer.

CALLUNA AND ERICA - Heaths and Heathers

The Heaths are compact, low growing evergreen plants, and as such are extremely useful for planting in front of evergreens or as edgings. The small foliage is densely arranged around the wiry little stems, and either when in full bloom or in midwinter makes a very pretty picture.

Culture. All Heaths and Heathers require a warm, well drained soil. Half peat and loam freely mixed with coarse sand to which a liberal quantity of well-rotted cow manure has been added suits them best.

- Calluna vulgaris** Each \$0.50, Doz. \$4.00, 100 \$25.00
(Scotch Heather.) A low-growing shrub, with erect branches covered with short, closely adpressed leaves. The pretty, bell-shaped flowers occur in great profusion toward tops of the shoots, and are a pretty rosy color.
- *Calluna vulgaris alba** Each \$0.50, Doz. \$4.00, 100 \$25.00
(White Heather.) Always worn in buttonholes for good luck. Is the white form of the common Scotch Heather.
- *Calluna vulgaris aurea** Each \$0.50, Doz. \$4.00, 100 \$25.00
(Golden Leaved Heather.) Same habit as Vulgaris except the foliage which is of a beautiful golden tint.
- *Calluna vulgaris nana compacta** Each \$0.50, Doz. \$4.00, 100 \$25.00
Prostrate and compact in growth. Not over 7 or 8 inches. Dull, rich green or fine little evergreen plant for the rock garden; has pink flowers.
- *Calluna vulgaris Hammondi** Each \$0.50, Doz. \$4.00, 100 \$25.00
Midseason. Grows 18-24 inches high. Flowers white.
- *Calluna vulgaris minor** Each \$0.50, Doz. \$4.00, 100 \$25.00
Midseason. Grows 15 inches high. Flowers white.
- *Calluna vulgaris rubra** Each \$0.50, Doz. \$4.00, 100 \$25.00
Early. Low, spreading growth, 6-12 inches. Flowers rosy carmine.

CALYCANTHUS

- Floridus** Each \$0.75, Three \$2.00, Doz. \$6.25
Few shrubs are so well known as the Carolina Allspice. In fact, over a large part of the United States it is called "Shrub" or "Shrub Bush" without any other qualification. In some places it is referred to as the "Sweet-scented Shrub," the "Sweet Shrub," or the "Strawberry Shrub." The handsome, dark red-brown flowers are produced in early spring. They are deliciously fragrant, especially when wilted, and school-boys frequently fill their pockets with them, carrying them about until they are shriveled husks. The curious large pods which follow are full of smooth, brown seeds, like coffee beans, which are elusively aromatic when rubbed in the hands and often used as counters in children's games. During the summer, the plant is neat and very handsome, with glossy, corrugated foliage. It grows 4 to 5 feet high, and in time will spread over an area equally broad.

Double Japanese Cherry, Kanzan

Cornus Florida Alba Flora Plena--Double White Dogwood

CALLICARPA - Violet Jewel Berry

- Purpurea** Each \$0.75, Three \$2.00, Doz. \$6.50
Gracefully recurving branches, covered in August with thousands of closely set, small, pink tinted flowers. These are followed in late September by masses of violet-purple berries which last until mid-winter. There are few shrubs which give as much pleasure in the garden or which are so satisfactory for cutting. Ultimate height about five feet. We offer nice plants that will bear fruit at once.

CARYOPTERIS

- Blue Mist (Mastacanthus x Mongolica) Hardy Blue Spirea**
Each \$1.50, Three \$4.25, Doz. \$15.00
This charming low growing shrub is a very real contribution to the meager list of summer and fall flowering shrubs. It is covered from August till autumn frost with numerous clusters of powdery blue fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making a small mound about 2 feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubbery border. **Perfectly hardy** and replaces the tender mastacanthus now in use.

CERCIS

- Canadensis** Each \$1.00, Three \$2.75, Doz. \$9.00
A slender, graceful tree 15 to 20 feet high, the Judas Tree or Redbud grows naturally throughout eastern United States, and is one of the chief adornments of the early spring landscape. Before the leaves come out, the branchlets are covered with clusters of small, purplish pink, pea blossoms, very charming when associated with the red cedar and the dogwoods.
- Chinensis** Each \$1.50, Three \$4.25, Doz. \$14.00
Chinese Redbuds are similar little trees with larger, rounder leaves and a more shrubby habit in cultivation. The purplish pink flowers are nearly twice as large as those of their native relative and noticeably darker.

CORNUS - Dogwood

- Florida rubra (Pink Dogwood)** Each \$4.50, Three \$12.00, Doz. \$45.00
There are no trees or shrubs which possess a larger measure of attractiveness throughout the whole year. The rare pink Dogwood is similar in all respects to the common variety except that the flowers are a beautiful shade of pink. A good specimen in full bloom is a magnificent sight in spring. Does well in shade. We offer plants full of buds, about 4 to 5 feet tall.
- Florida flora plena (Double White Dogwood)**
Each \$5.00, Three \$14.00, Doz. \$50.00
Flowers double white, not unlike the Gardenia, and just as freely produced as the common single Dogwood. This rare form is not well known and never fails to interest. The plants we offer will bloom the first year and are about 3 to 4 feet high.
- Kousa chinensis** Each \$3.50, Three \$9.00, Doz. \$30.00
Chinese Dogwood was brought to the Arnold Arboretum from China by E. H. Wilson in 1907. The flower heads are extremely large, frequently 5 to 6 inches across, the white bracts overlapping the button-like mass of real flowers in the center. Experts have acclaimed this Dogwood as the finest of Chinese plants introduced to America. Its flowers are produced in June and hang on in excellent condition for nearly a month. The fruits are like large strawberries, and very much enjoyed by the birds. Its foliage turns scarlet in autumn. Ultimate height about 12 to 15 feet.

Cotoneaster Multiflora (Reflexa) in Flower

Flowering Cherries

Very beautiful early spring-flowering small trees, seldom growing over 25 feet tall. From early to late May they are loaded with single or double flowers of great charm and beauty. There are upright growing, spreading, and weeping forms of this lovely tree. Should be grown in every garden where winters permit their planting. We offer only the hardiest varieties which are successfully grown at Highland Park, Rochester, N. Y.

Akebono (Daybreak) Each \$3.00, Three \$8.50, Doz. \$30.00

Erect growing Single Cherry. In our opinion this is the most beautiful tree in the world or at least the most beautiful we have ever seen. It is a pink flowering type of the famous Yoshino Cherry so widely planted in Tokyo. There are said to be over 10,000 trees of it in that city. It belongs in the same class as those around the tidal basin in Washington, D. C., but there is considerable variation in those trees. When in bloom this variety is a cloud of pink with not a leaf showing. We get the same old thrill from it every spring as it does not seem possible to remember from one year to another how superbly beautiful it is. Luckily it is one of the best growers and soon makes a good sized and freely blooming tree. Very early; the first true Japanese Cherry to bloom.

'Amanogawa Each \$3.00, Three \$8.50, Doz. \$30.00

Erect growing, semi-double Cherry. Name means "Milky Way." Unlike all others in its extremely narrow, erect growth, which takes little room. Flowers semi-double, pink, in erect clusters.

Kanzan Each \$3.00, Three \$8.50, Doz. \$30.00

Also called Kwanzan and Sekiyama. All names mean Gateway to the Mountain. Probably the most common and best known double. Flowers very large, up to 2 inches in diameter with about 30 large petals; deep rosy pink.

Shirofugen Each \$3.00, Three \$8.50, Doz. \$30.00

(Victory.) Color effect very unusual. When first open the large flowers are soft pink, soon becoming white. Then as they get older they turn deep cerise so that the tree always has plenty of both pink and white flowers at one time. It is an extremely profuse bloomer and good grower. New leaves deepest bronzy purple.

Shogetsu Each \$3.00, Three \$8.50, Doz. \$30.00

Easily the most profuse bloomer in the doubles. When in full flower the tree is practically a solid mass of bloom. Flowers pale flesh in large clusters. Growth very spreading, usually wider than high. Seems to stand heat, as the largest specimen we know of is in Sacramento.

WEeping CHERRIES

Single Pink Weeping Cherry Each \$5.00, Three \$14.00, Doz. \$50.00
4-year heads, B&B. Weeping heads grafted on straight trunks about 6 feet tall. Flowers small, single, pale pink.

Cotoneaster

THE QUEEN OF SHRUBS

All the species of Cotoneaster will thrive either in shade or full sun, and are very suitable for growing under trees, "clothing" north or other walls, and for covering wet, dry, or shady banks, etc.

The outstanding characteristics of this genus are the beautiful, conspicuous clusters of berries, ranging in color from brilliant orange-scarlet, through varying shades of red to black, all preceded by a profusion of white or pinky white flowers wreathing the branchlets, and also in many species the rich autumnal colorings of their foliage. For hedges they are becoming more and more popular, Multiflora being especially well adapted for that purpose. The under-mentioned list contains most of the best recent introductions from China, to which country they are native.

Apiculata (Cranberry Cotoneaster)

Each \$1.75, Three \$5.00, Doz. \$17.50

A beautiful hardy dwarf Cotoneaster from Western China. This little known variety grows about four feet high with arching branches weighed down during autumn with masses of bright crimson sub-globose fruits. The foliage is shiny green and beautiful through the year. Perfectly hardy.

Divaricata

Each \$1.25, Three \$3.50, Doz. \$12.50

From Central and Western China. 5 to 6 feet high, of graceful spreading habit; small green polished leaves and red egg-shaped fruits; few shrubs can equal its glorious scarlet autumn tints.

Floribunda

Each \$1.25, Three \$3.50, Doz. \$12.50

Grows into a beautifully shaped round bush. Branches slightly arching and heavily covered with handsome blue-green foliage. It flowers as freely as the English Hawthorn and in fall is covered with thousands of brilliant small red berries.

*Horizontalis

Fine 6-inch pot plants, Each \$1.75, Three \$5.00, Doz. \$17.50

(Prostrate or Rock Cotoneaster.) A low-growing shrub with almost horizontal branches covered with shiny dark green leaves. The fruit, which hangs on until spring, is bright red. It is a most desirable plant for rock garden, in front of shrubbery or at the base of steps near the front door.

Meyeri

Each \$1.25, Three \$3.50, Doz. \$12.50

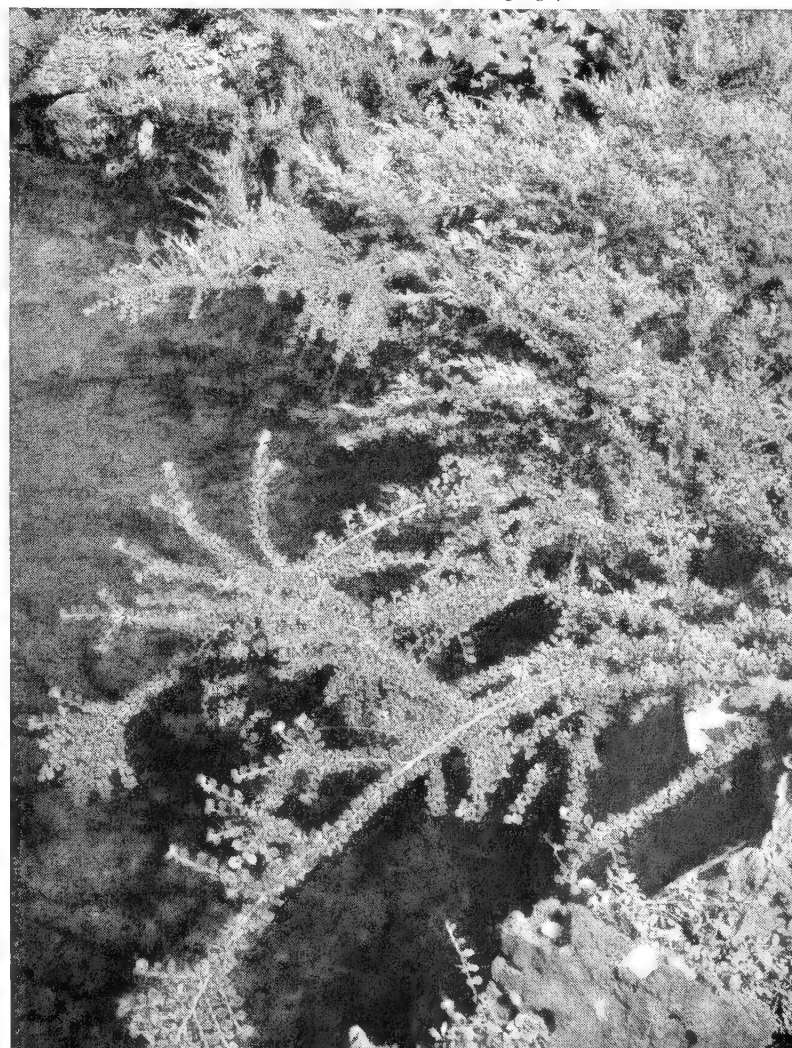

One of the finest of the species, growing 6 feet tall. The branches are slightly pendulent. The leaves are gray-green above and silvery below, somewhat tomentose. Covered in autumn and late summer with coral-pink fruits, making a lovely picture in the autumn garden. Of easy culture and perfectly hardy.

Multiflora (Reflexa)

Each \$1.25, Three \$3.50, Doz. \$12.50

From Western China. Thin-branched shrub, 5 to 8 feet high, of elegant habit. As beautiful in bloom as the hawthorn of the hedgerow. The round, bright red fruits ripen in late summer.

Cotoneaster Horizontalis as Edging for Pool

New California Hybrid Giant-Flowering Quince (Cydonia)

Flowering Quince

CYDONIA (Chaenomeles)

One of the first shrubs to bloom in spring. Their brilliant flowers and shiny foliage place them among the No. 1 plants for the spring garden. They may be allowed to grow into specimen plants or trimmed into hedges. Ultimate height about 5 to 6 feet. We offer here a collection of new hybrids not yet known in this country. These varieties are outstanding. The size of their blooms as well as the quantity in which they are produced is almost unbelievable.

NEW CATHAYENSIS HYBRIDS

Pink Beauty *Each \$3.00, Three \$8.75, Doz. \$28.75*

Earliest of all and so prolific it seems to have three crops of gorgeous rose-pink flowers one after the other. This is perhaps the finest of the lot, and longer flowering than any other Japanese Quince. As a cut flower this and all the other new California Hybrid Quinces will be much appreciated.

Rosemary *Each \$3.00, Three \$8.75, Doz. \$28.75*

Deep rose; gorgeous color; extra heavy bloomer. One of the very best.

Sunset Glow *Each \$3.00, Three \$8.75, Doz. \$28.75*

Red to dark rose, quite brilliant, blooms heavily, and is early. This early crop is followed by a second lot of blooms.

Masterpiece *Each \$3.00, Three \$8.75, Doz. \$28.75*

Rosy scarlet, bright and cheerful, exceedingly free blooming and one of the earliest to flower.

Enchantress *Each \$3.00, Three \$8.75, Doz. \$28.75*

Shell-pink, a unique color in Quinces. Flowers are frequently 1 3/4 inches wide, greatly admired by visitors. Very free blooming. One of the best.

Mount Everest *Each \$3.00, Three \$8.75, Doz. \$28.75*

Buds lightly flushed lavender-rose. Open flowers pure white with faint lavender tips turning to blush-pink when aging. Exceptionally heavy bloomer.

CYDONIA AUREA

Many shrubs flower in May and June, but few can surpass the beauty of this lovely dwarf Quince. It is completely covered with rose suffused orange-red flowers from March to May. It is particularly fine for dwarf hedges in its natural form, or it can be clipped if a formal hedge is desired. Growing less than three feet high, it is no problem to keep it in form. It makes a perfect picture in front of taller shrubs and looks well in the flower border along with Tulips and other spring flowers.

Each \$1.00, Three \$2.75, Doz. \$10.00

CRATAEGUS - Thorns

The Hawthorns are closely related to the crab-apples and other tree-like members of the Rose family. They are all spitefully thorny and make dense, round-headed trees of picturesque appearance, with handsome foliage and showy fruits. The Thorns are very hardy, grow well in exposed positions in full sunshine, and in almost any soil. Their bold, rugged, branching habit is very attractive in winter. In fact, at all seasons of the year, Hawthorns can be relied upon to provide beauty of color and form of an unusual type. They can be used advantageously in all landscapes, both small or large.

Cordata (Washington Thorn) *Each \$2.75, Three \$7.00, Doz. \$24.00*

It is a 30-foot tree, with long, straight spines and clustered white flowers followed by brilliant scarlet fruits. A superb small tree for the small as well as the large garden, free from insects and easy to grow. Best transplanted while not too large. We offer nice 3- to 4-foot trees that will grow rapidly.

Crus-Galli *Each \$2.75, Three \$7.00, Doz. \$24.00*

The European Cockspur Thorn has decorative, wide-spreading, slightly drooping branches and slender, sharp spines. It is a mass of white blossoms when in bloom, and in the autumn the clusters of brilliant red fruits are matched by the orange and scarlet of the foliage. No other Hawthorn has such thick, glossy foliage.

English Hawthorns

(Crataegus Oxycantha)

The English Maw or Hawthorn is a lovely flowering shrub or small tree about 15 feet high, with spreading branches and stout spines. The leaves are broad, the 3 to 5 lobes much toothed. Its flowers are in large clusters and produced in immense quantities. The fruits are scarlet. They are especially well suited for the small garden or as specimens on the lawn where a Maple would be too big and create too much shade.

Double Pink English Hawthorn *Each \$2.75, Three \$7.00, Doz. \$24.00*
Has clusters of flowers of a very pretty pale pink shade.

Paul's Scarlet English Hawthorn *Each \$3.00, Three \$8.50, Doz. \$30.00*
This is a brilliant rosy red, double-flowered variety. One of the choicest ornamental trees in existence. Foolproof and hardy; sure blooming. It is a joy to see it each spring.

Daphne, Somerset

CYTISUS SCOPARIUS - Golden Scandinavian Broom

Scandinavia

Plants from 5-inch pots, Each \$1.00, Three \$2.75, Doz. \$8.75
Scotch Broom has become established in this country as a naturalized plant from Nova Scotia to Virginia. The Scandinavian type is hardier than the Scotch and makes a most attractive and unique combination with other shrubs. Even in places where the extreme cold might freeze back the tops, it throws up its stems again in spring in greater quantities. Excellent for seashore planting, as well as in masses in fields or gardens where it will delight you with its golden pea-shaped flowers abundantly produced in June. About 3 to 4 feet high.

DESMODIUM

Shrublike plants producing long, willow-like canes which give the plants a lovely effect. Its thousands of purple blossoms are a magnificent sight late in the fall.

Culture. Any good garden soil will do. Plant in full sun in the hardy border together with purple and bronze Chrysanthemums or at the base of shrubs. Remove all growth in spring, cutting the plant back to the ground.

Penduliflorum *Each \$0.60, Three \$1.50, Doz. \$5.00*

A lovely shrublike plant for the hardy border or shrub border. Arched, slender branches are covered with hundreds of drooping racemes of liquid purple flowers which make a gorgeous display late in the autumn.

DEUTZIA

All Deutzias are showy flowering shrubs of **very** bushy habit. They have many stems rising directly from the root, arching upward and outward, thickly covered with foliage which almost completely disappears in May under a superabundance of panicles of small, frilled, bell-like flowers. They are hardy throughout most of the country.

Gracilis *Each \$0.60, Three \$1.50, Doz. \$5.00*

Seldom more than 2 or 3 feet high. This is one of the prettiest and most graceful of all the Deutzias. The plant makes a fountain-like bush attractive at all times of the year. In May it is covered with an astonishing profusion of delicate snowy white flowers. It does well in light shade and is well adapted for low edgings to walks or paths, excellent in clumps in the foreground in the border.

Lemoine *Each \$0.75, Three \$2.25, Doz. \$6.75*

Lemoine's Deutzia is a hybrid variety and not unlike Deutzia Gracilis. It is even more floriferous. The flowers are packed into short, chubby sprays. The color is creamy white and quite distinct. Considered by most the best of the Deutzias.

ELAEAGNUS

Multiflorus (Longipes) *Each \$0.75, Three \$2.25, Doz. \$6.75*

From China. Attains a height of about 6 feet, of open spreading growth; small creamy white, fragrant flowers during April and May. Attractive from July to autumn with its heavy crop of oblong deep orange fruits.

Daphne

THE GARLAND FLOWER

Daphnes are lovely, fragrant plants and the two varieties offered give bloom from very early spring to May and, occasionally, through the summer. Both are of delicious fragrance and dainty, compelling beauty. They are hardy with little protection except in the coldest sections of the country.

Culture. They prefer a sunny position in well drained, sandy soil. In order to keep the evergreen foliage perfect, protect it with a little straw during the coldest part of the winter. The plants will withstand temperatures as low as 10 below zero. Water sparingly in summer. Daphnes will not grow well in cold, poorly drained soil.

*Cneorum

These shrubs are of spreading habit and do not grow over 8 to 12 inches high; producing delicately perfumed rose-pink blossoms. The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

Bushy plants, 9-12 inches.....	1.25	3.50	11.25
Bushy plants, 12-15 inches	1.75	5.00	15.75

Mezereum *Each \$1.50, Three \$4.25, Doz. \$15.00*

This Daphne is also called the February Daphne because it blooms from February to April. Its upright growing branches are literally covered with hundreds of rosy purple flowers, making a rare and delightful sight. A charming addition to the garden. A lovely little shrub to grow with snowdrops, winter aconites, or early spring bulbs. Ultimate height 3 to 4 feet.

New Hardy Daphne, "Somerset"

Visitors to our nursery, professional as well as amateur, all have admired it. Mr. F. F. Rockwell, garden expert and writer of many horticultural books and articles, remarked when he saw it in bloom this spring: "Here is one of those rare things that happens once every 25 years or so." It is a choice plant with a great future.

Flowering Plants	Each	Doz.
15-18 inches, with ball of earth	\$2.00	\$20.00

(See page 6 for further details.)

Cytisus Scoparius

Daphne Mezereum

Deutzia Gracilis

EUONYMUS

Alatus compactus (Dwarf Flame Euonymus)

Each \$1.75, Three \$4.75, Doz. \$15.00

In the Arnold Arboretum in Boston this shrub causes much comment each autumn for its unbelievable brilliance of foliage. Its compact growth, easy culture, and slow growth make it one of the outstanding shrubs for hedges as well as individual specimens in the garden. Its ultimate height is six feet. Be sure to plant one or more of them in your garden for a brilliant autumn foliage display. Does well in shade.

Patens

Each \$1.15, Three \$3.25, Doz. \$11.50

This is a broad, shapely shrub, 8 to 9 feet high at maturity, with large, vivid green, glossy foliage which hangs on almost all winter. In mild seasons the old foliage will be pushed off by the new growth in the spring. In late summer the plant is bespangled from top to bottom by drooping clusters of tiny greenish white, star-shaped flowers that are a godsend to the honey-bees which haunt them continuously. The fruits ripen to a pretty shade of orange, but there are not nearly as many berries as might be supposed from the abundance of bloom.

EUONYMUS EUROPAEUS

Intermedia (Macrophylla) *Each \$2.50, Three \$7.25, Doz. \$23.50*

Also known as *Fructo-coccineo*. This upright growing small shrub (6 to 7 feet high) should be among the first twelve fruiting ornamentals. The rigid branches are a perfect sight when carrying the extra large rose-red fruits which age to a brilliant red and are retained long after the leaves have dropped. Cut sprays placed in water will last six weeks or more. The tree is easily grown anywhere and free from "bugs" and troubles. Excellent for the small garden.

Fructo-albo

Each \$3.00, Three \$8.50, Doz. \$30.00

This is the rare white fruiting form of the above. It has the same desirable characteristics with the additional charm of producing the white berries.

FUCHSIA

Most tender shrubs used for bedding or cool greenhouse decoration in the temperate zone. They are charming subjects for the shady garden, available in many colors and forms.

Culture. Ordinary good loam, well drained. They do not like heavy, wet clay soils. Do well in shady places where it is difficult to flower other plants. *Magellanica* is a hardy variety, wintering over outdoors if the plants are protected with straw during the winter.

Magellanica

Three \$1.25, Doz. \$4.00, 100 \$20.00

This most interesting shrub came to us from the New York Botanical Garden, where it has proven entirely hardy. It is in bloom all summer long until stopped by frost. The ruby-red pendent flowers are produced by the hundreds, flowering just as freely in full sun as in light shade. A most interesting plant for the flower border or rock garden, where it fits in perfectly, blooming all summer. Like all Fuchsias, they are especially adapted for shady locations. We advise protection anywhere north of Philadelphia.

Magellanica alba

Three \$1.50, Doz. \$5.00, 100 \$30.00

Has the same habit of growth as *Magellanica* but the pendent flowers are bluish-white. A charming variety which also is somewhat hardier.

Riccartoni

Three \$1.50, Doz. \$5.00, 100 \$30.00

Lovely pendent crimson-red and purple flowers. A hybrid of unknown origin. It is used as a boundary hedge in many places in the south and west of England and Ireland where moisture, fog, and a mild cool climate bring it to perfection. Here in Ohio it requires shade, the same as *Magellanica* and freezes down to ground level as does the Butterfly Bush.

Kolkwitzia Amabilis

FORSYTHIA

The name "Golden Bell" has been attached to this family of handsome shrubs, but nobody uses it, and in consequence, the name of William Forsyth, one of the greatest gardeners in history, is perpetuated in common speech through the Forsythias, which have become one of the most popular groups of shrubs grown in gardens. They should be given a place where they can grow untrombled by restricted space and without pruning. There is nothing so miserable to look at as a Forsythia which has been clipped into some formal shape, or a line of them compelled to serve as a hedge; and there is nothing more beautiful and more expressive of springtime than the early grace of a Forsythia allowed to develop naturally according to its own sweet will.

Ovata

Each \$1.25, Three \$3.50, Doz. \$12.50

(Korea.) The best form is compact growing, seldom more than 4 feet high and it is probably the prettiest of the family. The branches bear charming campanulate bright yellow, scented flowers during February and March, even in severe weather.

FORSYTHIA, SPRING GLORY

This new Forsythia is without question the loveliest of all the Golden Bells.

When seen in bloom, it is a sight not easily forgotten, its large pale yellow flowers completely cover the branches in such masses that they literally bend with their weight.

It would not be far amiss to say that it produces twice the number of blossoms of the common Forsythias. Further, the pale yellow color is very pleasing and brilliant, infinitely more attractive and cheerful than that of the varieties now in general use. If you desire a brilliant and cheerful display in your garden in early spring, plant a few Forsythia Spring Glory. There is nothing which will make you forget winter as quickly nor announce spring as flamboyantly.

Each \$2.00, Three \$5.75, Doz. \$20.00

Hydrangea Quercifolia—Grows superbly in light shade

HYPERICUM - St. John's Wort

Attractive and charming low growing, summer-flowering shrubs. Their brilliant flowers are beautifully formed and grow on slender branches from early summer until stopped by frost. Excellent subjects for the flower border or in the foreground of taller shrubs, as well as for ground covering.

Calycinum

Each \$0.60, Three \$1.50, Doz. \$5.00, 100 \$30.00

This is a most valuable variety because it can also be used as a ground cover for both sunny and semi-shady places. The underground runners are produced so freely as to completely cover the ground; at the tops the golden yellow flowers shine like jewels. Its height is about 12 to 18 inches. We recommend this as one of the best and hardiest.

Henryi

Each \$0.60, Three \$1.50, Doz. \$5.00

A dwarf, spreading shrub with large, showy, golden yellow flowers. In very cold winters the tops freeze back, which is of no consequence as the new growth is rapid and flowers even more freely. Ultimate height 3 feet.

Moserianum

Each \$0.60, Three \$1.50, Doz. \$5.00

A most desirable border shrub about 20 inches high, of free and graceful habit, producing long, slender stems, drooping, apparently from the weight of the flowers and buds, although the flowers face so none of their beauty is lost. Color a rich golden yellow, and bloom continuously the entire season.

HYDRANGEA

Paniculata grandiflora Each \$0.65, Three \$1.70, Doz. \$5.50

This variety is very well known, being in almost every garden. Its large conical heads, 12 to 18 inches long, become pink and red as the flower ages. If you want very large flowers, be sure to prune very severely each spring, also give it plenty of water during the summer.

Quercifolia Each \$1.25, Three \$3.40, Doz. \$10.50

The Oakleaf Hydrangea is a rather uncommon bush. It has big, artistic leaves, indented, and somewhat ruffled, resembling in a magnified way the foliage of some gigantic oak. The flowers are not a great deal unlike those of Hydrangea paniculata, and are borne in enormous, conical heads which are very majestic and showy. Particularly valuable for the brilliant autumn coloring. Does well in shade.

Blue Hydrangea

Opuloides, Blue Bird Each \$1.50, Three \$4.00, Doz. \$15.00

On Cape Cod, Massachusetts, in a small, well kept garden surrounding a fine old home which once belonged to a clipper ship captain, one of us observed a magnificent specimen of the blue Hydrangea opuloides. The coloring is a deep and intense blue never observed in the tender Hortensis varieties, now extensively in use by florists and commonly seen in gardens. Upon request the owner permitted us to take some cuttings of this beautiful plant which he told us his father had brought from China. We have multiplied these cuttings and can now offer a fine lot of flowering plants. We recommend slight protection in the colder section of the country. Grow in sun or light shade. Allow two feet square for each plant. Do not use lime, it seriously affects the coloring, in fact on alkaline soils we advise mixing one pound aluminum sulphate to ten square feet, making 3 or 4 applications as needed with the soil in order to bring out the marvelous blue color to best advantage. Here is a beautiful flowering shrub you will enjoy possessing.

Fuchsia Magellanica Alba

HALESIA

Tetraptera Each \$1.30, Three \$3.65, Doz. \$11.25

The Silver Bell or Snowdrop Tree, also sometimes called the Lily-of-the-Valley Tree, is a most attractive round-headed, bushy little tree with horizontal branches and rather ordinary foliage. Its beauty consists in the millions of small white bells which dangle in bewildering profusion from the lower side of the branchlets. Certainly no flowering tree is handsomer and daintier than the Silver Bell when in full bloom, and it is always an object of great interest and curiosity.

ILEX GLABRA - Inkberry

Glabra Each \$1.50, Three \$4.25, Doz. \$15.00

The Inkberry is a loose, spreading shrub, 4 to 5 feet high at maturity, with shining dark green leaves and a profusion of glittering black berries through the winter. It is an excellent plant for hedges in shady situations. It may also be effectively used as individual plants mixed with evergreens or in front of the shrubbery border.

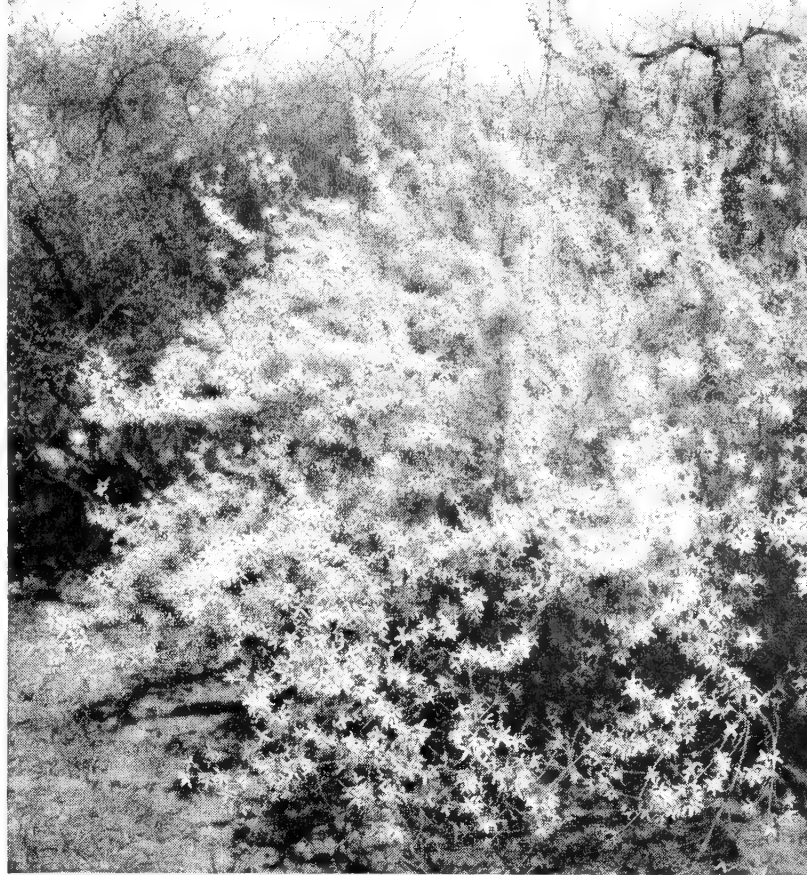

KALMIA

Latifolia 15-18 inch plants, Each \$3.00, Three \$8.50, Doz. \$30.00

Mountain Laurel creates one of the handsomest late spring spectacles in this country. It grows from 6 to 20 feet tall and is covered in May and June with clusters of white and blush-white flowers. It does well in light shade and sun. Prefers a sandy, peaty, well-drained soil and responds to the same treatment as rhododendrons.

— 190 —

Forsythia, Spring Glory

KERRIA

Japonica flora plena Each \$1.00, Three \$2.85, Doz. \$10.00

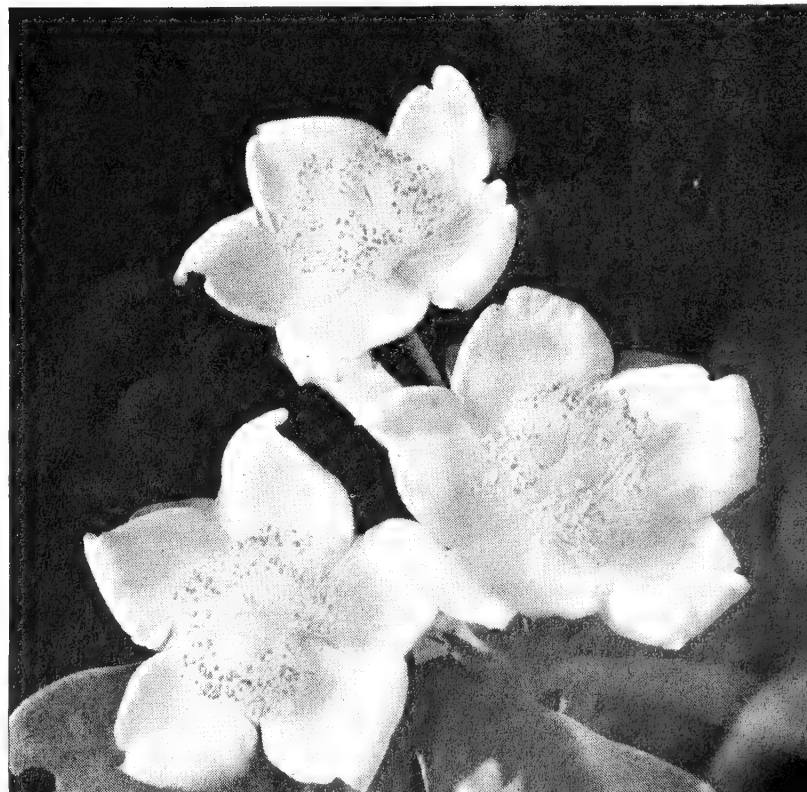

Double Kerria is sometimes called the Globe Flower because the choice double golden flowers have a ball-like shape not unlike the button chrysanthemums. The plant grows vigorously and attains a maximum height of 4 to 5 feet. It is bushy in habit with many bright green stems, attractive all winter. Give it a sunny location in front of the border and its golden yellow blooms all summer will be a pleasure. The flowers last well in water and are excellent for cutting.

KOLKWITZIA - Beauty Bush

Amabilis Each \$1.25, Three \$3.50, Doz. \$12.50

A handsome flowering shrub which came from China. While upright in growth its branches at the ends are arching, almost pendulent, so that they cover the ground about them and never look "leggy" and bare. It is perfectly hardy anywhere, has excellent foliage and in June is a fountain of bell-shaped, light pink flowers not unlike the weigela. Grows anywhere and does exceedingly well in dry, sandy, poor soil. Kolkwitzias do not bloom the first year or two after planting. Ultimate height about 7 to 8 feet.

Hypericum Calycinum

LABURNUM - Golden Chain

Vossi Each \$4.00, Three \$11.00, Doz. \$40.00
Long-clustered Golden Chain. Small tree-like shrub with green bark and foliage like exaggerated clover leaves. Flowers are pure golden yellow and formed exactly like those of Wisteria. The hanging clusters attain as much as 18 to 20 inches length and are borne very profusely in late spring. Very beautiful. Usually bloom the first year after planting.

Adami Each \$4.00, Three \$11.00, Doz. \$40.00
This is a "graft hybrid" producing many racemes of yellow and purple on the same branch. It is most attractive as well as unusual to see flowers of different colors growing from the same branch. Will grow into a small tree about 12 feet tall and flowers during May.

LAGERSTROEMIA INDICA - Crape myrtle

(Not hardy North. Offered for the benefit of our southern customers only.)

Crape myrtle will sometimes remain dormant, not putting out foliage for a year. Keep the plants watered and soil loosened. Severe pruning is recommended to keep plants in shape. This should be done in February. This popular free-flowering shrub is perhaps one of the loveliest plants of the South. Its magnificent flowers throughout the hot summer give to gardens a gaiety not possible to duplicate with anything else. All are hardy south of Baltimore.

Wm. Toovey Each \$1.25, Three \$3.45, Doz. \$11.00
A magnificent new variety with huge clusters of watermelon-red flowers. Distinct and attractive foliage help make this a beautiful flowering shrub.

White Beauty Each \$1.00, Three \$2.50, Doz. \$8.00
A fine white-flowered form.

Pink Beauty Each \$1.00, Three \$2.50, Doz. \$8.00
Luscious pink blooms in great profusion.

LEUCOTHOE

Catesbaei Each \$2.25, Three \$5.00, Doz. \$18.50
It has an arching, spraylike habit, suggestive of a fern, very useful for low planting in the foreground of taller evergreens. The showy, fragrant, white flowers are borne in long clusters hanging from the base of each leaf. The lasting beauty of this plant is in its evergreen foliage.

LONICERA - Honeysuckle

Grata Each \$2.00, Three \$5.75, Doz. \$20.00
A most satisfactory and useful low shrub for shady as well as sunny places. It is at its best in front of tall shrubs to help create a beautiful front for the shrub border. *Lonicera Grata* is rounded, the branches more or less cascading over each other somewhat in a half vine, half shrublike manner. It flowers all summer long. The deliciously fragrant blossoms are not unlike those of the Goldflame Honeysuckle. Its large blue-green leaves make the plant attractive at all times.

Yunnanensis Each \$1.25, Three \$3.25, Doz. \$10.50
A rare, hardy, evergreen shrub. The foliage is dark green and with fragrant white flowers which are followed by conspicuous translucent violet berries. The horizontally spreading branches make it very suitable for "facing down" tall growing shrubs or for under-planting; ground covering in shade or sun. Excellent for covering banks or hiding objectionable gutters or drains along drives. There is no garden where bare, tall shrubs are growing where it cannot be used to good advantage. Ultimate height and spread, 5 feet.

Syringantha Wolfi (Daphne Honeysuckle) Each \$0.90, Three \$2.50, Doz. \$8.00

The twiggly, drooping branches of this most delightful and practically unknown small shrub are covered with rosy lilac, showy, fragrant blooms in clusters not unlike in fragrance and form the *Daphne Cneorum*. It is of very easy culture. Does well in light shade or full sun, growing not much higher than 3 to 3½ feet. Excellent for in front of large shrubs or in the flower border and rock garden.

Lagerstroemia Indica—Crape myrtle

Malus --- Chinese Flowering Crabs

Two groups of flowering trees, the Cherries and the Crabs, stand far above all others in daintiness and grace. The Japanese Cherries are well advertised by the spectacular planting in Washington, D. C., but the even lovelier Crab Apples have never received justice at the hands of American planters. Crabs are extremely hardy and will thrive in positions and exposures which would be fatal to the more delicately constituted Cherries. They also exhibit a greater variety in character of tree, a wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet, and crimson. No other flowering trees equal the flowering Crabs in profusion of bloom, and amongst other good qualities, varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

Aldenhamsensis Each \$1.50, Three \$4.00, Doz. \$12.50
A beautiful brilliant kind with rich purple-red foliage. The flowers are semi-double red with purple glow. When in bloom it is a compellingly beautiful plant. Ultimate height 20 feet.

Arnoldiana Each \$1.50, Three \$4.00, Doz. \$12.50
Arnold's Crab was originated in the Arnold Arboretum at Boston, and was evidently a seedling from some of the many beautiful varieties which are planted there. The semi-double flowers are pink, turning white after a few days, and droop gracefully in long-stalked clusters. In the autumn the tree is adorned with pendulous clusters of waxy yellow fruits about the size of a cherry. Its habit is compact and it is seldom more than 10 to 12 feet high.

Atrosanguinea Each \$1.50, Three \$4.00, Doz. \$12.50
In early May, every twig and branchlet of the Carmine Crab is covered with clusters of dark pink, almost crimson flowers. It is somewhat taller than other Crabs and is a handsome lawn specimen. Ultimate height 15 feet or more.

Floribunda Each \$1.50, Three \$4.00, Doz. \$12.50
Is "the" favorite. It is of spreading growth and prolific flowering. The blossoms are a light pink blending into a white, followed by an abundance of yellowish green fruit relished by the birds. The flower buds are very beautiful, displaying a brilliant pink before bursting into early bloom. It can be grown as a tree, but it is best as a bush—a handsome and very attractive variety. As pink is probably the favorite color in the garden, *Floribunda* has always enjoyed great popularity. It blooms when about 12 inches high.

Floribunda atropurpurea Each \$1.50, Three \$4.00, Doz. \$12.50
In habit it exactly resembles *Floribunda*, which is illustrated in color, but it is much more brilliant than that variety. The flowers are red and when this tree is in bloom it will stop every passer-by. The bronzy red foliage also contributes mightily to its showiness and beauty. In the autumn when the thousands of small apples turn red, you again behold a lovely sight. It is a strong grower and will bloom profusely on small plants. In fact, the flowers are so profuse they completely hide all twigs and branches.

Ioensis plena Each \$1.75, Three \$5.00, Doz. \$15.75
Bechtel's Crab is a double form of the Wild Crab Apple of the Mississippi Valley. The original plant was discovered near Staunton, Illinois, in 1850, and was brought into cultivation about forty years later by a man named Bechtel. It is a robust, round-headed tree with double, pale pink flowers about 2 inches across, exactly like little roses. They have a delicate violet scent.

Pink Weeper Crab Each \$2.00, Three \$5.75, Doz. \$20.00
This is an unusually handsome Weeping Flowering Crab. The main stem is upright. The branches are weeping and droop onto the ground. The effect is like a fountain and when in bloom in spring, a picture not easily forgotten. Makes a perfect small specimen tree for the lawn. The flowers are crimson-purple when open; the buds blood-red. A beautiful flowering, small, weeping tree. Its attractiveness is prolonged by its fruit until late in the fall. Ultimate height 12 to 15 feet. We offer nicely shaped trees about 4 to 5 feet.

Sargentii Each \$2.00, Three \$5.75, Doz. \$20.00
Sargent's Crab is really a spreading shrub which sometimes assumes an almost creeping habit, making it suitable for small lawns and large rock gardens. It produces an unbelievable abundance of white flowers with sparkling yellow anthers, followed by glittering scarlet fruits which hang on almost all winter.

Scheideckeri Each \$1.50, Three \$4.00, Doz. \$12.50
The flowers of Scheidecker's Crab are double, bright pink, last a long time, and the fruit, which is produced in great profusion, is waxy yellow. The tree has a regular pyramidal habit, about 15 feet high. Best and easiest to flower.

Theifera Each \$1.50, Three \$4.00, Doz. \$12.50
One of the favorites of connoisseurs is the Tea Crab, a stiff, erect plant 15 feet or more high, and in spring every limb, branch, twig and branchlet is buried in a cloud of rose-pink blossoms which slowly change to bluish-white.

MAGNOLIA

Soulangeana

Each \$6.00, Three \$17.00, Doz. \$60.00

Soulanges Magnolia, sometimes called the Saucer Magnolia for no reason at all, is the rather rare Pink Magnolia of city gardens and parks. It makes a small tree with gorgeous shining foliage and in early spring produces its enormous, pinkish white flowers, more or less purplish outside and slightly fragrant. This Magnolia is the showiest of the family for planting in northern gardens, and when in bloom, even one plant will dominate the garden—yes, the neighborhood, if it is a sizeable specimen. A whole street in Rochester, lined with this variety, is a mecca for all enthusiasts every spring. We offer flowering plants with a lot of buds, about 3 to 5 feet tall.

Stellata (Star Magnolia)

Each \$5.50, Three \$16.50, Doz. \$51.50

The rarest of the hardy Magnolias. It grows to a small spreading tree; however, this requires years. Early in spring the plant is covered with a mass of fragrant pure white starlike flowers, which are 3 inches across. The numerous long waxy white petals are held together in a lovely starlike shape. A beautiful thing for a small lawn or any small garden. We offer fine plants about 2½ feet tall with flower buds ready to bloom.

MAHONIA

Aquifolium

Each \$1.50, Three \$4.25, Doz. \$15.00

This is more popularly known as the Oregon Holly Grape. It has shiny, large, spiny, metallic looking leaves which turn a bronzy red in autumn. In spring the clusters of yellow flowers are very attractive. These flowers are followed by blue fruit in June and July. We consider it one of the most attractive evergreens of easy cultivation. Does perfectly in north exposure in plantings of evergreens. Ultimate height about 2½ to 3 feet, depending on location where grown.

PACHISTIMA (See page 159)

PHILADELPHUS

Pekinensis (Brachybotrys)

Each \$1.10, Three \$3.00, Doz. \$9.75

Pekin Mock Orange. A beautiful Mock Orange from China. In fact, experts claim this to be the finest species from that immense country. Its 5- to 8-foot, slender branches are covered from end to end with racemes of 1-inch, fragrant, white flowers. It is one of the showiest of June-flowering shrubs. It has fine, compact habit of growth and is perfectly suited for the shrub border.

Zeyheri

Each \$1.10, Three \$3.00, Doz. \$9.75

The Snowstorm Mock Orange. Few shrubs produce as many flowers as does this Mock Orange. In early June it is a veritable hill of snow. When the blooming period is over, it is a showy shrub with good, clean, bold foliage. Altogether a very worth-while, rare plant you will be proud to point out to your friends. Ultimate height 6 to 8 feet.

NEW GIANT MOCK ORANGE

Atlas

This giant-flowered Mock Orange, with its pure white blooms as large as those of Dogwoods, will be sensational in your garden and we predict will replace many of the more common and indifferent shrubs. This magnificent hybrid came to us a few years ago from France. It has been carefully tested and not found wanting. Hardy, of easy culture, grows most anywhere, good upright habit, and covered with immense blooms which slightly lack being 3 inches in diameter that are magnificent for cutting. Decidedly a "must" for every shrubbery border.

Each \$3.00, Three \$8.50, Doz. \$30.00

Prunus Triloba (See page 184)

Mahonia Aquifolium

Prunus

FLOWERING ALMONDS, PLUMS AND PEACHES

Among the Flowering Prunes are several handsome shrubs called variously: Flowering Plums, Flowering Cherries, Flowering Almonds and Flowering Peaches. They are so well known that they do not need any introduction. They are very hardy.

FLOWERING PEACHES

The general habit of all is much the same, the main difference being in color of flowers and time of blooming. They should be very severely pruned every year as soon as they have finished blooming and before growth starts. Cutting them for decoration accomplishes the same purpose and is highly beneficial but should be completed as soon as flowers are gone. All growth of the previous season should be cut back to about 8 inches. Don't touch them in the fall as that is simply cutting off potential flowers.

Spring planting only is recommended except in localities where temperatures do not go below 10 degrees of frost.

Cardinal

Each \$2.00, Three \$5.00, Doz. \$20.00

Profusely laden with richly colored madder-rose or Tyrian rose double blooms which have a rich crimson sheen. A brilliant and beautiful effect is created. A thrill you will long remember. A rare plant for your garden.

Iceberg

Each \$2.00, Three \$5.00, Doz. \$20.00

A magnificent pure double white Peach. Spotlessly white flowers in great quantities give an effect not often seen in flowers. A perfect beauty.

Pink Charming

Each \$2.00, Three \$5.00, Doz. \$20.00

Delightful and charming is what visitors tell us of this variety. Lovely double rose-pink blossoms grow in super-abundance, making this small tree look like a huge bouquet.

Dwarf Mandarin

Each \$2.00, Three \$5.00, Doz. \$20.00

This charming miniature Peach tree grows not over 4 feet high. It makes a compact small head about two feet in diameter of short, stubby branches which are heavily loaded with double crimson flowers, turning the plant at blooming time into a small ball of fire. Its foliage throughout the summer is lovely and dark green. As a result "Dwarf Mandarin" is a perfect little standard tree for use in the center of a small bed or garden square, as well as an extra point of interest in the flower border.

WEeping PEACHES

Like other weeping trees of this nature, these are top-grafted on erect stems at about 4 or 5 feet. The branches droop decidedly, giving them a very artistic appearance.

Double Red Weeping

Each \$2.50, Three \$7.00, Doz. \$25.00

Color is very rich and entirely distinct from the erect reds.

Double White Weeping

Each \$2.50, Three \$7.00, Doz. \$25.00

Flowers are exactly like those of the tea-plant, but larger and moderately double, showing the yellow stamens. The long sprays of handsome flowers give a delightful effect.

(Continued on next page.)

PRUNUS - Almond; Plum

Glandulosa alba *Each \$1.25, Three \$3.50, Doz. \$12.50*
(Flowering Almond.) The small, very double, white rosettes grow in great quantities along the stem in late April and early May. Lovely when in bloom. Ultimate height about 4 to 5 feet.

Glandulosa rosea *Each \$1.00, Three \$2.85, Doz. \$10.00*
Produces very double, rose-colored flowers in great profusion in spring. One of the most charming old-fashioned early flowering shrubs, and is still unsurpassed in beauty in its season. Our plants are grown on their own roots, thus insuring extra vigor and more lasting satisfaction as well as no "wild suckers."

Triloba *Each \$1.25, Three \$3.50, Doz. \$12.50*
(Flowering Plum.) The flowering Plum blooms early in May before the leaves come out. The delightful double, quilled, bright pink flowers stud every twig and branchlet so heavily no wood is visible. Very handsome and should not be left out of any garden. Here again we offer plants growing on their own roots because they are so much more satisfactory. Ultimate height about 8 feet.

PYRACANTHA (Crataegus) - Firethorn

Coccinea Lalandi *Each \$1.25, Three \$3.50, Doz. \$12.50*
A most remarkable fruiting evergreen shrub. Bears attractive large trusses of white flowers during the late spring followed by an abundance of brilliant orange-scarlet berries which remain late into the winter. A marvelous plant for foundation planting where soil is dry. The long shoots it makes can be used as a vine over a doorway or along a window casing. The plants can be trimmed to fit any position. It is difficult to transplant old or large plants. We therefore send only young stock which establishes quickly. It prefers a sandy soil and warm location.

RIBES

Fasciculatum *Each 75c, Three \$2.00, Doz. \$6.50*
A slender-branching shrub 3 to 6 feet high with 5-lobed leaves which become magnificently colored before falling. It bears clusters of yellow, fragrant flowers during April, and red currants in autumn. Its chief value is its ability to thrive in densest shade.

ROBINIA - Rose-Acacia

Hispid, Monument (Pyramidal Rose-Acacia) *Each \$4.50, Three \$13.00, Doz. \$43.25*
The habit of growth of this Rose-Acacia is not unlike that of the Lombardy Poplar. And because of this unusual habit we have a small flowering tree that can be grown in every garden, big or little. It may be used as a small lawn specimen or in the shrub border where it will not crowd or harm plants near by. During late May and June it is covered with drooping clusters of deep rose-colored flowers resembling pea-blossoms. Will grow in any soil anywhere. Ultimate height about 10 to 12 feet. We offer nice plants at cut 6 feet.

SALIX - Willow

Babylonica Annularis Crispa (Ringleaf Willow) *4-5 ft. plants, Each \$2.00, Three \$5.75, Doz. \$18.75*
The leaves of this most attractive Weeping Willow are curled into a corkscrew-like ringlet. The effect is extreme gracefulness, making the pendulent branches very desirable for cutting and use with other flowers. Ultimate height is about 20 feet. A specimen of this fine hardy willow, no matter how small, is a choice possession. Does well in moist or dry soil.

Pink French Pussy Willow *Each 70c, Three \$1.90, Doz. \$6.25*
Not the wild Pussy Willow but a fine cultivated French variety. Branches of this variety have been selling at retail during the winter months in cities at from \$1.00 to \$2.00 per dozen. **You can grow them on your own lawn!** Enjoy these dainty silvery pink flowers every winter. A beautiful round shrub in summer or use them for tall screens or back-grounds. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silver-pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure. Ultimate height 10 feet.

Purpurea Nana (See page 159)

SORBUS - Mountain Ash

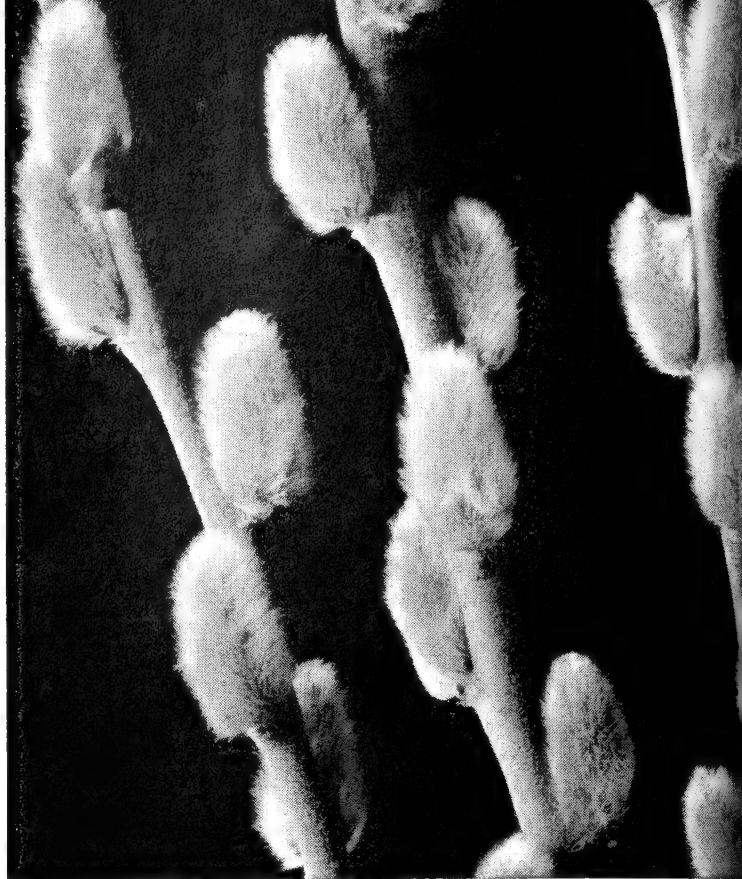

Fifiana (French Mountain Ash) *Each \$3.75, Three \$11.00, Doz. \$36.00*
This prolifically fruiting variety resembles the well-known Mountain Ash very closely. It does not grow quite as tall, only 20 to 25 feet, but produces twice the amount of flowers and fruit. The branches literally bend under the brilliant loads of orange fruits. This small tree can be grown in every small garden without damaging nearby flowers. Transplants readily. We offer nice young trees about 6 feet tall.

SPIRAEA

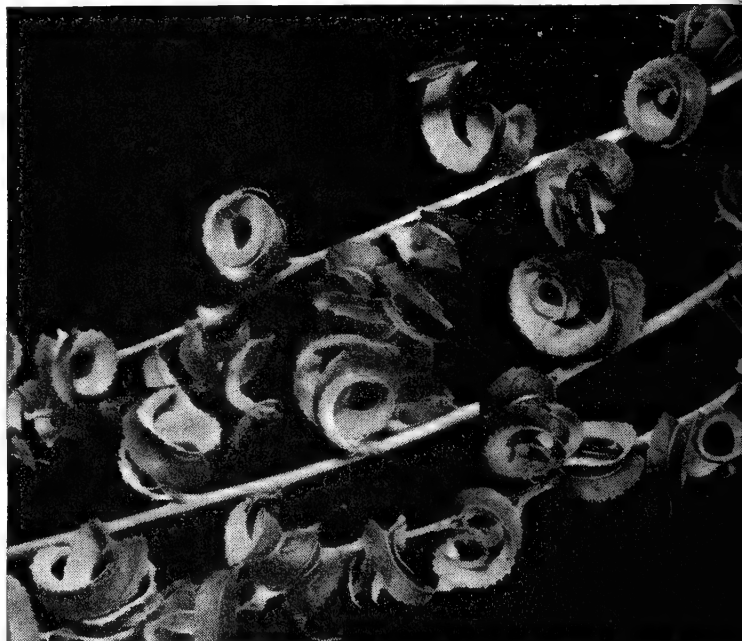

A very important family of shrubs. Most Spiraeas are sun-loving, but withstand much abuse in location and soil conditions, and are a source of joy and satisfaction.

Bumalda, Crispa (New) *Each 75c, Three \$2.00, Doz. \$6.50*
The crested foliage is most interesting and makes this a much more attractive and desirable variety than the common Anthony Waterer it otherwise resembles. Flowers a deep crimson. Blooming all summer.

Japonica Coccinea *Each 75c, Three \$2.00, Doz. \$6.50*
Similar in growth and habit to Anthony Waterer but of much cleaner and richer coloring. The fading and the turning to magenta which is so objectionable in the Anthony Waterer variety is practically removed from this fine new kind. Ultimate height is about 3 feet.

French Pussy Willow

Ring-Leaf Willow

Caryopteris (Hardy Spirea), Blue Mist

Syringa — Lilacs

THE CREAM OF THE New French Hybrids

The following are the "cream" of the cream of Lilacs. They stand out above other varieties because of their enormous trusses and exquisite colors, as well as their fragrance. No more need be said than "these are the best to date." Although our collection of French Lilacs comprises only a limited number of varieties, the purpose of this list is to bring to your attention the very newest and most interesting developments.

Ami Schott Each \$3.50, Three \$10.00, Doz. \$35.00
Magnificent double deep cobalt-blue flowers with paler reverse. The panicles are dense and broad. This is a superb novelty.

Capitaine Perrault Each \$2.50, Three \$7.00, Doz. \$23.50
Immense spikes of large, full, double flowers of a superb rosy mauve, buds of the same color. A magnificent late flowering variety.

Etna Each \$3.50, Three \$10.00, Doz. \$35.00
Broad panicles of medium sized regular flowers, deep claret-purple, late. Practically the most approaching to red. Double.

General Pershing Each \$2.25, Three \$6.00, Doz. \$22.50
Double flowers of a quite unusual size, broad lobes of a rich purplish violet, paler underneath, big purple buds. Late. Very beautiful.

La Vestale Each \$3.00, Three \$8.50, Doz. \$29.50
Immense trusses in great abundance of purest white; single.

Marechal Foch Each \$3.00, Three \$8.50, Doz. \$29.50
A sensational new Lilac. The expert horticulturist, Felix Crousse, pronounced this to be the handsomest of all single Lilacs. The high panicles, carried by long, straight stems, are truly immense and very light. The individual flowers, fully one inch in diameter, perfectly shaped, are of a bright carmine-rose with a pink eye when opening, contrasting with the mauve of the older flowers and the deep carmine of the buds. Early.

Massena Each \$3.00, Three \$8.50, Doz. \$29.50
Strong, upright spikes, individual flowers over one inch across, of the deepest pure red.

Miss Ellen Willmott Each \$2.25, Three \$6.00, Doz. \$22.50
Extremely floriferous, immense double flowers of purest alabaster-white. Large branched panicle, round flowers.

Mrs. Edward Harding Each \$3.75, Three \$11.00, Doz. \$36.00
This variety was awarded in 1921 the special prize founded by Mrs. Edward Harding for the best double red Lilac. Large panicles of large, full flowers of the brightest carmine.

Paul Deschanel Each \$3.75, Three \$11.00, Doz. \$36.00
Immense panicles of very broad flowers, rosy mauve with carmine buds; exceedingly free.

President Lincoln Each \$2.25, Three \$6.00, Doz. \$22.50
Single flowers three-fourths to seven-eighths inch across, purplish lilac in bud, Wedgwood-blue when fully open, large clusters. Branches ascending and habit somewhat compact. Very vigorous and early in bloom.

THE DAPHNE LILAC

Microphylla Each \$3.00, Three \$8.50, Doz. \$30.00
A remarkably lovely shrub, deliciously fragrant, introduced from China. Graceful, slender stems; pinkish red buds opening to pale pink, loose panicles of small individual florets. The flowers produce a two-tone effect that is very pleasing and novel. The main truss is on top of each stem and smaller trusses are set down the branches, so that the entire plant forms one large bouquet. The foliage is very pretty, about one inch long and three-fourths inch wide. Blooms again in the fall. The fragrance of this Lilac is something never to be forgotten. More like that of Daphne and Gardenia blended than the Lilac fragrance we are familiar with.

SYMPHORICARPOS

Chenaulti Each \$0.50, Three \$1.25, Doz. \$4.00
This is a slender, arching shrub creating a cascade of foliage that is most attractive. This variety in the environment of Cleveland retains its foliage until February. It is especially well adapted for planting and massing in the foreground of bare-legged shrubs, completely shutting out the undesirable stems of the taller plants behind it. Does well in shade; ultimate height about four feet.

Mollis Each \$0.50, Three \$1.25, Doz. \$4.00
The finest large-berried variety. One of the most ornamental shrubs in winter when the long branches are pendent with the weight of the closely set large white berries. Superior in every way to the common Racemosus.

TAMARIX - Tamarisk

Summer Glow Each \$2.00, Three \$5.75, Doz. \$20.00
There is a lacy loveliness and charm about this lovely shrub not found in any others. The beautiful silvery blue-green foliage is like a veil. A sharp and delightful contrast is made by the airy wine-red flower spikes which appear on top of the delightful foliage all summer long. The flowers and foliage are lovely for cutting. This shrub is also excellent for seashore or lakeshore gardens, being very tolerant to salt air and wind. The plants we send out will bloom the first year. Ultimate height about 8 feet. Can be pruned and kept to 5 or 6 feet if desired.

Viburnum Tomentosum Plicatum Trained Against a Shady Wall

Viburnum Tomentosum

VIBURNUM - Snowball

Viburnums comprise a very large, endless family, the despair of anyone who is trying to differentiate between the species. We list but a few of the most floriferous and best suited for the average small garden where a lot of flowers is first consideration.

Burkwoodi (New English Introduction)

Each \$3.50, Three \$10.50, Doz. \$32.00

Improved Carlesii. Waxy bluish-white and deliciously fragrant, the flowers of this new fragrant Viburnum are produced in early spring when the leaves are unfolding. They form round, domed clusters, and the gardenia-like fragrance is so sweet as to pervade a large area. The plant grows about 4 feet high and 5 to 6 feet in diameter. It likes a well drained, sunny place, with plenty of moisture throughout the season. This is a new jewel for the garden—a real aristocrat. For the small garden, where there is room only for the choicest shrubs, the one Viburnum above all others that should be grown, is Viburnum Burkwoodi. Foliage brilliant in autumn.

Carlesii

Each \$3.50, Three \$10.50, Doz. \$32.00

Waxy white, deliciously fragrant flowers are produced in early spring when the leaves are unfolding. This fragrant Snowball is a great favorite. It is very hardy, easily grown and does well in light shade, as well as in full sun.

Tomentosum

Each \$1.25, Three \$3.50, Doz. \$12.50

If all the other Viburnums were thrown into the discard, this one would justify the family. It is a superb flowering shrub and the spectacle of a good Tomentosum in bloom is a sight not ever to be forgotten. In early June the horizontal branches become perfect mosaics of wheel-like clusters ringed with dazzling white flowers, with spidery sunburst centers, resembling a fall of snow still remaining on the horizontal branches. Ultimate height 8 feet.

Tomentosum plicatum

Each \$1.50, Three \$4.25, Doz. \$15.00

The Japanese Snowball has its pure white flowers arranged in a perfectly round ball 3 to 4 inches across. Its clean foliage is quite similar to the Tomentosum. Much neater and in every way superior to the common Snowball which is usually covered with aphids. It makes a commanding specimen and there are few shrubs handsomer than this when well grown.

VIBURNUM OPULUS NANA

The Hedge Viburnum

A dwarf, stubby plant never over two feet high, particularly well adapted for edgings and hedges in wet or heavy clay ground where it is difficult for other plants to thrive. Does well in light shade. It is extremely hardy. Can be clipped or left natural as desired. In either case it grows into a fine compact and low hedge which requires no care.

Each \$1.00, Three \$2.60, Doz. \$7.25, 100 \$50.00

VITEX - Chaste Tree

Macrophylla

Each \$1.00, Three \$2.85, Doz. \$10.00

A graceful shrub with attractive spikes of lovely lavender-blue flowers. Blooms profusely from July until fall and grows more than ten feet high unless pruned back. It is a most desirable summer-flowering shrub of distinctive appearance. Fits in well in the border and is also suitable as a lawn plant. Its form and foliage as well as the lilac flowers are very unusual.

Macrophylla, Pale Pink

Each \$1.25, Three \$3.50, Doz. \$12.50

A charming bluish-white form of the above; very scarce.

[186]

The Fragrant Viburnum Burkwoodi

Weigela, Bristol Ruby

New Weigela, Bristol Ruby

(Plant Patent No. 492)

A better "Eva Rathke" has long been needed—Bristol Ruby is just that. Hardier and more vigorous, it makes a shapely thrifty plant with attractive rich green foliage. Color is a soft ruby-red shading to garnet-crimson, extremely pleasing in effect and without harsh tone. Attaining a height of 6 to 7 feet at maturity, it makes a perfectly formed, well-rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. Plant illustrated, photographed in June, 1941, is the original; blooming in its twelfth year with never a miss or off season. We doubt if this would be possible with any other Weigela. Excellent reports from Vermont and other difficult regions fully substantiate our own estimate of its unusual hardiness. Bristol Ruby is definitely superior to Eva Rathke in every respect and visitors here at the nursery are quick to note its better qualities.

Each 3 Doz.

2-year-old bushy
plants, 2-3 ft. high \$1.25 \$3.25 \$12.50

3-year-old bushy
plants, 3-4 ft. high 1.75 4.50 17.50

Weigela, Othello

Weigela - Diervilla

The Weigelas are an interesting and useful family of shrubs, flowering in May, June and July. The flowers in shape may be likened to those of a foxglove and are borne in immense quantities. They prefer a moist soil and do not like shade or roots of large trees encroaching on them. Otherwise their culture is simple. The average ultimate height of most varieties is about 5 to 6 feet.

Othello (New)

Each \$1.25, Three \$3.50, Doz. \$12.50

A well shaped plant about 4½ to 5 feet ultimately. The branches are covered with rich rose colored flowers closely spaced. This new hybrid is a fine improvement and a most desirable variety because of its fine habit, freedom of bloom, and lovely clear flowers.

Jewels or Glass?

The commonest plant of an inferior strain takes just as much space in your garden and requires just as much attention to grow, as does a really fine variety. Where space is limited, this fact is worth special consideration.

Don't let some ordinary plant monopolize valuable space in your garden merely because it increases fast and you "hate to throw it away." Present it to a beginner and put in one of the newer beauties. This injection of new blood will keep alive and intensify your own interest and pleasure as well as that of your friends.

Camellia Japonica

A Superb Winter Flowering Shrub! Easily Grown in a Cool Greenhouse in the Colder Parts of This Country. Also Very Satisfactory in Cool Sunrooms or Windows. Camellias Are Perhaps the Loveliest Subjects in the Gardens of California and Throughout the South

About two centuries or more ago, when merchantmen sailed the seven seas and explorers wandered into far-away lands, rare plants were numbered among the treasures sent to the home-land. China—a land of mystery—yielded the beautiful Camellias to the gardens of America and Europe. "Japonicas," as they are frequently called in the South, at once became popular and held favor for years.

Camellias are easily grown in the South, and their rich, glossy foliage and colorful flowers make them unusually attractive throughout the year.

The exquisite flowers of Camellia Japonica, waxy and delicate in texture and beautifully tinted, never fail to draw constant admiration when they unfold during the winter months. And the plant itself is handsome, with its glossy evergreen foliage forming a perfect setting for the bright-colored blooms. Camellias also grow easily everywhere on the Pacific Coast. They are hardy down to ten degrees, requiring only a good well-drained soil and a sheltered location. The addition of some peat moss or leaf mold to most soils will give the best results. You will not have to wait for blooms because Camellias begin to flower as soon as they are a foot or two in height, and all of the plants which we sell bloom the first winter after you plant them, if properly cared for.

Camellias and Azaleas thrive under the same conditions and culture. Keep them uniformly moist at all times. Do not drown them nor let them dry out completely. Success or failure will depend on the soil that you plant them in. Be liberal with good soil and fertilizer. Good rich loam to which has been added a liberal quantity of peat or leaf mold suits them fine. For fertilizer use cottonseed meal or well-rotted cattle manure. Keep scale and red spider under control at all times. Prune to keep the plants shapely. This should be done in spring and summer, not later than August first.

They will thrive either in partial shade or full sun. However, those planted in full sun must be kept mulched and properly watered. Camellias will bloom more profusely if planted in full sun. However, the flowers will fade and will not last as long as those planted in partial shade.

In conclusion, we urge you to plant Camellias. They are easy to grow, and their profusion of bloom in the winter and spring is a constant joy to those who have these most popular shrubs.

Alba Plena *Each \$4.00*
An early flowering, full double white, light green foliage, medium growth. Will bloom for Christmas.

Candidissima *Each \$4.50*
Midseason flowering, pure double white, medium size bloom, light green foliage.

Chandleri Elegans *Each \$4.50*
One of the largest peony-flowering Camellias, cherry-red with white variegation. Some are thick peony flowers with 500 petals, but some flowers are loose peony form with yellow stamens.

Duc de Orleans *Each \$4.50*
Large, loose Peony form flowers, soft, fleshy pink, striped and speckled with rose, golden stamens among twisted petals; very early flowering. Can be depended on to bloom for Christmas; large, round, deep green foliage; very fast bushy growth.

Elizabeth *Each \$4.50*
Full double white predominating, some pink flowers occasionally, late flowering, medium size flower, good cut flower, wide bushy growth, light green foliage.

Haley's Monarch *Each \$4.00*
An immense semi-double to Peony form flower, light pink, large round, very large, round light green leaves, fast, tall growth, late bloomer. Very choice.

Harlequin *Each \$4.00*
Peony form flowers, white and striped with pink; some pure pink flowers, very large, round light green leaves; wide, open growth, late flowering, very choice.

Herme *Each \$4.50*
Very large, loose peony form of elegant shape. White flushed pink at center with red lines through the petals. Has faint scent. One of the very best.

Monarch *Each \$4.50*
Deep pink flowers of enormous size, having many clusters of stamens and petals inside of larger outer petals, making a single flower equal to a bouquet. Beautiful foliage and compact grower. Since this variety is a very dwarf and spreading grower, plants will be a little smaller than others.

Pink Perfection *Each \$4.50*
Very double, clear shell-pink, of dainty form, liked by many. Blooms very early, but continues for a long time. Starts blooming very young and is a heavy bloomer.

Brown's Red *Each \$4.50*
Probably darkest red Camellia of semi-double form with pointed dark green leaves.

Countess of Orkney *Each \$4.50*
Light pink, with stripes of red, very double flowers of rather early season. Compact, but slow grower. Profuse bloomer while very small.

Madame Strelakoff *Each \$4.50*
Peony formed, light pink petals are streaked with small stripes of crimson. Stiff upright grower.

Prince Eugene Napoleon *Each \$4.00*
Full double deep blood-red flowers of medium size, blooms for Christmas, large, glossy dark green foliage, tall, open growth.

Professor Sargent *Each \$4.50*
Bomb Peony form flowers of large size, early flowering, dark green, round foliage, tall fast growth. This variety should be grown in full sun for maximum bloom development.

Stiles Perfection *Each \$4.00*
Semi-double or loose Peony pink and white, often solid.

Theresa Mossine *Each \$4.50*
Full double deep pink flowers, late flowering, tall, upright growth, narrow, deep green foliage.

Tri-Color *Each \$4.50*
Semi-double flowers of almost pure white to red and intermediate colors on same bush. Dark green glossy leaves.

White Tri-Color *Each \$4.50*
Pure white, semi-double, yellow stamens in center. Very fine grower and a garden favorite.

The plants offered of these named varieties will be about 1½ to 2 feet tall and will have a nice lot of buds. They are well formed and will make a fine showing in the greenhouse or sunroom, as well as in the garden.

SIZE OF PLANTS OFFERED

All have been carefully selected for their shape and numerous flower buds and measure about 24 inches in height.

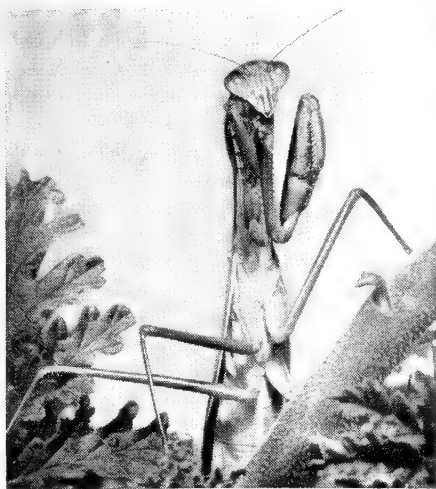

A limited number of specimen plants are available in sizes from 4 to 6 and 7 feet. If you are interested in specimen plants, please tell us what you want and we will be glad to quote.

Time of Delivery: Camellias are not grown at our nurseries in Mentor, Ohio, but come from a collection which is exclusively grown for us in the South.

For Garden Planting: Throughout the South we deliver plants from October 1st until April 1st.

For Greenhouse or Sunroom Culture: We ship plants from October 1st until January 1st. These plants will bloom for you during the winter months.

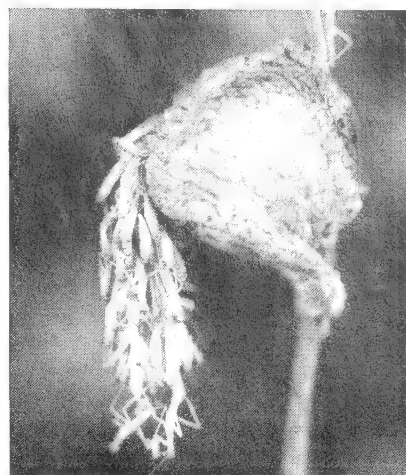

On Guard

Building Nest

Birth of Young

The Fascinating Praying Mantis

A Garden Dinosaur Who Destroys the Bugs That Would Eat Your Flowers

In spite of its fierce appearance and bloodthirsty habits the Praying Mantis is harmless to man. In fact, its insatiable appetite for beetles and the thousand and one pests a garden is heir to make it a valued friend to the farmer and gardener. The insect also makes an engaging pet. It will cling to a house plant or a curtain for hours at a time without moving more than a few inches. By feeding them bits of hamburger or corned beef on the end of a toothpick you can keep them alive inside for weeks. But they thrive better on a diet of insects found outdoors anywhere in the garden. The Praying Mantis stands zero temperatures without injury. It has spread along the New England Coast and has established itself in parts of Illinois as well as around Rochester, New York.

Scientists who have studied it for years believe it can be introduced anywhere south of the Great Lakes, including southern Michigan. Statistics compiled by Dr. Henry Fox, formerly of the U. S. Bureau of Entomology, reveal that the number of young Mantises coming from a single egg case run from 125 to 350. We furnish the egg cases attached to a small 8-inch stick, as shown in illustration, which you can tie on to any shrub outdoors.

Egg cases are mailed from January 1 until May 1.

Order at once, please! Only a very limited number of egg cases available at \$3.00 each. Mailed free in strong carton.

For complete and detailed information about the Praying Mantis read Grassroot Jungles, price \$3.75.

Food for Thought as Well as for Your Flowers

Why treat your flowers in a way you would openly resent if done to you? You wouldn't put up with any old food that comes along, so to speak. For your children, you are no end fussy about being sure of their having enough, and the right vitamins. You are particular about a balanced diet.

Plants, anything that grows in the soil, are exactly the same in their food needs as humans.

There are plenty of the "shot-in-the-arm" kinds of ready mixed fertilizers. But, they are mostly only stimulants.

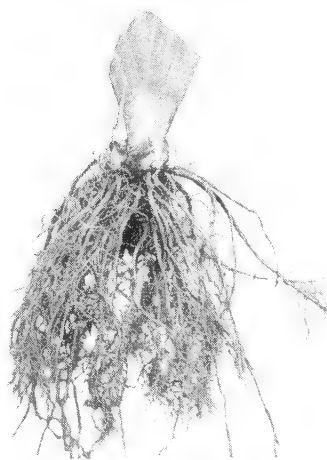

What your plants need is a balanced organic food. Not just a stimulant.

They need one containing in right amounts, those things that make plenty of strong roots; produce good, sturdy stalks, thrifty foliage and an abundance of good-sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

Turn to the next page for full facts about it.

Wayside Gardens Plant Food Helps Us to Grow Plants Like These

THE WORLD'S FINEST PLANT FOOD

So declared by experts. For Bulbs, Lawns, Flower Gardens. Used exclusively at **WAYSIDE** in the production of millions of fine plants. It is whole-heartedly endorsed for our customers.

Thousands of customers and strangers alike have visited **WAYSIDE GARDENS**. They have marvelled at our 600 miles of plants. They have been known to actually gasp for breath at the sheer beauty of 400 acres of flowers brought to such a high degree of perfection. Invariably, they ask us the same question:

"To what do you attribute the superior qualities of your flowers?"

And invariably our answer is the same: "The chief reason for the high quality of **WAYSIDE** products is due to the fact that we use only the very finest Plant Food that skill and money can produce!"

You will agree that we have entirely too much at stake to afford to use any other kind. In addition to the enormous investment represented by our nurseries, we have a reputation to maintain among thousands of the most critical floral customers in the land. We prize and guard very jealously such possessions. . . . Contented only with the best we advise our customers to adopt the same attitude, in order that the fine specimens grown at **WAYSIDE** may be duplicated in your own garden. We recommend only that which we ourselves use.

We Learn from the English

We are indebted to a noted English gardener for the Exclusive Plant Food we use in growing millions of plants of superior quality. Among other things, he said:

"A lawn should not be treated like a hayfield, but like a permanent garden. Therefore, I object to chemical fertilizers for lawns. It is not the **QUANTITY** of grass cut from the lawn each week, but the **DENSITY AND LUXURIANCE OF THE GRASS** which produces the effect of walking over a thick velvet carpet that counts. If you want a thick lawn in which there is no room for weeds, it is essential that you use a properly balanced **ORGANIC Plant Food**—one that sinks deeply into the soil for the grass or plant roots to go after. That is where the moisture is, and you will find it unnecessary to water so much in summer."

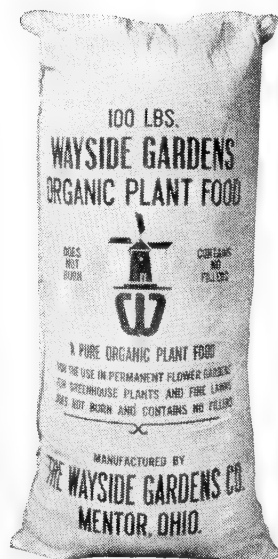

WAYSIDE'S superior Plant Food is made from bone meal, dried blood, ground fish, and muriate of potash, in proportions recommended by the "old country" expert. These long-lasting ingredients, heavy with life-producing qualities, give your flowers a well-balanced diet, containing in just the right amounts those things that go to make strong roots, sturdy stalks, bright green leaves, a profusion of foliage and an abundance of large and healthy blooms year in and year out. It does not stimulate, but nourishes any and all plants and imparts to them a youthful and lusty vigor. It disintegrates slowly. It is excellent to use in bulb plantings as well as in Rose beds, or hardy plant borders. Use it consistently year after year, and your garden will be among the most beautiful.

How to Use Wayside Plant Food

Nor do we need to use much of it to obtain the lasting magical results it produces. Furthermore, it is easy to use and apply. If your garden is an established one, apply twice a year, March first and October first. Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Rock Plants, Roses, Annuals, and other

Flowering Plants, Shrubs and Bulbs. In making a new garden, double the amount and mix with the soil. Planting may be done at once. No burning is possible. For old lawns, use 10 to 25 pounds for top dressing 500 square feet. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results.

Wayside Gardens Plant Food Contains No Useless Weight or Bulk Producing Fillers

A 100-lb. bag for \$7.00; 500 lbs. in bags for \$25.00; 2000 lbs. in bags for \$90.00.

The above prices include free delivery by freight east of the Mississippi.

We particularly recommend our handy and convenient 50-lb. pail, filled with Wayside Plant Food. It has a snug-fitting lid and convenient handle. It is neat and eliminates the usual mess from half-used bags in garage or work room. Pail when empty has many uses.

50-lb pail (net contents 48 lbs. Plant Food) for \$4.75. Freight paid east of the Mississippi.

Detailed instructions with every shipment.

This Plant Food may only be obtained direct from **WAYSIDE GARDENS**. The best proof of its superior qualities is that it is used in enormous quantities right here at **WAYSIDE**. Knowing its value and importance in your garden, we feel no hesitancy in urging you to include some of it in your order for plants.

Spraying — Watering — Cutting

The Many-Purpose HARCO SPRAYER

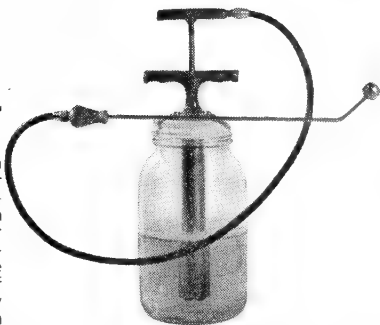

Always Ready for Instant Use

Lives there a gardener with soul so efficient that he never has said, "I won't bother spraying those 2 or 3 plants now, even though they need it. I'll wait until next week and do a complete job on the garden with the big sprayer," and this in spite of the fact that all gardeners know that spraying is one operation which must be done right now before permanent damage is done. In the **Harco Sprayer** we have at last found a really efficient small sprayer. It is always ready for instant use. No cleaning up, no waste. The **Harco** is not a toy. It is a real efficient sprayer at a low price. It will spray anything from shrubs to small house plants. It does its work with a minimum of effort since it is only necessary to squeeze the handles together, leaving one hand free for operating the convenient angled extension-rod with spraying head. Put the spray right where you want it. Can be used inside the house or sunroom, perfect for spraying house plants and seedlings in flats. Grand for freshening up cut flowers. It is simply constructed and trouble free.

Simply keep a quantity of the various sprays in common Mason jars. When a certain spray mixture is needed take the screw top off the jar, screw on the Harco spray unit and you are ready to do the job at hand without fuss or bother.

Shipped without jar. Fits any standard screw top Mason jar.

Each, \$1.95

SOIL SOAKER

Puts the Water
On the Ground
Where It Belongs

Soil-Soaker, open only at one end, screws to the end of the water hose, replacing the nozzle of sprinkler. When the water is turned on, **Soil-Soaker** fills with water—and normal pressure forces water through the pores of the entire surface of **Soil-Soaker**, uniformly, without spray. Easily moved, without shutting off water, or getting wet. Self-cleaning.

LIKE ALL NIGHT RAIN

The soil is soaked deeply and thoroughly, covering an area on all sides of **Soil-Soaker**. Far more beneficial than light surface-sprinkling. Puts the moisture down into the soil.

IDEAL FOR NARROW PARKINGS,
ETC.

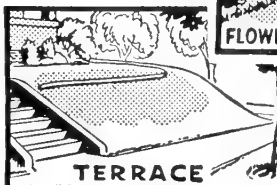

Soaks narrow parkings, narrow flower beds, terraces, etc., thoroughly.

APPROXIMATELY 25% MORE
EFFICIENT

By regulating water flow or pressure at the faucet, all the water may be placed where it will do the most good. Water bills are greatly reduced. And last but not least, the ground is soaked but not the foliage, reducing to a minimum mildew, black spot, and many other leaf troubles caused by overhead sprinkling of flowers.

Offered in Three Lengths

No. 1—18 feet	Each
No. 2—30 feet	\$1.75
No. 3—50 feet	2.75
	4.50

IMPORTED "SOLO" SPRAYER

The Favorite of English Gardeners

The finest tool for the purpose we know about. Does an unbelievably efficient job. Used with a bucket or pail containing the spraying fluid. The best thing of its kind for all places where hose connected sprayers can't reach.

Constructed as carefully as a "Rolls Royce." Will last a lifetime. At the world famous English Test Gardens of Wisley, this one-man double action sprayer received the highest award granted by the Royal Horticultural Society. It does everything you want of a sprayer, and does it better than any other. The double acting plunger works easily. Entirely made from brass with ample hose. This sprayer "has what it takes."

So nicely tooled, it might well be used for birthday or Christmas gift for the most critical person. Comes to you fully equipped. No extras needed. Fully guaranteed. **Fully Equipped, \$6.00**

THE WATER LANCE

For Down-at-the-Root Watering

Don't let the chore of watering your shrubs spoil every summer evening for only one good watering a week is necessary when watered at the roots with the **Water Lance**! Watering from the top induces the roots to grow upward instead of downward and causes the ground to become packed and hard.

Each, \$2.50

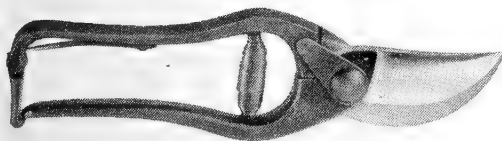

The **Water Lance** will, with scarcely any effort, insert itself almost 3 feet below the surface and irrigate the right place in the fastest possible time.

The entire action of the **Water Lance** is hydraulic; there is nothing to get out of order; and it works equally well in all soils. A real life saver in arid regions where water is at a premium. In two minutes time, one insertion of the **Water Lance** thoroughly irrigates over 75,000 cubic inches of sub-surface ground. Unbreakable, lasts a lifetime.

DOUBLE CUT PRUNING SHEAR

The favorite of Experts and Professionals

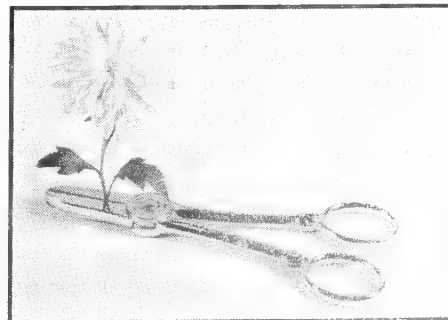

This is the sort of pruning shear that delights the heart of a real professional gardener. Both blades have cutting edges, giving the cleanest kind of cut with the minimum of effort, without damage to bark. Constructed of finest tool steel, will last a lifetime, improves with age.

Each, \$5.50

GARDEN CLUB SCISSORS

Just because "every Rose has its thorns" is no reason why you should come back from a Rose-cutting foray nursing a set of tingling and scratched fingers. The **GARDEN CLUB SCISSORS** will cut and hold Roses or any other reasonably light flower. It is a highly polished, nickel-plated tool of rustless metal with attractive handle. Popular for gifts and prizes. **\$1.35 each.**

P. S.—Also ideal for cutting and serving grapes at the dinner table.

HOSE INSECT-O-GUN

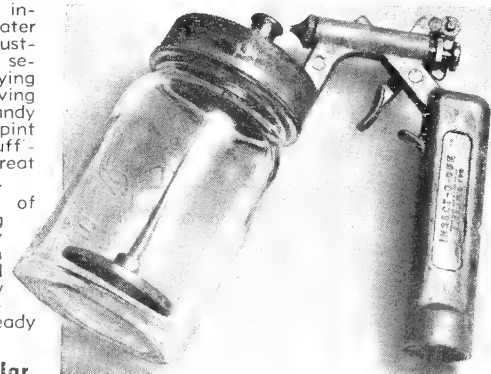

Attached to your garden hose, the **Insect-O-Gun** ejects a penetrating wide-angle "fan" spray with tremendous velocity, reaching every insect in its path with telling results.

The **Insect-O-Gun** can be used with any insecticide requiring water solution. No adjustments necessary to secure correct spraying proportion. No moving parts except the handy trigger. One full 1-pint Mason Jar holds sufficient insecticide to treat the average garden.

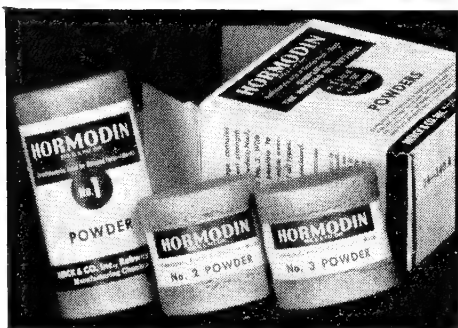

Strongly built of heavy, non-rusting die metal. Any standard pint Mason Jar can be used with the unit. Simply attach to your garden hose and it is ready for instant use.

Without Mason Jar,
\$3.75

Spraying Without

Tanks to Carry

Propagating — Sowing — Transplanting

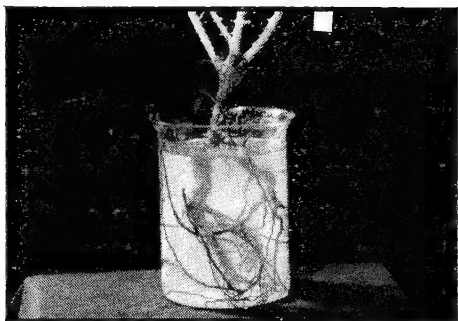

Remember how carefully Grandma used to tend the "slips" from which she was growing new plants for her garden? She didn't always have a very high percentage of success, but in those leisurely days it didn't seem to matter so much. Nowadays we have the "root hormones" to speed up the process and vastly improve our results. HORMODIN comes in three types for different kinds of plants. Instructions making its use safe and simple are contained in each package. It is an easy-to-apply powder without any waste whatever. Priced at right side of page.

HORMODIN (See discussion at left)

A Big Aid In Rooting Cuttings

- No. 1. Powder. For Carnations, Roses and other soft types.
- No. 2. Powder. For many woody and semi-woody types.
- No. 3. Powder. For more resistant types such as evergreens and dormant cuttings.

Combination Kit, 75c

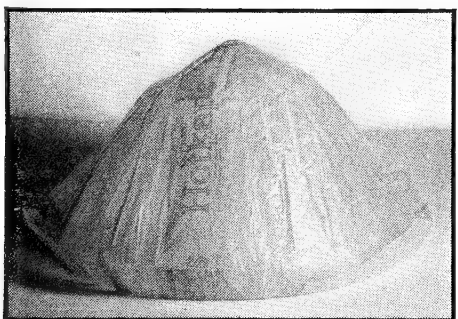

Plants always suffer a shock when being transplanted and at that time can use an extra supply of some one or the other of the known "growth factors" which aid in root formation. TRANSPLANTONE contains Vitamin B₁ and other parts of the Vitamin B complex, plus certain plant hormones which are active in root formation. We at Wayside Gardens find it indispensable and use it on all difficult to transplant plants and shrubs. Prices at right side of page. We particularly recommend you use it at all times. It will start plants into growth much faster.

TRANSPLANTONE

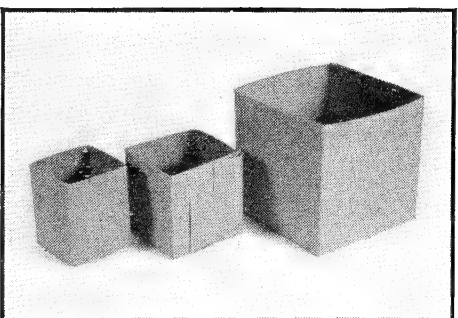

Eliminate Transplanting Losses

This water-soluble powder, discussed at the left, will avoid possible losses in transplanting. Simple to use. Just soak the roots of the plant or shrubs or Roses in a solution according to the easy directions.

- 1-oz. can, 50c, makes 10 gallons of solution.
- 3-oz. can \$1.00, makes 30 gallons of solution.
- 1-lb. can \$4.00, makes 100 gallons of solution.

Ever have your prize seedlings or newly transplanted Roses turn up their toes in the hot sun? Or freeze out in a late cold snap? All this loss and bother is prevented with these miniature hothouses, wax paper transplanting hoods known as HOTKAPS. 50 HOTKAPS, \$1.00; 100, \$1.75; 250, \$3.25; 1000, \$10.00. A special setter suitable for the back-yard garden, 50c. Professional steel setter, \$2.25.

Probably the one biggest nuisance that the serious gardener has to contend with is the storage of clay pots if they are to remain unbroken for next year's use. OSMO TRI-POTS are inexpensive paper pots that are thrown away after use. They take up practically no space until they are needed, but are quickly set into their convenient square shape, allowing them to fit compactly into flats. They come in three convenient sizes.

- 1½ inch, 70 pots, 50c; 150, \$1.00; 1000, \$6.50.
- 2 inch, 60 pots, 50c; 130, \$1.00; 1000, \$7.75.
- 3 inch, 35 pots, 50c; 75, \$1.00; 1000, \$9.50.

"SOWRITE" SEED SOWER

Scatters seed individually. Prevents crowding and choking of seedlings. Eliminates guess-work because you can see each seed dropped no matter how fine. 50c each.

Does a Ticklish
Job Easy—Spaces
Seeds Evenly

Transparent!

THE HANDY HOE

A Tool Ladies
In Particular Will
Enjoy Using

Makes a
Welcome Gift

The narrow flat point works between small plants or bulbs, killing weeds **without effort** or damage to the most delicate seedlings. Overall length, 42 inches. \$1.00 each; 3 for \$2.75.

WIDE BLADE TROWEL

Really Moves Dirt!
No Tired Wrist
No Bending or Breaking

In the nursery, where we set out each year more than 3½ million plants, we have a trowel that will do the work without producing tired wrists, blisters or cramped fingers and, above all, must make the proverbial "dollar hole for a 5-cent plant" to hold all the roots without cramping.

Since there was no such trowel available we designed this one with a broad blade, a smooth solid wooden handle (painted red so you won't lose it), a short shank to prevent tired wrists. 75c each; 3 for \$2.00. (Make welcome gifts.)

SMALL PORTABLE HOTHOUSE

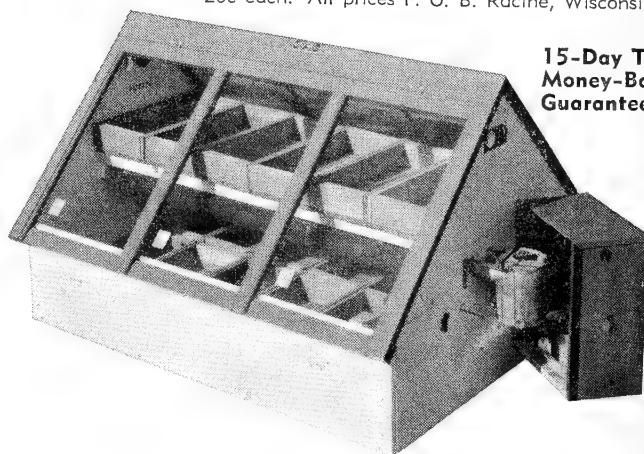

Hot Water Heated (Oil, Gas or Electric) —Thermostat Control

This self-contained and completely portable little hothouse will let you grow earlier, healthier plants from seeds or bulbs. It is glazed with "Lustra" glass which admits more ultra-violet rays. Amazingly economical to operate. A boon to the small gardener who cannot afford a greenhouse.

Model 1—31"x41". Holds 18 flats—oil or gas, \$25.95; electric, \$27.95.

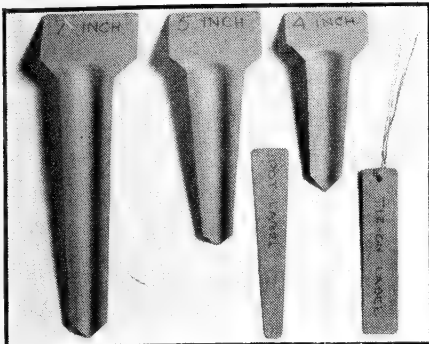

Model 2—31"x67". Holds 30 flats—oil or gas, \$31.95; electric, \$33.95.

Above prices do not include the flats. Flats, 20c each. All prices F. O. B. Racine, Wisconsin.

Labeling — Tying — Arranging

THE PERFECT LABELS

**Permanently Legible
Can Be Used Again and Again**

Marked with ordinary lead pencil these labels are permanent in all garden conditions, above or under the soil. This feature has been thoroughly tested. The material is indestructible. The beautiful gray-green color blends perfectly with the garden picture. They should be set deep in the soil with only the marking space showing. Thus they are inconspicuous and do not interfere with weeding and cultivating. Markings are erasable with pencil eraser. Tie-on labels are supplied with wires in convenient bundles ready bent for attaching.

Perfect Border Label, 5-inch: 12 for \$1.00; 25, \$2.00; 100, \$7.75.

Perfect Rock Garden Label, 4-inch: 12 for 90c; 25, \$1.75; 100, \$6.75.

Perfect Show Garden Label, 7-inch: 12 for \$1.25; 25, \$2.50; 100, \$9.50.

Perfect Tie-On Label, 3/4 x 3 1/2-inch, with wires: \$3.00 per 100 labels.

Perfect Pot Label, 3/4 x 4-inch, tapered: \$2.50 per 100 labels.

EEZY-WEAR GARDEN GLOVES

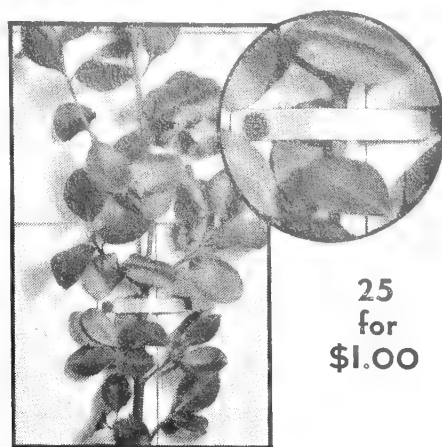

**Durable
Dirt-Proof
Washable
Comfortable
All Leather**

**75c per pair;
two pairs
for \$1.40.**

These popular garden gloves are made from select kid leather specially processed to render it soft and pliable—as well as durable. Permit almost bare hand freedom with perfect comfort, yet insure complete protection from dirt, scratches, bruises, stains. Keep the hands in perfect condition. Economical—outwear six pairs of ordinary fabric gloves.

Sizes for women: Small, Medium and Large. For men: Medium and Large.

**25
for
\$1.00**

"CLAMPUM"—New Vine Clamp

A clever inexpensive and efficient flexible rust-proof metal clip to hold vines in place on brick, concrete, or wooden walls. Something you have been looking for.

A box of 25 clamps for concrete or brick walls or wooden walls. **Price, \$1.00.**

RAFFIA

Palm-fibre used by gardeners for tying plants and bunching vegetables; also used for mats and baskets. **Natural color, braids of about 1 lb. weight, just as pulled from the bale, 60c.** Finest material for tying plants and flowers.

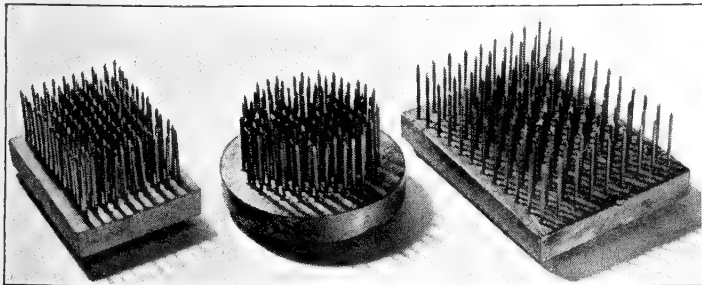

There is only one satisfying way to garden and that's to get right down on your knees and go to it. But knees are tender things. KNEEZIES are bubble-filled rubber pads that quickly snap on and off your knees. They are strong, light, flexible, washable and moisture proof. You can work in the garden right after a rain or while the morning dew is still on the grass. All this comfort and protection for only **\$1.00 a pair.**

Haven't you often thought that dirt gardening would be lots more fun if it weren't for the dirt—when you are trying to clean up for your bridge party afterwards? Here at last is the answer.

Rub a few drops of HANTON onto your hands, then go ahead and do your digging and putting. Afterwards you wash your hands with a little soap and water and presto! dirt, stain, and all disappear like magic and without effort. And HANTON is actually good for the skin as it replaces natural oils.

8-ounce bottles are only \$1.15 or five bottles for \$5.00.

P. S.—HANTON will also prevent ivy poisoning and is referred to as "The Invisible Glove."

"THE BURROUGHS" FLOWER HOLDERS

The heavy lead base and stiff copper pins make this the most useful and practical of all flower holders we have ever used. Holds tall, stiff, heavy Gladiolus spikes in any direction without tipping as easily as a Sweet Pea flower. Comes in three sizes:

Round: Weight 1 1/2 lbs. Diameter 3 inches. **Each, \$1.50.**

Rectangular: Weight 1 1/2 lbs. Diameter 2 1/2 by 3 inches. **Each, \$1.50.**

Rectangular: Weight 2 1/2 lbs. Diameter 3 by 4 inches. **Each, \$2.50.**

3 to 5 Days More Life For Your Cut Flowers

FLORALIFE —

Recommended by
Laura Lee Burroughs, the creator of the
Coca Cola flower arrangement book.

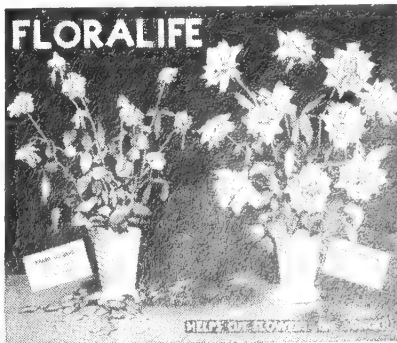

Now you can prolong the life and beauty of Roses and other cut flowers in your home.

Just add a little FLORALIFE powder to the water and enjoy your cut flowers three to five days longer. No need to change water, recut stems or to put in cool place at night. Instructions in each can.

**Large can,
\$2.50 each.**

Each can makes 50 quarts of solution. Measuring cup is included.

CANE CRAFT

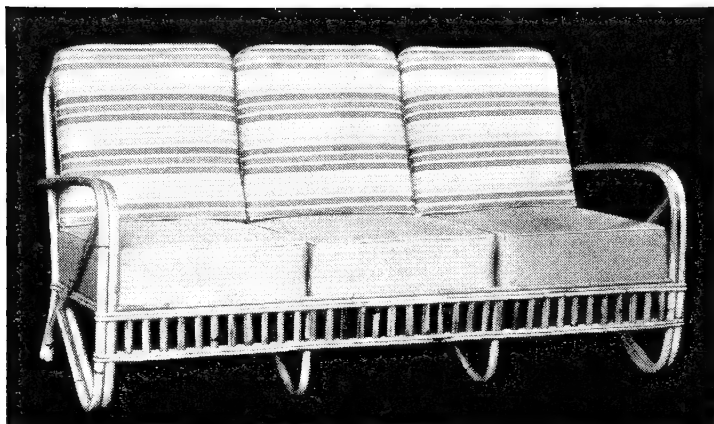

FURNITURE of ROMANCE

for Both Indoors and Outdoors

In design, the Canecraft pieces have a distinction all their own. Designs in charm and pleasingness not possible with any other materials. Designs that, although crisp and up-to-the-times are such as to be "in style" for many a year to come.

Although light as this Canecraft furniture is, it has a surprising strength and staunchness of construction.

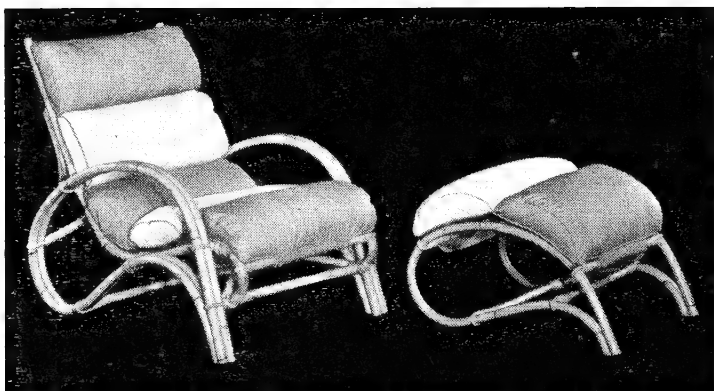

Its nature-glazed surface in a pleasing tan-tone finished with a spar varnish, is impervious to moisture and definitely sunfast in color. The cushions are sun and damp proof.

Three-Person Settee

No. 2001 SU

Seat 60x22 in. Height of back 24 in. Auto seat, spring back. Long enough to stretch out on. Comfort that is welcome at all times. **Delivered price, \$45.40.**

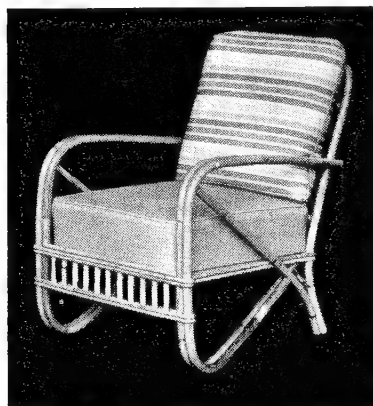

Lounge Chair

No. 2063 CU

The ideal prescription for luxurious lounging. Down kapok filled cushions on chair and footstool offer amazing comfort. Seat width 20 in. Total depth 38 in. Chair seat width 20 in.; chair depth 38 in. Total height of chair 34 in. **Delivered price, \$33.10.**

No. 2263 CU Stool

Kapok cushion. Measures 21x24 in. **Delivered price, \$14.65.**

All-Around Chair

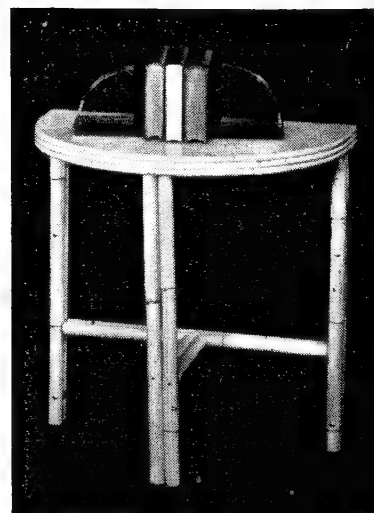

No. 2001 CU

Seat 22x20 in. Height of back 24 in. Matches three-person settee shown at left. The spring back and auto seat fit one just right. **Delivered price, \$18.50.**

Handy-at-Hand Table

No. 2306

A smart chair-side table or end table for a settee. Attractive maple veneer top. Measures 12½x20½ in. Total height 22 in. **Delivered price, \$7.65.**

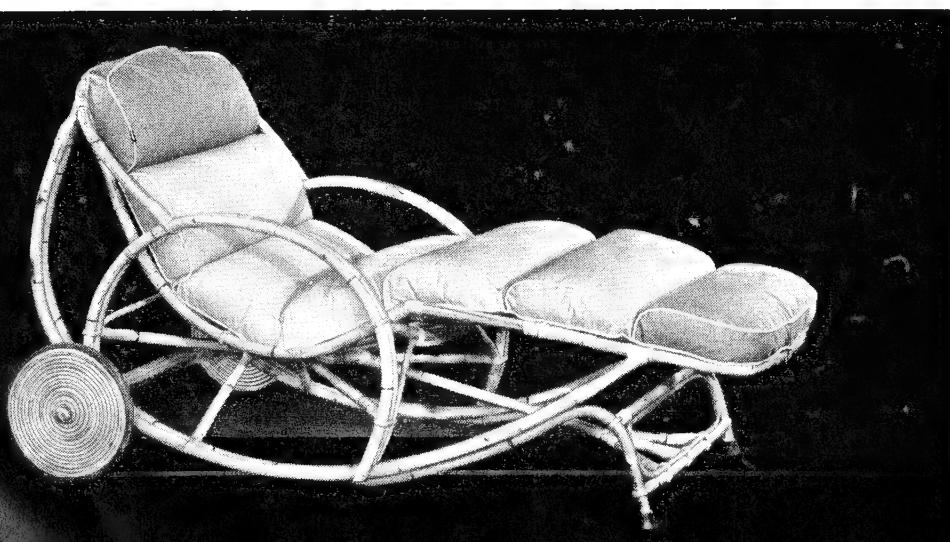

Wheel-About Lounge Chair

No. 2067 CUW

Wouldn't you like this very minute to drop in it and stretch out and forget all but the contenting, relaxing things?

If you are planning for its use on your porch or terrace, when going-in time comes in it will go, too. You will not be satisfied to give up its comfort. **Delivered price, \$65.45.**

[196]

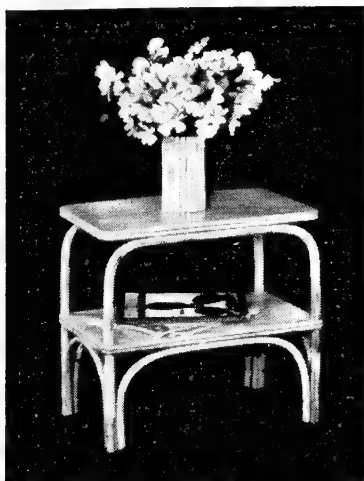

Cushions and Colors

Canetex Kapok-filled cushions come in a range of 9 colors:

Forest Green ... No. 110 A	Yellow No. 115 A
Delft Blue No. 111 A	Chartreuse No. 116 A
Royal Purple ... No. 112 A	Beige No. 117 A
Coral No. 113 A	White No. 118 A
Cocoa Brown ... No. 114 A	

All colors are the same price.

You take no risks in ordering by mail. When it comes, if it's not all we know it to be, and are claiming so unreservedly for it, WE DON'T WANT YOU TO KEEP IT. Simply put it back in the carton and call the expressman to send it back.

End Table

No. 2311

Practical end table with good looking maple veneer top and shelf. Plenty of room underneath for magazines, record albums or radio. Top 13x24 in. Total height 22 in. **Delivered price, \$13.00.**

No. 2311-1

Same table with cork-covered top. **Delivered price, \$14.25.**

Handy Fold-Up Vagabond Hammock

Move with the sun! Or with the shade if you prefer!

This smart Hammock folds up completely for toting about with you.

The modern version of old-fashioned outdoor comfort. Carry one in your car at all times. Made of strong steel tubing with enough give to lend comfort. Hammock is army weight striped canvas in choice of Blue and White, Green and White or Coral and White stripe. Frames are finished in bone white enamel.

Price with any color canvas listed above, \$11.55. Total weight 28 lbs.

[197]

Many Purpose Chair

No. 2075 CB

The peer of all sunroom, porch or terrace occasional chairs. Light, comfortable and cool. Seat and back covered with woven Canetex in colors listed at left. For bridge, dining or occasional use. Seat measures 18x17 in. Back height 17 in. **Delivered price, \$15.20.**

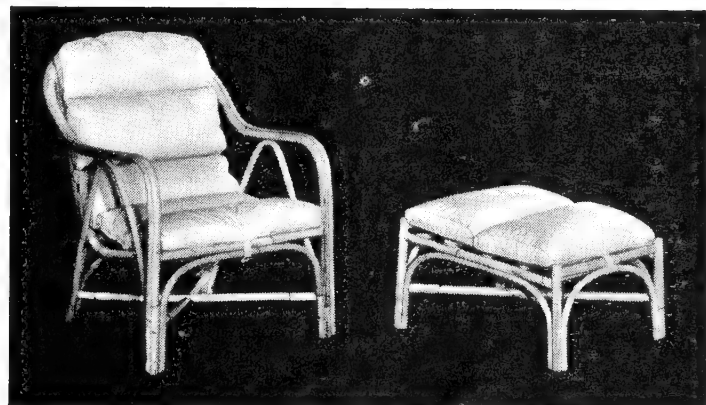

Folding Serving Table

No. 2384

A clever and practical refreshment stand with removable cork top tray. Heavily braced to make it stand firm. Cork top tray measures 15 to 17 in. Total height 32 in. **Delivered price, \$13.50.**

Price of Tray No. 2394 alone is — **delivered price, \$6.55.**

Smart Easy Chair

No. 2064 CU

Maximum comfort in a smaller type ladies' chair. Soft channel cushions filled with Kapok. Seat 21 in. wide by 31 in. deep. Total height 33 in. **Delivered price, \$25.40.**

No. 2264 U

Footstool to match, with Kapok cushion 20x22 in. **Delivered price, \$11.55.**

KNEEELEVATOR

(Kneeling-Elevator)

Combination Kneeling-Pad and Tool Box

If you really work in your garden you are down on your knees much of the time—an effort most tiring. Use a "Kneeelevator" and save yourself bodily fatigue. Gives you real gardening comfort.

Constructed of selected cypress for strength and light weight, with a green sponge rubber kneeling platform that opens. A front trough provides ample space for small tools and all the garden gadgets you wish handy when working. Dimensions, 14¾ inches long by 10 inches wide by 12½ inches high. **Each, \$3.25.**

ORNAMENTAL PLANT TUBS

Smart and Decorative For Porch, Terrace, and Sunroom

These rattan covered plant tubs are strong and rot resistant, designed to last many years. Grow your plants right in these tubs. They come varnished in natural color and may be painted to suit any color scheme.

Tub No. 5 is 10-inch diameter, 9 inches deep. **Each, \$3.75; per pair, \$7.00.**

Tub No. 7 is 12-inch diameter, 11 inches deep. **Each, \$5.50; per pair, \$10.00.**

Tub No. 9 is 14-inch diameter, 13 inches deep. **Each, \$7.50; per pair, \$14.00.**

Tub No. 5

Tub No. 7

Tub No. 9

Also see page 69, showing tub in use.

THE SILENT YARD-MAN

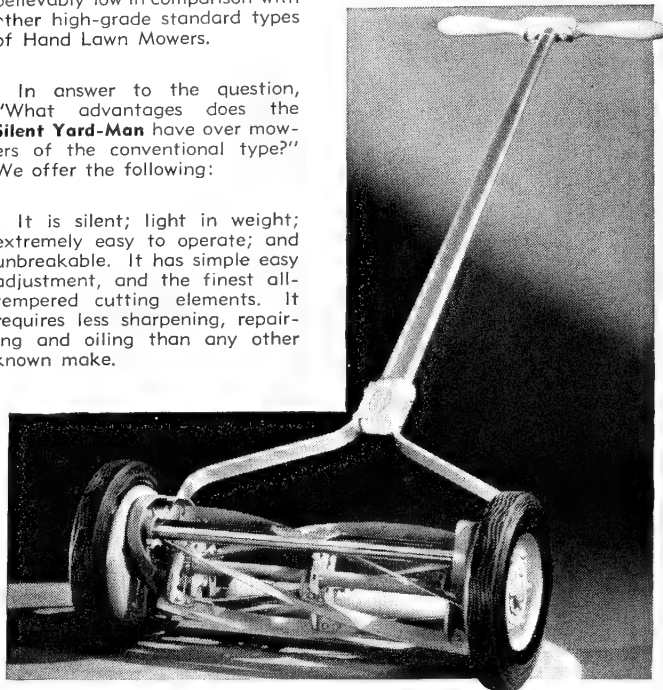

Easy-Running, Trouble-Free Rubber Tire Lawn Mower

The **Silent Yard-Man Lawn Mower** with gear drive and cushion rubber tires represents a deluxe machine, combining light weight, rugged strength, and long life at a price that is unbelievably low in comparison with other high-grade standard types of Hand Lawn Mowers.

16 inch, \$15.95
18 inch, 16.95
21 inch, 19.95

In answer to the question, "What advantages does the **Silent Yard-Man** have over mowers of the conventional type?" We offer the following:

It is silent; light in weight; extremely easy to operate; and unbreakable. It has simple easy adjustment, and the finest all-tempered cutting elements. It requires less sharpening, repairing and oiling than any other known make.

RESULT PROVEN INSECTICIDES and FUNGICIDES

Stomach Poisons, such as Lead Arsenate, are used to combat chewing insects. Examples: Colorado Potato Beetle, Curculio.

Contact Insecticides, such as Red Arrow, are used to combat sucking insects. Examples: Plant Lice, Pear Psylla.

Fungicides, such as Funtrogen and Triogen, are used to combat plant diseases. Examples: Black Spot, Potato Blight, Mildew.

ANTKILLER OR BAIT LETHELIN JELLY

For quick, permanent relief from Ants, Roaches, Silverfish. A clean, odorless ant bait, packed in handy tubes for your convenience. It does not melt or run at ordinary temperatures. **The 3-ounce tube, 85c; 8 ozs., \$1.75.**

HOW IT WORKS

Ants' taste is so keen, they quickly detect usual poisons and stop feeding before the colony is destroyed. The slow-acting toxic ingredient in Lethelin Jelly is tasteless, but combining it with attractive elements makes them prefer it to their favorite foods. They eat it greedily and live long enough to carry it to their nest to feed the queen and young, wiping out the whole colony.

TRI-OGEN FOR ROSE BLACK SPOT

An insect spray and fungicide for garden and greenhouse plants. Especially recommended as a rose-garden spray treatment. Will control every pest and disease that attacks the rose garden during growing season. Stimulates plant growth; harmless to foliage or blooms. Does three separate jobs in one spraying. Tested and used by rose and plant growers the world over.

Combined as a kit. Small kit, \$1.50; medium kit, \$4.00; large kit (makes 32 gals.), \$6.00. Sold only in the above units.

FUNGTROGEN FOR MILDEW ON PLANTS

Controls mildew and black spot. A highly concentrated fungicide invisible on the foliage or blooms. It is the noted Rosenbluth formula combined with the plant stimulant—Hortogen—that results in plant vigor and superb foliage.

Fungtrogen is an effective and scientific preventive and remedy for mildew, black spot and other fungus diseases of roses. It also prevents mildew and black spot on Phlox, Chrysanthemums, Hollyhocks, Delphiniums, Sweet Peas and Evergreens, and is endorsed by leading rosarians. Fungtrogen is a complete spray, ready to use when mixed with water to sixty times its volume.

Prices: ½ pt., 75c; 1 pt., \$1.25; 1 qt., \$2.00; ½ gal., \$3.50; 1 gal., \$6.00.

ASTOGEN SOIL INSECT KILLER

A control for soil insects attacking Asters, Calendulas, Columbine, etc. It also assists in preventing stem rot and yellows. **2 lbs., 75c; 5 lbs., \$1.50; 10 lbs., \$2.75; 25 lbs., \$5.00.**

RED ARROW SPRAY KILLS ALL PLANT PESTS

The most highly concentrated pyrethrum insect spray on the market. Red Arrow is an exceedingly powerful non-poisonous insecticide, especially adapted to agricultural and horticultural purposes, both under glass and in the open. Very effective against insects in poultry houses, kennel, and dairy barn. Also deadly for worms, beetles, and ground insects.

Does not burn or stain flower, leaf or fruit. When used on fruits and vegetables, it eliminates washing because with Red Arrow there is no poisonous residue.

Red Arrow is as nearly a perfect spray as you can buy because it will kill 100 per cent of more varieties of insects than any other non-poisonous insecticide. Deadly to insects—but harmless to children, pets, valuable wild bird life and soil.

Red Arrow is pleasant and easy to use. It has no dangerous fumes or unpleasant odors and needs only to be mixed with water.

1 ounce, 35c; ¼ pint, \$1.00; 1 pint, \$2.50; 1 quart, \$4.00; 1 gallon, \$12.00.

SNAROL

Cutworms, slugs, snails, grasshoppers, and other annoying pests are quickly exterminated by this amazing new preparation. Snarol is a ready prepared meal that you simply broadcast on the ground—under the flowers and plants. Water will not harm it. **1½-lb. carton, 35c; 4-lb. carton, 85c; 15-lb. bag, \$3.00; 50-lb. bag, \$8.00.**

It's Easy to Order by Mail from Wayside

NEW CUSTOMERS ARE INVITED TO READ THIS PAGE BEFORE ORDERING

The business of Wayside Gardens is conducted each year with many customers—and is based upon **confidence and co-operation**. By its very nature most of our shipping must be done during only a few weeks in each year. At the peak, hundreds of orders are filled daily.

Your Confidence in Wayside

We appreciate your confidence in ordering from us—and reciprocate this confidence by our guarantees. Based on many years' experience we have worked out systems for handling orders expeditiously and correctly with a minimum of annoyance to the customer.

However, you can help us, and enable us to give you the best possible service, if you will order early.

When to Order

Early planting and successful results go hand in hand. Plant as soon as the soil in your garden is in a workable condition. Transplant plants while they are dormant. Order early if possible, it takes time to carefully prepare your order for shipment.

Plants Are Freshly Dug

Each order is dug fresh from the field and stock is shipped immediately after it has been packed, that same day. There is no loss of root strength or vitality.

It is this class of stock and prompt service that has made Wayside Gardens the best liked and most reliable nursery in this country.

Report Errors Promptly, Please

Errors are possible during rush periods. Therefore, check over plants immediately upon receipt. If any plants or bulbs have been damaged while in transit, or if shortages occur, notify us promptly, and correction will be made immediately, or new stock sent without charge for that which might be damaged. We desire that you have nothing but the best.

Small Purchases

We have based our prices of plants, roses, shrubs, and bulbs in this catalog on the assumption that orders received will be \$3.00 in value or more. If your purchase is for a lesser amount it will be a privilege to serve you, but please add 35 cents service charge to your remittance. Handling small orders in any nursery requires a great amount of labor and is very expensive. Orders for less than \$3.00 for seeds, sundries, or books do not require this extra 35-cent service charge.

Shipping Directions Are Desirable

All plants and bulbs will be shipped at the proper time for planting in your locality. This often requires two or more shipments. If there is a special date on which you would like to receive your order, mention it on the order blank. Shipments will be made by parcel post or express, at our option, unless specific instructions are received.

Convenient Remittances

Your remittance and your order will be acknowledged when received. Checks, money orders or bank drafts may be used. Currency should be sent only by registered mail.

C. O. D.—We will gladly forward your purchase collect on delivery, if desired. Charge accounts can be arranged upon request.

Wayside's Guarantee

We guarantee each order we send out to be in first class condition. We guarantee each shipment to reach you safely and undamaged. We guarantee to replace any of our products that do not come up to our claims and descriptions or your expectations, or to refund your money in full, including any and all transportation charges paid by you.

Replacements

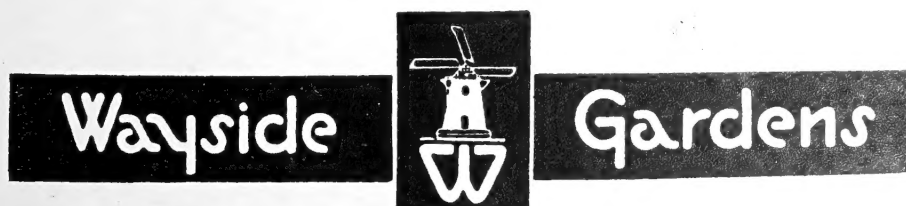

We guarantee each flowering plant will bloom if you but follow our simple cultural instructions and give it reasonable care. Of course, you would not expect us to replace plants lost due to uncontrollable weather conditions, carelessness, neglect or inexperience.

Transportation Charges

It is impossible to predetermine the size and weight of roses, shrubs, or hardy plants; therefore, transportation charges are not included in the purchase price. All seeds are delivered free.

A notice of the correct amount of postage we have advanced will be found inside the package, which you can refund us in postage stamps at your convenience.

Unlike Other Commodities, Nursery Products Are Ordered In Advance
